

DEAR DATA — COVID-19

A WEEK'S INFORMATION FROM DIFFERENT LOCATIONS MARCH 2020

ABOUT THE DATA

This data illustrates my experiences with COVID-19, specifically where I was when I received news about the virus, and where the news originated

HOW TO READ IT

The layout of the postcard is based around a map of places I visited in this week of collecting data. Reading in order of left to right the cities read Louisville, Cincinnati, Dayton, Columbus, Erie, and Buffalo. Each color corresponds to a different place on and off the map, and each experience I recorded in my data is indicated with two circles around the city center point

EACH ELEMENT IS

-  COLUMBUS, OH
-  LONDON, UK
-  LOUISVILLE, KY
-  ERIE, PA
-  DAYTON, OH
-  BUFFALO, NY
-  CINCINNATI, OH
