Mile parents doctors but seemed upset I didn't want to come over

sports cancelled

so people have started doing instagram challenge to keep busy, or distract

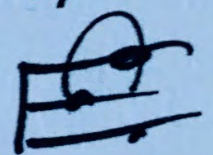

starting to feel like isolation cannot do any thing super fun

What will change after?

Dear Data // Project Notes

- Custom key, combine w/ Data
- Data is often color coded (Symbols also help differentiate)
- Less colors make easier to understand
- often custom graphs will represent different data sets, notes will label
- Personal voice, one opinion are also expressed on scales, or v/symbol
- Music to represent complaints & exi
- Arrows, lines to separate Data
- custom Graphs are used 
- Color & symbol convey more in less space
- Different writing styles separate DATA
- Drawings and Patterns overlap, symbols to convey data sets
- To and from, personal notes
- How to read Labeled clearly
- calendar sometimes helps ex: time
- Week G is always present
- Personal illustration
- abstract pic, data seen second
