severe acute respiratory
syndrome coronavirus 2
SARS-CoV-2

3,090,445
confirmed cases
global scale

217,769
confirmed deaths
global scale

82,463
new cases
global scale

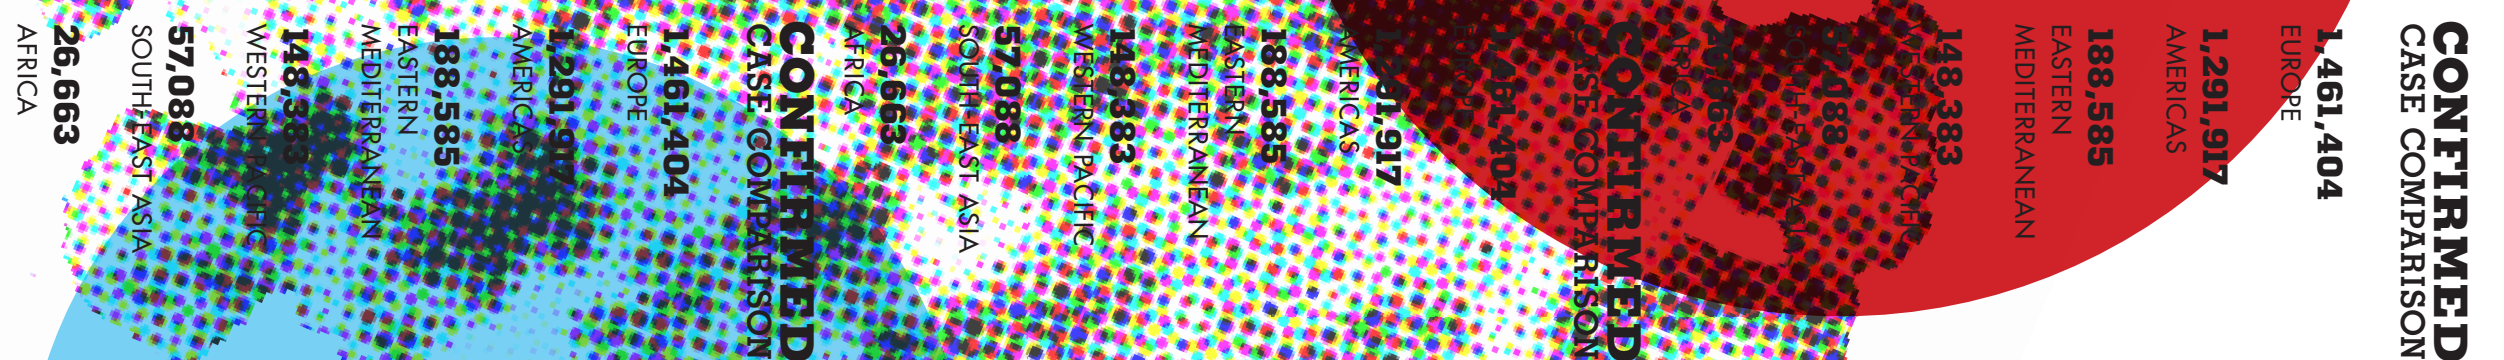

World Health Organization (WHO) announced "COVID-19" as the name of this new disease on 11 February 2020. Official names have been announced for the virus responsible for COVID-19, previously known as "2019 novel coronavirus", and the disease it causes.

In COVID-19, 'CO' stands for 'corona,' 'VI' for 'virus,' and 'D' for disease. Formerly, this disease was referred to as "2019 novel coronavirus" or "2019-nCoV". There are many types of human coronaviruses including some that commonly cause mild upper-respiratory tract illnesses.
