**THE LIBERAL ARTS: HEART OF THE MATTER**

Part II, continued from March

*ED. NOTE:* Last month we discussed the philosophical backgrounds of the liberal arts or as it has sometimes been called "general education." In addition we traced the background of the art department and its connection with the Dayton Art Institute.

With this article we will complete the series discussing each of the campus departments and their programs.

**THE LIBERAL ARTS:**

The objective is as much the intellectual exercise in logic and thinking as it is the actual language proficiency for itself.

The music department functions not alone in the liberal arts program. It also does a job in teaching teachers to teach music within the education department.

In addition, it, like the art department, offers its own degree, the bachelor of music. Roughly half of the work in this program is specialized music courses.

There are now four full-time members of the department including Chairman Maurice Reichard, '35; Betty Thomas, '44; Veryl Zech and Lawrence Tagg.

Over and above being dean of the college of liberal arts and sciences, Rev. Edmund Rhodes, S.M., is the chairman of the department of philosophy as well.

In many ways the philosophy courses are the core of the liberal arts at UD. For all students must have at least a minor in

philosophy. May we repeat the statement from the catalog quoted in the last issue, "The University regards a special feature of its educational program the training given to all its students in the field of philosophy in order to achieve the objectives of life integration, character formation and responsible citizenship."

Political science is right now one of the smallest of the departments within the program in terms of number of faculty. Bro. Albert Rose, S.M., is chairman with Bro. Richard Liebler, S.M., assisting him.

The influence of the department outweighs its size, however. Both men are constantly on the go and are much in demand to speak before groups in the city.

On campus they are constantly at work keeping their materials up to date with the latest reference materials and documents of all kinds.

Their students go in three directions—law school, foreign service and civil service, according to Bro. Rose.

A department which has become very active in the last year or two is the psychology department. Rev. Raymond Roesch, S.M., is chairman with Mrs. Margaret Gallico, Harold Bevan, Dr. Charles Scheidler, Dr. Antos Rancurello, and Lloyd Rensel, '43.

Much work has been done in strengthening the courses and presentations in the department and they cooperated wholeheartedly in the self-evaluation of the education division which has been carried on during the last year.

The department has established a new set of offices in Chaminade Hall, including some experimental testing rooms.

The basis of all good education whether or not it be Catholic should be religious principles. UD's insistence on the place of religion in the curriculum is one of its great strengths.

Fr. Edwin Leimkuhler, S.M., is chairman of the department of religion assisted by Fr. Charles Hofstetter, Fr. Philip Hoelle, Fr. Francis Rocha and Fr. Bernard Stueve.

Fr. Leimkuhler also serves as chaplain for the University in charge of all its religious functions as a university.

Dr. Edward Huth, chairman of the department of sociology, has a national reputation to such an extent that he is currently completing the second year of a two-year term as president of the National Catholic Family Life Conference, an organ of the National Catholic Welfare Conference in Washington.

The other member of the sociology department is Mr. Nicholas Kaschak.

Starting with general sociology and continuing through urban and rural social work, and community organization, the department also offers a course in police administration which has attracted some interest.

Rev. Charles Preisinger, S.M., is the head of the department of speech which includes John McGrath, George Biersack, '52, and Robert Shea.

The accent in the speech training is on giving each student some lasting experience and training which will help him in his future life.

In addition the men of the department also handle the University Players, and Biersack handles the Dayton Educational Television Foundation and television courses on the campus.

Each and every department adds its bit to the entire picture of good, basic liberal arts training in the Catholic tradition, giving broad education to its students.

Ofttimes these days this good, solid but unspectacular job is missed by many people. Its importance can never be overrated.
Does local industry hire our graduates? The answer is a resounding yes. And to look at one of these industries and see just what kind of jobs our graduates are doing, we took a trip around the Frigidaire Division of General Motors a few weeks ago looking for UD alums on the job.

As you know, Frigidaire is one of five General Motors Divisions in Dayton and we chose them because we found they had recently surveyed their employees to see from which college or university they came.

Right away we were given a list of 78 ex-Hilltoppers who were on the payroll at one of the five plants of Frigidaire in the City Beautiful.

Before we were half through walking the miles of aisles past hundreds and hundreds of machines, halls with scores of doors and oodles of offices, we found that the UD alums at Frigidaire are making a large contribution to the success of the company.

Some of the men graduated 30 years ago, some as little as two or three years ago. And we found, not surprisingly either, that there is another large gang of the Frigidairians currently enrolled in our night classes. Something over 110 future alumni on the books now.

The largest group in any one department turned up behind those well-guarded portals in Research and Future Products. The assistant chief engineer in charge, R. E. "Dick" Gould, told us proudly of "his" boys from UD.

They’re engineers and junior engineers, project engineers, members of the test group and on the drafting board. What they’re working on we’ll have to wait-to find out but you can bet it’s all very interesting.

Our list had eight names on it in that office but we found that one, Elmer P. Jira, ’54, had worked there while a student and was now in the Army. Larry Passalacqua, ’52, was in Detroit on special assignment; and J. E. Lorenz, ’54, had just left on military leave.

Then we took a walk. Those we saw surrounded this article in the pictures we took. Those we didn’t see but heard about are doing well. In fact, we didn’t hear a sour word or criticism of any UD’er on the whole trip.

Such fellows as Bill Wise, ’31, who is general foreman of the process lab down at plant three and his two men, Charlie Benefield, ’38, process engineer and Carl Kratzler, ’52, in manufacturing process.

P. J. Buckley, ’30, and E. J. Krach, ’30, in the tax and insurance department; Howard Houser, ’34, in the product planning appliance sales department; and R. L. Mercer, ’36, appliance engineering.

Then there’s Marvin Talmage, ’43, in the commercial product application department. Hubert Kline, ’32, director of industrial hygiene and sanitary engineering and his twin brother, Alison, an engineer.

Jack Bramlage, ’26, is back in Dayton from New York and is supervisor of branch budgets.

R. S. Choate, ’35, is foreman of factory service.

Other fellows round and about the plants include: T. E. Davidson, ’51, and Robert Mercer, ’36, in appliance engineering department.

Then there’s J. A. Erickson, ’52, in the office manager’s office; Charles A. Fehringer,
IN HOUSEHOLD ENGINEERING: L-R: Marion Tucker, '48; Carl Petkwitz, '25; Dave Siebenthaler, '35; Earl Moorman, '49; and Al Kuhn, '30.

PROCESS ENGINEERING AT PLANT 2: Jack Cherry, '51; Howard Monnin, '51; and Clyde Brenner, '49.

'43, in the Canadian and export department; and G. T. Federspiel, '50, in commercial sales planning.

Over in credits and collections there's Elaine Glossinger, '44; J. W. Porter, '53, is in the order and billing department; and in auditing there's N. Smith.

R. H. Johnson, '27, is the general foreman of factory service; F. B. Moorman, '26, is superintendent of maintenance in plant 4 at Moraine City; Eugene R. Sprinkel, '42, is general foreman of the electricians; Donald F. Stine, '30, is foreman in the process specification division.

James Hartzel, '49, is in appliance market research; Wallis Moore, '52, is in the traffic department.

Louis "Frosty" Suttman, '51, after a period with the Parade of Progress, is now in product service.

Charlotte M. Wentz, '42, is working in the sealed-in unit warranty service department.

Elmer Will, '37, is manager of the southeastern zone in commercial zone sales and travels about three weeks out of four in his territory.

John Will, '29, is in the product warehousing and shipping end of things.

A flock of engineering jobs are held by these fellows: Ed O'Toole, '40, in air conditioning engineering; Tom F. Page, Jr., '54, in material and process engineering; J. W. Vannordsall, '53, in manufacturing process; Vic Williamitis, '38, and W. H. Wilson, '48, in material process engineering along with J. W. Woeste, '48.

A wonderful bunch of guys doing some big jobs for a big company in a big way to make us all proud of them.

APPLIANCE SALES PLANNING: Clarke Kirby, '41, supervisor; Dick Howe, '44; and Bob Ames, '50.

RESEARCH AND FUTURE PRODUCTS MEN: Mike Kerezsi, '41; Dave Timmer, '48; Bob Kral, '50; Jim Miller, '50; and Jim Jacobs, '54.
He may be the youngest college president in the United States. That’s Rev. Robert R. Mackey, S.M., ’43, who at 34 has been named as president of the new St. Louis Junior College in Hawaii.

The college is the newest educational unit of the Society of Mary and will open for students next fall. For the time being the program will be limited to the liberal arts in a two-year course leading to the Associate in Arts degree.

Fr. Mackey went to the Islands last summer after teaching at St. Mary’s College in California.

He has spent the last year in familiarizing himself with the educational problems of the Islands and talking to high school students individually and in groups about their problems.

In announcing the opening of the college Fr. Mackey said, “Everyone realizes that facilities in the existing, and in the projected institutions, will not be adequate to meet demands of our young leaders who are graduating from high school.

“Our objectives will remain the same that have inspired our educational policies and practices for almost 75 years in these Islands. We believe that a liberal arts program permeated with a sound philosophy recognizing the Fatherhood of God and the Brotherhood of Man is the best expression of our principles of higher education.”

Rev. Florian Enders, S.M., Dies Unexpectedly

A familiar face on the campus and at all UD sports events has disappeared.

Rev. Florian Enders, S.M., assistant professor of philosophy, died suddenly on Friday, February 18.

He had been taken seriously ill the previous Sunday evening with an inflammation of the pancreas.

Fr. Enders joined the Society of Mary in 1921 and was ordained in 1937. He joined the UD faculty first in 1942 and became a member of the philosophy department in 1944.

His warm smile and interest in all his students and his winning ways in the classroom are already being missed.

ENGINEERING GRADS COMPLETE GOOD RECORD

UD grads who have taken the examinations of the Ohio State Board of Registration for Professional Engineers have maintained a consistently high record, according to the results of a study made by Bro. Andrew Weber, recently retired professor of mechanical engineering.

His study covers the last eight years during which alumni of the five engineering departments of UD took the exams for full registration or for engineer-in-training.

Indicative of UD’s standing is the fact that Anthony J. Evers of the class of ’53 scored highest in the state in the electrical engineering exam with a score of 99. On three previous occasions UD grads have also scored high in the state. Harry F. Gaekte, ’49, was high in civil engineering, and Dale Goubeaux, ’51, was high in mechanical engineering.

Over the eight-year period, UD has had 91.3 per cent of those taking the exam pass it. In 1948 all UD students taking the test passed it.

I WAS A POLIO PIONEER
The Story of the Polio Vaccine Evaluation Center
By One Who Was Part of It

ED. NOTE: Jim Tumbusch, '52, was loaned to the University of Michigan's Poliomyelitis Vaccine Evaluation Center by the Communicable Disease Center of the U. S. Public Health Service. We asked him for permission to tell his story, which is presented in his own words below.

Jim was granted his bachelor of science in math at UD in 1952 and a master of mathematical statistics degree from Purdue University in May 1954.

He was then assigned to the Epidemic Intelligence Service Unit of the USPH Communicable Disease Center in Atlanta.

The Salk poliomyelitis vaccine is composed of the three known types of virus, killed by formaldehyde and diluted in aqueous solution. The theory behind the use of the vaccine is the following: A person contracts polio when one of the three types of virus invades the body.

The presence of the virus causes building of anti-bodies in the blood and thus the person is immune to that type. The vaccine contains the killed virus, which will not cause disease but will create anti-bodies to all three types.

Announcement was made in the fall of 1953 by the National Foundation for Infantile Paralysis of its decision to conduct a large field trial in the prevention of polio with the Salk vaccine.

The University of Michigan was chosen as the center and the university officials agreed to provide facilities for the Center directed by Dr. Thomas Francis.

Selection of the field trial areas was made by consideration of those cities or counties having a consistently high previous polio rate and other factors such as the availability of adequately organized local health departments.

Two basic types of areas were included in the study: Observed Control Areas, wherein all participating second graders were vaccinated while the first and third graders were kept under observation for occurrence of polio in comparison with the second graders. There were 127 observed areas in 33 states with a total enrollment of 1,080,680.

Placebo Control Areas wherein the first three grades were combined—half of the participating children received the vaccine and the others received a solution of similar appearance called a placebo which had no influence on immunity. There were 84 placebo control areas in 11 states with an enrollment of 749,236.

The placebo areas yielded conclusions which are statistically more sound. There are two reasons for this (a) in the placebo area the children receiving the vaccine were known only at the Center in Ann Arbor and doctors examining possible cases would not tend to disregard mild symptoms in the case of a vaccinated child—if they did the results would be biased toward the vaccine; and (b) in placebo areas one need only compare vaccinates with placebo children to test the results, but in observed areas it was difficult to choose comparison groups due to age differences and environmental differences.

The Ohio areas in the study—Montgomery and Richland counties—were placebo control areas. Blood samples were taken from two per cent of the children in all areas in order to evaluate the ability of the vaccine to create and maintain certain anti-body levels.

Much of my time was spent in evaluation of methods for analysis and presentation of the laboratory results from these blood samples.

Each child in this sample was bled three times, before inoculation, one week after the three inoculations, and five months after the inoculation schedule in order to determine how long a certain anti-body level would be maintained. This will determine whether a child will need additional vaccination at some later date.

The tremendous clinical program was accomplished according to plan during April, May and June 1954. The first part of the evaluation was that of collecting and verifying basic information on each of the 1,829,916 children in the study.

The data on each child were placed on punch cards, and tables describing the population were prepared, which would serve as denominators over which discovered cases would be placed. Thus polio attack rates in vaccinated versus control groups would be determined.

The second stage of the evaluation was the discovery and investigation of all cases or suspected cases of polio in the study group. The various steps in the investigation were: initial case report, clinical and epidemiological report, muscle evaluation for paralytic status, and laboratory study of the stool and blood specimen. The cases were thus classified into non-paralytic, bulbar, paralytic, etc.

I took part in many conferences with members of the staff concerning statistical techniques necessary in the evaluation. Various facets of the program were discussed including selection of a representative sample of children from the study population in order that a survey could be made of socio-economic characteristics of certain groups; consideration of the proper group to be used as controls in the observed control area; consideration of the method to be used in the analysis and presentation of laboratory data on the anti-body level of the paired blood samples from the study children; and drafting various tables and charts for use in the final report of the evaluation.

During my assignment in Ann Arbor, I was also responsible for several routine jobs of interest to the evaluation staff.

These include the compilation and classification of all 1952, 1953 and 1954 polio cases from the 6-9 year age group in the study areas. Further, accurate estimates of the population in the same age group were obtained so that case rates could be computed. The comparison of the 1952 and 1953 rates with those of 1954 gives a rough idea of the efficacy of the vaccine since the 6-9 year age group coincides roughly with the first three grades.

My assignment in Ann Arbor was for a period of six months. The Ohio Department of Health had previously requested the services of a statistician. Thus, I received orders effective February 15 transferring me to the Ohio Department of Health, where I am now biostatistician for the Division of Communicable Diseases for the department.
FIVE NEW TEAMS TO INVADE UD FIELDHOUSE

Five new teams will invade the University of Dayton fieldhouse next winter as Flyer fans get a look at some of the old "toughies" in a schedule spiced with these newcomers.

A 15-game home card and an 11-road game schedule highlighted by the Kentucky Invitational Tournament at Lexington, Ky., has been announced by Harry C. Baujan, UD athletic director.

Tommy Blackburn's Flyers will open the season Dec. 1 against George Pepperdine of California, one of the five new teams on the schedule. Other new faces are the University of Idaho, Washington and Lee, Seattle and St. Francis of Loretta, Pa.

The Flyers defeated St. Francis in overtime in the semi-finals of the NIT but the Pennsylvania school will be making its first appearance in the fieldhouse.

In the Kentucky tourney, which will be played Dec. 20-21, will be Minnesota of the Big Ten, Utah of the Skyline conference, Kentucky of the Southeastern conference and independent Dayton.

The Flyers will also return to Madison Square Garden where they will meet Iona and Dayton will get a look at Loyola of the South's new fieldhouse in New Orleans where the Sugar Bowl basketball tourney will be held. The Flyers will meet Loyola there Feb. 4.

Home-and-home games with Louisville, Duquesne and the three traditions—Cincinnati, Miami and Xavier—are scheduled. Back on the cage card after a year's absence are Eastern Kentucky and Chicago Loyola.

Jack Butler Joins Dayton Grid Staff

Newest member of the Flyers' coaching staff is young Jack Butler, a St. Bonaventure graduate who came to Dayton out of the pro ranks.

Butler, 26, played no high school football but heard nothing else from two roommates at the Bonnie school so decided to try his luck. There he played end for Hugh Devore and later Joe Bach.

Upon graduation in 1951 he joined the Pittsburgh Steelers and was with them until joining the Flyer staff. Butler played a defensive halfback when the Steelers had the ball and upon occasions took a swing at offensive end.

In that respect he was a parallel of Clive Rush, who performed these chores for Green Bay. Rush now is with Woody Hayes' staff at Ohio State. Butler will handle the varsity ends and the frosh squad next fall.

Butler's home is in Pittsburgh and he spends his off-season months in the smoky city.

HERE'S FLYER GRID CARD

A nine game football schedule for Coach Hugh Devore's 1955 Flyers has been announced. However, Harry Baujan, UD athletic director, reported that he still is seeking an additional home game.

The Flyers will play five of their nine games at night. The Chattanooga game on October 29 has been designated as Homecoming.

How Green Is My Valley?

Face lifting started early on the hilltop. The puffed pork-chop was deflated for the last time one Friday night in May and on Monday the stadium was well on its way to a bald eagle coiffeur.

Plush green carpets are to await Flyer grid warriors next fall not only in the stadium but on the practice field as well. Dayton is graduating from the ground glass and gravel environments to green grass where young men can bounce off the ground without leaving part of their hide behind.

The University, which installed a sprinkling system in the stadium last summer, has already installed one on the practice field and as soon as the stadium is finished, sodding of the practice area is to get underway.

A Helping Hand

Once again the Flyers Club Inc. came forward this spring to ask how it could help. A campaign climaxed by the spring football game brought in added revenue to assist in the renovation projects. Paul Heckman and George Strassberg served as cochairmen of the campaign.

Jack Brown and Hank Malloy were game co-chairmen; Bill Lemhaus was trusted with the money and Bud Walters handled publicity.

Pep's Poops

Wanna get inside dope . . . be sure to send in that order for press books . . . see the back cover of this Alumnus . . . Lootenants are in the nooz . . . Andy Zulli of the Army came up to see the spring game . . . Don Donoher, also Army, is in Germany . . . Tony Kramer, Marines, is back in this country . . . Bobby Recker will coach new St. Francis De Sales High in Toledo . . . civilian and ex-Marine Danny O'Brien has left Chaminade for Cuyahoga Falls High this fall.

Villanova, Memphis State and the Golden Gusties of Gustavus Adolphus will be met in Dayton with Toledo and Canisius other road opponents.

The complete schedule follows:

Dec. 1……………… George Pepperdine
Dec. 3……………… Gustavus Adolphus
Dec. 7……………… Miami (O.)
Dec. 10……………… at Toledo
Dec. 14……………… University of Idaho
Dec. 16……………… at Cincinnati
Dec. 20-21……… Kentucky Invitational at Lexington, Ky.—Kentucky, Minnesota, Utah

Jan. 5……………… Duquesne
Jan. 7……………… Iona at Madison Square Garden
Jan. 14……………… Canisius at Buffalo, N. Y.
Jan. 18……………… Villanova
Jan. 21……………… Xavier
Jan. 28……………… Louisville
Feb. 1……………… Loyola of Chicago
Feb. 4……………… Loyola of the South at New Orleans, La.
Feb. 8……………… at Miami (O.)
Feb. 11……………… St. Francis (Pa.)
Feb. 15……………… Memphis State
Feb. 17……………… at Louisville
Feb. 19……………… at Xavier
Feb. 22……………… Seattle
Feb. 25……………… Eastern Kentucky
Feb. 29……………… at Duquesne
Mar. 3……………… Cincinnati

UD Alumni June 1955
Flyers and Red Raiders Head for Crash Landings

Ron Finotti (61) and Al Shanen (67) head for crash landings as Red Raider quarterback Vic Kristopaitis (10) charges up to upset White Knights' Johnny Bettiger (40). Raiders failed to contain Bettiger who scored twice as Knights won 34-0 in spring clash.

FLYER GRIDDERS BANK FIRES OF HOPE; BETTINGER WINS LT. KURDZIEL TROPHY

There was a touch of Bobby (Ramblin') Recker in UD. Stadium that night as a shaken and weary Johnny Bettiger stepped up to receive the initial Lt. Stan Kurdziel Memorial trophy from its sponsor, Jerry von Mohr.

Spring football had ended and fires of hope had been banked with the cautious belief that they may blaze brightly on the hilltop next fall as a new era enters its second year.

Bettiger is a link between the fading past (a colorful era of Gutbrods, Boks, Delps, Ka-Nes, Langes, Nolls, and Reckers) and those hopes of the future. He's one reason for those hopes.

The Toledo youngster was cut from the squad as a frosh. Recker, Dayton's popular little rambler of another era, interceded with the coaching staff. Johnny rejoined the squad. Played enough to letter as a sophomore. Twice earned starting roles last fall only to be beset by injuries.

This spring he took over the No. 1 left-half position and hung on. He led the ball carriers, scored twice and played fine defensive ball as his White Knight teammates refused to be carried away on their shields and squelched the Red Raiders 34-0 before approximately 5000 fans.

That healthy (for the football picture) turnout was the result of a Flyers Club Inc. campaign and renewed interest in the grid-iron out on the hilltop.

This is an enthusiastic young bunch Hugh Devore and his staff have begun whipping into shape. They'll get not only inspired leadership on the field from their co-captains Jim Katcavage and Jack Muldowney, but top-flight play as well.

Competition for positions always makes for a better ball club. The Flyers have that competition.

There will be a more complete rundown of the squad in the September issue of the Alumnus. Meanwhile it would be well to keep in mind that although the Flyers are getting stronger—so is the opposition.

Besides the Lt. Kurdziel trophy 17 Flyers won awards for proficiency in spring drills. These trophies were donated by the Flyers Club. They went to:

Most Improved Lineman...Jack Muldowney
Most Improved Back.................Al Shanen
Best Blocker —
Ends..................................Steve Bosway
Guards.................................Gerald Krause
Tackles..............................Al Weckle
Centers..............................Joe Callahan
Fullbacks...........................Bernie Burke
Best Receivers —
Ends..................................Tom Curtin
Backs....................................Billy Smith
Best Passing —
Centers...............................Dino Gounaris
Quarterbacks.........................Don Zimmerman
Halfbacks............................Claude Chaney
Best Punting............................Walt Porter
Best Extra Points......................Jerry Ward
Best Kicking Off......................Joe Slater
Outstanding Frosh Lineman.....Al Shanen
Outstanding Frosh Back...........Dave Huber

Ike Chaney (74) gets a hunk of Chuck Muzio's elbow in spring game. Injured Claude Chaney missed game.

Linebacker Joe Callahan (55) bats down a pass intended for Bettiger, Callahan leaves Army in June.

Jerry Bush (32) halts a short jaunt by Don Zimmerman (11). Both figure prominently in fall picture.

Jim Ducato, lower left, sidetracks Al Weckle (77) as Billy Smith slips through. No. 76 is Jack Muldowney.
THEY TEACH LIBERAL ARTS
Alumnus Editor Resigns

- This is the last issue of the ALUMNUS under the hand of its current editor, Jim Clarke. Jim has resigned from the University staff to join the Standard Register Company. Jim will be sorely missed on the hilltop, but the ALUMNUS staff and his countless friends at the University join in wishing him well in his new position.

Annual Faculty Picnic

- The annual faculty picnic, sponsored by the University of Dayton Women's Club, was held on Saturday, May 21, at Waldrue Park. Mrs. Edwin King was in charge of arrangements.

Busy Man on Faculty

- Associate Professor of Mathematics Morris J. Kreider will be a very busy man at Commencement. In addition to his own faculty duties at graduation, he will have to hurry down to Oxford, Ohio, to see both his wife and his daughter graduate from Miami University. Mrs. Kreider, a UD class of '51 graduate, is receiving her master's degree in education at Miami. To top off a very busy schedule, Professor Kreider's daughter, Marta, is marrying Robert Krebs the very next day. Congratulations all around.

Beautiful Weather for May Day Celebration

- Beautiful weather contributed to making this year's MAY DAY FOR MARY a lovely and most inspiring occasion. Patricia Falke, education senior, was May Queen, attended by Patricia Russell and Rebecca Strominger. Very Rev. Andrew L. Seebold officiated, assisted by Rev. Edmund L. Rhodes, Rev. James E. Donnelly, and Rev. Charles J. Hofstetter. University Chaplain Rev. Edwin M. Leinkuhler was in charge of the arrangements and procession. The ROTC color guard and the Monogram Club assisted Father Leinkuhler and the University Mixed Chorus sang under the direction of Mr. Lawrence Tagg. Hundreds of students, faculty, alumni, and friends participated in the celebration.

Alumni Men Hit the Late News

- From the late news we find that Joe Poelking, '32, has been named to his fourth term as president of the Dayton Bowling Proprietors' Association. Mr. Poelking is also active in state and national associations. Also in the news was an article by Earl Wilson, the Broadway columnist, concerning Werner J. “Jim” Losh, '50. Mr. Wilson has been interested in Jim's song-writing career and succeeded in arranging a meeting with Irving Berlin by introducing Jim as his "cousin."

Lay Board Membership Reaches Full Strength

- The Associate Board of Lay Trustees recently reached its full membership strength with the acceptances of L. L. Warriner, President, Master Electric Company; Lewis Polk, President, Sheffield Corporation; George Mead, President, Mead Corporation; and Dr. Walter A. Reiling, M.D. The officers of the board are: President, Samuel L. Finn, of the law firm of Estabrook, Finn & McKee; Vice-President, David L. Rike, President, Rike-Kumler Company; Secretary, Merle P. Smith, General Manager, Joyce-Cridland Company; and Treasurer, Walter H. J. Behm, President, Winters National Bank and Trust Company. The other members of the board are S. C. Allyn, President, National Cash Register Company; Edwin G. Becker, of Becker, Loeb & Becker; James M. Cox, Jr., Dayton Daily News; Harry F. Finke, Finke Engineering Company; Michael J. Gibbons, Jr., President M. J. Gibbons Supply Company; Clarence H. Gosiger, President, C. H. Gosiger Machinery Company; Carroll A. Hochwart, Vice-President—Research, Development and Engineering—Monsanto Chemical Company; Kenneth C. Long, President, Dayton Power & Light Company; Robert S. Oelman, Executive Vice-President, National Cash Register Company; M. A. Spayd, President, Standard Register Company; George E. Walthier, Sr., President, Dayton Steel Foundry Company; and Dwight Young, Dayton Journal Herald.

Spring Football Game Provides Extra Excitement

- Excitement over the fine showing of our football players was not the whole story for at least three of the spectators at the Spring Football Game. These were the three winners of the $1000 prize drawings. Miss Maralyn Karl of Dayton was the first to be called for the big money. Her winning ticket had been sold by senior student Russell Sweetman. Freshman Class President Denis Kelly won the second $1000. He had bought his ticket from James Hartigan, also a senior. Denis is in school on academic scholarship and his many friends were as thrilled as he was when his name was called. The third winner was Frank Davis of Dayton who bought his ticket at the gate just at game time. Sweetman and Hartigan each received $100 for selling winning tickets. The Flyers Club, sponsors of the spring game, have announced gross receipts on the event of $10,900 for a net of $5800. The money is to be used for resodding the stadium gridiron, improving the practice field, and for constructing a baseball field. Work has already begun on the project.

Chem Engineers of '50 Join at Dinner

- The 1950 graduates in Chemical Engineering held a Class Dinner at Suttmiller's on May 21st. Honored guests were Bro. William J. Wohleben, S.M., Head of the Department of Chemical Engineering, and Dr. A. J. Sofanopoulos, Professor of Chemical Engineering. Among the class members were George Nunez, visiting from Guadelajaro, Mexico, H. Hormann, A. Kohnen, E. Krein, M. Luthman, J. Kittredge, W. Recher, and R. Smith.
1904
REV. ALOYS ANGEL who is helping his brother, Rev. Fred Angel at St. Wendela's Church, Pittsburgh, was a rabid rooter for UD at the NIT in New York.

1909
JOE COOK's Parkinson's Disease has kept him inactive for the last 16 years but he still remembers his friends at UD. He is living at Clinton Hollow, Staatsburg, New York.

1912
ROBERT GRAY is in the land of sunshine and can be reached through P. O. Box 1246, Lake Wales, Florida.

1914
WILLIAM KUNTZ was elected president of the Peter Kuntz Company and the Peter Kuntz Lumber Company succeeding his late brother Martin, '12.

1921
JACK WINTERMEYER who is associated with Airkem, "for the aid of refinement," was a campus visitor this spring for the first time in 20 years.

1923
ROBERT RENNER of the East Dayton Tool and Die Company has been elected a member of the Board of the Dayton Chamber of Commerce for the coming year.

1925
JOHN L. RUSSELL is the secretary of the Cincinnati archdiocesan Council of the National Council of Catholic Men and as such attended the national convention in Boston in late April.

1941
JOHN BURNS has moved from Bay Village, Ohio to 1518 E. San Miguel, Phoenix, Ariz.

EARL HENDRICKS has had great success with
Son, Roy, Jr., to
Third child, second boy, Daniel M., to Dr.
First child, Christine, to Joseph and Freda
Second child, first son, to Mr. and Mrs.
JEROME and SHIRLEY MUNGER, '50, on April 11.
First child, Julie T., to Charles and Alma
EULWORTH, '34, Evanston, Ill., March
Third child, second daughter, Geri Lynn,
to Hank and Shirley Froelich, '47, on
December 11.
First child, Timothy A., to Lt. and Mrs.
MARK and MARY McLAUGHLIN, '45, January 31.
Second child, second daughter, Jane E., to
Rev. GEORGE W. LAWRENCE, JR., is now
the associate pastor of the First Congrega-
tional church, Burlington, Vermont. He and
his wife, as well as George III and Virginia,
their children, are living at 319 S. Union St.,
in Burlington.
JAMES J. PFEIFFER has moved to 253 N.
Harrison, Batavia, Illinois, from Kokomo,
Indiana.
ANNE WHEELER is now living in Monitor,
Wyoming.
Bob Young has moved from Glendale,
Cal., to become group sales representative
for the Occidental Life Insurance Co. in the
Philadelphia area. He is living at 6126 Park-
view Apts., Collingswood, N. J.

1950
CARL R. BEATTY is an engineer at Wright-
Patterson Air Force Base.
CAPT. LOU CARAS is stationed in Austria
with the 554 Q. M. Co., APO 541, N. Y.
LEROY FINKE has moved from Brawley, Cal., to Stewart, Nevada.
GEORGIA O'CONNELL HARMON is now living at 2646 Ramona St., East Meadow, New York.
Mr. and Mrs. JIM LEIST are back in Dayton.
WERNER LOUTH is now living at 355 West 85th St., New York City.
MERRILL LUTHMAN is a manufacturer's representative with James B. Rishel Co., in Dayton, and is living at 14 Dean Place.
LT. HANK McATHENY is now serving with the 47th Inf. Regt., Co. K., APO 35, New York.
BILLY MCKINLEY is in Pittsburgh as a representative for the Minnesota Mining and Manufacturing Co., and is living at 409 Fortiview Rd., Glenshaw, Penn.
MAURICE MULLER is vice-president and sales manager of the Cincinnati Die Casting Co., in the Queen City.
DR. VICTOR SHAMPTON has moved from Brawley, Cal., to Stewart, Nevada.
LEROY WERNER is the representative with James B. Rishel Co., in sales manager of the Cincinnati Die Casting Co., in Middletown. He is coming to 236 92nd St., Brooklyn, New York.
SAM MELLAS went to the University of Cincinnati law school.
JAMES M. MARES resigned to the 26th Infantry Division at Ft. Benning.
ROBERT E. SULLIVAN is a master at the Watkins on Grand Avenue, Dayton.

1951

ROBERT K. ALBERTS transferred from Lexington, Va., to Lenoir, North Carolina.
KURT M. FISH is a master at the Watkinson School, Hartford, Conn., while studying for his master's degree at Trinity College, Hartford, Conn.
BOB FLYNN, who represents Allied Mills Co. factory and mill agents, was a campus returnee this spring. He is living at 110 Halls Lane, Lexington, Ky.

LT. JACK GANNON is stationed at Anchor-
1st Division Medical Bn., in Germany.
SANDRA STEVEN GROVER was a therapeutic dietician at the Sibley Memorial Hospital, Washington, D. C. until her marriage on Long Island in May.

1954

LTS. JOHN ANDERSON, CHARLES GENTILE and TOM O'CONNELL are all at Ft. Benning. EMILY BENHAM is back in Dayton after a teaching assignment in Encino, Calif. M. LUCILLE BRINING is head nurse at the Brown Hospital, Veteran's Administration Center in Dayton. PVT. DON EKBERG is with the Third Spec. Trng. Co., Armd. Repl. Trng. Center at Ft. Knox, Ky.

LT. LELAND ZIMMERLIN is administrative officer of the Southeastern Signal School, Camp Gordon, Georgia. LT. KENNETH ESBGAUGH will graduate from his course at Ft. Benning in May. PVT. ELMER JIRA is attending topographic computing school at Ft. Belvoir, Va., as part of the Army Engineers Map Compiling service. VINCE MALLOY is teaching fourth grade at the Brunswick School in Medina County, Ohio and getting his master's at Akron University. He is living at 2038 White Pond Drive, Akron. NEIL R. McDONALD is teaching at Fairmont Junior High School in suburban Kettering Village. LT. HAROLD OKITA is the manager of the 39th Regt. baseball team, the Falcons.

FLYERS HIT JACKPOT IN PRO COURT DRAFT

Jack Sallee

Chris Harris

John Horan

The University of Dayton batted 1.000 in the professional basketball draft this spring. Three Flyers were eligible and all three were picked up by pro clubs.

Top spot went to Johnny Horan who was the No. 1 draft choice of the Ft. Wayne Zolner Pistons, the team that missed being national champions by just two points.

The team that won the title, Syracuse, picked Jumpin' Jack Sallee in the third round and the Milwaukee Hawks bid for Chris Harris.

Horan in all probability will join ex-Flyer Don (Monk) Meineke with the Zollners. Sallee and Harris, however, still haven't come up with anything concrete in the way of contract offers.

Both undoubtedly would like to give pro basketball a fling.

The trio have been fan favorites for four seasons on the Hilltop and were key factors in keeping the Flyers ranked near the top of the nation's collegiate basketball ratings.

Horan steps out as the school's second highest scorer. The lean young man from Minneapolis finished with 1757 points. Sallee finished with 1610 and Harris with 605. Chris, of course, was the Flyers' playmaker.

Horan and Sallee join the select field of six Flyers who scored more than 1000 points in their careers. Still tops is Monk Meineke with 1848.

Also over the 1000-point mark were Land (Junior) Norris and Chuck Grigsby. Billy Uhl with another full season to go has scored 1129.

Horan, Harris, and the Jumpin' Jack compiled their records over a four-year span while Meineke, Norris and Grigsby played just three years of varsity ball. Uhl also will be a three-year man.

UD Alumnus June 1955
He's The Guy That Proves It In Cincinnati

150,000 tests a year. Yep, and he's been at it for 36 years. That's Otto Behrer's job as city chemist in Cincinnati.

"Doc," as they call him in the city circles in the Queen City, was UD '17. Thirty years ago he and his staff conducted only 30,000 tests. Now it's five times that number a year.

The tests are for every conceivable disease, degree of purity and sanitation. And he's got the unit cost down to 20 cents per specimen, "mighty, mighty low," he says, "compared to other cities."

The city laboratories of which Doc is the boss do work for all city departments and health agencies such as Children's Home, Workhouse Hospital, Juvenile Court, Union Bethel Clinic, the Red Cross, Hillcrest-Glenview Schools, General Protestant Orphan's Home and Dunham Hospital outpatients to name a few.

Besides he daily analyzes downtown tap water, tests restaurant and cafe sanitation, approves water taken on by river boats and railroads, and checks upon dairy pasteurization.

Doc's spats are as familiar to all as his caution.

He continually points out that he is not infallible. But since the sobriety test was instituted in 1941, drunken driving convictions have risen from 70 per cent to well over 90 per cent.

There's a little-told tale concerning Doc and the Anna Marie Hahn poison murders. After the woman was held in Cincinnati for other authorities it was discovered that she was the woman local police were looking for in connection with the mysterious death of several elderly men.

One of the bodies had been exhumed after Doc had assured Frank Gusweiler, then an assistant county prosecutor, that if poison caused the death it could be found and detected in the remains.

As "Doc" tells it, the late Dudley Outcalt, then prosecutor, was about to answer a writ for Mrs. Hahn's release, and since at that moment there was not enough evidence to hold her, she would have been liberated except for "Doc's" dramatic telephoned assurance that "my tests prove there's enough poison present in the corpse to convict her." He was right, Mrs. Hahn was electrocuted and a defense attorney later complimented Behrer for his fairness during his five hours of testimony and cross examination.

Three-Way Move

It was a three-way move involving three UD alumni when Fred M. Kerr, '31, announced his resignation as first assistant county prosecutor of Montgomery County to devote full time to his law practice.

Prosecutor Matt Heck chose Herbert M. Jacobson, '31, an assistant prosecutor since 1946, as first assistant and then later announced the appointment of Francis C. Canny, '09, as an assistant prosecutor replacing Jacobson.

Canny had previously been in the county prosecutor's office during the period 1931-33 and was U. S. District Attorney in Dayton during the period 1933-1940.

Community Service Posts

UD men are distinguishing themselves in community service activities here in Dayton. A good example is shown among the officers of the Dayton Community Chest.

Two UD men hold top offices—Eugene Mayl, '20, is the first vice-president of the organization for the current year and William P. Patterson, '29, is second vice-president.

Merle P. Smith, is the first vice-president of the Dayton Chamber of Commerce and Robert Renner is a Board member there.

DON CARLOS, BELLMAKER OF BEVAR IS COL. CARL CRANE OF TEXAS

"Don Carlos Jose Garza, Bellmaker of Bexar, is at your service." Don Carlos is a creative engineer. A one-man research institute, you might say.

He even invented a name for himself since Carl Joseph Crane, '25, wouldn't convince anyone that a feller bearing that handle could cast replicas of the old Spanish mission bells.

While Don Carlos was an Air Force colonel—he was with the Wild Blue Yonder lads for 25 years—he saw duty in California, where mission bells were all about, both genuine and souvenir type.

The San Antonio-born colonel got to thinking San Antonio's missions needed some bells in a handy, carry-home size. So now he is in the business.

No, he didn't know a thing about casting bells when he got out of the Air Force. But he started looking for a recipe for bell metal (80 per cent copper, 20 per cent tin is basic but some bells also use a dash of zinc and lead).

Don Carlos went through books about bells and found they were mostly full of legend, tradition, history and poems; very little about how to make them. That's when the creative engineer in him started coming out. He simply started making bells, ringing them and trying again.

Bexar's mission bells are today ringing in towns as far away as Illinois and Arizona. Having thus figured out the matter of how to mix up a batch of bell metal, Don Carlos presumably is "available for other problems."

The foregoing was written for the Sunday San Antonio Express-News by feature writer Bill Reddell. It needs little to be added from us except to say that Carl has prepared (or should we say Don Carlos prepared) an interesting folder on the story of bells and the Texas missions. Anyone interested can contact him at 833 Bandera Road, San Antonio.

UD Alumnus June 1955
**COMPLETED CAREERS**

Albertus J. Althoff, '93
A City of Dayton employee for 41 years, he was acting city manager in 1948. He started with the city in 1908 in the water division and was appointed secretary to the city manager in 1921, a post he held under three city managers. Father of Dr. William R. Althoff, '30. Died February 13.

James P. Carney
Father of Angela Carney Ianni, '49. He died January 29.

Mrs. Marie Connors
Mother of Edward J. Connors, '35. She died March 27.

Mrs. Marie Feinerer
Mother of Lee W. Feinerer, '42. She died March 28.

Loretta King Gill

Rev. George M. Holl, O.P., '33
Assistant pastor of Holy Name Church, Brooklyn, New York. Died March 13.

Mrs. Bessie Israel
Mother of David, Jr., '38; Betty I. Wick, '41; and Kenneth Israel, '43. Died March 2.

Edward M. Kahoe, '01
A retired engineer, he had been associated with the Bell Telephone Company of Pennsylvania for 45 years before his retirement in 1947.

He is survived by his brother, Thomas P. Kahoe, '02, and a sister. Died March 17.

John Kelble
General superintendent of the International Tool Co. and father of Therese K. Hickey, '49; Dr. John A., '45; Lt. Jerome, '51; and David Kelble, '52. Died April 10.

Mrs. Margaret Koehler
Mother of Johanna Koehler Ruff, '35. Died April 7.

Mrs. Mary Maloney
Mother of Daniel J. Maloney, '32. Died February 12.

Mrs. Magdalena Millonig
Mother of Dr. Edward A., '36; Arthur, '40; and Magdalene Millonig, '49. Died March 27.

Harry Schelhaas
Father of Harry Schelhaas, Jr., '32. Died April 5.

Mrs. Lillian Sheeran
Mother of Lillian Sheeran Railing, '39; Donald E., '39; and Edward F. Sheeran, '43. Died February 15.

Mrs. Dudley Washington, '46

**Connecticut Success**

At first a bookkeeper and now executive vice-president. That's the story of James Gale, '30, and his career with the Investors Mortgage Company of Bridgeport.

Jim joined the company in 1930 and in 25 years has come through all the ranks as the company has grown. It is now the largest of its type in Connecticut and employs 34 people.

They deal in real estate, insurance, mortgage loans, property management, rents, appraisals, mortgage investment and mortgage servicing.

Jim and his wife, the former Ruth Hartley of Dayton have four children: Sandra, an R.N.; David, a sophomore at the University of Bridgeport; as well as Gretchen and David, both in school.

During World War II Jim was a lieutenant commander in the Navy. Since then he has been active in the Navy League, having been local Council president; State president and now national director. In the last few years he has taken two cruises as a civilian guest of the Navy; in 1953 through the Mediterranean on the BALTIMORE; and in 1954, visiting Navy bases in the Pacific aboard the HELENA.

**THE BELLS CHIME FOR**

Neil R. McDonald, '54, married Ellen Spang, May 21, St. Albert the Great church.

Richard Smith, '50, married Patricia Fitzgerald, April 16, St. Lawrence church, Muncie, Ind.

Thomas Spitzi, 49, married Barbara L. Nurrenbrock, Immaculate Conception church

Sandra L. Stevens, '53, married Leroy W. Grover, May 14, Lindenhurst, N. Y.
CLEVELAND
In the chapter elections held in April members of the athletic fraternity seemed to take over. Brian McCall, '49, basketball coach at Cathedral Latin, was elected president; Chuck Noll, '53, of the Cleveland Browns, vice-president; Marlo Termini, '52, basketball coach at Holy Name, secretary; Dan Ferrazza, '51, assistant football coach at St. Joseph's, treasurer; Bill Gutbrod, '50, football coach at St. Joseph's, program chairman; and Jim Lemming, '53, coach at Cleveland Heights High School, publicity chairman.

The chapter had its annual communion breakfast on May 22.

GENERAL
So many alumni have enjoyed returning for the Homecoming football game each Fall and for the alumni banquet that traditionally follows, and always there are many questions asked about you and your family. As a result, Robert F. Lang, '32, suggested and has begun "Operation Family Portrait." If you have a picture that you can spare, in the 5x7 or 8x10 size range, send it in to the alumni office. Make sure that you identify each member of your family and indicate your address and class. The pictures will be hung at the Homecoming Dinner in a tremendous display that will enable your friends to learn your latest address and see how well you’ve done family-wise. It will renew many old acquaintances.

MONTGOMERY COUNTY
On Friday night, April 15th, the chapter sponsored an alumni dance at Hilltop. Nearly 100 couples were there to enjoy the music and dancing. They represented classes from 1930 to the present.

At a recent meeting of the Board of Directors of the chapter, final plans were laid for the 5th annual alumni dinner dance to be held at the Miami Valley Golf Club on Saturday, June 4th. Election of officers is now in progress and the new officers will be installed at the dance. They will serve for the 1955-56 term. Three awards for chapter service, civic and professional achievement will also be made at the dance.

NEW YORK
The Hotel Belvedere at 316 W. 49th St. was the scene of constant alumni activity during the N.I.T. Get-togethers were held Tuesday, Thursday, and Saturday nights before and after each game. Headed by Bill Carolan, '27, President of the New York Alumni Chapter, over 4000 people attended the functions. Arrangements were made by R. C. "Jim" Brown, '34, Alumni Secretary Mary Shay, '44, was in New York renewing many ties with the alumni group there.

Dick Dunkel Visits UD.
Dick Dunkel of football and basketball rating system fame visited the hilltop in May. He talked over rule changes and Flyer basketball prospects with Coach Tommy Blackburn.

It’s getting late, it’s getting late,
Oh where, Oh where is Twenty-eight?
That bit of doggerel is our final plea to find a copy of the class photograph of the class of ‘28, the only one missing from the walls of St. Mary’s.

The pictures start with this one of the class of 1921 and continue right up to date with the exception of the boys from 1928.
Oh where, Oh where has that little class gone.
Oh where, Oh where can they be?

SOROSIS
The women of Sorosis have adopted a local needy family and made providing for them their project for the year. They held a dance in February to raise funds. So far they have been able to present the family with a refrigerator, washer, stove, a baby bed, two other beds and mattresses, a chair, two lamps, a radio and clothing for the children.

The project is continuing.

YOU CAN HELP—
The University Public Relations office is interested in keeping an up-to-date file of stories and events concerning UD. There is no problem keeping abreast of Dayton papers. However, it’s the out-of-town and out-of-state papers that pose the problem.

Clip services have failed to do the job.
Perhaps you, the alumni, can help. Whenever you see a piece about the University or anyone connected with it, how about clipping it out and sending it on to the PR office?

You might hang on to the clips for a week or so and send in a batch at once. We’re interested in all stories, sports, academic, etc., that mention the University. How about it—can you lend a hand?

ALUMNI FUND TO DATE
Here's Your LAST CHANCE

Want to get a bit closer to Flyer teams? Many alumni have expressed a desire to receive the pre-season press books for Dayton football and basketball teams. These publications by the Public Relations Department have been very favorably received by press, radio, and TV men throughout the country.

Here's your chance to get copies of the 1955 football brochure which will be published in August and the basketball brochure which will be out in November.

Just fill in the blank and mail to the PR Office with a $1.25 check—that covers books and mailing. Better order now.

Just fill in the blank and mail to the PR Office with a $1.25 Check that covers books and mailing. Better order now!

Please mail me one copy each of the 1955 Flyer football and basketball brochures. Am enclosing a check for $1.25 to cover costs.
