Urban Child Development Resource Center
The Changing Faces of a Classroom

Our schools and its new demographic school shift
“Hispanics are the fastest growing ethnic segment expected to grow 167 percent from 2010 to 2050”
Since 1960, Hispanics have contributed 75% of the growth of the Catholic Church in the United States.

One out of every four children is Latino. The fastest growing school-age population

Only 3% of Latino children attend Catholic Schools nationally.

It is a demographic imperative to increase our capacity to serve Latino families.

Our Lady of Guadalupe Celebration Mass
December 8th, 2012
Families eager for and appreciative of Catholic education for their children.

Began immediately to seek resources: interpreters, understanding immigration; contacting the Hispanic Catholic Ministries.
Parents are the best resource for information and help.

Intentional about continuing our studies and celebration: part of our accreditation plan
The Yuqui Family
