There are many types of human coronaviruses including some that commonly cause mild upper respiratory tract illnesses.

The official names are: Disease, coronavirus disease, (COVID-19), Virus, severe acute respiratory syndrome coronavirus 2, (SARS-CoV-2).

In COVID-19, 'CO' stands for 'corona,' 'VI' for 'virus' and 'D' for disease.

World Health Organization (WHO) announced "COVID-19" as the name of this new disease on 11 February 2020.

Official names have been announced for the virus responsible for COVID-19 (previously known as "2019 novel coronavirus") and the disease it causes.
