## Tiny Home Survey

1. Have you ever considered living in a “tiny home”? Why or why not?
2. What are your initial thoughts on living in a tiny home as a UD student?
3. What major problems or stigmas do you associate with living in a tiny home?
4. How much space do you *need* for your living space? How much space do you want?
5. If you were to live in a tiny home community, would you willing to share community bathrooms? What about community cooking areas?
6. If you were to live in a tiny home, what would your reasons be for doing so?
