I The University of Dayton

Founded in 1850

The University of Dayton is a private, coeducational school founded and directed by the Society of Mary (the Marianists), a Roman Catholic teaching order. It is among the nation's largest Catholic institutions of higher learning. Aware of the richness of cultural diversity, representatives of many faiths are numbered among the University faculty and students. For the same reason, the University has consciously drawn its students and faculty not only from the immediate community and the midwest but from across the country and from numerous foreign countries.

The main campus of over a hundred landscaped acres, is on a hill overlooking the city of Dayton, Ohio. The campus is made up of a well integrated architectural mix of old and new buildings that are both attractive and well-equipped. The faculty are excellent scholars who pursue knowledge in its rich variety and fine instructors dedicated to student learning and educational excellence. The University enrolls students from diverse social, ethnic, and economic backgrounds who are capable of and committed to learning, leadership, and service.

A lively, friendly atmosphere; numerous and varied religious, cultural, and social opportunities; an early-semester calendar allowing a number of study-recess options; intercollegiate and intramural athletic programs for both men and women; academic options such as honors programs, independent study, and study abroad; academic, professional, and personal counseling; cooperative work-study plans; a placement service for students and graduates—these exemplify the myriad aspects of the character of the University of Dayton.

MISSION

The University of Dayton is a comprehensive Catholic university, a diverse community committed, in the Marianist tradition, to educating the whole person and to linking learning and scholarship with leadership and service.

The University of Dayton is a comprehensive university committed to offering a broad range of programs in liberal arts, the sciences, and the professions at the undergraduate level, to providing selected programs on the graduate level to meet the needs of the community and region, and to sponsoring timely continuing education programs. As comprehensive, the University views learning and scholarship as a shared task of discovering, integrating, applying and communicating knowledge at the intersections of liberal and professional education, across the disciplines, and through combining theory with practice.

As Catholic, the University commits itself to a distinctive vision of learning and scholarship that includes: a common search for truth based on the belief that truth can be more fully known and is ultimately one; a respect for the dignity of each human person created in the image and likeness of God; and an appreciation that

1The Society of Mary, founded in France in 1817 by Father William Joseph Chaminade, presently conducts schools throughout the United States and in Africa, Canada, Europe, India, Japan, Korea, and Central and South America. The Society operates Chaminade University in Honolulu and St. Mary's University in San Antonio.
God is manifested sacramentally through creation and the ordinary things in life. Ultimately, a Catholic vision of the intellectual life is based upon the acceptance of the revelation of God in Jesus Christ as it has been received and handed on by the Church. This challenge calls for integration of the human and the divine, reason and faith, and promotes true understanding through a person’s head and heart. The University welcomes persons of all faiths and persuasions to participate in open and reflective dialogue concerning truth and the ultimate meaning of life.

Founded in the Marianist tradition, the University is committed to a vision of a distinctive educational community. As Marianist, the University focuses on educating the whole person in and through a community that supports and challenges all who become a part of it. The University forms an educational community thriving on collaboration by people from diverse backgrounds with different skills who come together for common purposes. The University as Marianist challenges all its members to become servant-leaders who connect scholarship and learning with leadership and service.

This university community—comprehensive, Catholic and Marianist—exists not for itself, but to render service. The University creates an environment in which its members, working in a scholarly manner, are free to evaluate the strengths and weaknesses of their own work and the work of others. In partnership, through the Research Institute, Campus Ministry, as well as numerous student organizations, the University works with others to improve the human community.

BRIEF HISTORY

In the summer of 1849, Father Leo Meyer and Brother Charles Schultz, the first Marianist missionaries to America, journeyed from Alsace to Cincinnati, where they intended to establish a base for the order in this country. They arrived, however, during an epidemic of cholera, so Bishop John Purcell of Cincinnati soon sent Father Meyer to Dayton to minister to the sick of Emmanuel Parish. Here he met John Stuart, whose little daughter died of cholera the year before. Mr. Stuart wanted to sell his Dayton property and return with his wife to Europe. On March 19, 1850, the feast of St. Joseph, Father Meyer purchased Dewberry Farm from him and renamed it Nazareth. Mr. Stuart accepted a medal of St. Joseph and a promise of $12,000 at 6% interest in return for 125 acres, including vineyards, orchards, a mansion, and various farm buildings. Meanwhile, more Marianists arrived, and Nazareth became the first permanent foundation of the Society of Mary in the western hemisphere.

The University of Dayton had its earliest beginnings on July 1, 1850, when St. Mary’s School for Boys, a frame building that not long before had housed farm hands, opened its door to fourteen primary students from Dayton. In September, the classes moved to the mansion, and the first boarding students arrived. Father Meyer was administrator, Brother Maximin Zehler was teacher, Brother Schultz was cook, and Brother Andrew Edel was farmer-gardener.

Five years later the school burned to the ground, but within a year classes resumed. By 1860, when Brother Zehler became president, enrollment approached one hundred. The Civil War had little direct effect on the school because most of the students were too young to serve. St. Mary’s grew as college preparatory courses were started in 1861. Then came a novitiate and a normal school for Marianist candidates. An old history refers to the period of 1860-75 as “the brick-and-mortar years.” The Chapel of the Immaculate Conception was completed in 1869. In 1870, visitors marveled at new St. Mary’s Hall, the largest building in Dayton, and called it “Zehler’s Folly.” The new “college department” moved into it in 1871. (St. Mary’s Hall is now listed in the National Register of Historic Places.)
In 1882, the institution was incorporated and empowered to confer collegiate degrees under the laws of the State of Ohio. In 1883, another devastating fire visited the campus, but this time some of the buildings were saved. The statue now known as Our Lady of the Pines was erected in gratitude, and the following year St. Joseph’s Hall was built, symbolizing the renewed confidence of the Dayton Marianists. In a more famous emergency, the school was spared by water as it had not been by fire. Because of its hillside location, it survived the Great Flood of 1913 untouched and was able to give shelter to 600 refugees.

St. Mary’s had reorganized in 1902 into four departments—classical, scientific, academic, and preparatory. In 1905 it added the Commercial Department, which would become the Department of Commerce and Finance in 1921, the Division of Business Organization in 1924, and ultimately the School of Business Administration. Four engineering departments, appearing from 1909 to 1920, were to become the Engineering Division. In 1915, the Marianist training program (novitiate and normal school) was moved to Mount St. John’s (now Bergamo Center).

Known at various times as St. Mary’s School, St. Mary’s Institute, and St. Mary’s College, the school assumed its present identity in 1920, when it was incorporated as the University of Dayton. The same year, the elementary division was closed, the Division of Education was organized, and the University started its tradition of evening and Saturday classes, to serve the adult members of the surrounding community. In 1922, the College of Law opened, also with evening classes. Other graduate programs followed, to augment the professional degree programs which distinguished the University from many of Ohio’s other independent institutions of higher learning. In 1923, the first summer session was held; its classes, like those of the law college, were open to women as well as men.

The 1930’s, with the Great Depression, were in many ways a time of retrenchment for the University of Dayton as for most other American schools. The Dayton Marianists had survived cholera, smallpox, and influenza, wars, fire and flood, and (in 1924) a Ku-Klux-Klan cross-burning on the campus. In 1935, even as the University turned its preparatory school functions over to Chaminade High School and graduated what was to be its last class in law for almost forty years, it inaugurated a college for women, with sisters of Notre Dame in charge of twenty-seven entering female students. Two years later, the college for women closed; all divisions opened to women, and the University became fully coeducational.

Enrollment had passed a thousand when World War II broke out. By 1950, with the return of the veterans, it was more than 3,500. In 1967, it was over 10,000. But then, with the expansion of a community college and the establishment of a state university nearby, enrollment declined, and the resulting retrenchment was exacerbated by rising inflation and the energy crisis. Nor did the social turbulence and activism of the late 1960’s and early 1970’s bypass the University of Dayton. Some students and faculty protested against the Vietnam War, compulsory ROTC, and defense-related research activities. They campaigned also for changes in the curriculum, seeking more opportunities for meeting personal needs and goals. In response, the University gave greater responsibility to students for their own academic decisions, and it initiated interdisciplinary programs, self-directed learning, and various experimental courses and methods. Meanwhile, the profile of the student body changed. The 1960’s saw significant increases in female and minority students. In the 1970’s, there was a shift to a largely residential student body, and at the same time many more “nontraditional” (older) students matriculated. By the mid-1970’s, total enrollment steadied at over 10,000, with about 6,000 full-time undergraduates.

To keep pace with the University’s growth, a series of building programs has
more than tripled the number of major facilities since the Centenary Year of 1950. The University held its first general public campaign in order to erect Wohllieben Hall in 1958 and Sherman Hall in 1960. Both campus and off-campus residences — dormitories, apartments, and houses — were added and improved as such emergency accommodations as surplus Army barracks and an adapted Army hospital (renamed the West Campus) were phased out.

A long-range environmental design has helped integrate new buildings and old, and made the campus more livable by increasing its beauty as well as its efficiency. In 1986, old and new combined in the much heralded architectural design of the Anderson Center between Rike Hall and Miriam Hall. When fire ravaged St. Joseph Hall in 1987, the University was able to rebuild and restore it without harming the architectural integrity of that historic corner of campus. Keeping pace with the needs of the University, the Jesse Philips Humanities Center opened in 1993, and plans are in the making to revitalize the University’s existing science complex. Opening in 1997, longterm development included the construction of new facilities for the School of Law on the northwest property of the University.

The edifices are not the only changes seen at the University of Dayton. In 1960, the University reorganized academically and administratively. Administrative changes saw the formation of the College of Arts and Sciences from what had been two separate units. Other divisions became the Schools of Business Administration, Education and Engineering. In 1970, the University charter was amended and members from the lay community now joined the Marianists (who today constitute 20 percent of the governing body of the University) on the Board of Trustees. In 1974, when the School of Law reopened, the University achieved its present configuration.

Academically, the University has continued to expand and enrich its offerings and support services, especially since mid-century. Graduate studies, abandoned during World War II, resumed in 1960, with the School of Education leading the way. In 1969, the Department of Biology inaugurated the first doctoral program since 1928. The School of Engineering introduced two doctoral programs in 1973, and in December, 1992, the first doctoral degrees in Educational Leadership were awarded.

In 1975, the Marian Library, which had grown to international reknown since its inception in 1943, founded the International Marian Research Institute (IMRI), which was incorporated in 1984 as a branch of the Marianum in Rome. IMRI is empowered to confer licentiate and doctoral degrees in theology, with a specialization in Mariology.

For all undergraduates, a general education plan was adopted in 1983 to foster integration of the liberal arts in a professional education. To further this course of action, in 1990, the Academic Senate approved a revision of the general education requirements that called for an integrated base of four humanities courses complemented by clusters of other courses, requiring various disciplines to focus on a single theme.

In 1986, the School of Business Administration established the Center for Business and Economic Research. With an advanced information systems laboratory among its resources, the center provides contract research services for local business, government, and other organizations and support for faculty research.

The University has always maintained a tradition of innovation. In 1874, St. Mary’s Institute’s new Play House gymnasium was the only one of its kind in Ohio, and it is probable that the first organized basketball game in the state took place there. A system of elective studies was inaugurated in 1901. In 1924, the University was the first school to be granted a charter by the National Aeronautical Association.
University of Dayton

It was one of the first in the nation to offer a course in biophysics (1935). In 1948, it was a pioneer in student ratings of professors, and in 1952, it invited persons over 60 to attend its evening classes as guests. Its graduate program in laser optics was one of the earliest in the country. It was one of the first educational institutions to adopt electronic data-processing equipment and to offer degrees in computer science. The University Library, in the service of scholarship, continues to adopt new technology, including an online catalog which became fully operational in 1988.

More than just a breeding ground for academic excellence, the University also responds to the needs of the surrounding communities. Sponsored research at the University began in 1949 with a few faculty members and student assistants doing part-time research for industry and government agencies. In 1956, the University of Dayton Research Institute (UDRI) was formed to consolidate the administration of the growing research activities. Annual research volume has increased from $3,821 in 1949, to nearly $50 million at the present time.

STATEMENT OF PURPOSES

Approved by the Board of Trustees, May 14, 1969.

The University of Dayton, by tradition, by legal charter, and by resolute intent, is a church-related institution of higher learning. As such, it seeks, in an environment of academic freedom, to foster principles and values consonant with Catholicism and with the living traditions of the Society of Mary. Operating in a pluralistic environment, it deliberately chooses the Christian world-view as its distinctive orientation in carrying out what it regards as four essential tasks: teaching, research, serving as a critic of society, and rendering public service.

The University of Dayton has as its primary task to teach—that is, to transmit the heritage of the past, to direct attention to the achievements of the present, and to alert students to the changes and challenges of the future. It regards teaching, however, as more than the mere imparting of knowledge; it attempts to develop in its students the ability to integrate knowledge gained from a variety of disciplines into a meaningful and viable synthesis.

The University of Dayton holds that there is harmony and unity between rationally discovered and divinely revealed truths. Accordingly, it commits its entire academic community to the pursuit of such truths. It provides a milieu favorable to scholarly research in all academic disciplines, while giving priority to studies which deal with problems of a fundamentally human and Christian concern. It upholds the principle of responsible freedom of inquiry, offers appropriate assistance to its scholars, and endeavors to provide the proper media for the dissemination of their discoveries.

The University of Dayton exercises its role as critic of society by creating an environment in which faculty and students are free to evaluate, in a scholarly manner, the strengths and weaknesses found in human institutions. While, as an organization, it remains politically neutral, objective, and dispassionate, it encourages its members to judge for themselves how these institutions are performing their proper tasks; to expose deficiencies in their structure and operation; to propose and actively promote improvements when these are deemed necessary.

The University of Dayton recognizes its responsibility to support, with means appropriate to its purposes, the legitimate goals and aspirations of the civic community and to cooperate with other agencies in striving to attain them. It assists in promoting the intellectual and cultural enrichment of the community; it makes available not only the resources of knowledge that it possesses, but also the skills and

15
techniques used in the accumulation and dissemination of knowledge; and, above all, it strives to inspire persons with a sense of community and to encourage men and women of vision who can and will participate effectively in the quest for a more perfect human society.

BASIC ACADEMIC STRUCTURE OF THE UNIVERSITY

The University of Dayton now includes the College of Arts and Sciences and four professional schools, each with a dean: the School of Business Administration, the School of Education, the School of Engineering (including Engineering Technology), and the School of Law. The deans, through their departmental chairpersons, administer the undergraduate and graduate programs. The vice president for graduate studies and research and dean of graduate studies has the overall responsibility for all graduate programs. At the head of the academic structure of the University is the provost.

The University of Dayton awards the following baccalaureate, professional, and graduate degrees:

Bachelor of Arts  
Bachelor of Chemical Engineering  
Bachelor of Civil Engineering  
Bachelor of Electrical Engineering  
Bachelor of Fine Arts  
Bachelor of General Studies  
Bachelor of Mechanical Engineering  
Bachelor of Music  
Bachelor of Science  
Bachelor of Science in Business Administration  
Bachelor of Science in Computer Engineering  
Bachelor of Science in Education and Allied Professions  
Bachelor of Science in Engineering Technology  
Master of Arts  
Master of Business Administration  
Master of Computer Science  
Master of Public Administration  
Master of Science  
Master of Science in Aerospace Engineering  
Master of Science in Applied Mathematics  
Master of Science in Chemical Engineering  
Master of Science in Civil Engineering  
Master of Science in Education and Allied Professions  
Master of Science in Electrical Engineering  
Master of Science in Electro-Optics  
Master of Science in Engineering Management  
Master of Science in Engineering Mechanics  
Master of Science in Management Science  
Master of Science in Materials Engineering  
Master of Science in Mechanical Engineering  
Educational Specialist  
Juris Doctor  
Doctor of Engineering  
Doctor of Philosophy in Biology  
Doctor of Philosophy in Educational Leadership  
Doctor of Philosophy in Electro-Optics  
Doctor of Philosophy in Engineering  
Doctor of Philosophy in Theology

College of Arts and Sciences

The College of Arts and Sciences offers five undergraduate degrees: Bachelor of Arts, Bachelor of Science, Bachelor of Music, Bachelor of Fine Arts, and Bachelor of General Studies. Academic majors offered by the College include American Studies, Biology, Environmental Biology, Chemistry, Biochemistry, Communication Studies, Communication Management, Journalism, Public Relations, Electronic Media, Theatre, Computer Science, Computer Information Systems, Criminal Justice Studies, Economics, English, Geology, Environmental Geology, History, International Studies, Languages, French, German, Spanish, Mathematics, Applied Mathematical Economics, Music, Music Composition, Music Performance, Music Therapy, Music Education, Philosophy, Physics, Physics-Computer Science, Physical Sci-
University of Dayton

The College of Arts and Sciences offers master’s programs in biology, chemistry, communication, computer science, English, applied mathematics, pastoral ministries, philosophy, psychology, public administration, and theological studies.

School of Business Administration

The School of Business Administration offers undergraduate majors in accounting, business economics, entrepreneurship, finance, international business, leadership, management information systems, marketing, and operations management. On the graduate level, the School awards the Master of Business Administration degree.

School of Education and Allied Professions

The School of Education and Allied Professions (SOEAP) prepares professionals for the early, middle and secondary levels, and for specialized fields such as art, music, foreign language, intervention specialist, physical education, dietetics/nutrition, exercise science, pre-physical therapy, and sport management. It conducts retraining and post-graduate programs and offers graduate programs leading to the degrees of Master of Science in Education and Allied Professions along with Educational Specialist and Doctor of Philosophy in Educational Leadership. These programs are designed to prepare school administrators, school counselors, school psychologists, and teachers for both public and private schools nationwide.

School of Engineering

The School of Engineering includes the departments of Chemical and Materials Engineering, Civil and Environmental Engineering and Engineering Mechanics, Electrical and Computer Engineering, Mechanical and Aerospace Engineering, and Engineering Technology. The School offers four-year curricula leading to the degrees of Bachelor of Chemical Engineering, Bachelor of Civil Engineering, Bachelor of Electrical Engineering, Bachelor of Mechanical Engineering, Bachelor of Science in Computer Engineering, and Bachelor of Science in Engineering Technology with specialties in Computer Engineering Technology, Electronic Engineering Technology, Industrial Engineering Technology, Manufacturing Engineering Technology, and Mechanical Engineering Technology. The School offers graduate programs leading to the degrees of Master of Science in Engineering, Master of Science in Aerospace Engineering, Master of Science in Chemical Engineering, Master of Science in Civil Engineering, Master of Science in Electrical Engineering, Master of Science in Electro-Optics, Master of Science in Engineering Management, Master of Science in Engineering Mechanics, Master of Science in Management Science, Master of Science in Materials Engineering, Master of Science in Mechanical Engineering, Doctor of Engineering, Doctor of Philosophy in Engineering, and Doctor of Philosophy in Electro-Optics.
School of Law

The University of Dayton School of Law offers the Juris Doctor and two joint degree programs: Juris-Doctor—Master of Business Administration and Juris Doctor—Master of Science in Education and Allied Professions (Educational Administration).

The Graduate School

Programs leading to advanced degrees are offered through the College of Arts and Sciences and the Schools of Business, Education, Engineering, and Law.

Doctoral programs are offered in biology and theology; in aerospace engineering, electrical engineering, electro-optics, materials engineering, and mechanical engineering; and in educational leadership. Both Ph.D. and D.E. degrees are offered in engineering.

The College of Arts and Sciences offers masters programs in applied mathematics, biology, chemistry, communication, computer science, English, mathematics, pastoral ministries, philosophy, political science, psychology, public administration, and theological studies. Individual interdisciplinary studies are also available. Concentrations in Art Education and Music Education are offered through and in collaboration with the School of Education and Allied Professions.

The School of Business Administration offers a Master of Business Administration with concentrations in accounting, finance, international business, management information systems, marketing, operations management, and technology-enhanced business. A combined program offering a B.S.B.A. with an accounting major and an M.B.A. is offered. The J.D./M.B.A. joint degree is also offered to students meeting the admission requirements of both the Law School and the School of Business Administration.

The School of Education and Allied Professions offers a Master of Science in Education degree, with programs in Teacher Education, Educational Leadership, Counselor Education and Health and Sports Science. The school also offers an Educational Specialist degree in Educational Leadership and School Psychology, a Doctoral degree in Educational Leadership, and a graduate licensure program.

The School of Law offers a Juris Doctor degree.

LIBRARIES

The University of Dayton Roesch Library houses the University Library with its book, journal, video, government documents, and microform collections for both graduate and undergraduate students. The Marian Library, other rare and special collections, and the University Archives are also part of this facility. Roesch Library is open 108 hours a week throughout much of the academic year. Reference assistance is provided in a variety of forms including in-house, email, telephone, and private consultations. The Library subscribes to over 100 online resources on a variety of subjects and has current subscriptions to more than 6,500 journals in print.
and electronic formats. Comfortable study areas are convenient to the open stacks, and computers, photocopiers, seminar rooms, and faculty and graduate carrels are available. The Libraries are members of OhioLINK, a cooperative venture of university libraries and the Ohio Board of Regents. OhioLINK partners have created a common information network providing rapid access to and delivery of over 9,000,000 volumes available at college and university libraries across the state. All of the libraries affiliated with OhioLINK provide onsite borrowing privileges to students and faculty associated with the University.

The Marian Library, on the seventh floor of the Roesch Library, houses the world’s largest collection of works on the Virgin Mary. Its resources in over fifty languages include 100,000 books and pamphlets (some 6,000 printed before 1800), 125 periodicals, a clipping file of over 52,000 items, and a growing number of microforms. These works are supplemented by smaller collections: slides, medals, postcards, postage stamps, and illustrations of various kinds. In addition to these materials dealing with Mariology, the library has significant holdings in national and regional bibliographies, reference works on the Bible, ecclesiastical and dogmatic history, church art (especially of the Eastern Churches and Medieval Europe), and the history of the book.

The University of Dayton School of Law Library is located in Joseph E. Keller Hall. Its collection contains over 150,000 volumes and 63,000 physical units of microforms. The open-stack arrangement of the Law Library permits easy access to all materials.

The Curriculum Materials Center (CMC) which houses the School of Education and Allied Professions educational materials collection, is on the first floor of Chaminade Hall, Room 103. It offers a wide selection of children and young adult fiction and nonfiction, education journals, for use in P-12-schools textbooks, audio-cassettes, records, transparencies, charts, material kits, teaching aids, dissertations and videocassettes. The CMC also has 2 PC workstations, a copier, a binding machine and an Ellison Press for cutting letters and shapes. The virtual location is http://www.udayton.edu/edu/centers/cmc/index.html

ACCREDITATION

The University of Dayton is officially accredited by the following agencies:

The Accreditation Board for Engineering and Technology, Inc., for the programs in chemical, civil, electrical, and mechanical engineering and in electronic, industrial, and mechanical engineering technology
The American Assembly of Collegiate Schools of Business (AACSB) for the baccalaureate, accounting and Master of Business Administration programs of the School of Business Administration
The American Bar Association for its School of Law
The Association of American Law Schools for its School of Law
The Human Factors Society for the master of arts program in experimental-human factors psychology
The National Association of Schools of Music
The National Council for Accreditation of Teacher Education
The North Central Association of Colleges and Schools
The State of Ohio Department of Education
The Technology Accreditation Commission of Accreditation Board for
Engineering and Technology for the programs in electronic, industrial, manufacturing and mechanical engineering technology

The University has the approval of the following:

The American Chemical Society
The American Dietetic Association
The League of Ohio Law Schools for its School of Law
The National Association for Music Therapy

INSTITUTIONAL MEMBERSHIP

The University holds institutional membership in the following:

The Academy of Criminal Justice Sciences
The American Assembly of Collegiate Schools of Business
The American Association for Higher Education
The American Association of Colleges for Teacher Education
The American Association of Collegiate Registrars and Admissions Officers
The American Association of University Administrators
The American Association of University Women
The American Council on Education
The American Dietetics Association
The American Home Economics Association
The American Library Association
The American Society of Criminology
The American Society for Engineering Education
The Associated New American Colleges
The Association of American Colleges and Universities
The Association of American Law Schools
The Association of Catholic Colleges and Universities
The Association of College and University Housing Officers

SOUTHWESTERN OHIO COUNCIL FOR HIGHER EDUCATION (SOCHE)

A full-time student at the University of Dayton may register for courses for credit at Southwestern Ohio Council for Higher Education institutions (see below for a complete list) at the University of Dayton's rate per credit hour. Students will pay any applicable lab or related fees at the host institution. This policy applies only if the course is not available at the University of Dayton, space in the course is available and pertains only to regular sessions of the academic year (summer sessions and self-supporting or sustaining programs are excluded.) The student also is required to have advisor's permission, must satisfy all course prerequisites, and must meet the host institution's admissions requirements. For more information contact the Office of the Registrar, pmartin@udayton.edu.

The consortium of 20 colleges and universities was established to promote inter-institutional cooperation and community service. SOCHE holds regular conferences for faculty and staff, serves as a clearinghouse for the exchange of information, and promotes projects of educational research and experimentation. Many cooperation programs exist in teaching, research, publishing, college finance and administration, and other areas.

Consortium member schools include: Air Force Institute of Technology, Antioch University, Capital University-Dayton Center, Cedarville University, Central State University, Clark State Community College, Edison State Community College, Kettering College of Medical Arts, Miami-Jacobs College, Sinclair Community College, Southern State Community College, United Theological Seminary, Union Institute & University, University of Dayton, University of Phoenix/Dayton-Troy Center, Urbana University, Wilberforce University, Wilmington College, Wittenberg University, and Wright State University.

RELATED UNIVERSITY SERVICES

Besides the regular day sessions, the University conducts special as well as regular evening and summer sessions and offers short-term workshops, institutes, and conferences. All credited courses, whenever offered or in whatever form, conform to the same standards and are governed by the same policies and regulations prevailing during the regular day sessions.

Special Programs serve the part-time students of the Dayton community to make the University and its course offerings, both credit and noncredit, more easily
available to them. Similarly, the Office of International Student Services serves students from other countries who are enrolled at the University.

To foster interdisciplinary efforts, the Office of the Provost can administer courses designated UDI (University of Dayton Interdisciplinary) to accommodate interschool offerings and experimental programs. (UDI courses are listed and described in Chapter X, as are other special offerings.)

The Research Institute, an integral component of the University of Dayton, provides important resources and reinforcement for all levels of academic endeavor, as does UDit. (See Chapter X.) A unit of the Army Reserve Officers Training Corps, also based on the campus, offers its academic program through the Department of Military Science. (See MIL, Chapter VI.)

ACADEMIC CALENDAR YEAR

The University of Dayton operates under an early semester, split third-term calendar. The academic year begins with the fifteen-week fall term, which ends before Christmas. The winter term, also fifteen weeks, begins in January and ends early in May. The third, or spring-summer term, is split into two complete sessions of six weeks each.

The advantages of such a calendar are many. Students may enroll for the traditional fall and winter semesters and have a four-month summer vacation; or they may add half terms or full terms to enrich their programs or speed the completion of their degree requirements. The University issues diplomas at the end of each term and holds ceremonies in May and December. Students who must earn their own money can have extra time for employment in spring and summer; or they may enroll for the third term and work during the fall or the winter term, when the employment market is not crowded with other college students.
II Student Life and Services

OFFICES OF RESIDENTIAL PROGRAMS AND RESIDENTIAL SERVICES

One of the most challenging and growth-oriented experiences available to students is residential living. The University strives to provide a co-curricular environment that both supports and challenges students to reach their full potential. Understanding, mutual respect, and an openness to diversity fosters the development of a positive community.

Towards this goal, professional, graduate, and undergraduate staffs coordinate with the Offices of Residential Programs and Residential Services in creating living and learning environments within University residence halls, suites, apartments, and houses. A Student elected governance board or council represents residential student opinions and assists the Residential Programs' staff in providing programmatic initiatives for each on campus living area. Student housing services are provided to residents through the main desk operations by Residential Services staff and for houses through the Residential Properties office. In addition, meditation, prayer, and the celebration of Mass are provided in the residence halls by campus Ministry staff who reside in the various residential living areas.

All first-year and sophomore students are required to live in the University residence system unless they are married, are twenty-one years of age or over, or are local residents living with their legal guardian. Junior and senior students have the opportunity to arrange their own housing in University apartments and houses or to choose non-university housing.

Upon official acceptance to the University of Dayton, the Office of Admission sends all new students applications, contracts, and instructions for securing residential living accommodations. However, any questions regarding obtaining housing should be directed to the Office of Residential Services. Questions regarding residential living issues should be directed to the Office of Residential Programs.

FOOD SERVICE

The University of Dayton Dining Services operates three full-service student dining facilities located in Kennedy Union, Marycrest Complex and the Virginia W. Kettering Residence Hall. Extended hours are offered in Kennedy Union and Marycrest Food Courts to serve students food/snack requirements beyond the traditional meal periods.

All students living in Marycrest, Stuart, Founders and Virginia Kettering Residence Halls are required to purchase a meal contract. Contract options are as follows.

- **Any 12 Meal Plan** — Provides any 12 meals, breakfast, lunch or dinner, over seven days, starting with the first day of classes.

- **Any 15 Meal Plan** — Provides any 15 meals, breakfast, lunch or dinner over seven days, starting with the first day of classes.

- **All 21 Meal Plan** — Provides breakfast, lunch and dinner over seven days, starting with the first day of classes.
Note: Only one meal per meal period is allowed. For example, two lunches on the same day are not permitted with meal plan options.

In addition to the selected meal plan, most resident students open a Flyers Express account to supplement their needs beyond the scheduled meal periods.

OFFICE OF STUDENT ACTIVITIES

The Office of Student Activities provides support, direction, and programming opportunities to students and officially recognized student organizations in an effort to enrich and enhance academic life and foster a spirit of community. In addition, the office is responsible for registering all "open" student organization-sponsored events, granting recognition to all student organizations, approving funding and space allocation, providing assistance for organization advisors, publicity approval, programming the Flyer TV information channel, coordinating campus-wide events, and planning leadership workshops and retreats.

The office works directly with the FLYER NEWS, FLYER RADIO, DAYTONIAN, ORPHEUS, Campus Activities Board, Distinguished Speakers Series, First-Year Cultural Experience Programming, Christmas on Campus, UD Concert Board, the Commuter Student Organization, fraternities/sororities, and all professional/honorary/academic and special interest organizations.

JOHN F. KENNEDY MEMORIAL UNION

The John F. Kennedy Memorial Union, centrally located on the campus, offers comfortable surroundings and a variety of services for the University community. Lounges provide free space for discussion, studying, and socializing. The Union operates a games room with bowling lanes, pool tables, and video games. The ground-floor food court includes a pizzeria, a bakery, a delicatessen, a mini-snack bar, and a pub. An information kiosk in the main lobby accesses student schedules, records, etc. Three automatic teller machines, display cases, and vending machines are housed in the Union, as are student offices for Student Government Association, Flyer News, Daytonian, Flyer Radio, Flyer TV, CAB, Greek councils, The Pub entertainment, and a lounge for commuter students. Other offices in the Union are those of the Information Center, Box Office, Gift Shop, Student Activities, KU Dining Services, Catering Services, and the travel agency. Meeting rooms, a ballroom, Boll Theatre, and University vans are available for use and can be reserved by contacting 229-3333 (Kennedy Union Room 241). A variety of cultural, educational, social, and recreational activities are presented in the Union regularly. Among the continuing programs are recitals and concerts by students and faculty, theatrical productions, and dance ensemble concerts.

STUDENT HEALTH CENTER

During the academic year, the Student Health Center, in Gosiger Hall, is open from 8:00 a.m. to 8:00 p.m. weekdays, except University holidays. Summer hours are 8:00 a.m. to 4:00 p.m. The Health Center provides a broad range of medical services to students. One or more physicians are in attendance during daytime hours.
COUNSELING CENTER

The main purpose of the Counseling Center is to assist students in self-development, including career planning, personal adjustment, and social skills building. All students in need of objective insights or merely "a listening ear" are encouraged to make use of the Center's services. No student's concern is too minor to explore. This is usually accomplished through one-to-one counseling, although there are opportunities for group interaction on certain topics and outreach programming for student, faculty, and staff groups. The Center also provides career and personality testing services.

Because counseling often involves sensitive personal matters, discussions between counselors and students are strictly confidential. An exception occurs when students who have life-threatening problems are required to receive psychiatric evaluation and/or counseling. Such problems may include but are not limited to suicide attempts, chemical dependency, anorexia nervosa, bulimia nervosa, and psychotic behavior. The University and the student may enter into a contract to establish conditions regarding required treatment. The student may decide to use the services offered by the University or to receive treatment elsewhere. In the latter case, periodic review by the University is required to confirm that contract conditions are met. For the welfare of the student, problems warranting treatment more intensive than the University can offer may require temporary medical withdrawal from the University. The student may be readmitted to the University upon acceptable completion of contract conditions. In life-threatening circumstances, the University assumes the position that the parents or guardians of the student should be notified, and it will initiate such notification if the student has not done so within an appropriate time, refuses to do so, or is unable to do so. Life threatening problems involving minor students are cause for immediate notification of parents or guardians.

A one-time counseling fee charged to all matriculating undergraduate students covers the cost of services by the Counseling Center while they are at the University. Graduate and nonmatriculated undergraduate students pay charges on a fee-for-service basis. The Center is accredited by the International Association of Counseling Services, Inc.

CRITICAL ISSUES EDUCATION

The Office of Educational and Special Programs coordinates educational efforts on the topics of alcohol, relationships and sexuality. Critical Issues Education is a program that seeks to educate students about some of their most basic life experiences, decisions, and developmental processes. The program combines the issues of alcohol and other drug use, sexuality, relationships, gender issues, communication, self esteem, and peer pressure together in its programs.

Critical Issues Education includes the sexual assault prevention program; a peer education program called START (Students Talking About Real Topics); the critical issues committees on Gay, Lesbian, Bisexual Issues, relationship issues, alcohol and other drug prevention; a major speakers series; and visual education projects. The office of Educational and Special Programs collaborates with other areas of the University community to program on critical issues topics.
SERVICES FOR DIVERSE STUDENT POPULATIONS

The University of Dayton is committed to creating an environment that celebrates cultural diversity while focusing on the Marianist philosophy of service, leadership and community. The division of Student Development provides facilities and services to support African-American and Latin-American undergraduate students through the Office of Diverse Student Populations. This support often assumes the form of special programming that reflects the cultural heritage of these populations, as well as supplemental counseling and advising. The Diverse Student Populations staff works closely with academic deans, faculty, and other administrative offices to provide a nurturing community that promotes a better understanding of racial/cultural understanding.

OFFICE OF LEARNING ASSISTANCE

The Office of Learning Assistance offers three courses—Critical Reading and Study Skills, Developmental Mathematics, and Developmental Writing—and other services to accommodate both the academic and the personal development of each student and to provide all students an opportunity to enjoy their maximum academic success. (See also DEV, Chapter X.)

Learning Support Services offers both drop-in and appointment-based tutoring for entry-level courses. Academic assistance on a drop-in basis is available from the Write Place for any kind of writing project in any subject. There is no charge for any of these services.

FLYER EXPRESS

Flyer Express is a debit account created for University of Dayton Students. Funds deposited in the account may be used at selected locations on and off campus and are accessed by using the Campus One Card. Flyer Express is accepted at the UD Bookstore, residence hall laundry, all Food Service locations, Arena Concessions, Campus Copy Center, selected vending areas, KU Gift Shop, KU games room, Rudy’s Fly-Buy convenience store, Campus Computer Store, JFK Box Office, The Blend, The Smoothie Bar, and selected off-campus vendors.

NEW STUDENT ORIENTATION

Each year new undergraduate students arrive a few days before the opening of the academic year to participate in the New Student Orientation Program. Its purpose is to familiarize students with the campus and to assist them in their transition to student life by providing a variety of academic and social functions. The New Student Orientation Program is conducted by the Office of Educational and Special Programs.

PUBLIC SAFETY

The Office of Public Safety is the recognized, lawful, professional police agency
on all University property. Its objective is to make the University a comfortable, efficient, and safe place. The University of Dayton Public Safety staff are dedicated to the preservation of freedom of movement and communication without the fear of property loss or personal injury. Those in need of emergency assistance or ambulance service should call 911 on campus or the Office of Public Safety at 229-2121.

PARKING

Campus parking facilities are limited. Commuting students are issued permits to park in Lot S1. Parking permits will be issued to residence hall students on a SPACE AVAILABLE, first-come, first-served basis to those who can validate a special need. Students with off-campus jobs must present a letter of employment on company letterhead. Others will be placed on a waiting list upon request. Drivers with unusual problems will be given special consideration.

In Campus South, the Garden Apartments, and UD houses, one parking permit per apartment/house will be allocated. In the event additional parking permits become available due to under-utilization, these permits will be issued on a first-come, first-served basis. Permits are issued through the department’s division of Parking Services located in Gosiger Hall, 2nd floor.

CAMPUS ONE CARD

All students must secure their Campus One Cards at the beginning of their first term at the University of Dayton. The Campus One Card is used to access numerous University services. The Campus One Card provides official student identification, access to meal plans, Flyer Express debit account, library, PAC, and computer lab privileges.

The original Campus One Card is issued at no charge. Replacement fees apply to any additional cards. If a student withdraws from the University during the academic year, the Campus One Card should be returned to the Office of Student Development.

STUDENT HANDBOOK

Each student at the University of Dayton is responsible for knowing and observing the policies, regulations, and procedures contained in the official student handbook. This publication provides much useful information on such subjects as University services, student organizations, student publications, and intercollegiate sports schedules.

Student handbooks are available at the opening of the fall term in University housing, the McGinnis Center, and Kennedy Union.

CAMPUS MINISTRY

Campus Ministry seeks to lead the University in fostering faith communities by promoting Gospel values and enabling the reign of God through proclamation, witness, and service.
Campus Ministry inspired by the Marianist tradition, strives to form persons and communities in a lived faith, expressed in worship, in challenging and compassionate relationships, and in commitment to justice and service. Regular and special celebrations of liturgy (e.g., Sunday Eucharists, daily Eucharist, Morning Prayer, and the Sacrament of Reconciliation) are scheduled. Student involvement as lay ministers (e.g. lectors, communion ministers, and music ministers) is important to these celebrations. Beyond liturgical celebrations, Campus Ministry provides opportunities for people to enhance their understanding of their faith through sacramental programs, retreats, guest speakers, faith-sharing groups, and other educational activities. Students are encouraged to participate in the planning and leading of these activities. Since the University is a Catholic University, significant emphasis is placed on worship for our Catholic population. Opportunities for worship are also provided for those who do not profess the Catholic faith.

Campus Ministry is committed to a strong campus community. Creating welcoming communities is an element that makes the residence life ministry program distinctive. Campus ministers help students enhance the living of faith in daily life together. In addition to personal contacts, programs are created to fit student interests and needs: faith sharing and bible study groups, retreats, prayer experiences, and service opportunities. The diversity of the campus is recognized and celebrated through special programs for our diverse student populations.

Campus Ministry is committed to justice education and service. The social dimension of the Church’s mission is two-fold: direct service to the poor and marginalized and advocacy to change unjust structures that oppress and marginalize people. The Center for Social Concern provides, through its peace and justice activities and service clubs, opportunities to participate in this important aspect of the mission of the Church. These activities provide students many opportunities to learn, lead and serve.

ATHLETICS

Many people throughout the country have come to know the University of Dayton through the accomplishments of its intercollegiate athletic teams. Participation in athletics is part of the educational development the University offers all students. There are seven men's intercollegiate sports: football, soccer and cross country in the fall; basketball in the winter; and baseball, golf and tennis in the spring. There are ten women's intercollegiate sports: volleyball, soccer and cross country in the fall; basketball and indoor track in the winter; and softball, rowing, golf, tennis and outdoor track in the spring. Cheerleading tryouts, open to all students, are held each year.

Any student male or female who anticipates participating on a varsity sport must be certified through the NCAA Initial-Eligibility Clearinghouse. Additionally, student-athletes are required to complete a physical examination and provide documentation of their medical history and current insurance coverage.

INTRAMURAL AND RECREATIONAL SPORTS

The Recreational Sports Department provides a variety of intramural activities in which anyone can find exercise surrounded by a unique spirit of fun and competition. Activities include softball, flag football, indoor and outdoor soccer,
volleyball, basketball, in-line hockey, floor hockey and more. All students are invited to participate; ability is not important — just the desire to play. The Intramural Office is located on the second floor of the Physical Activities Center and students are invited to stop in at any time.

Inside the PAC is a 25 yard-pool; handball, racquetball, and squash courts; men's and women's carpeted locker rooms; single station selectorized weight room; free weight room; four courts for basketball or volleyball surrounded by 1/10 mile track. The Fitness Center is located on the second floor. The Fitness Center contains twenty-seven cardiovascular machines, four TV monitors, two separate sound systems, state of the art suspended wood floor, carpet and air-conditioning. The Fitness Center is open for student usage daily. A student lounge overlooks both the Collins Gymnasium and Lackner Natatorium.

Another popular feature of the Recreational Sports Department is the Sports Club Program. Currently, there are twenty-four recognized sports clubs on campus. The Sports Club Program offers students the opportunity to participate on a competitive level, while at the same time learning and developing new skills. Anyone interested in joining a sport club or starting a new one is encouraged to come in and speak with the Sports Club Coordinator.

Schedules concerning free play hours and scheduled events may be secured from the Recreational Sports Office.

CAREER SERVICES CENTER

Services and resources are comprehensive, designed for every phase of the career planning process. All University of Dayton students, including first-year students and alumni, are encouraged to register for online resources provided by the Career Services Center.

The most utilized services are:
- Cooperative education
- Interviewing techniques seminars
- Practice job interviews
- On-campus interviews
- Resumé critiques
- Online professional job postings
- Job strategy seminars
- Data on job market, salary and employment trends
- Web walk-up
- Experiential education opportunities
- On-line alumni career network
- Career advising

Workshops on interviewing and job search strategies are regularly scheduled and publicized each term. Practice interviews with a professional staff member can be videotaped and evaluated upon request to prepare the student for actual on-campus interviews by company representatives.

Students can register for Web walk-up at the Career Services Center. Students in the First-Year Experience program are automatically registered. This personalized, online program outlines the procedures for on-campus interviews as well as locating job postings.
EXPERIENTIAL PROGRAMS

The goal of any experiential learning program is to provide practical work experience associated with a student's course of study and/or life experience through service learning/volunteering opportunities. All students pursuing a four-year degree program should consider one or more of these programs.

- Internships
- Career-related summer employment
- Cooperative education
- Student contract program positions
- Externships and/or job shadowing
- Community/service learning
- Volunteer opportunities
- International placement or study/work abroad opportunities

Internship, summer employment, cooperative education and student contract program positions are posted on the Career Services Center homepage in Web walk-up. Simply follow the steps listed in the registration process to register for this online system.

COMMUTER STUDENT SERVICES

Commuter Student Services provides an essential aspect to the University of Dayton campus. Commuter students' knowledge and pride of the Dayton area help make out-of-town students feel more comfortable and at home while at the University. A lounge for commuter students is located in Kennedy Union (118) which is used for study, relaxation, and meeting friends. Telephone, microwave, refrigerator, and computers are provided for the convenience of commuter students.

The Assistant Director of Student Activities is advisor to the commuter students and provides services and facilities to meet the educational, developmental and physical needs of these students and maintains contact with the academic and nonacademic areas of the University to increase understanding of these specific needs.

OFFICE FOR STUDENTS WITH DISABILITIES

The University of Dayton is committed to including individuals with disabilities as full participants in its programs, services and activities through compliance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA) of 1990. The mission of the Office for Students with Disabilities (OSD) is to ensure that qualified students with disabilities have equal access to educational opportunities at the University of Dayton so they can participate, freely and actively, in all facets of University life.

The Role of the Office for Students with Disabilities is to:

- Ensure reasonable accommodations to qualified students with documented disabilities
- Determine appropriate accommodations and support services
Student Life and Services

- Assist the university to comply with the provisions of the Americans with Disabilities Act of 1990 (ADA) and Section 504 of the Rehabilitation Act of 1973
- Encourage the development of self-advocacy and self-determination skills
- Maintain and protect the confidentiality of student as required by law
- Assist the university community to understand the effects of disabilities and to eliminate the physical, technical, and attitudinal barriers that limit the range of opportunities for students with disabilities

Services Available Include Assistance with:

- Disability Management Advising
- Obtaining alternative formats of print materials (Braille, large print, audio tape)
- Interpretation and maintenance of students' confidential documentation of disability
- Authorization of accommodations based on documentation of disability
- Obtaining classroom accommodations such as notetakers, readers, scribes, and sign language interpreters
- Arrangements for audio taped texts
- Obtaining self-identification forms and liaison with faculty to arrange accommodations
- Obtaining exam accommodations
- Obtaining access to adaptive technology and equipment
- Liaison with external agencies

Students may identify their needs by scheduling an intake appointment with OSD by calling (937) 229-3684. All accommodations are based on individual need.
III Admission

Each application for admission to the University of Dayton is considered individually. The admission committee reviews the academic achievement, aptitude, and interest of every applicant with the goal of admitting students who possess the intellectual ability and the motivation to profit best from their attendance at the University of Dayton.

APPLICATION FOR ADMISSION

All applications for first-year admission must be submitted to the director of admission via the University of Dayton’s electronic application form. Applicants are encouraged to submit applications early in their senior year of high school. There is a priority application deadline of January 1.

The applicant must also present an official transcript of courses and grades in secondary school and the results of either the SAT-I or ACT. Any person whose native language is not English must submit an acceptable score in the Test of English as a Foreign Language (TOEFL). Exceptions to this policy may be made for students whose education has been in schools where English is the principal language of instruction.

Admission is based on the total information submitted by the applicant on his or her behalf. It is the applicant’s responsibility to see that complete information has been provided to the director of admission.

CONSIDERATIONS FOR ADMISSION

The applicant must have graduated from a high school accredited by a regional accrediting agency or by a state department of education or by the equivalent, and have a total record indicating a likelihood of success at the University of Dayton. The General Education Development (GED) certificate is also recognized for consideration by the admission committee.

The quality of the academic record is shown by the applicant’s grades, standing in class, and selection of courses. Although no set pattern of courses is required for admission, a well prepared candidate will have had from 15 to 18 units in English, social sciences, mathematics, foreign language and laboratory science. Those who plan to major in one of the natural sciences, mathematics, computer science, business administration or engineering will find a strong mathematics background most helpful.

Additional indicators of academic aptitude are scores received on the SAT-I, the ACT, and, when applicable, the Test of English as a Foreign Language (TOEFL).

The admission committee is very interested in the applicant’s personal traits and record as a school citizen. The recommendation of the high school guidance counselor concerning ability, motivation and character is reviewed by the admission committee.

Each applicant is encouraged to visit the campus for an interview with an admission counselor. A visit also will provide an opportunity to see the campus and ask questions of the students and faculty.

Admission

TRANSFER STUDENTS

Students from accredited institutions may be considered for transfer to the University of Dayton provided they are in good standing socially and academically (minimum of a C average—2.0 cumulative grade point average).

Transfer students will be considered for admission after they have followed the regular admission procedure. All applications for transfer admission must be submitted on forms supplied by the University of Dayton. SAT-I or ACT scores are required only of transfer applicants under 21 years of age. All transfer candidates must submit official transcripts from all institutions previously attended. The Office of Admission will evaluate the transcript(s) to determine the number of transferable credits. In general, all college credits earned with a "C-" or higher from any regionally accredited college or university will transfer and be included on the University of Dayton transcript. No credit will be given for a course in which the student earned below a "C-." The evaluation to determine which courses will be accepted toward the degree will be completed by the dean's office of the appropriate college or school.

A student with transfer credit from a two-year institution will be required to have at least 54 semester hours from a four-year institution for any baccalaureate degree. A transfer student is considered for a degree only if the last 30 semester hours have been taken at the University of Dayton and other requirements for graduation have been met.

VETERANS

All departments at the University have been approved by the State Approving Agency for Veterans' Training. The Veterans Affairs Office is located in Albert Emanuel, first floor, and will assist in processing the necessary forms for educational benefits. Each semester the Veterans Schedule Form must be submitted and any changes in program be reported in writing. Failure to follow this procedure may result in cancellation of benefits by the V.A. For the conditions for good academic standing, see "Academic Standing," Chapter V. If a veteran on probation fails to acquire the required cumulative grade-point average at the end of the veteran's next full-time term, the benefits from the V.A. cease.

INTERNATIONAL STUDENTS

Undergraduate students who are not United States citizens or permanent residents of the United States are expected to submit international student admission application forms. They need to follow the general admission procedure outlined above and the specific procedures outlined in the application brochure. The applicant whose native language is not English must demonstrate a score of 523 (paper-based) or 193 (computer-based) on the Test of English as a Foreign Language (TOEFL). A minimum score of 956 on the English Language Proficiency Test (ELPT) may be submitted in lieu of the TOEFL.

A student unable to demonstrate an acceptable TOEFL score of at least 523 or the equivalent at the time of application may be considered for conditional admission. Such a student will be expected to attend the English Language and Multicultural Institute (ELMI) as a full-time student, successfully complete the program and obtain a TOEFL score of 523 or better before full admission will be granted.
International student applicants must present their academic credentials in official English translation along with their transcripts in the original language. The applicant must also present certification of financial resources available to support an education at the University of Dayton.

Other pertinent information may be obtained from the director of marketing for enrollment management.

PROGRAMS FOR SELECT AT-RISK STUDENTS

The University has planned academic support programs, subject to availability, for a limited number of students who are judged to need special support to be successful at the University of Dayton.

Some students are recruited by the University for their special talents in the performing and visual arts and in athletics. When these students are judged to need academic support, they are required to complete a summer program of two specially selected courses and academic support sessions and/or participate throughout the year in a University academic enhancement program.

SPECIAL ADMITS PROGRAM

The University Special Admits Program serves entering first-year students who are capable of academic success but because of deficiencies in their academic background need additional support to realize their full potential. Each year the Office of Admission in collaboration with each academic division (College of Arts and Sciences, Schools of Business Administration, Education and Allied Professions, and Engineering) sets guidelines for accepting a limited number of first-year undergraduates as Special Admit students. Each academic division has developed support programs to help Special Admit students succeed academically in college. Depending on the academic division, the Special Admits Program may include careful course placement, special advising, supplemental instruction (SI) in designated courses, study tables, math workshops, and cohort formation. The Office of Admission and the deans' offices can provide more specific information about the Special Admits Program in each academic division.

ADVANCED STANDING BY EXAMINATION

ADVANCED PLACEMENT (AP)

The University accepts the advanced placement program offered to secondary schools under the auspices of the Advanced Placement Committee of the College Entrance Examination Board.

The University will give not only advanced placement, but also credit to students enrolled in the program, if such students have taken the tests provided and scheduled by the College Entrance Examination Board and have received appropriate scores from the Educational Testing Service.

Students wishing to receive advanced placement under this program are to arrange that test scores be sent to the University of Dayton AP coordinator. Advanced standing with credit in appropriate subject areas is awarded as follows:

For a score of 5—one or two terms of advanced standing with credit, depending on subject area.
Admission

For a score of 4—one term of advanced standing with credit.
For a score of 3—one term of advanced standing with credit is awarded in the following: Computer Science, Environmental Geology, French, German, Latin, Physics, Psychology, Spanish and Statistics.
Scores below 3 do not entitle the applicant to either credit or advanced standing.

COLLEGE-LEVEL EXAMINATION PROGRAM (CLEP)

The University of Dayton cooperates with the College-Level Examination Program (CLEP) of the College Entrance Examination Board (CEEB). Academic credit is available to students in any of the four acceptable areas of General Education as indicated below.
- English—no credit
- Foreign Languages—no credit
- Mathematics—maximum of 3 semester hours of credit
- Natural Sciences—maximum of 7 semester hours of credit
- Social Sciences and History—maximum of 6 semester hours of credit
- Humanities—maximum of 6 semester hours of credit

Academic credit is also available to students who achieve scores above a specified minimum on certain subject examinations. Since not all subject examinations are acceptable and some subject examinations require the Free Response (essay) section, it is advisable to consult the University coordinator for AP and CLEP.

HIGH SCHOOL SCHOLARS

The University of Dayton participates in the program established by Ohio Senate Bill 140, which allows high school juniors and seniors to enroll in college courses while still enrolled in high school. This program is also known as the Post-secondary Enrollment Options program. It is selective and limited to a specific number of students. Interested students must submit applications for the High School Scholars program. These applications are available in the Office of Admission or in high school guidance offices in the Dayton area.
IV Financial Information

GENERAL POLICY

The tuition and fee charges of the University are set at the minimum permissible for financially responsible operation, and in general these charges are less than the actual costs incurred. Gifts and grants received through the generosity of industry, friends, and alumni help to bridge the difference between income and costs. The trustees of the University reserve the right to change the regulations concerning the adjustment of tuition and fees at any time the need arises and to make whatever changes in the curricula they may deem advisable.

Payment of tuition, fees, room, and board is due at the time of registration for the term or in accordance with current deferred payment terms. All checks should be made payable to the UNIVERSITY OF DAYTON. The student’s name and student identification number should be shown on the face of each check to insure proper credit.

An assessment of $25.00 + 1% of the check amount will be made for payment of tuition and fees by a bad check or for any other returned check from any area at the University. This assessment is made each time a check is dishonored.

Registration for a new term, transcripts of credit, and honors of graduation may be permitted only for students whose financial University records are clear.

UNDERGRADUATE TUITION AND FEES
AUGUST 2002 THROUGH JULY 2003

Fees Payable One Time

Application fee, payable once, upon application ........................................... $30.00
Application Fee, international students ......................................................... 30.00
Counseling Center fee, payable once, at entrance ........................................... 90.00
Orientation fee, payable once, first-year resident students only ....................... 95.00
Orientation fee, payable once, first-year commuter students only ..................... 85.00
Miscellaneous deposit (refundable after graduation or dropout) ....................... 50.00

Tuition Charges in Terms I and II

Full-time undergraduate student (12-17 semester hours), per term ...................... $8,725.00
Each semester hour over limitations stated above .......................................... 582.00
Three-fourths-time undergraduate student (8-11 semester hours), per term .......... 6551.00
Part-time undergraduate student (1-7 semester hours), per semester hour .......... 582.00
Audit course, per undergraduate semester hour ............................................ 291.00
Basic University Fee, Terms I and II

Full-time and 3/4-time student (8 or more semester hours), per term .... $275.00
Part-time student (1-7 semester hours), per term ........................................ 25.00

Laboratory Fees, Terms I and II

Laboratory fee, per laboratory clock hour as listed in composite
(not to exceed $250.00 per term; not applicable to engineering
and engineering technology students) ......................................................... $ 50.00

Engineering surcharge fee (incorporating laboratory charges)
full-time and 3/4-time engineering and engineering
technology students, each term ............................................................... 570.00

Course Fees, Terms I and II

Fees are listed with the course names and times in each term's
course composite. Following are some examples of the types
of courses for which there are special course fees.

Special fees for certain courses in art, design, and photography ..... $20.00-65.00
Physical Education (scuba diving, skiing, etc.) ................................. variable
*Music fees .................................................. 50.00-225.00
*Certain courses in theatre ................................................................. 5.00-35.00

Elementary or secondary education ...................................................... 140.00
Special education or special arrangements ........................................ 90.00
Concurrent registration ........................................................................ 215.00

Elementary and secondary block fees for specified
courses — per course ............................................................................ 35.00-50.00

Tuition and Fees, Term III

Tuition per semester hour ................................................................. $582.00
Basic University fee .......................................................... 25.00

Laboratory and course fees—Same as in Terms I and II but no sur-
charge for engineering; laboratory fees will be charged per clock hour.

Other Charges

Late registration service charge:
Full-time and 3/4-time students—25.00 per week to a maximum of ... 75.00
Part-time and summer students—15.00 per week to a maximum of ... 45.00
Credit by examination, per semester hour ........................................... 30.00
CLEP per credit hour .............................................................. 30.00
Graduation fee, undergraduate students ........................................ 75.00
Books and supplies ................................................................. variable
Transcript of credits, first copy of order ........................................ 2.00
Each additional copy of same order ................................................ 1.00
Co-op student fee, per work term .................................................. 65.00

Finance charge—1% monthly on ending balance if total amount due is not paid by
the last business day of the month following the month of initial charge.
FULL-TIME AND 3/4-TIME STUDENTS

A student with an academic schedule of at least 12 semester hours is considered a full-time student. A student with an academic schedule of 8-11 semester hours is considered a 3/4-time student. With this status and upon payment of the tuition and applicable fees, the student is entitled to the benefits of the various activities and student services as available.

PART-TIME STUDENTS

A student with an academic schedule of fewer than 8 semester hours is considered a part-time student.

SPECIAL STUDENTS

Special students and nonmatriculated students (continuing education) are subject to the various expenses outlined above for full-time, 3/4-time, or part-time students.

CANCELLATION AND REFUNDS

If registration and housing are cancelled before the first day of classes, full refunds will be made, with the exception of admission deposits.

Cancellation must be in writing on the proper form, the withdrawal or “drop” form for registration or in written form to the Residential Services Office for housing. For nonlocal students a letter to the appropriate dean may be used as notification of cancellation. Students who do not attend classes and do not officially complete withdrawal procedures during the cancellation period will be responsible for the full amount of the applicable tuition and fees.

During the four-week cancellation period for the first and second terms, tuition and housing credits will be given according to the following schedule:

- During first week of classes ........................................ 80%
- During second week of classes .................................... 60%
- During third week of classes ...................................... 40%
- During fourth week of classes ................................... 25%
- During or after fifth week of classes .............................. 0%

(The 1st week starts on the first day of a term; the 2nd week begins 7 days later, etc.)

Special course fees are fully refundable through the Friday of the first full calendar week of the term and not refundable thereafter.

Laboratory fees are fully refundable through the Friday of the first full calendar week of the term and refundable on the same schedule as tuition thereafter.

During the two-week cancellation period for each six-week session of the split third term, tuition and housing credits will be given according to the following schedule:

- During first week of classes ........................................ 65%
- During second week of classes .................................... 30%
- During or after third week of classes .............................. 0%

Cancellations for a full third term course have a four week cancellation period and will be on the same schedule as cancellations for the first and second terms.

Financial adjustments for tuition are based on the date the drop (withdrawal) form is finalized in registration.
Financial adjustments for housing (please refer to your housing contract) are based on the date of checkout from housing, if applicable.

In a summer term, special course fees are fully refundable through the first three days of the term and not refundable thereafter.

In a summer term, laboratory fees are fully refundable through the first three days of the term and refundable on the same schedule as tuition thereafter.

Special rules may apply for students who withdraw and who received Title IV funds. Please contact the Office of Financial Aid if additional information is needed.

After classes have begun, the University fee for student activities is not refundable. All tuition refund requests and appeals must be in writing and directed to the attention of David J. Necessary–Director of Student Accounts/Bursar.

Students suspended/dismissed from the University or from University residence facilities as a result of disciplinary action are not eligible for any refund of tuition and fees or room and board charges under the University’s Cancellation and Refund policy. Exceptions to this position will be made to comply with refund requirements of federal financial aid programs.

RESIDENCE FACILITIES POLICY

Each unmarried first-year and second-year student under 21 years of age, not living at home in the Dayton area with his/her parents or legal guardian, is required to live in University housing.

Each student applying for a University residence facility must complete a residential living contract card with the Residential Services office. The contract covers both the fall and winter terms of the academic year. Once a contract is signed, it may not be cancelled as long as the student is enrolled at the University.

Those students dropping all courses and checking out of housing during the first four weeks of school will be authorized refunds as stated under “Cancellation and Refunds.”

All students living in housing facilities are required to observe all University regulations and specific regulations of each facility. Residents will be held responsible for any damages to the residential structure which are due to their own negligence and will share responsibility with other residents of the structure for unidentified common area damages. The same conditions shall also hold for any loss or damage to the University grounds, fixtures, furnishings, or other property provided by the University for use by the students.

Students may reside in their rooms, suites, apartments or houses without additional charge during Thanksgiving and Easter vacations. All University residences are closed during Christmas vacation period and during the Spring-term break.

Food Service

All students living in residence halls must have one of the following:

- Any 12 MEAL PLAN (12 meals per week) ..................... $1,250.00
- Any 15 MEAL PLAN (15 meals per week) ................... 1,335.00
- All 21 MEAL PLAN (3 meals per day, 7 days) ................ 1,430.00

In addition to the selected meal plan, most resident students open a Flyer Express account to supplement their needs beyond the scheduled meal periods.

Non-resident students may purchase meal plans, Flyer Express accounts or make their own daily arrangements. The Kennedy Union and Marycrest Food Courts provide service on weekends, unless otherwise posted.

EXPENSES

The University of Dayton operates on a "split third-term calendar." Tuition and fees for full-time students during the 2002-03 academic year (fall and winter terms) will total about $18,000 (includes the Basic University Fee) plus laboratory and/or special course fees where applicable. Room and board on campus for this period would be approximately $5,600.00, based on double room occupancy, any 12 meals a week plan, and a Flyer Express account for weekends. Books and supplies will cost approximately $300 each term. In addition, the student will need funds to satisfy personal expenses and extra meals on the weekends.

Expenses for commuting students will include tuition, fees, supplies, and miscellaneous living costs. Transportation to and from the University as well as lunches should be considered in the budget.

PAYMENT OPTIONS

For those who prefer to budget annual school costs out of monthly income, the following options are available:

- **Credit Cards**—Payment for any University charges may be made by MasterCard, Visa, American Express, and/or Discover within the credit limits for those cards.

- **Pre-Payment Plan** — The University of Dayton’s monthly pre-payment plan, which is serviced through Key Education Resources, is a convenient alternative to lump sum semester payments. Any parent, guardian or student is eligible for this plan. Application materials may be obtained by calling 1-800-KEY-LEND (539-5363). Features of the plan include:
  - Ten monthly level payments (which can be revised at anytime)
  - Payments begin June 1st (you may also enroll after this date)
  - No interest charges and no credit review
  - Low cost — $40 application fee
  - Direct Debit Option available
  - College Completion Protection insurance option
Deferred Payment Plan — The University offers an open credit arrangement with installment provisions. All students are eligible for this plan. Students complete a one-time Credit Account Agreement form which is automatically sent prior to the first term of enrollment. Features of the plan include:

- Five monthly payments per semester
- Payments begin July 25 for fall term and December 27 for winter term
- Low interest charge of 1% per month on the ending balance
- No application charge and no credit review

ACADEMIC SCHOLARSHIPS FOR FIRST-YEAR STUDENTS

President's Scholarships have been established to recognize excellent high school achievement by incoming first-year students. Applicants receive consideration for these scholarships on the basis of the following:

- High school academic performance
- SAT or ACT scores
- Demonstrated service to school, community and church
- Proven leadership ability
- Citizenship

Awards range from $1,000 to full tuition and each scholarship is renewable for eight consecutive undergraduate terms. To remain eligible for these scholarships, recipients must maintain the required cumulative grade point average and participate in University-sponsored extracurricular activities (other than social).

Application Procedure

1. Apply for admission to the University of Dayton by January 1st of your senior year in high school. Apply on-line at www.udayton.edu.
2. Take the Scholastic Aptitude Test (SAT) and/or the American College Test (ACT) no later than December. Indicate that your scores are to be sent to the University of Dayton.

ACADEMIC SCHOLARSHIPS FOR RETURNING STUDENTS

Students in full-time attendance who have completed at least 12 semester hours on campus at the University of Dayton are eligible to apply for Scholarships. Recipients are selected on the basis of academic accomplishments, leadership, demonstrated service to the University, and the strength of the recommendations of faculty and staff members. Each year approximately 75 students are chosen to receive these scholarships, which are awarded for a period of one academic year and range from $500 to $2,000.

Application Procedure

Upperclass scholarship applications are available in the Office of Scholarships and Financial Aid from January 15 through March 15 each year.
OTHER SCHOLARSHIP OPPORTUNITIES

Athletic Scholarships: The University of Dayton offers scholarships in some men’s and women’s intercollegiate sports to students who have demonstrated special athletic and academic promise. Recommendations for scholarship awards are made to the scholarship committee by the coach who has the responsibility for administering the particular sport. Correspondence should be directed to the head coach of the sport in which the applicant is interested.

ROTC Scholarships: U.S. Army and Air Force scholarships can be used at the University of Dayton. Students can compete for 4-yr., 3-yr., and 2-yr. awards.

Art and Music Scholarships: Music awards are offered to both music majors and non music majors who distinguish themselves as outstanding performers. Visual art scholarships are awarded to students who demonstrate outstanding promise in the visual arts and plan to pursue a degree in this field. Scholarships for musical and visual art talents are determined by the faculties of the appropriate academic departments.

Additional Scholarships Administered by the University of Dayton: The University is authorized to select students as nominees for scholarships offered by certain corporations, business firms, service groups, and friends of the University.

NON-NEED BASED GRANT ASSISTANCE

The Ohio Student Choice Grant is given to Ohio residents who attend private colleges in Ohio. This grant, which is awarded through the Ohio Board of Regents, is available for up to ten semesters of full-time, undergraduate enrollment at the University of Dayton. Students must complete an Ohio Residency Form, which is available in the Office of Scholarships and Financial Aid. This form must be completed within thirty days after the first semester of enrollment to confirm eligibility. The Ohio Residency Form must be completed only once; renewal for the remaining semesters is automatic for full-time students.

FINANCIAL AID POLICY

The University of Dayton realizes that most students need assistance financing their college education. Financial aid is available in the forms of nonrepayable grants, student loans and part-time employment. Parent loans and monthly payment plans are also available.

To assure an equitable distribution of financial aid resources, students applying for assistance must complete the Free Application for Federal Student Aid (FAFSA). The FAFSA is used to determine the family’s ability to pay for the student’s education. The family’s ability to pay, or expected family contribution (EFC), is calculated after careful review of income, assets and other family information.

Eligibility for need-based federal, state and university-sponsored aid is determined by comparing the total cost of attending UD with a family’s ability to cover college expenses. Financial aid is considered supplemental to the student and family’s efforts to meet the cost of attendance.

FAFSA forms are available in the Office of Scholarships and Financial Aid. We recommend that students mail completed forms to the federal processor by March
15 to ensure that the University of Dayton receives the results by the priority
deadline date of May 1. Students must reapply for financial aid each year and list
UD's federal code (003127) on each application. Applications may also be submitted
via the Internet at www.fafsa.ed.gov for quicker processing time. Students are
couraged to call our office or meet with a financial aid counselor if they have
questions regarding financial aid.

GRANTS

Federal Pell Grants: The Pell Grant Program makes funds available to eligible
undergraduate students who demonstrate high financial need. Apply by complet-
ing the Free Application for Federal Student Aid (FAFSA).

Federal Supplemental Educational Opportunity Grants: These federally supported,
university-administered grants are provided to undergraduate students who have
high financial need. The value of this grant ranges from to $200 to $3,000 per year.

Ohio Instructional Grants: These grants are intended to encourage Ohio residents to
attend institutions of higher education within the state of Ohio. Residents with
annual family incomes less than $39,000 are eligible to receive this type of grant from
the state of Ohio for up to ten semesters of undergraduate enrollment at the
University of Dayton. They presently range from $444 to $5,466 for students at
private colleges and universities (such as the University of Dayton). Each recipient
of the Ohio Instructional Grant must (1) be a resident of Ohio, (2) be enrolled or
accepted for enrollment as an undergraduate student in an Ohio institution of
higher education, (3) be making "appropriate progress" toward a bachelor's degree,
and (4) meet the financial guidelines established by the Ohio Student Aid Commision.
Students enrolled in courses of study leading to degrees in theology, religion, or
other fields of preparation for a religious profession are not eligible. An application
packet may be obtained from the high school counselor or the Office of Scholarships
and Financial Aid at the University of Dayton. To apply, complete the Free
Application for Federal Student Aid (FAFSA).

Founder's Grants (University): The University of Dayton offers nonrepayable
grants to undergraduate students with demonstrated financial need. The
University assumes that the student will accept self-help in the form of loans and
school-year employment. The Founder's Grant is intended to cover a portion of the
financial need. The Free Application for Federal Student Aid (FAFSA) is required
annually for consideration.

President's Grants: The University has funds available which are reserved for
students in extreme or exceptional financial need. Although recipients are not
required to repay these grants, they should, when they achieve sufficient financial
status, accept the obligation of reimbursing the University so that other deserving
students may stay in school.

Kettering Grants: Graduates of Montgomery County (Ohio) high schools in the
upper 40% of their graduating class who come to the University of Dayton as full-
time entering first-year students and who demonstrate financial need may be
eligible for the Kettering Grants.
Financial Information

LOANS

Federal Perkins Loans are available to those applicants who have demonstrated financial need. The maximum loan for undergraduates is $4,000 per year of undergraduate work and $20,000 total. The recipient enters the repayment cycle nine months after ceasing to carry at least half the normal full-time academic load. When the recipient enters the repayment cycle, a five percent simple interest charge is included. Repayment can be spread over a ten-year period. Recipients who teach economically, emotionally, mentally, or physically handicapped children may receive cancellations of the loan. Other cancellation privileges are available.

Federal Stafford Loans (formerly Guaranteed Student Loans) are made available to all students. The maximum loan is $2,625 per year for the first year, $3,500 for the second year and $5,500 per year for the junior and senior years. Repayment begins six months after the recipient ceases to be enrolled at least half-time. During the repayment period a variable interest rate, not to exceed 8.25%, is charged. Repayment can be spread over a ten-year period.

Federal Parent Loan for Undergraduate Students (PLUS) provides a source of financing to all families regardless of the family income. All credit-worthy parents of undergraduate students may borrow up to the cost of education minus financial aid per academic year for each student attending an accredited college. Repayment begins within sixty days after the loan is fully disbursed. During the repayment period a variable interest rate, not to exceed 9%, is charged. Repayment can be spread over a ten-year period.

GATE Student Loan: the University of Dayton, in cooperation with The First Marblehead Corporation and Bank of America, makes these funds available to eligible undergraduate students. The Office of Scholarships and Financial Aid determines eligibility after review of the Free Application for Federal Student Aid (FAFSA).

Students are subject to a credit test that does not require an established credit history and in most cases a co-signer is not required. Repayment begins six (6) months after the student graduates, leaves school, or drops below half-time enrollment status. The amount of each payment depends on the size of your debt. The loan carries a thirteen year graduated repayment schedule. The interest rate is variable and adjusted quarterly based on the one month LIBOR rate + 2.75. Interest begins to accrue after the first disbursement is made but can be deferred until repayment begins.

Emergency Loans are available to students who encounter unexpected financial problems during the year. No interest is charged on these loans, which are contingent upon sufficient funds.

Private alternative educational loans are also available to help meet college expenses. The University of Dayton works closely with a group of preferred lenders and endorses their private loan programs. Each program offers competitive interest rates, flexible repayment schedules, and various co-signer requirements. If you are interested in a private alternative educational loan, please contact the Office of Financial Aid and Scholarships or the lenders listed below.

EMPLOYMENT

The Federal Work-Study Program (Federally supported) provides work opportunities for full-time and 3/4-time students who demonstrate financial need. While most work opportunities are on campus, employment is also available in local agencies and area elementary schools through the Federal Work Study Community Service Program.

University-Funded Employment (University supported) opportunities for students who do not qualify for the Federal Work-Study Program are also available.

Federal Work-Study and University-Funded student workers may work up to 20 hours per week during the school term and will receive payroll checks semi-monthly for their services. Students interested in pursuing opportunities in either of these programs should visit the Office of Student Employment, Room 148 of Albert Emanuel Hall.

TUITION REDUCTIONS

Employee Reductions: Employees, unmarried dependent children and the spouses of full-time employees are eligible for tuition remission for undergraduate courses. Employees and spouses of administrative, professional or faculty employees are also eligible for graduate school tuition remission. Interested students should contact the Office of Human Resources to complete necessary forms or to get further information regarding eligibility.

Senior Fellows: Students 60 years of age and over are eligible to apply through the College of Arts & Sciences at the University of Dayton for remission of tuition.

ADDITIONAL OPPORTUNITIES

Veteran Benefits
- Students who enlisted in the military as Active Duty or as Selected Reserve Status may qualify for the Montgomery G.I. Bill benefits.
- Students of a parent who is/was a military veteran may qualify for Educational Assistance Benefits.
- Contact the nearest Veteran Affairs Regional Office for additional information.
Financial Information

Vocational Rehabilitation: State vocational rehabilitation agencies arrange the training of handicapped persons for gainful employment. Requests for information on rehabilitation services should be directed to the State Director, Vocational Rehabilitation Agency, the State Capitol.

The U.S. Army Reserve Officers Training Corps (ROTC) program is offered on campus by the Department of Military Science. All students who complete the basic course (first and sophomore years) may enroll in the advanced course (junior and senior years), leading to a reserve commission in the Army at the time of graduation. During the advanced course, the student who has agreed to accept the commission and serve two years' active duty receives $150 a month subsistence. For further information, see MIL, Chapter VI.

Ohio National Guard Scholarship
- NOT based on financial need
- Available to Ohio residents enlisted in the Ohio National Guard
- Apply by contacting your local National Guard recruiter or call 1-614-889-7032
- Anticipated award $5,390/yr.

Ohio Safety Officers Memorial Fund
- NOT based on financial need
- Available to children of Ohio Peace Officers or Ohio Firefighters killed in the line of duty
- Apply by contacting UD's Office of Scholarships and Financial Aid
- Anticipated award $3,564/yr.

Ohio War Orphans Scholarship
- NOT based on financial need
- Available to children of deceased/disabled Ohio war veterans
- Apply by contacting your local high school
- Anticipated award $4,206/yr.
- Deadline July 1
V Academic Regulations

GENERAL REQUIREMENTS

All bachelor's degrees granted by the University of Dayton require a minimum of 120 semester hours of credit with a cumulative grade point average of at least 2.0. Specific requirements for the various degrees are listed under the schools granting the degrees. See Chapters VI-IX.

One year (thirty semester hours) of residence is a minimum requirement for any bachelor's degree.

The semester hour is the unit by which the University measures its course work, and the number of semester hours is determined by the number of hours a week in class and the number of weeks in the session. One semester hour is assigned to a class which meets fifty minutes a week over the period of one term.

Students enrolled in the University as candidates for degrees should not take courses at other colleges or universities without first obtaining written permission from their respective deans. If the permission is granted, the dean will request "transient status" for such students at designated institutions. The University reserves the right not to accept credits for such courses when this procedure has not been followed.

The Bachelor of Science in Education may be awarded to holders of nonprofessional degrees from the University of Dayton with the completion of a minimum of thirty semester hours prescribed by the School of Education and Allied Professions beyond the requirements of the nonprofessional degree. The Bachelor of Arts or Bachelor of Science may be awarded to holders of professional degrees from the University of Dayton upon the completion of the requirements for such degrees. Any student wishing to obtain a second bachelor's degree may do so by completing the requirements for the second degree as determined by the faculty of the college or school in which this degree is offered.

Ordinarily a student who earned a first bachelor's degree or an associate degree at another institution must complete six semester hours of philosophy and/or religious studies at the University of Dayton. Such a student may be required to complete the prescribed twelve semester hours of philosophy and/or religious studies, if in the judgment of the dean, equivalent coursework had not been earned as a part of the program leading to the first degree.

All students following four-year programs are required to complete successfully the University requirements in General Education and in the Competency Program as explained below.

COMPETENCY PROGRAM

The Competency Program commits all academic programs at the University of Dayton to the common purpose of developing distinctive graduates who possess the critical communication, reasoning, and information competencies they need to function effectively in their academic, community, and professional lives. The four competency areas are part of both general and graduation competencies. General competencies form a base for effective written and oral expression, critical and quantitative reasoning, and processing and presenting print and electronic informa-
tion. This competency base is strongly emphasized in first-year courses and continues to be developed through a student’s work in General Education, initial courses in the major, and lower-level electives. Academic departments and programs define the graduation competencies. Graduation competencies emphasize further development and maturation of the competency areas through courses in the major discipline and upper-level electives.

READING AND WRITING GENERAL COMPETENCIES

The University’s general reading and writing competency requirements are satisfied by completing ENG 101 and ENG 102, ENG 114, or ENG 198 with a grade of C- or higher. Students whose verbal scores on the SAT and ACT are sufficiently high to warrant placement in ENG 114 upon admission to the University or whose acceptance in the University Honors Program places them in ENG 198 satisfy the University requirement with those one-semester courses. Students who are placed in ENG 114 or ENG 198 do not receive credit for ENG 101 but are free to take elective course work in place of the waived first semester of composition. Students whose verbal scores on the SAT or ACT do not meet placement criteria for ENG 101 must enroll in a developmental writing course. (See DEV, Chapter X.) Students for whom English is a second language must take a placement test administered by the Department of English. Particulars about the first-year courses and testing procedures can be obtained from the English Department’s Director of Composition or Program Coordinator.

ORAL COMMUNICATION GENERAL COMPETENCIES

The University’s general oral communication competency requirements are satisfied by completing CMM 110, CMM 111 or CMM 112, and CMM 113 for a total of three semester hours. Each of these one-hour communication modules must be completed with a C- or higher in order to satisfy the general competency requirement. No waiver exams are available for these modules.

QUANTITATIVE REASONING GENERAL COMPETENCIES

The University’s general quantitative reasoning competencies will be implemented in the Fall of 2003. Currently matriculated students and students entering the University for the 2002-2003 academic year must meet the Basic Skills requirement in Mathematics.1

INFORMATION LITERACY GENERAL COMPETENCIES

The University’s general information literacy competencies will be implemented in the Fall of 2003.

GRADUATION COMPETENCIES

Each program and department establishes its own graduation reading and writing competency requirements. Contact department chairs or program directors for information on satisfying these requirements.
Academic Regulations

Each program and department establishes its own graduation oral communication competency requirements. Contact department chairs or program directors for information on satisfying these requirements.

Each program and department will establish its own graduation quantitative reasoning competency requirements effective Fall 2003.

Each program and department will establish its own graduation information literacy competency requirements effective Fall 2003.

THE FIRST-YEAR EXPERIENCE PROGRAM

The University First-Year Experience Program will consist of a minimum one-credit course to be offered to all first-year students by the College of Arts and Sciences, the School of Business Administration, the School of Education and Allied Professions and the School of Engineering and combined with selected programs and services to be offered by Student Development, Campus Ministry and academic support programs. First-year students entering in January and transfer students will be offered an alternative program to meet their needs.

The goals of the First-Year Experience Program are based on the theme of the Program—"Understanding Your Education, Taking Control of Your Future." The goals are: each student will be introduced to the Mission of the University, understanding the philosophy and goals of education here; each student will understand the nature and requirements of his or her course of study or will be prepared to begin the process of selecting a course of study; each student will have the skills, access to resources, and perspective to be responsible for his or her success as an undergraduate; each student will have the opportunity to integrate his or her academic program with life on campus to learn, lead, and serve.

FIRST-YEAR EXPERIENCE COURSE

Every first-year student entering in the fall term must complete the First-Year Experience course offered by his or her academic division. This course will be offered for a minimum of one credit. The First-Year Experience course will not count against the seventeen credits per term limit covered by full-time tuition.

For first-year students entering the University in the winter term and for transfer students, each division will develop a plan to meet the goals of the First-Year Experience while serving the specific needs of these students.

The First-Year Experience courses offered by each division and units within divisions must include common elements as approved by the University. Beyond these common elements the divisions and academic units offering the course will have a great deal of flexibility in how the course is offered and what will be included in the syllabus.

1 Basic skill level in mathematics: Students are required to demonstrate a knowledge of basic algebraic manipulations. Many students will satisfy this requirement by taking the more advanced mathematics courses that their school, college, or major programs require. Students whose programs would not otherwise require them to take mathematics courses can satisfy the Basic Skills requirement in mathematics with MTH 102. The requirement can also be satisfied by passing a competency examination of the material covered in the MTH 102 course. Students whose mathematical skills are weak may need some special assistance. The Office of Learning Assistance (see Chapter II; see also DEV, Chapter X), can provide help in such instances.
GENERAL EDUCATION REQUIREMENTS

Within the context of the University's Catholic and Marianist educational philosophy, the General Education requirements are central to the full intellectual, social, moral and spiritual development of every student. The purpose of these requirements is to make students aware of the diversity of intellectual thought and theory represented by the sciences, the humanities, and the social sciences. Further, the General Education component of the undergraduate curriculum offers the student an opportunity to integrate and evaluate information from various disciplines and thus enhance the study of a specific profession, field or major. These requirements are integral to the University's goal of preparing students for a life of leadership and service, of helping students to grow not only in knowledge, skills, and professional competence, but also as morally responsible decision makers who are aware of the needs of the global community.

DOMAINS OF KNOWLEDGE

To achieve these goals, the University requires the completion of General Education courses in five domains of knowledge.

Arts Study: The experience of generations confirms that life is enriched immeasurably by experiencing the world through the arts. Every student should develop some understanding of the importance of this experience and must take one course in the arts and/or language as a means of aesthetic and/or cultural expression. Performing or production courses do not fulfill this requirement.

Historical Study: A person with a knowledge of history can relate ideas and events to one another within a context understood by the community of educated men and women; therefore, every student at University of Dayton must take two history courses. One of those courses, History 101, History 102 or History 198, will be taken as part of the Humanities Base.

Philosophy and Religious Studies: As a Catholic and Marianist institution of learning, the University regards religious studies and philosophy as serving a special function. Students should have an opportunity to deepen their knowledge of the religious and philosophical traditions that shape their shared heritage. Study of these areas, especially when conducted through interdisciplinary courses, can also help students integrate their knowledge of the themes and institutions of societies through the ages. Since every student should be encouraged to go beyond the introductory level in either or both of these areas, every student must take four courses in religious studies and philosophy. Philosophy 103 and Religious Studies 103 are required as part of the Humanities Base.

Physical and Life Sciences: The physical and life sciences and technology have affected the quality of life in every age, but never more than in the present. The potential of science and technology for both good and evil will undoubtedly increase in the future. It is essential, therefore, that educated citizens understand the methods of science and its application through technology. For these reasons students must take two courses in the physical and life sciences and technological applications.
Social Sciences: Educated members of society need to understand the dynamics through which people relate to each other as individuals, in groups, and as producers and consumers of goods and services. Effective relationships sustain us as members of families, professions, nations, and the global community. Students, therefore, must take at least one course in the social sciences.

STRUCTURE OF GENERAL EDUCATION REQUIREMENTS

To achieve the goals of raising fundamental questions about human existence, encountering these questions in a meaningful context and encouraging significant integration, students must complete the Humanities Base and a thematic cluster as part of their General Education requirements.

Humanities Base: General Education raises a set of questions that challenges students to develop and formulate their own conception of what it means to be human. These questions may be considered in any number of disciplines, but they are essential to the humanities. Consequently, all undergraduates must complete, preferably during their first year, a Humanities Base of one course in each of the following disciplines:

- **History:**
  - HST 101, History of Western Civilization from Its Classical Roots to 1715
  - HST 102, History of Western Civilization Since 1715
  - HST 198, History Honors Seminar
- **Philosophy:**
  - PHL 103, Introduction to Philosophy
- **Religious Studies:**
  - REL 103, Introduction to Religion
  - REL 198, Religious Studies Honors Seminar
- **English:**
  - ENG 102, College Composition II
  - ENG 114, Freshman Writing Seminar
  - ENG 198, Freshman Honors Seminar

Students in the CORE Program take ASI 111 and ASI 112 to satisfy the history, religious studies and philosophy requirements in the Humanities Base.

Thematic Clusters: To facilitate an integrated view of the domains of knowledge and to encourage students to understand the broad world around them, all undergraduates must complete one thematic cluster. A thematic cluster is a series of courses from the domains of knowledge, focusing on an issue central to the human condition. To fulfill the thematic cluster requirement, students must complete a minimum of three approved courses in a single cluster, representing three different domains of knowledge. For the purpose of thematic clusters, philosophy and religious studies are considered separate domains of knowledge. Students will receive specific information about thematic clusters from their faculty advisors. Students must have the approval of their advisors before selecting and registering for a thematic cluster. The Guide to the University of Dayton General Education Program describing all approved clusters and their course offerings is distributed to all students on-line.

Completing General Education Requirements: At the maximum, students could enroll
in as many as seven thematic cluster courses in the appropriate domains of knowledge. These courses, combined with the Humanities Base, would fulfill all General Education requirements. In most cases, however, students will have to complete some domain of knowledge requirements outside of the courses serving a thematic cluster. With their advisors' approval, students may elect to take any designated General Education course within the appropriate domain to help satisfy requirements. Many of the courses listed as approved courses under a domain of knowledge will also serve the same purpose as a course in a thematic cluster.

Courses that have been approved by the University for General Education credit are listed below according to the parts of the domains of knowledge that they serve to satisfy. These courses are marked by asterisks (*) where their descriptions appear under Courses of Study in individual departmental sections of this Bulletin. See also current issues of the Undergraduate Composite of Courses or The Guide to the University of Dayton General Education Program for additional approved General Education courses.

Each department determines whether its majors are free to choose from among all the approved nonrestricted courses, or are to choose from among a limited number of approved courses, or are required to take only specific approved courses. The University has approved some courses for certain majors exclusively, and those courses are, therefore, restricted to those majors for General Education credit. For example, English majors may not take HST 370, Economic and Business History of the United States, to satisfy the historical study requirement. Students should consult their advisors to learn which courses are permissible in their own majors.

**ARTS STUDY**

All students must complete one arts study course to satisfy General Education requirements. This requirement may be satisfied by arts study courses that are either included in or independent of a thematic cluster. Approved General Education courses that satisfy the arts study domain of knowledge outside a cluster are:

HISTORICAL STUDY

All students must complete two historical study courses to satisfy General Education requirements. The first historical study course, HST 101, HST 102, HST 103, or HST 198, forms part of the Humanities Base. The second historical study course can be part of a thematic cluster or serve simply to satisfy that domain of knowledge requirement of General Education. The restrictions on certain historical study courses apply both to the majors indicated and to secondary education majors whose teaching fields are in those disciplines. (Education students should see checklists.) Approved General Education courses that satisfy the historical study domain of knowledge outside a cluster are:

PHILOSOPHY AND RELIGIOUS STUDIES

Having completed Philosophy 103 and Religious Studies 103 or 198 as part of the Humanities Base, students are required to take an additional two courses in philosophy and/or religious studies to satisfy General Education requirements. (At least one of these must be an upper-level (300-400) course.) Again, this domain of knowledge may be satisfied by philosophy and/or religious studies courses that are either included in or independent of a thematic cluster. Approved General Education courses that satisfy the philosophy and religious studies domain of knowledge outside a cluster are:

### SOCIAL SCIENCES

All students must complete one social science course to satisfy General Education requirements. This requirement may be satisfied by social science courses that are either included in or independent of a thematic cluster. Approved General Education courses that satisfy the social science domain of knowledge outside a cluster are:

#### Restrictions

- **AMS** 300 American Cultures

GRADES AND SCHOLARSHIP

Final grades are submitted at the end of the term, and these are made part of a student’s permanent record in accord with the option chosen by the student. Copies of these reports are given to the students and deans. A progress report of every first-year student in each of the classes is submitted to the Registrar by every instructor at the middle of each term.

Undergraduate students are permitted a selection from two alternative grading options. The course grading options are as follows:

Option 1—A, A-, B+, B-, C+, C, C-, D, F
Option 2—S/NC—Satisfactory (C- or higher)/No Credit (D, F)
Option 3—EM—Examination Credit

In addition to those courses which must be taken under Option 2, a student may take a maximum of fifteen semester hours under Option 2 within the hours required for graduation in the degree program. A student may take any course beyond the minimum hours required for graduation in the degree program under Option 2. All courses that are used to fulfill General Education and Competency requirements must be taken under Option 1. The college/school or department may place further restrictions on the use of Option 2. Exceptions to this policy may be made by the dean (or the dean’s designee) of the college/school in which a student is enrolled.

NOTE: Studies have shown that Satisfactory/No Credit grades (Option 2) on one’s academic record may be a negative factor in the evaluation of application for transfer to some undergraduate schools, for admission to most professional schools (law, medicine, etc.) and many graduate schools, and for employment in some fields.

The official marks with their meanings and quality-point values are as follows:

A — Excellent; for each semester hour, 4.0 quality points are allowed.
A- — For each semester hour, 3.6667 quality points are allowed.
B+ — For each semester hour, 3.3333 quality points are allowed.
B — Good; for each semester hour, 3.0 quality points are allowed.
B- — For each semester hour, 2.6667 quality points are allowed.
C+ — For each semester hour, 2.3333 quality points are allowed.
C — Fair; for each semester hour, 2.0 quality points are allowed.
C- — For each semester hour, 1.6667 quality points are allowed.
D — Poor but passing; for each semester hour, 1.0 quality point is allowed.
F — Failed. This mark indicates poor scholastic work, or failure to report withdrawal from a course. In such cases, required courses must be repeated or retaken, preferably at the next opportunity.
S — Satisfactory. This mark indicates credit given for a course taken under grading Option 2, C- or higher. The S credit shall be counted as hours only and shall
not be considered in determining a student's cumulative point average.

NC—No Credit. This mark indicates no credit given for a course taken under grading Option 2, below C-. In such cases, required courses must be repeated or retaken, preferably at the next opportunity.

I—Incomplete. This grade indicates that the student has obtained the instructor's recommendation, subject to the chairperson's approval, to complete some portion of the work of the term that for reasons beyond the student's control was not completed before the end of the term, provided that the rest of the work has been of satisfactory grade. An I must be removed within thirty days from the date listed on the grade report, or it will be changed to an F or NC (option 2) on the student's permanent record. The time limit may be extended under exceptional circumstances, with the approval of the dean, if application for the extension is made within the thirty-day period noted.

W—Withdrawn. During the first three weeks of a full term (or the first eight class days of a split term) a student may withdraw from a class without record by obtaining a drop (withdrawal) form from the Registration Office, having it signed by the academic advisor, and processing it. Beginning with the fourth week of the term and continuing through the fourth week after mid-term (or the ninth class day of a split term and continuing through the fourth week of the split term), a student may withdraw with a W by the same process, except that the drop form must have the approval signature of the instructor as well as that of the advisor. For the remainder of the term, until the last day of classes, a student may withdraw with a W only by making a formal request to the dean, who consults with the student's instructor before granting such a request. During this period a W will be permitted only for special nonacademic reasons, which include, but are not limited to, poor personal health, financial difficulties, family matters of health, and change in career objectives. When a student finds it necessary to withdraw from the University, for any reason whatsoever, it is important that the dean be notified immediately. Financial adjustments, if allowed, will be made only from the date on the withdrawal form. Total withdrawal from all classes requires the processing of the drop form. This requires one signature from the student's Academic dean. It is the student's responsibility to initiate and process all withdrawals; the faculty do not initiate withdrawals for students except for auditors. (See X below.) In addition, the student is urged to process the withdrawal as soon as possible after deciding to drop a course. Students cannot assume that withdrawals are granted automatically if they stop attending class. Any failure to process the drop (withdrawal) form will incur a grade of F for the course or courses involved. The F's so accumulated are always included in the cumulative point average.

P—In Progress. This symbol is used in lieu of a grade for a course which has not terminated at the end of a term or summer session. A grade with corresponding credit and quality points (see grading Options 1 and 2) will be assigned when the course has been completed.

N—No grade was reported by the instructor.

K—Credit. This mark is used only for credits accepted as transfer credit from other institutions. No quality points are allowed. K credit is not allowed for English courses taken at institutions in countries where the native language is other than English.

X—Audit. This mark indicates that the student has registered to audit the course.
Academic Regulations

No credit hours or quality points are awarded for this mark. Any course taken for audit may not be retaken for credit. If, in the opinion of the instructor, a student has not attended and participated in a sufficient number of classes, the instructor will assign a W.

R— Retaken. An undergraduate student who receives a grade of D or F in a course taken under Option 1 at the University of Dayton may retake that course under Option 1 at the University of Dayton and remove the original D or F from the cumulative GPA. When a course has been retaken and the subsequent grade is higher than or equal to the previous grade, the previous grade will not count towards the student’s cumulative GPA henceforth. There will be no retroactive adjustment to GPAs. The transcript will reflect this event with a notation of “same as” in the line containing the original grade. When a course in which a D was received has been retaken, and an F is earned, the initial D will be used in the student’s cumulative GPA calculation, and the line containing the F will receive the notation of “same as”. A student may have no more than 15 semester hours of “retaken” grades.

If a student retakes a course in which the topics vary, it must be demonstrated that the retaken course contains the same material as the original course in which the student received a D or F. Courses taken by students prior to the initiation of this policy, and before completion of an undergraduate degree, may be retaken within the guidelines of this policy.

Exceptions to this policy may be made by the dean (or the dean’s designee) of the school or college in which the student is enrolled.

Addendum to Retake Policy: When a student retakes a course which he or she has taken more than once previously, the retaken course will serve to replace both previous grades (if it is the same as or higher than each). The number of “retaken hours” will be counted as the total hours for the two courses in which the grades are replaced; e.g., if a student retakes PSY 101 in which he or she had previously earned F two times, the new passing grade will replace both Fs, but will count as 6 credit hours taken instead of 3. This student will then be able to take up to 9 additional course grades.

EM—Examination. This mark indicates University of Dayton credit given to a student on the basis either of the Advanced Placement Program of the CEEB or of examinations taken prior to or after admission to the University. The required level of achievement on these examinations is determined by the department in which the course is taught. This credit shall be assigned only on authorization of the registrar. No quality points are allowed. A student must be registered at the University of Dayton to obtain credit. EM credit is limited to 24 semester hours (exclusive of AP and CLEP General Examination credits).

NO GRADE CHANGE OF ANY KIND IS PERMITTED AFTER THIRTY DAYS FROM THE DATE LISTED ON THE GRADE REPORT.

The University reserves the right to change the grading system.

GRADE-POINT AVERAGES

The SEMESTER GRADE-POINT AVERAGE is the total number of quality points divided by the number of semester credit hours carried by the student under
Option 1.

The CUMULATIVE GRADE-POINT AVERAGE is the total number of cumulative quality points divided by the number of cumulative credit hours carried by the student under Option 1. If a course is repeated, the grade points for both the original grade and the new grade are computed. If a course is retaken (see R) and the subsequent grade is higher than or equal to the previous grade, the previous grade will not count towards the student's CGPA henceforth. Marks of I, K, N, P, S, W, X, NC, and EM are disregarded in the computation of the CGPA.

The CUMULATIVE ACADEMIC UNIT GRADE-POINT AVERAGE includes only those courses completed at the University of Dayton and required for the specific degree obtained and/or approved for inclusion by the student's school or college. The Cumulative Academic Unit GPA will appear at the end of the transcript or upon graduation.

ACADEMIC DISHONESTY

As an institution of higher learning, the University of Dayton expects its faculty and administration to be instrumental in creating an environment in which its students can develop personal integrity.

1. DEFINITIONS

Student academic dishonesty is defined as any attempt by the student to obtain, or to assist another student to obtain, a grade higher than honestly earned.

In addition to specific conditions stated by the course instructor, the following are defined as academic dishonesty: cheating; plagiarism; grade alteration; and deception to avoid meeting the stated course conditions.

A. Cheating: Cheating consists of any of the following:

For Examinations: Willfully copying or attempting to consult a notebook, textbook, or any other source of information not specifically authorized by the teacher; willfully aiding or receiving aid from another student during an examination or attempting to give or receive such aid; obtaining or attempting to obtain copies of the examination prior to the time the examination is given; or any other act which violates or attempts to violate the stated conditions of an examination.

For Assignments: When class assignments are such that students are expected to complete the assignment on their own, willfully copying all or part of another student's assignment or attempting to violate or violating any stated conditions of the assignment.

B. Plagiarism: Plagiarism consists of any of the following:

Quoting directly from any source of material—including other students' work and materials purchased from research consultants—without appropriately citing the source and identifying the quoted material; knowingly citing an incorrect source; using ideas (i.e., material other than information that is
Academic Regulations

common knowledge) from any source of material—including other students' work and materials purchased from research consultants—without citing the source and identifying the borrowed material.

The instructor is expected to establish any additional guidelines for plagiarism and should make clear to the students their individual responsibilities on assignments.

C. Grade Alteration: Grade alteration consists of an act which dishonestly modifies a grade obtained for a class assignment, examination or for the course itself.

D. Deception: Deception is defined as any attempt to avoid meeting the stated course conditions, such as making false statements to avoid taking examinations at the scheduled times or to avoid turning in assignments at scheduled times.

II. PENALTIES AND PROCEDURES

The maximum penalty for a proven case of academic dishonesty is an F in the course. No provision can then be made for the student to receive a W. Under some circumstances, such as repeated offenses, theft, intimidation, or breaking and entering, additional penalties may be imposed by the student’s dean. These penalties may include dismissal from the major, dismissal from the school or college, removal from honors programs, or dismissal from the University.

When an accusation of dishonesty occurs, the faculty member must notify the student immediately and in private of the accusation and penalty. If, after a private discussion between the faculty member and the student, the student admits the dishonesty and accepts the penalty, the student’s dean will be notified in writing of the violation. This is to be a student’s notification with the only other copy to go to the student. If, after the private discussion, the student does not admit dishonesty or accept the penalty, the faculty member alleging the dishonesty will notify, in writing, the student’s chairperson and dean, the faculty member’s chairperson and dean, and the student. In either case, such notification will become part of the dean’s official file on the student but will not be transmitted outside the University.

III. APPEAL PROCEDURE

A student who feels an accusation of academic dishonesty is unfair may appeal in the sequential manner listed below:

A. If no resolution occurs in the private conversation with the instructor, the student may appeal to the chairperson of the department in which the course was taught. This appeal must be made in writing within ten days after the written notice and must state the facts as the student sees them. The faculty member also submits evidence at this time to the department chairperson.

B. If the student’s appeal is denied by the department chairperson, the student has ten days to file an appeal to the review committee of the college or school in which the violation occurred. In departments where a grade appeal
committee already exists, this will be the review committee. The review committee will first select a chairperson, and then meet with the student and faculty member involved on separate occasions and gather any additional evidence or information related to this appeal. The student has the right to see and hear the evidence and to question any witnesses against the student and to present evidence and witnesses on the students' behalf. Both the student and the faculty member must cooperate with the review committee.

The review committee will make known its recommendations and the reasons for its recommendations in writing to the department chairperson(s), the student, the faculty member, and the dean(s).

If the accusation is judged a violation and the penalty appropriate, a record will be sent to the student's dean. If no violation can be proven, all material pertaining to the accusation will be returned to the faculty member.

C. Either the student or the faculty member involved may then make an appeal to the dean of the college or school in which the course was offered. A final appeal may be made to the provost. The final authority rests with the provost.

ACADEMIC STANDING

The student's academic standing is determined by the cumulative grade-point average at the end of each term.

1. To be in good academic standing, a student must have a cumulative grade-point average of (a) at least 1.7 at the end of the first and second terms, (b) at least 1.8 at the end of the third term, (c) at least 1.9 at the end of the fourth term, and (d) at least 2.0 at the end of the fifth and succeeding terms. For part-time and transfer students, a block of 12 semester hours of credit is considered one term. A cumulative grade-point average of at least 2.0 is required for graduation.

2. A cumulative grade-point average below the one required will place the student on academic probation. The student's academic dean will notify the student of his or her probationary status. A student on probation must follow a restricted academic program not to exceed 15 semester hours.

3. It is the responsibility of any student on academic probation to complete a contract with the dean for the purpose of determining the nature and limitations of the student's future academic and extracurricular activities.

4. Students whose academic performance has seriously impaired their ability to succeed academically at the University of Dayton are subject to dismissal. A student who is subject to academic dismissal can be dismissed only by his or her academic dean, who authorizes the dismissal and notifies the student of his or her status. Students who are subject to dismissal include (a) those who fail to achieve good standing at the end of a term on probation and (b) those who have a term point average of less than 1.0, regardless of cumulative grade-point average.

5. The Registrar will post "Academic Dismissal" on the permanent record of any student who is dismissed.

INTERNAL TRANSFER POLICY
Academic Regulations

Any undergraduate student having completed one academic semester in good standing at the University of Dayton may initiate a request for Internal Transfer. The student desiring to change his/her major can initiate this process by contacting their advisor and submitting a formal transfer application prior to registration.

To be considered for Internal Transfer the student must meet the following criteria:

- College of Arts & Sciences
  Cumulative GPA:
  1.7 end of first term
  1.7 end of second term
  1.8 end of third term
  1.9 end of fourth term
  2.0 thereafter

- School of Business
  Cumulative GPA of 2.25 and completion of a calculus course with a grade of "C" or better; or, a cumulative GPA of 2.5 or better.

- School of Education and Allied Professions
  Cumulative GPA: 2.5 or better and for those seeking teacher licensure, proof must be submitted of satisfactory standardized testing scores. For more information, please see ‘Degree Requirements’ in the School of Education and Allied Professions section of the University Bulletin.

- School of Engineering
  Cumulative GPA:
  1.7 end of first term
  1.7 end of second term
  1.8 end of third term
  1.9 end of fourth term
  2.0 thereafter

Units will review applications for transfer and make decisions in a timely fashion with communication to the student, the appropriate units, and the Registrar. Please note, there are times when the student’s desired transfer would not be recommended. This decision will be left to the judgment of the dean or his/her designated representative.

More complete information regarding Internal Transfer to the College or Schools may be obtained in the respective dean’s office.

DEAN’S LIST

At the conclusion of the fall and the spring terms, in both the college and the professional schools, any full-time student who has achieved a superior academic record (a grade-point average of 3.5 or above) for the term just ended is named to the dean’s list. Any part-time student with the required grade-point average (3.5 or above) is eligible for the dean’s list after completing 12 or more semester hours of credit and will subsequently be named to the dean’s list each time an additional increment of 12 or more semester hours of credit is completed. No dean’s list is compiled for the summer term.
HONORS

1. To graduate with honors, a student must have completed a minimum of 60 semester hours at the University of Dayton and have an academic degree program grade-point average at the University of Dayton of 3.50 or higher, based on a 4.00 scale. The academic degree program grade-point average includes all courses taken at the University of Dayton under grading Option 1 and accepted as graduation credits by the student’s academic unit, i.e. school or college. Determination of a student’s honors category is made on the basis of the student’s academic record at the conclusion of the term preceding the student’s last term at the University or on the basis of the student’s academic record at the conclusion of his or her last term.

2. If a student qualifies for honors or moves into a higher category of honors on the basis of his or her academic degree program grade-point average, mention will be made at the commencement exercises, notation will be made on the transcript and permanent record, and an appropriate honors key will be awarded. Due to time constraints no adjustments/corrections can be made to actual printed graduation program.

3. Honors status will be determined by the academic degree program grade-point average and will include only those courses completed at the University of Dayton. Students who transfer to the University of Dayton under the terms of an articulation agreement with a community college may be eligible for honors at graduation even if they have not completed the minimum of 60 semester hours at the University provided that they have met all terms of the articulation agreement.

4. The notation of honors is made in the commencement program, on the diploma, on the student’s permanent record, and on the transcript, as follows:
   - *Cum Laude*—if the academic degree program grade-point average is greater than or equal to 3.50 but less than 3.70;
   - *Magna Cum Laude*—if the academic degree program grade point average is greater than or equal to 3.70 but less than 3.90;
   - *Summa Cum Laude*—if the academic degree program grade-point average is greater than or equal to 3.90.

5. Any exceptions to this procedure are the decision of the dean of the student’s academic unit.

COMMENCEMENT/GRADUATION

Commencement at the University of Dayton is formal recognition of students who are graduating from the University. Consequently, University policy limits participation in commencement to students who have completed all the requirements for their degree. Exceptions to this policy are granted only under the most extraordinary circumstances. Receiving an incomplete or failure in a course necessary for graduation or personal conflicts with scheduled commencements are, for example, not considered extraordinary circumstances.

Students wishing to appeal this policy can do so by submitting a written request to the Registrar. The final decision concerning any appeal is made by the Graduation Appeals Committee consisting of the Registrar, a faculty representative, and an undergraduate student selected by the Student Government Association. All appeals must be submitted at least two weeks before the graduation ceremony in question. If the student is declaring his candidacy for Graduation a #7 Form must be completed and turned into the Registrar’s Office, located on the second floor.
Academic Regulations

of Albert Emanuel Hall. If a student is receiving two degrees, two separate #7 forms, one for each degree, must be completed. For further information visit the Registrar’s website at http://www.udayton.edu/~registr.

After the summer of 2002, students completing their course work during the summer term will receive a diploma and their academic transcript will denote an August graduation date, but they will have to wait until December to participate in a graduation ceremony.

CLASS ATTENDANCE POLICY

It is desirable for students to attend all classes. Listening to the lectures of instructors and being involved in classroom discussions should (1) provide guidelines and goals in the course of study, thus lending direction to the study activities of the student; (2) provide instances of the way of thinking and methodology employed by an academic discipline in formulating and solving problems; and (3) stimulate an awareness of and interest in the course topics beyond the level acquired by textbook reading. Because textbook material is generally beneath the level of the current state of knowledge, instructors acquaint the student with new ideas and integrate this material into the course topics.

Students are responsible for being aware of the proceedings and material covered in each class period. Students must attend all announced tests and submit assigned written work on the date set by the instructor; it is recommended that the instructor announce such tests and assignments at least a week in advance. The action taken as a consequence of missing a test or an assignment will be determined by the instructor and will be based on a consideration of the individual circumstances involved.

To assist first-year students in their transition to college responsibilities, it is felt that a policy of compulsory attendance is necessary; therefore, first-year students will be permitted only a limited number of absences. For first-year students, the allowable number of absences in the first term or in the second term will be equal to twice the meeting times a week (or four class days in any third-term session). A student exceeding this number will be referred to the student’s dean for possible counseling and appropriate action. Any undergraduate student who has not accrued 30 semester hours of credit is considered a first-year student.

In addition to the first-year student policy, faculty may institute an attendance requirement. This may be done for any course (including seminars, laboratories, performance courses, clinical field-based courses, and the like) provided that the policy is approved by a faculty committee of the department and/or the department chair. If attendance is used as a grading component, the instructor is obligated to clarify his or her classroom policy regarding absences in writing in the syllabus provided during the first full week of the semester. Let it be noted that to insure accuracy of records, every student must be present at class during the first week of each term.

STUDENT RECORDS

The Family Educational Rights and Privacy Act of 1974 (FERPA) is a federal law which states that an educational institution must establish a written institutional policy concerning the confidentiality of student education records and that students must be notified of this statement of policy and their rights under the legislation. In
accordance with the Act, students and parents of dependent students at the University of Dayton have the following rights:

1. The right to inspect and review educational records covered by the Act or personally identifiable information contained therein
2. The right to challenge the contents of these records
3. The right to a formal hearing, if necessary, for a fair consideration of such a challenge
4. The right to place an explanatory note in the record in the event that a challenge of contents is unsuccessful
5. The right to control, with certain exceptions, the disclosure of the contents of the records
6. The right to be informed of the existence and availability of the institutional policy covering FERPA rights
7. The right to report violations of FERPA legislation to the Department of Education.

A complete policy statement on student records in accordance with the requirements of FERPA can be found in the student handbook, published by the Office of Student Development. Copies of the policy also are available at the following University offices: Vice President for Student Development and Dean of Students, Provost, and Registrar.

TRANSCRIPTS

A transcript of the permanent academic record is a confidential document to be released in compliance with the regulations of the Family Educational Rights and Privacy Act of 1974 as amended. The Registrar will issue transcripts upon a request signed by the student. All transcripts so requested require payment in advance. See "Other Charges" in Chapter IV, Financial Information. One official copy will be mailed to each graduate approximately six weeks after graduation.

AWARDS

Special awards for exceptional scholastic achievement are given annually through the generosity of donors. To be eligible for any of these awards, a student must have a cumulative grade point average of at least 3.0. The awards:

Accounting—Award of Excellence to the Outstanding Senior in Accounting—donated by Jerome E. Westendorf, '43, and Warren A. Kappeler, '41.

Accounting—Award of Merit in Recognition of Outstanding Achievement—donated by The Ohio Society of Certified Public Accountants, Dayton Chapter.

Accounting—The Accounting Career Award to a Student Exhibiting Great Potential in the Accounting Profession—donated by The Institute of Management Accountants, Dayton Chapter.

Accounting—The Clark-Eley-Fioriti Award for Outstanding Service to the Department of Accounting—donated by the Alumni and Faculty of the Department of Accounting.

Anthropology—The Margaret Mary Emonds Huth Memorial Award of Excellence to the Outstanding Senior in Anthropology—donated by Dr. Edward A. Huth.
Academic Regulations

Arts and Sciences—The Dean Leonard A. Mann, S.M., Award of Excellence to the Outstanding Senior in the College of Arts and Sciences—donated by Joseph Zusman, ’65.

Athletics—The Charles R. Kendall, ’29, Memorial Award of Excellence for Achievement in Academic and Athletic Effort—donated by Mrs. Charles R. Kendall and friends.

Athletics—The John L. Macbeth Memorial Award to the Outstanding Scholar-Athlete in Football and Basketball. The recipient must have completed five or more terms and won a varsity letter.

Athletics—The Ann E. Meyers Award of Excellence for Achievement in Academic and Athletic Effort in Women’s Basketball and Volleyball.

Biology—The P.K. Bajpai Undergraduate Research Award to the Undergraduate Student who Best Represents the Spirit of Undergraduate Research in Biology.

Biology—The John J. Comer Biomedical Undergraduate Research Award to the Undergraduate Student who Best Demonstrated Research Excellence in ‘Biomedical Sciences’ as a Biology Major.

Biology—The John J. Comer Ecological Undergraduate Research Award to the Undergraduate Student who Completed an Outstanding Experiential Learning Project, which included both Leadership and Service.

Biology—The John E. Dlugos, Jr., Memorial Award of Excellence to the Outstanding Senior Majoring in Biology—donated by Mr. and Mrs. John E. Dlugos.

Biology—The Brother Russell A. Joly, S.M., Award of Excellence to the Student who Best Combines Excellence in Biology and Genuine Appreciation of Nature.

Business Administration—The Miriam Rosenthal Award of Excellence to a Graduating Senior in the School of Business Administration—donated by Dean William J. Hoben.

Business Administration—The Mark T. Schneider Award to a Senior in the School of Business Administration who has Combined Academic Excellence with Service to the University and the Community—donated by family and friends in his memory.

Campus Ministry—The Marianist Award for Voluntary Service to a Graduating Senior who has Earned Distinction Through Voluntary Service to the Community—donated by the Marianists of the University of Dayton.

Campus Ministry—The Brother Wottle Campus Ministry Award: “An Award of Appreciation for Service to Campus Ministry.”

Chemical and Materials Engineering—The Victor Emanuel, ’15, Award of Excellence to the Outstanding Senior in Chemical Engineering—sponsored by the University of Dayton Alumni Association since 1962.

Chemical and Materials Engineering—The Edmund J. Rolinski Memorial Award of Excellence in Leadership and Service.

Chemical and Materials Engineering—The Robert G. Schenck Memorial Award of Excellence to the Outstanding Junior in Chemical Engineering—donated by Stanley L. Lopata.

Chemistry—The American Chemical Society Award.
Chemistry—The American Institute of Chemists' Award.

Chemistry—The CRC PRESS Freshman Chemistry Achievement Award to a Deserving First-Year Student Majoring in Chemistry.

Chemistry—the Brother George J. Geisler, S.M., Award of Excellence to the Outstanding Student in Chemistry—donated by Joseph Poelking, '32.

Chemistry—the Arlo D. Harris Assistance Fund to a Deserving First-Year Student Majoring in Chemistry.

Chemistry—the Bernard J. Katchman Memorial Scholarship to an Entering First-Year Student Majoring in Chemistry.

Chemistry—the Brother John J. Lucier, S.M., Award of Excellence to the Outstanding Junior Majoring in Chemistry—donated by a friend.

Chemistry—the Polymer Education Committee Award for Outstanding Performance in Organic Chemistry.

Chemistry—the Philip Zaidan Memorial Award to a Deserving Student Majoring in Chemistry.

Civil and Environmental Engineering and Engineering Mechanics—the George A. Barrett, '28, Award of Excellence to the Outstanding Junior in Civil Engineering—donated by family and friends in his memory.

Civil and Environmental Engineering and Engineering Mechanics—the Harry F. Finke, '02, Award of Excellence to the Outstanding Senior in Civil Engineering—sponsored by the University of Dayton Alumni Association since 1962.

Communication—the Bette Rogge Morse Award to the Outstanding Senior Woman in Communication.

Communication—the Faculty Award for Academic Excellence to the Senior with the Highest Cumulative and Major Grade Point Averages—donated by the Faculty of the Department of Communication.

Communication—the Dr. Florence I. Wolff Achievement Award for Outstanding Contributions in Academic, Extracurricular and Community Service Activities.

Communication—Broadcasting—the Omar Williams Award of Excellence to the Outstanding Student in Broadcasting—donated by the University of Dayton.

Communication—Debating—the Mary Elizabeth Jones Memorial Award of Excellence to an Outstanding Debator—donated by Dr. D. G. Reilly.

Communication—Journalism—the Ritter Collett Award of Excellence to the Outstanding Senior in Journalism. This is awarded annually to the student who best demonstrates in his/her person and writings the qualities of Mr. Collett that the University hopes will serve as an inspiration to the Journalism students.

Communication—Journalism—the Brother George F. Kohles, S.M., Award of Excellence in Journalism—donated by a friend.

Communication—Mass Media Arts—the Si Burick Award of Excellence for Outstanding Academic and Cocurricular Achievement in Mass Media Arts—donated by the University of Dayton.

Communication—Public Relations—the PRSA Maureen M. Pater Award of Distinction to the Outstanding Senior in Public Relations—donated by the Dayton-Miami Valley Chapter of The Public Relations Society of America.
Communication—Speech Arts—The Reverend Vincent R. Vasey, S.M., Award of Excellence to the Outstanding Senior in Speech Arts—donated by Reverend Vincent R. Vasey, S.M.

Communication Management—The Ellen M. Murphy Award of Excellence to the Outstanding Senior in Communication Management.

Computer Science—The Addison-Wesley Senior Book Award for Excellence in Computer Science; Computer Information Systems—donated by the Addison-Wesley Publishing Company.

Computer Science—The Alumni Award of Excellence in the Senior Class.

Computer Science—The Award for Outstanding Service to the Department of Computer Science.

Computer Science—The Chair's Award for Excellence in Computer Science.

Computer Science—The GKM Systems Award for Innovative Programming.

Continuing Education—The Nora Duffy Award to a Reentry Student who has Overcome Significant Obstacles in Order to Complete a College Degree.

Cooperative Education—Award of Excellence to the Outstanding Cooperative Education Student in Business Administration—sponsored by the Mead Corporation Foundation.

Cooperative Education—Award of Excellence to the Outstanding Cooperative Education Student in Computer Science-Computer Information Systems—sponsored by the Marathon Oil Foundation.

Cooperative Education—Award of Excellence to the Outstanding Cooperative Education Student in Engineering—sponsored by the Dayton Power and Light Company.

Cooperative Education—Award of Excellence to the Outstanding Cooperative Education Student in Engineering Technology—sponsored by Earl C. Iselin, Jr., in honor of his father.

Criminal Justice—The Sheriff “Beno” Keiter Memorial Scholarship Award to the Outstanding Junior or Senior in Criminal Justice—donated by friends of “Beno” Keiter.

Economics—The Dr. E. B. O’Leary Award of Excellence to the Outstanding Senior Majoring in Economics—donated by Bank One.

Electrical Engineering—The Anthony Horvath, ’22, and Elmer Steger, ’22, Award of Excellence to the Outstanding Senior in Electrical Engineering—donated by Anthony Horvath and Elmer Steger.

Electrical Engineering—The Mary C. Millette Endowment Award for the Outstanding Senior Electrical Engineering Student in Memory of Mary C. Millette.

Electronic Engineering Technology—The Richard R. Hazen Award of Excellence for the Outstanding Graduate of the Electronic Engineering Technology Program—donated by the Alumni and friends of the Department.

Elementary Education—The George A. Pflaum, ’25, Award of Excellence to the Outstanding Students in Early Childhood and Middle Childhood Education—donated by George A. Pflaum, Jr.
Engineering/Humanities—The James L. Heft, S.M., Award of Excellence to the Graduating Senior who Demonstrates a High Degree of Integration of these Different Fields of Knowledge: Humanities and Engineering—donated by Dr. Rocco M. Donatelli.

Engineering Technology—The L. Duke Golden Award of Excellence to the Outstanding Senior in Engineering Technology—donated by the Gamma Beta Chapter of Tau Alpha Pi Honor Society.

English—The Patricia B. Labadie Award for Excellence in Composition.

English—The Brother Thomas P. Price, S.M., Award of Excellence to the Outstanding Senior in English—donated by the U.D. Mothers’ Club.

English—The Alex G. Tuss Service Award to the Graduating Senior with an Outstanding Record of Service to the Department and the University—donated by the Tuss Family.

English Education—The Dr. Harry E. Hand Memorial Award of Excellence—donated by the Faculty of the Department of English and the School of Education.

Environmental Biology—The Environmental Biology Award of Excellence to the Outstanding Environmental Biology Major who Excels in All Areas of Academic Scholarship and Overall Service.

Environmental Biology—The Environmental Biology Internship Achievement Award of Excellence to the Environmental Biology Major who has Demonstrated Significant Achievement while Pursuing Practical Experience through the Internship Program.

Finance—Award of Excellence to the Outstanding Senior Majoring in Finance.

Finance—The Douglas R. Scott “Best Efforts Award” to the Finance Major Deemed to have Worked the Hardest Both In and Out of the Classroom—donated by Douglas R. Scott.

Finance—The Center for Portfolio Management and Security Analysis Excellence in Leadership Award to the Outstanding Senior on the Center for Portfolio Management and Security Analysis Team.

Finance—The Flyer Investments Excellence in Leadership Award to the Outstanding Student on the Vertically Integrated Investment Program (VI P) Flyer Investment Portfolio Management Team.

General Excellence—The Mary M. Shay Award of Excellence in Both Academic and Extracurricular Activities (Seniors only)—donated by the Poelking Family.

Geology—The George H. Springer Scholarship to the Outstanding Senior in the Geology Department—donated by the Alumni of the Department.

Health and Sport Science—The Thomas J. Frericks Award of Excellence to the Outstanding Senior in Sport Management—donated by the Faculty of the School of Education.

Health and Sport Science—The James M. Landis Memorial Award of Excellence for the Outstanding Health and Sport Science Senior in Science Core Courses.

Health and Sport Science—The James B. LaVanche Award of Excellence to the Outstanding Scholar-Athlete Graduating in the Department of Health and Sport Science—donated by the Faculty and Alumni of the Department.

Health and Sport Science—The John L. Macbeth Memorial Award of Excellence to the Outstanding Student in Health and Sport Science—donated by Mrs. John L. Macbeth.

Health and Sport Science—The Reverend George J. Rennaker Award of Excellence for Outstanding Achievement in the School of Education.

Health and Sport Science—The Elizabeth L. Schroeder Award of Excellence to the Outstanding Senior in the Food and Nutrition Program.
Academic Regulations

History—The Caroline Beauregard Award of Excellence to the Outstanding Junior Majoring in History—donated by family and friends in her memory.

History—The Dr. Samuel E. Flook Award of Excellence to the Outstanding Senior Majoring in History—donated by Dr. Samuel E. Flook.

History—The Betty Ann Perkins Award for Excellence in Women's and Family History—donated by her family.

History—The Steiner-Beauregard Phi Alpha Theta Service Award for Significant Service Promoting the Activities of the Delta Eta Chapter (Delta Eta Chapter Members only)—donated by Dr. Rocco M. Donatelli.

History—The Dr. George Ruppel, S.M., Award of Excellence in Historical Research.

Humanities—The Rocco M. Donatelli Award to the Humanities Senior with the Strongest Quantitative and Qualitative Record in Elective Science Courses.

Industrial Engineering Technology—The James L. McGraw Award to the Outstanding Graduate of the Industrial Engineering Technology Program—donated by the Dayton Chapter of The Institute of Industrial Engineers.

Industrial Engineering Technology—The Raymond B. Puckett Memorial Award to the Outstanding Junior in Industrial Engineering Technology.

Languages—The Brother John R. Perz, S.M., Award of Excellence to the Outstanding Senior in Modern Languages.

Languages—French—The Brother George J. McKenzie, S.M., Award of Excellence to the Outstanding Senior in French—donated by a friend.

Languages—Spanish—The Dr. James M. Ferrigno Award of Excellence to the Outstanding Senior in Spanish—donated by Enrique Romaguera and Mary A. Ferrigno.

Library—The Brother Frank Ruhlman, S.M., Award of Excellence for Literary Achievement.

Management—The Management Award for Excellence Sponsored by The Reynolds and Reynolds Company and The Standard Register Company Presented to the Graduating Senior in Management for Outstanding Academic Achievement and Intellectual Contribution.

Management—The Wall Street Journal Award for General Management Presented to the Graduating Senior Considered to have the Greatest Potential for General Management Responsibilities—sponsored by Dow Jones and Company, Inc.

Management and Marketing—The Management/Marketing Department Award for Perseverance Presented to the Graduating Senior Majoring in either Management or Marketing who has Displayed the Most Initiative and Perseverance in Pursuing an Undergraduate Education—sponsored by the Faculty of the Management and Marketing Department.

Management Information Systems—The Management Information Systems Scholarship Award to a Graduating Senior in MIS for Outstanding Academic Achievement.

Management Information Systems—The Management Information Systems Outstanding Student Award to a Graduating Senior in MIS for Outstanding Contributions to the MIS Program.

Management Information Systems—The Management Information Systems Design Project Award to the Team Producing the Best Senior Year MIS Project.

Manufacturing Engineering Technology—The Dayton Chapter, Society of Manufacturing Engineers Award of Excellence for Manufacturing Engineering Technology Achievement.
Manufacturing Engineering Technology—The Dayton Chapter, Society of Manufacturing Engineers Award of Excellence to the Outstanding Graduating Senior in Manufacturing Engineering Technology.

Marketing—The Marketing Award of Excellence Presented to the Graduating Senior in Marketing for Outstanding Academic Achievement and Intellectual Contributions.

Marketing—The Marketing Career Award Presented to the Graduating Senior Majoring in Marketing who Exhibits the Greatest Potential in Marketing.

Marketing—The Marketing Service Award Presented to the Graduating Senior Majoring in Marketing who Embodies the Principles of Learn, Lead and Serve.

Mathematics—The Faculty Award of Excellence in Mathematics.

Mathematics—The Pi Mu Epsilon Award of Excellence in the Sophomore Class.

Mathematics Education—The Brother Joseph W. Stander, S.M., Award of Excellence to a Graduating Senior in the Teacher Licensure Program with a Principal Teaching Field in Mathematics.

Mechanical and Aerospace Engineering—The Class of 1902 Award of Excellence for Outstanding Mechanical Engineering Achievement—donated by Michael J. Gibbons, '02, in memory of Warner H. Kiefaber, '05.

Mechanical and Aerospace Engineering—The Professor Henry Chuang Award for Excellence in Energy Conservation and Waste Management.

Mechanical and Aerospace Engineering—The Bernard F. Hollenkamp, '39, Memorial Award for Excellence to the Outstanding Senior in Mechanical Engineering—donated by Louise A. and Mrs. Lucille Hollenkamp.

Mechanical and Aerospace Engineering—The Martin C. Kuntz, '12, Award of Excellence to the Outstanding Junior in Mechanical Engineering—sponsored by the University of Dayton Alumni Association since 1962.

Mechanical and Aerospace Engineering—The Brother Andrew R. Weber, S.M., Award of Excellence for Outstanding Service and Achievement in Mechanical Engineering.

Mechanical Engineering Technology—The Dayton Chapter, Society of Manufacturing Engineers Award of Excellence for Mechanical Engineering Technology Achievement.

Mechanical Engineering Technology—The Jesse H. Wilder Award of Excellence to the Outstanding Graduating Senior in Mechanical Engineering Technology—sponsored by the Dayton Chapter, Society of Manufacturing Engineers.

Military Science—The Brian J. Bentz Memorial Scholarship Award Presented to the Outstanding Junior ROTC Cadet who Exemplifies the Dedication and Commitment for Further Study in Military Science—donated by his family and friends.

Military Science—The Department of the Army Award. The Superior Cadet Award, provided by the Department of the Army, presented to the Outstanding Cadet of each academic year.

Military Science—The Lieutenant Robert M. Wallace, '65, Memorial Award to the Outstanding Junior ROTC Scholarship Cadet—donated by his family and friends.

Music—The Brother Joseph J. Mervar, S.M., Award of Excellence to the Outstanding Student Majoring in Music.

Music—The Department of Music Senior Award for Outstanding Contribution to the University Bands.

Music—The Department of Music Senior Award for Outstanding Contribution to the University Orchestra.
Academic Regulations

Music—The Department of Music Senior Award for the Outstanding Collaborative Pianist.

Music—The Department of Music Senior Award for Outstanding Contribution to the University Vocal Ensembles.

Music—The Department of Music Service Award.

Music—The Sigma Alpha Iota College Honor Award for Musicianship, Scholarship, and General Contributions to the College Chapter.

Music—The Sigma Alpha Iota Professional Music Fraternity Scholastic Award to the Chapter’s Graduating Senior who has Attained the Highest Scholastic Rating.

Music—The University Band Spirit Award.

Philosophy—Award of Excellence to the Outstanding Seniors in Philosophy—donated by Reverend Charles Polichek.

Philosophy—The Richard R. Baker Award for Excellence in Philosophy to the Graduating Student who has Earned Distinction in the Study of Philosophy Through Commitment to Philosophical Inquiry and Assisting Other Undergraduate Students in Their Pursuit of Philosophical Studies.

Philosophy—The Reverend Charles C. Bloemer, S.M., Award of Excellence to the Outstanding Junior Majoring in Philosophy—donated by a friend.

Philosophy—The Raymond M. Herbenick Award for Excellence in Interdisciplinary Integration to a Student Completing the CORE Program—donated by the Department of Philosophy Faculty.

Physics—The Caesar Castro Award of Excellence to a Sophomore for Outstanding Scholarship in the General Physics Lecture and Laboratory Sequence—donated in memory of Caesar Castro by Mrs. C. C. Castro and the Department of Physics.

Physics—The Sigma Pi Sigma Award of Merit to a Senior in Recognition of Outstanding Academic Achievement and Involvement in Physics—sponsored by the Department of Physics and the Sigma Pi Sigma Honor Society of The Society of Physics Students.

Political Science—The Brother Albert H. Rose, S.M., Award of Excellence to the Outstanding Senior in Political Science—donated by Joseph Zusman, ’65.

Political Science—The Eugene W. Stenger, ’30, Memorial Award of Excellence to the Outstanding Junior in Political Science—donated by Mrs. Eugene W. Stenger.

Premedicine—The Brother Francis John Molz Memorial Award to the Outstanding Senior in Premedicine. This is awarded annually to the student who best demonstrates the qualities of unselfishness, community service, and academic achievement—sponsored by Alpha Epsilon Delta.

Premedicine—The Montgomery County Medical Society Award to the Outstanding Senior in the Premedical Curriculum.

Psychology—The Kenneth J. Kuntz Award for Outstanding Service—donated by the Department of Psychology Faculty.

Religious Studies—The William Joseph Chaminade Award of Excellence in Memory of Mr. and Mrs. George W. Dickson to the Outstanding Student in Theology—donated by Reverend John Dickson, S.M., ’36.

School of Education—The William A. Beitzel Award for the Outstanding Student in Intervention Specialist Education—donated by Dean Emeritus Ellis A. Joseph.

School of Education—The Raymond and Beulah Horn Award of Excellence for an Outstanding Student in the Area of Intervention Specialist Education—donated by Dean Emeritus Ellis A. Joseph.

School of Education—The Daniel L. Leary Award for the Outstanding Research and Development Activity by a Student Seeking Teacher Licensure in the School of Education—donated by Dean Emeritus Ellis A. Joseph.

School of Education—The Frank and Lois New Award for Outstanding Achievement to a Graduating Senior in the Teacher Education Program with a Principal Teaching Field in Intervention Specialist Education.

School of Education—The Reverend George J. Renneker, S.M., Award of Excellence for Outstanding Achievement in Teacher Education.

Secondary Education—The Brother Louis J. Faerber, S.M., Award of Excellence to the Outstanding Student in Adolescent to Young Adult Education—donated by the University of Dayton Mothers' Club.

Sociology—The Dr. Edward A. Huth Silver Anniversary Award of Excellence to the Outstanding Student in Sociology—donated by Joseph Zusman, '65.

Sociology—The Dr. Martin Luther King Memorial Award in Human Relations for Excellence in Scholarship, Christian Leadership, and the Advancement of Brotherhood and Sisterhood—donated by Dr. Edward A. Huth.

Sociology—The Reverend Andrew L. Seebold Award of Excellence to the Outstanding Senior in Sociology.

Theatre—The Dr. "G." Award for Outstanding Commitment to Mainstage Theatre Recognizing a Graduating Senior who has Demonstrated a Willingness to Involve Himself/Herself in the Wide Spectrum of Theatrical Production on the Ball Theatre Mainstage.

University Advancement—Award of Excellence for Contribution of Service to the Community.

Visual Arts—Fine Arts—The Mary Ann Dunsky Award to the Outstanding Senior in Studio Art.

Visual Arts—Fine Arts—The Bela Horvath Award for Excellence in Representational Art.

Women's Studies—The Susan R. Hermes Award for Excellence in Women's Studies—donated by Drs. Jane S. Zembaty and Patricia A. Johnson.
VI College of Arts and Sciences

Paul J. Mormon, Dean
F. Thomas Eggemeier, Associate Dean
Patricia A. Johnson, Associate Dean
Linda J. Snyder, Associate Dean
Rae Ellen Huff, Assistant Dean
Sam F. Johnson, Assistant Dean

The College of Arts and Sciences is a distinctive learning community that forms the vital center of the University of Dayton. In the finest tradition of liberal education, the College is committed to excellence in the discovery, integration, dissemination, and application of knowledge. The College delivers the University general education program and helps students to develop their competencies in written and oral communication, quantitative reasoning, and information literacy. Academic programs provide instruction in critical thinking and expression, social and cultural criticism, computation, scientific reasoning, the creative and performing arts, historical analysis, and religious and moral awareness. The College of Arts and Sciences takes as its mission the Marianist principle of educating the whole person and enabling all members of our learning community to fulfill their potential.

The faculty of the College of Arts and Sciences demonstrate connected learning and scholarship by integrating teaching, research, and service. They engage students from across the University in this process through traditional and innovative approaches to learning. The faculty understand that the principles of liberal education emerge not only from the classroom, studio, and laboratory, but also from the many resources the students have within their reach: advisement, mentoring; the campus ministry; social and professional clubs and societies; campus media and publications; fine arts events; and membership on departmental and campus-wide committees where students gain experience in working with others and contribute to the wider University community. Taken together, these dimensions of liberal education form the basis for lifelong intellectual, professional, and personal growth.

The College of Arts and Sciences affirms its commitment to the Catholic and Marianist tradition. In humanities and social science programs, in the physical and life sciences, in the creative and performing arts, the College strives to ensure that its graduates are distinguished by their discernment and intellectual rigor, their broad base of learning, and their sense of moral responsibility. And through their participation in a vital learning community, the College ensures the graduates will be distinguished by their appreciation and respect for diversity, their commitment to service, and their ability to affect positively individual lives and the common good.
MAJORS AND MINORS

The major is defined as a block of courses totalling at least 24 semester hours of upper-level work in a single discipline. Transfer students are required to take a minimum of 12 upper-level semester hours in the major at The University of Dayton. Some departments may have additional requirements for transfer students. These additional requirements are defined specifically in the departmental listings.

Single discipline and interdisciplinary minors are defined in the departmental listings. Transfer students must take a minimum of 6 upper-level semester hours in the minor at The University of Dayton. Some departments may have additional requirements for transfer students. These additional requirements are defined specifically in the departmental listings.

The Bachelor of Arts is offered in the following areas:

Other programs leading to the bachelor's degree:

- Fine Arts (B.F.A.)
- General Studies (B.G.S.)
- Music Composition (B.Mus.)
- Music Education (B.Mus.)
- Music Performance (B.Mus.)
- Music Therapy (B.Mus.)
- Photography (B.F.A.)
- Visual Communication Design (B.F.A.)

Established Interdisciplinary Majors

American Studies, Criminal Justice Studies, International Studies, and Premedicine-Predentistry are present examples of established interdisciplinary concentrations. Such programs are established by interdisciplinary committees and administered by the chairpersons of the committees.

Individually Designed Interdisciplinary Majors

Students demonstrating extraordinary interest, special skills or needs, and sound academic status may initiate individually designed majors. Students carry
the responsibility to find a faculty mentor or advisor for such majors. All University and College requirements for the Bachelor of Arts or Bachelor of Science degree must be fulfilled. The degree received will be a Bachelor of Arts or Science in Interdisciplinary Studies. Candidacy for the Bachelor of Arts or Science in Interdisciplinary Studies must be declared no later than the last semester of the junior year. Long-range plans for such majors must be submitted to the appropriate chairpersons and the dean for final approval. Plans may be altered with appropriate supporting rationale and the approval of the chairperson and dean.

FOREIGN LANGUAGE ENTRANCE REQUIREMENT

Any student admitted to the College of Arts and Sciences must have had two years of high school study of a single foreign language or make up the deficit at the University. The deficit may be made up by successful completion of one of the following courses or the equivalent: FRN 102 or 121; GER 102 or 121; LAT 102 or 121; SPN 102 or 121; ITA 141; RUS 141.

PROFICIENCY IN A FOREIGN LANGUAGE

The College of Arts and Sciences strongly encourages its students to acquire the highest level of foreign language proficiency. Students may show proficiency by demonstration of basic practical communicative competence in a foreign language. Proficiency for modern languages includes the following four skills:

- Listening: comprehension of main idea and some supporting detail in passages of up to 250 words of everyday speech on familiar topics in a context that provides significant support for the message.
- Reading: comprehension of main idea and supporting detail in contextualized written passages of up to 600 words in which a generally familiar, everyday topic is discussed.
- Speaking: ability to indicate interests and needs, ask and answer questions, communicate personal information, and obtain essential services. Speech is sufficiently accurate to be understood by native speakers.
- Writing: ability to write messages and simple descriptions on familiar topics, to provide biographical information, and to express interests and preferences. Native speakers can understand the message with little difficulty.

Students entering the University have the opportunity to demonstrate the defined levels of proficiency by passing a University placement/proficiency examination. Any student who has not achieved proficiency as determined by this examination upon entry can choose from the following options to reach proficiency:

- course work at the University of Dayton
- course work elsewhere
- an individual study program
- study abroad
- an immersion experience

At the conclusion of one of these options, the student must pass the proficiency examination to satisfy the Foreign Language option within the Humanities and Fine
Arts component of the Liberal Studies Curriculum (see General Requirements for the B.A. Degree, p. 85. The department of languages offers the following possible sequence of foreign language courses:

*Beginner sequence:* For students who have never studied the language previously or who demonstrate no functional ability: 101-102-141 (9 sem. hrs.) in French, German, Latin, and Spanish; 101-141 (8 sem. hrs.) in Italian and Russian.

*Intensive beginner sequence:* For experienced language learners who wish to learn a new language: 111-141 (9 sem. hrs.) available only in French, German and Spanish.

*Accelerated sequence:* For students with previous language study or experience who demonstrate some functional ability on the placement/proficiency examination: 121-141 (7 sem. hrs.) available in French, German, Latin and Spanish.

*Capstone course:* For students with significant language study or experience: (3 sem. hrs.) available in all languages.

Students choosing to complete the Liberal Studies Curriculum using Latin as their language will be required to demonstrate proficiency in reading and translation only.

Students whose first language is not English demonstrate foreign language proficiency by satisfying the University General Competencies requirements in writing and oral communication. These Students may satisfy the Foreign Language option in the Humanities and Fine Arts components of the Liberal Studies Curriculum for the B. A. degree by demonstrating proficiency in another foreign language or by taking courses in the humanities and/or arts areas.
GENERAL REQUIREMENTS FOR ALL BACHELOR OF ARTS PROGRAMS

A minimum of 124 semester hours of approved coursework must be presented for the B.A. At least 48 semester hours must be completed at the 300-400 level. For limitations on credit and restrictions on courses, consult the chairperson and the dean. No more than 45 hours of the minimum 124 hours may be completed in a student’s major discipline.

Introduction to the University
In the first semester, students take a course that introduces them to the University and to their major field of study. Undeclared students take specific sections of this course.

Major Concentration
Most major programs require between 30 and 45 semester hours. For department or program requirements, consult program schedules or the department chairperson or program director.

Liberal Studies Curriculum
Every student will complete the Liberal Studies Curriculum. This Curriculum provides students with a breadth of study and experiences in the humanities, the creative and performing arts, the social sciences, and the natural sciences. It complements specialized study in a major, presupposes the University General Competencies and Basic Skills Requirements, and ensures completion of the Humanities Base and a Thematic Cluster through completion of the General Education Requirements. Where appropriate, credits in the Liberal Studies Curriculum may apply to other requirements but no more than six hours may be in the departmental major concentration. The Liberal Studies Curriculum includes:

Philosophy and Religious Studies: Students complete 12 semester hours including a Humanities Base course in Philosophy, a Humanities Base course in Religious Studies and two additional General Education approved courses in philosophy and/or religious studies.

History: Students complete 6 semester hours including a Humanities Base course and one additional General Education approved course in historical study.

English or Foreign Language Literature: Students complete 3 semester hours in English literature or foreign language literature selected from a list of approved courses.

Creative and Performing Arts: Students complete 3 semester hours in theory, appreciation, or history of visual arts, music, or theater selected from a list of approved courses; or complete 3 semester hours in production and performance selected from a list of approved courses.

Foreign Language and/or Additional Arts and/or Humanities:
Students may choose to demonstrate proficiency by examination of basic practical communication proficiency in one foreign language. Specific options for demonstrating proficiency are outlined on page 77.

Students who meet language proficiency without taking College courses in language must complete at least 3 additional semester hours of study in the arts and/or humanities beyond basic skills. Students who demonstrate language proficiency by taking 3 to 9 semester hours of language study take no additional hours in the arts and humanities.
Students who choose not to demonstrate language proficiency select 8-9 semester hours in the arts and/or humanities beyond basic skills including courses in any of the preceding categories or any other arts or humanities area, in consultation with their academic advisor. Individual departments may specify how these hours are to be used for those students who do not choose the language proficiency option.

Social Sciences: Students complete 12 semester hours including two courses at the introductory level from at least two different traditional disciplines (ANT 150, ECO 203, POL 101 or 201, PSY 101, and SOC 101), one course at the 300-400 level in one of the disciplines in which an introductory course was taken, and one additional course from any of the traditional disciplines or from the list of courses approved for General Education social science. (Students in the E-11 program may take two approved courses in the School of Education).2

Mathematics: Students complete 3 semester hours selected from courses in the Department of Mathematics (MTH 102, 204, 205 excluded).

Natural Sciences: Students complete a sequence of 3 lecture courses with 2 accompanying laboratories in the Integrated Natural Science Sequence for a total of 11 semester hours. Students who wish to do more advanced study in science may complete 9 semester hours in science courses approved for majors in the departments of biology, chemistry, geology, and physics and 2 sem. hrs. of accompanying laboratories in lieu of the Integrated Natural Science Sequence.

1University requirements are outlined in Chapter V. The General Competency program is being phased in. Beginning Fall 2001, competence in reading, writing, and oral communication will be demonstrated by attaining a minimum grade of "C" in ENG 101-102, 114, or 198; and a minimum grade of "C" in each of the communication modules CMM 110, 111 or 112, 113. Advanced standing may satisfy the ENG requirement. Quantitative Reasoning general competency begins Fall 2002; until that time, the Basic Skills mathematics requirement is MTH 102. Information Literacy general competency begins Fall 2003.

2Students should consider using this area of study to help fulfill the general education Thematic Cluster requirement. A Thematic Cluster includes a minimum of three courses, each course selected from a separate area (Philosophy, Religious Studies, Historical Studies, Arts Studies, Social Science, and Natural Science).
Courses for English and Foreign Language Literature are as follows:

CLA 350

FRN 350, 352, 360, 361, 362, 381, 450, 452

GER 350, 361, 362, 450

ITA 361, 362

GENERAL REQUIREMENTS FOR ALL BACHELOR OF SCIENCE PROGRAMS

A minimum of 120 semester hours of approved coursework must be presented for the B.S. For limitations on credit and restrictions on courses, consult the chairperson and the dean. For departmental or program requirements consult program schedules or the department chairperson or program director.

Semester Hours

| Major Concentration (with at least 24 semester hours at 300-400 level) | 30-60 |
| Breadth Requirement (See Distribution Table below.) | 41-50 |
| General Education Requirements: These courses may also be counted for other requirements where applicable. (See Chapter V.) | 30 |
| Program Requirements and General Electives: Electives should be approved by the chairperson or dean since some restrictions exist. | 10-40 |

Distribution Table for Breadth Requirements

Courses taken to fulfill the breadth requirement should be external to the major concentration. Students electing courses in any department should be aware that some introductory or background knowledge may be expected of them even when no specific prerequisite course is listed.

| Natural Sciences: Selected from Biology, Chemistry, Geology, and Physics courses with accompanying laboratories. | 8 |
| Mathematics, Computer Science: At least 3 semester hours must be in Mathematics, the course(s) to be determined by placement and major program. | 6 |
| Social and Behavioral Sciences: Anthropology, Economics, Political Science, Psychology, Sociology. Up to 3 of the 6 semester hours of social and behavioral sciences may, with the approval of the chairperson of the major department or the director of the program, be taken in applied social and professional studies: Criminal Justice Studies, Education, Human Ecology, Management, Marketing, Military Science, Social Work, and appropriate courses in ASI, AMS, and CMS. | 6 |
| Humanities: American Studies, Communication, English, History, Humanities Studies, Languages, Music, Philosophy, Religious Studies, Visual Arts, and, with the approval of the chairperson of the major department or director of the program, appropriate courses in ASI. (The basic Philosophy, Religious Studies, and communication skills courses do not fulfill this requirement.) | 9 |
| Philosophy and Religious Studies | 12 |
| Communication Competencies (ENG 101-102 or 114 or 198; CMM 110, 111 or 112, 113): Each student should demonstrate competence in written and oral communication before the completion of the first year. This competence may be demonstrated through coursework, proficiency examinations, or advanced standing. Information on this matter should be sought in the office of the dean | 0-9 |
College of Arts and Sciences

DEGREE REQUIREMENTS

For the bachelor's degree, it is necessary to complete all the requirements listed in one of the programs in this chapter. A maximum of four semester hours of general activities courses, a maximum of two semester hours of physical education activities courses, a maximum of ten semester hours of MIL courses, and a maximum of six hours of applied courses may be counted in the semester hours required for the degree. The final 30 semester hours must be earned at the University of Dayton. Furthermore, a minimum of 12 semester hours of course work at the 300 and 400 level in the major must be completed at the University.

GRADUATION REQUIREMENTS

1. It is the responsibility of the student to file his or her Candidate for Graduation card.

2. For graduation, it is necessary that the student successfully complete an approved program of studies in the College; that the standard grade point average be at least 2.0 in the major field, in the minor field, and in the total program. In the Bachelor of Fine Arts and Bachelor of Music Programs, a 2.0 cumulative grade point average is required in the nonprofessional courses as well as in the professional courses.

INTERNSHIP PROGRAM

The Internship Program is an educational work experience with an outside agency, in which a full-time student registers for on-the-job work performed without direct supervision by academic personnel. Such work can be performed in a variety of areas; however, the general purpose of all internships is to serve as transition between the world of study and the world of work.

Normally a departmental internship director or another designated faculty member will make all contacts with prospective agencies for placing students as interns. While students themselves may initiate contacts at possible sites, all sites must be ruled acceptable by the director before an internship may begin.

In order to accomplish the general purpose of an internship, the student must adhere to the following requirements:

• To be eligible for an internship, a student must be in good standing at the University of Dayton and have successfully completed course work in areas appropriate to the internship sought.
• An intern may receive no more than six semester hours of credit in any semester for internship.
• No more than twelve semester hours of work experience credit in any kind of internship or work experience program can be accepted toward a baccalaureate degree.
• The student intern will submit a daily log and a written report to the internship director at the conclusion of the internship.

Other procedures and requirements in addition to those mandated by the College may be imposed by departments for individual programs to meet the specific nature of a given internship.

Interested students should see the internship directors in their respective departments for further details.
MINI COURSES

Minicourses are special, short-term, interdisciplinary credit courses developed by University faculty, (or sometimes by students with the advice and consent of a faculty member), to meet specific, highly current needs or interests not covered in the regular curricula. They are free of charge to all full-time students, even if the course puts them over the full-time limit, and are open to part-time and non-UD students for credit or audit. The typical minicourse carries one semester hour of credit, or fifteen class hours. Classes can be in various sequences, extending over several weeks or concentrated within a few days. Some minicourses take the form of workshops. Occurring at various times in the year, minicourses are publicized throughout campus. They can be added to students' schedules during the term. For a sample listing of minicourses, see University Interdisciplinary Studies (UDI).

SPECIAL PROGRAMS

To serve adults in the Dayton community, the College provides a variety of noncredit courses, many in the form of workshops, seminars, study tours, conferences, and teleconferences. These are planned to meet the educational and training needs of organizations and of the community and are held both on and off campus. This office also administers Elderhostel, the Institute for Learning in Retirement, and Senior Fellows, for persons sixty and over. Continuing Education Units (CEU) are awarded for a fee for some offerings.
AMERICAN STUDIES (AMS)

In this interdisciplinary program, students take courses in their choice of eleven fields, thereby learning the skills of integrating, coordinating and making connections. The program, one of over three hundred nationwide, is most appropriate for those whose interests encompass several traditional majors.

AMERICAN STUDIES COMMITTEE

Una M. Cadegan (History), Director, American Studies Program
Durham (English), Kimble (Psychology), Moore (Religious Studies),
Ruggiero (Economics), Street (Music)

COURSES OF INSTRUCTION

*AMS 300. AMERICAN CULTURES: Study of American artifacts to discern how they indicate the periods in the life of the civilization and how like artifacts can be used to determine the stages of development of various peoples. (Will not satisfy humanities breadth requirement.) 3 sem. hrs.

*AMS 301. INTERPRETATIONS OF AMERICAN CULTURE: Critical study of various interpretations of American culture through more than a hundred years. 3 sem. hrs.

AMS 400. INTERDISCIPLINARY RESEARCH: Study of the principles of interdisciplinary scholarship; what can and probably cannot be accomplished by it; successful interdisciplinary accomplishments. Students will complete interdisciplinary projects. 3 sem. hrs.

*General Education course. See Chapter V.
ANTHROPOLOGY (ANT)

Anthropology is the study of people at all times and places. It emphasizes understanding total cultural systems. The Department of Sociology, Anthropology, and Social Work offers a minor in anthropology. Students intending to minor in anthropology should consult with the department chairperson to plan their selection of courses, which must include ANT 150 and four courses at the 300-400 level. See also SOC.

COURSES OF INSTRUCTION

*ANT 150. CULTURAL ANTHROPOLOGY: Basic principles of cultural anthropology. Survey of human adaptation to and adjustment of the environment by means of culture; comparison of ways of life among peoples of the world for inferences toward understanding human behavior. Required for anthropology minors. 3 sem. hrs.

*ANT 300. EVOLUTION OF PEOPLE AND CULTURE: Survey of human biological and cultural evolution from prehuman ancestors to settled city-states. Consideration of contemporary peoples at various levels of social complexity. 3 sem. hrs.

ANT 310. CULTURE AND PERSONALITY: Survey of studies investigating the relationship between cultural environment and the individual. Material drawn from both literate and nonliterate societies. 3 sem. hrs.

ANT 315. LANGUAGE AND CULTURE: Introduction to the scientific study of language and its relationship to other aspects of human behavior. 3 sem. hrs.

ANT 335. URBAN ANTHROPOLOGY: Survey of anthropology research on urban issues. Considers how cities arose and how urban people make a living, organize, and think. Considers urban futures. 3 sem. hrs.

ANT 351. CULTURES OF THE CARIBBEAN: Variety of African- and Old World-derived cultures in the Caribbean and on its borders. Social-scientific topics such as effects of mother-centered families on personality, importance of verbal behavior in these cultures, problems of I.Q. testing in cultures other than where the tests originate, economic adaptations, political movements, religious practices. 3 sem. hrs.

ANT 352. CULTURES OF LATIN AMERICA: Origin and development of ancient civilizations including the Aztec, the Maya, and the Inca. Survey of contemporary cultures, with special emphasis on peasant life. 3 sem. hrs.

ANT 353. NATIVE CULTURES OF NORTH AMERICA: Consideration of the origins and diversity of American Indian cultures north of the Rio Grande, with attention to language, cultural adaptation to environment, and acculturation without assimilation. The present situation of the Indian in relation to the surrounding culture. 3 sem. hrs.

ANT 406. CULTURAL CHANGE: The process of social changes in the modern world; culture lag and conflict of norms; individual and social problems arising from conflicting systems of values and norms. Prerequisite: ANT 150 or permission of instructor. 3 sem. hrs.
ANT 449. ANTHROPOLOGICAL FIELD WORK: Formulation and carrying out of a research design in archaeology, physical anthropology, linguistics, or cultural anthropology. Prerequisite: Consent of instructor. 1-6 sem. hrs.

ANT 498. INDEPENDENT STUDY: Research problems or readings of special interest investigated under the guidance of an anthropology staff member. Permission of the chairperson. 1-6 sem. hrs.

*General Education course. See Chapter V
BIOLOGY (BIO)

The Bachelor of Science program in biology is designed to prepare a student for a career in the life sciences. Graduates of the program are competitive for entry into graduate programs in biology as well as professional schools, such as medical, dental, osteopathic, and veterinary science.

The department has two primary areas of focus: environmental/ecological science and basic biomedical science. The former includes ecology, population biology, ecological physiology, animal behavior, environmental microbiology, community and restoration ecology, evolutionary biology, and plant physiology, as well as environmental biology in the narrow sense. The biomedical science course offerings include molecular biology, cell biology, general and medical microbiology, immunology, genetics, mammalian physiology, and developmental biology. In addition, advanced undergraduates may enroll in graduate courses for undergraduate credit with the consent of the chairperson.

In line with the two areas of research interests, the department encourages students (in consultation with their advisors) to declare one of the two as an area of concentration of study no later than the end of the sophomore year. For the student more interested in a broad approach to biology, the department recommends a third option, the general biology option (any combination of upper-level biology courses that fulfills the program requirements).

The department offers a research mentorship program for upper-level students majoring in biology. The program allows a student to work closely with both faculty and graduate students in laboratory and/or field research. Participation in the program is based on the recommendation of a member of the faculty. The mentorship program is designed to provide a significant advantage for those students who intend to enter a graduate program.

The department also offers a combined Bachelor and Master of Science degree in Biology. This accelerated program is designed for students who display strong potential for research in biology. It provides a liberal arts education, a broad background in biology, the development of expertise in a biological subfield, and a thorough introduction to research instrumentation and techniques. Graduates from the program are prepared for either direct entry into the job market or continuation toward the Ph.D. A detailed description of the B.S.-M.S. program may be obtained from the departmental office. A minor in biology consists of 20 semester hours: BIO 151, 151L, BIO 152, 152L, BIO 312 and nine hour at the 300-400 level.

1. Students interested in graduate school in the field of wildlife management or ecological restoration should select a broad approach to biology, with a focus on core courses in environmental biology and laboratory courses in environmental and restoration ecology.
2. Students interested in graduate school in biomedical sciences should select a broad approach to biology, with a focus on core courses in biomedical science and laboratory courses in molecular biology, cell biology, and medical microbiology.

1 Consult General Requirements for All Bachelor of Science Programs and Chapter V for General Education Requirements.

2 The Department of Biology supports national standards established by the National Institutes of Health for the responsible, humane treatment and housing of animals. The biology curriculum contains some laboratory courses in which dissection and vivisection are necessary and required in order to convey an understanding of certain biological concepts. All students are expected to participate in such laboratory exercises in the introductory biology sequence, BIO 151L and BIO 152L which involve dissection and/or vivisection. In other elective formal laboratory courses in which dissection and vivisection occur, it is expected that students will participate in all aspects of the laboratory. No alternatives to dissection or vivisection will be offered in these courses. It is ultimately the responsibility of students to make certain that they enroll in courses in which they are able to participate in all required exercises, and to obtain information from each instructor as to the specific laboratory course content and requirements. The Biology Department maintains an updated list of laboratory courses in which dissection and/or vivisection is required in order to assist students in the selection of course work.

3 One with accompanying laboratory. BIO 430 strongly recommended as one of two courses.

4 One with accompanying laboratory. BIO 462 strongly recommended as one of two courses.

5 Qualifies as a laboratory elective for any category.

6 One of the following Non-BIO science courses, including but not limited to: CHM 201/201L; CHM 420; MTH 367; CPS 111, CPS 132; GEO 208; GEO 308 (may be included). Other Non-BIO science courses may be included with the approval of the chairperson.

7 HST 340, 341 or 342 are highly recommended.

ENVIRONMENTAL BIOLOGY (EVB)

Environmental Biology is a science specialization based upon the fundamentals of biology and ecology, applying interdisciplinary skills, knowledge and principles to the environmental problems facing society today. Students entering this dynamic field could become directly involved in addressing some of the significant global problems related to human impact on the environment. In addition to the standard
base of courses required of most biology majors, the curriculum also requires a challenging core of environmentally related science courses and course work drawn from a multidisciplinary elective pool that includes offerings in the humanities and social sciences.

Internship Program: Majors who achieve certain minimum academic standards can apply for the opportunity to participate in the program's internship opportunities (BIO 499, see course prerequisites), where they will have the unique opportunity to obtain valuable training and experience under the mentorship of established scientists and other environmental professionals.

General Education courses and academic electives to total ................................................................... 120-129
1Consult General Requirements for all Bachelor of Science programs and Chapter V for General Education Requirements.

2At least two courses with accompanying laboratory. One non-BIO science course approved for science majors may be included in this section with permission. BIO 499 requires the permission of the EVB Program Director.

3Qualifies only as a laboratory elective; satisfies either BIO laboratory elective area.

* At least one course with accompanying laboratory. One non-BIO science course approved for science majors may be included in this section with permission. BIO 499 requires the permission of the EVB Program Director.

4Students electing GEO 307 as their upper-level geology course are strongly recommended to consider GEO 307L as an optional laboratory elective.

5Other appropriate statistics courses may be substituted with the approval of the Department Chairperson.

6If composition requirement is waived, student should select another elective from the Liberal Studies Curriculum. ENG 378 strongly recommended for students whose background is weak in this area.

FACULTY

John J. Rowe, Chairperson
Distinguished Service Professor: Noland
Professors Emeriti: Laufersweiler, Ramsey
Professors: Burky, Geiger, Kearns, Rowe, Tsonis, Vesper, Williams
Associate Professors: Breitwisch, Friese, Hofmann, Robinson, S. Wright
Clinical Adjunct Associate Professors: Stull, Taylor
Assistant Professors: S. Gadagkar, C. Krane, D. Wright

COURSES OF INSTRUCTION

*BIO 101. GENERAL BIOLOGY I: A study of the more important biological processes and principles through analysis and synthesis, dealing primarily with the organizational aspects of living things. This course is designed for students not following the biology core curriculum. 3 sem. hrs.

BIO 101L. GENERAL BIOLOGY LABORATORY I: Course to accompany BIO 101. One 2-hour laboratory each week stressing the investigational and experimental approach. 1 sem. hr.

*BIO 102. GENERAL BIOLOGY II: A continuation of BIO 101, stressing primarily the operational aspects of living matter. Prerequisite: BIO 101. 3 sem. hrs.

BIO 102L. GENERAL BIOLOGY LABORATORY II: Course to accompany BIO 102. One 2-hour laboratory each week. 1 sem. hr.

BIO 104. INTRODUCTORY BIOLOGY FIELD COURSE: An introduction to the ecology, behavior, morphology, taxonomy, and life history of plants and animals. One week on campus; three weeks in the Rocky Mountains near Denver, Colorado; one week of travel to and from the field site. For non-biological science majors only. Third term only. Corequisites: GEO 104; BIO 104L or GEO 104L. 3 sem. hrs.
BIO 104L. INTRODUCTORY BIOLOGY FIELD LABORATORY: Field trip laboratory in the biological sciences to accompany BIO 104. GEO 104L can be substituted for this course. Third term only.  

*BIO 151. CONCEPTS OF BIOLOGY I: Study of the molecular and cellular organization of organisms. Topics also include bioenergetics, genetics, and evolution. Core biology course for majors in sciences such as biology, premedicine, and others.  

BIO 151L. BIOLOGY LABORATORY INVESTIGATIONS I: An introduction to biological laboratory procedures and instrumentation through a series of observational and experimental exercises at the cellular level. Core biology course. Co-requisite or prerequisite: BIO 151.  

*BIO 152. CONCEPTS OF BIOLOGY II: Continuation of BIO 151. Study of taxonomic diversity, plant and animal organismal physiology, and ecology and animal behavior. Core biology course. Prerequisite: BIO 151.  

BIO 152L. BIOLOGY LABORATORY INVESTIGATIONS II: Biological laboratory exercises at the organism and system level. Emphasis on both plant and animal studies. Core biology course. Corequisite or prerequisite: BIO 152.  

BIO 299. BIOLOGY SEMINAR: Introduction to biological journals and abstracting materials. Practice in reviewing, abstracting, and presenting biological information. Primarily for sophomores.  

BIO 301. EVOLUTION: Theory and evidence of organic evolution, with emphasis on microevolutionary change and population genetics. Prerequisites: BIO 101-102 or 151-152; BIO 312 recommended.  

BIO 309. COMPARATIVE ANATOMY OF THE VERTEBRATES: Study of changes that have occurred in the chordate body with the passage of time, and analysis of their significance. Prerequisite: Minimum of one year of introductory biology.  

BIO 309L. COMPARATIVE ANATOMY LABORATORY: Dissection and study of the anatomical structure of representative vertebrate animals. Course to accompany BIO 309 lecture.  

BIO 312. GENERAL GENETICS: Study of the principles of variation and heredity covering both Mendelian and molecular genetics. Core biology course.  

BIO 312L. GENETICS LABORATORY: Laboratory exercises to accompany BIO 312. May be taken concurrently with or following the lecture course.  

BIO 314L. PLANT BIOLOGY LABORATORY: Laboratory exercises to accompany BIO 314. Emphasis on generalized structure and function of plants. One 3-hour laboratory each week.
BIO 320. MARINE BIOLOGY: Introduction to the diversity of marine life including the physical-chemical environment. Third term only. 2 sem. hrs.

BIO 320L. MARINE BIOLOGY LABORATORY: Examination of marine organisms and processes. Laboratory work conducted on UD campus and at off-campus field sites in the South. Third term only. 2 sem. hrs.

BIO 330. ANIMAL BEHAVIOR: An evolutionary approach to the study of animal behavior, emphasizing both proximate mechanisms and functional explanations of the survival value of behavior. Prerequisite: One year of biology. 3 sem. hrs.

BIO 330L. ANIMAL BEHAVIOR LABORATORY: Field and laboratory exercises to accompany BIO 330. Should be taken concurrently with BIO 330. One 3-hour laboratory each week and occasional Saturday field trips. 1 sem. hr.

BIO 350. APPLIED MICROBIOLOGY: Fundamentals of applied and environmental microbiology for environmental scientists and engineers. Introduction to microorganisms and their role in bioenvironmental engineering and industrial processes. For non-biological science majors only. Prerequisites: Introductory biology; general and organic chemistry. 3 sem. hrs.

BIO 350L. APPLIED MICROBIOLOGY LABORATORY: An introductory laboratory to acquaint students with basic microbiology laboratory techniques as applied to environmental pollution and industrial fermentations. 1 sem. hr.

BIO 370. CONSERVATION BIOLOGY: An ecosystem approach to the study of and threat to local, regional, and global biodiversity. Application of ecological principles of conservation of species and habitats. Prerequisites: BIO 101-102 or BIO 151-152. 3 sem. hrs.

BIO 390. PHYSIOLOGY OF SEX AND FERTILITY REGULATION: Introduction to the role of hormones, glands, organs, and devices in the regulation of sexual functions and fertility. No science credit for biological science majors. Prerequisite: Introductory biology. 3 sem. hrs.

*BIO 395. GLOBAL ENVIRONMENTAL BIOLOGY: Presentation of the biological and ecological principles needed for critical discussion and evaluation of current global environmental issues including food production, human population growth, role of humans and pollution in environmental degradation, and conservation of agricultural, forest and other natural resources. No science credit for biology majors. Prerequisites: An introductory course in the natural sciences. 3 sem. hrs.

BIO 398. HEREDITY AND SOCIETY: Survey of the fundamental principles of inheritance and the application of genetics to contemporary problems of society. No science credit for biological science majors. Prerequisite: Introductory biology. 3 sem. hrs.

BIO 402. VERTEBRATE ZOOLOGY: The morphology, physiology, ecology, and distribution of representative vertebrate groups. Prerequisite: Junior or senior standing. 3 sem. hrs.
BIO 402L. VERTEBRATE ZOOLOGY LABORATORY: Course to accompany BIO 402. A laboratory focused on the diversity, systematics and ecology of vertebrates. One 3-hour period each week. 1 sem. hr.

BIO 403. PHYSIOLOGY I: A physico-chemical examination of the physiological events occurring in a living system with emphasis on physiology of the cell, excretion, nerves, muscles, bone, blood, heart, circulation, and respiration. Prerequisites: BIO 101-102 or 151-152; CHM 313-314. 3 sem. hrs.

BIO 403L. PHYSIOLOGY LABORATORY I: Course to accompany BIO 403. Systematic approach to the acquisition and interpretation of information about the physiology of living systems. 1 sem. hr.

BIO 404. PHYSIOLOGY II: Study of hormonal regulation of metabolism and growth and reproduction of higher vertebrates, including primates. Prerequisites: BIO 101-102 or 151-152; CHM 313-314. 3 sem. hrs.

BIO 411. GENERAL MICROBIOLOGY: Introductory course stressing the physiology, cultivation, and classification of microbial organisms; their role in medicine, agriculture, and industry. Prerequisites: BIO 101-102 or 151-152; CHM 313-314. 3 sem. hrs.

BIO 411L. GENERAL MICROBIOLOGY LABORATORY: Course to accompany BIO 411. Two 2-hour periods each week. 1 sem. hr.

BIO 420. SEMINAR: Practice in development, presentation, and discussion of papers dealing with biological research problems. Prerequisite: Junior or senior standing. 1 sem. hr.

BIO 421. BIOLOGICAL PROBLEMS: Laboratory research problems. Topics arranged with faculty advisors. Prerequisite: Chairperson’s permission. 1-2 sem. hrs.

BIO 422. BIOLOGICAL PROBLEMS: Library research problems. Topics arranged with faculty advisors. Prerequisite: Chairperson’s permission. 1-2 sem. hrs.

BIO 425. PARASITOLOGY: Introduction to the morphology, life history, and clinical significance of parasites and other symbionts. Prerequisites: BIO 101-102 or 151-152. 3 sem. hrs.

BIO 425L. PARASITOLOGY LABORATORY: Course to accompany BIO 425. Recognition of common human parasites. Study of both living and preserved forms. One 3-hour period each week. 1 sem. hr.

BIO 427. IMMUNOLOGY: Discussions of antigens, antibodies, antigenicity, immunogenicity, and antigen-antibody reactions including hypersensitivity, immune tolerance, and transplants. Prerequisite: CHM 420. 3 sem hrs.

BIO 430. ECOLOGY: Interrelationship of plants, animals, and micro-organisms with the physical-chemical environment: nutrient cycles, energy flow, ecosystems, and factors affecting distribution and abundance of organisms. Prerequisite: One year of biology. 3 sem. hrs.

BIO 430L. ECOLOGY LABORATORY: Field and laboratory exercises to accompany BIO 430. May be taken concurrently with or following BIO 430. 1 sem. hr.
BIO 435. MICROBIAL ECOLOGY: Study of the diversity and activity of microorganisms and the interrelationships between microorganisms and their environments with emphasis on aquatic ecosystems. Prerequisites: BIO 411; CHM 313-314. 3 sem. hrs.

BIO 435L. MICROBIAL ECOLOGY LABORATORY: Examination of the methods of isolation and enumeration of microorganisms and techniques for determining their activities in the field and laboratory. 1 sem. hr.

BIO 440. CELL BIOLOGY: Function, structure, composition, heredity, and growth of cells. Analysis of cell concept in biochemical terms. Prerequisites: BIO 101-102 or 151-152; CHM 313-314. 3 sem. hrs.

BIO 440L. CELL BIOLOGY LABORATORY: Laboratory exercises to accompany BIO 440. May be taken concurrently with or following BIO 440. 1 sem. hr.

BIO 441. ENVIRONMENTAL PLANT BIOLOGY: Study of the physiological basis for environmental effects on plant metabolism, structure, growth and development, including plant responses to elevated carbon dioxide, acid deposition, and to water stress. Prerequisites: BIO 101-102 or BIO 151-152. 3 sem. hrs.

BIO 442. DEVELOPMENTAL BIOLOGY: Study of animal development, including morphological patterns of development, mechanisms of cellular differentiation, cell-cell interactions during development, and mechanisms of differential gene expression. Emphasis on understanding development at the cellular and molecular levels. Prerequisites: BIO 101-102 or 151-152; CHM 313-314. 3 sem. hrs.

BIO 442L. DEVELOPMENTAL BIOLOGY LABORATORY: Laboratory exercises to accompany BIO 442. May be taken concurrently with or following BIO 442. 1 sem. hr.

BIO 444. PLANT DIVERSITY: Broad survey of the major divisions of the plant kingdom; consideration of algae, fungi, bryophytes, vascular plant groups; includes generalized life histories, ecological and physiological characteristics, and evolutionary relationships. 3 sem. hrs.

BIO 444L. PLANT DIVERSITY LABORATORY: Laboratory studies of the plant groups, including life cycles and evolutionary, physiological, and ecological adaptations. One 3-hour laboratory each week. 1 sem. hr.

BIO 450. COMPARATIVE ANIMAL PHYSIOLOGY: Organized on a function-system basis, course dealing with environment-organism interaction and with integrative systems of the principle phyla of animals. 3 sem. hrs.

BIO 450L. COMPARATIVE ANIMAL PHYSIOLOGY LABORATORY: Laboratory to accompany BIO 450. Must be taken concurrently with BIO 450. 1 sem. hr.

BIO 452. AQUATIC BIOLOGY: The interrelationship of organisms and stream and lake ecosystems, including nutrient cycles, oceanic and lake current development, chemical limnology, adaptation to the aquatic environment, and pollution ecology. 3 sem. hrs.
BIO 452L. AQUATIC BIOLOGY LABORATORY: Laboratory and field exercises emphasizing chemical and physical limnology, evolution of aquatic ecosystems, and pollution ecology. One laboratory or field trip each week. 1 sem. hr.

BIO 459. ENVIRONMENTAL ECOLOGY: The application of current ecological knowledge and principles toward the study of human impact on the environment. Emphasis on ecosystem dynamics, applied ecology, disturbance ecology, and approaches to solving global environmental problems. Prerequisite: BIO 430 or permission of instructor. 3 sem. hrs.

BIO 459L. ENVIRONMENTAL ECOLOGY LABORATORY: Analytical approach to studying applied ecology and human impact on the environment. Emphasis on laboratory and field approaches to solving environmental problems through the use of ecological principles. Prerequisite or corequisite: BIO 459. 1 sem. hr.

BIO 461. INVERTEBRATE ZOOLOGY: Survey of the structure, activities, life histories, and relationships of the invertebrate animals, with some emphasis on their origin and development. Prerequisites: BIO 101-102 or 151-152. 3 sem. hrs.

BIO 461L. INVERTEBRATE ZOOLOGICAL LABORATORY: Course to accompany BIO 461. One 3-hour laboratory each week. 1 sem. hr.

BIO 462. MOLECULAR BIOLOGY: Analysis of the nature of the gene and gene action. Particular attention to genetic regulation and to recent advances in molecular genetics. Prerequisites: BIO 312; CHM 314. 3 sem. hrs.

BIO 466. BIOLOGY OF INFECTIOUS DISEASE: The nature of infectious diseases, host-parasite relationships in resistance and infection, defense mechanism (antigen-antibody response); survey of the bacteria causing disease in humans. Prerequisite: BIO 411. 3 sem. hrs.

BIO 466L. BIOLOGY OF INFECTIOUS DISEASE LABORATORY: Laboratory experiments to demonstrate immunological, serological, determinative, and medical bacteriology. Two 2-hour laboratory periods each week. 1 sem. hr.

BIO 479L. ENVIRONMENTAL INSTRUMENTATION LABORATORY: The understanding and use of field and laboratory based equipment to study current environmental issues. Emphasis on team-centered approaches to investigating environmental problems. Same as GEO 479L. Prerequisites: BIO 151, 152; GEO 115, 116; or permission of instructor. 2 sem. hrs.

BIO 480. PRINCIPLES OF MICROSCOPY: Focus on basic principles and theory of light and electron microscopy, and how these techniques address fundamental questions in science. Prerequisites: BIO 151, 152; or permission of instructor. 3 sem. hrs.

BIO 480L. PRINCIPLES OF MICROSCOPY LABORATORY: Application and practice of light and electron microscopy. Prerequisites: BIO 151, 152, with junior or senior standing; or permission of instructor. Corequisite or prerequisite: BIO 480. 1 sem. hr.
BIO 499. ENVIRONMENTAL BIOLOGY INTERNSHIP: Majors will have the opportunity to obtain valuable training and experience under the mentorship of established scientists and professionals. Emphasis on approaches to solving environmental problems including such research areas as bioremediation, risk assessment, and ecological restoration. May be repeated up to 6 sem. hrs. Prerequisites: Junior or senior standing; permission of the program director.

3 sem. hrs.

*General Education course. See Chapter V.
CHEMISTRY

The B.A. program in chemistry provides a framework of scientific courses which serves as a preparation for a number of interdisciplinary professions. The traditional B.S. curriculum has been modified in the B.A. program, most notably in mathematics, physics, and advanced chemistry. The program is sufficiently flexible to afford a wide selection of courses in the humanities. Science courses may be chosen to provide a preparation for professions such as medicine, dentistry, optometry, veterinary medicine, biochemistry, education, and law, as well as for employment in many other areas which require a background in science.

The B.S. program in chemistry is approved by the American Chemical Society for the training of professional chemists.

Students in the B.S. program in chemistry are required to conduct an original research project. Satisfaction of this requirement normally begins with enrollment in CHM 495 and selection of a research professor and project during the second term of the junior year. The research project, conducted during the entire senior year, normally requires two work periods of 3 to 4 hours each a week. The project culminates in the final term of the senior year with enrollment in CHM 498, the submission of an acceptable thesis, and the presentation of a seminar in CHM 497. Additional research work to a maximum total of 6 semester hours may be elected provided that the work extends beyond two semesters. Cooperative education students may substitute work experience for research with the prior approval of the department chairperson.

The B.S. program in biochemistry follows a curriculum which satisfies the needs of students who anticipate careers in the life sciences. A mark of distinction and rigor is that each student is required to conduct research, which normally includes a ten-week summer period following the junior year and culminates with the submission of a research thesis and the presentation of a seminar.

A minor in chemistry consists of 20 semester hours: CHM 123 and 124 with labs; CHM 302 or 303; 9 hours of 300-400 level courses (except CHM 490L) in consultation with the chairperson.

COURSES OF INSTRUCTION

* CHM 115. COLLEGE PREPARATORY CHEMISTRY: A one-term course for students desiring to enter a science or engineering program but whose background is insufficient for CHM 123-124. Unacceptable for credit toward chemistry requirements in any chemistry program. 3 sem. hrs.

CHM 115L. COLLEGE PREPARATORY CHEMISTRY LABORATORY: Course to accompany CHM 115 or to be elected by students in CHM 200 who lack previous chemistry laboratory experience. One 3-hour laboratory each week. 1 sem. hr.

* CHM 123-124. GENERAL CHEMISTRY: Comprehensive treatment of the fundamentals of general chemistry. Prerequisite: Competence in high school chemistry or successful completion of CHM 115. A placement examination is available for students whose background is doubtful. CHM 123 is a prerequisite for CHM 124. 3 sem. hrs. each

CHM 123L-124L. GENERAL CHEMISTRY LABORATORY: Laboratory course to complement CHM 123-124. One 3-hour laboratory session each week. CHM 123 is a corequisite for CHM 123L. CHM 124 is a corequisite for CHM 124L. 1 sem. hr. each

* CHM 200. CHEMISTRY AND SOCIETY: A course for nonscience majors. The application of chemical principles to the examination of issues such as environmental quality, disease, hunger, synthetic materials, and law enforcement. Requires one year of high school chemistry or equivalent. Depending upon background and experience, a student needing a laboratory course may enroll in either CHM 115L or CHM 123L. 3 sem. hrs.
CHM 201. QUANTITATIVE ANALYSIS: Application of the principles of chemical equilibrium to the theory and techniques of gravimetric, volumetric, spectrophotometric, and electroanalytical methods of chemical analysis. Prerequisites: CHM 124, 124L. 3 sem. hrs.

CHM 201L. QUANTITATIVE ANALYSIS LABORATORY: Course to accompany CHM 201 lecture. One 3-hour laboratory period each week. 1 sem. hr.

CHM 302. PHYSICAL CHEMISTRY: Essential elements of thermodynamics, chemical kinetics, equilibria, and electrochemistry for those with a primary interest in the life sciences. For B.A. chemistry majors and premedical, predental, and biology majors. Prerequisite: CHM 124. 3 sem. hrs.

CHM 303-304. PHYSICAL CHEMISTRY: Fundamentals of thermodynamics, chemical kinetics, electrochemistry, and spectroscopy with a mathematics format. For B.S. chemistry and biochemistry majors and chemical engineers. Prerequisites: CHM 201 or equivalent, CHM 303. Corequisite: MTH 218. 3 sem. hrs. each

CHM 303L-304L. PHYSICAL CHEMISTRY LABORATORY: Course to accompany CHM 303-304. One 3-hour laboratory each week. Corequisite: MTH 218. 1 sem. hr. each

CHM 313-314. ORGANIC CHEMISTRY: Major topics in organic chemistry including synthesis, mechanisms, stereochemistry, and spectroscopy. Required of all chemistry majors and students in the life sciences. Prerequisite: CHM 124. CHM 313 is a prerequisite for CHM 314. 3 sem. hrs. each

CHM 313L-314L. ORGANIC CHEMISTRY LABORATORY: Common separation, purification, and analytical techniques including chromatography and spectroscopy are stressed in CHM 313L. Synthesis and characterization of organic materials utilizing skills from the first term are stressed in CHM 314L. One 3-hour laboratory each week. Corequisites: CHM 313 and 314, respectively. CHM 313L is a prerequisite for CHM 314L. 1 sem. hr. each

CHM 317. SPECTROSCOPIC IDENTIFICATION OF ORGANIC COMPOUNDS: The use of nuclear magnetic resonance, infrared, and mass spectrometry in elucidating structures. Emphasis on interpretation and integration of spectral data in problem solving. Prerequisites: CHM 314, 314L or equivalent. 1 sem. hr.

CHM 341. ENVIRONMENTAL CHEMISTRY: An introduction to the chemical processes in the environment. Topics include chemical equilibrium in aqueous solution, reaction mechanisms as applied to atmospheric chemistry, and analytical methods commonly applied to environmental samples. Prerequisite: CHM 314 or permission of instructor. 3 sem. hrs.

CHM 341L. ENVIRONMENTAL CHEMISTRY LABORATORY: A laboratory course to accompany CHM 341. Corequisite: CHM 341. 1 sem. hr.

CHM 404. SPECIAL TOPICS IN PHYSICAL CHEMISTRY: Thorough treatment of topics such as electrochemistry, macromolecules, photochemistry, or spectroscopy. May be repeated as topics change. Prerequisite: CHM 302 or 303. 3 sem. hrs.

CHM 412. INTERMEDIATE ORGANIC CHEMISTRY: Modern theory and practice of organic chemistry. May include structure-reactivity relationships, reaction
mechanism, and synthetic topics not normally treated in introductory courses. Prerequisites: CHM 302 or equivalent, CHM 313-314, and senior standing.

**CHM 415. ANALYTICAL CHEMISTRY:** Chemical analysis based on modern instrumentation. Chromatographic, electrochemical, and spectroscopic methods. Prerequisites: CHM 201, 201L, 302 or 304.

**CHM 415L. ANALYTICAL CHEMISTRY LABORATORY:** Course to accompany CHM 415. Two 3-hour laboratory sessions each week. Prerequisites: CHM 201L, 302 or equivalent.

**CHM 417. INORGANIC CHEMISTRY:** An advanced course in modern inorganic chemistry. Atomic structure, principles of bonding and structure, acid-base chemistry, periodicity, coordination compounds, nonaqueous solvents, electrochemistry, molecular symmetry, organometallic compounds, and the chemistry of selected representative elements. Prerequisites: CHM 124, 314. Corequisite: CHM 302 or 304.

**CHM 418L. INORGANIC CHEMISTRY LABORATORY:** Laboratory course dealing with the synthesis and characterization of inorganic and organometallic compounds. Topics include vacuum and inert atmosphere techniques, separation and purification, spectroscopic characterization, X-ray diffraction, magnetic moment, and conductance measurements. Prerequisites: CHM 201L, 314L. Corequisite: CHM 417.

**CHM 420. BIOCHEMISTRY:** The fundamental aspects of the chemistry and biochemistry of carbohydrates, lipids, proteins, and nucleic acids. Enzymology, protein purification, bioenergetics, metabolism of carbohydrates, lipids, amino acids, nucleotides and nucleic acids, elementary molecular biology, and control processes are described. Acceptable preparation for medical school. Prerequisite: CHM 314.

**CHM 427. MEDICINAL CHEMISTRY:** The chemical mechanisms of action of the major drug classes will be surveyed with particular emphasis on the facets of organic chemistry that control drug-receptor interactions, metabolism and mechanisms of toxicity and resistance. Prerequisites: CHM 314 and CHM 420 or 451. First term.

**CHM 451. GENERAL BIOCHEMISTRY I:** Discussion of the chemistry and biochemistry of carbohydrates, amino acids, proteins, and nucleic acids, including health-science and methodologic aspects. Descriptions of enzymology, protein purification, and carbohydrate metabolism related to such topics as bioenergetics, membranes, and disease processes. Recommended for students desiring entry into graduate and professional schools. Prerequisites: CHM 201, 314.

**CHM 452. GENERAL BIOCHEMISTRY II:** Discussion of selected topics in bioenergetics, and metabolism of lipids, amino acids, porphyrins, nucleic acids, and proteins. Current aspects of nutrition, biochemical genetics, endocrinology, regulation, and genetic engineering addressed and related to health-science topics as time permits. Suitable preparation for medical school. Prerequisite: CHM 451.
CHM 462L. BIOCHEMISTRY LABORATORY: Laboratory course to accompany biochemistry lecture courses. Spectrophotometry, pH and dissociation, enzymologic methodology and analytical techniques, chromatographic techniques. Corequisite: CHM 420 or 451. 1 sem. hr.

CHM 490L. SCIENTIFIC GLASSBLOWING: Theory and practice of glass working. Under the supervision of a professional glassblower, students learn to make several standard seals and fabricate pieces of glass apparatus. Enrollment limited. One 3-hour laboratory each week. Grading Option 2. Prerequisite: Permission of the chairperson. 1 sem hr.

CHM 495. INTRODUCTION TO RESEARCH SEMINAR: Research topics presented by visiting scientists and faculty, and the results of thesis research by senior students. Required of all junior chemistry and biochemistry majors in the B.S. programs. Grading Option 2. No credit

CHM 496. PROFESSIONAL PRACTICES SEMINAR: After discussions of the chemical literature and information retrieval, resumes, graduate education, and career opportunities, students present technical talks on topics with social, ethical, or historical implications. Required of all chemistry and biochemistry majors, both B.S. and B.A. No credit

CHM 497. RESEARCH SEMINAR: A series of seminars as described under CHM 495. Required of all senior chemistry and biochemistry majors in the B.S. programs. No credit

CHM 498-499. RESEARCH AND THESIS: All students in the B.S. programs including Co-op are required to enroll for a minimum of 3 semester hours in a research course (CHM 498). Students may take additional research credits (CHM 499) if the work extends for more than 2 semesters. Successful completion of research courses requires the submission of a typewritten thesis and the presentation of a seminar. With the prior approval of the department chairperson, B.S. Co-op students may substitute work experience for research. Prerequisite: Permission of the chairperson. 3-6 sem. hrs.

*General Education course. See Chapter V.
CLASSICS (CLA)

Courses in classics, taught in English, are offered by the Department of Languages. See LNG. See also HMS.

COURSES OF INSTRUCTION

CLA 105. CLASSICAL ELEMENTS IN THE ENGLISH LANGUAGE: A study of Greek and Latin elements in bioscientific terminology to improve comprehension of derivatives from the classical languages in both specialized writings and traditional literature.  
3 sem. hrs.

* CLA 203. CLASSICAL MYTHOLOGY: An introduction to the principal cycles of Greek and Roman mythology, with emphasis on the influence of classical mythology upon the literature and art of the Western world.  
3 sem. hrs.

CLA 205. INTRODUCTION TO GREEK ARCHAEOLOGY: Survey of Greek archaeology from the Neolithic to the Classical Age, including consideration of the theory and technique of archaeological investigation. Emphasis on the cultures of the Minoan Bronze Age, the Mycenaean Bronze Age, and the Classical Age.  
3 sem. hrs.

CLA 350. CLASSICAL LITERATURE IN TRANSLATION: Course to acquaint students not majoring or minoring in classical languages with Latin and Greek authors and literary movements. Conducted in English. Repeatable when subtitle and content change.  
3 sem. hrs.
COMMUNICATION (CMM)

The course requirements for communication majors are 39 semester hours. Teacher certification through the E11A program is an option for communication majors. Consult department chairperson for details.

Minors in communication must have CMM 110, CMM 111 or CMM 112, and CMM 113 plus 12 semester hours of upper-level courses selected through consultation with the department chairperson.

A minor in political journalism is available for political science majors. The political journalism minor consists of CMM 201, CMM 330, and four of the following five courses: CMM 331; CMM 354; CMM 355; CMM 431; CMM 432.

The department also offers a Bachelor of Arts with a major in theatre. See THR.

113
COURSES OF INSTRUCTION

CMM 110. GROUP DECISION MAKING: Communication processes for small decision-making groups. Focus is on the development of general competencies in leadership, group roles, conflict management, agenda setting, problem analysis and research, decision making, and critical thinking. 1 sem. hr.

CMM 111. INFORMATIVE PUBLIC SPEAKING: Communication processes for presenting information in a public speaking context. Focus is on the development of general competencies in developmental and organization of ideas, research, adaptation to an audience, use of PowerPoint, and delivery. 1 sem. hr.

CMM 112. PERSUASIVE PUBLIC SPEAKING: Communication processes for persuading listeners in a public speaking context. Focus is on the development of general competencies in the construction and organization of persuasive strategies, critical evaluation of arguments and evidence, research, adaptation to an audience, use of PowerPoint, and delivery. 1 sem. hr.

CMM 113. INTERVIEWING: Communication processes for information gathering and employment interviewing. Focus is on the development of general competencies in the conduct and organization of interviews, preparation of resumes, evaluation of questions and responses, research, listening, and nonverbal communication. 1 sem. hr.

CMM 201. FOUNDATIONS OF MASS COMMUNICATION: Historical development of mass media in America; survey of mass media theories, impact of mass media on people and society, the role and influence of the news media, new technologies, programming, and pressure groups. 3 sem. hrs.

CMM 202. FOUNDATIONS OF COMMUNICATION THEORIES AND RESEARCH: Study of the nature and scope of communication theories and research. Examination of how the communication discipline developed from classical traditions to its modern perspective. 3 sem. hrs.

CMM 310. VOICE AND DICTION: The four phases of speech production: proper breathing, phonation, resonance, and articulation. Emphasis on projection, quality and clarity of speech. Analysis of students' voices through tape recordings. 3 sem. hrs.

CMM 311. STUDIES IN ORAL PERFORMANCE: Oral performance of poetry, prose, and drama; combining study of vocal modulations, pitch, inflection, and tone color with intellectual and emotional analysis of selections as a means of making the literature alive and immediately present. 3 sem. hrs.

CMM 312. LISTENING THEORY AND APPLICATION: Study of theories and related application during comprehensive, discriminate, empathic, and appreciative listening; emphasis on listening competently and responsibly. 3 sem. hrs.

CMM 313. NONVERBAL COMMUNICATION: Survey of theory and research in nonverbal behavior. Examination of the influence of environmental factors, physical behavior, and vocal cues on human communication. 3 sem. hrs.
CMM 314. DIMENSIONS OF BRITISH COMMUNICATION: Exploration of mass media, public relations, interpersonal communication, political communication, theatre and other communication subfields in the British context. This course will be offered only through a UD study abroad program. 3 sem. hrs.

CMM 315. INTERNATIONAL MASS MEDIA: Focus on the mass media of a particular foreign country or region of the world. Topics may include media content, use, societal effects and ownership. 3 sem. hrs.

* CMS 316. INTERCULTURAL COMMUNICATION: Study of interpersonal communication with emphasis on people from different countries and with different cultural backgrounds. Focus on the influence of culture on communication and language, verbal and non-verbal communication similarities and differences from culture to culture, and challenges of successful intercultural communication. 3 sem. hr.

CMM 320. INTERPERSONAL COMMUNICATION: Study of communicative behavior in a variety of dyadic relationships including acquaintance, friendship, work, romantic, and family. Focus on communicative behavior and communicative processes in relationship development including building trust, managing conflict, negotiating power, and listening empathetically. 3 sem. hrs.

CMM 321. SMALL GROUP COMMUNICATION: Examination of theory and research related to communicative processes in small, task-oriented groups. Applications include a focus upon decision-making strategies, leadership, conflict management, and cohesion. 3 sem. hrs.

CMM 322. INTERVIEWING FOR COMMUNICATION AND BUSINESS: Analysis of communication in structured dyadic interaction. Emphasis on the following types of interviews: information-gathering, employment, appraisal, and persuasive. Application through role-playing and feedback systems. 3 sem. hrs.

CMM 330. MEDIA WRITING: Developing and practicing writing skills for journalism, public relations, and electronic media. Study and practice of ethics in determining news values, gathering information, and communicating clearly and accurately for mass audiences. AP style emphasized. Studio fee. 3 sem. hrs.

CMM 331. FEATURE WRITING: Developing and writing nonfiction stories for newspapers and magazines. Story types include personality profile, color, background, consumer, and commentary. Study and practice in journalistic reporting skills and literary writing techniques. Emphasis on content, organization, style, and accuracy. Strong command of AP style necessary. Studio fee. Prerequisite: CMM 330. 3 sem. hrs.

CMM 332. PUBLICATION DESIGN: Layout and design of print and electronic publications, including newsletters, brochures, and web-based publications. Instruction in desktop and web publishing software, use of type and illustration, cost appraisal, printing methods. Studio fee. 3 sem. hrs.

CMM 333. FREE-LANCE WRITING: Steps of free-lance publication, from market analysis to query letters to writing and rewriting. Mostly nonfiction, magazine markets, some newspaper and nonfiction book markets. 3 sem. hrs.
CMM 334. SPORTSWRITING: In addition to game stories, attention is also paid to writing about personalities, legal issues, and financial issues on the interscholastic, intercollegiate, amateur, and professional levels. Strong writing skills and knowledge of journalistic style expected. Prerequisite: CMM 330. 3 sem. hrs.

CMM 340. FUNDAMENTALS OF BROADCASTING: Survey of broadcasting, with emphasis on television and radio networks, programming, regulation, audience measurement, audience effects, and technology. Although attention is given both to the origins and future of the field, contemporary broadcasting is emphasized. 3 sem. hrs.

CMM 341. AUDIO PRODUCTION: Study of the theories, processes, and technologies of audio production practices that can be applied in radio, television, and multimedia production. Exercises in recording of voice, music, and special effects. Course includes the operation of basic studio and field equipment, including analog and basic digital recording and editing. Studio fee. 3 sem. hrs.

CMM 342. FUNDAMENTALS OF VIDEO PRODUCTION: Explores the techniques of studio and remote video production. Includes the technical and creative aspects of planning and script preparation, producing, directing, technical directing, graphics, editing, camera, lighting, and sound for a variety of video programs. Studio fee. 3 sem. hrs.

CMM 343. SCRIPTWRITING FOR ELECTRONIC MEDIA: Study of concrete approaches to and practice with the kinds of writing being done professionally in all program types on television and radio including corporate media writing. Prerequisite: CMM 330 or permission of instructor. 3 sem. hrs.

CMM 344. MULTIMEDIA DESIGN AND PRODUCTION I: Introduction to producing in the interactive media of CD-ROM and other digital formats. Reviews basic object-linking-and-embedding in familiar computer programs such as Word, PowerPoint, and Freelance Graphics. Students build skills in multimedia authoring, using all the fundamental tools of graphics, text, audio, and video. Studio fee. 3 sem. hrs.

CMM 345. CLASSIC AMERICAN FILM: A survey of the artistic evolution of American film, including the analysis of styles of producing, scripting, acting, directing, lighting, sound, cinematography, set design and editing through viewing of classic American films and selected international films that have influenced the art of American filmmaking. 3 sem. hrs.

* CMM 350. PROPAGANDA ANALYSIS: Examination of major propaganda campaigns in history beginning with Greek democracy. Emphasis on 20th century propaganda as psychological warfare. Principles of Aristotelean rhetorical theory applied to propaganda analysis. 3 sem. hrs.

CMM 351. PUBLIC SPEAKING: Oral communication in professional situations. Adaptation of principles of effective speaking to specific audiences and occasions. Delivery of informational, problem-solving, and special-occasion speeches. 3 sem. hrs.

CMM 352. PERSUASION: Study of the use of communication to form attitudes. Examination of attitudes and social influence and their effects on human behavior.
Topics include selected theories of persuasion, argument construction, and practical application.

CMM 353. SPEECH WRITING: Study of speech structure and composition. Critical analysis of model speech, in conjunction with the preparation and presentation of original speeches on current public questions. 3 sem. hrs.

CMM 354. POLITICAL CAMPAIGN COMMUNICATION: Examination of theory and research on the role, processes and effects of communication in political campaigns with emphasis on mass media, public speaking, debates, advertising, and interpersonal communications. 3 sem. hrs.

* CMM 355. RHETORIC OF SOCIAL MOVEMENTS: Study of rhetorical communication in American social movements through examination of the strategies, themes and tactics used by agitators and the institutional responses to discourse aimed at social change. 3 sem. hrs.

CMM 360. PRINCIPLES OF PUBLIC RELATIONS: Survey of the field of public relations emphasizing writing and public relations, theoretical implications of the field, the practitioner's role in organization and the community. 3 sem. hrs.

CMM 390. INDEPENDENT STUDY: Supervised study involving directed readings, individual research (library, field, or experimental), or projects in the specialized areas of communication. May be repeated for up to 6 semester hours. Prerequisite: Permission of the department chairperson. 1-3 sem. hrs.

CMM 397. COMMUNICATION PRACTICUM: Contracted participation in an approved on-campus communication organization. One sem. hr. per term to a maximum of 3. Grade option 2 only. 1-3 sem. hrs.

CMM 410. FAMILY COMMUNICATION: Study of the family from a communication perspective, considering the communication processes within the family and the extent to which communication affects and is affected by the family. 3 sem. hrs.

CMM 411. HEALTH COMMUNICATION: Examination of communication theory and research as they relate to health care. Issues include reassurance, the role of the patient, interviews, health organizations, the media and health, compliance, providing explanations, and health care professions frequently neglected. 3 sem. hrs.

CMM 412. STATISTICAL METHODS IN COMMUNICATION: Study of data gathering methods in communication. Practice in sampling, survey methods, questionnaire development, and experimental design. Emphasis on the use of logic to interpret data and to support claims. 3 sem. hrs.

CMM 413. COMMUNICATION IN THE INFORMATION AGE: Examination of issues related to development, economics, programming, and the future of new mass communication technologies. Prerequisite: CMM 201 or permission of instructor. 3 sem. hrs.

* CMS 414. GLOBAL COMMUNICATION: Introduction to the main topics in the field of global communication. Emphasis on comparative mass media and current issues in global communication. (Will not satisfy humanities requirement.) 3 sem. hrs.
* CMS 415. WOMEN AND COMMUNICATION: Seminar focusing on gender differences in communication, unique aspects to women's communication, and women's rhetoric. Current theory and research examined. (Will not satisfy humanities requirement.) 3 sem. hrs.

* CMS 416. DEVELOPMENT OF MASS MEDIA: History and analysis of the development and interdependence of mass media, print and electronic. Emphasis on its role in political and economic progress of U.S. and attendant responsibility. 3 sem. hrs.

CMM 420. COMMUNICATION AND CONFLICT MANAGEMENT: Examination of the functions of communication in interpersonal conflict such as marital conflict, role conflict, and organizational conflict. Communicative strategies and tactics for managing conflict. 3 sem. hrs.

CMM 421. COMMUNICATION IN ORGANIZATIONS: Analysis of message initiation, diffusion, and reception in organizations; analysis of the role of communication in developing productive work relationships, management practices, and organizational cultures. 3 sem. hrs.

CMM 430. COPYEDITING: Editing, particularly news copy editing and headline writing. Emphasis on clear and concise wording; proper spelling, grammar, and punctuation; and accuracy. Strong command of AP style necessary. Studio fee. Prerequisite: CMM 330. 3 sem. hrs.

CMM 431. PUBLIC AFFAIRS REPORTING: Investigative and specialized reporting on matters of public concern. Practice in gathering information from primary and secondary sources, and writing about complex subjects for mass audiences. Studio fee. Prerequisite: CMM 330. 3 sem. hrs.

CMM 432. THE LAW AND NEWS MEDIA: Exploration of the free press clause of the First Amendment, as defined by the courts and media practice. Study of First Amendment core values and theories. Investigation into law on libel, privacy, censorship, access to information, and copyright, as well as regulation of broadcast, cable and new electronic media. Prerequisite: Junior standing. 3 sem. hrs.

CMM 439. SPECIAL TOPICS IN JOURNALISM: Concentrated study in special areas of journalism. May be repeated with change of topic. 3 or 6 sem. hrs.

CMM 440. BROADCAST NEWS: Study of the process and practice of news gathering and writing for radio and television. Course includes research, analysis, writing, and editing news and features, as well as legal, and ethical concerns of broadcast news. Studio fee. Prerequisite: CMM 330. 3 sem. hrs.

CMM 442. ADVANCED TELEVISION PRODUCTION: Advanced techniques of both studio and electronic field production and post-production editing for television. Studio fee. Prerequisite: CMM 342. 3 sem. hrs.

CMM 444. MULTIMEDIA DESIGN AND PRODUCTION II: Advanced level multimedia production emphasizing client-based project generation through a design/production-team approach. Focus is on interface design; project planning, script writing, story boarding; digital image, sound and video editing; and the use of authoring software. Studio fee. Prerequisite: CMM 344. 3 sem. hrs.
CMM 446. ELECTRONIC MEDIA MANAGEMENT: Survey of the leadership/management roles and responsibilities of broadcasting, cable television and corporate media enterprises. Prerequisite: CMM 340.  
3 sem. hrs.

CMM 449. TOPICS IN ELECTRONIC MEDIA: Concentrated study in special areas of electronic media production, criticism, and management. May be repeated once with change of topic. Depending on topic, prerequisites may be imposed.  
3 sem. hrs.

CMM 452. PUBLIC DISCOURSE AND CRITICISM: Examination of the foundations of the field of communication. Major focus on the development of rhetorical theory with attention to rhetorical analysis and criticism.  
3 sem. hrs.

CMM 460. PUBLIC RELATIONS WRITING: Study, development and application of public relations strategies. Emphasis on strategically effective, factually accurate and grammatically sound written communications for organizational and mass audiences. Prerequisites: CMM 330, 360.  
3 sem. hrs.

CMM 461. PUBLIC RELATIONS CAMPAIGNS: Students plan and carry out a public relations program for an established professional organization, work out solutions to communication and public relations problems, and prepare written campaign materials and handbooks. Prerequisites: CMM 330, 360, 460, and senior standing.  
3 sem. hrs.

CMM 469. TOPICS IN PUBLIC RELATIONS: A concentrated study in specific areas of public relations. Development of specialized projects. May be repeated once with change of topics. Prerequisite: CMM 360 or permission of instructor.  
3 sem. hrs.

CMM 498. COMMUNICATION INTERNSHIP: Communication work experience in an approved organization. Prerequisites: Student must be in good academic standing and must have completed CMM 101, 201, 202, 330. Students are normally limited to a maximum of 3 sem. hrs. Under exceptional circumstances, students may petition the department chair for an additional 3 sem. hrs., if the second internship is at a different organization and the student can demonstrate that the position offers a unique and significant educational opportunity not available through the first internship. Permission of department chair. Option 2 Grading only.  
1-6 sem. hrs.

CMM 499. SPECIAL TOPICS IN COMMUNICATION: Concentrated study in specific areas of speech communication. May be repeated once with change of topic.  
3-6 sem. hrs.

*General Education course. See Chapter V.
The Department of Computer Science offers two programs leading to the Bachelor of Science in computer science, and in computer information systems. Both programs have the same introductory core sequence of computer science courses. The main differences in the programs are in the mathematics and science requirements and in the application emphases.

**Computer Science:** Computer science is the study of algorithms and their implementation in the environment of computer hardware. It includes the study of data structures, software design, programming languages, and computer elements and architecture. A student entering this program is expected to be able to take calculus and nonremedial English. A transfer student must ordinarily be in good standing and have a cumulative average of at least 2.5 based on a scale of 4. Each student must take appropriate upper-level electives to ensure depth in at least three of the core subject areas of data structures, software design, programming language concepts and architecture as arranged with the advisor and department chair.

**Computer Information Systems:** This program emphasizes computer science concepts with particular attention to systems analysis and design, computer communications, and applications in one of the concentration areas listed in the description of the program requirements.

Computer science and computer information systems majors are required to attain grades of C or better in CPS 150, 151 and 350. A minor in computer science includes CPS 150, 151, 250, 350, and three other courses numbered 320 or above, excluding 435 and 437. A minor in computer information systems includes CPS 150, 151, 242, 310, 312, and two courses numbered 320 or above, excluding 435 and 437.

**FACULTY**

James P. Buckley, *Chairperson*

*Professors Emeriti:* Jehn, Kester, Winslow

*Associate Professors:* Buckley, Gowda, Lang, Pan, Schoen, Smith

*Assistant Professors:* Courte, Seitzer, Sritharan

*Lecturers:* Lamb, Reynolds, Starkey

*Adjunct Associate Professor:* Lokai

---

**COURSES OF INSTRUCTION**

**CPS 107. COMPUTERS AND SOCIETY:** Nontechnical introductory survey of the history and organization of digital computers; the diverse application of computers in government, business, education, and the arts; and the psychological and sociological impact of the computer age. Not open to CPS, CIS, or PCS majors. 3 sem. hrs.

**CPS 111. INTRODUCTION TO PERSONAL COMPUTERS:** Emphasis on use of operating system, particularly file organization, and applications: word processor, spreadsheet, database and presentation software. 3 sem. hrs.
CPS 130. INTRODUCTION TO ENGINEERING PROGRAMMING: Introduction to fundamentals of programming using the language C, including algorithms and control structures, with applications drawn from engineering. Intended for students in electrical engineering. Prerequisite: EGR 101. 1 sem. hr.

CPS 132. COMPUTER PROGRAMMING FOR ENGINEERING AND SCIENCE: Fundamentals of computer programming including algorithms, program structure, library routines, debugging, and program verification. Calculus-based computer solutions of problems from science and engineering using C. Corequisite: MTH 168. 3 sem. hrs.

CPS 144. INTRODUCTION TO COMPUTER PROGRAMMING: Fundamentals of computer programming including algorithms, program structure, library routines, debugging, and program verification. Computer solutions of problems from social sciences using a suitable compiler language such as FORTRAN or Pascal. 1-3 sem. hrs.

CPS 151. ALGORITHMS AND PROGRAMMING II: Continuation of CPS 150. Emphasis on program design, development and style, string processing, data structures, program modularity, and abstract data type, using a compiler language. Prerequisite: CPS 150. 4 sem. hrs.

CPS 225. PROGRAMING FOR BUSINESS SYSTEMS: Process of software development for business system implementation. Fundamental programming concepts including program design, documentation, development and testing of computer solutions of business problems using C++. Intended for students majoring in MIS. Prerequisite: MIS 175. 4 sem. hrs.

CPS 242. INTRODUCTION TO FILE PROCESSING: The file processing environment, blocking and buffering, secondary storage devices, sequential file organization, relative file organization, and various indexed file organizations using a suitable compiler language such as COBOL. Prerequisite: CPS 150. Corequisite: CPS 151. 3 sem. hrs.

CPS 250. ALGORITHMS AND PROGRAMMING III: Study of computer organization and architecture by developing basic programming skills in an assembler language (currently IBM Mainframe) and in C. Prerequisite: CPS 151. 4 sem. hrs.

CPS 309. TOPICS IN COMPUTER SCIENCE: Lectures or laboratory work in areas of current interest. May be taken more than once. Does not count as upper level credit for major/minors. 1-4 sem. hrs.

CPS 310. SYSTEMS ANALYSIS: Methodologies for producing software, software development life cycles, top-down approach, data flow diagram, data dictionary, mini-specifications, in/output design, E-R diagrams, normalization, introduction to object oriented analysis. Prerequisite: CPS 151 or CPS 225. 3 sem. hrs.
CPS 312. SYSTEMS DESIGN: Structured design, tools of structured design, coupling and cohesion of modules, transform and transaction analyses, packaging, optimization, data-oriented and object oriented design methodologies, automated design tools. Prerequisite: CPS 310. 3 sem. hrs.

CPS 341. DISCRETE STRUCTURES: Logic and proofs, sets and counting, Boolean algebra, graph theory, directed graphs, mathematical machines, formal languages and grammars. Prerequisite: CPS 150. 3 sem. hrs.

CPS 343. COMPARATIVE LANGUAGES: Language design issues, formal syntax specification, data types and storage methods, activation records and procedural object oriented, functional, and logic programming paradigms. Prerequisite: CPS 350. 3 sem. hrs.

CPS 346. OPERATING SYSTEMS I: Semaphores, conditions, monitors, and kernels. Concurrent programming, interrupts, memory, and process management. Design and implementation of a simple operating system using concurrent languages. Prerequisites: CPS 250, 350. 3 sem. hrs.

CPS 350. DATA STRUCTURES AND ALGORITHMS: Advanced concepts of linear data structures, stacks, queues, and abstract data types. Basic and advanced concepts of trees, graphs, hash tables, heaps, algorithm design and analysis techniques. Prerequisite: CPS 250. 3 sem. hrs.

CPS 353. NUMERICAL METHODS I: Study of the algorithms of numerical mathematics with emphasis on interpolation, the solution of nonlinear equations, and linear systems of equations including matrix methods; analysis of errors associated with the algorithms. Prerequisites: MTH 169; CPS 132 or 150. 3 sem. hrs.

CPS 354. NUMERICAL METHODS II: Study of the algorithms of numerical mathematics with emphasis on functional approximation, numerical differentiation and integration, numerical solution of ordinary differential equations and boundary value problems; analysis of errors associated with the algorithms. Prerequisite: CPS 353. 3 sem. hrs.

CPS 387. COMPUTER SYSTEM DESIGN I: Study of the elements of computer design. Design of combinatorial and sequential logic circuits using current integrated circuit devices. Discussion of encoders, decoders, registers, counters, etc. as applied to design and use of control, arithmetic, logic, and storage units. Instruction set, addressing modes and CPU design. Laboratory experiments with these devices. Prerequisites: CPS 250, 341. 3 sem. hrs.

CPS 388. COMPUTER SYSTEM DESIGN II: Detailed analysis of a specific microcomputer programmed in machine, assembler, and a higher-level language. Discussion of interfacing with devices such as displays, terminals, and other computers. Experiments with such interfacing in the laboratory. Prerequisite: CPS 387. 3 sem. hrs.

CPS 411. MANAGEMENT INFORMATION SYSTEMS: The management information systems environment. The theory, technology, development of information systems. Emphasis on integration of information systems for decision support and other management information requirements. Prerequisite: CPS 310. 3 sem. hrs.
CPS 418. SOFTWARE ENGINEERING: A thorough examination of modern software methodologies, of the managerial and technological skills essential to the design and construction of high-quality software, and of the productivity and human factors in software development. Prerequisite: CPS 350. 3 sem. hrs.

CPS 424. DISCRETE EVENT SIMULATION TECHNIQUES: Design and use of simulation models; study and use of special-purpose simulation languages such as GPSS and GASP IV, SIMSCRIPT II.5. Applications. Prerequisite: CPS 151. 3 sem. hrs.

CPS 430. DATABASE MANAGEMENT SYSTEMS: Physical and logical organization of databases: the entity-relationship model; relational database model; the data definition and data manipulation language of a commercial database management system; integrity constraints; conceptual database design. Prerequisite: CPS 350. 3 sem. hrs.

CPS 432. DATABASE MANAGEMENT SYSTEMS II: Study of query execution and optimization, transaction management, concurrency control, recovery and security techniques. Advanced data models and emerging trends in database systems, like object oriented database systems, distributed database systems, the client-server architecture, multidatabase and heterogeneous systems. Other current database topics and emerging technologies will be discussed. Prerequisite: CPS 430. 3 sem hrs.

CPS 437. SYSTEM ARCHITECTURES AND NETWORKING: Issues and techniques used in the physical design of computer-based information systems. Basic operating systems, hardware architecture and networking principles. Intended for students majoring in MIS; not open to students majoring in CPS, CIS, or PCS. Prerequisites: MIS 380, 385. 3 sem hrs.

CPS 444. SYSTEMS PROGRAMMING I: Analysis of compilers and their construction; programming techniques discussed in the current literature; advanced computer applications in mathematical and nonnumeric areas. Prerequisites: CPS 346, 350. 3 sem. hrs.

CPS 445. SYSTEMS PROGRAMMING II: A continuation of CPS 444, with emphasis on the application of the topics discussed. Prerequisite: CPS 444. 3 sem. hrs.

CPS 446. OPERATING SYSTEMS II: Design and implementation of a multi-user operating system, including concurrent processes, usage of monitors and kernels, process and device scheduling, virtual memory with paging, process synchronization and communication, input and output spooler, file systems, reliability and protection, interrupts, distributed system concepts. Prerequisite: CPS 346. 3 sem. hrs.

CPS 455. NUMERICAL ANALYSIS I: Error analysis, mathematical development of functional approximation including interpolation, quadrature, numerical differentiation, solution of ordinary differential equations. Prerequisites: CPS 132 or 150, MTH 302, 319. Recommended: CPS 353. 3 sem. hrs.

CPS 456. NUMERICAL ANALYSIS II: Mathematical development of the method of least squares, minimax approximation, solution of partial differential equations, applications. Prerequisite: CPS 455. 3 sem. hrs.
CPS 460. COMPUTER GRAPHICS: Introduction to graphics devices and software graphic primitives (points, lines, characters), two-dimensional transformations, clipping, survey of display devices and methods. Graphic input devices, representation of curves and surface in space. Prerequisite: CPS 350.

3 sem. hrs.

CPS 470. DATA COMMUNICATION: Principles of telecommunications hardware and software. Analysis of communication protocol layers with respect to performance, error handling, and control functions. Review of troubleshooting techniques currently in use. Prerequisite: CPS 350.

3 sem. hrs.

3 sem. hrs.

CPS 480. ARTIFICIAL INTELLIGENCE: Basic concepts and techniques of intelligent systems. Emphasis on representations, problem solving, search strategies, expert systems, mVgie systems, and AI programming. Design and implementation of AI applications. Prerequisite: CPS 350.

3 sem. hrs.

CPS 482. AUTOMATA THEORY: Finite automata, sequential machines, survey of formal languages, introduction to computability, recursive functions, and Turing machines. Prerequisite: CPS 341.

3 sem. hrs.

CPS 496. COOPERATIVE EDUCATION: Computer science cooperative education work experience in an approved organization. Prerequisite: 12 hours of upper-level CPS courses with a GPA of 3.0; total 90 semester hours with a GPA of 2.75. Permission of the department in advance of the work. Not open to students with credit in CPS 497. Credit does not apply to major requirements. Repeat to a maximum of 3 semester hours.

1-3 sem. hrs.

CPS 497. INTERNSHIP: Computer science work experience in an approved organization. Prerequisite: 12 sem. hrs. of upper-level CPS courses with GPA of 3.0; total 90 sem. hrs. and 2.75 GPA. Permission of department in advance of the work. Not open to students with CPS 496 credit. Credit does not apply to major requirements. Repeat to a maximum of 3 semester hours.

1-3 sem. hrs.

CPS 498. PROBLEMS IN (NAMED AREA): Individual readings and research in a specialized area. (See CPS 499.) By arrangement. May be taken more than once for additional credit. Prerequisite: Permission of the department.

1-4 sem. hrs.

CPS 499. SPECIAL TOPICS: Lectures or laboratory work in such areas as advanced artificial intelligence, computer architecture, information retrieval, microprogramming, multi-programing techniques, numerical analysis, graphics, data communications, parallel processing, software development, distributed computing, multimedia computing. By arrangement. May be taken more than once. Prerequisite: Permission of the department.

1-4 sem. hrs.
CJ S

CRIMINAL JUSTICE STUDIES (CJS)

The Bachelor of Arts with a major in criminal justice studies, is a broadly structured interdisciplinary curriculum designed to introduce students to 1) a critical theory of criminal justice/criminology and 2) requisite knowledge for advanced study or public service, e.g. law enforcement and/or investigative services at the local, state and national levels; line entry careers in the correctional field—probation and parole counseling, community programs, and other rehabilitative services, as well as staff positions in the judiciary.

Those who enter the University of Dayton as first-year students, or as transfers without associate degrees, will be classified under Option A, a total program sequence. Students who transfer here with acceptable associate degrees in specific fields similar or closely related to criminal justice will be classified under Option B, a transfer program sequence.

All students transferring into the curriculum must be in good academic standing and meet entry requirements.

The minor in criminal justice studies requires 18 semester hours to include CJS 101, Introduction to Criminal Justice Studies, SOC 305, Criminological Theory, and 12 upper-divisional semester hours of course work, i.e., one course in each of the four areas involving behavior, institutions, law, and social structure.

Proficiency examinations for limited CJS credit are available only to majors who are in-service personnel, i.e., law enforcement officers, probation and parole officials, or judicial personnel. Under Option A, students are limited to only 6 semester hours of proficiency examination credit, and under Option B, only 3 semester hours. In-service students should make their formal appeals to the director's office at the beginning of each term, so that it can be determined by the Criminal Justice Studies Advisory Committee whether scheduling a proficiency examination during that term is warranted.

It is the sole responsibility of students to inform themselves of whatever changes occur in the curriculum and to observe all the regulations, procedures, and requirements of the University and the criminal justice studies program.

\textit{1}Internships and independent studies may be taken in CJS, POL, PSY, and SOC that have a Criminal justice studies emphasis. No more than 6 semester hours may be taken. Also to be offered is CJS 300 Criminal Justice Studies Career Development, CJS 399, Special Topics in Criminal Justice Studies and CJS 497, Service Learning Experience. This course work is in addition to the 36 hours required for a CJS interdisciplinary major in the Option A, total program sequence. They are not to be used as substitute courses for those listed in the areas of behavior, institutions, law and/or social structure, unless approved in advanced by the director of the Criminal Justice Studies program and the College of Arts and Sciences.

\textbf{BACHELOR OF ARTS WITH A MAJOR IN CRIMINAL JUSTICE STUDIES (CJS)}\textit{1}

\textbf{OPTION B}

To be admitted as a major in the program under Option B, a transfer student must have received an accredited associate degree in corrections, law enforcement, police administration, police science, or a similar field of criminal justice and must have a 2.5 cumulative grade-point average on a 4.0 grading system. For criminal justice studies majors who have completed the basic requirements for an accredited two-year criminal justice degree, 60 semester hours beyond the associate degree is suggested, which includes a minimum of 21 semester hours in the program.

Prerequisites: The following are required for all criminal justice studies transfer majors in addition to the baccalaureate degree requirements if they were not included in the candidates' associate degree programs.

\textit{Semester Hours}

\textbf{Liberal Studies Curriculum}\textit{1}

1Consult General Requirements for all Bachelor of Arts programs and Chapter V for General Education requirements.

2CJS 207, Research Methods in Criminal Justice Studies, required as a prerequisite MTH 207 or PSY 216 or SOC 308. Neither PSY 216 nor SOC 308 fills the three semester hours mathematics requirements.

3To be considered a viable candidate for graduation, a student must have completed a minimum of 124 semester hours with accepted transfer credits.

Core Courses for a CJS Major, Option B

CJS 207 Research Methods in Criminal Justice Studies
SOC 305 Criminological Theory
CJS 447 Senior Seminar in Criminal Justice Studies

In addition to these three core courses, students are required to take four additional courses—one from each of the following four areas.1

Behavior (Must take one course)
PSY 363 Abnormal Psychology
PSY 461 Current Implications of Drug Dependency
SOC 325 Deviant Behavior
SOC 327 Criminology
SOC 410 Victimology
SWK 325 Child Abuse

Institutions (Must take one course)
CJS 303 Corrections
POL 303 State and Local Government
POL 305 Introduction to Public Administration
POL 360 Urban Politics and Policy
SOC 323 Juvenile Justice

Law (Must take one course)
CJS 305 Criminal Law
CJS 315 Criminal Procedure
POL 301 American Judicial Process
POL 411 Constitutional Law
POL 450 Civil Liberties
SOC 326 Law and Society

Social Structure (Must take one course)
CJS 322 Policing and Society
CJS 336 Comparative Criminal Justice Systems
SOC 328 Racial and Ethnic Minorities
SOC 339 Social Inequality
SOC 351 Urban Sociology
Internships and Independent Studies may be taken in CJS, POL, PSY, and SOC that have a criminal justice studies emphasis. No more than 6 semester hours may be taken. Also to be offered is CJS 300 Criminal Justice Studies Career Development, CJS 399, Special Topics in Criminal Justice Studies and CJS 497, Service Learning Experience. This course work is in addition to the 21 hours required for a CJS interdisciplinary major in the Option B, transfer program sequence. They are not to be used as substitute courses for those listed in the areas of behavior, institutions, law and/or social structure, unless approved in advance by the director of the Criminal Justice Studies program and the College of Arts and Sciences.

CRIMINAL JUSTICE STUDIES ADVISORY COMMITTEE

The Criminal Justice Studies Advisory Committee consists of James A. Adamitis, Director, Criminal Justice Studies Program, Ahern (Political Science), Ghere (Political Science), Apolito (Criminal Justice Studies), Ingram (Criminal Justice Studies), Reeb (Psychology), P. Donnelly (Sociology, Anthropology and Social Work), H. Pestello (Sociology, Anthropology and Social Work).

FACULTY

James A. Adamitis, Director
Associate Professors: Adamitis, Ingram
Coordinator for Community Relations: Timothy F. Apolito
Adjunct Instructors: Abraham

COURSES OF INSTRUCTION

CJS 101. INTRODUCTION TO CRIMINAL JUSTICE STUDIES: Introduction to the field of criminal justice studies, stressing the theoretical foundations, origin, nature, methods, and limitations of criminal justice studies as a college curriculum.
3 sem. hrs.

CJS 207. RESEARCH METHODS IN CRIMINAL JUSTICE STUDIES: Review of the nature, language, and processes of inquiry involving experiments, studies, surveys, and investigations. The instrumentation, types, and structures of content analysis, questionnaires, interviews, and structured observation, including, analytic techniques, data processing resources, and preparation of research reports are also examined. Prerequisite: MTH 207 or PSY 216 or SOC 308.
3 sem. hrs.

CJS 300. CRIMINAL JUSTICE STUDIES CAREER DEVELOPMENT: Exploration of career opportunities and the professional career placement process including setting goals and identifying educational objectives, noting professional concerns, the role of a given criminal justice organization, and assessing experiences.
1 sem. hr.

CJS 303. CORRECTIONS: The administration of correctional institutions and other detention facilities with emphasis on probation and parole systems to include the rehabilitation and treatment of the incarcerated with reference to correctional law cases.
3 sem. hrs.
CJS 305. CRIMINAL LAW: Principles of criminal liability, preparation of case materials, court procedures, and case disposition. 3 sem. hrs.

CJS 315. CRIMINAL PROCEDURE: Fundamentals of criminal procedure: arrest, search, and seizure; interrogation, Constitutional limitations upon state and federal rules of criminal procedure. Prerequisite: A course in criminal law. 3 sem. hrs.

CJS 322. POLICING AND SOCIETY: Analyzes the history of policing in society and assesses the social and political forces that are correlated with both the rise of formal policing and the variety of structures law enforcement agencies have assumed. Reviews the primary functions of policing in American society and examines those issues affecting federal, state, county, municipal and private policing. 3 sem. hrs.

CJS 336. COMPARATIVE CRIMINAL JUSTICE SYSTEMS: Survey of cross-cultural uniformities and diversities in law-enforcement agencies, correctional systems, and the courts in selected countries. Prerequisite: An introductory course in criminal justice. 3 sem. hrs.

CJS 399. SPECIAL TOPICS IN CRIMINAL JUSTICE: An extensive examination of a current topic affecting the criminal justice system and its law enforcement, corrections or judicial components. May be repeated to a maximum of 3 semester credits when the topic changes. 1-3 sem. hrs.

CJS 440. INDEPENDENT STUDY: Directed study and research on selected topics of significant academic publications in law enforcement and criminal justice. Prerequisites: Permission of instructor, an introductory CJS course. 3 sem. hrs.

CJS 447. SENIOR SEMINAR IN CRIMINAL JUSTICE STUDIES: Seminar to identify and discuss the contemporary issues in justice administration. Topics to be assigned by instructor and presented for class discussion by students. 3 sem. hrs.

CJS 495. INTERNSHIP IN CRIMINAL JUSTICE I: Supervised experience solely in a civilian capacity in a criminal justice or law-enforcement agency. Open to pre-service criminal justice studies majors only; in-service students do not qualify. Students who enroll for internship credit are not given a stipend. Credit granted only under grade option 2. Prerequisites: Sophomore status, 2.5 cumulative grade-point average, and permission of the director of Criminal Justice Studies Program. 3 sem. hrs.

CJS 496. INTERNSHIP IN CRIMINAL JUSTICE II: Continuation of CJS 495. 3 sem. hrs.

CJS 497. SERVICE LEARNING EXPERIENCE: Supervised community research or service experience that complements a specific upper division course in Criminal Justice Studies. No more than 3 semester hours of Social Science 497 credits can count for graduation. Repeatable up to three semester hours. Prerequisite: Permission of instructor. Corequisite: a 300-400 Criminal Justice Studies course. 1 sem. hr.
ECA

ECONOMICS (ECA)

In cooperation with the Department of Economics and Finance in the School of Business Administration, the College of Arts and Sciences offers the degree of Bachelor of Arts with a major in Economics.

For a minor in economics, 18 semester hours are required: ECO 203-204, 346-347, and any two elective courses from economics.

For course descriptions, see ECO, Chapter VII.

Information on a specialized degree, Applied Mathematical Economics, (MTE) can be found in Arts and Sciences under the Mathematics Department.

\(^1\)See also Distribution Table for Bachelor of Arts programs and Chapter V for General Education requirements.

\(^2\)MTH 168 or MTH 128-129 may be substituted with permission of chairperson.
ENGLISH (ENG)

The University requirement in English composition is satisfied by the completion of ENG 101-102, ENG 114, or ENG 198. Completing this requirement is a prerequisite for 200- and 300-level English courses. For placement information, see Reading and Writing Skills under Basic Skills and General Competencies Requirements in Chapter V. For additional details, consult the department chairperson or the coordinator of composition.

Students majoring in English must complete at least 36 semester hours of English courses, including first-year composition, and at least 24 semester hours at the 300-400 level.

Students minoring in English must complete at least 12 semester hours of upper-divisional (300-400) courses in addition to the composition requirement. Students in B.A. programs can acquire teacher certification in English through the E11A program. (See EDT.) For details, consult the department chairperson.

The English department awards a writing certificate to students who achieve a 3.0 grade-point average in 18 semester hours of approved writing and writing-related courses, including at least 12 semester hours of upper-divisional (300-400) courses, and who pass a final examination including an impromptu essay. For details, consult the department chairperson.

Shereen, Tuss, Wilhoit, Youngkin
Assistant Professors: Hill-Vasquez, Hughes, McCombe, Strain

COURSES OF INSTRUCTION

ENG 101. COLLEGE COMPOSITION I: Analysis of the processes of reading and writing aimed at the development and refinement of critical thinking skills, critical reading skills, and critical writing skills. Students must pass the course with a grade of "C" or higher to satisfy the University requirement in general reading and writing competencies. 3 sem. hrs.

ENG 102. COLLEGE COMPOSITION II: Study of appropriate rhetorical structures and styles for analytic, synthetic, and argumentative essays. Practice in developing critical reading and writing skills with an emphasis on writing from sources. Prerequisite: ENG 101. Students must pass the course with a grade of "C-" or higher to satisfy the University requirement in general reading and writing competencies. 3 sem. hrs.

ENG 114. FRESHMAN WRITING SEMINAR: A one-semester composition course for first-year students who show high proficiency. First term only. Open by permission only. Students must pass the course with a grade of "C-" or higher to satisfy the University requirement in general reading and writing competencies. 3 sem. hrs.

*ENG 151. INTRODUCTION TO LITERATURE: A critical study of literary forms—fiction, drama, and poetry—representative of various eras and cultures. May be taken concurrently with ENG 102. Prerequisite: ENG 101 or equivalent. 3 sem. hrs.

*ENG 198. FRESHMAN HONORS SEMINAR: Study and seminar discussion of selected literary masterworks and appropriate criticism thereof, with equal emphasis on composition. Open by permission only to first-year students in the University Honors Program. Students must pass the course with a grade of "C-" or higher to satisfy the University requirement in general reading and writing competencies. 3 sem. hrs.

*ENG 203. MAJOR BRITISH WRITERS: Study of four or five writers representative of the principal periods in English literature. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

*ENG 204. MAJOR AMERICAN WRITERS: Study of four or five writers representative of the principal periods in American literature. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.
*ENG 205. MAJOR WORLD WRITERS: Study (in translation) of four or five writers representative of the principal periods in (chiefly Western world) literature, exclusive of English and American literature. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

ENG 210. POETRY: Study of representative examples of a major literary genre. Prerequisite: ENG 102 or equivalent. 3 sem hrs.

ENG 230. TOPICS IN LITERATURE: Exploration of varying approaches to the study of literature. Can be repeated under special circumstances. Prerequisite: ENG 102 or equivalent. 1-6 sem. hrs.

ENG 242. SOPHOMORE HONORS: Seminar in which selected works from the literature of Western civilization are studied. By invitation only. 3 sem hrs.

ENG 272. EXPOSITORY WRITING: Further practice in writing expository themes and documented papers. A continuation of ENG 102 for students desiring more experience in writing. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

ENG 282. INTRODUCTION TO WRITING POETRY: A beginning course in analyzing and writing poetry. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

ENG 284. INTRODUCTION TO WRITING FICTION: A beginning course in analyzing and writing short fiction. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

ENG 286. INTRODUCTION TO WRITING DRAMA: A beginning course in analyzing and writing short plays. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

ENG 300. LITERARY ANALYSIS AND RESEARCH—POETRY: Detailed analysis of selected poems, with attention to their use of traditional forms and conventions, combined with training in standard methods of interpretation and research. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

*ENG 301. SURVEY OF EARLY ENGLISH LITERATURE: Survey of English literature from the Medieval period to the end of the 18th century. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

*ENG 302. SURVEY OF LATER ENGLISH LITERATURE: Survey of English literature from the beginning of the Romantic period to the present. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

*ENG 305. SURVEY OF AMERICAN LITERATURE: Survey of American literature from the Colonial period to the present. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

*ENG 306. SURVEY OF CONTINENTAL LITERATURE: Survey of continental European literature from Homer to the present. Not open to students who have taken ENG 322. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

EN 308. ADVANCED WRITING OF POETRY: Intensive practice in the writing of poems. Prerequisite: ENG 282 or permission. 3 sem. hrs.

ENG 310. ADVANCED WRITING OF FICTION: Intensive practice in the writing of fiction. Prerequisite: ENG 284 or permission. 3 sem. hrs.
ENG 312. ADVANCED WRITING OF DRAMA: Intensive practice in the writing of plays. Prerequisite: ENG 286 or permission.  

ENG 316. ADVANCED COMPOSITION: Intensive practice in the writing of essays and the study of rhetoric. Prerequisite: ENG 102 or equivalent.  

ENG 317. CONTEMPORARY POETRY: Study of selected poems by recent writers. Prerequisite: ENG 102 or equivalent.  

ENG 319. CONTEMPORARY FICTION: Study of selected novels and short fiction by recent writers. Prerequisite: ENG 102 or equivalent.  

ENG 320. CONTEMPORARY DRAMA: Study of selected plays to illustrate major tendencies of modern drama. Prerequisite: ENG 102 or equivalent.  

ENG 322. MASTERPIECES OF WORLD LITERATURE: Intensive study of major literary works representative of various cultures. Works are studied in translation, although an English language work or two may be included for appropriate comparison. Prerequisite: ENG 102 or equivalent.  

ENG 323. LITERATURE OF THE CHRISTIAN TRADITION: Study of literary works that form part of the Christian religious tradition. Prerequisites: ENG 102 or equivalent.  

ENG 324. THE NOVEL: Consideration of selected novels to illustrate various fictional modes. Prerequisite: ENG 102 or equivalent.  

ENG 325. SCIENCE FICTION: Survey of science fiction with detailed analysis of selected novels and short fiction. Prerequisite: ENG 102 or equivalent.  

ENG 327. STUDIES IN POPULAR FICTION: Analysis of selected artifacts of popular culture with reference to serious literature. May be repeated as topics change. Prerequisite: ENG 102 or equivalent.  

ENG 329. SHORT STORY: Study of the techniques employed in the writing of the short story. Analysis of various models of the short story. Prerequisite: ENG 102 or equivalent.  

ENG 330. DEVELOPMENT OF DRAMA: Study of the historical development of the drama from its beginnings to the 19th century. Analysis of plays from each significant period. Prerequisite: ENG 102 or equivalent.  

ENG 331. STUDIES IN FILM: Analysis of selected films to show developments in film technique or criticism. Prerequisite: ENG 102 or equivalent.  

ENG 332. STUDIES IN LITERATURE AND FILM: Studies in literary texts and the film treatments of those texts. May be repeated as topics change. Prerequisite: ENG 102 or equivalent.  

ENG 333. IMAGES OF WOMEN IN LITERATURE: Examination of significant literary works that portray traditional images of women. Prerequisite: ENG 102 or equivalent.  

ENG 334. MODERN MEN — IMAGES: Critical examination of significant literary works that portray males in traditional and non-traditional roles. Prerequisite: ENG 102 or equivalent.
ENG 335. MODERN BLACK LITERATURE: Study of selected 20th-century black writers. Prerequisite: ENG 102 or equivalent.

ENG 336. GENDER IN FICTION: Study of major works of American and British male and female authors from different periods, analyzing the authors, their principal characters, themes, and narrative technique as they reflect different aspects of the issue of gender in literature. Prerequisite: ENG 102 or equivalent.

ENG 337. STUDIES IN FOLKLORE: Selected studies in American and/or world folklore. May be repeated as topics change. Prerequisite: ENG 102 or equivalent.

ENG 338. IMAGES OF BUSINESS: Examination of the modern world of work, the image of the business “professional,” and the influence of organization on global society and values as these themes are revealed primarily in modern literature. Prerequisite: ENG 102 or equivalent.

ENG 339. AMERICAN INDIAN LITERATURE: Survey of American Indian oral narrative and literature. Prerequisite: ENG 102 or equivalent.

ENG 340. THE PRISON IN LITERATURE: Survey of prison literature from the rise of the modern prison in the late 18th-century through the contemporary period. Prerequisite: ENG 102 or equivalent.

ENG 345. COLONIAL AND POSTCOLONIAL LITERATURE: Examination of significant literary works that reveal the diversity of human cultures shaped by colonial and postcolonial contexts. Prerequisite: ENG 102 or equivalent.

ENG 348. MODERN IRISH LITERATURE: A consideration principally of the Irish literary revival of the late 19th and early 20th centuries with appropriate background material. Prerequisite: ENG 102 or equivalent.

ENG 350. EUROPEAN LITERATURE OF ANTIQUITY: Study of significant works from the Old Testament and Greek, Roman, English, Irish, and/or Scandinavian writers. Prerequisite: ENG 102 or equivalent.

ENG 351. EUROPEAN LITERATURE OF THE MIDDLE AGES: Study of selected literary masterpieces of Western civilization in the Middle Ages. Prerequisite: ENG 102 or equivalent.

ENG 353. LITERATURE OF THE RENAISSANCE: Study of selected literary masterpieces from England and the Continent that illustrate the culture and ideas of the Renaissance. Prerequisite: ENG 102 or equivalent.

ENG 354. LITERATURE OF THE ENLIGHTENMENT: Study of selected English and European literature from the Age of Reason. Prerequisite: ENG 102 or equivalent.

ENG 355. LITERATURE OF THE ROMANTIC AGE: Study of the Romantic Revolution as illustrated in representative writings of English and European authors. Prerequisite: ENG 102 or equivalent.
ENG

*ENG 356. EUROPEAN LITERATURE OF THE NINETEENTH CENTURY: Study of representative masterpieces from the literature of England and the Continent during the 19th century. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

*ENG 357. EUROPEAN LITERATURE OF THE EARLY TWENTIETH CENTURY: Study of significant English and European literature that illustrates the ideas and culture of the early modern period. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

*ENG 358. CONTEMPORARY LITERATURE OF EUROPE: Study of selected Western European literature that illustrates the ideas and culture of the present age. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

*ENG 362. SHAKESPEARE: Study of selected plays and poems of Shakespeare. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

ENG 362L. SHAKESPEARE PERFORMANCE LABORATORY: Study of Shakespearean performances through films, video tapes, and recordings. Three hours a week. Students in 362L must have already taken or be registered for ENG 362 or an equivalent Shakespeare course. 1 sem. hr.

ENG 370. REPORT WRITING: Analysis of and practice in both basic and complex written reports, including the long formal report. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

ENG 372. APPLIED WRITTEN COMMUNICATIONS: Analysis of and practice in written communications appropriate to business and industrial organizations, including forms of correspondence and a job-application project but excluding formal reports. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

ENG 376. TOPICS IN WRITING: Analysis of and practice in specific forms of writing. May be repeated as forms change. Prerequisite: ENG 102 or equivalent. 1-3 sem. hrs.

ENG 378. PROFESSIONAL AND TECHNICAL WRITING: Practice in developing writing skills needed in business, government, and industry. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

ENG 380. STUDIES IN LITERATURE: Study of special topics or themes in literature. May be repeated as topics change. Prerequisite: ENG 102 or equivalent. 1-6 sem. hrs.

*ENG 382. MOZART'S OPERAS: An interdisciplinary survey of Mozart's operas —German and Italian, serious and comic. Class discussions will be supplemented by extensive listening and/or viewing of recorded performances and, when possible, attendance at live performances. 3 sem. hrs.

*ENG 383. THE TRAGIC DILEMMA: Examination of tragedy from ancient times to modern times, with emphasis on both the form(s) of tragedy and the tragic vision of life. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

*ENG 384. CHRISTIANITY AND MODERN POETRY: A study of selected poets from the modern period whose work draws from the major literary, intellectual, cultural, and theological traditions of Christianity. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.
ENG 395. JUNIOR HONORS TUTORIAL: Independent directed study on special topics for selected students. May be repeated as topic or instructor changes. Permission required. 3 sem. hrs.

ENG 405. CHAUCER: Study of Chaucer's life, world, language, and literary achievement, concentrating on *The Canterbury Tales* (in Middle English). Prerequisite: A 200- or 300-level English course. 3 sem. hrs.

ENG 407. MEDIEVAL ENGLISH LITERATURE: Study of the dominant types in the literature of England from the beginning to 1500. Prerequisite: A 200- or 300-level English course. 3 sem. hrs.

ENG 410. EARLY RENAISSANCE LITERATURE: Survey of the literature of the 16th century from Thomas More to Sidney and Spenser. Prerequisite: A 200- or 300-level English course. 3 sem. hrs.

ENG 414. LATER RENAISSANCE LITERATURE: Survey of the literature of the early 17th century from Bacon, Jonson, and Donne to Marvell, exclusive of Milton. Prerequisite: A 200- or 300-level English course. 3 sem. hrs.

ENG 431. MILTON: Study of the major and minor poems and of selected prose of Milton. Prerequisite: A 200- or 300-level English course. 3 sem. hrs.

ENG 433. STUDIES IN NEO-CLASSICAL LITERATURE: Study of English literature from Dryden to Johnson. May be repeated as topics change. Prerequisite: A 200- or 300-level English course. 3 sem. hrs.

ENG 438. ENGLISH ROMANTICISM: Study of the major poets and critics of the Romantic Age. Prerequisite: A 200- or 300-level English course. 3 sem. hrs.

ENG 444. STUDIES IN NINETEENTH-CENTURY ENGLISH LITERATURE: Study of English literature in the 19th century. May be repeated as topics change. Prerequisite: A 200- or 300-level English course. 3 sem. hrs.

ENG 448. TWENTIETH-CENTURY BRITISH LITERATURE: Study of significant developments in modern British literature. Prerequisite: A 200- or 300-level English course. 3 sem. hrs.

ENG 451. AMERICAN ROMANTICISM: Study of significant developments in American literature of the mid-19th century. Prerequisite: A 200- or 300-level English course. 3 sem. hrs.

ENG 453. AMERICAN REALISM AND NATURALISM: Study of representative writers from the post-Civil War period in American literature. Prerequisite: A 200- or 300-level English course. 3 sem. hrs.

ENG 455. TWENTIETH-CENTURY AMERICAN LITERATURE: Study of significant developments in American literature of the 20th century. Prerequisite: A 200- or 300-level English course. 3 sem. hrs.

ENG 468. INTRODUCTION TO LINGUISTICS: Introduction to the basic concepts and procedures of general linguistics, including language description, history, variation, theory, and acquisition. Prerequisite: A 200- or 300-level English course. 3 sem. hrs.
ENG 470. HISTORY OF ENGLISH: Study of stages in the development of the English language and of influences shaping its development from the beginning to the present. Prerequisite: A 200- or 300-level English course. 3 sem. hrs.

ENG 472. THE STRUCTURE OF ENGLISH: Study of the grammatical structure of modern English from traditional and modern linguistic points of view. Prerequisite: A 200- or 300-level English course. 3 sem. hrs.

ENG 474. ARGUMENTATION: Studies and practice in the patterns of argumentative writing. Recommended for the pre-professional student. Prerequisites: ENG 272, 316, 370, or permission of instructor. 3 sem. hrs.

ENG 476. COMPOSITION THEORY: Study of the principal current theories of composition, with application to the teaching and evaluating of writing. Prerequisite: ENG 316 or permission of instructor. 3 sem. hrs.

ENG 480. INDEPENDENT STUDY: Individual investigations of special topics under faculty direction. May be repeated under special circumstances. Prerequisites: Permission and at least fifteen semester hours of English. 1-6 sem. hrs.

ENG 482. MODERN POETRY: Concentrated, advanced study in the development of modern poetry, both English and American. Prerequisite: A 200- or 300-level English course. 3 sem. hrs.

ENG 485. INTERNSHIP IN WRITING: Application of writing skills to specific projects of an approved organization. Practical and professional experience offered to juniors and seniors (particularly English majors and minors) as a supplement to the writing curriculum. May be repeated up to six semester hours. Prerequisite: Permission of supervising instructor. 1-6 sem. hrs.

ENG 488. LITERARY THEORY: Comparative critical reading of classical and modern theoretical texts and analysis of critical methodology. Prerequisite: A 200- or 300-level English course. 3 sem. hrs.

ENG 490. SEMINAR: Concentrated study of a topic designed to integrate selected aspects of literary history, critical approaches, and research skills developed by English majors in previous required courses. May be repeated as topics change. Prerequisites: ENG 300, 301, 302, 305; ENG 476 or 488. 3 sem. hrs.

ENG 495. SENIOR HONORS TUTORIAL: Independent directed study on special topics for selected students. May be repeated as topic or instructor changes. Permission required. 3 sem. hrs.

*General Education course. See Chapter V.
FAMILY DEVELOPMENT (FDV)

The interdisciplinary minor in family development increases understanding of the meaning and dynamics of marriage and parenthood in contemporary society. It examines the family as a major institution affecting society and surveys the individual, social, and economic problems found within families. This background contributes to preparation for careers in areas such as social work, psychology, education, communication, human ecology, and religious work.

The minor in family development is earned by taking 16 semester hours of coursework, all of which must be outside one’s major discipline. These must be distributed as follows:

<table>
<thead>
<tr>

No more than 6 semester hours from any one department may be applied to the minor in family development. Courses taken for this minor may be applied to other minors and to breadth and general education requirements. Appropriate courses may be substituted with permission from the office of the dean of the College of Arts and Sciences and the minor coordinator of the Center for Leadership in Community. Students wishing to be recorded as minoring in family development should notify their chairpersons, their deans, and the coordinator of the minor.

FAMILY DEVELOPMENT COMMITTEE

Brenda Donnelly, Minor Coordinator  
(Center for Leadership in Community)  
De Luca (Educational Administration), L. Majka (Sociology, Anthropology and Social Work), Huff (College of Arts and Sciences), Taylor (Sociology, Anthropology and Social Work)
The interdisciplinary minor in film studies (FLM) provides students an opportunity to explore one of the most popular and influential media of the 20th century. Students study the history, theory, and aesthetics of film and consider film from literary, philosophic, religious, economic, and creative perspectives. The minor complements many of the existing majors in the arts and sciences and enhances the academic preparation of students who are considering graduate school and/or careers in film criticism, screenwriting or film production.

The minor in film studies requires 13 hours, and includes the following courses:

**Required:** ASI 350 Interdisciplinary Film Study (1) a capstone course taken after all elective courses have been completed.

**Select four (4) of the following elective courses (12 hours):**

- ENG 331 Studies in Film (3)
- ENG 332 Studies in Literature and Film (3)
- PHL 324 Philosophy and Film (3)
- CMM 345 Classic American Film (3)
- REL 372 Religion and Film (3)
- Or other approved substitutes

Students desiring to minor in film studies should notify their respective deans and the coordinator of film studies.

**FILM STUDIES COMMITTEE**

James Farrelly (English) *Coordinator of Film Studies*
Laun (Communication), Fouke (Philosophy), Kimbrough (English),
Inglis (Philosophy), Zukowski (Religious Studies), A. Smith (Religious Studies),
Benedum (Music and Humanities Chair)
GENERAL STUDIES (GEN)

The Bachelor of General Studies program is designed for those students who desire to pursue a non-traditional degree program at the University outside of any departmental major. This degree program permits great latitude in utilizing the academic resources of the University for planning and acquiring an education to meet individual needs. Students may plan their programs to the best advantage of their particular educational objectives. Students build their programs on the foundation of University Basic Skills and General Education requirements.

BACHELOR OF GENERAL STUDIES PROGRAM (GEN)

Admission requirements for the Bachelor of General Studies are the same as those for any other degree offered in the College of Arts and Sciences.

Candidacy for the Bachelor of General Studies may be declared in the first year but not later than the commencement of a student’s last 30 hours of study. An application for acceptance into the degree program must be completed and approved by an Assistant Dean in the College of Arts and Sciences. Any students in good academic standing may request transfer into this program.

The General Studies student is required to plan an academic program to satisfy the requirements for graduation in consultation with an Assistant Dean. The General Studies student must complete a minimum of the last 30 hours of study under the supervision of an Assistant Dean who will serve as the student’s advisor. The usual policy of prerequisites remains in effect in this program.

The candidate for the degree of Bachelor of General Studies must complete 120 semester hours with an overall grade point average of 2.0 or better, including:

1. University General Competencies and Basic Skills and the General Education requirements (see Chapter V),
2. Three semester hours of mathematics selected from courses offered by the Mathematics department (excluding MTH 102, 204, 205),
3. Study of the natural sciences by completing 7 semester hours in approved natural science courses (biology, chemistry, geology, physics), including one course with accompanying laboratory,
4. A minimum of 54 semester hours of courses at the 300-400 level with a grade point average of 2.0 or better, and
5. Not more than 30 semester hours of work from any one academic discipline.
6. Credits earned in completion of the Bachelor of General Studies may not be applied at a later time to the credits for a second degree from the College of Arts and Sciences.
GEO/EVG

GEOLOGY (GEO)

Geology is the study of the earth. It incorporates many aspects of our complex planet including its composition, structure, environment, dynamic and hazardous processes, and the development of life, continents and oceans through time. Geology plays a critical role in interpreting the earth's long history of global change, and in predicting future environmental change.

The Geology department offers two programs leading to a Bachelor of Science in geology and environmental geology. The geology (GEO) major provides basic courses in the geological sciences and a range of advanced level courses that allow students to develop courses of study that complement particular interests within the field. The environmental geology (EVG) program is broad in scope, providing a firm grounding in the fundamentals of earth science as well as an interdisciplinary curriculum including Geology, Biology, Chemistry, and other allied science courses, reflecting the interdisciplinary nature of environmental concerns.

The Geology department aims to prepare students for a career in the geological sciences. Graduates of the department are competitive for entry to graduate programs. Geology majors pursue careers in a wide range of settings including: state and federal geological agencies; geological consulting companies; natural resource exploration, development and management; museums; research laboratories; and education. Environmental geologists address critical needs of our society ranging from groundwater protection and water-supply development to the identification and assessment of natural hazards.

A minor in Geology consists of 12 hours at 300-400 level, having completed the appropriate prerequisite for these courses.

COURSES OF INSTRUCTION

* GEO 103. PRINCIPLES OF PHYSICAL GEOGRAPHY: Analysis of the physical factors of the earth's environment: weather, climate, land forms, oceans. 3 sem. hrs.

GEO 104. INTRODUCTORY GEOLOGY FIELD COURSE: Fundamental earth science topics with emphasis on direct field experience. One week on campus, 3 weeks in the Rocky Mountains near Denver, Colorado, and one week of travel. For all non-geology and non-biology majors. Corequisites: BIO 104; GEO 104L or BIO 104L. 3 sem. hrs.

GEO 104L. INTRODUCTORY GEOLOGY FIELD LABORATORY: Course to accompany GEO 104. 1 sem. hr.

* GEO 109. GENERAL GEOLOGY: Introduction to the earth as a planet, its composition, structure, and evolutionary development; a brief consideration of the life of the past. For the nonscience major. May be taken without laboratory. 3 sem. hrs.

GEO 109L. GENERAL GEOLOGY LABORATORY: Course to accompany GEO 109. Two hours each week. 1 sem. hr.

* GEO 115. PHYSICAL GEOLOGY: Introductory course in geologic principles; the composition and structure of the earth, its land forms, and the agencies active in their production. Laboratory optional for nonmajors. 3 sem. hrs.

GEO 115L. PHYSICAL GEOLOGY LABORATORY: Course to accompany GEO 115. Two hours each week. 1 sem. hr.

* GEO 116. GEOLOGICAL HISTORY OF THE EARTH: A comprehensive study of earth history from its origins to the present. Prerequisites: GEO 109 or 115; permission of instructor. 3 sem. hrs.

GEO 116L GEOLOGICAL HISTORY OF THE EARTH LABORATORY: Course to accompany GEO 116. Two hours each week. 1 sem. hr.

GEO 198. GEOLOGY, LANDSCAPE, AND ENVIRONMENT OF THE MIAMI VALLEY: Field-based course examining the geologic history of the Miami Valley and Dayton area; processes leading to the modern landscape; the impact of human activity will be assessed. Prerequisite: GEO 109 or 115 or permission of instructor. 3 sem. hrs.
GEO 201. MINERALOGY: Introduction to crystallography, crystal chemistry and crystal structure. Study of the major groups of rock-forming minerals, their association and occurrence with emphasis on identification by physical properties and optical techniques. Prerequisite: GEO 109 or 115 or permission of instructor. 3 sem. hrs.

GEO 201L. MINERALOGY LABORATORY: Course to accompany GEO 201. Three hours per week. 1 sem. hr.

* GEO 208. ENVIRONMENTAL GEOLOGY: Study of the relationship of geologic factors to the problems of water supply, pollution, erosion, land use, and earth resources. Laboratory optional. Prerequisites: GEO 109 or 115, permission of instructor. 3 sem. hrs.

GEO 208L. ENVIRONMENTAL GEOLOGY LABORATORY: Course to accompany GEO 208. Two hours each week. 1 sem. hr.

* GEO 218. ENGINEERING GEOLOGY: A comprehensive study of geologic principles applicable to civil engineering practices. 3 sem. hrs.

GEO 301. STRUCTURAL GEOLOGY: The origin and development of structural features of the earth's crust; folding, faulting, volcanism, mountain building, and metamorphism. Prerequisites: GEO 115, 116, 201. 3 sem. hrs.

GEO 301L. STRUCTURAL GEOLOGY LABORATORY: Course to accompany GEO 301. Two hours each week. 1 sem. hr.

GEO 302. GLACIAL GEOLOGY: The origin of mountain and continental glaciers; their depositional features and erosive activity; history of glaciation in geologic past with special emphasis on North American Quaternary ice advances. Prerequisites: GEO 115, 116. 3 sem. hrs.

GEO 302L. GLACIAL GEOLOGY LABORATORY: Course to accompany GEO 302. Two hours each week. 1 sem. hr.

GEO 303. FIELD GEOLOGY: Study of field relationships in an area containing abundant igneous, metamorphic, and sedimentary rocks. Prerequisites: GEO 115, 116. 6 sem. hrs.

GEO 307. GEOMORPHOLOGY: Detailed study of landforms and the erosional processes that develop them. Prerequisites: GEO 115, 116. 3 sem. hrs.

GEO 307L. GEOMORPHOLOGY LABORATORY: Course to accompany GEO 307. Two hours each week. 1 sem. hr.

GEO 308. PROBLEMS AND DECISIONS IN ENVIRONMENTAL GEOLOGY: An in-depth examination of selected environmental problems and the way in which scientific information guides practice and policy. Topics will range from investigations of natural hazards to considerations of land use and water resources. Prerequisite: GEO 109 or GEO 115 or permission of instructor. 3 sem. hrs.
GEO 308L. PROBLEMS AND DECISIONS IN ENVIRONMENTAL GEOLOGY LABORATORY: Course to accompany GEO 308. Two hours each week and periodic field work. 1 sem. hr.

GEO 309. SURFACE AND GROUNDWATER HYDROLOGY: This course is designed to provide a science or engineering student with the fundamental concepts and principles central to the study of water as a resource. This will include an examination of all components of the hydrologic cycle including surface-water hydrology and management, groundwater hydrogeology, and water resource management. Prerequisite: GEO 109 or GEO 218 or permission of instructor. 3 sem. hrs.

GEO 309L. SURFACE AND GROUNDWATER HYDROLOGY LABORATORY: Laboratory exercises to accompany GEO 309. Three hours per week. 1 sem. hr.

GEO 310. STRATIGRAPHY: The interpretation of specific lithotypes and the synthesis of the stratigraphic record. Prerequisite: GEO 116. 3 sem. hrs.

GEO 310L. STRATIGRAPHY LABORATORY: Course to accompany GEO 310. Two hours each week. 1 sem. hr.

GEO 401. PALEONTOLOGY: The study of ancient life. The morphology, ecology, evolution, and stratigraphic distributions of selected invertebrates, vertebrates, and plants. 3 sem. hrs.

GEO 401L. PALEONTOLOGY LABORATORY: Course to accompany GEO 401. Two hours each week. 1 sem. hr.

GEO 403. SEDIMENTOLOGY: Detailed study of sediments: their sources, environments of deposition, and methods of consolidation. Emphasis on the interpretation of ancient sediments. Prerequisite: GEO 201. 3 sem. hrs.

GEO 403L. SEDIMENTOLOGY LABORATORY: Course to accompany GEO 403. Two hours each week. 1 sem. hr.

GEO 404. PROBLEMS IN GEOLOGY: A consideration of special problems involving advanced work in the laboratory and library; arranged to meet the needs of individual students. 1-4 sem. hrs.

GEO 411. IGNEOUS PETROLOGY: Study of the formation of igneous rocks. Prerequisite: GEO 201. 3 sem. hrs.

GEO 411L. IGNEOUS PETROLOGY LABORATORY: Course to accompany GEO 411. Two hours each week. 1 sem. hr.

GEO 412. INTRODUCTORY GEOCHEMISTRY: Study of elementary thermodynamics, aqueous geochemistry, and principles governing the distribution of trace elements, radioisotopes and stable isotopes in igneous, metamorphic and sedimentary rocks. Emphasis on applications and solution of geological problems. Prerequisite: GEO 201, or permission of instructor. 3 sem. hrs.
GEO 412L. INTRODUCTORY GEOCHEMISTRY LABORATORY: Course to accompany GEO 412. Three hours each week.

GEO 479L. ENVIRONMENTAL INSTRUMENTATION LABORATORY: The understanding and use of field and laboratory based equipment to study current environmental issues. Emphasis on team-centered approaches to investigating environmental problems. Same as BIO 479L. Prerequisites: BIO 151, 152; GEO 115, 116; or permission of instructor.

GEO 498. GEOLOGICAL RESEARCH AND THESIS: Research project within an area of the geological sciences, including, but not limited to, environmental geology, geochemistry, geomorphology, or paleontology. The results are to be presented in a written thesis. Prerequisite: Permission of instructor.

* General Education course. See Chapter V.
HST

HISTORY (HST)

History critically studies the past and those key values which have shaped society. History also provides students with a sense of perspective and with the ability to make critical judgments. Those with a sharply honed historical consciousness know that often what appears to be a simple solution to a simple problem will not work because unexpressed historical forces and traditions lie just beneath the surface. Therefore, historical consciousness helps to make the world comprehensible. To be ignorant of history is to be, in a very fundamental way, intellectually defenseless, unable to understand the workings of this or other societies. Thus all totalitarian societies have stringently controlled the study and writing of history. They recognize that a free mind needs to know its past, to debate and discuss how the world came to be as it is, in order to know what to defend and what to change and how to resist imposed ideologies.

Students majoring in history are offered a flexible curriculum that allows them to have a double major or one or more minors. Students are also strongly encouraged to develop interdisciplinary areas of concentration to meet their interests and vocational goals. Examples of areas of concentration are pre-law, business, international affairs, and historical administration, preservation, and archival management. Majors should consult the department chairperson for a departmental advising brochure and further details. History majors pursue professions in numerous fields including education, law and government, international affairs, archives and museums, communications, and business.

Students in B.A. programs can acquire teacher licensure through the E11A program (See EDT). For details, consult the department chairperson.

History minors must complete 18 semester hours as follows: HST 101 or 102, HST 251 or 252, two upper-level courses in American history, and two upper-level courses in non-American history.

Mathematics (MTH 102, 204, 205 excluded) ......................................................... 3
Natural Sciences .......................................................................................... 11
Communication competencies ...................................................................... 0-9
Introduction to the University: ASI 150 .................................................. 0-1
General Education courses and academic electives to total at least 4 ... 124

1Three credits of the seminar requirement may be achieved through the fulfillment of an
experiential component earned through completion of three credits of HST 495 Internship.
2These electives should be distributed so that the student will have taken history (HST)
electives in three geographical areas: United States, Europe, and at least one of the following:
Africa, Asia, Latin America, Middle East.
3See also Distribution Table for Bachelor of Arts programs and Chapter V for General
Education requirements.
4For History majors, this total should include either 6-8 sem. hrs. in a foreign language or 6
sem. hrs. in quantitative skills courses (e.g., computer science, statistics, or mathematics)
beyond the Basic Skills mathematics requirement. Where appropriate, this credit may apply
to other requirements as well.

FACULTY

Janet R. Bednarek, Chairperson
Professors Emeriti: Beauregard, King, Maras, Mathias, Rhee, Steiner, Taylor, Vines
Professors: Alexander, Amin, Eid, Heitmann, Hitchner, Morman,
Palermo, Schweikart
Associate Professors: Bednarek, Cadegan, Carlson, Flockerzie, Trollinger, Yungblut
Assistant Professors: Darrow, Fleischmann, Little, Santamarina
Adjunct Professor: Gannon
Lecturer: Hume

COURSES OF INSTRUCTION

NOTE: HST 101 or HST 102 or the equivalent is a prerequisite for all other HST
courses.

*HST 101. HISTORY OF WESTERN CIVILIZATION FROM ITS CLASSICAL
ROOTS TO 1715: Survey of Western civilization beginning in Antiquity and con-
cluding with the Enlightenment. The course will investigate the social, economic,
cultural, political, and environmental forces that shaped the Ancient, Medieval,
and Early Modern eras. 3 sem. hrs.

*HST 102. HISTORY OF WESTERN CIVILIZATION SINCE 1715: Survey of
Western civilization from the 18th century to the present. The course will investigate
the social, economic, cultural, political, and environmental forces that shaped
European society and the world in the modern period. 3 sem. hrs.

*HST 198. HISTORY HONORS SEMINAR: Study and seminar discussion of se-
lected historical documents dealing with major events and trends in Western
civilization since 1715. Open by permission only to first-year students in the
University Honors Program. 3 sem. hrs.

*HST 251. AMERICAN HISTORY TO 1865: Survey of the development of the
American nation from colonial times to 1865; political trends, economic and social
foundations of American institutions. 3 sem. hrs.
* HST 252. AMERICAN HISTORY SINCE 1865: Survey of the development of the nation after the Civil War, stressing social, economic, and political problems. 3 sem. hrs.

HST 300. CAREER DEVELOPMENT IN HISTORY: Exploration of career opportunities open to History majors, with special emphasis on strategic planning for a career, creating a job portfolio, and mastering the practical mechanics of job searching. Prerequisite or Corequisite: HST 301. 1 sem hr.

HST 301. RESEARCH METHODS SEMINAR: Historical methods, philosophy, and introductory historiography, the last based on the professor's field of specialization. Required for junior history majors. 3 sem. hrs.

HST 301L. RESEARCH PAPER: Requires the satisfactory completion of a research paper of 10-15 pages in length based on original historical research. The paper may be written in a History (HST) course on the 300/400 levels or, with prior permission of the chair, in conjunction with a course in another department or as an Honors Thesis. Required for all History majors. Prerequisite or Corequisite: HST 301. No Credit

* HST 302. HISTORY OF ANCIENT GREECE: Survey of Greek history and culture from the Bronze Age to Alexander the Great. 3 sem. hrs.

* HST 303. HISTORY OF THE ROMAN REPUBLIC AND EMPIRE: Survey of Roman history with emphasis on the political, social, and institutional evolution of the Roman state and the organization and structure of the Roman Empire. 3 sem. hrs.

* HST 305. MEDIEVAL EUROPE: European history from the 4th to the 15th century, including birth of Middle Ages; development of Christianity; Byzantine, Islamic, and Carolingian Empires; feudalism; Crusades; rise of universities; birth of national cultures. 3 sem. hrs.

* HST 307. RENAISSANCE AND REFORMATION: The development of European history from the 14th to the middle of the 17th century. Emphasis on the economic, political, social, and religious aspects of the Renaissance, Protestant Revolution, and Catholic Reformation. 3 sem. hrs.

HST 311. OLD REGIME EUROPE: From the later Reformation to the era of the French Revolution: intellectual and cultural development; political, economic, and social trends of the Old Regime. 3 sem. hrs.

HST 312. AGE OF DEMOCRATIC REVOLUTIONS: Historical analysis of the ideological, political, social and economic changes of the late 18th and early 19th centuries, emphasizing developments in France and Europe. 3 sem. hrs.

*HST 313. THE DUAL REVOLUTION AND ITS CONSEQUENCES - EUROPE 1815-1914: Historical analysis of nineteenth century Europe emphasizing the ideological, political, economic and social consequences of the Industrial and French revolutions, commonly known as the Dual Revolution. 3 sem. hrs.

*HST 314. MODERN EUROPE IN DECLINE—1890-1945: Historical study of the decline and fall of European civilization from the eve of World War I to the end of World War II, including an examination of political, economic, social, and cultural conditions. 3 sem. hrs.
*HST 315. EUROPE IN THE POSTWAR ERA—1945 TO THE PRESENT: Historical survey of domestic and foreign politics, economics, society, and culture in postwar Europe (East and West) from 1945 to the present. 3 sem. hrs.

HST 319. HISTORY OF LONDON: Study of the evolution of London from a small Roman town to the world’s first industrial metropolis. Particular attention to social and environmental conditions and the life of the people. 3 sem. hrs.

HST 320. EUROPEAN MILITARY HISTORY: Survey of warfare on the European continent from classical Greece through World War II emphasizing military institutions, organization, weapons, and campaigns and the role of the military in society. 3 sem. hrs.

HST 321. MODERN FRANCE: French history from the Bourbon Restoration to the present. Emphasis on political, socio-economic, and cultural factors. 3 sem. hrs.

*HST 322. HISTORY OF ENGLAND: Major forces and trends in the history of England from early medieval times to the present, including their influence on social history and literature. 3 sem. hrs.

HST 323. MODERN GERMANY: Analysis of the development of the German state from 1848 through the period of unification, Second Empire, Weimar Republic, Third Reich, the post-World War II Germanies, to the present. 3 sem. hrs.

*HST 324. COMPARATIVE NATIONALISM: Comparative study of the origins and consequences of national movements throughout the world. Attention given to the historiography of nationalism and the fate of the nation-state idea in a number of temporal, geographic, political and cultural settings. 3 sem. hrs.

HST 325. HISTORY OF RUSSIA TO 1860: History of Kievan Russia and Orthodox Christianity, the Mongol Conquest, the rise of autocracy, reforms and rebellions, revolutionary movements, and the rise of the Empire to the Crimean War. 3 sem. hrs.

HST 326. HISTORY OF THE SOVIET UNION AND ITS SUCCESSOR STATES, 1860 TO THE PRESENT: Social, political, and cultural history of Russia from the great reforms of the late empire, through the wars, revolutions, and reconstructions of the Soviet Period, to the present. 3 sem. hrs.

*HST 327. NATIONAL CULTURES OF THE SOVIET UNION AND ITS SUCCESSOR STATES: The history of the formation of the Soviet Union and of national and cultural relations between the Russians and their Slavic, Baltic, Caucasus, Central Asian, and Siberian neighbors. 3 sem. hrs.

*HST 328. HISTORY OF EASTERN EUROPE: Survey of the history of the nations lying between Germany and the Soviet Union, the Baltic and Aegean Seas, stressing medieval and early modern background as a foundation of contemporary history. 3 sem. hrs.

*HST 330. HISTORY OF EAST ASIA: Brief review of the early historical development of East Asia; study of China and Japan in the 19th and 20th centuries, emphasizing political, religious, cultural, and economic development. 3 sem. hrs.
HST 331. HISTORY OF INDIA: Survey of the development of civilization on the Indian subcontinent from the first extant records (c. 2500 BCE) to post-Independence modern India in connection with the B.A. Program in Philosophy.  
3 sem. hrs.

HST 332. MODERN CHINA AND JAPAN: Study of the economic, political, social, and cultural developments of modern China and Japan from the 18th century to the present.  
3 sem. hrs.

*HST 333. HISTORY OF THE MODERN MIDDLE EAST: Survey of the Ottoman Empire, Iran, Egypt, and the modern states of the Middle East, emphasizing the development of nationalism and the area’s role in international politics.  
3 sem. hrs.

*HST 334. HISTORY OF THE PALESTINIAN-ISRAELI CONFLICT: Study of the history of the Palestinian-Israeli conflict from its beginnings in the late nineteenth century up to the present, with emphasis on a variety of interpretations of the actions and perspectives of the different parties involved.  
3 sem. hrs.

*HST 336. HISTORY OF AFRICA TO 19TH CENTURY: Study of African history from the emergence of Africa's ancient kingdoms to the end of the trans-Atlantic slave trade in the nineteenth century.  
3 sem. hrs.

*HST 337. HISTORY OF AFRICA—19TH CENTURY TO THE PRESENT: Emphasis: colonialism and its impact, the growth of nationalism and the problems of contemporary Africa.  
3 sem. hrs.

HST 339. HISTORY OF SOUTH AFRICA: Study of South African society with emphasis on historical interpretations of the origins of segregation, economic growth, nationalism, Apartheid, Bantusans, and other issues of contemporary significance.  
3 sem. hrs.

*HST 340. HISTORY OF SCIENCE: Survey of the development of science from its origins in the ancient world to the present.  
3 sem. hrs.

*HST 341. HISTORICAL PERSPECTIVES ON SCIENCE, TECHNOLOGY, AND SOCIETY: Historical examination of the interaction of science, technology, and society from the Middle Ages to the present.  
3 sem. hrs.

*HST 342. ENVIRONMENTAL HISTORY OF THE AMERICAS: A comparison and contrast of the histories of conservationism and environmentalism in the United States, Canada and Latin America.  
3 sem. hrs.

*HST 343. HISTORY OF CIVIL ENGINEERING: Historical study of the development of civil engineering from the origins in the ancient world to the present.  
3 sem. hrs.

*HST 344. HISTORY OF SCIENCE, TECHNOLOGY, AND THE MODERN CORPORATION: Historical study of the emergence of 20th-century science-based industry.  
3 sem. hrs.

*HST 346. HISTORY OF AMERICAN AVIATION: This course will examine the influence of aviation on the American culture, economy, and military. It will also highlight the development of aviation/aerospace technology.  
3 sem. hrs.
*HST 349. TECHNOLOGY AND THE CULTURE OF WAR: Investigation of the role of invention and engineering as it has been related to defense and war throughout the ages, focusing on the interrelationship of policy, strategy, organization, and technology from a global perspective. 3 sem. hrs.

*HST 351. AMERICAN WOMEN'S AND GENDER HISTORY: Historical study of the changing roles of women in American society, including examination of men's and women's gender roles and the ways in which social, cultural, economic, legal, and political factors shape and change gender roles. 3 sem. hrs.

*HST 352. HISTORY OF THE AMERICAN FAMILY: Survey of the historical development of American family life from the colonial period to the present. 3 sem. hrs.

*HST 353. HISTORY OF WOMEN IN EUROPEAN SOCIETIES: Study of the changing roles of women in European societies from the roots of industrialization to the present. 3 sem. hrs.

*HST 354. HISTORY OF WOMEN AND GENDER IN THE MIDDLE EAST: Study of the history of the evolving roles and status of women in Middle Eastern societies, from the early modern period to the present. 3 sem. hrs.

*HST 355. AMERICAN URBAN HISTORY: Historical analysis of community life in American society: the nature and development of small towns, cities, and suburbs; communal experience, social organizations, and political culture. 3 sem. hrs.

*HST 356. COMPARATIVE HISTORY OF WOMEN IN THE THIRD WORLD: Study of the comparative histories of women in Third World societies from a global perspective, using specific case studies of women in different societies around the world. 3 sem. hrs.

*HST 357. LATIN AMERICA IN THE TWENTIETH CENTURY: Intensive examination of revolution and reaction in today's Latin America and the implications for those who formulate U.S. foreign policy. 3 sem. hrs.

*HST 358. SOCIAL AND CULTURAL HISTORY OF LATIN AMERICA: Survey of social and cultural history of Latin America and the Caribbean from pre-Columbian times to the present. Emphasis on the interaction between the European colonizer and the Amerindian and African peoples of the hemisphere. 3 sem. hrs.

*HST 360. U.S. LEGAL AND CONSTITUTIONAL HISTORY I: An analysis of the major developments in American legal and constitutional history from colonial beginnings through the Civil War. Emphasis on the relationship between the Constitution, the law, and lawyers, on the one hand, and America's economic, social and political developments, on the other. 3 sem. hrs.

*HST 361. U.S. LEGAL AND CONSTITUTIONAL HISTORY II: An analysis of the major developments in American legal and constitutional history from the Reconstruction era to the present. Emphasis on the relationship between the Constitution, the law, and lawyers, on the one hand, and America's economic, social, and political developments, on the other. 3 sem. hrs.
HST 365. AMERICAN FILMS AS HISTORY: Study of the development of American values, myths, institutions, and perspectives through the use of films as a primary source. 3 sem. hrs.

HST 369. CIVIL WAR AND RECONSTRUCTION: Remote and immediate causes of the Civil War; problems of North and South during the war; consequences of the war; efforts to create a new Union, 1865 to 1877; problems caused by those efforts. 3 sem. hrs.

* HST 370. ECONOMIC AND BUSINESS HISTORY OF THE UNITED STATES: Survey and analysis of American economic history, 1600-present, primarily through a study of American business institutions and leaders. Includes analysis of major economic theories of history as well as case studies of entrepreneurs. 3 sem. hrs.

* HST 372. HISTORY OF RELIGION IN THE UNITED STATES: Survey of religion in the United States from the colonial era to the present. Particular attention to the interaction of religion with other aspects of American society and culture. 3 sem. hrs.

HST 373. AMERICAN MILITARY HISTORY: Survey of American military affairs, including military, naval, and air campaigns, from early settlement to the present. 3 sem. hrs.

* HST 374. IRELAND AND AMERICA: Study of the cultural-historical background of both Scotch-Irish and Celtic Irish immigrants to America and how they influenced the varying contents of the dominant Anglo-Saxon Protestantism of America. 3 sem. hrs.

HST 375. DIPLOMATIC HISTORY OF THE UNITED STATES: Foundations of American foreign policy; the diplomacy of continental expansion through the 19th century; emphasis on diplomatic problems since 1898. 3 sem. hrs.

* HST 376. SOCIAL AND CULTURAL HISTORY OF THE UNITED STATES: Social and cultural development of the American people: growth of national spirit, impact of expansion, conflict over slavery, and problems of industrialization and urbanization. 3 sem. hrs.

* HST 377. CONTEMPORARY AMERICAN HISTORY: The immediate background of contemporary political, social, and economic problems, beginning with the impact of World War II on the United States. Prerequisite: HST 101 or 102 or equivalent. 3 sem. hrs.

* HST 380. NATIVE AMERICAN HISTORY: Historical and descriptive survey of the native peoples of North America. 3 sem. hrs.

* HST 382. HISTORY OF MEXICO: A survey of Mexican History from pre-Colombian civilization to the present. 3 sem. hrs.

HST 383. HISTORY OF THE CARIBBEAN: Study of the cultural, social, economic, and political history of the islands and the northern shore of South America in modern times, stressing areas that have gained independence or autonomy. 3 sem. hrs.

* HST 385. THE ATLANTIC WORLD, 1492-1800: A comparative look at the people and cultures of Europe, Africa, and the Americas who collaborated in the colonization of the Americas. Topics to be covered will include: slavery, missionary work, virgin soil epidemics, frontier wars, gender, and the invention of racial categories. 3 sem. hrs.

HST 391. AMERICAN ARCHITECTURAL HISTORY AND PRESERVATION: A career-oriented course offering a theoretical background in historical preservation
and techniques used in identification, research, and recording of historic landmarks worthy of preservation as part of the community heritage. 3 sem. hrs.

* HST 398. HISTORY OF BLACKS IN THE UNITED STATES, 1526-1900: Study of the saga of black people in the U.S. from 1526 until 1900. 3 sem. hrs.

* HST 399. HISTORY OF BLACKS IN THE UNITED STATES SINCE 1900: Study of the saga of black people in the U.S. from 1900 to the present. 3 sem. hrs.

HST 485. SEMINAR IN AMERICAN HISTORY: A reading seminar concentrating on one historical topic in American History for detailed analysis. May be repeated as topics change. Prerequisite: HST 301 or permission of department chairperson. 3 sem. hrs.

HST 486. SEMINAR IN EUROPEAN HISTORY: A reading seminar concentrating on one historical topic in European History for detailed analysis. May be repeated as topics change. Prerequisite: HST 301 or permission of department chairperson. 3 sem. hrs.

HST 487. SEMINAR IN LATIN AMERICAN HISTORY: A reading seminar concentrating on one historical topic in Latin American History for detailed analysis. May be repeated as topics change. Prerequisite: HST 301 or permission of department chairperson. 3 sem. hrs.

HST 488. SEMINAR IN AFRICAN HISTORY: A reading seminar concentrating on one historical topic in African History for detailed analysis. May be repeated as topics change. Prerequisite: HST 301 or permission of department chairperson. 3 sem. hrs.

HST 490. SEMINAR IN HISTORIOGRAPHY: A reading seminar concentrating on the various techniques and philosophies of history by which historians have done historical research. May be repeated as topics change. Prerequisite: HST 301 or permission of department chairperson. 3 sem. hrs.

HST 493. SEMINAR IN MIDDLE EASTERN HISTORY: A reading seminar concentrating on one historical topic in Middle Eastern History for detailed analysis. May be repeated as topics change. Prerequisite: HST 301 or permission of department chairperson. 3 sem. hrs.

HST 495. INTERNSHIP: Practical and professional experience through work with approved organizations such as historical societies, architectural preservation boards, and business firms. Prerequisite: Permission of supervising instructor. 3 sem. hrs.

HST 496. INDEPENDENT STUDY: The study of a special topic to be mutually selected by the student and a history professor. May be repeated once. Prerequisite: Permission of chairperson. 1-6 sem. hrs.

HST 497. HONORS TUTORIAL: The study of a special topic to be selected by the instructor. Applicants will be admitted on the basis of academic record. May be repeated once. 1-6 sem. hrs.

HST 499. TOPICS IN HISTORY: Specific subtitles and descriptions to be announced in the composite and posted in the History department office. 1-6 sem. hrs.

*General Education course. See Chapter V.
HUMANITIES STUDIES (HMS)

No major or minor concentration is available. See also Classics (CLA).

Richard P. Benedum (Alumni Chair in the Humanities), Committee Chairperson

COURSES OF INSTRUCTION

* HMS 360. LATIN AMERICA THROUGH LITERATURE: Selected readings in contemporary Latin American literature (in translation) reflecting current issues. Conducted in English. 3 sem. hrs.

HMS 410. INTERDISCIPLINARY TOPICS IN THE HUMANITIES: An examination of varying topics in the Humanities from an interdisciplinary perspective. Course may be repeated when contents vary. 1-3 sem. hrs.
HUMAN RIGHTS STUDIES (HRS)

The interdisciplinary minor in human rights provides students an opportunity to address issues related to human rights from various disciplinary approaches. The universal nature of human rights issues may directly relate to a major, while in other cases will provide an opportunity for broadening one's exposure to these important topics.

The human rights minor requires at least 19 credit hours to be taken from at least three different disciplines. At least 12 of these hours are to be taken outside the major(s). No more than 6 semester hours from any one department may be chosen from the elective pool. It is highly recommended that the required POL 333 be taken in the sophomore year. Students should consult with the Director of International Studies to ensure that the courses selected from the elective pool display a significant degree of coherence. Courses taken from this minor may be applied to other minors and to breadth and general education requirements.

*This course can be counted only when the material is appropriate to Human Rights.
The College of Arts and Sciences constantly strives to present significant, innovative learning experiences to its students. Courses and programs or activities that are interdisciplinary or multidisciplinary and, therefore, not offered through the traditional department structure are possible through authorization by the Academic Affairs Committee of the College.

All ASI credit applies toward the student's general elective requirements. A student may petition the chairperson of a department to apply credit to specific departmental requirements.

Additional information is available in the office of the dean of the College of Arts and Sciences.

COURSES OF INSTRUCTION

* ASI 111-112. CORE INTEGRATED STUDIES: THE ROOTS AND DEVELOPMENT OF MODERN CULTURES AND VALUES: Two integrated history, philosophy, and religious studies introductory courses especially designed for the CORE Program, parallel with first-year CORE courses in English. The first six-hour segment (ASI 111) covers ancient civilizations through early modern civilization. The second six-hour segment (ASI 112) continues from the Enlightenment to the contemporary period. (Completion of ASI 111 counts as completion of HST 101 and REL 103; completion of ASI 112 counts as completion of HST 102 and PHL 103.) Prerequisites: Admission to the CORE Program for ASI 111; completion of ASI 111 for ASI 112. 6 sem. hrs. each

ASI 150. INTRODUCTION TO THE UNIVERSITY: Examination of the values that inform academic progress in the College; discussion of strategies for taking full advantage of academic opportunities and integrating formal and experiential learning. 1 sem. hr.

ASI 201. PERSONAL VALUE DEVELOPMENT: Exploration of the conceptual framework of value development. Application of concepts in such personal decision making as educational and career planning, developing satisfying personal relationships, and using time productively. 2 sem. hrs.

ASI 203. THE DAYTON COMMUNITY: An interdisciplinary social science course describing and analyzing the nature of community issues and problems of the Dayton area; various approaches to addressing local concerns including public, private and citizens initiatives are explored. 3 sem. hrs.

ASI 214. DRAMATIC KINESICS IN A FOREIGN LANGUAGE: Corrective work in foreign language sound and gesticulatory patterns accomplished by enacting scenes from a play in the language. May be repeated in one language in successive stages of difficulty up to 3 sem. hrs. Registration may be retroactive. Prerequisites: Basic instruction in the language; permission of instructor. 1 sem. hr.
ASI 228. FOCUS ON WOMEN: Interdisciplinary seminar on the changing roles and status of women. Requirement for women's studies minors. May be repeated since topics change yearly.  

1 sem. hr.

ASI 305. APPALACHIAN STUDIES: Appalachian history and its influence on the present; problems of recent events; influence of local government and federal programs on the people; economic problems of underprivileged people and the future of industrial development; ecology of the region; literature, art, and music; psychology of social change and community development in the underdeveloped regions; health and mental health; problems of the Appalachian migrant.  

3 sem. hrs.

ASI 350. INTERDISCIPLINARY FILM STUDY: A capstone course in the film studies minor. Interdisciplinary study of film from religious, philosophical, literary, creative, technological and institutional perspectives. Requirement for film studies minors. Prerequisites: Any combination of four (12 sem. hrs.): REL 372, PHL 324, ENG 331, ENG 332, CMM 345, or other approved substitutes.  

1 sem. hr.

ASI 390. SOCIAL JUSTICE IN LATIN AMERICA: This course adopts an interdisciplinary, highly experiential approach to the topic of social justice in Latin America by focusing on the social, theological and ethical dimensions of justice. Taught on-site in Latin America. Prerequisite: SPN 201 or equivalent, or permission of the instructor.  

3 sem hrs.

ASI 395. INTERNSHIP IN SCIENCE: Application of scientific knowledge to specific projects in an approved organization. Applied-knowledge experience open to juniors and seniors as a supplement to their science curriculum. Permission of the internship director in the student's major department is required.  

1-3 sem. hrs.

ASI 398. SPECIAL TOPICS IN INTERNATIONAL DEVELOPMENT: Study of political, philosophical, historical, and economic questions associated with developing countries. Topics determined by an interdisciplinary team. Required for the minor in international development. Second term.  

3 sem. hrs.

ASI 399. INTERDISCIPLINARY TOPICS: Study of special topics or themes of an interdisciplinary nature. Specific subtitles announced in composite. May be repeated as topics change.  

3 sem. hrs.

ASI 404. APPLIED STUDY IN COMMUNITY ISSUES: An advanced seminar that generates applied social science research related to contemporary social problems and public policy-making in the Dayton area. Students participate in research teams to assist government agencies in defining and analyzing critical social conditions (under supervision of faculty from various disciplines). Prerequisite: Instructor permission required.  

3 sem. hrs.

ASI 448. SEMINAR IN FAMILY DEVELOPMENT: Interdisciplinary examination of issues relating to family relationships, changes in family life, and the social context of family life. Required of family development minors. Prerequisite: 12 sem. hrs. completed in the minor.  

1 sem. hr.
ASI 498-499. HONORS THESIS: Selection, design, investigation, and completion of an independent, original research thesis under the guidance of a faculty research director. Restricted to students in the University Honors Program with permission of the program director. Prerequisite or corequisite: ASI 498 for ASI 499.

3 sem. hrs. each

*General Education course. See Chapter V.
INTEGRATED NATURAL SCIENCE (SCI)

Integrated Natural Science is a sequence of General Education science courses aimed at achieving scientific literacy for those students not majoring in science or engineering. It is an integrated sequence with each course building on the previous course(s). The courses are arranged in two tracks and the student may choose between the two tracks. Each track contains fundamental knowledge from the natural sciences, but each has a different emphasis. The first course (SCI 190: The Physical Universe, taught by the Physics Department) is a foundation course for both tracks and it covers the basic principles of physical science. After taking SCI 190, the student has a choice of whether to proceed along Track I (The Human Environment Track), which consists of chemistry (SCI 220: The Chemical World) and biology (SCI 240: Organisms, Evolution & Health), or along Track II (The Global Environment Track), which consists of geology (SCI 210: The Dynamic Earth) and biology (SCI 230: Organisms, Evolution & Environment). After SCI 190, the Human Environmental Track features the molecular foundations of chemistry and biology, starting with the molecular view of matter and the chemistry of life processes, SCI 220. The third course in this track SCI 240, emphasizes molecular biology and health related biological issues. After SCI 190, the Global Environmental Track goes into SCI 210, which considers the evolution of the earth, chemical evolution on the early earth, the origin of life, and environmental earth issues. The third course is SCI 230, which emphasizes ecology and environmental biological issues. Each course in this integrated science sequence has an associated laboratory course. Students may choose any two laboratory courses from the three offered in the selected track.

COURSES OF INSTRUCTION

* SCI 190. THE PHYSICAL UNIVERSE: An introduction to physical science which uses cosmological evolution as a unifying theme. Emphasis will be on concepts and scientific thought processes in dealing with the fundamental principles in physics involved in the Big Bang to planetary evolution.  
  3 sem. hrs.

SCI 190L. THE PHYSICAL UNIVERSE LABORATORY: A laboratory to accompany SCI 190. Exercises chosen to correlate with the material in SCI 190. One 2-hour laboratory per week.  
  1 sem. hr.

* SCI 210. THE DYNAMIC EARTH: A course providing an introduction to the Earth, with an emphasis on fundamental concepts in geology and the interdisciplinary nature of geology. For the non-science major. Prerequisite: SCI 190.  
  3 sem. hrs.

SCI 210L. THE DYNAMIC EARTH LABORATORY: Laboratory to accompany SCI 210. For the non-science major. Prerequisite or corequisite: SCI 210.  
  1 sem. hr.

* SCI 220. THE CHEMICAL WORLD: Introduction to the experimental nature of chemistry. Attention is focused on the microscopic view of matter, addressing topics that lead into the study of biological chemistry. Prerequisite: SCI 190.  
  3 sem. hrs.
SCI 220L. THE CHEMICAL WORLD LABORATORY: A laboratory course to accompany SCI 220. One 2-hour laboratory per week. Prerequisite or corequisite: SCI 220.  

*SCI 230. ORGANISMS, EVOLUTION & ENVIRONMENT: An evolutionary approach to the relationship between living organisms and their environments. This survey of basic concepts in biology continues the evolutionary theme of the two prerequisite courses. Prerequisites: SCI 190, 210 or permission of instructor.  

1 sem. hr.

SCI 230L. ORGANISMS, EVOLUTION & ENVIRONMENT LABORATORY: Laboratory exercises to accompany SCI 230. One 2-hour laboratory per week. Prerequisite or corequisite: SCI 230.  

1 sem. hr.

*SCI 240. BIOLOGY AND HUMAN HEALTH: A chemical and molecular approach to biology with emphasis on biomedical science and a focus on human health and disease. Prerequisites: SCI 190, 220 or permission of instructor.  

3 sem. hrs.

SCI 240L. BIOLOGY AND HUMAN HEALTH LABORATORY: Laboratory exercises to accompany SCI 240. One 2-hour laboratory per week. Prerequisite or corequisite: SCI 240.  

1 sem. hr.

*General Education course. See Chapter V.
INTERNATIONAL DEVELOPMENT STUDIES (IND)

The interdisciplinary minor in international development studies provides students of all majors with an understanding of Third World development as a perspective from which to view their majors. It gives students the cultural, historical, and political sensitivity required for working effectively in the interest of developing countries. Students who pursue the minor are encouraged to participate in the immersion experience, an opportunity to do independent study in their major disciplines in a developing country. Competence in speaking an appropriate foreign language is expected.

The minor in international development studies consists of 15 semester hours of courses, of which 12 semester hours are upper divisional (300-level or above).

These are distributed as follows:

<table>
<thead>
<tr>
<th>Required courses</th>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASI 398</td>
<td>Special Topics in International Development</td>
</tr>
<tr>
<td>ANT 150</td>

</tbody>
</table>

Other appropriate courses may be substituted with the approval of the director. Students wishing to qualify for the international development studies minor must declare this intention to the director and their respective deans by the mid-point of the junior year.

INTERNATIONAL DEVELOPMENT STUDIES
ADVISORY COMMITTEE

Philip Aaron, S.M., Director, International Development Studies
Geiger (Biology), Karns (Political Science), Ensalaco (International Studies), Payne (Philosophy)
INTERNATIONAL STUDIES (INS)

International studies is a multidisciplinary major designed to meet the needs of students interested in acquiring a broadly based international perspective for eventual careers in fields such as government service, international law, teaching, and social service. The curriculum includes a core of required courses, a concentration (Europe, Latin America, Global Development, and Human Rights), a foreign language requirement, and additional hours of course work drawn from the multidisciplinary elective pool.

Majors are also required to include an international and/or cross-cultural experiential component in their program. This may be satisfied through study abroad, internship, immersion, service, or work. The Center for International Programs can assist students in identifying opportunities.

For a minor in International Studies, 21 semester hours are required. The minor consists of POL 214, ECO 204, a 202 or higher language course, and 12 additional hours of upper-level courses in at least 3 different disciplines, taken from International Studies concentrations or electives.

1See also Distribution Table for Bachelor of Arts programs and Chapter V for General Education requirements. Appropriate courses required for this multidisciplinary major may also be used to complete the Liberal Studies Curriculum.

The major in international studies consists of a minimum of 55 semester hours of coursework distributed as follows:

Required courses
ECO 203, ECO 204, POL 202, POL 214, HST 102 or 198, INS 395 or 495. And two of the following courses: ECO 450, ECO 460, ECO 461, POL 410, POL 455.

Concentration (18-19 semester hours)
Each major must select one of the following four concentrations, which must correspond with the foreign language chosen.

Latin America: The following four courses: HST 357; POL 323; POL 404; SPN 342; One of the following: ASI 398, ECO 460, POL 457, REL 358; One of the following: HST 358, HST 382, HST 384.
Europe: HST 315 and POL 321;
One of the following: HST 313, HST 314, HST 353;
One of the following: HST 321, HST 322, HST 323, POL 320, POL 327;
One of the following: HST 326, POL 409;
One of the following: ENG 357, ENG 358, PHL 353, PHL 354, PHL 358, PHL 359, PHL 360, VÄH 203, FRN 362, ITA 362, GER 362, SPN 362.

Global Development:
Three of the following: ASI 398, BIO 395, ECO 460, POL 471;
One of the following: HST 337, HST 339, HST 357, HST 358;
One of the following: ANT 406, POL 457, SOC 328, ECO 461;
One of the following: REL 300, REL 358, REL 376, REL 472
PHL 355, PHL 356, PHL 363, PHL 372.

Human Rights:
Take: POL 333, PHL 371, and INS 433;
Two of the following: REL 363, SOC 339, SOC 368, and POL 450;
One of the following: ENG 340, GER 350/450*, HST 358, HST 398/99, SPN 342, SPN 472*;
One of the following: ASI 390, ASI 398, SOC 328, SOC 342, SWK 325, SWK392*;
One of the following: REL 367, REL 471, REL 474, PHL 370.

Language (6 semester hours)
A student majoring in international studies must complete at least 6 semester hours of upper-level foreign language instruction in one of the following languages: French, German, Italian, Russian, Spanish. Foreign language literature in translation courses do not fulfill this requirement. Also, these 6 semester hours may not duplicate upper-level foreign language courses taken to fulfill the requirement of 9 semester hours drawn from the elective pool.

Experiential Requirement (1-4 semester hours)
INS majors must include an international and/or cross-cultural experiential component in their program prior to graduation. This requirement can be satisfied through participation in a study abroad program, an internship, immersion, service, or work experience. The experience must be for a minimum of four weeks. This experiential component also requires taking either INS 395 or INS 495.

Electives (9 semester hours)
The remaining 9 semester hours are to be chosen from the concentrations or from the following elective pool:

|---------|----------------|-----|------|-----|-----|----------------|----------------|-----|----------------|----------------|---------|---------|----------------|
Any upper-level foreign language course (French, German, Italian, Russian, Spanish). With permission, other courses including special topics courses and independent study.

INTERNATIONAL STUDIES POLICY COMMITTEE

Mark Ensalaco, Director, International Studies
Aaron (International Studies), Bilocerkowycz (Political Science), Carlson (History), Huff (Arts & Sciences), Karns (Political Science), Krugh (Languages), O'Meara (Languages)

COURSES OF INSTRUCTION

INS 390. MODEL UNITED NATIONS: Examination of the work and procedures of the United Nations and its constituent bodies, study of various international issues and policies of member states, as well as of parliamentary diplomatic practices such as caucusing, resolution writing, and speech making in preparation for participation in Model United Nations simulations. Prerequisite: Permission of instructor.

INS 395. INTERNATIONAL EXPERIENCE: Orientation for and evaluation of study abroad, internship, immersion, work, or service experience in a foreign country, organization involved in international activities, or a cross-cultural setting in the United States. Grading option two only.

INS 399. INDEPENDENT STUDY: Independent reading and research on an interdisciplinary topic in international studies chosen by the student in consultation with one or more faculty members. May be repeated. Prerequisite: Permission of program director.

INS 433. SEMINAR ON HUMAN RIGHTS SERVICE: An integrating seminar to guide reflection on the learning experience, future human rights and humanitarian challenges, and opportunities for service. Required for human rights minor and for INS human rights concentration. Prerequisites: POL 333 or PHL 371; junior standing.

INS 495. INTERNATIONAL STUDIES INTERNSHIP: Practical, supervised experience with an approved organization dealing with international affairs. Repeatable up to six hours. Prerequisite: Permission of program director.
LANGUAGES

The Department of Languages offers courses in modern languages, French, German, Italian, Russian, and Spanish, as well as in Latin. The language programs include instruction in the communicative skills, literature, linguistics, and culture. The department also offers some literature and culture courses taught in English (see CLA and HMS) and Dramatic Kinesics in a Foreign Language. (See ASL.)

The Department of Languages conducts one-month study programs especially for language students in Canada, Germany, Mexico, and Spain. Language courses may also be offered through the Interdepartmental Summer Study Abroad Program. (ISSAP) (See Chapter X.)

Students in B.A. programs can acquire teacher certification in French, German, or Spanish through the E11A program. (See EDT.) For details, consult the department chairperson.

Advanced placement based on high school study or study in foreign countries is regularly awarded. New students with previous language learning experience are placed into the appropriate course by the results of the departmental placement/proficiency examination.

A language major may choose a major in a single language (French, German, Spanish) or a composite major in two languages.

A student may minor in French, German, Italian, or Spanish by completing 12 semester hours of upper-level (300-400) courses.

Major in a Single Language

Upper-level courses to total 24 semester hours:

311 or 312 and 321 or 322; or 313 and 314 ...................................................... 6

Two courses, including at least one in literature,

from the following: 341, 342, 360, 361, 362, 363, 364, 381, 450, 451, 452, 471, 472 ...................................................... 6

Upper-level electives in the major ................................................................. 12

(Only one literature in translation course may count toward the major)²

Composite Major in Languages

Upper-level courses to total 24 semester hours distributed between two languages.

Courses must include at least one three-semester-hour literature course, not including literature in translation. (Only one literature in translation course may count toward the major.)

Education requirements.

FACULTY

Arthur D. Mosher, Chairperson
Professor Emeritus: Conard
Associate Professors: Castro, Cavour, Krugh, Mosher, O'Meara, Peñas-Bermejo,
Romagueria
Assistant Professor: Chiodo
Lecturers: Bredestege, Fogel, E. Hatch, E. L. Hatch

COURSES OF INSTRUCTION

Placement in a course is determined on the basis of a student's background and
proficiency in the language. Therefore, the prerequisite for each course indicates the
proficiency level required for enrollment.

LNG 330. PRE-SECONDARY FOREIGN LANGUAGE EDUCATION: An introduc-
tion to the pedagogical, philosophical, and psychological aspects of teaching
foreign languages, with emphasis on pre-secondary students. Topics: technology,
national and state standards, learners with special needs, reading in the foreign
language, and professional associations. Fee. Prerequisite: at least one 300-level
course in the language to be taught, EDT 110, 100. 3 sem. hrs.

LNG 468. INTRODUCTION TO LINGUISTICS: Survey of the various aspects of a
scientific description of human language: phonetics, phonology, morphology,
syntax, semantics, and pragmatics. Interdisciplinary exploration of the reciprocal
impact of linguistics on psychology, sociology, and language acquisition theory.
Prerequisites: ENG 102; CMM 101 or equivalent. 3 sem. hrs.

FRENCH

FRN 101-102. BEGINNING FRENCH I, II: Development of fundamental commu-
nication skills in reading, listening, writing, and speaking through extensive prac-
tice in language use. Admission to 101 restricted to those who have not studied
French or have placed into that course by examination; 102 is open only to those who
have successfully completed 101 at the University of Dayton. Credit is for only ONE
of the following: 101-102 OR 111 OR 121. Prerequisites: none for 101; 101 is required
for 102. 3 sem. hrs. each.
FRN 101C. BEGINNING CONVERSATION PRACTICE IN FRENCH I: Practice in speaking French on the most basic level. Corequisite: FRN 101 or permission. 1 sem. hr.

FRN 102C. BEGINNING CONVERSATION PRACTICE IN FRENCH II: Practice in speaking French in everyday situations. Corequisite: FRN 102 or permission. 1 sem. hr.

FRN 111. INTENSIVE BEGINNING FRENCH: Intensive development of fundamental communication skills in reading, listening, writing, and speaking through extensive practice in language use. Admission restricted to those who have not studied French. Recommended for those who have had successful experience learning another language. Credit granted for only ONE of the following: 101-102 OR 111 or 121. 6 sem. hrs.

FRN 120. INTENSIVE ELEMENTARY FRENCH: Basic elements of the French language with emphasis on development of essential linguistic survival skills in a French-speaking country. Offered only in connection with ISSAP or another UD study abroad program. 3 sem. hrs.

FRN 121. ELEMENTARY FRENCH: Review and further development of fundamental communication skills in reading, listening, writing, and speaking. Admission restricted to those who have studied the language for at least two years in high school or the equivalent and place into the course by examination. Credit granted for only ONE of the following: 101-102 OR 111 OR 121. 4 sem. hrs.

FRN 141. BASIC PROFICIENCY IN FRENCH: Further development of communication skills in reading, listening, writing, and speaking. Admission by examination or successful completion of 102 or 111 or 121. Successful completion of this course includes the demonstration of the minimal level of proficiency required for the College of Arts and Sciences' Liberal Studies Curriculum. 3 sem. hrs.

FRN 141C. BASIC SPEAKING PROFICIENCY IN FRENCH: Further development of speaking skills. Corequisite: FRN 141 or permission. 1 sem. hr.

FRN 201-202. INTERMEDIATE FRENCH I, II: Development of listening, speaking, reading, and writing skills. Language laboratory required. Prerequisites: FRN 141 for 201; FRN 201 for 202. 3 sem. hrs. each

FRN 226. BASICS OF COMPUTER FRENCH: Introduction to French computer vocabulary and expressions and to the literature and status of the information sciences in France. Translation of articles and advertisements in the field from French to English. Prerequisite: FRN 202. 1 sem. hr.

FRN 270. INTERMEDIATE STUDY ABROAD: Intermediate intensive study in a foreign country/region whose everyday language is French. Instruction in language, culture and civilization. Conducted in French. Available only during the summer session. Repeatable when subtitle and content change. Prerequisite: FRN 141 or equivalent. 1-7 sem. hrs.

FRN 290. FRENCH GRAMMAR AND SYNTAX: Systematic review of basic grammatical concepts necessary for communicating effectively in French. Extensive practice in analyzing, producing, and explaining correct grammatical structures. Strongly recommended for prospective teachers. Prerequisite: FRN 202. 3 sem. hrs.
FRN 311-312. FRENCH CONVERSATION I, II: Intensive practice in speaking French to develop oral communication skills. Emphasis on vocabulary development, listening comprehension, simulation of life-like situations, and discussions on French life and culture. May be taken in either sequence. Prerequisite: FRN 202.

FRN 321-322. FRENCH COMPOSITION I, II: Practice in composition on topics dealing with French life and culture. Systematic vocabulary enrichment, refinement of grammar, and assimilation of stylistic patterns. Emphasis on correct writing and creativity. Initiation into the concept of style in French prose. May be taken in either sequence. Prerequisite: FRN 311 or 312.

FRN 325. INTRODUCTION TO COMMERCIAL FRENCH: Introduction to French business and the French position in international trade. Basic vocabulary of the office and the world of trade, introduction to formal correspondence and transactions. Prerequisite: FRN 311 or 312.

FRN 326. ADVANCED COMPUTER FRENCH: Intensive practice of translation from English to French and French to English of professional and technical computer-related literature from such fields as business, computer science, and education. Prerequisites: FRN 226; 311 or 312.

FRN 331. FRENCH PHONETICS AND DICTION: Formation of the sounds of French, rules of pronunciation, use of phonetic transcription, practical exercises in interpretive reading. Recommended for French majors and required for prospective teachers. Prerequisite: FRN 311 or 312.

FRN 341. FRENCH CULTURE AND CIVILIZATION: Introduction to the history of French civilization with emphasis on the arts and life in each major cultural period. Recommended for all French majors and minors. Prerequisite: FRN 311 or 312.

FRN 350. FRENCH LITERATURE IN TRANSLATION: Course to acquaint nonmajors and nonminors with major French writers and literary movements. Conducted in English. Repeatable when subtitle and content change. No prerequisite.

FRN 352. OLD WORLD AND NEW (ENG): Readings of (1) non-fictional narratives regarding French encounters with American Indians in the 16th and 17th centuries and (2) literary and philosophical works on this topic. Conducted in English. No prerequisite.

FRN 360. EXPLICATION DE TEXTES: Introduction to method of analyzing literary texts, both prose and poetry. Elements of French versification. Recommended for all French majors and prospective teachers. Prerequisite: FRN 311 or 312.

FRN 361-362. SURVEY OF FRENCH LITERATURE I, II: Major texts, trends, authors from the Middle Ages to the present, showing influences and continuity. Lectures, discussions, oral and written reports. Recommended for all French majors and prospective teachers. May be taken in either sequence. Prerequisite: FRN 311 or 312.
FRN 370. ADVANCED STUDY ABROAD: Advanced intensive study in a foreign country/region whose everyday language is French, treating its language, culture, and civilization. Conducted in French. Available only during the summer session. Repeatable when subtitle and content change. Prerequisite: FRN 202 or equivalent. 1-7 sem. hrs.

FRN 381. HISTORY OF FRENCH CINEMA: A survey of the trends, styles, and principal directors in the history of French cinema. Discussion of personal, social, and cultural values portrayed in films. Prerequisite: FRN 311 or 312. 3 sem. hrs.

FRN 425. ADVANCED COMMERCIAL FRENCH: Intensive study of business in France. Emphasis on specialized vocabulary, style, and syntax in commercial correspondence and accurate translation of current documents related to business and publicity. Prerequisites: FRN 321 or 322. 3 sem. hrs.

FRN 450. FRENCH LITERATURE: Lectures and discussion concentrating on specialized genres, periods, or authors. Repeatable when subtitle and content change. Prerequisite: FRN 311 or 312. 3 sem. hrs.

* FRN 452. OLD WORLD MEETS NEW: Readings of (1) non-fictional narratives regarding French encounters with American Indians in the 16th and 17th centuries and (2) literary and philosophical works on this topic. Conducted in French. Prerequisite: FRN 311 or 312. 3 sem. hrs.

FRN 469. FRENCH LINGUISTICS: A synchronic analysis of modern French language, including a contrast of the French sound system, morphology, and syntax with English structures; the historical derivation of French, creolization, and approaches to teaching French to English-speakers. Conducted in French. Prerequisites: LNG 468 and FRN 311 or 312. 3 sem. hrs.

FRN 491. INDEPENDENT STUDY: Independent research project under the guidance of an instructor. Admission to project and number of semester hours require approval of the chairperson. Prerequisites: FRN 202 and permission. 1-3 sem. hrs.

**GERMAN**

GER 101-102. BEGINNING GERMAN I, II: Development of fundamental communication skills in reading, listening, writing, and speaking through extensive practice in language use. Admission to 101 restricted to those who have not studied German or have placed into that course by examination; 102 is open only to those who have successfully completed 101 at the University of Dayton. Credit is for only ONE of the following: 101-102 OR 111 OR 121. Prerequisites: none for 101; 101 is required for 102. 3 sem hrs. each

GER 101C. BEGINNING CONVERSATION PRACTICE IN GERMAN I: Practice in speaking German on the most basic level. Corequisite: GER 101 or permission. 1 sem. hr.

GER 102C. BEGINNING CONVERSATION PRACTICE IN GERMAN II: Practice in speaking German in everyday situations. Corequisite. GER 102 or permission. 1 sem. hr.
GER 111. INTENSIVE BEGINNING GERMAN: Intensive development of fundamental communication skills in reading, listening, writing, and speaking through extensive practice in language use. Admission restricted to those who have not studied German. Recommended for those who have had successful experience learning another language. Credit granted for only ONE of the following: 101-102 OR 111 OR 121. 6 sem. hrs.

GER 120. INTENSIVE ELEMENTARY GERMAN: Basic elements of the German language with emphasis on development of essential linguistic survival skills in a German-speaking country. Offered only in connection with ISSAP or another UD study abroad program. 3 sem. hrs.

GER 121. ELEMENTARY GERMAN: Review and further development of fundamental communication skills in reading, listening, writing, and speaking. Admission restricted to those who have studied the language for at least two years in high school or the equivalent and place into the course by examination. Credit granted for only ONE of the following: 101-102 OR 111 OR 121. 4 sem. hrs.

GER 141. BASIC PROFICIENCY IN GERMAN: Further development of communication skills in reading, listening, writing, and speaking. Admission by examination or successful completion of 102 or 111 or 121. Successful completion of this course includes the demonstration of the minimal level of proficiency required for the College of Arts and Sciences' Liberal Studies Curriculum. 3 sem. hrs.

GER 141C. BASIC SPEAKING PROFICIENCY IN GERMAN: Further development of speaking skills. Corequisite: GER 141 or permission. 1 sem. hr.

GER 201-202. INTERMEDIATE GERMAN I, II: Systematic grammar review. Increased use of the language in written exercises and classroom discussions based on readings. Exposure to the development of German civilization and culture. Prerequisites: GER 141 for 201; GER 201 for 202. 3 sem. hrs. each

GER 311-312. GERMAN CONVERSATION: Intensive drill to develop communication skills: vocabulary development, pattern drills, and use of idioms in discussions and oral reports centered on German daily life and culture. May be taken in either sequence. Prerequisite: GER 202. 3 sem. hrs. each

GER 321-322. GERMAN COMPOSITION I, II: Practice in writing German on a variety of topics. Systematic grammar review and vocabulary enrichment. Short stories and periodicals are read and discussed to provide models, topics, and information. May be taken in either sequence. Prerequisite: GER 311 or 312. 3 sem. hrs. each

GER 325. COMMERCIAL GERMAN: Introduction to the business language and customs and the economic profile of the German-speaking countries. Basic vocabulary of the office and the world of trade, introduction to formal business correspondence and transactions. Prerequisite: GER 311 or 312 or the equivalent. 3 sem. hrs.

*GER 341. GERMAN CULTURE AND CIVILIZATION: Introduction to German culture and civilization with emphasis on the arts, intellectual developments, and life in various periods of German history. Conducted in German. Prerequisite: GER 311 or 312. 3 sem. hrs.

GER 350. GERMAN LITERATURE IN TRANSLATION: Course to acquaint nonmajors and nonminors with major German writers and literary movements. Conducted in English. Repeatable when subtitle and content change. No prerequisite. 3 sem. hrs.
* GER 361-362. SURVEY OF GERMAN LITERATURE I, II: German literature and its development from 1750 A.D. to the present. Study of exemplary works and literary movements. May be taken in either sequence. Prerequisite: GER 311 or 312. 3 sem. hrs. each

GER 370. STUDY ABROAD: Intensive study in a foreign country whose everyday language is German, treating the culture and civilization of the country. Conducted in German. Available only during the summer session. Repeatable when subtitle and content change. Prerequisite: GER 202. 1-6 sem. hrs.

GER 450. GERMAN LITERATURE: Lectures and discussions in German in such specialized areas as Medieval lyric, Romanticism, 20th-century novel, modern drama, and individual authors. Repeatable when subtitle and content change. Prerequisite: GER 311 or 312. 3 sem. hrs.

GER 469. GERMAN LINGUISTICS: A synchronic analysis of modern German language, including a contrast of the German sound system, morphology, and syntax with English structures; the historical derivation of German, the modern German dialects, and approaches to teaching German to English-speakers. Conducted in German. Prerequisites: LNG 468 and GER 311 or GER 312. 3 sem. hrs.

GER 491. INDEPENDENT STUDY: Independent research project under the guidance of an instructor. Admission to project and number of sem. hrs. require approval of chairperson. Prerequisites: GER 202 and permission. 1-3 sem. hrs.

HINDI

HND 101-102. BEGINNING HINDI I, II: Development of fundamental communication skills in reading, listening, writing, and speaking through extensive practice in language use. Admission to 101 restricted to those who have not studied Hindi or have placed into that course by examination; 102 is open only to those who have successfully completed 101. Offered only in India in connection with the B.A. Program in Philosophy. Credit is granted for only ONE of the following: HND 101-102 OR HND 121. 3 sem hrs. each

HND 121. ELEMENTARY HINDI: Review and further development of fundamental communication skills in reading, listening, writing, and speaking. Admission restricted to those who have studied the language for at least two years and place into the course by examination. Offered only in India in connection with the B.A. Program in Philosophy. Credit granted for only ONE of the following: HND 101-102 OR HND 121. 4 sem. hrs.

HND 141. BASIC PROFICIENCY IN HINDI: Further development of communicatin skills in reading, listening, writing, and speaking. Admission by examination or successful completion of HND 102 or HND 121. Successful completion of this course includes the demonstration of the minimal level of proficiency required for the College of Arts and Sciences' Liberal Studies Curriculum. Offered only in India in connection with the B.A. Program in Philosophy. 3 sem. hrs.

HND 201-202. INTERMEDIATE HINDI, II. Review of the essentials of grammar, intensive conversation and comprehension exercises, reading of graded modern prose and poetry; brief essays in Hindi. Offered only in India in connection with the
B.A. Program in Philosophy. Prerequisite: Previous study of elementary Hindi in school or elsewhere; ability to speak, read, understand and write simple Hindi; HND 141 for 201; HND 201 for 202.

3 sem. hrs. each

ITALIAN

ITA 101. BEGINNING ITALIAN: Development of fundamental communication skills in reading, listening, writing, and speaking through extensive practice in language use. No previous study of Italian is presupposed. 4 sem. hrs.

ITA 101A-101B. BEGINNING ITALIAN I & II: Development of fundamental communication skills in reading, listening, writing, and speaking through extensive practice in language use. Prerequisites: None for ITA 101A; ITA 101A or the equivalent for ITA 101B. 2 sem hrs. each

ITA 120. INTENSIVE ELEMENTARY ITALIAN: Basic elements of the Italian language with emphasis on listening, speaking, reading, and writing skills. Practice in using the language in everyday situations. Introduction to grammatical structures. Offered only in Italy through ISSAP. No prerequisite. 3 sem. hrs.

ITA 141. BASIC PROFICIENCY IN ITALIAN: Further development of communication skills in reading, listening, writing, and speaking. Admission by the successful completion of 101 or permission. Successful completion of this course includes demonstration of the minimal level of proficiency required for the College of Arts and Sciences' Liberal Studies Curriculum. Prerequisites: successful completion of ITA 101 or permission: 4 sem. hrs.

ITA 201-202. INTERMEDIATE ITALIAN I, II: Development of listening, speaking, reading, and writing skills. Conversation practice, oral reports, reading assignments, composition assignments, and grammar exercises. The class is conducted in Italian. Prerequisites: ITA 141 for 201; ITA 201 for 202. 3 sem. hrs. each

ITA 313-314. COMMUNICATING IN ITALIAN I, II: Intensive practice in speaking and writing Italian at an advanced level. Emphasis on building vocabulary, learning correct idiomatic usage, increasing fluency, and improving syntax and style. The class is conducted in Italian. May be taken in either sequence. Prerequisite: ITA 202. 3 sem. hrs. each

ITA 341-342. ITALIAN CULTURE AND CIVILIZATION I, II: Survey of the major historical and cultural events in Italy from the Middle Ages to the present. All readings, lectures, discussions, reports, and tests are in Italian. May be taken in either sequence. Prerequisite: ITA 202. 3 sem. hrs. each

ITA 361-362. SURVEY OF ITALIAN LITERATURE I, II: Italian literature from its beginnings in the 13th century to the present. Principal writers and literary trends; the techniques of literary analysis. Lectures, discussions, readings, and papers are in Italian. May be taken in either sequence. Prerequisite: ITA 202. 3 sem. hrs. each

ITA 491. INDEPENDENT STUDY: Independent research project under the guidance of an instructor. Admission to project and number of sem. hrs. require approval of chairperson. Prerequisites: ITA 202 and permission. 1-3 sem. hrs.
LATIN

LAT 101-102. BEGINNING LATIN I, II: Development of fundamental reading skills through extensive practice in language use. Admission to 101 restricted to those who have not studied Latin or have placed into that course by examination; 102 is open only to those who have successfully completed 101 at the University of Dayton. Credit is granted for only ONE of the following: 101-102 OR 121. Prerequisites: None for 101; 101 is required for 102. 3 sem. hrs. each

LAT 121. ELEMENTARY LATIN: Review and further development of the fundamental reading skills. Admission restricted to those who have studied the language for at least two years in high school or the equivalent and placed into the course by examination. Credit granted for only ONE of the following: 101-102 OR 121. Prerequisite: Minimum of two years high school study of specific language and placement by examination. 4 sem. hrs.

LAT 141. BASIC PROFICIENCY IN LATIN: Further development of reading skills. Admission by examination or successful completion of 102 or 121. Successful completion of this course includes the demonstration of the minimal level of proficiency required for the College of Arts and Sciences' Liberal Studies Curriculum. Prerequisite: Successful completion of 102 or 121; or placement by examination. 3 sem. hrs.

LAT 201-202. INTERMEDIATE LATIN I, II: Systematic review of grammar, exercises in vocabulary development, readings from Caesar, Cicero, Virgil, or Ovid. Prerequisites: LAT 141 for 201; LAT 201 for 202. 3 sem. hrs. each

LAT 321. LATIN COMPOSITION AND SYNTAX: Practice in writing Latin, for enrichment of vocabulary, refinement of grammar, and control of major Latin prose styles. Prerequisite: LAT 202. 3 sem. hrs.

LAT 350. LATIN LITERATURE: Advanced readings in a particular author or genre (epic, drama, history, philosophy). Repeatable when subtitle and content change. Prerequisite: LAT 202. 3 sem. hrs.

LAT 491. INDEPENDENT STUDY: Independent research project under the guidance of an instructor. Admission to project and number of semester hours require approval of chairperson. Prerequisite: LAT 202 or permission. 1-3 sem. hrs

RUSSIAN

RUS 101. BEGINNING RUSSIAN: Development of fundamental communication skills in reading, listening, writing, and speaking through extensive practice in language use. No previous study of Russian presupposed. 4 sem. hrs.

RUS 141. BASIC PROFICIENCY IN RUSSIAN: Further development of communication skills in reading, listening, writing, and speaking. Successful completion of this course includes demonstration of the minimal level of proficiency required for the College of Arts and Sciences' Liberal Studies Curriculum. Prerequisite: Successful completion of 101 or permission. 4 sem. hrs.

RUS 201-202. INTERMEDIATE RUSSIAN I, II: Review of the essentials of grammar, intensive conversation and comprehension exercises, reading of graded modern and contemporary prose and poetry. Prerequisites: RUS 141 for 201; RUS 201 for 202. 3 sem. hrs. each
RUS 311-312. RUSSIAN CONVERSATION: Vocabulary development, pattern drills, and the use of idioms in discussion and oral reports centered on Russian life and culture. May be taken in either sequence. Prerequisite: RUS 202. 

3 sem. hrs. each

RUS 321. RUSSIAN COMPOSITION: Practice in composition on topics dealing with Russian life and culture; personal and business letters. Short weekly assignments to build vocabulary and control of idioms. Prerequisite: RUS 202. 

3 sem. hrs.

RUS 361. SURVEY OF RUSSIAN LITERATURE. Russian literature and its development during the 19th and 20th centuries. Study of exemplary works and literary movements. Prerequisite: RUS 202. 

3 sem. hrs.

RUS 491. INDEPENDENT STUDY: Independent study under the guidance of an instructor. Admission to course and number of sem. hrs. require approval of chairperson. Repeatable when content changes. 

1-6 sem. hrs.

SPANISH

SPN 101-102. BEGINNING SPANISH I, II: Development of fundamental communication skills in reading, listening, writing, and speaking through extensive practice in language use. Admission to 101 restricted to those who have not studied Spanish or have placed into that course by examination; 102 is open only to those who have successfully completed 101 at the University of Dayton. Credit is for only ONE of the following: 101-102 OR 111 OR 121. Prerequisites: none for 101; 101 is required for 102. 

3 sem. hrs. each

SPN 101 C. BEGINNING CONVERSATION PRACTICE IN SPANISH I: Practice in speaking Spanish on the most basic level. Corequisite: SPN 101 or permission. 

1 sem. hr.

SPN 102 C. BEGINNING CONVERSATION PRACTICE IN SPANISH II: Practice in speaking Spanish in everyday situations. Corequisite: SPN 102 or permission. 

1 sem. hr.

SPN 111. INTENSIVE BEGINNING SPANISH: Intensive development of fundamental communication skills in reading, listening, writing, and speaking through extensive practice in language use. Admission restricted to those who have not studied Spanish. Recommended for those who have had successful experience learning another language. Credit granted for only ONE of the following: 101-102 OR 111 OR 121. 

6 sem. hrs.

SPN 121. ELEMENTARY SPANISH: Review and further development of fundamental communication skills in reading, listening, writing, and speaking. Admission restricted to those who have studied the language for at least two years in high school or the equivalent and place into the course by examination. Credit granted for only ONE of the following: 101-102 OR 111 OR 121. 

4 sem. hrs.

SPN 141. BASIC PROFICIENCY IN SPANISH: Further development of communication skills in reading, listening, writing, and speaking. Admission by examination or successful completion of 102 OR 111 OR 121. Successful completion of this course includes the demonstration of the minimal level of proficiency required for the College of Arts and Sciences' Liberal Studies Curriculum. 

3 sem. hrs.

SPN 141C. BASIC SPEAKING PROFICIENCY IN SPANISH: Further development of speaking skills. Corequisite: SPN 141 or permission. 

1 sem. hr.
SPN 201-202. INTERMEDIATE SPANISH I, II: Intensive development of the basic principles of Spanish through writing and conversation, stressing fluency. Language laboratory required. Prerequisites: SPN 141 for 201; SPN 201 for 202.  
3 sem. hrs. each

SPN 270. STUDY ABROAD: Intensive study in a foreign country whose everyday language is Spanish, treating the culture and civilization of the country. Conducted in Spanish. Available only during the summer session. Repeatable when subtitle and content change. Prerequisite: SPN 141 or equivalent.  
1-6 sem. hrs.

SPN 290. SPANISH GRAMMAR & SYNTAX: Systematic review of basic grammatical concepts necessary for communicating effectively in Spanish. Extensive practice in analyzing, generating, and explaining correct grammatical structures. Recommended for prospective teachers. Prerequisite: SPN 202 or equivalent.  
3 sem. hrs.

SPN 311-312. SPANISH CONVERSATION I, II: Development of fluency in the vocabulary and idioms of the spoken language through discussion of topics related to contemporary life in the Hispanic world. May be taken in either sequence. Prerequisites: SPN 202 for SPN 311; SPN 311 or the equivalent for 312.  
3 sem. hrs. each

SPN 321-322. SPANISH COMPOSITION I, II: Practice in composition on a variety of topics. Systematic refinement and mastery of grammar and assimilation of stylistic patterns. Emphasis on developing facility in writing clearly and correctly in Spanish. Prerequisites: SPN 311 or 312 for 321; SPN 321 for 322.  
3 sem. hrs. each

SPN 325. COMMERCIAL SPANISH: Introduction to commercial correspondence as a basis for developing skills in writing Spanish business letters and other correspondence. Prerequisite: SPN 311 or 312.  
3 sem. hrs.

SPN 341. SPANISH CULTURE AND CIVILIZATION: Readings and discussions on the historical, social, political, and cultural phenomena of Spain. Conducted in Spanish. Prerequisite: SPN 311 or 312.  
3 sem. hrs.

SPN 342. IBERO-AMERICAN CULTURE AND CIVILIZATION: Readings and discussions on the historical, social, political, and cultural phenomena of Ibero-America. Conducted in Spanish. Prerequisite: SPN 311 or 312.  
3 sem. hrs.

SPN 350. HISPANIC LITERATURE IN TRANSLATION: Course to acquaint nonmajors and nonminors with major Spanish and Spanish-American writers and literary movements. Conducted in English. Repeatable when subtitle and content change. No prerequisite.  
3 sem. hrs.

SPN 361-362. SURVEY OF SPANISH LITERATURE I, II: Readings and analysis of the works of major Spanish authors and discussion of the principal literary trends in Spain from the Middle Ages to the 20th century. Lectures, discussions, and assignments in Spanish. May be taken in either sequence. Prerequisite: SPN 311 or 312.  
3 sem. hrs. each

SPN 363-364. SURVEY OF SPANISH-AMERICAN LITERATURE I, II: Readings and analysis of the works of major Spanish-American authors and discussion of the principal literary trends in Spanish America from Discovery and Conquest through Realism and Naturalism (I) and Modernism through the present day (II). Conducted in Spanish. May be taken in either sequence. Prerequisite: SPN 311 or 312.  
3 sem. hrs. each
SPN 370. STUDY ABROAD: Intensive study in a foreign country whose everyday language is Spanish, treating the culture and civilization of the country. Conducted in Spanish. Available only during the summer session. Repeatable when subtitle and content change. Prerequisite: SPN 202. 1-6 sem. hrs.

SPN 380. SPANISH AND IBERO-AMERICAN CINEMA. Introduction to cinematography and culture of Spanish and Ibero-American countries, emphasizing themes related to human rights (socioeconomic, class, sexuality, gender, ethnicity), as well as critical and theoretical perspectives on films from these regions. Conducted in English. Prerequisite: ENG 102 or equivalent. 3 sem. hrs.

SPN 450. TOPICS IN SPANISH LITERATURE: Lectures and discussions concentrating on specialized genres, periods, or authors of Peninsular literature prior to the 20th century. Conducted in Spanish. Repeatable when subtitle and content change. Prerequisite: SPN 311 or 312. 3 sem. hrs.

SPN 451. TOPICS IN SPANISH-AMERICAN LITERATURE: Lectures and discussions concentrating on specialized genres, periods, or authors of Spanish-American literature prior to the 20th century. Conducted in Spanish. Repeatable when subtitle and content change. Prerequisite: SPN 311 or 312. 3 sem. hrs.

SPN 469. SPANISH LINGUISTICS: A synchronic analysis of modern Spanish language, including a contrast of the Spanish sound system, morphology, and syntax with English structures; the historical derivation of Spanish, the modern Spanish dialects (Spain and Latin America), and approaches to teaching Spanish to English speakers. Conducted in Spanish. Prerequisites: LNG 468 and SPN 311 or 312. 3 sem. hrs.

SPN 471. TOPICS IN SPANISH LITERATURE OF THE 20TH CENTURY: Lectures and discussions concentrating on specialized periods, genres, or authors of 20th-century Peninsular literature. Conducted in Spanish. Repeatable when subtitle and content change. Prerequisite: SPN 311 or 312. 3 sem. hrs.

SPN 472. TOPICS IN SPANISH-AMERICAN LITERATURE OF THE 20TH CENTURY: Lectures and discussions concentrating on specialized periods, genres, or authors of 20th-century Spanish-American literature. Conducted in Spanish. Repeatable when subtitle and content change. Prerequisite: SPN 311 or 312. 3 sem. hrs.

SPN 480. SPANISH AND IBERO-AMERICAN CINEMA. Introduction to cinematography and culture of Spanish and Ibero-American countries, emphasizing themes related to human rights (socioeconomic, class, sexuality, gender, ethnicity), as well as critical and theoretical perspectives on films from these regions. Conducted in Spanish. Prerequisite: SPN 312 or equivalent; SPN 342 recommended. 3 sem. hrs.

SPN 491. INDEPENDENT STUDY: Independent research project under the guidance of an instructor. Admission to project and number of semester hours require approval of chairperson. Prerequisites: SPN 202 and permission. 1-3 sem. hrs.

*General Education course. See Chapter V.
MATHEMATICS (MTH)

The B.A. program in mathematics provides for a breadth of mathematical study within the context of a liberal arts degree. It may be chosen as a preparation for a professional career in business, education, law or social science. It affords the student a significant distribution of courses in the humanities and social sciences so that he or she can develop a concentration in a field other than mathematics. The student's career goals will generally suggest desirable upper level mathematics electives. For example, prospective secondary mathematics teachers should participate in the licensure program and elect courses such as MTH 370, 395, and 466. Students with an interest in business, law or social science should complete the probability and statistics sequence MTH 411-413; also MTH 463 is a good choice for students planning to enter the business world.

The B.S. program in mathematics provides a foundation for students who wish to pursue graduate studies in any area of the mathematical sciences, to enter the actuarial profession, or to enter careers where mathematics is used in an engineering or science setting. A preparation for graduate programs in a mathematical science should include electives such as MTH 342, 404 and 471. A preparation for the actuarial examinations would include the probability and statistics sequence MTH 411-413 and MTH 463; in addition, actuarial preparation should include a year of accounting, a year of economics and a course in numerical methods CPS 353. To prepare for using mathematics in an applied context, some useful elective courses are MTH 403, 404, and the MTH 411-413 sequence.

The basic courses MTH 168, 169, 218, 219, and 302 are offered every term and the required core courses are offered at least once a year. However, most of the other upper-level electives for the major are offered only once every two years; thus careful planning for a student's upper-level electives should be done in consultation with the advisor. In addition, the symbolic logic course, PHL 302, is a recommended General Education course for all mathematics majors.

A minor in mathematics consists of four courses of mathematics at the 300-400 level, plus appropriate prerequisite material which may be one of MTH 218, 219, or 302.

APPLIED MATHEMATICAL ECONOMICS (MTE)

The B.S. program in applied mathematical economics provides a foundation in the economics, mathematics and statistics needed for graduate study in economics or applied statistics, or for research and technical careers in business or government service. This degree is offered jointly by the Department of Mathematics and the Department of Economics and Finance in the School of Business Administration.

APPLIED MATHEMATICAL ECONOMICS COMMITTEE:

Committee Chairperson: Elizabeth Gustafson (Economics)
Eloe (Mathematics), Mashburn (Mathematics), Poitras (Economics)

See General Requirements for all Bachelor of Science Programs and Chapter V for
General Education requirements.

FACULTY

Paul W. Eloe, Chairperson
Distinguished Service Professors: Peterson, Stander
Professors Emeriti: Back, Friel, Rice, Strange
Professors: Eloe, Gantner, Higgins, Islam, McCloskey, Steinlage
Associate Professors: Gorton, Mashburn, Mushenheim,
Schleppi, Shaughnessy
Assistant Professors: Abueida, Diestelkamp, Hontz, Kauflin, Krakowski
Lecturers: Lobo, Ober, Saintignon, Steinlage, L.

COURSES OF INSTRUCTION

MTH 102. FUNDAMENTALS OF MATHEMATICS: Sets, functions and graphs,
exponents, polynomials and algebraic equations, systems of equations. Prerequisite:
One year of high school algebra. 3 sem. hrs.

MTH 106. INTRODUCTORY MATHEMATICS FOR ENGINEERING TECHNOLOGY:
Introduction to topics in plane geometry, triangle trigonometry, matrix
algebra, and Boolean algebra with an emphasis on applications to real world
technical problems. Intended for students in the engineering technology programs.
Prerequisite: Two years of high school algebra. 3 sem. hrs.

MTH 108. INTEGRATED ALGEBRA AND TRIGONOMETRY: Review of the
algebraic skills necessary for MTH 168, including properties of order, arithmetic of
polynomials, factoring, complex fractions, finding roots of polynomial equations,
exponents, functions, domains and ranges, composition, inverses, graphing, and
basic properties of trigonometric functions. First term each year. 2 sem. hrs.

MTH 114. CONTEMPORARY MATHEMATICS: A study of contemporary math-
ematical topics and their applications. Topics may include management science,
statistics, social choice, size and shape, and computer mathematics. Prerequisite:
Two years of high school algebra. 3 sem. hrs.
MTH 116. PRECALCULUS MATHEMATICS: A review of topics from algebra and trigonometry including polynomials, functions and graphs, exponential and logarithmic functions, trigonometric functions and identities. 4 sem. hrs.

MTH 128. FINITE MATHEMATICS: Topics from mathematics used in business, including systems of equations, inequalities, matrix algebra, linear programming, logarithms. Prerequisite: MTH 102 or sufficient college preparatory mathematics. 3 sem. hrs.

MTH 129. CALCULUS FOR BUSINESS: Continuation of MTH 128. Compound interest and annuities, fundamental concepts and applications of differential and integral calculus. Prerequisite: MTH 128 or sufficient college preparatory mathematics. 3 sem. hrs.

MTH 137-138. CALCULUS I WITH REVIEW: Introduction to the differential and integral calculus with an extensive review of algebra and trigonometry; differentiation and integration of algebraic and transcendental functions with applications. Prerequisite: Two years of high school algebra. MTH 137 is a prerequisite for MTH 138. 4 sem. hrs. each

MTH 148. INTRODUCTORY CALCULUS I: Introduction to the differential and integral calculus; differentiation and integration of algebraic and transcendental functions with applications to the life and social sciences. Prerequisite: MTH 116 or equivalent. 3 sem. hrs.

MTH 149. INTRODUCTORY CALCULUS II: Continuation of MTH 148. Techniques of integration and differential equations with applications to the life and social sciences, indeterminate forms, infinite sequences and series. Prerequisite: MTH 138 or 148. 3 sem. hrs.

MTH 168. ANALYTIC GEOMETRY AND CALCULUS I: Introduction to the differential and integral calculus; differentiation and integration of algebraic and transcendental functions with applications to science and engineering. Prerequisite: MTH 116 or equivalent. 4 sem. hrs.

MTH 169. ANALYTIC GEOMETRY AND CALCULUS II: Continuation of MTH 168. Conic sections, techniques of integration with applications to science and engineering, infinite series, indeterminate forms, Taylor’s theorem. Prerequisite: MTH 138 or 168. 4 sem. hrs.

MTH 204. MATHEMATICAL CONCEPTS I: First course of a two-semester sequence designed for pre-service teachers. Concepts necessary for an understanding of the structure of arithmetic and its algorithms, number patterns, sets, problem solving, percent, relation and proportion, use of calculators. Prerequisites: One year of high school algebra and one year of high school geometry. 3 sem. hrs.

MTH 205. MATHEMATICAL CONCEPTS II: Continuation of MTH 204. Topics include probability, representing and interpreting data, the metric system, elementary geometry, geometric patterns, coordinate geometry, algebra and geometry, transformations, computer literacy. Prerequisite: MTH 204. 3 sem. hrs.

MTH 206. ALGEBRA AND CALCULUS CONCEPTS: Development of the algebra of polynomials and functions; factoring and roots; mathematical induction and the binomial theorem; arithmetic and geometric sums; introduction to limiting processes; slopes and area estimations and computations. Prerequisite: MTH 205. 3 sem. hrs.
MTH 207. INTRODUCTION TO STATISTICS: Introduction to the concepts of statistical thinking for students whose majors do not require calculus. Methods of presenting data, including graphical methods. Using data to make decisions and draw conclusions. Basic ideas of drawing a sample and interpreting the information that it contains. Prerequisite: Two years of high school algebra. 3 sem. hrs.

MTH 218. ANALYTIC GEOMETRY AND CALCULUS III: Continuation of MTH 169. Solid analytic geometry, vectors and vector functions, multivariable calculus, partial derivatives, multiple integrals. Prerequisite: MTH 169. 4 sem. hrs.

MTH 219. APPLIED DIFFERENTIAL EQUATIONS: First order equations, linear equations with constant coefficients, systems of equations, the Laplace transform, power series solutions, numerical methods, applications. Prerequisite: MTH 218. 3 sem. hrs.

MTH 290. TOPICS IN (NAMED AREA): Exploration of varying topics appropriate for the needs of the pre-service training of teachers of mathematics. May be repeated as topics change. Prerequisite: One mathematics course beyond MTH 102 and permission of instructor and/or chairperson. 1-3 sem. hrs.

MTH 295. HISTORICAL ROOTS OF ELEMENTARY MATHEMATICS: Fundamental historical development of modern arithmetic, algebra, geometry, and number systems from early Egyptian, Babylonian, and Greek sources. Students may not receive credit for both this course and MTH 395. Prerequisite: MTH 205 or permission of instructor. 3 sem. hrs.

MTH 301. ESSENTIALS OF MATHEMATICAL REASONING: Techniques of proof, mathematical induction, recursion, counting methods, symbolic logic. Introduction to algebra of sets, infinities, and axiom systems. Open to students who will enroll in upper-level mathematics courses. Corequisite: MTH 218 or 302. 1 sem. hr.

MTH 302. LINEAR ALGEBRA AND MATRICES: Fundamental concepts of vector spaces, determinants, linear transformations, matrices, inner product spaces, and eigen-vectors. Offered each term. Prerequisite: MTH 218. 3 sem. hrs.

MTH 330. INTERMEDIATE ANALYSIS: Theoretical development of the calculus of a real-valued function of a real variable. Topics include the algebraic and topological properties of the real line, limits of sequences and functions, continuity, differentiability, and integration. Prerequisite: MTH 302. 3 sem. hrs.

MTH 342. SET THEORY: Elementary set theory including relations, functions, indexed families, denumerable and nondenumerable sets, cardinal and ordinal arithmetic, Zorn's Lemma, the well-ordering principle and transfinite induction. Prerequisite: MTH 218 or permission of instructor. 3 sem. hrs.

MTH 361. INTRODUCTION TO ABSTRACT ALGEBRA: Fundamental concepts of groups, rings, integral domains and fields. Prerequisite: MTH 218. 3 sem. hrs.

MTH 367. STATISTICAL METHODS I: Probability distributions including binomial, hypergeometric, Poisson, and normal. Estimation of population mean and standard deviation: Confidence intervals and tests of hypotheses using t-, Chi-square, and F-statistics. Mathematics majors enroll in MTH 411 instead of 367. Prerequisite: MTH 149 or 169. 3 sem. hrs.
MTH 368. STATISTICAL METHODS II: Distribution-free methods including rank tests, sign tests, and Kolmogorov-Smirnov test. Method of least squares, correlation, linear regression, analysis of variance. Design of experiments and computer applications. Mathematics majors enroll in MTH 412 instead of 368. Prerequisite: MTH 367. 3 sem. hrs.

MTH 370. INTRODUCTION TO HIGHER GEOMETRY: Projective, affine, and hyperbolic geometries using synthetic and/or analytic techniques. Prerequisite: MTH 218 or permission of instructor. 3 sem. hrs.

MTH 376. NUMBER THEORY: Topics include Diophantine equations, Chinese Remainder theorem, Mobius inversion formula, quadratic residues and the Law of Quadratic Reciprocity, Gaussian integers, and integral quaternions. Prerequisite: MTH 218. 3 sem. hrs.

MTH 395. DEVELOPMENT OF MATHEMATICAL IDEAS: The evolution of mathematical ideas and techniques from ancient times to the present with emphasis on the Greek era. Famous men and famous problems. Chronological outline of mathematics in each of its branches along with applications. Prerequisite: MTH 148 or 168 or permission of instructor. 3 sem. hrs.

MTH 404. COMPLEX VARIABLES: Functions of a complex variable, conformal mapping, integration in the complex plane. Laurent series and residue theory. Prerequisite: MTH 219. 3 sem. hrs.

MTH 411. PROBABILITY AND STATISTICS I: Mathematical probability, combinatorial methods, random variables, Bayes' theorem, moments, Chebyshev's inequality, binomial, Poisson, and normal probability laws, moment generating functions, limit theorems. Prerequisite: MTH 218. 3 sem. hrs.

MTH 412. PROBABILITY AND STATISTICS II: Distribution theory, central limit theorem, random sampling, estimation of parameters including maximum likelihood, confidence intervals, the Neyman-Pearson lemma, tests of hypotheses, likelihood ratio tests, sampling from a normal population. Prerequisite: MTH 411. 3 sem. hrs.

MTH 413. PROBABILITY AND STATISTICS III: Statistical decision theory, partitioning of sums of squares, analysis of variance, regression on several independent variables, multiple regression approach to analysis of variance, design of experiments. Prerequisite: MTH 412. 3 sem. hrs.

MTH 430. REAL ANALYSIS: Continuation of MTH 330. Topics include the theory of convergence of sequences and series of functions in the context of metric spaces, uniform continuity, uniform convergence, and integration. Prerequisite: MTH 330. 3 sem. hrs.
MTH 435. ADVANCED MULTIVARIATE CALCULUS: Topics include directional derivatives, chain rule, Lagrange multipliers, Taylor’s formula, the mean value theorem, inverse mapping theorem, implicit function theorem, integration, Fubini’s theorem, change of variables, line integrals, Green’s theorem and Stoke’s theorem. Prerequisite: MTH 302.  

MTH 440. INTRODUCTION TO MATHEMATICAL MODELING: Introduction to the use of mathematical techniques and results in constructing and modifying models designed to solve problems encountered in everyday life. Computer simulation and limitations thereof, dimensional analysis, scaling, and approximations at various levels. Prerequisites: MTH 219, 302, and permission of instructor.  

MTH 441. MATHEMATICS CLINIC: Student teams will be responsible for the development and/or modification and testing of a mathematical model designed for a particular purpose. Faculty guidance. Prerequisites: MTH 440 and permission of chairperson.  

MTH 445. SPECIAL TOPICS IN (NAMED AREA): Lectures in specialized areas such as abstract algebra, applied mathematics, complex variables, differential forms, functional analysis, Galois theory, game theory, general topology, normed linear spaces, probability theory, real variables, topological groups. May be taken more than once. Prerequisite: Permission of chairperson.  

MTH 463. INTRODUCTION TO OPERATIONS RESEARCH: Topics include linear programming and its applications, game theory, Markov chains or linear codes and their error-correcting capabilities. Prerequisite: MTH 302  

MTH 466. GRAPH THEORY AND COMBINATORICS: Graphs as algebraic structures; eulerian, hamiltonian, complete, connected and planar graphs. Applications include scheduling and routing problems. Discussion of algorithms for optimal or near-optimal solutions. Combinatorial topics could include generating functions, recurrence relations, Polya’s theorem and Ramsey Theory. Prerequisite: MTH 302.  

MTH 471. TOPOLOGY: Introduction to topological spaces and continuous functions including a study of separation and countability axioms and elementary properties of metric spaces, connected spaces, and compact spaces. Prerequisite: MTH 302 or permission of instructor.  

MTH 490. READINGS IN (NAMED AREA): Individual study in specialized areas carried out under the supervision of a staff member. May be taken more than once. Prerequisite: Permission of chairperson.
The Bachelor of Science with a major in premedicine (MED) or predentistry (DEN) is an interdisciplinary curriculum of study. It is distinctively designed to provide a science-based, diverse education as a preparation for admission to any of the professional health schools including medical, dental, veterinary, and chiropractic. Courses in biology, chemistry, mathematics, and physics comprise the major. Humanities and social sciences courses are also required. Within this framework the curriculum is flexible and can be tailored to suit personal interests. During the first two years, students enroll in courses appropriate for entry into professional schools while they also fulfill basic University requirements.

Admission to professional schools depends upon many factors in addition to the curriculum or major. Academic standing, performance on standardized examinations, practical experience relevant to the profession of interest, and adherence to application procedures are all important. The University addresses these factors in the following comprehensive manner.

While the Premedical Programs Office administers the DEN and MED majors, this office is also the focal point for all matters related to admission to any of the primary health schools. It is an information clearing house, functions as a liaison with professional schools, and coordinates the application process. Therefore, students in any major who plan to apply to professional schools should maintain a close relationship with this office.

The University automatically enrolls entering premedical or predental majors into special orientation classes, and identifies them to the Premedical Programs Office. Members of the Premedical-Predental Faculty Committee advise these students. However, advising services are available to all pre-professional students regardless of their major. Students in other majors may elect to have committee members serve as their secondary advisors; such students should identify themselves to the Premedical Programs Office.

In addition to providing counseling, the Premedical-Predental Faculty Committee also monitors students' academic progress. Since admission to professional schools is highly selective, premedical or predental students who have non-competitive academic records at the end of the second year of study are advised to transfer to a traditional major. Traditional majors provide students with alternate career paths, and are as acceptable to professional schools as a formal Premedical or Predental major. Transfers to other majors, particularly to science majors, can usually be accommodated during the first two years without affecting normal progress towards graduation.

PREMEDICAL-PREDENTAL FACULTY COMMITTEE

John E. Erdei, (Physics) Committee Chairperson
Church (Chemistry), Berney (Physics), Craver (Physics),
Hofmann (Biology), Kearns (Biology), Lysaught (Religious Studies),
Singer (Chemistry), S. Wright (Biology)
BACHELOR OF SCIENCE WITH A MAJOR IN
PREMEDICINE (MED) OR PREDENTISTRY (DEN)²

**Semester Hours**

Required science courses ........................................................................................................... 45-50
  BIO 151, 151L, 152, 152L ........................................................................................................ 8
  CHM 123, 123L, 124, 124L, 201, 201L, 313, 313L, 314, 314L .............................................. 20
  CPS 111 or MTH 367 ............................................................................................................... 3
  MTH 148-149 or 168-169² ......................................................................................................... 6-8
  PHY 201, 202, or PHY 206, 207, 208; PHY 201L, 202L³ .................................................... 8-11

Elective science courses ........................................................................................................................................ 17
  Five lecture courses that must be selected from among mathematics, the natural sciences and/or engineering. The elective courses must be directly related to the primary field of interest. Laboratory sections must accompany two of the electives.

Communication competencies ........................................................................................................ 6-12
  CMM 110, 111 or 112, 113 ........................................................................................................ 3
  ENG 101-102 or 114 or 198; ENG elective ⁴ ........................................................................... 3-9

Philosophy and religious studies⁵ ................................................................................................. 12

History .................................................................................................................................................. 6

Humanities ............................................................................................................................................. 12
  A modern foreign language is strongly recommended.

Social and behavioral sciences ........................................................................................................ 12

General electives⁶ ............................................................................................................................. 12

First-year experience: ASI 150 ..................................................................................................... 0-1

Total semester hours ...................................................................................................................... 122-134

(See advisors for term-by-term course listings.)

**Notes:**

¹Consult General Requirements for all Bachelor of Science programs and Chapter V for General Education requirements.

²Students with a weak background should take Math 137 and 138 followed by Math 148. Well qualified students are advised to take Math 168-169.

³Well qualified students are strongly advised to take PHY 206-207-208 lecture sequence with PHY 201L and 202L.

⁴Select ENG elective from among ENG 203, 204, 205, 272, 316, or any 300-level General Education ENG elective.

⁵One PHL or REL elective must be an ethics course. Select from among PHL 312, 315; REL 265, 367.

⁶Only general elective courses can be taken under grading Option 2.
MIL

MILITARY SCIENCE (MIL)
ARMY ROTC

The Department of Military Science offers the Reserve Officers Training Corps (ROTC) program on the campus, providing instruction in general military subjects applicable to all branches of the Army. The purpose of the Reserve Officers Training Corps is to develop selected college-educated men and women for positions of responsibility as officers in the active Army, the Army Reserve, and the Army National Guard.

The Military Science Program is designed to develop a high degree of personal honor, self-reliance, and leadership and to provide the means of becoming better informed on matters of national defense. The program provides men and women who are working toward the baccalaureate degree the opportunity to become officers in the United States Army.

The four-year program is divided into a basic course (normally first and second years) and an advanced course (normally third and fourth years), and it is offered to all students for academic credit.

The basic course emphasizes practical leadership techniques and management concepts that apply equally in both military organizations and private industry. While in this phase of the program, students, other than contracted ROTC scholarship students, have no military obligation and are simply taking ROTC courses, like any other college courses, for credit. Students who receive credit for the basic course and demonstrate a potential for becoming effective officers may continue to pursue a commission by enrolling in the advanced course.

The advanced course is designed to prepare students to be Army lieutenants by including practical work in tactics, training, management, leadership techniques, and the exercise of command. Advanced course students are paid $200 a month during the school year. During the summer between the junior and senior years, cadets attend a five-week ROTC Advanced Camp, which allows them to apply the leadership and technical training learned in the classroom. While at camp, students are paid half a second lieutenant's monthly salary or about $1000.

In addition to ROTC instruction, a student must attain an equal level of professional military education. Army officers, like other professionals, cannot be satisfied with a collection of knowledge found only in their academic field. In order to become officers, students are required to complete courses in military history, written communication skills, oral communication skills, and computer literacy.

The minor in Military Science provides students with the opportunity to study the theory and practice of the military profession. The minor consists of 12 semester hours of upper-level courses. Students must complete MIL 301, 302, 401, and 402. Students desiring to minor in Military Science should notify their respective deans and the Military Science Department.

The ROTC program is also available to students with three or two years remaining on campus, including graduate students. Special programs, such as ROTC Summer Leadership Training, Basic Camp, have been established to allow second-semester sophomores and juniors or seniors who will be going on to graduate school to participate in the military science program.

There is also a special program whereby veterans and JROTC students can receive advanced placement credit in Army ROTC. Veterans and students with high
school JROTC training, with the approval of the chairperson of the Department of Military Science, may receive placement credit for part or all of the basic course. Each case will be judged individually so that the best interests of both the student and the military may be served.

Army ROTC scholarships are available to students. These scholarships cover three- and two-year periods and provide for tuition, books, fees, special equipment, and $200 a month for up to ten months of each school year. Scholarships, which are highly competitive, are awarded to those who demonstrate outstanding academic and leadership ability.

FACULTY

Lt. Col. Ronald G. Raczk, U.S. Army, Chairperson
Professor: Raczk
Assistant Professors: Forrest, Womack
Instructor: Weaver

COURSES OF INSTRUCTION

MIL 100 (UD). LEADERSHIP LABORATORY: Practical training in military courtesy, drill and ceremony, military skills, map reading, marksmanship, and tactics.

MIL 101 (UD). LEADERSHIP I: ROTC programs and opportunities; rappelling, leadership, communications and management skills, and pistol marksmanship. Optional field trips, field exercises, physical training, leadership laboratory and social events.

MIL 102 (UD). LEADERSHIP II: Rifle marksmanship, fundamentals and principles of leadership, management techniques for individual, group behavior and leadership dimensions. Optional physical training, leadership laboratory, and social events.

MIL 121 (SCC). Same as MIL 101 (UD).

MIL 122-123 (SCC). Combination of these two courses completes all requirements of MIL 102 (UD).

MIL 201 (UD). MAP READING AND SMALL UNIT TACTICS: Study of basic map reading skills, small unit tactics, movement techniques, weapons marksmanship orientation, and survival skills. Participation in leadership laboratory and two field training exercises. Optional physical training and social events.

MIL 202 (UD). MILITARY LEADERSHIP: Interactive study of the fundamentals of military leadership, ethical decision-making, effective counseling techniques, and conflict resolution. Study of the role and branches of the US Army and the role of the commissioned, warrant, and noncommissioned officer. Optional participation in leadership laboratories, field training exercises, physical fitness training, and social events.

MIL 221 (SCC). Same as MIL 201 (UD).

MIL 222-223 (SCC). Combination of these two courses completes all requirements of MIL 202 (UD).
MIL 301 (UD). LEADING SMALL ORGANIZATIONS I: Study of the methodology, qualities, and the development of leaders through a series of practical opportunities to lead small groups, receive personal assessments, encouragement, and lead again in situations of increasing complexity. Physical training, leadership laboratory, historical field trip, social events, and field training exercises are mandatory. 

3 sem. hrs.

MIL 302 (UD). LEADING SMALL ORGANIZATIONS II: Study of emplacement of communications equipment and weapons system. Application of small unit tactics, land navigation-terrain association, operations orders and roles of various branches of the Army. Physical training, leadership laboratory, social events, and field training exercises are mandatory.

3 sem. hrs.

MIL 401 (UD). LEADERSHIP MANAGEMENT AND STAFF: Study of military staff functions; how to conduct meetings, briefing, and training; how to conduct various types of counseling; and effective and ineffective leadership techniques. Physical training, leadership laboratory, historical field trip, social events, and field training exercises are mandatory.

3 sem. hrs.

MIL 402 (UD). APPLIED LEADERSHIP AND MANAGEMENT: Leadership and management studies in professionalism, ethics, and military justice. Various types of military correspondence and the responsibilities of an officer. Physical training, leadership laboratory, field training exercises, and social events are mandatory.

3 sem. hrs.

MIL 411 (UD). LIMITED WAR/LOW INTENSITY CONFLICT: This course will identify and discuss the roles and mission of the branches found within the U.S. Army as they relate to Limited War and Low Intensity Conflicts. Historical examples of leadership in Limited War/Low Intensity Conflicts are identified and discussed. Incorporates the background and experience of resident instructors and presentations by visiting service representatives.

2 sem. hrs.

MIL 412 (UD). U.S. MILITARY TODAY: This course will identify and discuss the roles, missions, organizational structure and equipment, tactical and strategic employment, and future trends of the Armed Services. Incorporates the background and experience of resident instructors and presentations by visiting service representatives.

2 sem. hrs.

---

1 Students should check with their deans for any restrictions on applying MIL courses to their degree programs.

2 Course offered through the Consortium with Sinclair Community College.
MUS

MUSIC (MUS)

Music is a unique form of expression and communication. A course of study provides for an aesthetic appreciation and an opportunity to translate musical concepts into a valuable and practical skill. The Department of Music of the University of Dayton provides academic coursework to foster artistic understanding and creative thinking, practical instruction to develop musical skills, and substantial laboratory and performance experience.

The Department of Music is a member of the National Association of Schools of Music, which accredits its degree programs and curricula. In addition, the music education degree program is approved by the State of Ohio and the music therapy degree program by the American Music Therapy Association.

The Department of Music has numerous performing ensembles open to all students: the University Chorale, Choral Union, Opera Workshop, Ebony Heritage Singers, and Celebration Vocal Transit; University Orchestra, Symphonic Wind Ensemble, Concert Band, 'Pride of Dayton' Marching Band, Pep Band, Jazz ensembles; early music ensembles; and instrumental chamber music ensembles.

The Department of Music offers five degree programs:

- Bachelor of Arts with a major in Music (MUS)
- Bachelor of Music with a major in Music Composition (MUC)
- Bachelor of Music with a major in Performance (MUP)
- Bachelor of Music with a major in Music Therapy (MUT)
- Bachelor of Music with a major in Music Education (MUE)

All prospective music students must be admitted to the University of Dayton by the Office of Admission. In addition, all prospective students must (1) furnish the Department of Music with letters of recommendation from their high school music teachers and/or performance teachers and (2) successfully complete the performance audition, either in person or via tape recording. Specific information regarding audition requirements and dates is available from the Department office.

The Department of Music offers a minor in music, consisting of 22 semester hours, including 12 semester hours of upper-division coursework. It also offers a certificate in church music, consisting of 35 semester hours of coursework. Further information is available from the Department office.

Transfer students pursuing a major in MUC, MUP, or MUT must complete at least 24 of the required semester hours in the Department of Music while in residency at the University of Dayton. Transfer students pursuing a major in MUE must complete at least 20 of the required semester hours in the Department of Music while in residency at the University of Dayton. Transfer students pursuing a music minor must complete at least 12 of the required semester hours in the Department of Music while in residency.

**Requirements for all specializations**

Music theory: MUS 111-114, 211-214 .................................................... 16
Functional keyboard skills: MUS 296-299 ............................................. 4
Music history and literature: MUS 301-302, 303 .................................. 9
Arranging: MUS 318 ............................................................................. 2
Introduction to music education: MUS 231 ......................................... 2
Performance studies on the student’s principal instrument leading to a minimum of a half-recital during the junior or senior year: MUS 399 (7 semesters) .................................................. 14
Recital attendance: MUS 200 (7 semesters) ........................................... 0
Ensemble: MUS 491 or 492 or 493 (5 semesters) and 390 (2 semesters) .................................................................................. 7

**Additional requirements for band specialization**

Conducting: MUS 240, 346 .................................................................. 4

**Additional requirements for orchestra specialization**

196
Conducting: MUS 240, 346 .................................................. 4
String minor: MUS 399 (2 semesters) .................................. 4

Additional requirements for choral specialization

Conducting: MUS 240 .......................................................... 2
Guitar: MUS 195, 295 ......................................................... 4
Diction and literature: MUS 408 ............................................. 2
Piano or voice minor: MUS 399 (3 semesters) .......................... 6

Additional requirements for classroom specialization

Conducting: MUS 240 .......................................................... 2
Guitar: MUS 195, 295 ......................................................... 1-2
Improvisation: MUS 381 ...................................................... 2
Piano minor: MUS 399 (4 semesters) ................................ 8

Teacher education: EDT 100, 110, 207, 301, 340, 422 .................... 30
Communication competencies .................................................. 0-9
Philosophy and Religious Studies (including PHL 325) ..................... 9
Natural Sciences ..................................................................... 6
Mathematics (MTH 102, 204, 205 excluded) .................................. 3
Social and behavioral sciences .................................................. 3
Humanities (HST 101, 102, or 198) .......................................... 3
Introduction to the University: ASI 150 .................................... 0-1
Total semester hours ................................................................ 132-140

1See Chapter V for General Education requirements.
2Students in the music education program are required to maintain a 2.0 cumulative grade point average, and a 2.5 cumulative average in teacher education and music courses.
3Students will select one of four specialty areas (band, choral, classroom, or orchestra). Upon completion of the degree, candidates will receive a provisional multi-age license from the State of Ohio to teach classroom, instrumental, and vocal music from pre-kindergarten through senior high school.

1Students may also register for classes in this certificate program through the Office of Special Programs and Continuing Education. Such students may be required to complete a performance audition.
2Or MUS elective to be determined by advisor.

FACULTY

Donna M. Cox, Chairperson

Professors Emeriti: Ridder, Sandness

Professors: Benedum, Chenoweth, Magnuson, Snyder, Street

Associate Professors: Cox, Hartley, Morris, Reynolds

Assistant Professors: Gardstrom, Jones, Ritz

Artists-in-Residence: Benjamin, Corrigan, Farris, McCutcheon, Todey, Wright

COURSES OF INSTRUCTION

MUS 104. MUSIC LITERATURE FOR THE ELEMENTARY CLASSROOM: Study of music literature and its direct application to elementary classroom use.  2 sem. hrs.

MUS 110. FUNDAMENTALS OF MUSIC: For the student with no previous experience with theory of music. Notation of music, key and time signatures, fundamental harmonic progression, and introduction to the piano keyboard. Elementary ear training and dictation. Open to all University students.  2 sem. hrs.

MUS 111-112. THEORY OF MUSIC I: Basic vocabulary and grammar of music: fundamentals (intervals, scales, modes, keys, triads), counterpoint studies, basic diatonic harmonic motions, and small-scale compositions. Some assignments are done with computer notation programs. Portions of the course are Web-based. Prerequisite: MUS 111 or 112.  2 sem. hrs each

MUS 113-114. AURAL SKILLS I: Basic techniques of listening encompassing specific skills such as interval recognition, sight-singing, performance of rhythms, as well as melodic, rhythmic and harmonic dictation. Aural training is enhanced by computer-assisted instruction. Prerequisite: MUS 113 or 114.  2 sem. hrs each

MUS 121-122. COMPOSITION I: Supplemental explorations for majors in music composition, to accompany work in MUS 111-112. Basic notational practices and application of traditional techniques to the creative process. Corequisite: MUS 111-112. Prerequisite or corequisites: MUS 111 for 121; MUS 112 and completion of 121 for 122.  1 sem. hr each

MUS 191. VOICE CLASS: Principles of good singing; development of the voice; vocal literature. Minimum of 4 students required. Open to all students.  2 sem. hrs.

MUS 195. BEGINNING GUITAR CLASS I: Introduction to playing the guitar with emphasis on chord playing and accompaniment, improvisation, and application of the guitar to music teaching.  1 sem. hr.

MUS 196. GROUP PIANO I: For the student with no previous piano study. Rudiments of music reading, performance of simple folk and popular music, basic knowledge of scales, key signatures, and chords. Open to all University students. Fee.  1 sem. hr.
MUS 200. RECITAL ATTENDANCE: All music majors are required to attend professional and student concerts and recitals, to develop critical listening experience and knowledge of repertoire.  

*MUS 201. MUSIC IN CONCERT: A survey of music literature, styles, and important composers, through preparation for and attendance at selected concerts on the campus and in the community. Concert ticket fees will be required. Open to all University students.  

*MUS 203. SIGHTS AND SOUNDS OF MUSIC: An introduction to music and its literature, with emphasis on the way music has been shaped by its cultural, geographic, and historical contexts. Open to all University students.  

*MUS 205. MUSIC, INSTRUMENTS, AND TECHNOLOGY: A survey of music literature, styles, and important composers, and the way the development of instruments has influenced changes in musical style. The course will also consider the ways technology has altered our approach and access to music making, listening, and dissemination in the twentieth century. Open to all University students.  

MUS 211-212. THEORY OF MUSIC II: SATB part-writing, Schenkerian analysis, chromatic procedures, decline of Common Practice Period, basic twentieth-century compositional styles. Some assignments are done with computer notation programs. Portions of the course are Web-based. Prerequisites: MUS 112 with grade of C or better or permission for MUS 211; MUS 211 for 212.  

MUS 213-214. AURAL SKILLS II: Advanced techniques of listening encompassing specific skills such as interval recognition, sight-singing, performance of rhythms, as well as melodic, rhythmic and harmonic dictation. Aural training is enhanced by computer-assisted instruction. Prerequisites: MUS 114 with grade of C or better or permission for MUS 213; MUS 213 for 214.  

MUS 221-222. COMPOSITION II: Supplemental explorations for majors in music composition, to accompany work in MUS 211-212. Style analysis and synthesis, extension of traditional techniques, and basic instrumental applications. Corequisites: MUS 211-212. Prerequisites or corequisites: MUS 211 for 221; MUS 212 and completion of 221 for 222.  

MUS 231. INTRODUCTION TO MUSIC EDUCATION: An introduction to a wide variety of pedagogical and philosophical aspects of teaching the arts. Topics will include technology, national and state standards, history, special learners, reading in the content area, and professional organizations. Field experience is required. Prerequisite: EDT 110.  

*MUS 232. INTEGRATING THE ARTS: MUSIC: Primarily for Teacher Education Majors. Development of knowledge, skills, values, and attitudes in music for integration into a classroom setting in which other classroom subjects are taught. Prerequisite: EDT 110.  

MUS 235. VOICE PEDAGOGY: Techniques for teaching singing.  

MUS 237. BRASS INSTRUMENT LABORATORY: Introduction to the performance and pedagogical techniques for the brass instrument family. Fee.
MUS 238. WOODWIND INSTRUMENT LABORATORY: Introduction to the performance and pedagogical techniques for the woodwind instrument family. Fee. 1 sem. hr.

MUS 240. FUNDAMENTALS OF CONDUCTING: Introductory-level course discussing basic conducting techniques, musical styles, interpretation, score study and analysis, transposition, and literature. Dual emphasis of choral and instrumental techniques. 2 sem. hrs.

MUS 280. MUSIC AND MOVEMENT FOR PERSONS WITH DISABILITIES: Training in the use of music and movement for children with disabilities under the supervision of AIM (Adventures in Movement) for the Handicapped, Inc. Includes observations and practice in the field. Prerequisite: Sophomore standing in music or related fields. 1 sem. hr.

MUS 282. RECREATIONAL MUSIC THERAPY SKILLS: Introduction to melodic and percussive nonsymphonic instruments and voice with particular emphasis on developing a variety of functional clinical skills in both active and receptive music therapy techniques for children and adults. 2 sem. hrs.

MUS 285. INTRODUCTION TO MUSIC THERAPY I: History and development of music therapy; survey of theoretical bases and current trends for the use of music in therapy; disability areas using music therapy. Orientation in the clinical field. Prerequisites: PSY 101, 363. 2 sem. hrs.

MUS 286. INTRODUCTION TO MUSIC THERAPY II: Continuation of MUS 285; orientation to the profession of music therapy through lectures, readings, audiovisual materials, and field trips; emphasis on specific disability areas using music therapy. Prerequisite: MUS 285. 2 sem. hrs.

MUS 287. PRACTICUM IN MUSIC THERAPY I: Supervised pre-internship field experiences with children and/or adults with special needs. One-hour weekly lab required. 1 sem. hr.

MUS 288. PRACTICUM IN MUSIC THERAPY II: Supervised pre-internship field experiences with children and/or adults with special needs. One-hour weekly lab required. 1 sem. hr.

MUS 293. ORGAN CLASS: Introduction to the organ, including basic performance techniques, registration, beginning literature, and hymn playing. Prerequisite: Demonstrable keyboard technique. Fee. 1 sem. hr.

MUS 294. HARPSCORD CLASS: Beginning class lessons in harpsichord performance, including basic technique, stylistic considerations, and simple maintenance and tuning of the instrument. Fee. 1 sem. hr.

MUS 295: BEGINNING GUITAR CLASS II: Note reading in first position; advanced chord work, introduction to chord solo playing, and improvisation. Prerequisite: MUS 195 or equivalent. 1 sem. hr.

MUS 296. FUNCTIONAL KEYBOARD SKILLS I: Class instruction in development of basic performance technique, sight reading, accompanying, transposing, playing by ear, improvising, and score reading. Music majors only. Fee. 1 sem. hr.

MUS 297. FUNCTIONAL KEYBOARD SKILLS II: Further development of techniques introduced in MUS 296. Music majors only. Fee. Prerequisite: MUS 296. 1 sem. hr.
MUS 298. FUNCTIONAL KEYBOARD SKILLS III: Continuation of MUS 297 with emphasis on improvisation and harmonization techniques. Music majors only. Fee. Prerequisite: MUS 297.  
1 sem. hr.

MUS 299. FUNCTIONAL KEYBOARD SKILLS IV: Continuation of MUS 298 with emphasis on advanced chord work and modulation techniques. Music majors only. Fee. Prerequisite: MUS 298.  
1 sem. hr.

*MUS 301-302. MUSIC HISTORY AND LITERATURE I, II: A survey of Western music history and literature from the Middle Ages to the present. Important composers, masterworks of music literature, compositional styles. May be taken in either sequence.  
3 sem. hrs. each

*MUS 303. INTRODUCTION TO MUSICS OF THE WORLD: A survey of music from representative cultures around the world, and its role and function in society.  
3 sem. hrs.

*MUS 304. HISTORY OF AMERICAN MUSIC: Survey of the American musical heritage emphasizing Anglo- and Afro-American folk traditions, early religious music, country music, pioneers in piano, band and concert music, and contemporary popular music. Open to all University students.  
3 sem. hrs.

*MUS 305. AFRICAN-AMERICAN SACRED MUSIC: A historical survey of African-American sacred music from its African roots to the present with an emphasis on developments in recent decades. Examines spirituals, the ring-shout, civil rights songs, the various forms of Gospel music, traditional hymnody of the African-American church and the musical aspects of black preaching. Open to all University students.  
3 sem. hrs.

*MUS 306. HISTORY OF AMERICAN JAZZ: Survey of the literature and performance practices from 1890 to the present. Includes blues, Dixieland, ragtime, boogie-woogie, swing, bop, cool, funky, and current techniques. Open to all University students.  
3 sem. hrs.

*MUS 307. DEVELOPMENT OF AMERICAN POPULAR SONG: Survey of American popular music from the days of the colonies, the war years, the ballad opera, minstrel, vaudeville, operetta, early film music, through Tin Pan Alley to Broadway, including European influences. Open to all University students.  
3 sem. hrs.

MUS 308. CHAMBER MUSIC AND SYMPHONY: Formal and harmonic analysis of chamber music. Formal analysis of symphonies of classic, romantic, and contemporary composers. Prerequisites: MUS 211, 212.  
2 sem. hrs.

*MUS 309. OPERA HISTORY AND LITERATURE: Survey of the development of the opera and its literature from its 17th-century beginnings to the present. Focus upon major works and composers. Open to all University students.  
3 sem. hrs.

*MUS 310. MOZART'S OPERAS: An interdisciplinary survey of Mozart's operas—German and Italian, serious and comic. Class discussions will be supplemented by extensive listening and/or viewing of recorded performances and, when possible, attendance at live performances.  
3 sem. hrs.

MUS 311. EIGHTEENTH-CENTURY COUNTERPOINT: Study of the contrapuntal technique of the 18th century, particularly in the instrumental works of J.S. Bach. Original compositions in forms of the invention and the fugue. Prerequisites: MUS 211, 212.  
2 sem. hrs.
MUS 312. SIXTEENTH-CENTURY COUNTERPOINT: Study of the medieval modes and the vocal polyphony of the motet and the Mass, up to and including five-part writing; original student compositions. 2 sem. hrs.

MUS 313. ADVANCED AURAL SKILLS: Advanced training in dictation, solfege and aural analysis. Prerequisite: MUS 215. 2 sem. hrs.

MUS 314. SCORE READING: Training in reading music at the piano from open score. Drill in transposition, improvisation, and reading of various clefs, leading to the realization of full vocal and orchestral scores. 2 sem. hrs.

MUS 316. FUNDAMENTALS OF ORCHESTRATION: Instrumentation studies of the four main orchestral families: woodwinds, brass, percussion, strings. Some work in combining families. Prerequisite: MUS 212. 2 sem. hrs.

MUS 318. FUNDAMENTALS OF ARRANGING: Arranging studies for woodwinds, brass, percussion, strings, and choir. Individual examination of instruments; projects. Prerequisites: MUS 212. 2 sem. hrs.

MUS 321-322. COMPOSITION III: Beginning explorations of original composition which utilize equally the concepts of pitch, temporal elements, timbres, and dynamics. Prerequisites: MUS 214 for 321; MUS 321 for 322. 2 sem. hrs. each

*MUS 328. HISTORY OF THE AMERICAN MUSICAL: A survey of the history and literature of the American musical from its 19th century predecessors to the present day. The course will focus on major representative works, major composers, and other artistic innovators. Open to all University students. 3 sem. hrs.

MUS 331. CHORAL MUSIC METHODS: Pedagogical techniques for choral ensembles. Topics include the singing voice, the changing voice, organization, artistic development, literature, and rehearsal techniques. National Standards are emphasized as they relate to specific objectives. Current related practices in technology are incorporated in specific assignments. Field experience required. 3 sem. hrs.

MUS 332. INSTRUMENTAL MUSIC METHODS: Pedagogical techniques for band and orchestra. Topics include teaching and rehearsal techniques, organization, assessment, learning theories, philosophy, literature, and programming. National Standards are emphasized as they relate to specific objectives. Current related practices in technology are incorporated in specific assignments. Field experience will be required. 3 sem. hrs.

MUS 335. CLASSROOM MUSIC METHODS: Pedagogical techniques for classroom music grades preK-8. Topics include the pedagogical methods of Orff, Kodaly, Suzuki, and Dalcroze; lesson-plan design, implementation, and assessment. Special emphasis on the exceptional learner. National Standards are emphasized as they relate to specific objectives. Current related practices in technology are incorporated in specific assignments. Field experience required. 3 sem. hrs.

MUS 336. WOODWIND PEDAGOGY: Pedagogical techniques for the woodwind instruments. Separate section for each instrument. Clarinet and flute are full-term courses. Oboe, bassoon, and saxophone courses are 7 weeks long. Fee. 1/2-1 sem. hr.
MUS 337. BRASS PEDAGOGY: Pedagogical techniques for the brass instruments. Separate section for each instrument. Trumpet is a full-term course. Horn, trombone, and baritone/tuba courses are 7 weeks long. Fee.  
1/2-1 sem. hr.

MUS 338. PERCUSSION PEDAGOGY I: Pedagogical techniques for the percussion instruments. Fee.  
1 sem. hr.

MUS 338. PERCUSSION PEDAGOGY II: A continuation of Percussion Pedagogy I. This course will address performance study on the snare drum, mallets, and timpani; b) teaching techniques for the accessory instruments; c) minor repairs; and d) method book analysis. Fee.  
1/2 sem. hr.

MUS 339. STRING PEDAGOGY: Pedagogical techniques for the string instruments. Separate sections for upper strings and lower strings. Each section is a full-term course. Upper strings should be taken before lower strings. Fee.  
1 sem. hr.

MUS 345. CHORAL CONDUCTING: Continuation of techniques introduced in MUS 240, dealing specifically with techniques for choral ensembles. Prerequisite: MUS 240.  
2 sem. hrs.

MUS 346. INSTRUMENTAL CONDUCTING: Continuation of techniques introduced in MUS 240, dealing specifically with techniques for band and orchestra. Prerequisite: MUS 240.  
2 sem. hrs.

*MUS 350. SACRED MUSIC HISTORY: A survey of the development of Christian Music and its function in worship. The focus will be on historical styles, including both their impact on and their application within liturgical settings, as well as on the religious reflections engendered by specific works.  
3 sem. hrs.

MUS 360. SPECIAL TOPICS IN MUSIC: Studies in specialized areas of music. May be repeated as topics change, up to six semester hours. Prerequisite: Permission of instructor.  
1-3 sem. hrs.

MUS 381. CLINICAL AND EDUCATIONAL MUSIC IMPROVISATION: Music improvisation techniques and procedures using piano, percussion, voice, guitar and student's major instrument. Emphasis on the acquisition of clinical and educational music improvisational skills to be applied in the medical, rehabilitation, clinical and/or school music education setting. Prerequisites: MUS 112, 114, 297  
2 sem. hrs.

MUS 385. MUSIC THERAPY PRINCIPLES: Principles and processes underlying the applications of music in therapy, including philosophical approaches, assessment procedures, goals and objectives, evaluation and documentation techniques, and professional ethics and standards of clinical practice.  
3 sem. hrs.

MUS 386. MUSIC THERAPY METHODS AND MATERIALS: Overview of methods and materials used in the clinical practice of music therapy. Review of pertinent clinical and research literature. Exploration of the role of music within various psychotherapeutic models. Development of skills needed for music therapy marketing and professional presentations.  
3 sem. hrs.

MUS 387. PRACTICUM IN MUSIC THERAPY III: Supervised pre-internship experiences with children and/or adults with special needs. One-hour weekly lab required. Corequisite: MUS 385.  
1 sem. hr.
MUS 388. PRACTICUM IN MUSIC THERAPY IV: Supervised pre-internship experiences with children and/or adults with special needs. One-hour weekly lab required. Corequisite: MUS 386. 1 sem. hr.

MUS 390. CELEBRATION VOCAL TRANSIT: Students will study performance practices associated with American popular music forms (including pop, soul, jazz, gospel, musical theatre) with particular attention paid to improvisation in the various forms. Students will also learn microphone technique and basic use of PA systems. The semester culminates in a performance of solos, duets, and small ensemble selections. 1 sem. hr.

MUS 390. CHORAL UNION: Mixed vocal ensemble performing music from all style periods in regular concert appearances. Open to all University students without audition. 1 sem. hr.

MUS 390. EBONY HERITAGE SINGERS: Ensemble specializing in the sacred music of African-Americans with particular emphasis on contemporary gospel music and improvisation. Open to the entire University community regardless of ethnic background or religious affiliation. No audition required. 1 sem. hr.

MUS 390. JAZZ ENSEMBLE: Ensemble specializes in the interpretation and performance of traditional and contemporary big band jazz, including the art of improvisation. Audition required. 1 sem. hr.

MUS 390. MARCHING BAND: Plays at all home and some away football games. Membership includes winds, percussion, twirlers, and Flyerettes. Concentrates on quality sound, offering a wide variety of musical styles. Combines show and corps style elements in presentations. No auditions for winds or percussion. Open to all University students. 1 sem. hr.

MUS 390. PEP BAND: Membership is by audition, and includes winds and percussion only. Performs at all home men's basketball games and some away games. Open to all University students, with priority given to marching band members. Audition required. 1 sem. hr.

MUS 390. UNIVERSITY CONCERT BAND: Meeting Winter semester only, University Concert Band is a non-auditioned ensemble and performs two on-campus concerts. A wide variety of repertoire is performed, including marches, show tunes, concert band standards, contemporary band literature, and solo accompaniments. 1 sem. hr.

MUS 390. BAROQUE ENSEMBLE: Audition required. 1/2 sem. hr.

MUS 390. BRASS ENSEMBLE: Study of repertoire for small brass ensembles including brass quintet, horn ensemble, and others. Audition required. 1/2 sem. hr.

MUS 390. CLASSICAL GUITAR ENSEMBLE: 1/2 sem. hr.

MUS 390. HANDS IN HARMONY: A sign-singing ensemble. 1/2 sem. hr.

MUS 390. INDOOR MARCHING PERCUSSION ENSEMBLE: Study of marching percussion instruments (snare, tenors, melodic bass drums, cymbals, electric bass, electronic keyboards, and "pit" percussion). Preparation of a full indoor show, with music, drill, choreography, and staging. Audition required, and experience necessary for snare drum, tenor sections. Appearances at area exhibitions and competitions. Winter semester only. Audition required. 1/2 sem. hr.
MUS 390. JAZZ COMBO: Small ensemble study of works by major American jazz composers. Emphasis on group and individual improvisation. Audition required. 1/2 sem. hr.

MUS 390. JAZZ GUITAR ENSEMBLE:

MUS 390. OPERA WORKSHOP: Performance techniques for the singer-actor through the study and performance of music from operatic literature. Improvisational exercises are incorporated. Audition required. 1/2 sem. hr.

MUS 390. PERCUSSION ENSEMBLE: Study and performance of concert repertoire for all combinations of percussion instruments, from duets to full percussion ensembles, with occasional piano or string bass accompaniment. Open to majors and non-majors; experience preferred but not required (on one or more of the following: snare drum, tympani, drum set, keyboard percussion, world and ethnic percussion, small accessory instruments). Audition required. 1/2 sem. hr.

MUS 390. PIANO ENSEMBLE: Audition required. 1/2 sem. hr.

MUS 390. STRING ENSEMBLE: Audition required. 1/2 sem. hr.

MUS 390. WOODWIND ENSEMBLE: A combination of woodwind instruments to include flute choir, clarinet choir, saxophone choir, woodwind quintet, and others. 1/2 sem. hr.

MUS 395. SPECIAL TOPICS IN GUITAR: A repeatable guitar class with different topics each term, such as accompaniment, blues, jazz, classical, bluegrass, etc. Prerequisite: MUS 295 or permission of instructor. 1 sem. hr.

MUS 398. INSTRUMENTAL JAZZ IMPROVISATION: Individualized instruction in instrumental jazz improvisation. Study of jazz theory, aural development, stylistic considerations, and repertoire. Corequisite: Participation in Jazz Ensemble and/or Jazz Combo. 1 sem. hr.

MUS 399. PERFORMANCE STUDIES: Private instruction (one 30-45 minute lesson each week) in piano, voice, organ, violin, viola, cello, bass, flute, oboe, clarinet, bassoon, saxophone, trumpet-cornet, French horn, trombone, baritone, tuba, percussion, harp, harpsichord, classical and pick-style guitar, and jazz lessons in piano, guitar, base, drums, brass, and woodwinds. Prerequisite: Permission of instructor. Fee. 1-2 sem. hrs.

MUS 401. MEDIEVAL AND RENAISSANCE MUSIC: The development of music from circa 400 to 1600, including plainchant, early polyphony, Ars Nova, and Renais- sance music; the relationship of music to other arts and to its historical context. Open to all University students. 2 sem. hrs.

MUS 402. BAROQUE MUSIC: Literature and performing practices from 1600 to 1750; the relationship of music to social and cultural movements. Open to all University students. 2 sem. hrs.

MUS 403. CLASSIC AND ROMANTIC MUSIC: Literature and performing practices from 1750 to 1900; the relationship of music to social and cultural movements. Open to all University students. 3 sem. hrs.

MUS 404. TWENTIETH-CENTURY MUSIC: A study of 20th-century music, its styles, and its cultural contexts, including post-romantic, impressionistic, neo-classic, and avant-garde. Open to all University students. 2 sem. hrs.
MUS 405. PIANO LITERATURE: Comprehensive survey of literature for the piano. Required of piano performance majors. 

MUS 408. DICTION AND LITERATURE FOR SINGERS: A course in foreign language diction with an associated survey of significant and representative works from the vocal solo repertoire. Course alternates its content: German and English; and French and Italian. Course may be repeated as content changes. Prerequisite: MUS 399 or 499

MUS 413. STYLE AND DESIGN-ANALYSIS: Exploration of appropriate analytical techniques as applied to Western music from the Renaissance to the present. Prerequisite: MUS 212.

MUS 414. STYLE AND DESIGN—SYNTHESIS: Exploration and application of various musical styles as demonstrated by original compositions patterned after selected historic models. Prerequisite: MUS 413.

MUS 416. ADVANCED ORCHESTRATION: Continuation of MUS 316. Intensive instrumentation studies and detailed analysis of orchestral work. Prerequisite: MUS 316.

MUS 418-419. RESEARCH IN MUSIC THEORY: Practical experience in analysis for music theory or composition majors. Prerequisite: Senior standing in music.

MUS 421-422. COMPOSITION IV: Advanced work in musical composition: writing multi-movement forms of both vocal and instrumental music. Prerequisites: MUS 321, 322.

MUS 423. COMPOSITION FOR LARGE ENSEMBLES: Preparation and execution of an extended work for large instrumental or vocal ensemble. All aspects of score and part preparation, notation, orchestration, correction, rehearsal, and performance will be considered.

MUS 424. ADVANCED NOTATIONAL TECHNIQUES: Study of special problems in contemporary notation and calligraphy. Work will be done through analysis of 20th-century techniques and creative solutions to individual problems.

MUS 425. ELECTRONIC MUSIC COMPOSITION: Study of musical electronic techniques, ranging from tape recorders and musique concrete through synthesizer and computer-generated and organized sound.

MUS 426. IMPROVISATIONAL MUSIC COMPOSITION: Discussion, study, and performance of improvisational musical techniques, including historical overview of classical extemporization, stream of consciousness, jazz, and aleatory and indeterminism.

MUS 430. JAZZ PEDAGOGY: Methods and materials for the organization and teaching of jazz performance classes. Topics include teaching improvisation, the rhythm section, and repertoire for the school jazz band. Corequisite: Participation in the jazz program.

MUS 431. MARCHING BAND PEDAGOGY: Methods and materials for the organization and teaching of the high school marching band. Topics include teaching and rehearsal techniques, drill design, and philosophy. Field experience will be required. Corequisite: Participation in the marching band.
MUS 435. PIANO PEDAGOGY I: Systematic preparation for the development of piano technique and tone; survey and study of graded teaching material of grades I and II. Prerequisite: Four terms of piano study or the equivalent. 2 sem. hrs.

MUS 440. ADVANCED INSTRUMENTAL CONDUCTING: Individualized instruction dealing with advanced analysis, interpretation, aural skills, repertoire study, and conducting. Prerequisite: MUS 346. 2 sem. hrs.

MUS 452. CONTEMPORARY LITURGICAL MUSIC REPERTOIRE: Examination of ways in which contemporary musical resources are utilized in the worship of Christian churches. Choral, congregational, cantoral and instrumental material will be considered in the context of both the liturgical seasons and specific services. REL 446 recommended. 3 sem. hrs.

MUS 459. CHURCH MUSIC INTERNSHIP: Minimum of one semester’s supervised service as organist and/or choral director in an approved parish setting. Prerequisites: Completion of half of certificate requirements; permission. 2 sem. hrs.

MUS 486. PSYCHOLOGICAL FOUNDATIONS OF MUSIC II: Introduction to research methods; review of literature on experimental studies. Research project. Prerequisite: MUS 485. 2 sem. hrs.

MUS 491. UNIVERSITY SYMPHONY ORCHESTRA: Performing ensemble of string, wind, brass, and percussion players; preparing literature for orchestra and chamber orchestra. Open to all university community members by audition. 1 sem. hr.

MUS 492. SYMPHONIC WIND ENSEMBLE: Select band that performs the finest in wind literature. Presents regular concerts during fall and winter terms. Auditions required. 1 sem. hr.

MUS 493. UNIVERSITY CHORALE: Mixed vocal ensemble performing music from all style periods in regular concert appearances. Open to all University students. Auditions required. 1 sem. hr.

MUS 499. PERFORMANCE STUDIES: Private instruction (1-hr. lessons weekly) in the same subjects as MUS 399. Fee. Prerequisite: Permission of instructor. 4 sem. hrs.

MUS 560. SPECIAL TOPICS IN MUSIC: Studies in specialized areas of music. May be repeated as topics change, up to six semester hours. Pre-requisite: Permission of instructor. 1-4 sem. hrs.
MUSIC FEES: The following fees include practice privileges. This fee schedule is subject to change by the University.

General Education course. See Chapter V.
PHILOSOPHY (PHL)

The objective of the philosophy major program is to provide students with the opportunity to understand contemporary philosophy in view of the history of philosophy. Students majoring in philosophy must successfully complete a minimum of 37. The Philosophy major program is also offered in India in conjunction with the Marianists. Consult the chairperson of the department for further information.

The philosophy minor consists of 18 semester hours of coursework, at least 12 of which must be at the 300-400 level. Required courses are 103, 201 or 302, 350 or 351 or 352 or 353 or 354, one 400-level seminar, and 6 additional semester hours at the 300-400 level. The courses in logic and the history of philosophy are prerequisites for 400-level seminars.

FACULTY

Paul H. Benson, Chairperson

Professors Emeriti: Kunkel, Monasterio, Nersoyan, Rhodes, Zembaty

Professors: Johnson, Quinn, Tibbetts, Ulrich

Associate Professors: Fischer, Fouke, Inglis, Kebede, Mosser, Payne, Richards

Assistant Professors: DesAutels, Morgenstern, Poe

Lecturer: Mullins
COURSES OF INSTRUCTION

NOTE: PHL 103 or ASI-111-112 is a prerequisite for all other PHL courses except PHL 201.

*PHL 103. INTRODUCTION TO PHILOSOPHY: Introduction to philosophical reflection and study of some central philosophical questions in the Western intellectual tradition, including questions of ethics, human knowledge, and metaphysics. Readings from major figures in the history of philosophy such as Plato, Aristotle, Augustine, Aquinas, Descartes, Hume, and Kant. 3 sem. hrs.

*PHL 201. PRACTICAL LOGIC: Introduction to the principles of correct reasoning; techniques for the evaluation of arguments; common fallacies in argumentation; applications to current issues in ethics and other areas. 3 sem. hrs.

PHL 240. RESEARCH METHODOLOGIES AND TECHNOLOGIES: Development of research skills appropriate for the major. Students submit papers carefully selected from written work required for major classes. Required for all Philosophy majors. 1 sem. hr.

*PHL 302. SYMBOLIC LOGIC: Concentrated study of the valid forms of deductive argument and proof in propositional logic and in predicate logic; study of formal systems and of logic and language. 3 sem. hrs.

*PHL 304. PHILOSOPHY OF HUMAN NATURE: The nature of human beings; the functions of consciousness, the possibility of freedom, the sources of values, and the goals of human life. 3 sem. hrs.

*PHL 306. PHILOSOPHY OF KNOWLEDGE: Various criteria, origins, and definitions of knowledge proposed by common sense, science, philosophy, and mysticism; questions of evidence, consistency, and validity pertaining to the problem of truth and belief. 3 sem. hrs.

*PHL 307. PHILOSOPHY AND WOMEN: Issues and problems related to feminist analysis of society and its ideals, such as equal opportunity, sex roles and gender, reverse discrimination, violence, and language. 3 sem. hrs.

*PHL 308. METAPHYSICS: Issues and problems under such topics as appearance and reality; universals; relations of mind and matter; the nature of persons and personal identity; causality; freedom and determination. 3 sem. hrs.

*PHL 309. PHILOSOPHY OF MIND: An analysis of the concept of mind and related issues such as Descartes' mind-body dualism and various responses; the nature of human agency, self-deception; and the rationality of emotions. 3 sem. hrs.

*PHL 310. SOCIAL PHILOSOPHY: The concepts of liberty, justice, and equality as they relate to social problems such as punishment and rehabilitation, insanity and responsibility, privacy, population regulation, economic injustice, environmental degradation, discrimination, and reverse discrimination. 3 sem. hrs.

*PHL 311. PHILOSOPHY OF RELIGION: The main issues involved in religious belief and practice, such as the relationship between reason and revelation; critical presentation of views of main writers in the field. 3 sem. hrs.

*PHL 312. ETHICS: Various types of moral and ethical theory in the Western tradition and major problems such as the extent of human responsibility and the conditions for making ethical judgments. 3 sem. hrs.
PHL 313. BUSINESS ETHICS: Review of general ethical theory; ethical assessments of incidents that often occur in commerce affecting employees, employers, consumers, competitors, or the local community. 3 sem. hrs.

PHL 314. PHILOSOPHY OF LAW: Major concepts of law to include the nature of law, legal reasoning, liberty, justice, responsibility, punishment. 3 sem. hrs.

PHL 315. MEDICAL ETHICS: Introduction to morality in general and inquiry into the major moral problems of medical practice: human life and the preservation of its integrity. 3 sem. hrs.

PHL 315W. PROBLEMS IN MEDICAL ETHICS: An analysis of special ethical issues raised in a specific area of medical practice. Web-based course. May be repeated when topic changes. Prerequisite or Corequisite: PHL 315 or REL 367. 1 sem. hr.

PHL 316. ENGINEERING ETHICS: Introduction to ethical issues in engineering by developing theories of moral justification and codes of ethics for engineers, and by applying these theories and codes to moral issues in engineering. 3 sem. hrs.

PHL 317. ETHICS AND MODERN WAR: Study in applied ethics focusing on the implications of power politics and militarism; various ethical approaches used to evaluate wars, terrorism and violence; and an overview of some alternatives to war. 3 sem. hrs.

PHL 318. FAMILY ETHICS: Introduction to the development of the concept of a family in the tradition of Western philosophy and the philosophic analysis of contemporary ethical problems in marriage and in parenthood. 3 sem. hrs.

PHL 319. INFORMATION ETHICS: Examination of ethical principles, codes, cases, incidents, and issues in the design, implementation, and use of computerized information systems. 3 sem. hrs.

PHL 320. PHILOSOPHY OF ART: Theories of art and criteria of evaluation developed by philosophers, artists, and critics; the relationship between art and society and between artistic and other human values. 3 sem. hrs.

PHL 321. ENVIRONMENTAL ETHICS: Study of the principal ethical perspectives on the treatment of animals and nature including such issues as agriculture, energy, pollution, and economics; assessment of political responses to current environmental problems. 3 sem. hrs.

PHL 323. PHILOSOPHY AND LITERATURE: Critical examination of philosophical concepts in selected literary masterpieces, ancient and modern. 3 sem. hrs.

PHL 324. PHILOSOPHY AND FILM: Introduction to philosophical issues and aesthetic theory through a critical reading of texts and examination of selected narrative, documentary, animated, or abstract films. 3 sem. hrs.

PHL 325. PHILOSOPHY OF MUSIC: Examination of theories on the meaning of music; experiencing music as composer, performer, and listener; aesthetic criteria; moral effect of music. 3 sem. hrs.
* PHL 330. PHILOSOPHY OF SCIENCE: Study of the presuppositions and implications of scientific inquiry from a humanistic viewpoint; explanation in science, the relation between facts and theories, and problems of verification. 3 sem. hrs.

* PHL 331. SCIENCE, OBJECTIVITY, AND VALUES: Study of three interrelated issues: the limits of scientific methodology; science as a social institution; and science and human values. 3 sem. hrs.

* PHL 332. TECHNOLOGY AND VALUES: Study of the social impact of technology-scientists' responsibility; technological change and social change; the "technological fix"; democracy and the new technological elite; counter-culture critiques of technology. 3 sem. hrs.

* PHL 333. PHILOSOPHY AND COGNITIVE SCIENCE: A philosophical introduction to recent research in cognitive psychology, artificial intelligence, and neuroscience regarding human, animal, and machine intelligence; the relation between mind, brain, and personhood; and the biology of conscious states. 3 sem. hrs.

PHL 340. SPECIAL PROBLEMS IN PHILOSOPHY: Examination of perennial and contemporary problems of philosophy. May be repeated when topic varies. 1-3 sem. hrs.

* PHL 344. CORE SEMINAR IN PHILOSOPHY: Culminating course for students in CORE: discussion of selected readings on the issue of human values in a pluralistic society in such areas as wealth and poverty, education, and war and peace. Open only to students in CORE. 3 sem. hrs.

* PHL 345. HONORS SEMINAR IN PHILOSOPHY: Study and seminar discussion of selected major philosophical works and of the analysis, interpretation, and criticism of these works. Open by permission only to students in the University Honors Program. 3 sem. hrs.

* PHL 350. CLASSICAL GREEK PHILOSOPHY: The Greek origins of Western scientific, philosophical, and political thought; relationships to current thoughts; ideas of the Pre-Socratics, Plato, and Aristotle in their cultural contexts. 3 sem. hrs.

* PHL 351. MEDIEVAL PHILOSOPHY: Major philosophical problems from the 4th through the 16th centuries and their importance in shaping current beliefs and traditions in the Augustinian, Jewish, Islamic, Persian, Thomist, and Oxford cultural settings; human action, conscience, freedom, and law. 3 sem. hrs.

* PHL 352. MODERN PHILOSOPHY: Development of philosophy in the 17th and 18th centuries up to Kant with a focus on several major philosophical figures such as Descartes, Spinoza, Leibniz, Locke, Berkeley, and Hume. 3 sem. hrs.

* PHL 353. KANT AND NINETEENTH-CENTURY PHILOSOPHY: Development of philosophy beginning with Kant through the 19th century including Kant and philosophers such as Fichte, Schelling, Hegel, Schopenhauer, Nietzsche, James, Peirce, and Frege. 3 sem. hrs.

* PHL 354. TWENTIETH-CENTURY PHILOSOPHY: A study of some of the major philosophical movements in the 20th century including phenomenology, existentialism, critical theory (Frankfurt School), hermeneutics, and analytic philosophy. 3 sem. hrs.
* PHL 355. EASTERN PHILOSOPHY: Introduction to the ways of Asian wisdom considering Oriental philosophy as a specialized learning directed to the attainment of enlightenment and equanimity. Comparisons with Western traditions. 3 sem. hrs.

* PHL 356. CHRISTIAN PHILOSOPHY: Major issues such as the relation of faith to reason, the relation of science to faith, and the problem of natural law; works by contemporary philosophers such as Kierkegaard, Marcel, Maritain, Noonan, and Plantinga. 3 sem. hrs.

* PHL 357. RADICAL PHILOSOPHY: Study of major attempts to develop a critical understanding of society; analysis of theories such as socialism, anarchism, feminism, critical theory, and critical race theory. 3 sem. hrs.

* PHL 358. MARXIST PHILOSOPHY: Introduction to the thought of Karl Marx through a study of the historical setting of the man and his writings, along with recent interpretations of his thought. 3 sem. hrs.

* PHL 360. EXISTENTIALISM: Major themes in representatives of the existentialist movement, such as human freedom, the absurdity of human existence, the primacy of action, and the roles of speculation and the emotions. 3 sem. hrs.

* PHL 361. AMERICAN PHILOSOPHY: Introduction to selected writings of such classical American thinkers as Thoreau, James, Mead, Dewey, Santayana, and Whitehead. Topics include knowledge, freedom, and human values. 3 sem. hrs.

* PHL 362. PHILOSOPHY OF LANGUAGE: Theories of meaning and reference and their philosophical significance. 3 sem. hrs.

* PHL 364. RACE, GENDER, AND PHILOSOPHY: A philosophical investigation into the systematic nature of racism and sexism, including inquiry into the epistemological, metaphysical, linguistic, and representational structures that sustain and perpetuate the power dynamics of western post-colonial patriarchal society. 3 sem. hrs.

* PHL 370. POLITICAL PHILOSOPHY: Philosophical theories regarding the nature of the state and the legitimation of political authority will be analyzed and evaluated in the context of philosophical conceptions of human nature, liberty, equality, justice, welfare, and power. 3 sem. hrs.

* PHL 371. PHILOSOPHY AND HUMAN RIGHTS: Examination of the nature and philosophical foundations of universal moral (human) rights; and application of human rights theory to issues and cases involving civil and political rights, and rights to equality, security, subsistence, education, welfare, employment, and health care. 3 sem. hrs.

* PHL 372. VALUES AND ECONOMICS: An inquiry into the impact of values and beliefs on the generation of modern economic forces. Analyzing capitalism as a system of validation of beliefs and values, the course relates underdevelopment with the conflict between tradition and modernity. It then reflects on the conditions of change liable to promote global expansion. 3 sem. hrs.
PHL 440. SEMINAR-ADVANCED PROBLEMS IN PHILOSOPHY: Detailed examination of some of the more technical problems of philosophy as well as those problems that arise in interdisciplinary settings upon which philosophers have brought their technical skills to bear. May be repeated when topic varies.  
3 sem. hrs.

PHL 451. SEMINAR-INDIVIDUAL PHILOSOPHERS: Detailed examination of the thought of an individual philosopher (e.g., Aquinas, Kant, Rawls, Quine) who is of sufficient importance to warrant special study. May be repeated when topic varies.  
3 sem. hrs.

PHL 461. SEMINAR-CONTEMPORARY EPISTEMOLOGY: Study of recent philosophical work in the theory of knowledge inclusive of scepticism, knowledge and belief, evidence and justification, theories of perception and knowledge, human interests and valuation.  
3 sem. hrs.

PHL 462. SEMINAR-CONTEMPORARY ETHICS: Study of recent philosophical work in ethics inclusive of an analysis of ethical concepts, theories of normative ethics, theories of human action, and moral justification.  
3 sem. hrs.

PHL 463. SEMINAR-CONTEMPORARY METAPHYSICS: Study of recent work in metaphysics inclusive of the nature of metaphysics, causality, free will and determinism, personal identity and the theory of mind and body.  
3 sem. hrs.

PHL 490. DIRECTED READINGS: Guided independent study primarily for philosophy majors but open to students who have completed 12 sem. hrs. in philosophy. Normally 3 sem. hrs. but in certain cases the chairperson may approve 1, 2 or 4 sem. hrs. May be repeated when topic varies. Prerequisite: Permission of the instructor and the chairperson.  
1-4 sem. hrs.

PHL 492. DIRECTED RESEARCH: Faculty-directed research for philosophy majors who have completed all 300-level requirements and at least one 400-level seminar. Students will write a substantial paper in relation to this research. Permission of the instructor and the chairperson.  
3 sem. hrs.

PHL 495. INTERNSHIP: Supervised practical and professional experience related to philosophy for philosophy majors who have completed prescribed course work. Permission of the chairperson. May be repeated to a maximum of 3 sem. hrs. Grading Option 2 only. Prerequisites: PHL 103, 302, 350, 352 and one 400-level seminar.  
1-3 sem. hrs.

*General Education course. See Chapter V.
The program leading to the Bachelor of Science with a major in Physics is designed to provide a strong yet versatile basis for a subsequent scientific career or advanced study. Minimum requirements for all majors are listed below, but students planning for graduate work in physics or an allied area are advised to select additional mathematics and physics courses. A physics major must complete all 300-400-level courses with a 2.0 minimum grade-point average.

Students in other disciplines who wish to minor in physics may take 12 semester hours of any upper-level (300-400) physics courses.

**FACULTY**

J. Michael O'Hare, Chairperson  
*Distinguished Professor:* Bueche  
*Professors Emeriti:* Graham, Kepes, Miner  
*Professors:* Evwaraye, O'Hare, Pedrotti, Yaney  
*Associate Professors:* Berney, Brecha, Craver, Erdei, Powers  
*Assistant Professors:* Ahouija, Elhamri, Smith  
*Lecturer:* Goldmann

**COURSES OF INSTRUCTION**

PHY 100. SEMINAR: Opportunity to become acquainted with the broad spectrum of modern science through periodic meetings with the entire department. Invited speakers, films, student presentations, book reviews, and informal discussions. For all physics, physical science, and physics-computer science majors.  
*No credit*

PHY 105. PHYSICAL SCIENCE: Broad introduction to physical science. Emphasis on concepts and scientific thought processes in dealing with principles in physics; some applications to chemistry, astronomy, and meteorology. This course includes an integrated laboratory component. For nonscience students. Prerequisite: None.  
*4 sem. hrs.*
* PHY 108. PHYSICAL SCIENCE OF LIGHT AND COLOR: A treatment of physical science with emphasis on light, color, and the interaction of light with materials. For nonscience students. Prerequisite: None. 3 sem. hrs.

PHY 108L. LIGHT AND COLOR LABORATORY: Laboratory experiences to accompany PHY 108. Corequisite: PHY 108. 1 sem. hr.

* PHY 201. GENERAL PHYSICS: Topics from mechanics, thermal and mechanical properties of matter, wave motion and sound, and electricity without the formalism of calculus. First term, each year. 3 sem. hrs.

PHY 201L. GENERAL PHYSICS LABORATORY: Introductory laboratory appropriate for students of the health sciences. Experimental scientific techniques and the use of standard laboratory equipment. One two-hour period each week. First term, each year. Corequisite: PHY 201 or 206. 1 sem. hr.

* PHY 202. GENERAL PHYSICS: Continuation of PHY 201 with a treatment of electricity and magnetism, wave motion and properties of light, atomic and nuclear physics. Second term, each year. Prerequisite: PHY 201. 3 sem. hrs.

PHY 202L. GENERAL PHYSICS LABORATORY: Experimental scientific techniques and the use of standard laboratory equipment. One two-hour period per week. Second term, each year. Prerequisite: PHY 201L. 1 sem. hr.

* PHY 203. MODERN TECHNICAL PHYSICS: Introduction to selected topics in modern physics without the formalism of calculus. For engineering technology students. Prerequisites: College algebra, trigonometry, and introductory statics and dynamics. 3 sem. hrs.

PHY 203L. TECHNICAL PHYSICS LABORATORY: Laboratory experiences to accompany PHY 203. 1 sem. hr.

* PHY 206. GENERAL PHYSICS I—MECHANICS: Introductory course in mechanics for students with a strong background in physics. Three lectures, one recitation each week. Corequisite: MTH 148 or 168. 3 sem. hrs.

* PHY 206H. GENERAL PHYSICS I—MECHANICS (HONORS): Introductory course in mechanics for students with a strong background in physics. Three lectures, one recitation each week. By invitation only. Corequisite: MTH 148 or 168. 3 sem. hrs.

* PHY 207. GENERAL PHYSICS II—ELECTRICITY AND MAGNETISM: The basic principles of electricity and magnetism. Three lectures, one recitation each week. Prerequisite: PHY 201 or 206. Corequisite: MTH 149 or 169. 3 sem. hrs.

* PHY 208. GENERAL PHYSICS III—MECHANICS OF WAVES: Introduction to wave phenomena (including sound, light, and matter waves) leading to basic concepts in modern physics. Prerequisites: PHY 202, MTH 149; or PHY 207, MTH 169. 3 sem. hrs.

PHY 210L. GENERAL PHYSICS LABORATORY I: Introduction to laboratory methods, handling of data, and analysis of results. Experiments appropriate to the background of students with an interest in mathematical and physical sciences. Two hours laboratory, one hour recitation each week. Corequisite: PHY 206. 1 sem. hr.
PHY 211L. GENERAL PHYSICS LABORATORY II: Laboratory methods, data handling, and analysis of results. Experiments appropriate to the background of students with an interest in mathematical and physical sciences. Two hours laboratory, one hour recitation each week. Prerequisite: PHY 210L. Corequisite: PHY 207. 1 sem. hr.

PHY 250. DESCRIPTIVE ASTRONOMY: Descriptive survey for students who have had little or no previous exposure to astronomy; material from ancient times to present, including pulsars and quasi-stellar objects. Prerequisite: None 3-4 sem. hrs.

PHY 299. SPECIAL PROBLEMS: Special topical courses, laboratory, tutorial, or library work in areas of current interest. Students should consult the composite. 1-4 sem. hrs.

PHY 301. THERMAL PHYSICS: Thermodynamical descriptions of many particle systems obtained from microscopic statistical considerations; laws of thermodynamics, kinetic theory of dilute gases, and Fermi-Dirac and Bose-Einstein statistics. Prerequisite: PHY 208. Corequisite: MTH 219. 3 sem. hrs.

PHY 321. ATOMIC AND NUCLEAR PHYSICS: Concepts and models of the structure of matter; atoms, ions, electrons and nuclei, radioactivity, interactions of radiation with matter, particle detection, accelerators, nuclear models, nuclear reactions and processes, and fundamental particles. Prerequisite: PHY 208 or consent of instructor. 3 sem. hrs.

PHY 323. COMPUTATIONAL PHYSICS: The course will explore how computers are used in physics. Topics will include simulations of physical systems, numerical analysis, and the use of mathematical analysis packages (MATHCAD, for example.) Programming will be done in True BASIC and MATHCAD. Prerequisites: PHY 208, MTH 218. 3 sem. hrs.

PHY 333. DIGITAL AND ANALOG ELECTRONICS FOR SCIENTISTS: Basic concepts of digital and analog integrated circuit electronics are developed as a way to understand modern microcomputer based instrumentation. A microcomputer based data collection and analysis system is used to study binary data input and output, analog to digital conversion (ADC) devices, digital to analog conversion (DAC) devices, and other digital integrated circuits and concepts. The analog electronics part of the course begins with a study of discrete analog devices and ends with operational amplifiers and their application. Two hours lecture and two-hour laboratories each week. Prerequisite: PHY 211L or PHY 202L or equivalent. 3 sem. hrs.

PHY 390. INTRODUCTION TO QUANTUM MECHANICS: Basic postulates of quantum mechanics with applications made to atomic physics. Prerequisites: PHY 208, MTH 219. Corequisite: MTH 302. 3 sem. hrs.

PHY 395. RESEARCH PARTICIPATION I: Individual projects conducted as part of the physics Undergraduate Research Participation program to encourage involvement of students with faculty researchers. Projects must be arranged in advance with faculty research directors. 1-6 sem. hrs.

PHY 399. SPECIAL PROBLEMS IN (NAMED AREA): Special topical courses, laboratory, tutorial, or library work in areas of current interest. Students should consult the composite. 1-4 sem. hrs.
PHY 403. INTERMEDIATE MECHANICS II: Emphasis on solving physical problems; noninertial coordinate systems, rigid body motion, rotating systems, coupled systems, introductory fluid statics and dynamics, normal coordinates, and the descriptions of mechanics appropriate for the transition to wave mechanics. Prerequisite: PHY 303.  
3 sem. hrs.

3 sem. hrs.

3 sem. hrs.

PHY 409. INTERMEDIATE ELECTRICITY AND MAGNETISM II: Further study of electric and magnetic fields with emphasis on solving problems; Maxwell's equations, propagation of electromagnetic waves, electromagnetic radiation. Prerequisite: PHY 408.  
3 sem. hrs.

PHY 411. TOPICS IN MODERN PHYSICS: Elements of modern optics, solid state and other selected subjects. Consult chairperson for details. Prerequisite: PHY 390 or equivalent.  
3 sem. hrs.

PHY 420. INTRODUCTION TO SOLID STATE: Classification of solids, crystals and crystal structures, survey of lattice properties, free electron theory, band theory of solids, semi-conductors, and crystal imperfections. Prerequisites: PHY 208, 390, MTH 219.  
3 sem. hrs.

PHY 430-431-432-433. ADVANCED LABORATORY: Experimental investigations based on principles from atomic and nuclear physics, electricity and magnetism, modern and classical optics, mechanics, solid state, cryogenics, x-ray diffraction, surface physics, or electronics. Not all experiments available every semester; consult chairperson for details. Prerequisite: PHY 333. Corequisite: An advanced course in physics.  
2 sem. hrs. each

PHY 440. QUANTUM MECHANICS II: Study of selected principles in quantum mechanics. Prerequisite: PHY 390.  
3 sem. hrs.

PHY 450. SENIOR PROJECT: The senior project is a capstone experience for senior physics majors. It will consist of a research project of the student's choosing and will require both an oral and written report. The nature and scope of the project will be chosen in consultation with the student's advisor. Permission of the department chairperson is required. Prerequisite or corequisite: senior physics majors only.  
3 sem. hrs.

PHY 460. SEMINAR: Presentation of papers by undergraduate students, faculty, and guest lecturers on topics of concern to the modern physicist. Reviews of books and films appropriate to the group.  
1 sem. hr.

PHY 495. RESEARCH PARTICIPATION II: Individual projects conducted as part of the physics Undergraduate Research Participation program to encourage involvement of students with faculty researchers. Projects must be arranged in advance with faculty research directors.  
1-6 sem. hrs.
PHY 499. SPECIAL PROBLEMS IN (NAMED AREA) (HONORS): Laboratory, tutorial, or library work in one of such selected topics as solid state physics, polymers, atomic and nuclear physics, modern optics, theoretical physics, surface physics, or general physics. Prerequisite: Permission of department chairperson.  1-6 sem. hrs.

*General Education course. See Chapter V.
This combined program in physics and computer science leading to the Bachelor of Science with a major in Physics-Computer Science emphasizes the use of computer software in scientific applications and at the same time gives a foundation in the scientific disciplines of physics and computer science. Minimum requirements for the degree are listed below. Students are advised to select additional computer science, mathematics, and physics courses as electives. For further information contact the Physics Department.

**BACHELOR OF SCIENCE WITH A MAJOR IN PHYSICS-COMPUTER SCIENCE (PCS)**

Computer Science ................................................................. 27
   CPS 150, 151, 250, 346, 350, 353, and two additional courses numbered above 340.
   Additional numerical analysis courses are recommended.
Mathematics: MTH 168, 169, 218, 219, 302 ................................................................. 18

Physics ....................................................................................... 27-30
   PHY 206, 207, 208, 210L, 211L, 323, 333 and four additional courses numbered above 300. In addition, a senior project involving some application of computers in physics is recommended.

Communication competencies ................................................. 3-9
Humanities ................................................................................. 9
Social and behavioral sciences ................................................. 6
Philosophy and religious studies ............................................. 12
First-year experience: ASI 150 ................................................. 0-1
General Education courses and academic electives to total at least ........................................... 120

1Consult General Requirements for all Bachelor of Science Programs and Chapter V for General Education requirements.
PHYSICAL SCIENCE (PSC)

The Physical Science Program is administered by the Department of Physics. It provides a broad training in the physical sciences that is desirable for one who plans to pursue a goal built on a composite science background. The physical science major combines adequate physics, chemistry, geology, and mathematics to provide a sound working knowledge of physical science. Since the program is less specialized than one in a single science, it has provision for adequate course selections and sufficient electives to provide the opportunity for concentrated study in a discipline chosen to meet the career objectives of the individual student.

MINORS AND AREA CONCENTRATIONS FOR MAJORS

A student majoring in political science may elect licensure in education (see EDT) or a minor in any related discipline within the College of Arts and Sciences. The student must consult with the department administering the discipline for the particular requirements of a minor. Alternatively, the student may elect one of the four multidisciplinary concentrations in prelaw, international affairs, public administration and urban affairs, and political journalism developed by the Department of Political Science. A student completing an area concentration will, upon request, receive a certificate to that effect from the department.

1See also Distribution Table for Bachelor of Arts programs and Chapter V for General Education requirements.

1. Prelaw

- Required: POL 301 or 411; ENG 272, 316, or 474 ........................................... 6
- Choose three: ECO 204; ENG 203, 204, or 205; PHL 201; SOC 326, 327 ........ 9
- Recommended: POL 495 .................................................................................. 3

2. International Affairs

- Required: POL 202, 214 ..................................................................................... 6
- Choose four: ANT 150; ECO 450, 460, 461; any upper-level non-American HST 12
- Recommended: Foreign language through 311 and study abroad
3. Public Administration and Urban Affairs
   Required: POL 305, 306, 360 .................................................. 9
   Choose three: MGT 301; HST 355; SOC 328; ENG 370 or 372;
                  ECO 445 or 485; POL 495 ........................................ 9
4. Political Journalism
   Required: POL 303, 311; CMM 330 ........................................... 9
   Choose three: CMM 201; CMM 353; CMM 431, 331; POL 360, 450 .......... 9

FACULTY

Christopher Duncan, Chairperson
Professors Emeriti: Lapitan, Kerns
Professors: Ahern, Karns
Associate Professors: Bilocerkowycz, Ensalaco, Ghere, Inscho
Assistant Professors: Martorano, Nelson, Pierce, Price
Lecturer: Putka

COURSES OF INSTRUCTION

* POL 101. GLOBAL POLITICS: Examination of major problems and trends in world politics such as ethnic and religious conflict, economic integration and inequality, democratization and security issues, as well as the role of regional and international organizations. 3 sem. hrs.

POL 201. THE AMERICAN POLITICAL SYSTEM: Study of the American political system, its attitudinal and constitutional base, its structure and processes. 3 sem. hrs.

POL 202. INTRODUCTION TO COMPARATIVE POLITICS: Analysis of major concepts and approaches in the study of comparative government and politics. 3 sem. hrs.

POL 207. POLITICAL ANALYSIS: Introduction to the basic concepts and processes of research in political science. 3 sem. hrs.

POL 214. INTRODUCTION TO INTERNATIONAL POLITICS: Analysis of the dynamic forces of conflict and cooperation in world politics. 3 sem. hrs.

POL 300. POLITICAL ISSUES: Introductory examination of contemporary political issues selected by the instructor, such topics as welfare, political morality, political campaigns, institutional reform, and political economy. 3 sem. hrs.

POL 301. THE AMERICAN JUDICIAL PROCESS: Study of the judicial process as part of the political system. Focus on the participants (police, lawyers, judges, interest groups, litigants, jurors) and the process (criminal, civil, and appellate proceedings). 3 sem. hrs.

POL 303. STATE AND LOCAL GOVERNMENT: Comparative study of the political institutions, processes, and systems of the fifty states and their effect on the content and administration of selected public policies, programs, and services. 3 sem. hrs.

POL 305. INTRODUCTION TO PUBLIC ADMINISTRATION: Basic principles of organization and management in executive departments of government at all levels; questions of planning, leadership, and control. 3 sem. hrs.

* POL 306. PUBLIC POLICY ANALYSIS: Introduction to public policy-making systems and the methodology of policy analysis; theories of policy formulation, the policy-making process, means for measuring policy effectiveness, analysis of proposals for policy change. 3 sem. hrs.
POL 310. PARTIES AND INTEREST GROUPS: Analysis of the nature and interaction of parties and interest groups, and their role in the political system. 3 sem. hrs.

POL 311. PUBLIC OPINION AND POLITICAL BEHAVIOR: The formation, maintenance, change, and impact of public opinion on the American political system; the role of theory and analysis of data in understanding public and political behavior. 3 sem. hrs.

POL 313. THE AMERICAN PRESIDENCY: Study of the American presidency, the development of presidential powers, and its leadership role in the political system. 3 sem. hrs.

POL 317. DEVELOPMENT OF POLITICAL THEORY: Analysis of selected theorists and political doctrines forming the tradition of Western thought on politics. Theorists including Plato, Aristotle, the Stoics, Augustine, Aquinas, Machiavelli, Hobbes, Locke, Rousseau, Mill, Marx, Spencer, Lenin, Gasset, and Camus presented in their historical and socio-political contexts. 3 sem. hrs.

POL 320-329. COMPARATIVE POLITICS: Analysis of governmental institutions and political processes of selected countries or areas:
- POL 320—Western Europe
- *POL 321—Russia and the New States
- *POL 323—Latin America 3 sem. hrs. each

*POL 331. NATIONALISM AND ETHNOPOLITICS: An analysis of the politics of nationalism and ethnicity and their impact on social justice. Diverse case studies (US, Russia, Northern Ireland, Israeli-Palestinian) and institutions (European Community, United Nations) will be explored. 3 sem. hrs.

POL 333. POLITICS OF HUMAN RIGHTS: Examines the evolution of international human rights norms and the creation of the institutions for the protection and promotion of human rights, and case material relating to each category of internationally recognized human rights. 3 sem hrs.

POL 335. UNITED STATES NATIONAL SECURITY POLICY: Analysis of various political, economic, and military issues and problems relating to U.S. national security. 3 sem hrs.

POL 350. LEGISLATIVE POLITICS: Study of the U.S. Congress, its organization and procedures, and its powers and influence in the political system. 3 sem. hrs.

POL 360. URBAN POLITICS AND POLICY: Study of the nature of urban political systems in the U.S. with emphasis on explanation of differences in their policy responses. 3 sem. hrs.

*POL 371. ENVIRONMENTAL POLICY: Examination of environmental public policymaking and implementation in the U.S. and in the international arena. Analysis of domestic and international governmental responses to specific environmental issues. 3 sem. hrs.

POL 404. UNITED STATES-LATIN AMERICAN RELATIONS: This course examines the foreign relations of the United States with other countries of the Western hemisphere.
Political, economic and security issues are examined from both theoretical and historical perspectives. Prerequisite: POL 201 or POL 214 or permission. 3 sem. hrs.

POL 406. INTERNATIONAL LAW AND ORGANIZATION: Study of rules governing the community of nations; their nature, sources, and development; the international agencies responsible for their development, interpretation, and administration. Prerequisite: POL 214 or permission. 3 sem. hrs.

POL 407. CHINESE FOREIGN POLICY: Analysis of the Chinese foreign policy structures and processes as well as the development of Chinese foreign policy and relations with the Soviet Union, the United States, and the Third World. 3 sem. hrs.

POL 408. AMERICAN FOREIGN POLICY: Critical study of the American foreign policy process and evaluation of the sources of American foreign policy. Prerequisites: POL 201 and POL 214 or permission. 3 sem. hrs.

POL 409. RUSSIAN FOREIGN POLICY: Analysis of the internal and external factors shaping the foreign policies of Russia and the independent republics. 3 sem. hrs.

POL 410. COMPARATIVE FOREIGN POLICY: Comparative analysis of the foreign policies of major states with emphasis on the process of policy development and on the national and international determinants of policy behaviors. Prerequisite: POL 202 or 214 or permission. 3 sem. hrs.

POL 411. CONSTITUTIONAL LAW: Analysis of the role of the U.S. Supreme Court in its interpretation of the Constitution. Emphasis on the various methods of judicial interpretation as they affect such provisions as the commerce clause, the taxing and spending powers, due process, the dimensions of presidential and congressional authority, and the doctrine of judicial review. Prerequisite: POL 301 or permission. 3 sem. hrs.

POL 413. THE POLITICS OF BUREAUCRACY AND REGULATION: Examination of the nature and meaning of bureaucracy in contemporary American society and the devices for its evaluation and control. 3 sem. hrs.

POL 421. SEMINAR IN POLITICAL SCIENCE: Seminar on current problems and issues in political science. May be taken more than once when content changes. Prerequisite: Must be POL major and have completed POL core courses. 3 sem. hrs.

POL 431. INDEPENDENT STUDY AND RESEARCH: Individual reading and research on selected topics under faculty direction. Recommended for seniors only. Prerequisite: Permission of professor. 3 sem. hrs.

*POL 450. CIVIL LIBERTIES: Analytical examination of civil liberties in the U.S. with emphasis on the Supreme Court as arbiter in the endless conflict between the demand for individual liberty and the needs of constitutional authority. Prerequisite: POL 301 or POL 411 or permission. 3 sem. hrs.

POL 452. POLITICAL VIOLENCE: Consideration of theoretical approaches to understanding violent change in political institutions; the continuum between violence and nonviolence; revolution, revolt, campus dissent, and political assassination. Prerequisite: POL 202 or POL 333 or permission. 3 sem. hrs.
POL 475. AMERICAN POLITICAL THOUGHT: Ideas that have shaped the American political system: Puritanism, the American Revolution, Hamiltonianism, Jeffersonianism, racism, nativism, social Darwinism, the New Deal, and contemporary liberalism and conservatism. Prerequisites: POL 201 and POL 317 or permission.

3 sem. hrs.

POL 479. SELECTED TOPICS IN PUBLIC POLICY: Intensive examination of policy process, outcomes, and impact in an area or areas of American public policy selected by the instructor; such topics as transportation, education, welfare, national defense, urban and community development, civil rights, and science and technology. May be repeated once when topic changes.

3 sem. hrs.

POL 495. INTERNSHIP: Supervised experience in government agencies and programs. Prelaw students are assigned to law firms and judicial chambers. Prerequisite: Permission of supervising professor.

3 sem. hrs.

POL 497. SERVICE LEARNING EXPERIENCE: Supervised community research or service experience that complements a specific upper division course in Political Science. Repeatable up to three semester hours. No more than 3 semester hours of Social Science 497 credits can count toward graduation. Prerequisite: Permission of instructor. Corequisite: A 300-400 Political Science course.

1 sem. hr.

*General Education course. See Chapter V.
PRELAW

At the University of Dayton, students thinking about attending law school join the Prelaw Program. That program provides them with the guidance and academic assistance necessary to prepare them for success in the study of law. Because law schools seek students with a broad, liberal arts education and discourage students from having a vocationally-oriented “prelaw” major, prelaw students at the University of Dayton select undergraduate majors based on their interests and aptitudes. They select these majors either as incoming first-year students or, with the aid of their prelaw advisors, later in their college career. However, in order to receive adequate counseling, all students thinking about postgraduate work in law should declare their prelaw intentions to the prelaw office as early as possible. This enables them to take full advantage of all the counseling, advising, and preparatory services provided by the Prelaw Program.

In addition to courses in their majors, prelaw students select courses that help develop analytical skills and academic abilities necessary for success in law school and careers in law. While no prelaw course of study is perfect for all students, particular courses taken in conjunction with a traditional academic major provide the prelaw student with an excellent academic preparation for legal study. Students take courses which emphasize the following:

1. Skill in the analysis and synthesis of ideas. Courses in such disciplines as history, literature, mathematics, philosophy, and the sciences develop critical, analytical thinking.

2. Proficiency in communicating ideas effectively and clearly. Courses in such areas as composition theory and process, in exposition and argumentation, in persuasion, and in the techniques and uses of research aid in the development of this ability.

3. Comprehension of the basic principles of the American political and legal system, including their origins and functions. Courses in British and American history, political science, and criminal justice promote an understanding of these concepts.

4. A critical examination of the ethical issues in the law and the legal profession. Courses in philosophy and religious studies form a basis for such an examination.

5. An understanding of the basic principles of economics and accounting.

Members of the Prelaw Faculty Committee help students develop an appropriate course of study based on their interests, aptitudes and goals. In addition, they provide students with information about law school recruitment, financial aid, the Law School Admission Test (LSAT), and the writing of applications and securing of recommendations. The Prelaw Program also sponsors LSAT preparation workshops, a prelaw internship for which students receive course credit while working in an attorney’s office, and mock trial competition. A chapter of Phi Alpha Delta, a national law fraternity, is active on campus.

PRELAW FACULTY COMMITTEE

Roberta Sue Alexander (History), Director, Prelaw Program
Frasca (Economics), Ingram (Criminal Justice),
Kimbrough (English), Payne (Philosophy)
COURSES OF INSTRUCTION

PLW 301. MOCK TRIAL I: Practice and performance of attorney and witness roles for Mock Trial National Competition case. Repeatable up to 4 semester hours. 1 sem. hr.

PLW 302. MOCK TRIAL II: Practice and performance of attorney and witness roles for Mock Trial Regional and National Competitions. Repeatable up to 4 semester hours. Prerequisite: PLW 301 and invitation by mock trial coaches. 1 sem. hr.
PSYCHOLOGY (PSY)

Psychology is the scientific study of behavior, and as such is a diverse field that touches all aspects of human endeavor.

The objectives of the Department of Psychology are to provide students with learning experiences in and out of the classroom which will increase their critical thinking skills, facilitate their acquisition of the body of knowledge inherent in the study of human behavior, equip them with its research methodology, and prepare them for employment or graduate school.

The Department of Psychology offers both the Bachelor of Arts and the Bachelor of Science. Each student, in consultation with an advisor, selects a program leading to either a Bachelor of Arts or a Bachelor of Science with appropriate elective credits according to individual interests and goals. The availability of both degrees allows the student to plan a double major or a major in psychology with a strong concentration of study in a related or complementary discipline. It also allows for easy transfer into psychology from prior majors. The Department encourages students who are interested in preparation for graduate school or a career in a particular area of psychology to consult the Psychology Undergraduate Student Handbook, available on the World Wide Web, for a listing of courses that are recommended for preparation in that area. Some examples of such areas include clinical psychology, developmental psychology, human factors/ergonomics, and social psychology.

Each psychology major must complete PSY 101, 216, and 217 early in his or her academic career. The remaining requirements are stated in the two outlines below. Exceptions to these requirements must be approved by the chairperson.

Psychology majors are required to attain grades of C- or better in the following courses: PSY 101, 216, 217, and any two courses from each of the two core groupings (PSY 321, 322, 323, and 422) (PSY 341, 351, 361, and 363). If a C- or better is not attained, courses will have to be retaken if they are used to satisfy the psychology major.

A minor in Psychology consists of 18 hours, including PSY 101, one course from each of the two core areas (PSY 321, 322, 323, and 422) and (PSY 341, 351, 361, and 363) and an additional 9 hours of 300/400 level psychology electives. Only 3 hours of PSY 490, 493, and 494, and/or 497 may count toward the minor.

5May substitute MTH 116, 128, 129, 137, 138, 168, or 169 for MTH 148 or 149.
FACULTY

David W. Biers, Chairperson
Professors Emeriti: Allik, DaPolito, Kuntz
Professors: Butter, Eggemeier, Kimble, Polzella
Associate Professors: Biers, Bower, Elvers, Graetz, Katsuyama, Korte,
Moroney, Reeb, Roecker-Phelps
Assistant Professors: Crutcher, Davis, Geddie, Lutz, Rye
Adjunct Faculty: Martin, Ramsey, Szoke, Zink

COURSES OF INSTRUCTION

*PSY 101. INTRODUCTORY PSYCHOLOGY: Study of human behavior including development, motivation, emotion, personality, learning, perception; general application of psychological principles to personal, social, and industrial problems. Students must participate in departmental research. 3 sem. hrs.

PSY 216. ELEMENTARY STATISTICS: Basic probability and applied statistics: measures of central tendency and dispersion, sampling, estimation, hypothesis testing, tests between means, linear regression, correlation, and ANOVA. Prerequisites: PSY 101 and MTH 102 or higher. 3 sem. hrs.

PSY 217. EXPERIMENTAL PSYCHOLOGY: Basic concepts of scientific methods as applied to psychological problems. Experiments to familiarize students with application of scientific methodology to study of human psychological processes. Required of all psychology majors. Prerequisites: PSY 101, 216. 4 sem. hrs.

PSY 251. HUMAN GROWTH AND DEVELOPMENT: Focuses on stages of human development from infancy through the aging adult. Emphasis is on various theoretical approaches and the development associated with each stage. Psychology majors may not take for credit toward major. Prerequisite: PSY 101. 3 sem. hrs.

PSY 321. COGNITIVE PROCESSES: Information-processing approach to attention, perception, memory, imagery, and thought. Theoretical structures including neuron modeling of higher cognitive and experimental processes. Prerequisite: PSY 101. 3 sem. hrs.

PSY 321L. COGNITIVE PROCESSES LABORATORY: In-depth discussion of seminal research in cognition. Collection, analysis, and interpretation of data. Prerequisites: PSY 101, 216, 217, 321 or permission of instructor. 1 sem. hr.

PSY 322. LEARNING: Foundations of the learning process. Classical and instrumental paradigms and variants of each considered in preparation for investigations of complex learning. Prerequisite: PSY 101. 3 sem. hrs.

PSY 323. PSYCHOLOGY OF PERCEPTION: Introduction to major theoretical and experimental work in perception, including visual, auditory, proprioceptive, and other sensory systems. Prerequisite: PSY 101. 3 sem. hrs.

PSY 333. PSYCHOLOGICAL TESTS AND MEASUREMENTS: Survey of major tests of intelligence, aptitude, interest, and personality presently used in clinics, schools, personnel offices, and research settings. Emphasis on evaluation and comparison, rationale of construction, ethical considerations. Prerequisites: PSY 101, 216 or equivalent. 3 sem. hrs.
PSY 334. INDUSTRIAL PSYCHOLOGY: Introduction to modern efforts to improve human performance in industrial organizations and society; selection and placement of employees, morale, training, and incentives. Prerequisite: PSY 101. 3 sem. hrs.

* PSY 341. SOCIAL PSYCHOLOGY: Survey of major theoretical and experimental work in the field; attitudes, conformity, emotions, group dynamics. 3 sem. hrs.

PSY 344. INTERPERSONAL RELATIONS: Social psychological research in non-verbal behavior, social exchange, self-disclosure, and interpersonal attraction and how these are related to developing relationships. Prerequisite: PSY 101. 3 sem. hrs.

PSY 351. CHILD PSYCHOLOGY: Study of psychological processes from the developmental point of view; changes in perception, cognition, emotion, and social behavior from infancy to adolescence. Prerequisite: PSY 101. 3 sem. hrs.

PSY 352. FIELD EXPERIENCE IN CHILD PSYCHOLOGY: Practical experience with a community agency providing instructional, recreational, or therapeutic services. Volunteer 4-5 hours weekly. Grade option 2 only. Prerequisites: PSY 101 and previous or concurrent registration in PSY 351. 1 sem. hr.

PSY 353. THE PSYCHOLOGY OF ADULT DEVELOPMENT AND AGING: Provides a general introduction to the multi-disciplinary field of adulthood and aging with a specific focus on aspects of interest to psychologists: cognitive, intellectual, personality, and biological changes across adult development. Prerequisite: PSY 101. 3 sem. hrs.

PSY 355. DEVELOPMENTAL PSYCHOPATHOLOGY: Survey of developmental theory and research related to the psychopathology of infants, children, and adolescents. Focus is on etiology, identification, and intervention. Prerequisites: PSY 101 and 351 or permission of the instructor. 3 sem. hrs.

PSY 361. PERSONALITY: Introduction to the study of personality through analysis of such major theories as those of Freud, Skinner, Maslow, and Rogers. The development of personality and the stability of personality characteristics over time. Review of clinical and experimental findings. Prerequisite: PSY 101. 3 sem. hrs.

PSY 363. ABNORMAL PSYCHOLOGY: Patterns of disordered behavior; social, psychological, and physiological factors; theoretical explanations of abnormal behavior. Prerequisite: PSY 101. 3 sem. hrs.

PSY 364. PSYCHOTHERAPY: Survey of current types of psychotherapy. Emphasis on similarities and differences in underlying theories of behavioral change and associated techniques. Prerequisite: PSY 101. 3 sem. hrs.

* PSY 375. PSYCHOLOGY OF THE ARTS: Explores the psychological experiences associated with the creation and appreciation of music, art, and literature. Course content is presented in terms of the theories, methods, and research findings in the fields of perception, cognition, and development. 3 sem. hrs.

PSY 422. PHYSIOLOGICAL PSYCHOLOGY: Neurophysiological analysis of attention, sensation, perception, emotion, motivation, and learning. Electrophysiological methods are discussed. Prerequisite: PSY 101. 3 sem. hrs.
PSY 431. INTERVIEWING AND COUNSELING: Integrated approach to the theory, techniques, skills, and values of interviewing and counseling. Practice through written assignments, self study, classroom exercises, and role-playing. Prerequisite: PSY 101 or permission of instructor.

* PSY 443. PSYCHOLOGY OF WOMEN: Survey of topics related to the psychology of women, such as gender identity and roles, theories of female development, relationships, achievement, language, health issues, spirituality, sexuality, and violence. Prerequisite: PSY 101.

* PSY 444. ENVIRONMENTAL PSYCHOLOGY: Study of the effects of the physical and social environment on human behaviors, attitudes, and affective responses. Prerequisites: PSY 101 and 341 or permission of instructor.

* PSY 445. TECHNOLOGY, ENVIRONMENT, AND BEHAVIOR: Examines the cultural bases for the individual and societal choices which humans make about their use of technology. Technology is broadly defined to include human-machine systems.

PSY 450. PSYCHOLOGY FOR MINISTRY: Human development and adjustment, interpersonal communication, and the psychology of religion. Prerequisite: Acceptance into the Lay Ministry Program or permission of instructor.

PSY 451. PSYCHOLOGY OF RELIGION: Addresses the psychological study of the nature of religion and religious experience; explores the development of internalized beliefs, attitudes, and values and the effect they have on individual functioning. Prerequisites: Junior, Senior standing. An introductory course in psychology is highly recommended.

PSY 452. COGNITIVE DEVELOPMENT IN CHILDREN: Major approaches to the study of cognitive development; attentional and mediational development in children’s learning, memory, and problem solving; language development and Piaget’s theory. Prerequisites: PSY 101 and 351 or permission of instructor.

PSY 457. TELEVISION AND ITS EFFECTS ON CHILDREN: Readings in psychological research on the broad effects of television on children. Emphasis on analyzing and evaluating the research. Prerequisite: PSY 101.

PSY 461. CURRENT IMPLICATIONS OF DRUG DEPENDENCY: Survey of effects, symptoms, treatment, causalities, and myths associated with drug use and abuse. Emphasis on existing treatment methods and psychological implications of drug dependency. Prerequisite: PSY 101.

PSY 462. HUMAN SEXUALITY: Psychological factors in human sexuality including developmental, biological, and social perspectives. Such topics as sexual orientation, gender identity and roles, sexual relationships, sexual dysfunction, power and violence, and commercialization.

3 sem. hrs.
PSY 471. HISTORY OF PSYCHOLOGY: The evolution of psychology from its origins in philosophy, science, clinical, and applied settings. Emphasis on integrating these systems and schools of thought with modern psychology. Prerequisite: PSY 101 or permission of instructor. 3 sem. hrs.

PSY 490. INTERNSHIP IN PSYCHOLOGY: Supervised experience arranged on an individual basis in appropriate settings. For Jr/Sr psychology majors who have completed prescribed course work only. Consult internship director for details. May be repeated for up to 6 sem. hrs. Grade Option 2 Only. 1-6 sem. hrs.

PSY 493. INDEPENDENT STUDY: Problems of special interest investigated under faculty direction. Area and criteria for evaluation to be specified prior to registration. May be repeated for up to 6 sem. hrs. Prerequisite: Permission of instructor. 1-6 sem. hrs.

PSY 494. READINGS IN PSYCHOLOGY: Directed reading in a specific area of interest, under faculty supervision. Topic and criteria for evaluation to be specified prior to registration. May be repeated for up to 6 sem. hrs. Prerequisite: Permission of instructor. 1-6 sem. hrs.

PSY 495. SPECIAL TOPICS IN PSYCHOLOGY: Topics of special interest to faculty and students; intensive critical evaluation of appropriate literature. Prerequisite: Permission of instructor. 1-3 sem. hrs.

PSY 497. SERVICE LEARNING EXPERIENCE: Supervised community research or service experience that complements a specific upper division course in Psychology. Repeatable up to three semester hours. Prerequisite: Permission of instructor. Corequisite: A 300-400 Psychology course. 1 sem. hr.

Note: A total of no more than 6 sem. hrs. of PSY 490, 493, 494 and/or 497 may be counted toward the required 34 sem. hrs. for a psychology major. No more than 3 semester hours of Social Science 497 credits can count toward graduation.

*General Education course. See Chapter V.
RELIGIOUS STUDIES (REL)

The Department of Religious Studies sees itself as a community of scholars serving the University community and the local community by teaching, research, criticism, and action. The main concern of the department is an understanding and elucidation of the Judaeo-Christian religious experience as it is exemplified in the Roman Catholic tradition. This implies not only a deep investigation of the Roman Catholic position but also a dialogue with other Christian denominations and with other world religious.

Students majoring in religious studies ordinarily follow one of five tracks in the major. Students preparing for ministry in a Christian church (e.g., pastoral associates, youth ministry, parish religious educators) follow the "Ministry" track. Students preparing to teach religion in elementary or secondary schools follow the "Catholic Schools" track. Students preparing for graduate study in Christian theology, systematics, church history, ethics, etc., follow the "Graduate School Preparation" track. Students preparing for graduate study of religions other than Christianity and/or interested in World Religions follow the "World Religions" track. Students wishing to study religion as a way of broadening their horizons or who are interested in Religious Studies as an undergraduate major follow the "General" track. All religious studies majors must show basic practical communicative proficiency in one foreign language.

Students minoring in religious studies must complete 18 semester hours in the Department of Religious Studies. At least 3 semester hours are to be at the 400 level.

FACULTY

Terrence W. Tilley, Chairperson
Distinguished Service Professor: Kohmescher
Distinguished Teaching Professor: Burns
Professors Emeriti: Anderson, Friedland, Hater
Professors: Barnes, Branick, Doyle, Heft, L'Heureux, Roberts, T. Tilley
Associate Professors: Lysaught, Martin, M. Tilley, Thimmes,
Yocum Mize, Zukowski
Assistant Professors: Buby, Kozar, Kallenberg, McGrath, Moore

COURSES OF INSTRUCTION

NOTE: REL 103, REL 198, ASI 111-112 or equivalent is a prerequisite for all other REL
courses.

*REL 103. INTRODUCTION TO RELIGION: Examination of the nature of religion,
comparative aspect of religion, and the function of religion as a source of interpretation
of life. The "Catholic Option" takes the majority of its perspectives and examples about
religious beliefs and practices from the Roman Catholic tradition. The "Scripture Option"
takes the majority of its perspectives and examples about religious beliefs and practices
from scriptural traditions. 3 sem. hrs.
*REL 198. RELIGIOUS STUDIES HONORS SEMINAR: Study and seminar discussion of major types of religions in history and some of their practices, values, beliefs, historical development, and theological reflection, including Catholic tradition; review of major theories on the nature, origin, and function of religion in human life. Open by permission only to first-year students in the University Honors Program. 3 sem. hrs.

*REL 300. SELECTED RELIGIONS OF THE EAST: Introduction to several major religious traditions which originated in the East, including Hinduism, Buddhism, Jainism, Taoism, and Confucianism. 3 sem. hrs.

*REL 304. HINDUISM: Study of the world’s oldest living religion. Examines the historical development of major Hindu teachings, texts, practices and paths from ancient times to the present, including the form of Hinduism taking root in the West today. 3 sem. hrs.

*REL 305. EASTERN ORTHODOXY: Exploration of the history and theology of the Eastern Orthodox Church, from the Apostles to Byzantium to Russia and the United States. 3 sem. hrs.

*REL 306. BUDDHISM AND CHRISTIANITY: Exploration of the 2,500-year-old Buddhist tradition—the life of its founder, development of its teachings, rituals, and meditation techniques. Survey of the spread of Buddhism to the West in the 20th century. Parallels and contrasts with the Christian tradition. 3 sem. hrs.

*REL 307. JUDAISM: Basic introduction to Judaism: its history, its faith, its worship. 3 sem. hrs.

*REL 308. ISLAM: Exploration of the Islamic religious traditions: the life of Islam’s founder, the development of its teaching and ritual, its spread from North Africa into Europe, Asia, Oceania, its influence on culture and its contemporary resurgence. 3 sem. hrs.

*REL 310. THE PENTATEUCH: Examination of the first five books of the Hebrew Bible, known as the Torah or Pentateuch, emphasizing the traditions that relate primeval beginnings, ancestral history, the exodus, wilderness wanderings, and the legal codes. 3 sem. hrs.

*REL 311. THE PROPHETS: The prophetic texts of the Old Testament studied as reformulations of ancient religious traditions to meet new historical situations. The relevance of the prophets to contemporary life and thought. 3 sem. hrs.

*REL 312. THE PSALMS AND THE WISDOM LITERATURE: Critical examination of the biblical books of Psalms, Proverbs, Job, Ecclesiastes, and Ben Sira and of related literature within the historical context in which they arose. The contemporary relevance of this literature. 3 sem. hrs.

*REL 315. THE GOSPELS: With the Gospel of Mark as a point of departure, comparison of the Markan, Matthean, and Lukan narratives for an understanding of the various conceptions of Jesus found in these Gospels. The course includes historical-critical study of the Gospel to John, its text, literary techniques, structure and theology. 3 sem. hrs.

REL 316. NEW TESTAMENT THEOLOGIES: A survey of New Testament writings with a focus on the religious ideas specific to each; special attention to authors’ christology, eschatology, and soteriology; exploration of relevance of the New Testament message to Christian faith today. 3 sem. hrs.
*REL 318. STUDIES IN PAUL: Detailed examination of the letters of Paul, stressing the historical circumstances affecting their composition as well as the main religious ideas of Paul that govern their content. 3 sem. hrs.

*REL 319. THE BOOK OF REVELATION: Detailed critical analysis of various biblical apocalyptic texts as found in Judaism and early Christianity. Focus on the Book of Revelation against the background of other biblical and intertestamental apocalyptic texts. 3 sem. hrs.

*REL 323. HISTORY OF CHRISTIANITY I (100-1100): Study of important events movements, ideas, and people in the development of Christianity to the year 1100 including the formation of the Canon, early Church councils, Augustine, Gregory the Great, monasticism, the rise of Islam, Eucharistic and other controversies, and the Gregorian Reform. 3 sem. hrs.

*REL 324. HISTORY OF CHRISTIANITY II (1100-PRESENT): Study of important events, movements, ideas, and people in the development of Christianity from 1100 to the present, including the separation of the Churches of the East and West, rise of the mendicant orders, Scholasticism, key themes and figures of the Reformation, Vatican I, Modernist crisis, ecumenism, and Vatican II. 3 sem. hrs.

*REL 326. PROTESTANT CHRISTIANITY: Survey of the development of Protestant thought from the Reformation. 3 sem. hrs.

*REL 327. U.S. RELIGIOUS EXPERIENCE: A study of a variety of religious traditions in their engagement with and influence within the U.S. social and cultural context including the effects of pluralism, religious liberty, secularization, and consumer capitalism. 3 sem. hrs.

*REL 329. AFRICAN-AMERICAN RELIGION: An exploration of the history and theology of African-American religious traditions and how African-American religion has influenced African-American social, political, economic, and cultural movements from the time of slavery to the present. 3 sem. hrs.

*REL 344. CHRISTIAN MARRIAGE: Analysis of the sanctifying dignity of Christian marriage as a sacrament and commitment to share in the divine creative plan. 3 sem. hrs.

REL 345. EASTERN ORTHODOXY: Exploration of the history and theology of the Eastern Orthodox Church, from the Apostles to Byzantium to Russia and the United States. 3 sem. hrs.

*REL 356. THE CHRISTIAN TRADITION OF PRAYER: Study of several types and forms of Christian prayer from various periods in Church history. The meaning of the act of faith expressed in prayer and its relationship to belief. 3 sem. hrs.

*REL 358. LIBERATION THEOLOGY: A historical-critical analysis and study of the theology of liberation and its specific expression among theologians of the Third World, particularly Latin America. 3 sem. hrs.
*REL 360. CHRISTIAN ETHICS: Introduction to the reflection upon Christian morality; discussion of various approaches in Christian ethics, the elements of ethical judgments, and some specific ethical issues. 3 sem. hrs.

*REL 361. CORE RELIGION SEMINAR: Culminating course for students in CORE. Discussion of readings on values in a pluralistic society; such issues as wealth and poverty, education, war and peace. Open only to students in CORE. 3 sem. hrs.

*REL 362. CHRISTIAN FAMILY VALUES AND TELEVISION: Comparative study of the criteria and rationale for family life in various Christian pronouncements with present values and practices in society as reflected in and promoted by current television programming. 3 sem. hrs.

*REL 363. FAITH AND JUSTICE: This course explores the history, development, and basic principles of Catholic social teaching as well as other approaches to faith and justice. Issues of economic justice will receive special emphasis. In addition to church documents, the life and work of religious thinkers and activists will be examined. 3 sem. hrs.

REL 364. CURRENT MORAL ISSUES: An examination of one or more issues (individual and/or social) in contemporary reflection on Christian moral life. May be repeated when topic changes. 3 sem. hrs.

*REL 365. CHRISTIAN ETHICS AND THE ENVIRONMENT: A Christian ethic of relationality and responsibility. Explores various approaches and related values found in society; elements of ethical judgments; and specific ethical issues resulting from ecofeminist, technological, and ecological awareness. 3 sem. hrs.

*REL 366. THE HOLOCAUST: THEOLOGICAL AND RELIGIOUS RESPONSES: Examination of the religious and theological literature of the Holocaust, focusing especially on Jewish and Christian responses. 3 sem hrs.

*REL 367. CHRISTIAN ETHICS AND HEALTH CARE ISSUES: Study of, and reflection upon, the principles of Christian ethics as these relate to the health care professions. 3 sem. hrs.

*REL 368. CHRISTIAN ETHICS AND THE BUSINESS WORLD: Study of, and reflection upon, the principles of Christian ethics as these relate to the business world. 3 sem. hrs.

*REL 369. CHRISTIAN ETHICS AND ENGINEERING: Study in applied Christian ethics addressing the moral issues facing engineers. How to make a moral decision, engineering as a profession, codes of ethics, safety, environmental issues, confidentiality, employee rights, whistleblowing, consulting, conflicts, and career choices. 3 sem. hrs.

*REL 372. RELIGION AND FILM: Study of issues common to narrative films and religious thought; the power of various film techniques, dominant models in religious and film reflection, the similar roles imagination plays in film and religious thought. 3 sem. hrs.

*REL 373. RELIGION AND LITERATURE: Joint study of literature and religion, seeking the sacred in the secular, discussing the doctrines of humans and of God in major modern writings, especially those of current collegiate interest. 3 sem. hrs.
* REL 374. RELIGION AND THE ARTS: Investigation of the religious interpretation of various art forms and the process by which the aesthetic experience assists in theological perception and construction. 3 sem. hrs.

* REL 375. RELIGION AND SCIENCE: Survey of the ways science has affected religion on specific doctrines, methods of knowing what is true, and general worldviews; study of religious response to these. 3 sem. hrs.

* REL 376. THEOLOGY AND THE SOCIAL SCIENCES: Exploration of developments in Christian theology that have paralleled the rise of the human sciences, in particular of concepts of God, humanity, Church, sacraments, sin, and salvation in the light of history, anthropology, psychology, and sociology. 3 sem. hrs.

* REL 377. THE INNER JOURNEY IN MYTH, BIBLE, AND LITERATURE: Study of stories of heroic figures in the Bible and in other literature as patterns of personal and spiritual development. Throughout, efforts to relate the material to the needs of contemporary persons. 3 sem. hrs.

* REL 383. PHILOSOPHY OF RELIGIOUS EDUCATION: An attempt to construct a philosophy of religious education, various contemporary theoretical models, dimensions of teaching religion in a pluralistic society, the polarization generated. 3 sem. hrs.

REL 399. READINGS IN RELIGIOUS STUDIES: Directed readings in a specific area of interest under the supervision of a staff member. May be taken more than once. By permission only. 1-3 sem. hrs.

* REL 429. MODERN CATHOLICISM: An examination of Modern Catholicism based on a close study of the context, process, decisions, implementation and challenges of Vatican II in the Roman Catholic Church. 3 sem. hrs.

* REL 437. SIGNIFICANCE OF JESUS: Emphasis on the identity of Jesus and on the significance that his ministry, death, and resurrection have for the salvation of humankind. 3 sem. hrs.

* REL 440. THE CHURCH: A biblical and theological study of the meaning of the Church which explores the relationship between Christ and the Church, the various models for understanding the Church, and the mission of the Church. 3 sem. hrs.

* REL 441. THEOLOGY OF MARY: Study of the place of the Mother of God in the great truths of faith in the light of chapter eight of the Constitution on the Church. 3 sem. hrs.

* REL 442. GOD AND ATHEISM: Study of some recent contributions made by theology, philosophy, psychology, and the humanities to the current discussion of God’s existence, nature, and relationship to humanity. 3 sem. hrs.

* REL 443. THE SACRAMENTS: A study of the meaning of sacramentality. The sacraments in the context of Christ as the sacrament of the human encounter with God and in the context of the Church as the sacrament of Christ. 3 sem. hrs.

* REL 444. GOD IN CHRISTIAN TRADITION: A review of theologies of God in Christian tradition, from biblical through contemporary sources, especially as these theologies have affected overall Catholic thought and spirituality. Prerequisites: REL 103, PHL 103. 3 sem. hrs.
*REL 446. CHRISTIAN LITURGY: Study of the basic principles of liturgy, the
development of some of the basic forms of liturgy, and applications of the principles
within current rites.  
3 sem. hrs.

*REL 447. SELECTED CATHOLIC DOCTRINES: Detailed study of several im-
portant current theological questions primarily from a Catholic systematic and historical
perspective.  
3 sem. hrs.

*REL 471. WOMEN AND RELIGION: Examination of the impact of the women’s move-
ment on Judaism, Christianity, and other major world religions. Survey of traditional
religious attitudes toward women. Relevance of feminist approaches to scripture, ethics,
spirituality, and ministry in understanding contemporary global issues.  
3 sem. hrs.

*REL 472. ECOLOGY AND RELIGION: Examination of the relationship between religion
and ecology; bridges the contributions of traditional theological inquiry and modern
scientific insights and offers an enlarged vision of ecological concerns.  
3 sem. hrs.

*REL 474. WOMEN AND THE GLOBAL CHURCH: An exploration of the intersection
between faith communities, traditional and non-traditional, and particular cultures in
the lives of contemporary women.  
3 sem. hrs.

REL 484. PRACTICUM: Supervised in-service experience in an area of religious educa-
tion chosen by the student. By permission only.  
3 sem. hrs.

*REL 485. LAY MINISTRY: A critical examination of lay ministry and its theological
basis, in light of Vatican II and recent trends in the world and Church. Special topics:
family ministry, ministry in the marketplace, leadership, evangelization, catechesis,
women, social justice.  
3 sem. hrs.

REL 487. RELIGIOUS EDUCATION—THEORY AND PRACTICE: Study of theory
and practice of religious education for those who will be teaching religion in the school
and parish. Various models and methods. Emphasis on process and religious education
as developmental.  
3 sem. hrs.

REL 488. SPIRITUALITY AND RELIGIOUS EDUCATION: Exploration of impact
of liturgy and spirituality on contemporary models of religious education; study of inter-
relationship between faith experience and religious content; basic principles for develop-
ing practical programs.  
3 sem. hrs.

REL 490. CAPSTONE SEMINAR: Study of a particular topic in religion or theology that
draws upon a variety of resources in the fields. This course provides an integrative
academic experience. Topic varies from semester to semester. Required of all majors,
open to minors. May be repeated. Prerequisite: Junior or Senior standing.  
3 sem. hrs.

REL 492. SPECIAL TOPICS: Concentrated study of issues and subjects pertinent to
religion. May be repeated when topic changes.  
1-3 sem. hrs.

*General Education course. See Chapter V.
Social work is the profession sanctioned by society to provide social services. It is the professional activity of helping individuals, groups, or communities to enhance or restore their capacity for social functioning. The profession also engages in activities aimed at facilitating societal conditions that enhance and/or restore social functioning.

A minor in Social Work consists of a minimum of 15 semester hours, at least 12 of which are at the 300 or 400 level. No more than 6 semester hours of field experience credit can be accepted toward the minor. See also SOC.

COURSES OF INSTRUCTION

SWK 201. SOCIAL WORK PRACTICE AND PROFESSION: Study of the historical and theoretical underpinnings of the social work profession. Study of social work practice theory and technique. 3 sem. hrs.

SWK 303. COMMUNITY PRACTICE AND RESEARCH: Study of the design and implementation of community research, including needs assessment and program evaluation in the social service system. Prerequisites: SOC 101 or SOC 204 and permission of instructor. (Same as SOC 309). 3 sem. hrs.

SWK 305. SOCIAL SERVICES IN THE HEALTH FIELD: The role of social services in health care facilities and governmental health programs. U.S. health care policies and programs; methods of social work intervention in medical settings. 3 sem. hrs.

SWK 307. MENTAL HEALTH SERVICES: Study of historical perspectives, deinstitutionalization, the community mental health movement, inpatient care, and innovative approaches. Policy and practice implications are examined. 3 sem. hrs.

SWK 310. LAW AND HUMAN SERVICES: Orientation to the legal system as it affects the provision of human services and the profession; social legislation and court decisions as they affect child welfare, public assistance, mental health, housing, and probation and parole services. 3 sem. hrs.

SWK 325. CHILD ABUSE: Comprehensive study of child abuse: its history, scope, causal factors, indicators for detection, treatment resources and modalities, and community responsibility. 3 sem. hrs.

SWK 327. PARENTING: SOCIAL WELFARE ROLE: Comprehensive study of historical and contemporary perspectives on parenting, future of parenting (assessing trends and choices in family structure and function), cross-cultural comparisons, policy and legal aspects of parenting, societal influences on parenting. 3 sem. hrs.

SWK 330. PERSPECTIVES ON AGING: An introduction to the field of gerontology. Focus on the major physical, psychological, and social dynamics of aging. Selected issues will be highlighted. (Same as SOC 330.) 3 sem. hrs.
*SWK 331. DEATH, DYING, AND SUICIDE: Study of the phenomena of death and dying. The role and responsibility of the professional in working with the dying and their survivors. Study of suicide in this society. 3 sem. hrs.

SWK 392. SPECIAL TOPICS: Exploration of special topics related to the field of human services. Assessment of appropriate literature and research. May be repeated as topics change. 1-3 sem. hrs.

SWK 401. COMMUNITY FIELD EXPERIENCE: Supervised field experience for students working in a micro or macro practice setting. Concurrent seminar includes intensive basic communication and interviewing skill development. Students spend 150 hours in the agency. Prerequisites: SWK 201 and permission of instructor. 5 sem. hrs.

SWK 465. INDEPENDENT STUDY: Individual research, study, and readings on specific topics and/or projects of importance to social work. Under individual faculty direction. Prerequisite: Permission of instructor. 1-3 sem. hrs.

SWK 497. SERVICE LEARNING EXPERIENCE: Supervised community research or service experience that complements a specific upper division course in Social Work. Repeatable up to three semester hours. Prerequisite: Permission of instructor. Corequisite: A 300-400 Social Work course. 1 sem. hr.

Note: No more than 3 semester hours of Social Science 497 credits can count toward graduation.

*General Education course. See Chapter V.
SOCIOLOGY (SOC)

Sociology is the scientific study of society. The unique insight of sociology is that people are who they are largely because of their social experiences and interactions with others. "The sociological imagination" is the ability to understand the relationship between the individual experience and the broader social context. In addition to studying various aspects of social behavior, sociology studies the nature and causes of social problems such as crime, marital instability, poverty, and racism. The challenge facing sociologists is to apply their knowledge in ever more constructive ways for the improvement of society.

Students intending to major or minor in sociology should consult with the department chairperson to plan their programs of courses. Majors may concentrate their studies in the fields of human relations or community relations. The requirements for majoring in sociology are stated in the outline below. A minor in sociology requires 15 semester hours of courses in the discipline, with at least 12 of those at the 300-400 level.

Associate Professor: Dandaneau
Assistant Professors: Becker, Jipson, Kim, Leming, Talwalker, Yancik

244
COURSES OF INSTRUCTION

SOC 101. PRINCIPLES OF SOCIOLOGY: Study of social groups, social processes, and society; the individual’s relationship to society, social structure, social inequality, ethnic minorities, cities and human populations, and social institutions such as the family, education, religion, and government. 3 sem. hrs.

*SOC 204. MODERN SOCIAL PROBLEMS: Course to familiarize nonsociology majors with contemporary problems in society; historical development, current status, and analysis of problems, using modern social theories. Content may vary from section to section. 3 sem. hrs.

SOC 204L. URBAN PROBLEMS LABORATORY: Field study of selected urban problems. Focus on issues and problems of inequality, i.e., poverty, unemployment, discrimination, and homelessness as experienced by members of the urban community. Corequisite: SOC 204. 1 sem. hr.

SOC 208. SOCIAL RESEARCH METHODS: Study of the logic of research design, data-gathering strategies, types of measurement, and sampling techniques. Both inductive and deductive approaches. Participation in research projects. Prerequisite: SOC 101 or SOC 204. 3 sem. hrs.

*SOC 298. HONORS SOCIAL SCIENCE SEMINAR: Study and seminar discussion of selected sociological writings and the analysis, interpretation and criticism of these works. Open only to second-year students in the University Honors Program. Prerequisites: ENG 198, HST 198. 3 sem. hrs.

SOC 303. MODERN SOCIAL THEORY: Consideration of the works of modern theorists and major trends in the history of social thought. Prerequisite: SOC 101 or SOC 204. 3 sem. hrs.

SOC 305. CRIMINOLOGICAL THEORY: Study of the major theories of crime; consideration of the implications of theory for the criminal justice system. Prerequisite: SOC 101 or SOC 204. 3 sem. hrs.

SOC 308. DATA ANALYSIS: The analysis and interpretation of both quantitative and qualitative social science data. Prerequisite: SOC 208. Corequisite: SOC 308L. 3 sem. hrs.

SOC 308L. DATA ANALYSIS LABORATORY: Training in appropriate computer programs and computer analysis of social science data. Prerequisite: SOC 208. Corequisite: SOC 308. 1 sem. hr.

SOC 309. COMMUNITY PRACTICE AND RESEARCH: Study of the design and implementation of community research, including needs assessment and program evaluation in the social service system. (Same as SWK 303.) Prerequisites: SOC 101 or SOC 204 and permission of instructor. 3 sem. hrs.

SOC 322. SEX ROLES AND SOCIETY: Research findings and major analytical approaches to study social and cultural influences on the development of personal sexual identity and relationships between men and women. Major social issues concerning human sexuality.  3 sem. hrs.

SOC 323. JUVENILE JUSTICE: The environmental and internal factors that influence or determine delinquent behavior; roles of individual juvenile offenders, parents or guardians, school, church, police, business community, community agencies, and the juvenile justice and correctional system in preventing and treating delinquent behavior. Prerequisite: SOC 101 or 204.  3 sem. hrs.

SOC 325. DEVIANT BEHAVIOR: Description of various types of deviant behavior; for example, mental illness, alcoholism, drug addiction, the professional criminal. Study of explanations for the consequences and the role of deviant behavior in modern society. Prerequisite: SOC 101 or 204.  3 sem. hrs.

SOC 326. LAW AND SOCIETY: Study of the legal system and practices from a sociological point of view; the historical origin and role of the law in society, issues relating to the law as an instrument of social control and/or social change; analysis of the legal profession.  3 sem. hrs.

SOC 327. CRIMINOLOGY: Social and cultural nature, origin, and development of law; criminal behavior; crime control. The influence of society in the creation and organization of legal and crime control systems. Biological, psychological, and sociological factors leading to criminal behavior. Prerequisite: SOC 101 or 204.  3 sem. hrs.

SOC 328. RACIAL AND ETHNIC MINORITIES: Study of the major immigrant and racial groups in the United States and other countries. Issues and problems related to their minority status in the dominant culture.  3 sem. hrs.

SOC 330. PERSPECTIVES ON AGING: An introduction to the field of gerontology. Focus on the major physical, psychological, and social dynamics of aging. Selected issues will be highlighted. (Same as SWK 330.)  3 sem. hrs.

SOC 331. MARRIAGE AND THE FAMILY: Historical, cross-cultural, and current study of social relationships during dating and courtship, interpersonal communication in marriage and family life, sexuality in marriage, adjustments in parenthood, divorce and remarriage, alternatives to traditional marriage, and the future of marriage and family life.  3 sem. hrs.

SOC 332. SOCIOLOGY OF WOMEN: Cross-societal analysis of the position of women, with emphasis on industrialized and developing societies. The social positions of women and men in the family, work, politics, and the legal system. Consideration of theories of the biological, psychological, and sociological bases for the behavior and characteristics of women in the context of societal institutions.  3 sem. hrs.

SOC 334. RELIGION AND SOCIETY: Definitions of religion and its role in society. Traditional and nontraditional expressions of religious life from the viewpoint of society. Varieties of religious experience and the interrelations between religious phenomena and other social institutions and societal behavior. Prerequisite: SOC 101 or 204.  3 sem. hrs.
SOC 336. ORGANIZATIONS IN MODERN SOCIETY: Analysis of the dynamics of organizations in modern industrial society. Organizational social psychology, organizational structure and process, and organization-community relations. Prerequisite: SOC 101 or 204. 3 sem. hrs.

SOC 337. POLITICAL SOCIOLOGY: Study of political power. Political influence by economic elites, impact of bureaucracies, competing ideologies, alienation and nonvoting, and social movements as challenges to power structures. Prerequisite: SOC 101 or 204. 3 sem. hrs.

* SOC 339. SOCIAL INEQUALITY: Study of social inequality in society. Emphasis on the processes that divide people into unequal groups based on wealth, status, and power. The effects of inequality on individual life chances and life styles. 3 sem. hrs.

SOC 340. SOCIAL PSYCHOLOGY IN SOCIETY: Survey of the basic principles, concepts, theories, and methods of social psychology from the sociological perspective. Prerequisite: SOC 101 or 204. 3 sem. hrs.

* SOC 341. SELF AND SOCIETY: Study of the relationship between self and others. Socialization, self conceptions, deviant behavior, social influence, and social control. 3 sem. hrs.

SOC 342. COLLECTIVE BEHAVIOR: Study of social protest, crowds, social movements, revolution, fads, fashion, public opinion processes, propaganda, and political and social responses to these phenomena. Prerequisite: SOC 101 or 204. 3 sem. hrs.

* SOC 343. MASS COMMUNICATION IN MODERN SOCIETY: Social-psychological analysis of the structure and processes of mass communication related to advertising, patterns of social behavior, social change, propaganda, censorship, media control, and social institutions. 3 sem. hrs.

SOC 344. INTERACTION PROCESSES: Advanced study of the interaction processes of social life. Bargaining and negotiation, cooperation, social influence, solidarity, competition, and conflict. Prerequisite: SOC 101 or 204. 3 sem. hrs.

SOC 351. URBAN SOCIOLOGY: The study of the development of urban life from ancient times to the present, with an emphasis on contemporary urban population characteristics, social-economic-political structure, and problems. Prerequisite: SOC 101 or 204. 3 sem. hrs.

* SOC 352. COMMUNITY: Study of the interaction of groups and individuals related by common situations, problems and intentions; creation, maintenance, eclipse, and restoration of close social ties in urban neighborhoods, small towns, and groups with similar interests and lifestyles. 3 sem. hrs.

SOC 355. FAMILIES AND THE ECONOMY: The relationship between families and their socio-economic environment. Consideration of public issues including family policy and government programs to assist families. Prerequisite: SOC 101 or 204. 3 sem. hrs.

SOC 368. IMMIGRATION AND IMMIGRANTS: Perspectives on immigration and ethnicity. Studies of social and economic adaptation of new immigrants and the second generation in communities, cities, and societies. Ethnic change, conflict, and contemporary national and international issues, with an emphasis on human rights. Prerequisite: SOC 101 or 204. 3 sem. hrs.
SOC 392. SELECTED TOPICS IN SOCIOLOGY: Examination of a current topic of general interest in sociology. Majors and nonmajors may enroll. Consult composite for topics. May be repeated as topic changes. Prerequisite: SOC 101 or 204. 1-6 sem hrs.

SOC 409. SENIOR SEMINAR IN SOCIOLOGY: Synthesis of previous coursework; examination of the logic of social inquiry through the analysis of competing sociological perspectives on a particular issue. Required for majors. Prerequisite: Permission of instructor. 3 sem hrs.

SOC 410. VICTIMOLOGY: The study of victimization including the relationships between victims and offenders, the interactions of victims and the criminal justice system and other social groups and institutions. Prerequisite: Twelve hours of course work in the social sciences. Prerequisite: SOC 101 or 204. 3 sem hrs.

SOC 435. ECONOMY AND SOCIETY: Sociological analysis of modern economic institutions, with an emphasis on classical themes. Topics include capitalism, industrialism and social consequences of contemporary economic trends. Empirical research will be required. Prerequisites: SOC 101 or 204 and permission of instructor. 3 sem hrs.

SOC 437. MARX AND SOCIOLOGY: Study of Marx’s writings on topics relevant to the social sciences. Comparison of contemporary Marxian scholarship in such areas as social inequality, political structures, urban change, ideology and consciousness, and models for the future. Prerequisites: SOC 101 or 204 and junior or senior standing. 3 sem hrs.

SOC 438. URBAN POVERTY: Study of the social factors that contribute to poverty in cities. Consideration of the social effects of government and other programs to alleviate poverty. Prerequisites: SOC 101 or 204. 3 sem hrs.

SOC 492. SPECIAL TOPICS IN SOCIOLOGY: Intensive examination of current theoretical or methodological issues; faculty-advised research project or library work. Consult composite for topics. May be repeated as topic changes. Prerequisites: SOC 101 or 204 and permission of instructor. 1-6 sem hrs.

SOC 495. SOCIOLOGY INTERNSHIP: Supervised work experience related to course work in sociology in appropriate government, social service, and private organizations. May be repeated to a maximum of 6 sem hrs. Prerequisite: Permission of chairperson. 1-6 sem hrs.

SOC 497. SERVICE LEARNING EXPERIENCE: Supervised community research or service experience that complements a specific upper division course in Sociology. Repeatable up to three semester hours. Prerequisite: Permission of instructor. Corequisite: A 300-400 Sociology course. 1 sem hr.

SOC 498. INDEPENDENT STUDY: Research or special readings on problems of interest to the student under the guidance of sociology staff member. Prerequisite: Permission of chairperson. 1-6 sem hrs.

Note: No more than 3 semester hours of Social Science 497 credits can count toward graduation.

*General Education course. See Chapter V.
TEACHER LICENSURE (EDT)

COLLEGE BACCALAUREATE PROGRAM WITH TEACHER LICENSURE (E11A)

Students enrolled in the College of Arts and Sciences may enroll in the teacher education program (E11A) of the School of Education without transferring to the School of Education. The E11A program is designed for those students in the College of Arts and Sciences who wish to pursue concurrently a major program in the College and Adolescent to Young Adult Licensure for teaching at the secondary school level or Multi-age Licensure (K-12) for teaching music, fine arts, or languages. Students admitted to the program must satisfy all requirements for the appropriate Bachelor of Arts, Bachelor of Science, Bachelor of Music, or Bachelor of Fine Arts in the College as well as the requirements for licensure designated by the School of Education and the State of Ohio.

Teaching fields for Adolescent to Young Adult Licensure are Integrated Language Arts, Integrated Social Science, Integrated Mathematics, Integrated Science, Earth Sciences, Life Sciences, Physical Sciences, Earth/Chemistry, Earth/Physics, Life/Chemistry, Life/Earth, and Life/Physics. Teaching fields for Multi-age Licensure are Languages, Fine Arts, and Music (see Visual Arts and Music department listings for specific program requirements).

The education courses below constitute a minor concentration in the College degree program. They are listed in the order in which students usually take them. For course descriptions, see EDT, Chapter VIII.

Application for admission to the program is made through the Office of the Dean of the College of Arts and Sciences. Applicants should normally have a cumulative grade-point average of at least 2.75 at the time of their application. Advising relative to the degree program is given by the student’s major department; advising relative to licensure is given by the chairperson of the Department of Teacher Education or a designated advisor.

1Field experiences are required. Student must register for EDT 100.
2Praxis I (PPST) must be taken and passed before enrolling in EDTT 222 or 207.
3Students seeking Multi-age Licensure (K-12) must take EDT 207 in place of EDT 222; Art students take EDT 477 in place of EDT 475; Music students take EDT 479 in place of EDT 477.
4These courses are taken as a block, Fall term, senior year, daily 8:00 a.m. to 12:00.
5To attain provisional licensure, students must verify "good moral character," be fingerprinted, and pass a state (Ohio) mandated Praxis II (NTE) exit exam.
THEATRE (THR)

A major in theatre, offered by the Department of Communication, provides a solid academic foundation plus the experience of working in a wide range of theatre productions, including mainstage productions in the Boll Theatre as well as experimental work in the Studio Theatre.

Theatre majors are required to audition for roles and participate in each major production, for which they receive credit in THR 100 or 300.

A minor in theatre requires a total of 21 semester hours: 3 each in THR 105, 203, 100 and/or 300, 415 or 425; and 9 additional at the 300 level and above. Courses in dance are not included.

The Department of Communication also offers a concentration in THR (CTR).

FACULTY

Kathleen B. Watters, Chairperson, Department of Communication
Professor Emeritus: Gilvary
Associate Professor: Anderson
Assistant Professor: Dunlevy-Shackleford
COURSES OF INSTRUCTION

THR 100. THEATRE LABORATORY: Credit allowance for role playing and/or play production in mainstage productions. Fifty hours of work minimum for one sem. hr. of credit. Repeatable up to 3 sem. hrs. in first and second years. All registration retroactive. No advance registration. 1-3 sem. hrs.

THR 105. INTRODUCTION TO THE THEATRE: Analysis of the nature of theatre, its origin and development from the standpoint of the play, the physical theatre, and its place in our culture. Required of all majors. Open to all University students. 3 sem. hrs.

THR 201. BASIC DANCE FOR THE PERFORMING ARTIST: Beginning course in movement introducing the basic principles of dance and performance technique. Open to all University students. 2 sem. hrs.

THR 202. STAGE MAKEUP: The basic principles of the art and technique of makeup so that the student may use them in design and execution to develop and project the character. Open to all University students. Studio fee. 2 sem. hrs.

THR 203. TECHNICAL PRODUCTION: Introductory survey of scene design, construction, painting, and lighting. Current theory will be examined along with practical applications and techniques. 3 sem. hrs.

THR 261. BEGINNING JAZZ DANCE: Beginning course in the theory and practice of jazz dance. 2 sem. hrs.

THR 271. BEGINNING BALLET: Beginning course in the theory and practice of classical ballet technique. 2 sem. hrs.

THR 300. THEATRE LABORATORY: The third and fourth-year level of credit allowance for role playing and/or play production. Requirements and registration same as for THR 100. 1-3 sem. hrs.

THR 301. INTERMEDIATE DANCE FOR THE PERFORMING ARTIST: Intermediate-level course in movement for students interested in further developing dance and performance technique. Prerequisite: Permission. 2 sem. hrs.

THR 303. SCENE PAINTING: Basic principles of color paint theory and materials. Investigation of various scene-painting techniques. One three-hour class meeting weekly: Studio fee. Prerequisite: Permission. 3 sem. hrs.

THR 305. THEATRE STAGECRAFT: Study and application of scene construction, rigging, backstage organization, production analysis, and technician-designer relationship. Studio fee. 3 sem. hrs.

THR 307. THEATRE LIGHTING: Study and application of lighting for the stage: instruments, controls, sources, elements of electricity, and lighting design for all types of theatres, as well as graphic representation. Studio fee. 3 sem. hrs.

THR 310. ACTING I: The study and practice of basic techniques in rehearsal and performance. Emphasis on self-analysis and self-awareness. Development of basic skills in vocal, emotional, and mental interpretation of character. Required of all theatre majors. Prerequisite: THR 105 or permission. 3 sem. hrs.

THR 312. FILM AND TV ACTING: The study and practice of basic techniques of acting for film and television. Emphasis on technical requirements of acting for the camera and the control of body and voice actors must exercise in these media. Prerequisite: THR 310. 3 sem. hrs.
THR 323. ACTING II: Further study and practice of techniques introduced in Acting I. Emphasis on interaction, ensemble, group processes, and scene study. Prerequisites: THR 105 and 310, or permission. 3 sem. hrs.

THR 324. THEATRICAL MOVEMENT: Emphasis on interpreting and employing body language. Prerequisites: THR 105 and 310, or permission. 2 sem. hrs.

THR 325. THEORY AND CRITICISM OF THE STAGE I: Survey of representative plays from classical to neo-classical periods as a basis for theatrical production and dramatic criticism. (THR 325 or 326 required of all majors.) Prerequisite: THR 105. 3 sem. hrs.

THR 326. THEORY AND CRITICISM OF THE STAGE II: Continuation of THR 325 from romantic to modern periods. (THR 325 or 326 required of all majors.) Prerequisite: THR 105. 3 sem. hrs.

THR 330. CONCEPTS OF SCENE DESIGN: Studies in the principles of composition and aesthetic theory as applicable to scene design. Development of personal design approach to plays of various styles. Required of all theatre majors. 3 sem. hrs.

THR 340. THE DIRECTOR IN THE THEATRE: The basic functions of a director in the production of play: interpretation, composition, movement, characterization, rhythm, design concept, and actor training. Required of all theatre majors. Prerequisites: THR 105, 310, 330. 3 sem. hrs.

THR 350. THEATRE STYLES: Examination of the relationships among playwright, audience, actor, designer, and director in the development of major theatre styles of expression. 3 sem. hrs.

THR 361. INTERMEDIATE JAZZ DANCE: An intermediate course in the theory and practice of jazz dance and technique. Prerequisite: Permission 2 sem. hrs.

THR 371. INTERMEDIATE BALLET: Intermediate course in the theory and practice of classical ballet technique. Prerequisite: Permission. 2 sem. hrs.

THR 414. ADVANCED SCENE DESIGN: Individual development in scene design through intensive study in plays of various styles. Detailed representation of design ideas in rendering and models required. Prerequisites: THR 330 and permission. 3 sem. hrs.

* THR 415. HISTORY OF THE THEATRE I: History of theatre from pre-Grecian through Elizabethan; the physical theatre as reflection of and influence on civilization. (THR 415 or 425 required of all majors.) 3 sem. hrs.

THR 424. PLAY DIRECTING: Study of the evolution of the modern director. Emphasis is on script interpretation as a basis for the development and execution of the production concept. Studio fee. Prerequisite: THR 340. 3 sem. hrs.

* THR 425. HISTORY OF THE THEATRE II: Continuance of 415 from the Italian Renaissance to the modern theatre. (THR 415 or 425 required of all majors.) 3 sem. hrs.

THR 440. PROBLEMS IN THEATRE PRODUCTION AND DESIGN: Individual research and project work of student's selection under the direct supervision of faculty. (THR 440 or THR 485 or THR 490 required of all majors.) Repeatable up to 12 sem. hrs. Prerequisite: Permission. 3 sem. hrs.
THR 485. THEATRE SEMINAR: Concentration on one theatrical figure, genre period, or discipline for research and analysis. (THR 440 or THR 485 or THR 490 required of all majors.) Repeatable up to 6 sem. hrs. Prerequisite: Permission. 3-6 sem. hrs.

THR 490. SPECIAL PROBLEMS IN THEATRE: Individual research and report on topic of student's choice in the field of theatre under direct supervision of faculty/staff. (THR 440 or THR 485 or THR 490 required of all majors.) Repeatable up to 9 sem. hrs. 3-5 sem. hrs.

THR 498. THEATRE INTERNSHIP: Theatre work experience with an approved organization. Student must be in good academic standing with at least twelve hours of THR courses completed. Student may petition the head of the Theatre Program for a second internship if the second internship is at a different organization and the student can demonstrate that the second internship offers a unique and significant educational opportunity not available through the first internship. Permission. Option 2 grading only. 1-3 sem. hrs.

*General Education course. See Chapter V.
VAR

VISUAL ARTS (VAR)

The Department of Visual Arts teaches the perceptual, practical, and critical skills necessary for the creation and understanding of art in a variety of media and contexts. It also teaches the history of the visual arts and cultivates the ability to appreciate and articulate their meaning and value. The department emphasizes the highly integrative nature of the visual arts and their immense cultural and personal importance. In addition, the department offers opportunities for professional career development in many different fields.

The department offers eight degree programs:

Bachelor of Arts with a Major in Fine Arts
Bachelor of Fine Arts with a Major in Fine Arts
Bachelor of Arts with a Major in Visual Communication Design
Bachelor of Fine Arts with a Major in Visual Communication Design
Bachelor of Arts with a Major in Photography
Bachelor of Fine Arts with a Major in Photography
Bachelor of Fine Arts with Teacher Licensure
Bachelor of Arts with a Major in Art History

Visual Arts Minors

A minor in Fine Arts requires 21 semester hours: VAF 104, 112; VAH 201 or 202 or 203; and 12 additional semester hours of VAF electives.

A minor in Visual Communication Design requires 21 semester hours: VAF 104, 112; VAR 200; VAD 215 or 218; 245; and 9 additional upper-level semester hours of VAD electives.

A minor in Photography requires 12 semester hours of VAP 300-400 level courses and any prerequisites for those courses. VAH 382 may also be counted towards a minor in photography.

A minor in Art History requires 18 semester hours: six semester hours of survey courses chosen from VAH 201, 202, and 203 and 12 additional semester hours of art history electives at the 300-400 level.

Transfer students seeking a visual arts minor must complete at least 9 of the required semester hours in the Visual Arts department while in residency at the University of Dayton.

Visual Arts Foundations

Visual arts foundation courses introduce students to fundamental principles, practices, materials, and vocabulary common to all visual arts disciplines. These courses provide a common background of skill development along with an understanding of primary concepts in the visual arts and a basis for critical evaluation. All foundation courses share the objective of preparing students to face the challenges of their specific disciplines.

Second Year and Scholarship Review

Near the end of their second year, all Visual Arts majors are reviewed by the Visual Arts faculty. Also included in the review are first and third year students who have been awarded Visual Arts Scholarships. The review process is a valuable learning experience for the student and it helps the faculty to recommend ways in which students may build upon their assets and overcome their liabilities. Particip-
participation in the Second Year and Scholarship Review is mandatory for all majors. Scholarship funds are available to a limited number of students whose performance in the review is judged by the faculty to be outstanding.

Senior Capstone Courses

These courses, required in all majors, bring together the skills, education, ideas, and goals of senior students. They stress an integrated approach to learning and working and they focus on preparing students for their futures beyond the University. They provide a logical continuity that begins with the Visual Arts Foundations and the mid-point evaluation of the Second Year and Scholarship Review.

FINE ARTS

The Bachelor of Arts (B.A.) with a Major in Fine Arts offers a program of study that introduces the student to a variety of media and approaches to the visual arts. This program combines the richness of a liberal arts education with opportunities to explore several possible directions in the visual arts.

The Bachelor of Fine Arts (B.F.A.) with a Major in Fine Arts offers a more intensive exploration of selected media and greater depth of study in a more extensive selection of visual arts courses.

VISUAL COMMUNICATION DESIGN

The Visual Communication Design (B.A.) program offers a very flexible opportunity to combine a broad liberal arts education with a strong foundation in visual communication design. In this program it is possible for students to earn a minor, or even a second major, in another discipline within the University.

The Visual Communication Design (B.F.A.) is an intensive program that combines visual arts foundation courses with the visual communication design curriculum and a liberal arts education. It prepares students for professional careers in graphic and advertising design, illustration, electronic media and related new technologies. Attention is given to conceptual and visual problem-solving. Program options include (1) graphic design, (2) illustration, and (3) computer imaging.

PHOTOGRAPHY

The two programs in Photography (B.A. and B.F.A.) offer many approaches to using the medium. Art, journalism, advertising, illustration, and digital imaging are just a few of the fields in which accomplished photographers find rewarding careers.

The B.A. program emphasizes a traditional liberal arts background with a thorough grounding in photographic practice. The B.F.A. allows for greater concentration within photography and related disciplines. Electives allow students to pursue individual interests and goals.

ART EDUCATION

The Bachelor of Fine Arts with Teacher Licensure, a B.F.A. (E11A) program, offers students expertise in studio practice, art history, aesthetics, and critical analysis of art. Field experience in the Dayton area allows students to transform theoretical knowledge into classroom practice. Graduates are well prepared for teaching positions in public or private schools, pre-kindergarten through grade 12, as well as for master’s degree programs.

1See also Distribution Table for Bachelor of Arts programs and Chapter V for General Education requirements.
Students in the Art Education program are required to maintain a 2.0 cumulative grade point average overall, and a 2.5 cumulative grade point average in teacher education and visual arts courses.

Students are required to pass PRAXIS I and II and a Second Year Review in their studio work.

ART HISTORY

Art history is the study of art and architecture, produced within specific cultural contexts, as a manifestation of human creativity and as a valuable form of historical documentation. Students learn to appreciate the fundamental and varied roles that the visual arts have played and continue to play in the lives of human beings. Toward this end, students learn how images and objects, identified as art, embody—but also condition and control—social, religious, cultural, economic, political, and gender dynamics.

1See also distribution table for Bachelor of Arts Programs and Chapter V for General Education requirements.

2Major program electives may be chosen, in consultation with an art history advisor, from among the following disciplines and courses: ANT 300, CMM 313, ENG 322, VAF 104, VAF 232, PHL 320, PSY 375 and REL 374. Alternatives to these courses may be elected with the approval of an art history advisor. Major program electives must be at the 300-400 level (except in the case of Fine Arts courses), and they may not be used to satisfy the liberal studies.

3Where appropriate, this credit may apply to other requirements.
FACULTY

Fred Niles, Chairperson
Professors: Niles, Wilkinson
Associate Professors: Crum, Gooch, Marcinowski, J. Whitaker, J.M. Whitaker,
Wilbers, Zahner
Assistant Professors: Gibbons, Rappaport
Lecturer: Simon
Part-time Instructors: Anderson, Carr, Crum, Kargl, Langenderfer, Manera-
Missall, Megginson, Smith, Snow
Visiting Artists: Phelps, Phelps

COURSES OF INSTRUCTION

FINE ARTS

VAF 104. FOUNDATION DRAWING: Introduction to basic visual concepts, various
drawing media, and approaches to experimental technique. Emphasis on perspective,
perceptual awareness, volume in space, and expressive freedom. Studio fee.
3 sem. hrs.

VAF 112. FOUNDATION 2-D DESIGN: Study of the underlying elements and prin-
ciples of design as they are used in two-dimensional composition and the creation of
illusionistic three-dimensional space.
3 sem. hrs.

VAF 117. FOUNDATION 3-D DESIGN: Introduction to basic principles and practices of
design in three dimensions. Emphasis on current theory and construction techniques
using a variety of media and methods. Studio fee.
3 sem. hrs.

VAF 204. DRAWING II: Emphasis on figure drawing with work from the nude model
and the skeleton. Study of proportion, rendering volume, and developing expressive
drawing skills in a variety of drawing media. Model fee. Prerequisite: VAF 104.
3 sem. hrs.

VAF 216. DESIGN AND COLOR: The study of color based on historical and contem-
porary color theories and the use of color in expressing and integrating design concepts.
Prerequisite: VAF 112 or permission.
3 sem. hrs.

VAF 226. PAINTING I: Introduction to basic painting principles, techniques, and
materials; still life, landscape, figure, and abstraction. Studio fee. Prerequisites: VAF 104,
112, 216, or permission.
3 sem. hrs.

VAF 228. WATERCOLOR I: Principles and techniques of transparent watercolor.
Emphasis on technical mastery. Prerequisites: VAF 104, 112, 216, or permission.
3 sem. hrs.

VAF 232. SCULPTURE I: Consideration of forms as a means of developing an under-
standing of mass, shape, and control of medium. The use of various materials such as
wood, plaster, and clay, with emphasis on integrating material with personal expression.
Studio fee.
3 sem. hrs.

VAF 240. CERAMICS I: Introduction to basic methods of working in clay using coil and
slab techniques. Studio fee.
3 sem. hrs.
VAF 253. PRINTMAKING I: Introduction to the traditional printmaking methods of woodcut and intaglio. Instruction in edition-printing techniques and curating of prints. Studio fee. Prerequisites: VAF 104, 112, or permission. 3 sem. hrs.

VAF 304. DRAWING III: Continuation of work done in VAF 204 with an emphasis on the development of finished figure drawings. Study of anatomy and the rendering of convincing volumes in space. Model fee. Prerequisite: VAF 204. 3 sem. hrs.

VAF 325. FIGURE PAINTING: Painting from the model with a variety of media. Traditional and contemporary approaches to the figure. Model fee: Prerequisites: VAF 204 or 304, 226 or permission. 3 sem. hrs.

VAF 326. PAINTING II: Painting with oils or acrylics; continuing study of the principles and techniques of painting, with emphasis on personal expression and experimentation. Studio fee. Prerequisite: VAF 226 or 228 or permission. 3 sem. hrs.

VAF 328. WATERCOLOR II: Continuing investigation of watercolor techniques, both traditional and experimental. Still life, figure, landscape, and abstraction. Prerequisite: VAF 228 or permission. 3 sem. hrs.

VAF 332. SCULPTURE II: Continued exploration of three-dimensional concepts and materials, concentrating on wood, stone, and metal. Studio fee. Prerequisite: VAF 232 or permission. 3 sem. hrs.

VAF 340. CERAMICS II: Introduction to basic methods of working clay using the wheel. Studio fee. 3 sem. hrs.

VAF 353. PRINTMAKING II: Advanced work in woodcut, monoprint and intaglio, including acrylic process and color etchings. Studio fee. Prerequisite: VAF 253 or permission. 3 sem. hrs.

VAF 404. DRAWING IV: Observational and expressive drawing. Continued work with the figure in combination with a variety of other subject matter. Emphasis on the development of a body of work with a related idea. Model fee. Prerequisites: VAF 204-304 or permission. 3 sem. hrs.

VAF 426. PAINTING III: Directed advanced studio problems; contemporary issues in painting. Repeatable up to 9 sem. hrs. Studio fee. Prerequisite: VAF 325 or 326, or permission. 3 sem. hrs.

VAF 440. CERAMICS III: Introduction to Raku, a 400-year-old Japanese ceramic glaze firing technique adapted for the contemporary potter. Study includes glaze formulation, handbuilding and/or wheel throwing techniques. Studio fee. Prerequisites: VAF 240, 340, or permission. 3 sem. hrs.

VAF 453. PRINTMAKING III: Advanced work in printmaking processes with an emphasis on the production of multi-color editions. Studio fee. Prerequisite: VAF 353 or permission. 3 sem. hrs.

VAF 490. SPECIAL PROBLEMS: A course for advanced individual work in fine arts. Approval based on academic standing and permission of instructor. Repeatable up to 15 sem. hrs. Studio fee. 1-5 sem. hrs.

VAF 498. SENIOR/PROFESSIONAL SEMINAR—FINE ARTS: Capstone course required of all B.A. and B.F.A. fine arts and art education (E11) majors, to be taken in the first semester of the senior year. Examination of aesthetic, cultural, ethical, and pragmatic
issues in preparation for post-graduate experience. Prerequisite: Senior standing or permission. Studio fee.  

VAF 499. PORTFOLIO AND PAPER—FINE ARTS: Completion and presentation of undergraduate portfolio and paper, to be reviewed by faculty and peers. Faculty approval of portfolio and paper is required for graduation. Prerequisite: VAF 498 or permission. 

Studio fees: $20. - $60.

VISUAL COMMUNICATION DESIGN

VAD 211. FUNDAMENTALS OF VISUAL COMMUNICATION DESIGN: A course for non-majors in the basics of design for communication. Attention to page layout, typography, image, graphic style, and information delivery. Studio fee. 3 sem. hrs.

VAD 215. COMPUTER APPLICATIONS—DESIGN: An introduction to page design software programs and their use in the design process. Studio fee. Prerequisite: VAD 200. 2 sem. hrs.

VAD 218. COMPUTER APPLICATIONS—ILLUSTRATION: An introduction to drawing and paint software programs and their use in illustration. Studio fee. Prerequisite: VAD 200. 2 sem. hrs.

VAD 245. TYPOGRAPHY I: The study of the design, appearance and arrangement of letters and words. Attention to their importance as both functional and expressive elements in communication messages. Studio fee. Prerequisites: VAD 200, 215. 3 sem. hrs.

VAD 307. DRAWING FOR GRAPHIC DESIGN: Exploration of materials, procedures, and drawing techniques for design presentations. Studio fee. Prerequisite: VAD 104. 3 sem. hrs.

VAD 312. VISUAL FORM: Investigation of the perceptual and psychological effect of the visual elements—line, shape, value, volume, texture, and color—in visual communication. Exploration of word and image relationships. Studio fee. Prerequisite: VAF 216. 3 sem. hrs.

VAD 318. GRAPHIC DESIGN FOR THREE DIMENSIONS: The application of graphic design principles to packaging, product, exhibition, and environmental design. Studio fee. Prerequisites: VAF 117, 245, 312. 3 sem. hrs.

VAD 320. COMPUTER-AIDED GRAPHIC DESIGN: An exploration of the use of the computer as both a tool and a medium for the design and production of visual communication. Studio fee. Prerequisites: VAD 215, 245. 3 sem. hrs.

VAD 321. COMPUTER-AIDED ILLUSTRATION: An exploration of the use of the computer as both a tool and a medium for the creation and production of illustrations. Studio fee. Prerequisites: VAD 218, 245. 3 sem. hrs.

VAD 344. DESIGN FOR MULTIMEDIA I: An introduction to the design process, including visual principles, aesthetic issues, and diverse applications for multimedia and interactive electronic media. Emphasis is placed on the visual organization of information in these environments. Studio fee. Prerequisites: VAD 215 or 218; 245, 360. 3 sem. hrs.
VAD 345. TYPOGRAPHY II: The advanced study of typographic design. Attention to the aesthetic and informational qualities of type in print and electronic communication. Studio fee. Prerequisite: VAD 245. 3 sem. hrs.

VAD 350. DESIGN PROCESS: Focus on the developmental process of visual communication, including concept development, visualization techniques, presentation formats, and production methods. Studio fee. Prerequisites: VAD 215, 312, 245. 3 sem. hrs.

VAD 360. DESIGN FOR THE INTERNET: Studio course in the design of electronic communications for the Internet, and specifically the World Wide Web. The course will emphasize current technology for information delivery, with significant consideration being given to critical issues in visual communication. Studio fee. Prerequisites: VAD 215 or 218; 245. 3 sem. hrs.

VAD 395. ADVERTISING DESIGN: Emphasis on print advertising, its creation and presentation. Concept development and attention to advertising layouts that carry motivating images and messages to consumers about products, services, or ideas. Studio fee.

VAD 397. ILLUSTRATION I: Attention to conceptual, visual, and technical development. Exploration of media and techniques employed by the illustrator in creating images for printed communication. Studio fee. Prerequisites: VAD 104, 204. 3 sem. hrs.

VAD 398. ILLUSTRATION II: Interpretation and representation of concepts, products, or stories for magazines, books, newspapers, and advertising. Continued technical development with a variety of materials, media, and techniques. Studio fee. Prerequisite: VAD 397. 3 sem. hrs.

VAD 404. ILLUSTRATION III: Focus on developing an individual point of view and illustration style. Studio fee. Prerequisite: VAD 398. 3 sem. hrs.

VAD 411. GRAPHIC DESIGN I: Study, design, and application of marks, logos, and symbols in visual communication. Attention to effective visual relationships between typographic elements and images in single-page applications. Studio fee. Prerequisite: VAD 245. 3 sem. hrs.

VAD 412. GRAPHIC DESIGN II: Continued study of effective visual relationships between typographic elements and images. Emphasis on sequential page design. Studio fee. Prerequisite: VAD 411. 3 sem. hrs.

VAD 414. TRADEMARK DESIGN: Advanced study of marks, logos, and symbols as communication and identification elements. Emphasis on conceiving design marks of identity for small businesses, corporations, institutions, products, and/or services. Studio fee. Prerequisite: VAD 411. 3 sem. hrs.

VAD 415. GRAPHIC DESIGN III: The study and design of identification and image systems for products, organizations, institutions, or corporations. Emphasis on continuity in the application of visual communication factors. Studio fee. Prerequisite: VAD 412. 3 sem. hrs.

VAD 444. DESIGN FOR MULTIMEDIA II: Advanced level design for multimedia and interactive electronic media. Emphasis is placed on actual or simulated client-based projects. Studio fee. Prerequisite: VAD 344. 3 sem. hrs.
VAD 480. VISUAL COMMUNICATION DESIGN INTERNSHIP: Opportunities for practical experience in professional working environments. Repeatable up to 12 sem. hrs. Prerequisite: Permission.

VAD 490. SPECIAL PROBLEMS: A course for advanced individual work in design or illustration. Approval based on academic standing and permission of instructor. Repeatable up to 15 sem. hrs. Studio fee.

VAD 498. SENIOR/PROFESSIONAL SEMINAR—VCD: Capstone course required of all B. A. and B.F.A. visual communication design majors, to be taken in the first semester of the senior year. Examination of aesthetic, cultural, ethical, and pragmatic issues in preparation for post-graduate experience. Studio fee. Prerequisite: Senior standing or permission.

VAD 499. PORTFOLIO AND PAPER—VCD: Completion and presentation of undergraduate portfolio and paper, to be reviewed by faculty and peers. Faculty approval of portfolio and paper is required for graduation. Prerequisite: VAD 498 or permission.

ART EDUCATION

VAE 101. EARLY CHILDHOOD ART EDUCATION: Acquaints students, especially those seeking Early Childhood Licensure, with the principles and concepts of art and with the various materials and techniques used in artistic expression. Open to all students. Studio fee.

VAE 231. INTRODUCTION TO ART EDUCATION: An introduction to the pedagogical, philosophical, and psychological aspects of teaching the arts. Topics will include: technology, national and state standards, history, learners with special needs, reading in the arts, and professional associations. Studio fee. Prerequisite: EDT 110. Corequisite: EDT 100.

*VAE 232. INTEGRATING THE ARTS: VISUAL ARTS: Developing knowledge, skills values and attitudes in visual arts for the purpose of integration into classrooms for middle childhood and the adolescent learner. Studio fee. Prerequisite: EDT 110.

VAE 383. FOUNDATION OF ART EDUCATION: Introduction to the philosophy, history, and theory of teaching art to prekindergarten through grade eight students with varied needs and abilities. Art education majors only or permission. Studio fee. Prerequisites: EDT 110, 207, 208, and permission. 3 sem. hrs.

VAE 483. TEACHING VISUAL ARTS: Study of curriculum, planning, theory, and practice for teaching visual arts to students grades seven through twelve. Art Education majors only. Studio fee. Prerequisites: EDT 110, 207, 208, VAE 383, and permission. Corequisites: EDT 318, 419.

VAE 483W. ELEMENTARY AND SECONDARY SCHOOL ART: Workshop to give the student of elementary and secondary education new approaches to teaching studio arts, art criticism, art history, and aesthetics. Studio fee.

VAR

University of Dayton VI

VAE 490. SPECIAL PROBLEMS: A course for advanced individual work in art education. Approval based on academic standing and permission of instructor. Repeatable up to 15 sem. hrs. Studio fee.

SPECIAL PROBLEMS: 1-5 sem. hrs.

Studio Fees: $20. - $40.

PHOTOGRAPHY

VAP 201. PHOTOGRAPHY II: Specific projects to develop personal expression and sustained creative growth, increased technical competence and greater visual awareness. Students learn more advanced photographic techniques, including negative and printing controls, and different camera formats. Studio fee. Prerequisite: VAP 101 or equivalent.

VAP 240. DIGITAL IMAGERY I: Introduction to the theory, ethics, aesthetics, and practice of computer image digitizing, enhancement, compositing, and manipulation as applied to digital photography. Some prior knowledge of computers is helpful. Studio fee.

VAP 302. COLOR PHOTOGRAPHY I: Introduction to techniques and aesthetics of color photography; students learn to use transparency and negative films and to make color prints. Studio fee. Prerequisites: VAP 101, 201 or permission.

VAP 320. STUDIO PRACTICE I: Extensive use of large format camera, studio grip equipment, tungsten and electronic flash lighting techniques; still-life and portrait photography in a studio environment. Studio fee. Prerequisite: VAP 201.

VAP 321. STUDIO PRACTICE II: Emphasis on the production of a professional-quality portfolio which will demonstrate advanced knowledge of the studio and image production. Studio fee. Prerequisite: VAP 320.

VAP 331. ALTERNATIVE PHOTOGRAPHY II: Continuing work with alternative silver and non-silver processes. Emphasis on completion of an artist book or installation which demonstrates advanced technical command and aesthetic understanding of the processes employed. Studio fee. Prerequisite: VAP 330.

VAP 340. DIGITAL IMAGERY II: Continuation of the theory and practice of computer imaging and the electronic darkroom; and the incorporation of digital images into other media. Emphasis on digital photography, videographic imaging and the role of digital images in art and society. Studio fee. Prerequisite: VAP 240.
VAP 350. VIEW CAMERA: Extensive experience with the view camera, examination of refined techniques, various applications, and concepts of large format photography. Studio fee. Prerequisite: VAP 201.

VAP 402. COLOR PHOTOGRAPHY II: A continuation of color printing from negatives; completion of individual projects which will demonstrate an advanced understanding of the techniques and aesthetics peculiar to color photography. Studio fee. Prerequisite: VAP 302.

VAP 410. ADVANCED PHOTOGRAPHY: Students with a substantial commitment to photography and with demonstrated technical skills work on individual projects and participate in group critiques and discussion. Studio fee. Prerequisites: VAP 201, 302; VAH 382

VAP 420. PHOTOJOURNALISM: A variety of ways of using photography as documentation, narrative, and propaganda. Editing of work, layout, and image-text relationships. Personal photographic essay required. Studio fee. Prerequisite: VAP 201.

VAP 430. PROFESSIONAL PHOTOGRAPHIC APPLICATIONS: Problem-solving associated with professional photography; may include commercial, editorial, industrial, architectural, and illustrative photographic work both in the studio and on location. Studio fee. Prerequisite: VAP 320 or permission.

VAP 450. PHOTOGRAPHY INTERNSHIP: Practical applications of photographic skills. Opportunities for advanced development and practical experience in professional working environments. Repeatable up to 6 sem. hrs. for B.F.A. students. Prerequisite: Permission.

VAP 490. SPECIAL PROBLEMS IN PHOTOGRAPHY: Series of assignments to guide independent study in photography, formulated to meet individual needs of the student. Studio fee. Prerequisites: VAP 201 and permission.

VAP 498. SENIOR/PROFESSIONAL SEMINAR—PHOTOGRAPHY: Capstone course required of all B.A. and B.F.A. photography majors, to be taken in the first semester of the senior year. Examination of aesthetic, cultural, ethical, and pragmatic issues in preparation for post-graduate experience. Studio fee. Prerequisite: Senior standing or permission.

VAP 499. PORTFOLIO AND PAPER—PHOTOGRAPHY: Completion and presentation of undergraduate portfolio and paper, to be reviewed by faculty and peers. Faculty approval of portfolio and paper is required for graduation. Prerequisite: VAP 498 or permission.

Studio fees: $30. - $75.

ART HISTORY

* VAH 101. INTRODUCTION TO THE VISUAL ARTS: Thematically-based, non-chronological introduction that covers the fundamental and varied roles that the visual arts have played and continue to play in the human experience. Open to all students. Fee. 3 sem. hrs.

* VAH 201. SURVEY OF ART I: Survey of Western art from pre-history through the late medieval period. Open to all students. Fee. 3 sem. hrs.
VAR

*VAH 202. SURVEY OF ART II: Survey of Western art from the late medieval period through the Baroque. Open to all students. Fee. 3 sem. hrs.

*VAH 203. SURVEY OF ART III: Survey of Western art from the eighteenth through the twentieth centuries. Open to all students. Fee. 3 sem. hrs.

VAH 350. WESTERN ARCHITECTURE: Introduction to the history, theory, and practice of Western architecture from pre-history through the contemporary period. Open to all students. Fee. 3 sem. hrs.

*VAH 360. ART HISTORY AND FEMINISM: Introduction to feminist approaches to art history and women artists from the medieval period to the present. Open to all students. Fee. 3 sem. hrs.

VAH 370. AMERICAN ART: Introduction to American art and architecture from the colonial period to the present. Open to all students. Fee. 3 sem. hrs.

*VAH 382. HISTORY OF PHOTOGRAPHY I: History of the cultural, social, and aesthetic roles of photography from the camera obscura to 1945. Emphasis on the changing practice and perception of the medium as an art form, as social document, and as popular culture. Open to all students. Fee. 3 sem. hrs.

VAH 383. HISTORY OF VISUAL COMMUNICATION DESIGN: Study of the significant developments, movements, and figures in the history of visual communication with an emphasis on the twentieth century. Open to all students. Fee. 3 sem. hrs.

VAH 450. ITALIAN RENAISSANCE ART: Introduction to the painting, sculpture, and architecture of Italy between c. 1300 and c. 1550. Fee. Prerequisite: VAH 202 or permission.

VAH 460. BAROQUE ART: Study of the major painters, sculptors, and architects of the seventeenth century. Fee. Prerequisite: VAH 202 or permission. 3 sem. hrs.

VAH 470. NINETEENTH-CENTURY ART I: Study of the major artists and movements in European art from Neo-Classicism to the beginnings of Realism. Fee. Prerequisite: VAH 203 or permission. 3 sem. hrs.

VAH 471. NINETEENTH-CENTURY ART II: Study of the major artists and movements in European art from Realism through Art Nouveau. Fee. Prerequisite: VAH 470 or permission. 3 sem. hrs.

*VAH 480. TWENTIETH-CENTURY ART I: Study of the major movements and artists in the painting, sculpture, architecture, and other media from 1900 to 1945. Open to all students. Fee. 3 sem. hrs.

VAH 482. HISTORY OF PHOTOGRAPHY II: The history of photography from 1945 to the present. Open to all students. Fee. 3 sem. hrs.

VAH 483. TWENTIETH-CENTURY ART II: Study of the major movements and artists in painting, sculpture, architecture, and other media from 1945 to the present. Open to all students. Fee. 3 sem. hrs.

VAH 485. ART HISTORY SEMINAR: A seminar and capstone reading and research course concentrating on one art historical topic for detailed analysis. May be repeated as topics change. Permission of instructor. 3 sem. hrs.

VAH 490. SPECIAL PROBLEMS: Advanced, independent study with faculty direction in art history. Prerequisite: one art history course or permission. 1-5 sem. hrs.

Visual Resources fees: $25.
VISUAL ARTS

VAR 100. VISUAL ARTS FOUNDATION: Defines and examines the process of beginning a program of education in the visual arts within the larger context of the College of Arts and Sciences and the University. Integrates pragmatic and conceptual issues critical to liberal learning for visual arts students.
1 sem. hr.

VAR 200. INTRODUCTION TO VISUAL ARTS COMPUTING: An introduction to the computer as a tool, and the computer lab as an environment, for visual art production. Studio fee.
1 sem. hr.

VAR 210. VISUAL JOURNAL: Students document and interpret their experience of a given site through the creation of unique journals. They create, collect, edit, and juxtapose visual materials in combination with written commentary and reflections. Studio fee.
3 sem. hrs.

VAR 220. VISUAL RESOURCES: Students study a wide variety of visual elements, including many forms of visual communication as well as architecture, public spaces, and museums, in order to understand ways in which art and design play key roles in defining the unique cultural environment of a given site. Studio fee.
3 sem. hrs.

VAR 345. COMPUTER MODELING AND ANIMATION I: Introduction to history, theory, and practice of 3-dimensional computer modeling and animation for video, computer and print media. Visualization, Cartesian space, simple polygonal modeling, surface rendering, and animation techniques will be explored. Studio fee. Prerequisite: VAP 240, or VAR 200, or permission.
3 sem. hrs.

VAR 440. COMPUTER MODELING AND ANIMATION II: Detailed study of spline-based modeling, surface rendering and mapping, editing complex animation sequences, motion control, and other topics. Studio fee. Prerequisite: VAR 345.
3 sem. hrs.

VAR 445. COMPUTER MODELING AND ANIMATION III: Individual projects in conceptualization and production of animated sequence from storyboard to final presentation. Studio fee. Prerequisite: VAR 440.
3 sem. hrs.

VAR 490. SPECIAL PROBLEMS: Advanced, independent study with faculty direction in a visual arts subject or topic that is not covered in existing, discipline-specific courses. Permission. Studio fee.
1-5 sem. hrs.

Studio fees: $25. - $60.

*General Education course. See Chapter V.

WST

WOMEN’S STUDIES (WST)

The interdisciplinary minor in women’s studies provides a timely academic concentration appropriate to many majors and useful in many fields. As an academic pursuit, women’s studies attempts to compensate for the traditional omission from many curricula of the historical and contemporary contributions of women. It also looks to the future, intending to enhance the dignity, worth, and effectiveness of all women.

The minor in women’s studies requires 13 semester hours. It must include the interdisciplinary seminar ASI 228, Focus on Women, and 12 semester hours in upper-division courses (300-level or above) from at least three different disciplines.

The following courses are among those offered.

<table>

In addition, independent study courses and UDI courses may be applicable. ¹Topics courses in various departments may be applicable if they are readily identifiable as pertinent to women’s studies. Students who wish to be recorded as minoring in women’s studies should notify their respective deans and the director of women’s studies.

John Shishoff, Director, Undergraduate Program
Mary Beth DeConinck, Assistant Director, Undergraduate Program

OUR MISSION

We are a learning community, committed in the Marianist tradition, to educating the whole person and to connecting learning, scholarship, leadership and service within an innovative business curriculum designed to address the characteristics of the contemporary business climate.

AN OVERVIEW OF OUR CURRICULUM

The School of Business Administration seeks to develop people and knowledge which make a difference in business and society. Our mission is to create outstanding value for our stakeholders by providing high quality educational programs, that deliver the best in business thinking and practice, embody the Catholic/Marianist educational tradition and prepare well-rounded graduates for successful business careers and further education.

The undergraduate curriculum has three distinct emphases: a foundation in the liberal arts, a firm grounding in the common body of business knowledge, and specialization in a business major. Supplemented with opportunities for enrichment, the curriculum stimulates critical thinking, enhances communication skills, integrates and synthesizes knowledge, and fosters ethical decision-making and moral leadership. It is built upon the enduring and fundamental bases of knowledge that can prepare students for careers in the complex global economy of the 21st century.

ADMISSION TO THE SCHOOL OF BUSINESS ADMINISTRATION

The minimum requirements for admission to the School of Business Administration are the following:

- Graduation from an accredited high school
- The following units of college preparatory subjects:
  - English 4 units
  - Mathematics (Algebra I & II, Geometry) 3 units
  - Natural Science with a Laboratory 1 unit
  - Social Science 2 units
- Students who rank in the upper half of their high school graduating class and who have SAT scores of 1000 or ACT scores of 22 are automatically eligible for admission to the School of Business Administration. Applicants who do not meet these criteria are judged on an individual basis. Consideration is given to the type of courses taken, the type of secondary school attended, and leadership activities, in addition to class rank and standardized test scores.
- Any person whose native language is not English must submit an acceptable score in the Test of English as a Foreign Language (TOEFL). (See also International Students in Chapter III.)
TRANSFER STUDENTS

Candidates for admission from other accredited colleges or universities must be in good academic standing in the colleges or universities from which they are transferring. In addition, they must satisfy one of two entrance requirements: (1) a cumulative grade point average of 2.25 and completion of a calculus course (MTH 129 or equivalent) with a grade of C- or better, or (2) a cumulative grade point average of 2.50 without a calculus course.

Students seeking to transfer into the School of Business Administration from other UD divisions must also satisfy one of two entrance requirements: (1) a cumulative grade point average of 2.25 and completion of a calculus course (MTH 129 or equivalent) with a grade of C- or better, or (2) a cumulative grade point average of 2.50 without a calculus course.

All transfer students are required to have an SBA-approved laptop computer.

Individual courses can be transferred only if the student earned a grade of C- or better; courses in which a D grade was received will not be transferred. Upper division business courses can be transferred only from business schools accredited by the American Assembly of Collegiate Schools of Business (AACSB). At least 75 percent of a student's business courses must be completed at the University of Dayton. Students planning to attend two year colleges before transferring to the School of Business Administration are encouraged to follow arts and sciences or pre-business programs rather than technical programs. (See also Chapter III.)

RETURNING STUDENTS

A qualified student who returns to the School of Business Administration after an absence of one calendar year or longer may be readmitted to the School of Business Administration according to the University of Dayton requirements which are applied to transfer students from other universities and colleges. (See Chapter III.) These students will be required to satisfy the program requirements which are current at the time of their readmission to the School of Business Administration. Part-time students (those who carry fewer than 12 semester hours) who are readmitted after an absence of two or more years will be required to satisfy the program requirements which are current at the time of readmission to the School of Business Administration.

REQUIREMENTS FOR THE BACCALAUREATE DEGREE

The School of Business Administration programs lead to the degree of Bachelor of Science in Business Administration upon satisfactory completion of the following requirements:

1. The candidate must complete successfully the first-and second-year business administration program, which is designed to give a wide and liberal education for a broader comprehension of the fields of business administration and economics. All students in the School of Business Administration must complete a common block of courses known as the SBA core.

2. The candidate must earn a cumulative grade point average of at least 2.0 in the total semester hours required for the degree and in the major. The 2.00 requirement in the major is calculated using all 300-400 level courses attempted in the student's major; courses numbered at the 100 or 200 level are not included in this calculation.

3. Each candidate must complete at least 54 upper-level semester hours, with a minimum of 36 semester hours in 300-400 level courses in the School of Business Administration, of which 18 semester hours or more must be in one of the academic majors.
4. Candidates majoring in accounting, business economics, finance, leadership, entrepreneurship, international business, or marketing must complete a minimum of 123 semester hours. A major in management information systems or operations management requires 124 semester hours.

5. The candidate's final 30 semester hours must be earned at the University of Dayton.

6. The School of Business Administration will not accept any business or business-related courses more than ten years old.

7. A maximum of two semester hours of physical education activities courses (HSS 130) may be applied toward the minimum graduation requirement.

8. The candidate has the responsibility of meeting degree requirements in business administration. Therefore, the student should be thoroughly familiar with the degree requirements.

GRADING OPTION

All students in the School of Business Administration must register under Grade Option 1 for courses in any department of the School of Business Administration. Other courses that must be taken under Option 1 are MTH 128, 129; PHL 313; REL 368; the communication requirement; and general education courses. MIS majors must take required computer science courses under Option 1.

FIRST- AND SECOND-YEAR SBA PROGRAM

The program below is to be followed by all business students except those planning to major in management information systems. Those students should follow the program outlined in the section on the Management Information Systems major (MIS) later in this chapter.

The program below contains all the requirements for the first and second years. There is flexibility in that some courses listed in the first year can be taken during the second year or vice versa. Consult an academic advisor for sequencing options.

MAJORS, MINORS, AND SPECIAL PROGRAMS

Majors are available in accounting, business economics, finance, leadership, entrepreneurship, international business, management information systems, marketing and operations management. These programs are described later in this chapter.

Each major involves some number of general electives, as seen in the appropriate program descriptions. In choosing electives, students must bear in mind that a minimum of 54 semester hours of all academic work must be at the 300-400 level.

Double majors and minors in business administration are available. Interested students should consult with the appropriate departments for details. Requirements for minors are set forth under the descriptions for each academic unit later in this chapter. Minors in some nonbusiness programs are also available.

MINOR IN BUSINESS ADMINISTRATION

A minor in business administration is available to students in other divisions of the university. A minor is helpful to students considering a Master of Business Administration (MBA) degree, or for those who may be seeking business careers.

The minor consists of 18 semester hours, as follows:

The following two courses are required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECO 203</td>
<td>Principles of Microeconomics</td>
</tr>
<tr>
<td>ACC 301</td>
<td>Financial Accounting</td>
</tr>
</tbody>
</table>

Select any four of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MGT 201</td>
<td>Legal Environment of Business</td>
</tr>
</tbody>
</table>
For those interested in an MBA degree, additional business courses are helpful and would allow completion of an MBA in less time. These courses include: ECO 204, Principles of Macroeconomics; and DSC 210-211, Statistics for Business I and II (or comparable statistics courses offered by other departments), and other courses listed above. In addition, those interested in an MBA degree should consider taking ACC 207-208 in place of ACC 301.

INTERNSHIP

Internship is work experience offered (possibly for academic credit) in each of the departments in the School of Business Administration. The intent is to provide practical experience in implementing the theory and skills learned in the classroom in work associated with the student’s academic concentration. It is an option open to all undergraduate students pursuing four-year programs once they have fulfilled the following prerequisites:

1. Students must have completed a minimum of 45 semester hours prior to the internship experience.
2. A minimum cumulative GPA of 2.0 is required to participate in an internship. However, individual departments may require a higher minimum cumulative GPA, and students should inquire in the department of their major if such a requirement exists. Department may alter the cumulative GPA requirement at any time, and any change in the minimum GPA requirement supercedes the minimum GPA printed in the bulletin.
3. Students can earn credit for internships only through the department of their major. Approval from the department chairperson or the chairperson’s designee is a prerequisite for participation in the program. Individual departments may require other prerequisite courses prior to the internship experience. Students are responsible for checking with the department of their major to determine the prerequisites unique to the department.

Positions offered to students may be either compensatory or noncompensatory. The intent of the internship is to be beneficial to both the students and the participating organizations. Students are encouraged to find positions themselves, and these are acceptable if the employers agree to the conditions for participating organizations.

Credits earned in internship are applied as general electives. The maximum number of semester hours that may be earned over the full four-year degree program is six, although individual department requirements differ and should be checked under the 497 course numbers in the pages which follow. Interested students should see the internship coordinator for further information as soon as they are eligible for participation.
COOPERATIVE EDUCATION

The School of Business Administration participates in the University of Dayton Cooperative Education Program, which is an optional program often consisting of full-time, on-campus study alternating with terms of full-time, off-campus work. For a fuller explanation of the program, refer to Chapter X.
ACCOUNTING (ACC)

The mission of the Department of Accounting is to prepare our students for successful professional careers by providing high quality educational programs in accounting within an environment that connects learning, scholarship, leadership, and service creating distinctive graduates able to add value to employers, clients, and society.

An accounting major must earn credit in at least seven upper-level accounting courses. Six specific courses are required: ACC 303, 305, 306, 341, 401, and 420. One additional accounting course is typically required. All upper-division accounting courses require a minimum grade of "C" in all prerequisite accounting courses. Students should consult with their academic advisor about selecting accounting and other elective courses appropriate to particular career goals. Students should also consult their advisor or the chairperson about opportunities for professional work-experience, double majors and minors, foreign exchange opportunities, requirements for professional (e.g., CPA) examination, etc.

Students may complete a 150 semester hour program required to become a CPA in Ohio and numerous other states. The MBA program, with an optional concentration in accounting, is particularly useful in this regard. Our integrated B.S./M.B.A. program allows for the completion of both degrees, plus professional work experience, foreign exchange experience and a second major or minor, in five years. Consult the department chairperson or an advisor for more information.

^3See General Education Requirements, Chapter V. Some General Education courses are specified in the program (e.g., PHL 313 or REL 368); others are to be chosen from the listing of approved courses set forth in Chapter V.
2 Accounting majors completing a second major in the SBA can often substitute or waive one or more courses. Consult an advisor for further information.

3 May be waived, and replaced by general electives, for students electing to complete a combined B.S. with a major in accounting and an MBA. Consult an advisor or the chair of the department for details.

4 Choose any 300 or 400 level economics course.

5 A minimum of 54 sem. hrs. of all academic work must be at the 300-400 level. Students completing the combined BS/MBA program should likely schedule additional MBA courses. Consult with your accounting advisor.

The program above contains all of the junior and senior requirements for an accounting major. There is flexibility in the sequencing of some courses. Consult the academic advisor for sequencing options.

For a minor in accounting, at least 19 semester hours are required as follows:
ACC 207-208, Introduction to Financial/Managerial Accounting.
Two additional accounting courses, chosen in consultation with the department chairperson.

FACULTY
Ronnie J. Burrows, Chairperson
Professors Emeriti: Clark, Eley, Fioriti, Roehm, Rosenzweig
Professors: Castellano, Street
Associate Professors: Brady, Burrows, Geary, Greenlee, Larson
Lecturers: Fink, Giffin, Shankar, Shishoff

COURSES OF INSTRUCTION

ACC 207. INTRODUCTION TO FINANCIAL ACCOUNTING: Introduction to financial accounting concepts, procedures, and terminology. The accounting framework for recording transactions and reporting to parties external to the organization. Prerequisites: Sophomore standing and BAI 103L or equivalent, or permission of chairperson. 3 sem. hrs.

ACC 208. INTRODUCTION TO MANAGERIAL ACCOUNTING: Management use of accounting data in planning and controlling organization activities; theories and practices of cash flow reporting, cost accounting and analysis of data for management decision making. Prerequisite: ACC 207. 3 sem. hrs.

ACC 301. INTRODUCTION TO ACCOUNTING: Introduction to financial and managerial accounting concepts, terminology, purposes, and applications for the nonbusiness student. Not open to students in the School of Business Administration or to those with credit in ACC 207. 3 sem. hrs.

ACC 303. MANAGERIAL ACCOUNTING: The production, dissemination, and interpretation of financial information for use within an organization. Information for planning, decision making, and control. Study of typical cost accounting systems in various organizations. Prerequisites: ACC 208; junior standing or permission of chairperson. 3 sem. hrs.
ACC 305-306. INTERMEDIATE FINANCIAL ACCOUNTING I & II: Comprehensive treatment of financial accounting concepts, principles, and procedures used in the preparation and analysis of financial statements. Prerequisites: ACC 207 and 208; junior standing, or permission of chairperson. ACC 305 is a prerequisite for ACC 306.

ACC 341. ACCOUNTING INFORMATION SYSTEMS I: Study of designs of accounting systems, including their impact on management decision making and control. Emphasis on (1) a systems approach to the flow of data, (2) system internal control, and (3) computer applications in accounting. Prerequisites: ACC 207 and 208, completion or concurrent registration of MIS 365 or permission of chairperson.

ACC 401. AUDITING PRINCIPLES: Study of the concepts, standards, and procedures used to judge and report on the degree of correspondence between quantifiable information and established criteria; and the ethical environment in which these determinations are made; introduction to internal, operational, and governmental auditing. Prerequisites: ACC 306 and 341, or concurrent registration with permission of chairperson.

ACC 402. ACCOUNTING FOR NOT-FOR-PROFIT ORGANIZATIONS: Study of the principles, techniques, and procedures related to financial reporting of governmental units and other not-for-profit entities. Prerequisite: ACC 305.

ACC 404. ADVANCED STRATEGIC COST MANAGEMENT: Study of process focus to strategic cost management. Topics include balanced scorecards, activity-based costing and management, target costing and the use of statistical process control as related to organizational processes and performance measurement and control systems. Prerequisites: ACC 303 and OPS 301 or permission of chairperson.

ACC 408. ADVANCED FINANCIAL ACCOUNTING: Study of the principles and procedures in accounting for specialized uses in business combinations, consolidations, government and other not-for-profit entities, multinational companies, and foreign currency transactions. Prerequisite: ACC 305.

ACC 412. INTERNATIONAL ACCOUNTING: Introduction to issues of international business as they relate to accounting; accounting practices in selected countries, and activities of the International Accounting Standards committee. Prerequisite: ACC 305 or permission of chairperson.

ACC 420. FEDERAL INCOME TAXATION: Study of federal income tax laws and their application to individuals, partnerships, and corporations. The historical, social, economic, and political influence on taxation laws are emphasized. Consideration is given to legal, moral, business, and personal factors involved in taxation. Prerequisite: ACC 305 or ACC 208 with permission of chairperson.

ACC 430. LAW FOR THE ACCOUNTING PROFESSION: Study of major laws affecting the public and private practice of accounting; contracts, property, commercial code, bankruptcy, business organizations, legal responsibility, and government regulations. Credit does not apply to requirements for ACC major. Prerequisites: ACC 208 and MGT 203; permission of chairperson. 3 sem. hrs.

ACC 441. ACCOUNTING INFORMATION SYSTEMS II: Examination of accounting systems with exposure to systems design and evaluation, complex spreadsheet applications, decision support systems, and data base management applications. Prerequisite: ACC 341 or permission of instructor. 3 sem. hrs.

ACC 491-492. HONORS THESIS: Selection, design, investigation, and completion of an independent original research thesis under the guidance of a departmental faculty member. Restricted to students in the University Honors Program with permission of program director and chairperson. 3 sem. hrs. each

ACC 497. PROFESSIONAL WORK EXPERIENCE: Supervised accounting work experience in association with a participating public accounting, industrial, commercial, educational, health-care, or governmental organization. May be used for general elective credit only. Option two grading only. Maximum of three credits toward graduation requirements. Permission of chairperson required. 1-6 sem. hrs.

ACC 499. INDEPENDENT STUDY IN ACCOUNTING: Directed readings, independent study, and research projects in selected fields of accounting. Periodic conferences with instructor. Prerequisites: Senior status in accounting; permission of chairperson and instructor. 1-6 sem. hrs.
DECISION SCIENCES (DSC)

The Department of Management Information Systems, Operations Management, and Decision Sciences offers courses in several quantitative and systems areas, a major and a minor in management information systems (see MIS), a major and minor in operations management (see OPS) and a minor in decision sciences.

Decision sciences is the study of analysis, quantitative methodologies, and their application to the functional and behavioral problems of any organization. The major areas of study include applied statistics, operations research, and production and operations management. All business students take three decision sciences and operations management courses as part of their core business coursework: DSC 210, Statistics for Business I; DSC 211, Statistics for Business II; and OPS 301, Production and Operations Management.

The minor in decision sciences (DSC) offers business majors and other students an opportunity to develop their skills in the quantitative methods which support managerial decision making. The following courses are required for a minor in decision sciences:

- MIS 175, Introduction to Business Applications
- DSC 210, Statistics for Business I
- DSC 211, Statistics for Business II
- MIS 365, Information Systems in Organizations
- DSC 370, Decision Support Systems
- OPS 301, Survey of Operations Management

Three additional semester hours of DSC, MIS, or OPS 300 or 400 level courses in addition to courses used to satisfy the requirements of any other major or minor. See Department Chair for approval.

Specific courses in other areas (e.g. mathematics) may be used. See chairperson for approval.

FACULTY

Jeffrey A. Hoffer, Chairperson, Department of Management Information Systems and Decision Sciences

Professor Emeritus and Distinguished Service Professor: Bohlen
Professors Emeriti: Casey, Vlahos, Young
John Kanet, Niehaus Chair in Operations Management
Professors: Dunne, Ferratt, Hoffer, Kanet, Wells
Associate Professors: Ahire, Amsden, Prasad
Assistant Professors: Enns, Gorman, Salisbury
Lecturers: Davis, McManamon, Wagner

COURSES OF INSTRUCTION

DSC 210. STATISTICS FOR BUSINESS I: Basic concepts of statistics including descriptive statistics, probability, probability distributions, and estimation. Prerequisites: MTH 128, BAI 103L. 3 sem. hrs.

DSC 211. STATISTICS FOR BUSINESS II: Tests of hypotheses, analysis of variance, simple and multiple regression and correlation, and nonparametric methods. Use of computer software for statistical data analysis. Prerequisite: DSC 210, MTH 129. 3 sem. hrs.
DSC 313. ADVANCED BUSINESS STATISTICS: Selected topics from advanced statistics with emphasis on business applications. Prerequisite: DSC 211 or equivalent. 3 sem. hrs.

DSC 370. DECISION SUPPORT SYSTEMS: Information systems and mathematical modeling for managerial analysis and decision making. Develops skills to solve problems using computer-based modeling in selected disciplines, such as marketing or finance. Topics include components of a DSS, linear programming, simulation modeling, group decision making, and intelligent support systems. Prerequisites: DSC 211, MIS 365, MIS 175 recommended. 3 sem. hrs.

DSC 410. DECISION THEORY: Introduction to the analysis of decisions under uncertainty. Topics include structuring of the decision process, Bayesian decision theory, and multicriteria decision making. Prerequisite: DSC 211 or equivalent. 3 sem. hrs.

DSC 415. SIMULATION MODELING AND ANALYSIS: Introduction to simulation models in support of business decision making. Emphasis on building and analyzing models in a variety of applications including manufacturing and service systems. Study and use of a simulation language. Prerequisites: DSC 211; DSC 370 recommended. 3 sem. hrs.

DSC 435. ANALYSIS OF FACTORY SYSTEMS: Concepts and techniques for the analysis, design, and management of factory production systems. Work-flow layout, scheduling techniques, stochastic process models, simulations, and computerized factory models. Prerequisites: DSC 370, OPS 301. 3 sem. hrs.

DSC 491-492. HONORS THESIS: Selection, design, investigation, and completion of an independent original research thesis under the guidance of a departmental faculty member. Restricted to students in the University Honors Program with permission of the director of the program and the departmental chairperson. 3 sem. hrs. each

DSC 494. SEMINAR IN DECISION SCIENCES: Study of selected topics or issues in applied statistics, quantitative business analysis, and production and operations management. Topics vary from time to time. May be taken more than once if topics change. Title will reflect topics covered in a particular offering. 3 sem. hrs.

DSC 497. LABORATORY WORK EXPERIENCE: Under faculty sponsorship and in association with a participating industrial, commercial, educational, health-care, or governmental organization, practical experience in work associated with the student's minor concentration. (See internship coordinator for details.) Does not satisfy MIS elective. Permission of chairperson required. 1-6 sem. hrs.

DSC 499. INDEPENDENT STUDY IN DECISION SCIENCES: Research in conjunction with a faculty member on a subject within the general area of decision sciences. Normally open only to juniors and seniors who have attained a cumulative grade-point average of 3.0 or above. Permission of chairperson required. 1-6 sem. hrs.
The Department of Economics and Finance offers majors in Business Economics and in Finance for students in the School of Business Administration. The department also offers majors in Economics and in Applied Mathematical Economics for students in the College of Arts and Sciences (See Chapter VI for requirements for these majors.) Minors in Economics, Business Economics and Finance are available to all students.

Economics teaches students to think analytically about problems that arise in business, politics, and everyday life. The Business Economics major offers students the strength of economic theory combined with a focus in an area of applied business and develops the student’s quantitative skills by requiring course work in econometrics or forecasting. The major is excellent preparation for a wide range of employment opportunities in business, government and education. It also prepares students for graduate study in law, public policy, and business. Students who wish to pursue graduate study in economics should supplement the major with additional mathematics courses or major in Applied Mathematical Economics.

A major in Business Economics requires: ECO 203-204, ECO 340 or 346, ECO 410 or 441, ECO 490, 6 additional semester hours of economics electives, and a breadth requirement of 6 semester hours of courses in one other business discipline chosen from a list of approved courses. See the department office or website for the approved breadth requirement courses. The breadth courses should be chosen to complement the economics electives taken by the student.

The program below contains all of the junior and senior requirements for a Business Economics major. There is flexibility in the sequencing of some courses. Consult the academic advisor for sequencing options.

¹Business Economics majors are required to take 6 semester hours of electives chosen from approved courses in one other business discipline. A list of approved courses is available from the department office or website.

²See General Education Requirements, Chapter V. Some General Education courses are specified in the program (e.g., PHL 313 or REL 368); others are to be chosen from the listing of approved courses set forth in Chapter V.

³A minimum of 54 sem. hrs. of all academic work must be at the 300-400 level.

A minor in Business Economics requires:

• ECO 203-204 Principles of Microeconomics and Macroeconomics
• ECO 340 Managerial Economics or ECO 346 Intermediate Microeconomic Analysis
• ECO 410 Business and Economic Forecasting or ECO 441 Econometrics
• Six additional semester hours in economics

FACULTY

Elizabeth Gustafson, Chairperson

Professors: Frasca, Rapp

Associate Professors: Gustafson, Hadley, Ruggiero

Assistant Professors: Poitras, Oladi

Lecturer: John

COURSES OF INSTRUCTION

• ECO 203. PRINCIPLES OF MICROECONOMICS: An introduction to consumer and producer behavior in a market economy, demand and supply, pricing and firm behavior under perfect and imperfect competition, and the distribution of income. Discussion of current topics in microeconomics may be included. 3 sem. hrs.

• ECO 204. PRINCIPLES OF MACROECONOMICS: Introductory economic analysis of the macroeconomy; the determination of gross national product, employment, inflation and the interest rate in the U.S. economy. Government policy, money and banking, and international trade are analyzed. Prerequisite: ECO 203 recommended. 3 sem. hrs.

• ECO 310. ECONOMICS OF THE ENVIRONMENT: Introduction to the economics of the global environment including an analysis of market failure as a cause of
environmental degradation. Topics covered include cost-benefits analysis, criteria for public investment, regulation of the environment, and the sustainable global environment. Prerequisite: ECO 203 strongly recommended.

ECO 340. MANAGERIAL ECONOMICS: Application of economic models to managerial decision making. Topics include demand analysis, forecasting demand, short-run cost analysis, long-run cost and production functions, pricing, and risk and uncertainty. May not get credit for both ECO 340 and ECO 346. Prerequisite: ECO 203. 3 sem. hrs.

ECO 346. INTERMEDIATE MICROECONOMIC ANALYSIS: Analysis of the theory of consumer behavior, production theory, equilibrium of the firm, price determination in various market structures, distribution of income, allocation of resources, and welfare economics. May not get credit for both ECO 346 and ECO 340. Prerequisite: ECO 203. 3 sem. hrs.

ECO 347. INTERMEDIATE MACROECONOMIC ANALYSIS: National income accounting and the determination of the level of income and employment; classical, Keynesian, and post-Keynesian models; private, government, and foreign sectors; theories of inflation and economic growth. Prerequisite: ECO 204. ECO 203 recommended. 3 sem. hrs.

ECO 390. ANTITRUST ECONOMICS: Study of how economic analysis has been applied in the interpretation of the antitrust statutes. Examines major anti-trust laws and relevant case law and reviews economic theories of market behavior. Prerequisite: ECO 203. 3 sem. hrs.

ECO 410. BUSINESS AND ECONOMIC FORECASTING: Forecasting techniques, including ARIMA time series models, econometric models, moving averages, exponential smoothing, and time series decomposition, are used to forecast business and economic variables. Data sources, selection of appropriate forecasting tools and models, and evaluation of forecast results are studied. Prerequisites: ECO 203 or 204, and Statistics (MTH 207 or DSC 211 or MTH 367 or MTH 412). 3 sem. hrs.

ECO 415. GAME THEORY WITH BUSINESS APPLICATIONS: Introductory course in strategic and competitive decision making; provides a thorough discussion of the basic techniques of applied game theory and of systematic thinking in making business decisions. Among the topics covered with applications to business are equilibrium strategies, the prisoner’s dilemma, understanding situations involving conflict and cooperation, contracting and creating incentives, and bargaining and negotiations. Prerequisite: ECO 203, 204. 3 sem. hrs.

ECO 441. ECONOMETRICS: Training in the art of making economic measurements from empirical data, using regression analysis as the principal tool; use of a computer program for determining the parameters and statistical measures of the regression equation; interpretation of the results by statistical inference. Prerequisites: ECO 203, 204, Differential calculus and basic statistics or permission of the instructor. 3 sem. hrs.

ECO 442. MONEY AND BANKING: Principles of money and monetary systems; commercial banking and the role of the Federal Reserve System; monetary theory and policy; the mechanism of international payments. Prerequisites: ECO 203, 204. 3 sem. hrs.

ECO 445. PUBLIC FINANCE: The economic aspects of government finance at the local, state, and especially national level; the behavioral effects of various taxes,
efficiency in spending, the changing role of the U.S. government, fiscal policy, and intergovernmental revenue and expenditure programs; emphasis on relating analytical tools to current developments. Prerequisites: ECO 203, 204. 3 sem. hrs.

ECO 450. COMPARATIVE ECONOMIC SYSTEMS: Analysis of the principal tools of economic systems of the world, primarily capitalism, socialism, and communism. A comparative analysis of how each type of economic system allocates resources to achieve desired economic goals. Prerequisites: ECO 203, 204. 3 sem. hrs.

*ECO 460. ECONOMIC DEVELOPMENT AND GROWTH: Study of various dynamic economic theories of growth and structural change; the role of particular factors of production and related noneconomic variables in the development process, primarily, though not exclusively, of Third World nations. Prerequisites: ECO 203, 204. 3 sem. hrs.

*ECO 461. INTERNATIONAL ECONOMICS: Major issues surrounding international trade, the economic interdependence of nations and businesses, essential theoretical and empirical tools necessary to monitor and analyze international economic phenomena, and the application of these tools to contemporary global business problems and issues. Prerequisites: ECO 203, 204; ECO 346 recommended. 3 sem. hrs.

ECO 471. LABOR ECONOMICS: Theory of labor supply and demand, human capital theory, and the process by which wages are determined in various factor markets; applications to topics of unemployment, unions, migration, discrimination, and skill differentials. Prerequisites: ECO 203, 204. 3 sem. hrs.

ECO 480. SPORTS ECONOMICS: The application of economic analysis to the sports industry. Examines demand and efficiency in the product market; the labor market for professional athletes and mechanisms for restricting competition in that market; problems in achieving an efficient allocation of resources in the sports industry. Prerequisites: ECO 203; 204, and DSC 211 or MTH 207 or equivalent. 3 sem. hrs.

ECO 485. URBAN AND REGIONAL ECONOMICS: Treatment of certain theoretical concepts such as location theory and theories of land use and land rent; an economic interpretation for the existence of cities; applying economic analysis to the problems of traffic congestion, pollution, race, poverty, and urban sprawl. Prerequisite: ECO 203; ECO 346 recommended. 3 sem. hrs.

ECO 490. SENIOR SEMINAR IN APPLIED ECONOMICS: Application of theoretical, mathematical, and statistical methods used by economists to economic problems presented by business or government clients or chosen by the instructor. Prerequisite: 15 semester hours in Economics. 3 sem. hrs.

ECO 491-492. HONORS THESIS: Selection, design, investigation, and completion of an independent original research thesis under the guidance of a departmental faculty member. Restricted to students in the University Honors Program with permission of the director of the program and the departmental chairperson. 3 sem. hrs. each
ECO 494. SEMINAR: Subject varies from time to time. May be taken more than once if topic changes. Prerequisites to be announced.  
3 sem. hrs.

ECO 496. COOPERATIVE EDUCATION: Optional full-time work period off campus alternating with study period on campus. (See Chapter X; consult Cooperative Education Office for details.) Does not count toward economics major. Permission of chairperson required.  
3 sem. hrs.

ECO 497. INTERNSHIP FOR GENERAL ELECTIVE CREDIT: Practical work experience associated with career development and career exploration relating to the student’s major. Permission of department chair or designee required. Does not replace economics courses for the economics major. Prerequisite: 45 sem. hrs. of credit.  
3 sem. hrs.

ECO 498. STUDIES IN ECONOMICS (HONORS): Directed readings and research in selected fields of economics. The number of sem. hrs. will depend on the amount of work chosen. The course will involve periodic discussions with faculty and other students in the course. May be taken more than once for additional credit. Prerequisite: 3.0 average in economics with a minimum of 9 sem. hrs. in economics; nomination by faculty and permission of chairperson required.  
1-6 sem. hrs.

*General Education course. See Chapter V.
FINANCE (FIN)

The Department of Economics and Finance offers majors in Finance and in Business Economics for students in the School of Business Administration. The department also offers majors in Economics and in Applied Mathematical Economics for students in the College of Arts and Sciences (See Chapter VI). Minors in Finance, Business Economics and Economics are available to all students.

The finance major provides students with a working understanding of the financial decision-making process, how financial markets function, and the acquisition and management of capital. Students may elect course concentrations in investment analysis and portfolio management, financial institutions and services, or corporate financial management. Students will be prepared for a variety of careers in business and in the government sector with work in areas such as financial analysis, capital budgeting, banking, mergers and acquisitions, cash management, financial planning, investment analysis and portfolio management, brokerage, real estate, and insurance. A major in finance is also excellent preparation for graduate study in finance, business administration, or corporate and securities law.

The major in finance consists of 21 semester hours: FIN 301, Business Finance; FIN 360, Investments; FIN 371, Financial Markets and Institutions, 9 semester hours of 400 level finance electives, and 3 additional semester hours of 300 or 400 level finance electives or ACC 305.

The program below contains all of the junior and senior requirements for a finance major. There is flexibility in the sequencing of some courses. Consult an academic advisor for sequencing options.

1Choose any 300 or 400 level economics course.

2See General Education Requirements, Chapter V. Some General Education courses are specified in the program (e.g., PHL 313 or REL 368); others are to be chosen from the listing of approved courses set forth in Chapter V.

3A minimum of 54 sem. hrs. of all academic work must be at the 300-400 level.

49 semester hours of 400 level finance courses and 3 semester hours of 300 or 400 level finance courses or ACC 305.

For a minor in finance, 15 semester hours are required:

FIN 301, Business Finance
FIN 360, Investments
FIN 371, Financial Markets and Institutions

Six additional semester hours in finance, which must include at least three semester hours at the 400 level.

FACULTY

Elizabeth Gustafson, Chairperson
Carl Chen, William J. Hoben Professor of Finance
Professor: Chen
Associate Professors: Chan, Mohan, Sauer, Steiner
Assistant Professors: Lung, Tay
Lecturer: Douglas

COURSES OF INSTRUCTION

FIN 300. PERSONAL FINANCE: Principles and techniques for handling personal financial decisions: personal budgeting, obtaining credit, life and casualty insurance, buying a home, buying an automobile, and savings and investments. For both business and nonbusiness majors. Does not count toward the finance major. 3 sem. hrs.

FIN 301. BUSINESS FINANCE: Principles and techniques used by business firms in managing and financing their current and fixed assets; sources of funds within the capital markets; determinants of the financial structure; analytical techniques. Prerequisites: ECO 203; ACC 207 or 301, junior standing. 3 sem. hrs.

FIN 310. INVESTMENT CENTER PEER MENTOR: Members of the Center for Portfolio Management and Security Analysis Staff mentor peers in effectively utilizing the various software and database package resources within the Center for Portfolio Management and Security Analysis and assist in a range of developmental programs. Requires permission of the CFPM director. Does not count toward the finance major. Grading option 2. 1 sem. hr.

FIN 321/MGT 321. FINANCING ENTREPRENEURIAL VENTURES: Focuses on financial aspects of starting, growing, and harvesting entrepreneurial ventures. Includes emphasis placed on how common financing deals are structured, common financing pitfalls, and various legal documentation used to consummate financial transactions. Prerequisites: MGT 320 or FIN 301; junior standing. 3 sem. hrs.
FIN 330. INSURANCE AND RISK MANAGEMENT: Study of the basic concepts of business and personal risks from the standpoint of creation, identification, reduction, elimination, and evaluation of risks; the use of insurance in meeting problems of risk.  
3 sem. hrs.

FIN 336. PRINCIPLES OF REAL ESTATE: Survey of real estate industry with emphasis on its structure, regulation, growth, needs, financing, and future. Analysis of the methods of determining land use and evaluation of the theories of city development.  
3 sem. hrs.

FIN 360. INVESTMENTS: The principles and techniques used by the investor in selecting securities, emphasis on the stock and bond markets; security valuation methods leading to the selection of individual issues; portfolio theory. Prerequisite: FIN 301.  
3 sem. hrs.

FIN 371. FINANCIAL MARKETS AND INSTITUTIONS: Study of financial markets and financial institutions, including the Federal Reserve, interest rate theories, money and capital market securities, interest rate futures, options and swaps, international financial markets, such as commercial banking, insurance, and investment banking. Prerequisite: FIN 301.  
3 sem. hrs.

FIN 401. ADVANCED FINANCIAL ANALYSIS: Advanced study of current developments in financial planning, acquisition of funds, asset management valuation, policy strategy and techniques in financial decision making. Prerequisite: FIN 301.  
3 sem. hrs.

FIN 410. INVESTMENT CENTER OPERATING COMMITTEE: Members of the Center for Portfolio Management and Security Analysis Operating Committee provide leadership within the CFPM structure. Responsible for achieving assigned unit objectives, managing a team, and taking a leadership position for a range of center initiatives and projects that directly impact the effective implementation of the Center’s overall strategic objectives. Requires permission of the CFPM director. Does not count toward the finance major. Grading option 1.  
1 sem. hr.

FIN 430. TOPICS IN CORPORATE FINANCE: Focus is on how firms create value for their shareholders. Examines the definition and measurement of shareholder value; explores operating and financing strategies that create value; evaluates management incentives and their alignment with shareholder interests. Prerequisites: FIN 301 and FIN 360 or 401.  

FIN 450. INTERNATIONAL BUSINESS FINANCE: Introduction to problems facing financial management of international companies, including foreign exchange risk, working capital and capital budgeting decisions for multinational corporations, international financing, accounting and control. Prerequisite: FIN 301.  
3 sem. hrs.

FIN 460. PORTFOLIO MANAGEMENT AND SECURITY ANALYSIS: Advanced valuation theory and security analysis; portfolio construction, evaluation, and management. Prerequisites: FIN 301, 360.  
3 sem. hrs.

FIN 460L. PORTFOLIO MANAGEMENT LAB: Provide analyst support for the Seminar in Investments course and the Flyer Investments team. Requires previous or concurrent enrollment in FIN 460 and instructor permission. Does not count toward the finance major. Grading option 2.  
1 sem. hr.

FIN 470. FIXED INCOME SECURITIES: Overview of fixed income securities and their derivatives and an introduction to the analytical/computational techniques
required for pricing these complex securities and implementing effective portfolio strategies to control interest rate risk and enhance returns. Prerequisites: FIN 360 or 371.

FIN 471. MANAGEMENT OF FINANCIAL INSTITUTIONS: Integrated and comprehensive analysis of financial institutions that include depository institutions, insurance companies, securities firms, and investment companies. Prerequisites: FIN 301, 371. 3 sem. hrs.

FIN 475. COMMERCIAL BANK MANAGEMENT: Explores the environment in which banks must operate, the financial statements of banks, and a thorough study of bank management topics which include: asset-liability management, the investment portfolio, sources of funds, and the loan portfolio. The methodology includes a bank simulation game. Prerequisites: FIN 301 and FIN 360 or 371. 3 sem. hrs.

FIN 480. OPTIONS AND FUTURES MARKETS: Study of options, futures, and other derivatives fundamentals, trading strategies, hedging, speculation, and arbitrating, pricing theories, and market regulations. Prerequisites: FIN 301 and FIN 360 or 371. 3 sem. hrs.

FIN 491-492. HONORS THESIS: Selection, design, investigation, and completion of an independent original research thesis under the guidance of a departmental faculty member. Restricted to students in the University Honors Program with permission of the director of the program and the departmental chairperson. 3 sem. hrs. each

FIN 493. SEMINAR IN INVESTMENTS: Application of investment theory and techniques in a real-world setting. Students manage a funded portfolio in terms of establishing objectives, selecting securities to buy (sell), and evaluating portfolio performance. Emphasis is placed upon attempting to identify undervalued common stocks. Prerequisite: FIN 360 required; FIN 460 highly recommended. Admission to the course is limited and must be approved by the instructor. 3 sem. hrs.

FIN 493L. SEMINAR IN INVESTMENTS LAB: Provide leadership in facilitating the supporting analyst role for the Seminar in Investments course. Requires previous or concurrent enrollment in FIN 493 and instructor permission. Does not count toward the finance major. Grading option 1. 1 sem. hr.

FIN 494. SEMINAR: Subject varies from time to time. May be taken more than once if topic changes. Prerequisites: To be announced. 3 sem. hrs.

FIN 496. COOPERATIVE EDUCATION: Optional full-time work period off campus alternating with study period on campus. (See Chapter X; consult Cooperative Education Office for details.) Does not count toward finance major. Permission of chairperson required. 3 sem. hrs.

FIN 497. INTERNSHIP FOR GENERAL ELECTIVE CREDIT: Practical work experience associated with career development and career exploration relating to the student's major. Permission of department chair or designee required. Does not replace finance courses for the finance major. Prerequisite: 45 sem. hrs. of credit. 3 sem. hrs.

FIN 498. STUDIES IN FINANCE: Directed readings and research in selected fields of finance. The number of semester hours will depend on the amount of work chosen. The course will involve periodic discussions with other students and faculty in the program. May be taken more than once for additional credit. Prerequisite: 3.0 average in finance with a minimum of 9 sem. hrs. in finance; nomination by faculty and permission of chairperson required. 1-6 sem. hrs.
BAI INTERDISCIPLINARY STUDIES (BAI)

BAI 150. BUSINESS EDUCATIONAL PLANNING: Introduction to the School of Business Administration and the University. Development of approaches to all inclusive educational planning. Does not count toward minimum graduation requirement.

1 sem. hr.

BAI 151. BUSINESS INTEGRATION EXPERIENCE: Integrated introduction to major business processes and decision making. Open only to first-year students.

1 sem. hr.

BAI 103L. BUSINESS COMPUTING LABORATORY: Introduction to business software skills including HTML, Microsoft Excel and Power Point, and Lotus email and calendar. Does not count toward minimum graduation requirement.

1 sem. hr.

BAI 199. BUSINESS SCHOLARS FORUM I: Exploration and discussion of a wide range of business topics. Weekly sessions led by faculty members and guest professionals in their areas of expertise. Open only to first-year Business Scholars.

1 sem. hr.

BAI 201. BUSINESS SCHOLARS FORUM II: Similar to BAI 199 with topics geared to sophomore Business Scholars. Open only to sophomore Business Scholars.

1 sem. hr.

BAI 295. CAREER DEVELOPMENT SEMINAR: Seminar for exploration of career options. Involves exploring career options, investigating tentative career choices, deciding on potential career direction, and developing the knowledge and skill to pursue a career direction. Should be taken second semester sophomore year or either semester junior year. In management and marketing, BAI 295 is a prerequisite for internship or co-op experience if either is undertaken for academic credit.

1 sem. hr.

BAI 301. PRACTICUM IN INTERNATIONAL BUSINESS: Study and analysis of international business concepts: objectives and ethics; planning; decision-making; business skills and entrepreneurial aptitudes. Comparative analysis of various cultures and their impact on international business operation.

3 sem. hrs.

BAI 400. DEAN'S LEADERSHIP LABORATORY: Upper-class student participation in first-year student advising program. Permission of dean's office required.

1 sem. hr.

BAI 497. LABORATORY WORK EXPERIENCE: Under faculty sponsorship and in association with a participating industrial, commercial, educational, health-care, or governmental organization; practical experience in work associated with the student’s major or minor concentration. (See internship coordinator for details.) Does not count toward major. Permission of dean required.

3-6 sem. hrs.
INTERNATIONAL BUSINESS (INB)

The International Business major is an interdisciplinary major designed to meet the needs of students interested in different facets of the international area. It may be taken as a stand-alone major, in conjunction with a major or minor in a functional business discipline, or with a major or minor in a language. The business curriculum for the major consists of all core business courses (FIN 301, an upper level ECO, MGT 301, MKT 301, OPS 301, MIS 365 & MGT 490) and their prerequisites, five required International Business courses: ECO 461 or ECO 450 or ECO 460, FIN 450, MGT 403 or MGT 414, MKT 340 or MKT 440, and INB 450, plus two international electives. These electives may come from the courses listed above, which are not selected as a required course, or from the following International Business electives: ACC 412, BAI 301, or MKT 445, 300 or 400 level language courses, or from an international course outside the School of Business Administration that is approved by the Director of International Business Programs. One of the two electives is waived if the student is a business double major or minor. In addition, competency in a foreign language, which may be demonstrated by successful completion of two semesters of 200 language study or passing of the competency test given by the language department, and an international experience are required. (This may include: participation in a study abroad program; attendance at an educational institution outside the United States; or an international business internship or co-op.)

A minor in International Business requires four core business courses: ACC 207 or 301, ECO 203, MGT 301, and MKT 301 and their prerequisites, and four International Business courses, including three courses from ACC 412, ECO 461, ECO 450, ECO 460, FIN 450, MGT 403, MGT 414, MKT 340, MKT 440, plus INB 450. Only two of these courses may come from one discipline, only one may also count towards a student's major. In addition, nine hours of non-business international oriented courses, which may fulfill General Education requirements or be general electives are required. Students may choose from the following: Any 200, 300 or 400 level language course (Two 100 level courses count as one course.); ANT 315, 351, 352, or 406; BIO 395; CMM 414; ENG 203, 205, 306, 322, 348, 358, or 448; HST 315, 321, 322, 323, 326, 327, 328, 332, 333, 337, 339, 357, 358, 374, 382, or 383); ASI 390 or 398; PBL 355 or 362; POL 202, 214, 320-329, 331, 406, 407, 409, or 410; REL 201, 202, or 345. Other courses may be substituted for the above courses with the permission of the Director of International Business Programs.

Two Certificates in International Business are also available for non-business students wishing to demonstrate an interest in international business. One has a Marketing or Human Resource Emphasis. The requirements for this are: four core business courses: ACC 207 or 301, ECO 203, MGT 301, and MKT 301, three International Business courses, including, two courses from ECO 460, MGT 403, MGT 414, MKT 340, and MKT 440; plus INB 450. The second certificate has an Economics or Finance emphasis. The requirements for this are: four or five core business courses: ACC 207 and 208 or ACC 301, ECO 203, 204, and FIN 301, three International Business courses, including, two courses from ECO 461, ECO 450, ECO 460, ACC 412, and FIN 450; plus INB 450.

Other requirements for both certificates include: competency in a foreign language which may be demonstrated by successful completion of two years of college language study or passing of the competency test given by the language department, and an international experience. This may include: participation in a study abroad program; attendance at an educational institution outside the United States; or an international business internship or co-op.

INTERNATIONAL BUSINESS OVERSIGHT COMMITTEE

William Sekely, Director, International Business Programs
Burrows (Accounting), Gustafson (Economics and Finance), Hoffer (MIS and Decision Sciences), King (Management and Marketing)

COURSES OF INSTRUCTION

INB 450. SEMINAR IN CURRENT GLOBAL ISSUES: Seminar focusing on various contemporary international issues and regions; topics vary. Required of International Business majors and minors and students completing a Certificate in International Business. 3 sem. hrs.

INB 491-492. HONORS THESIS: Selection, design, investigation, and completion of an independent original research thesis under the guidance of a departmental faculty member. Restricted to students in the University Honors Program with permission of the director of the Honors Program and the International Business program director. 3 sem. hrs. each

INB 497. INTERNATIONAL INTERNSHIP: Practical international work experience closely associated with student’s major, minor, certificate program. Permission of program director required. See internship coordinator for details. 1-3 sem. hrs.
MANAGEMENT (LDR, ENT)

The Management program offered by the Management/Marketing Department includes a major or minor in two distinct areas: Leadership and Entrepreneurship.

MAJOR IN LEADERSHIP

Students majoring or minoring in Leadership will develop understanding and competencies in motivation, group dynamics, team processes, cross-cultural management, employee training and development, and organizational design, development, and change. For the student majoring in Leadership, a key component of the curriculum is the “bookend” experience that begins in the first semester of the junior year with co-registration in Organizational Behavior (MGT 301) and Managerial Skills (MGT 302). Knowledge, skills, and abilities gained in these two courses will be reinforced throughout the remaining Leadership courses, and Leadership majors are required to demonstrate working competencies in these areas in subsequent courses. To complete the “bookend” experience, Leadership majors will register in their senior year for the capstone course, Seminar in Experiencing Leadership.

The Management faculty strongly recommend that students completing the Leadership major also complete a major or minor in another business discipline. Other majors or minors that are complementary include entrepreneurship, marketing, finance, operations management, accounting, or MIS. A Leadership major combined with a major or minor in a business function creates an outstanding combination for employment.

The major in Leadership consists of:

- 1st semester junior year concurrent registration in
  - MGT 301 Organizational Behavior
  - MGT 302 Managerial Skills
- Junior and senior year
  - MGT 401 Organizational Design, Culture, and Change
  - MGT 402 Leadership and Motivation
  - Choose 2 from:
    - MGT 403 Cross-cultural Management
    - MGT 404 Group Dynamics, Team Processes, and Decision Making
    - MGT 405 Employee Training and Development
    - MGT 409 Current Issues in Leadership
- Senior year
  - MGT 410 Senior Seminar in Experiencing Leadership

A minor in Leadership consists of:

- MGT 301 Organizational Behavior
- MGT 401 Organizational Design, Culture, and Change
- MGT 402 Leadership and Motivation
- Choose 2 from:
  - MGT 302 Managerial Skills
  - MGT 403 Cross-cultural Management
  - MGT 404 Group Dynamics, Team Processes, and Decision Making
  - MGT 409 Current Issues in Leadership

- A student minoring in Leadership may petition the department chair to substitute other Management courses in place of one, but not two, of these electives. The request will be considered in light of the student’s overall academic program and career intentions.

1 Choose any 300 or 400 level economics course.

2 A minimum of 54 sem. hrs. of all academic work must be at the 300-400 level.

3 See General Education Requirements, Chapter V. Some General Education courses are specified in the program (e.g., PHL 313 or REL 368); others are to be chosen from the listing of approved courses set forth in Chapter V.
MAJOR IN ENTREPRENEURSHIP

Students majoring or minoring in Entrepreneurship will develop an understanding of how a business enterprise is conceived, launched, and sustained. The curriculum teaches students how to identify viable business opportunities and explores how such opportunities are transformed into new ventures. Additional emphasis is placed on how entrepreneurial ventures successfully compete for financial resources, successfully identify and reach their target markets, and successfully establish business processes, systems, and controls to manage small and growth-oriented ventures.

A key feature of the Entrepreneurship major is the Sophomore Experience in which student teams create micro-businesses and actually run them during their sophomore year. This experience is directed through the Crotty Center for Entrepreneurial Leadership and includes seminars with faculty and entrepreneurs who work with students to develop the essential knowledge, skills, and abilities for successfully running a micro business. Another key feature is the senior seminar in which students either (a) write a complete business plan for a viable business that they are considering launching after graduation; (b) or work as consultants with an entrepreneur to solve an actual problem within an existing entrepreneurial business.

The major in Entrepreneurship consists of:

- Sophomore year
  - MGT 220 Entrepreneurship Sophomore Experience I
  - MGT 221 Entrepreneurship Sophomore Experience II
- Junior year
  - MGT 320 New Venture Creation
  - MGT 321 Financing Entrepreneurial Ventures
- Junior or Senior year, choose 2 from:
  - MGT 402 Leadership and Motivation
  - MGT 420 Entrepreneurial Marketing
  - MGT 421 Small Business Management
  - MGT 427 Internship in Entrepreneurship
  - MGT 429 Current Issues in Entrepreneurship
- Senior year
  - MGT 430 Senior Seminar in Entrepreneurship

For business majors, the minor in Entrepreneurship consists of:

- MGT 320 New Venture Creation
- MGT 321 Financing Entrepreneurial Ventures

Choose 3 from the following:

- MGT 402 Leadership and Motivation
- MGT 420 Entrepreneurial Marketing
- MGT 421 Small Business Management
- MGT 429 Current Issues in Entrepreneurship

For non-business majors, the minor in Entrepreneurship consists of:

- ACC 301 Introduction to Accounting
- MGT 201 Legal Environment of Business
- MGT 320 New Venture Creation
- MGT 321 Financing Entrepreneurial Ventures
- MGT 421 Small Business Management
A minor in Entrepreneurship may petition the department chair to substitute other Management courses in place of one, but not two, of these electives. MGT 427 and 499, however, are not among those courses that may be used as substitutes. The request will be considered in light of the student’s overall academic program and career intentions.

FACULTY

Wesley C. King, Jr., Department Chair
Professors Emeriti: Darr, R. Miller
Professors: Gould, McFarlin, Sweeney
Associate Professors: Bickford, King, Lee, Schenk
Assistant Professors: Gove, Janney, Kiewitz, Lau, Matherne
Lecturers: Chelle, Forlani, Miller
Adjunct: Evans, Fitzpatrick, Kairis, Lush, Rehg, Wood

COURSES OF INSTRUCTION

MGT 200. INTRODUCTION TO BUSINESS: Course for non-business majors to understand concepts, language, and issues of contemporary businesses operating in a global environment. Focus is on forms of business ownership, business ethics, and social responsibility, balancing interests of various stakeholders, organizational structure, personnel issues, strategies and techniques for bringing products and services to market, financing operations and R&D, business information systems, risk management, and comprehensive business plan.

MGT 201. LEGAL ENVIRONMENT OF BUSINESS: Survey of the legal environment in which businesses operate. Includes overview of legal system and judicial processes and coverage of constitutional principles for U.S. legal system, ways to resolve legal disputes, forms of business organization, legal issues relevant to employment, legal responsibility of businesses to clients and customers, and liability issues. Prerequisite: sophomore standing. 3 sem. hrs.

MGT 220. ENTREPRENEURSHIP SOPHOMORE EXPERIENCE I: First of two-course sequence. Designed to immerse Entrepreneurship major into the dynamics of starting and running a micro-business. Focuses on identifying market need, researching financial viability of business venture to meet that need, and marshaling the resources (among them, financial, human, technical, and motivational) to launch the business. Course is coordinated through the Crotty Center for Enterprise Leadership. Prerequisite: Entrepreneurship major accepted into the Entrepreneurship program; sophomore standing; concurrent registration in ACC 207, ECO 203. 2 sem. hrs.

MGT 221. ENTREPRENEURSHIP SOPHOMORE EXPERIENCE II: Continuation of MGT 220. Focuses on growing and running the micro-business throughout the academic year with planned liquidation or shutdown by the end of the academic year. Course is coordinated through the Crotty Center for Enterprise Leadership. Prerequisite: MGT 201, 220, ACC 207, ECO 203; Entrepreneurship major accepted into the Entrepreneurship program; concurrent registration in ACC 208, ECO 204. 1 sem. hr.

MGT 301. ORGANIZATIONAL BEHAVIOR: Study of individual, group, and team behavior in organizations as they interact to achieve both personal and organizational goals. Topics include individual differences, interpersonal communication, leadership, decision-making, reward systems, conflict management, and work groups and teams. Prerequisite: junior standing. 3 sem. hrs.

MGT 302. MANAGERIAL SKILLS: Course focuses on knowledge, skills and abilities in oral and written communication, decision-making, and facilitation of conflict
management and group/team management. Demonstrated working competencies are required to complete the course. Prerequisite: junior Standing. 3 sem. hrs.

MGT 313: NEGOATIATION: Course integrates conceptual understanding with practical application of negotiation and examines cultural and gender differences in negotiation, influence of personality traits, the negotiation process, and different ways in which to negotiate. Demonstrated knowledge, skills and abilities are part of course requirements. Prerequisite: MGT 301, junior standing. 3 sem. hrs.

MGT 314. SURVEY OF HUMAN RESOURCES: Survey course designed to familiarize student with the major functional areas in human resources including planning, recruitment and selection, training and development, compensation, benefits, safety, and employee relations. Course develops framework for understanding the roles of HR professional, issues faced by managers and supervisors, and application of sound management theory to these issues. Prerequisite: junior standing. 3 sem. hrs.

MGT 315. EMPLOYEE RELATIONS: Study of interrelationships and interactions of employer and employee. Emphasis placed on how employee knowledge and skills can be used to provide competitive advantage for employer. Both union and non-union environments are studied and evaluated. Prerequisites: junior standing. 3 sem. hrs.

MGT 316. WOMEN IN MANAGEMENT: Study of gender stereotyping, gender socialization, gender and the law, work/family issues, glass ceiling, and strategies employed by successful women to address these issues. Course increases understanding of unique issues of women's advancement in the workplace and develops skills in working with co-workers and business partners of the other gender, domestically and internationally. Prerequisite: junior standing. 3 sem. hrs.

MGT 318. MANAGEMENT AND SOCIETY: Study of business firm's relationship with society through examination of influence of the competitive environment, government, interest groups, and lobbyists in the public policy process. Subjects include technological changes, racism, poverty, diversity, urban issues, and environmental concerns. Prerequisite: junior standing. 3 sem. hrs.

MGT 320. NEW VENTURE CREATION: Overview of the concepts and aspects involving creation of new business ventures, new product development, and innovation within existing companies now popularly called corporate venturing. Topics include entry strategies, creating high potential opportunities, entrepreneurial finance, business plan development, entrepreneurial marketing, the legal structures of new businesses, and government programs for assisting entrepreneurial firms. Prerequisite: ACC 208 or ACC 301; MGT 201, junior standing. 3 sem. hrs.

MGT 321. FINANCING ENTREPRENEURIAL VENTURES: Focuses on financial aspects of starting, growing, and harvesting entrepreneurial ventures. Includes assessments of various sources of capital for small and growth businesses with emphasis placed on how common financing deals are structured, common financing pitfalls, and various legal documentation used to consummate financial transactions. Prerequisites: ACC 207, 208 or ACC 301. Corequisites: MGT 320 or FIN 301; junior standing. 3 sem. hrs.
MGT 401. ORGANIZATIONAL DESIGN, CULTURE, AND CHANGE: A course focused at the organizational level of analysis that includes design of organizations, development of organizational culture, and other issues of organizational change. Topics include leadership processes for organizational design and change, power, and information processing. Prerequisites: MGT 301, junior standing.  
3 sem. hrs.

MGT 402. LEADERSHIP AND MOTIVATION: An in-depth study of individual and group/team motivation in an organizational setting through examination of individual, organizational, and societal influences on motivation. Focus is on how leaders can understand, and then affect, motivation through a variety of mechanisms. Prerequisites: MGT 301, junior standing.  
3 sem. hrs.

MGT 403. CROSS-CULTURAL MANAGEMENT: Study of general cross-cultural differences and development of cross-cultural frameworks in decision-making, negotiation, conflict management, communication, and general business relations. Primary emphasis is on understanding how and why cultures differ and how such differences can be managed. Prerequisites: MGT 301, junior standing.  
3 sem. hrs.

MGT 404. GROUP DYNAMICS, TEAM PROCESSES, AND DECISION MAKING: In-depth study of group formation, team design, and diagnosis with emphasis on developing and maintaining different types of groups and teams. Course focuses on leaders' knowledge, skills and abilities to work effectively with teams and groups. Prerequisites: MGT 301, junior standing.  
3 sem. hrs.

MGT 405. EMPLOYEE TRAINING AND DEVELOPMENT: Focuses on training and learning methods and models, career paths, and self-improvement methods within the balance of organizational, job, and individual needs. Additional emphasis on systematic development and evaluation of training programs and role of organizational leader in ensuring employee training and development. Prerequisites: MGT 301, junior standing.  
3 sem. hrs.

MGT 409. CURRENT ISSUES IN LEADERSHIP: Selected topics that consider and analyze current problems and emerging issues in leadership and in the leader's role in promoting effective organizational change and development. Prerequisites: MGT 301, junior standing.  
3 sem. hrs.

MGT 410. SENIOR SEMINAR IN EXPERIENCING LEADERSHIP: Focus on integration of knowledge, skills and abilities acquired in leadership major courses. Seminar combines classroom component with relevant and approved internship or consulting project to integrate the study of leadership with its practice. Prerequisites: senior standing, Leadership major.  
3 sem. hrs.

MGT 413. PROJECT MANAGEMENT: Course focuses on managerial activities associated with the project type organizational structure and provides broad view of project management so student can use concepts in a variety of different organizational settings. Particular emphasis on understanding project planning, scheduling, and controlling activities with a major parallel theme on understanding how to build an effective project team. Prerequisites: junior standing; OPS 301 recommended.  
3 sem. hrs.

MGT 414. MULTINATIONAL CORPORATE MANAGEMENT: Introduction to use of strategic management in international context with examination of different
strategic and tactical approaches organizations use to manage international operations. Prerequisite: senior standing.

MGT 420. ENTREPRENEURIAL MARKETING: Study of the techniques used to profitably identify and fill customers' needs when operating with a limited budget during the early stages of a start-up or in a small to medium sized firm. Course strives to develop skills in applying basic marketing principles and high impact sales and promotion techniques in integrated manner to produce a practical, cost-effective action plan for start-ups and smaller companies. Also listed as MKT 420. Prerequisite: MKT 301.

MGT 421. SMALL BUSINESS MANAGEMENT: Course addresses unique characteristics of small businesses (e.g., resource limitations, family participation) and grapples with ways to overcome the "liability of smallness." Coverage includes effect of macro-trends (e.g., changing technology and globalization) on small business, review of topics from functionally-oriented courses, examination of how functional models such as pricing models can be modified for small business use, and ways for small business to identify and exploit weaknesses of larger, better financed competitors. Prerequisites: ACC 208 or ACC 301; MGT 201; junior standing.

MGT 427. INTERNSHIP IN ENTREPRENEURSHIP: Exposes students to practicing entrepreneurs currently managing on-going entrepreneurial enterprises. Purpose of course is to develop mentor relationships with successful practicing entrepreneurs, to experience success working in entrepreneurial setting, and to gain first-hand experience about knowledge, skills, and abilities necessary to be a successful entrepreneur. Internships coordinated through the Crotty Center for Enterprise Leadership. Students will submit reports throughout semester addressing questions that integrate Entrepreneurship and other business coursework with their work experience. Prerequisites: BAI 295, MGT 320; Entrepreneurship major, junior standing.

MGT 429. CURRENT ISSUES IN ENTREPRENEURSHIP: In-depth examination of selected contemporary topics relevant to entrepreneurship. Subject matter may vary each semester. May be taken only once for credit toward Entrepreneurship major or minor. Prerequisites: MGT 320, 321; senior standing.

MGT 430. SENIOR SEMINAR IN ENTREPRENEURSHIP: Project-based capstone course for Entrepreneurship major. Course objective is to integrate prior coursework through one of two projects: (1) writing of complete business plan — including market and cost research, competitive analysis, and financial and legal planning — for student's personal business to start after graduation; or (2) completion of a consulting project with local entrepreneurial firm, including business plan revision, market research, feasibility testing, financial modeling and analysis, and operations analysis. Prerequisites: MGT 320, 321; ENT major; senior standing; 2.7 overall GPA or higher required for course registration.

MGT 490. MANAGING THE ENTERPRISE: Course focuses on creating understanding of how concepts and analytical tools learned in other business courses are integrated in practice to create a unified whole. Students learn how general and top managers gather and use information to influence organizational mission, goals, and strategies. Course typically relies heavily on cases and/or business simulation. Prerequisites: MGT 301, MKT 301, FIN 301, OPS 301, MIS 365, senior standing.
MGT 491-492. HONORSTHESIS: Selection, design, investigation, and completion of an independent original research thesis under guidance of departmental faculty member. Prerequisites: University Honors Program participant; permission of director of Honors Program and of department chairperson; senior standing.

3 sem. hrs.

MGT 494. SEMINAR IN MANAGEMENT: Study of selected topics or issues in contemporary managerial practice, domestic or international. May be taken more than once if topics change. Title will reflect topics covered in a particular offering. Prerequisites vary by topic being studied.

3 sem. hrs.

MGT 495. SERVICE LEARNING: Designated sections of selected courses may include service learning component through which students apply concepts learned in the course in an applied setting. Prerequisite: permission of instructor.

1 sem. hr.

MGT 497. INTERNSHIP FOR GENERAL ELECTIVE CREDIT: Supervised work experience in partnership with sponsoring employer that is directly relevant to major or minor. Must work with internship coordinator in Internship Office and get approval of department chairperson or designee. May be used for general elective credit only. Prerequisites: LDR or ENT major; BAI 295; junior standing; overall GPA 2.7 or higher; prior completion of 6 sem. hrs. of MGT.

1-3 sem. hrs.

MGT 498. COOPERATIVE EDUCATION: Optional full-time work period off campus alternating with study period on campus. (See Chapter X; consult Cooperative Education Office for details.) Permission of chairperson or designee required. May be used for general elective credit only. Prerequisite: LDR or ENT major; BAI 295, overall GPA 2.7 or higher.

1-3 sem. hrs.

MGT 499. INDEPENDENT STUDY: Supervised study involving directed readings, individual research (library, field, or experimental), or projects in specialized area of management. May be taken only once. May count as general elective credit. Does not apply to requirements for Leadership or Entrepreneurship major or minor. Prerequisites: MGT 301; major in Leadership or Entrepreneurship; senior standing; sponsorship by faculty member and permission of chairperson.

1-3 sem. hrs.
MIS

MANAGEMENT INFORMATION SYSTEMS (MIS)

The Department of Management Information Systems, Operations Management, and Decision Sciences offers courses in several quantitative and systems areas, a major and a minor in management information systems, a major and minor in operations management (see OPS), and a minor in decision sciences (See DSC).

The major in management information systems enables the student to design, implement, and maintain effective information systems in organizations. The curriculum integrates the technical knowledge of computer and networking technologies and the business and organizational knowledge of the business curriculum. Significant emphasis is placed on developing the students’ writing and speaking skills in presenting the results of their work and in team problem solving.

The curriculum prepares the graduate to assume any of a variety of positions in organizations dealing with the design, development, and maintenance of information systems as well as the education and training of users of information systems.

The curriculum consists of four major groups of courses:

1. General Education provides the student with a well rounded liberal education and includes such courses as history, philosophy, art, science, and English.
2. Business provides the student with the business and organizational concepts and skills to perform effectively in organizations.
3. Computer Science provides the student with the technical knowledge necessary to design and build effective information systems. Specifically, two courses in programming business applications and computer system networking and architecture are required: CPS 225 and CPS 437.
4. Management Information Systems provides knowledge and skills for analyzing the need for building systems supporting the information and decision needs in any organization. Specifically, the major consists of MIS 175, Introduction to Business Applications; MIS 380, Systems Analysis and Re-engineering; MIS 385, Systems Implementation with Database Management Systems; MIS 465, Analysis and Design in Teams; MIS 475, Design and Implementation in Teams; and DSC 370, Decision Support Systems.

The program below contains all of the requirements for the major in management information systems. There is flexibility in the sequencing of some courses—e.g., PHL 103 can be taken during either the first or the second semester; some courses listed in the first year can just as well be taken during the second year, and vice-versa; and some upper-level courses can also be taken during various terms of the junior and senior years. Consult your academic advisor for sequencing options.

1 Credit by examination for BAI 103L is available for those with adequate background.
2 MTH 102 is recommended for students with insufficient knowledge of secondary mathematics. MTH 102 does not count toward minimum graduation requirement. MTH 168 is recommended in lieu of both MTH 128 and 129 for students with high mathematics test scores.
3 Choose any course from one of the following: anthropology, political science, psychology, sociology. May want to select a course that also satisfies thematic cluster requirement.
4 See General Education Requirements, Chapter V. Some General Education courses are specified in the program (e.g., PHL 103); others are to be chosen from the listing of approved courses set forth in Chapter V.
5 Choose from ENG 370, ENG 372, ENG 378; CMM 321, CMM 322, CMM 344, CMM 351 or CMM 420. MIS majors are encouraged to take one of the ENG courses in this list.
6 Choose any 300 or 400 level economics course.
7 This may be taken any time after completing BAI 103L.
8 Students may fulfill General elective requirements by Internship or Co-operative Education credits. See Chairperson for approval.
9 To be taken the semester immediately following BAI 103L.
A minor in management information systems is available for students who wish to acquire skills needed to be an effective user of information systems and to specify needs for information systems.

Required courses:

- BAI 103L Business Computing Laboratory
- MIS 175 Introduction to Business Applications
- DSC 210-211 Statistics for Business I and II
- MIS 365 Information Systems in Organizations
- MIS 380 Systems Analysis and Re-engineering
- DSC 370 Decision Support Systems

Three credit hours of MIS, DSC, or OPS 300 or 400 level electives in addition to courses used to satisfy the requirements of any other major or minor. See Department Chair for approval.

FACULTY

Jeffrey A. Hoffer, Chairperson
Professor Emeritus and Distinguished Service Professor: Bohlen
Professors Emeriti: Casey, Vlahos, Young
John Kanet, Niehaus Chair in Operations Management
Professors: Dunne, Ferratt, Hoffer, Kanet, Wells
Associate Professors: Ahire, Amsden, Prasad
Assistant Professors: Enns, Gorman, Salisbury
Lecturers: Davis, McManamon, Wagner

COURSES OF INSTRUCTION

MIS 175. INTRODUCTION TO BUSINESS APPLICATIONS: PROBLEM SOLVING WITH VISUAL TOOLS: Introduction to the role of information technology (IT) in business, graphical user interface design using a visual programming language. Object oriented programming using Visual Basic.net and VBA for Excel. Prerequisite: BAI 103L or equivalent. 3 sem. hrs.

MIS 225. PROGRAMMING FOR BUSINESS SYSTEMS. Process of software development for business system implementation. Fundamental programming concepts including program design, documentation, development, and testing of computer solutions of business problems using modern programming languages, such as Java and C++. Prerequisite: MIS 175. 4 sem. hrs.

MIS 365. INFORMATION SYSTEMS IN ORGANIZATIONS: Survey of theory and applications of computer-based information systems in organizations. The role of information in organizational processes, current information technology, decision support systems, and end-user computing and distributed processing systems. Prerequisites: BAI 103L or HSS 226 and junior standing. 3 sem. hrs.

MIS 380. SYSTEMS ANALYSIS AND RE-ENGINEERING: Concepts, methods, techniques, and tools needed to initiate a systems development project and to conduct the requirements collection, analysis, and structuring activities of systems development. Structured life cycle and alternatives. Re-engineering business processes through information systems. Prerequisites: MIS 175, MIS 365. 3 sem. hrs.
MIS 385. SYSTEMS IMPLEMENTATION WITH DATABASE MANAGEMENT SYSTEMS: Concepts, techniques, and tools to convert a logical system design into a working application using a relational DBMS. File and data structures, logical and physical database design, security and data integrity, file design and processing, DBMS functions, SQL, 3GL and 4GL access to databases, linkage to WWW pages, database architectures, CASE. Prerequisite: CPS 225 or MIS 225, or permission of instructor. 3 sem. hrs.

MIS 410. OBJECT-ORIENTED ANALYSIS AND DESIGN: Introduction to object-oriented concepts and techniques for analyzing and designing systems. Systems development project using an object-oriented CASE tool. Prerequisite: MIS 365 or permission; MIS 175 recommended. 3 sem. hrs.

MIS 420. EXPERT AND KNOWLEDGE-BASED SYSTEMS: Introduction to artificial intelligence and expert and knowledge-based systems; knowledge acquisition, implementation, and validation; advanced topics; applications to business. Use of expert system software. Prerequisite: BAI 103L or equivalent; DSC 370 recommended. 3 sem. hrs.

MIS 425. INFORMATION FOR TOTAL QUALITY: Theory and practice of total quality management (TQM); applications of TQM in the information systems function, information system requirements for TQM programs. Prerequisite: OPS 301, MIS 365. 3 sem. hrs.

MIS 430. TELECOMMUNICATIONS AND NETWORKING: Introduction to computer-based communication networks; underlying concepts; basic hardware components and operating systems; network architectures and protocols; data integrity and security; message routing; network management. Prerequisite: MIS 380. 3 sem. hrs.

MIS 465. MIS PROJECT I—ANALYSIS AND DESIGN IN TEAMS: First of a two-course sequence. Team participation/management and project management skills. Apply these skills in teams to perform an analysis and preliminary re-design of an existing organization’s information system. Emphasis on written and oral communications, including team-prepared reports and presentations. Prerequisite: MIS 380 or CPS 310. 3 sem. hrs.

MIS 475. MIS PROJECT II—DESIGN AND IMPLEMENTATION IN TEAMS: Continuation of MIS 465. With its organizational client, each team carries its project as far as possible towards final design and actual implementation. Emphasis on written and oral communications, including team-prepared reports and presentations. Prerequisites: MIS 385, 465, and CPS 437 or MIS 430. 3 sem. hrs.

MIS 491-492. HONORS THESIS: Selection, design, investigation, and completion of an independent original research thesis under the guidance of a departmental faculty member. Restricted to students in the University Honors Program with permission of the director of the program and the departmental chairperson. 3 sem. hrs. each

MIS 494. SEMINAR IN MANAGEMENT INFORMATION SYSTEMS: Study of selected technical and/or organizational issues in information systems. Topics vary from time to time. May be taken more than once if topics change. Title will reflect topics covered in a particular offering. 1-4 sem. hrs.
MIS 497. LABORATORY WORK EXPERIENCE: Under faculty sponsorship and in association with a participating industrial, commercial, educational, health-care, or governmental organization; practical experience in work associated with the student’s major concentration. (See internship coordinator for details.) Permission of chairperson required. 1-6 sem. hrs.

MIS 498. COOPERATIVE EDUCATION: Optional full-time work period off campus alternating with study period on campus. (See Chapter X; consult Cooperative Education Office for details.) Permission of chairperson required. 1-6 sem. hrs.

MIS 499. INDEPENDENT STUDY: Research in conjunction with a faculty member on a subject within the general area of management information systems. Open only to juniors or seniors who have attained a cumulative grade point average of 3.0 or above. Permission of chairperson required. 1-6 sem. hrs.
MARKETING (MKT)

A student with a major or minor in marketing learns systematic ways for identifying, understanding, and satisfying consumer and organizational needs. Courses in the major are designed to instill in students an appreciation for both the total marketing process as well as specialized marketing activities such as purchasing, sales, transportation, warehousing, and marketing research. They likewise focus on how to integrate the marketing process with the objectives of the organization, the functions of the economy, and the constraints of society from national and global perspectives. Students learn to apply conceptual principles and quantitative techniques in their study of consumer and business markets with the goal of becoming informed, skilled, and competent marketing professionals.

The major in marketing is 18 semester hours with the following requirements:

- MKT 450 Buyer Behavior and Market Analysis
  (This is a 6 semester hour class.)
- MKT 455 Marketing Planning and Strategy
- 9 additional semester hours of 300-400 level marketing electives.

For business majors, the minor in marketing consists of:

- MKT 301 Principles of Marketing and
- 12 additional semester hours of 300-400 level marketing courses in a pattern chosen in consultation with an academic advisor.

For non-business majors, the minor in marketing consists of:

- MKT 300 Survey of Marketing
- 12 additional semesters hours of 300-400 level marketing courses in a pattern chosen in consultation with an academic advisor.

Marketing majors frequently combine their academic studies with either a co-op or internship work experience. General elective credit for such experiences is approved on a case-by-case basis with the criteria being the nature of the experience and its degree of integration into the student's academic program, and prior completion of BAI 295.

FACULTY

Wesley C. King, Jr., Chairperson
Distinguished Service Professor: Murphy
Professor Emeritus: Comer
Associate Professors: DeConinck, Lewis, Oumil, Sekely, Sparks, Yates-Wells
Lecturer: Dickey
Adjunct: Blanford, Kaminski, Krystofik, Mitchell, Swartz

COURSES OF INSTRUCTION

MKT 300. SURVEY OF MARKETING: Survey of marketing for non-marketing majors. Course introduces students to market and environmental analysis, marketing strategy and link with corporate strategy, market segmentation, organizational and consumer markets, and marketing mix (product, price, promotion, distribution). Prerequisite: junior standing, non-business major only. 3 sem. hrs.

MKT 301. PRINCIPLES OF MARKETING: The general principles and practices underlying the processes of marketing. Analysis of the environmental conditions of manufacturers, wholesalers, retailers, and other marketing agencies. Prerequisite: junior standing; SBA majors only. 3 sem. hrs.

MKT 310. PRINCIPLES OF SELLING: The nature of selling, explored through the practical application of buying motives and selling techniques. Projects and role-playing to experience the preparation, closing, and post-purchase phases of selling. Prerequisite: MKT 300 or MKT 301. 3 sem. hrs.

MKT 315. RETAIL MARKETING: Survey of the development of retailing and the impact of consumer behavior, fashion, computers, and other innovations. Structural organization, location, and layout. Merchandising operations including planning of sales, purchases, stock control, markup, and expense control. Prerequisite: MKT 300 or MKT 301. 3 sem. hrs.
### MKT 330. SERVICES MARKETING

Basic concepts of services marketing including discussion of marketing concepts and their management implications in services organizations, the scope of ethics and social responsibility at the national and global levels, and how the external environment, both domestic and international, influences organization strategy. Prerequisite: MKT 300 or MKT 301. **3 sem. hrs.**

### MKT 340. MULTICULTURAL MARKETING ANALYSIS

Study of basic concepts and theories of multicultural marketing. Students acquire basic understanding of culture, awareness of cultural differences, and appreciation of importance of cultural adaptation for marketing program, especially as related to development of marketing systems. Prerequisite: MKT 300 or MKT 301. **3 sem. hrs.**

### MKT 341. BUSINESS-TO-BUSINESS MARKETING

Concepts and analytical procedures associated with marketing to business. Business consumer and competitor analysis, marketing information systems, marketing research, and demand forecasting. Strategy development in product, promotion, distribution, and pricing with focus on manufacturers of business products. Prerequisite: MKT 300 or MKT 301. **3 sem. hrs.**

### MKT 350. INTERNET AND ELECTRONIC MARKETING

Comprehensive study of the internet as a marketing channel and as an economic and social phenomenon. Emphasis is on role of internet in firm’s overall marketing efforts, especially marketing mix, target markets, and external environment; principles of e-commerce; and application of course knowledge in a managerial and decision-making context. **3 sem. hrs.**

### MKT 405. CONSUMER BEHAVIOR

Comprehensive study of buyer decision making which offers insight into the buyer-seller relationship. Application of theories from psychology and social psychology to investigate the behavior of industrial and consumer buyers. Prerequisite: MKT 300. **3 sem. hrs.**

### MKT 406. MARKETING CHANNELS

Study of the place element of the marketing mix. A focus on the relationships among manufacturers, wholesalers, and retailers. Channel structure and design including franchising. Prerequisite: MKT 300 or MKT 301. **3 sem. hrs.**

### MKT 408. MARKETING LOGISTICS

Study of the physical distribution element of the marketing mix. Customer service, service quality, transportation, inventory, warehousing, and information systems used by manufacturers and retailers. Prerequisite: MKT 300 or MKT 301. **3 sem. hrs.**

### MKT 411. SALES MANAGEMENT

The structure of the sales organization; determination of sales policies; selection, training, and motivation of salespersons; establishing sales territories and quotas. Prerequisites: MKT 300 or MKT 301, MKT 310. **3 sem. hrs.**

### MKT 420. ENTREPRENEURIAL MARKETING

Study of the techniques used to profitably identify and fill customers’ needs when operating within a limited budget during the early stages of a start-up or in a small to medium sized firm. Course strives to develop skills in applying basic marketing principles and high impact sales and promotion techniques in integrated manner to produce a practical, cost-effective action plan for start-ups and smaller companies. Also listed as MGT 420. Prerequisite: MKT 300 or MKT 301. **3 sem. hrs.**

### MKT 421. ADVERTISING

Nature and scope of advertising, social and economic aspects, role of research, creative strategy, media planning and selection, coordination with other marketing efforts. Prerequisite: MKT 300 or MKT 301. **3 sem. hrs.**

### MKT 428. PROMOTION MANAGEMENT

Integration course to familiarize marketing students interested in promotion and marketing communication with tools necessary
for the development, implementation, and management of promotional programs. Focus on management and coordination of advertising, personal selling, publicity and public relations, sales promotion, and collateral materials. Prerequisite: MKT 421.

MKT 435. PRODUCT DEVELOPMENT, MANAGEMENT, AND PRICING: Investigation and analysis of the new product development process, the management of a product through its life cycle, and the importance of the price variable in the product management process. Prerequisite: MKT 301.

MKT 440. GLOBAL MARKETING: Emphasis on understanding global marketing environments, developing skills of global market analysis, designing and developing appropriate marketing strategies for global markets, decision making in global marketing. Prerequisite: MKT 300 or MKT 301.

MKT 445. SPECIAL TOPICS IN INTERNATIONAL MARKETING: Study abroad program. Subject varies from time to time. May be taken more than once if topic changes. Prerequisite: junior standing.

MKT 450. BUYER BEHAVIOR AND MARKET ANALYSIS: Integration of theoretical components of buyer behavior and marketing research. Emphasis placed on how marketing managers use concepts from these bodies of knowledge to make better decisions. Topics include common processes and methods of contemporary market research, analysis of purchase decisions, market research techniques used to gather information about purchase decisions, and use of information to formulate and implement a marketing strategy. Prerequisites: MKT 301; junior standing.

MKT 455. MARKETING PLANNING AND STRATEGY: Integrative course in marketing with emphasis on managerial decision making. The course is designed around a strategic marketing planning approach with a clear emphasis on how to do strategic analysis and marketing planning. Prerequisite: senior standing and MKT 450, FIN 301, ACC 207-208.

MKT 491-492. HONORS THESIS: Selection, design, investigation, and completion of an independent original research thesis under the guidance of a departmental faculty member. Restricted to students in the University Honors Program with permission of the director of the program and the departmental chairperson.

MKT 494. SPECIAL TOPICS IN MARKETING: Subject varies from time to time. May be taken more than once if topic changes. Prerequisite: Varies with topic.

MKT 497. INTERNSHIP FOR GENERAL ELECTIVE CREDIT: Practical work experience associated with career development and career exploration. See internship coordinator for details. Permission of department chair or designee required. Prerequisites: MKT major; BAI 295, junior standing, overall GPA 2.7 or higher, prior completion of 6 sem. hrs. of MKT.

MKT 498. COOPERATIVE EDUCATION: Optional full-time work period off campus alternating with study period on campus. (See Chapter X; consult Cooperative Education Office for details.) Permission of chairperson or designee required. For general elective credit only. Prerequisite: MKT major; BAI 295, overall GPA 2.7 or higher. 1-3 sem. hrs.

MKT 499. INDEPENDENT STUDY IN MARKETING: Study of one or more specific aspects of the marketing process with emphasis on individual reading and research. Subject matter to be determined by the instructor on the basis of interest and need of the student. Enrollment limited. Permission of chairperson or designee required. Prerequisite MKT major; MKT 301. 1-3 sem. hrs.
OPERATIONS MANAGEMENT (OPS)

The Operations Management program offered by the Management Information Systems, Operations Management, and Decision Sciences Department includes a major and a minor in Operations Management (OM).

Students who major or minor in Operations Management learn how to manage the core operations of an organization. These core operations use the human, technical, and financial resources of the organization to create goods and services for customers. Operations managers apply technical and quantitative tools and techniques, together with behavioral skills, to manage the transformation of inputs into outputs desired by customers. Operations managers participate in these transformation processes in many different roles, including: process improvement analyst, quality assurance analyst, purchasing agent, production/inventory manager, warehouse manager, service facility manager, and operations consultant.

The major consists of 22 semester hours, which includes four required courses and three OM electives. The four required courses are:

- OPS 350, Business Process Management
- OPS 401, Operations Planning and Control
- OPS/MKT 480, Supply Chain Management Strategies
- OPS 495, Capstone OM Project

The OM electives are listed below in logical, focused tracks. While a student may take any three of these electives to satisfy the major, focusing the electives in a track will add to a student’s marketability and depth of knowledge in an area:

- Manufacturing Operations Management
  - DSC 370, Decision Support Systems
  - DSC 313, Advanced Business Statistics
  - IET 318, Statistical Process Control
  - IET 319, Quality Improvement Methods
  - IET 321, Quality Management
  - OPS/MGT 413 or IET 323, Project Management
  - DSC 415 Simulation Modeling and Analysis
  - OPS 430, Quality and JIT in Manufacturing
  - DSC 435, Analysis of Factory Systems
  - OPS 440, Continuous Improvement

- Electronics Operations Management
  - MIS 494, E-Commerce
  - MKT 494, E-Marketing
  - MIS 225, Web Programming
  - MGT 320, New Venture Creation
  - OPS/MGT 413 or IET 323, Project Management

- Supply Chain Management
  - MKT 406, Marketing Channels
  - MKT 408, Marketing Logistics
  - An approved 300/400 level elective

- Small Business Operations Management
  - MIS 494, E-Commerce
  - MGT 320, New Venture Creation
• MGT/FIN 321, Financing Entrepreneurial Ventures
• MGT/MKT 420, Entrepreneurial Marketing
• MGT 421, Small Business Management

- Quality Management
  • DSC 313, Advanced Business Statistics
  • IET 318, Statistical Process Control
  • IET 319, Quality Improvement Methods
  • IET 320, Quality Assurance Techniques
  • IET 321, Quality Management
  • OPS/MGT 413 or IET 323, Project Management
  • OPS 430 Quality and JIT in Manufacturing
  • OPS 440 Continuous Improvement

- Business Process Management
  • DSC 370, Decision Support Systems
  • OPS/MGT 413 or IET 323, Project Management
  • OPS 440 Continuous Improvement
  • An approved 300/400 level elective

- Accounting Operations Management
  • ACC 303, Managerial Accounting
  • ACC 304, Advanced Managerial Accounting
  • An approved 300/400 level elective

Operations Management majors will frequently combine their academic studies with a co-op or internship work experience. Academic credit for such experiences is approved on a case-by-case basis. Criteria applied involve the nature of the experience and its degree of applicability to the student’s OM major.

The program below contains all junior and senior course requirements for an OM major.

OPS 301. SURVEY OF OPERATIONS MANAGEMENT: Concepts and OM software-based techniques of designing, implementing, managing, and improving operations in manufacturing and service organizations, including project management, service systems design, resource allocation modeling, facility location, layout, aggregate planning, scheduling, and material requirements planning. Survey of major OM strategies such as just-in-time production, total quality management, business process reengineering, synchronous manufacturing, enterprise resource planning, and supply chain management. Prerequisite: DSC 211 or equivalent.

OPS 350. BUSINESS PROCESS MANAGEMENT: Concepts of business process management and improvement in manufacturing/service firms. Simulation analy-
sis of business processes through mapping and improvement evaluation using software packages such as ProcessModel. Other tools of business process analysis (operations charts, time-function mapping, work-flow analysis, etc.). Behavioral/managerial issues of business process improvement (benchmarking, incremental versus radical change, and management of change). Corequisite: OPS 301.

OPS 401. OPERATIONS PLANNING AND CONTROL: Concepts and techniques of operations design, on-going management and improvement. Advanced treatment topics, including total quality management, just-in-time, operations scheduling, synchronous manufacturing, and enterprise resource planning (ERP). Software-based analysis of ERP operations. Linkages between technical and managerial/organizational issues in planning and controlling operations in manufacturing and service organizations. Prerequisite: OPS 301; Corerequisite: OPS 350.

OPS 413. PROJECT MANAGEMENT: A broad coverage of technical and human management issues in projects. Emphasis on project planning, scheduling, tracking, and close-down. Task time and cost estimation and description. Use of computer software. Team building and other aspects of managing project teams. Prerequisite: OPS 301.

OPS 430. QUALITY AND JIT IN MANUFACTURING: The concepts of just-in-time manufacturing, total quality system, and statistical process control. Projects, tours, and guest speakers. Prerequisite: OPS 301.

OPS 440. CONTINUOUS IMPROVEMENT: Theory and practice of continuous improvement especially as applied in manufacturing; comparison to the traditional operations management approach, tools and techniques, the KAISEN approach. Prerequisite: OPS 301.

OPS 480. SUPPLY CHAIN MANAGEMENT STRATEGIES: Concepts, analytical techniques, and solution methods for designing and managing integrated supply chains. Strategic issues of integrated supply chain design and management, including inventory management, logistics network design, distribution systems, strategic alliances, value of information for centralized decisions and risk-pooling, information technology and decision support, and international supply chain management. Prerequisite: OPS 401.

OPS 491-492. HONORS THESIS: Selection, design, investigation, and completion of an independent original research thesis under the guidance of a departmental faculty member. Restricted to students in the University Honors Program with permission of the director of the program and the departmental chairperson.

OPS 494. SEMINAR IN OPERATIONS MANAGEMENT: Study of selected topics or issues in operations management. Topics vary from time to time. May be taken more than once if topics change. Title will reflect topics covered in a particular offering.
OPS 495. CAPSTONE OM PROJECT: Experiential project applying operations management concepts and techniques to practical problems with faculty supervision. Student teams address significant operational problems and opportunities in real-world service and manufacturing firms. Teams write recommendation/implementation reports and make presentations of their work. Corequisite: OPS 480.

4 sem. hrs.

OPS 497. LABORATORY WORK EXPERIENCE: Under faculty sponsorship and in association with a participating industrial, commercial, educational, health-care, government, or other organization, practical experience in work associated with the student’s major. (See internship coordinator for details.) May satisfy OPS elective, with chairperson approval.

1-6 sem. hrs.

OPS 498. COOPERATIVE EDUCATION: Optional full-time work period off campus alternating with study period on campus. (See Chapter X; consult Cooperative Education Office for details). Permission of chairperson required.

1-6 sem. hrs.

OPS 499. INDEPENDENT STUDY IN OPERATIONS MANAGEMENT: Research in conjunction with a faculty member on a subject within the general area of operations management. Normally open only to juniors and seniors who have attained a cumulative grade-point average of 3.0 or above. Permission of chairperson required.

1-6 sem. hrs.
VIII School of Education and Allied Professions

Thomas J. Lasley, Dean
C. Daniel Raisch, Associate Dean
William Drury, Assistant Dean
H. Roberta Weaver, Assistant Dean

In conformity with the University's purposes, the School of Education and Allied Professions (SOEAP) endeavors to foster both the development of those general capacities of the students which flow directly from their human nature and the development of those particular capacities, which enable them to become effective practitioners in the field of professional education.

The general capacities of the students are developed through a broad and sound general education. It acquaints them with the major areas of knowledge and provides planned opportunities for personal, social, and ethical development.

The particular concern of the School is the professional preparation of teachers for the early, middle, and secondary schools. Provisions for professional competence are made through (1) comprehensive study of specialized teaching fields, (2) thorough study of the professional foundations common to all teaching, (3) specialized study of the principles underlying a particular type and level of teaching, and (4) appropriate field-based experiences.

Students in the SOEAP should appraise their commitment to teaching according to their development in specific knowledge, skills, dispositions, attitudes, and values:

Knowledge: Students will demonstrate their knowledge of the teaching and learning process; of human nature and of human development, particularly in educational settings; of the means and ends of education; of the subjects they wish to teach; and of the special needs of diverse student populations.

Skills: Students will be able to assess pupil needs, interests, and level of understanding; to formulate learning objectives; to select appropriate learning content, materials, and activities; to facilitate learning activities and provide effective learning environments; to evaluate pupil progress and promote self-evaluation by pupils; to assess their own teaching competencies and the effect these have on pupil learning; to generate respect and fairness in human relations; and to apply theory to practice in planned and supervised field experiences. Demonstrated competencies are essential in meeting the special needs of diverse student populations.

Attitudes: Students will reflect on self-development; accept others; trust, be open to and help others; and be enthusiastic about inquiry, experimentation, and discovery.

Values: Students will be committed to education for the betterment of others and society; to the Judeo-Christian principles that refer to a shared common humanity, the dignity of the person, the use of reason, and cooperation in seeking the common good and social justice; to the democratic principles; to a humanistic approach to learning; and to the Marianist tradition in education.
DEGREE REQUIREMENTS

In this chapter are described specific four-year course requirements for licensure in early childhood, middle childhood, adolescent to young adult teaching, intervention specialist and special (art, foreign language, physical education), teaching. All of these programs lead to the same degree—Bachelor of Science (B.S.).

The departments have an extensive screening process for students in the first two years of the program. By the end of the first year, all students should have taken and passed the Praxis I. At the end of their first year, all students are required to apply for formal admission to the licensure program. At this point their work is reviewed by a faculty committee to determine the extent to which their personal traits and academic work point toward the likelihood of their success as professional teachers. Admission requires a GPA of 2.5 overall in professional education courses, in teaching field(s), and the passing of Praxis I.

The responsibility for meeting the University and state requirements rests with the student. The student is cautioned to study the course requirements and to keep accurate count of the semester hours applicable to graduation. Students planning to teach in states other than Ohio should fulfill university requirements as well as those of the state in which they desire to teach.

Requirements for graduation and teacher licensure are the following:
1. Evidence of such general scholarship and personal and moral qualities as give promise of professional success. All students enrolled in programs leading to State of Ohio licensure must verify that they are of "good moral character," and be fingerprinted. (Consult the dean's office.) Pursuant to SOEAP policy, these students must complete the appropriate forms provided by the Office of the Dean.
2. Successful completion of a variety of planned clinical and field experiences essential to the development of the resourcefulness needed by teachers.
3. Successful completion of a minimum of 124 semester hours in approved courses; some programs may require more than 124 semester hours.
4. A cumulative grade point average of at least 2.5 overall, in internal education courses, in the professional education courses and in each teaching field in which licensure is sought. Courses in professional education and the teaching fields, and in General Education and Basic Skills must be taken under grading Option 1.
5. Successful completion of the following professional education sequence:
   A. Personal and Professional Development of the Teacher
   B. Child and Adolescent Development
   C. Teaching and Learning
   D. Inclusive Education or Human Relations
   E. Special Methods\(^1\)
   F. Philosophy of Education
   G. Student Teaching

\(^1\)Each program has one or more methods courses; see specific programs.

With the possible exception of A, B, and C, all courses in the above sequence must be taken at the University of Dayton. Transfer credits from other institutions normally are not accepted in substitution for courses D through G, and are never accepted for student teaching.

6. Completion of University requirements in General Education and Basic Skills. Students should see Chapter V and consult with their advisors.
7. A passing score on all three sections of the Praxis I, which must be taken no later than the second term of the first year.
8. A passing score on an exit examination, Praxis II as mandated by the State Board of Education. Students should consult the dean’s office for dates on which the examination will be administered.
9. Competency in technological skills

ADVISING AND SCHEDULING

Upon the completion of the first year, all first-year education students are assigned faculty advisors from the program in which they have been accepted. Scheduling for courses is completed through the department advisors, Dean’s Office and EDT 109 instructors.

UNIVERSITY POLICIES

Students are reminded to refer to pertinent sections of this Bulletin and the Student Handbook for all policies to which they are subject.

UNDERGRADUATE ACADEMIC POLICIES

1. It is the policy of the Department of Teacher Education that the candidates for undergraduate licensure are placed in schools in the Miami Valley area for student teaching experiences. Student teaching is the capstone experience for the preparation programs. The university needs to continue supervision and contact, to maintain the consistency and the quality of the licensure programs.

2. It is the policy of the Department of Teacher Education that an education course taken as an independent study cannot be applied toward teacher licensure.

3. It is the policy of the Department of Teacher Education that if a student is absent from more than 13% of the regularly scheduled class time and/or required field experience (this would include absences and tardiness), the student will receive a failing grade and must re-take the course in a subsequent semester.

4. It is the policy of the Department of Teacher Education that if a student receives a grade lower than a C in an EDT course, the student will be required to re-take the course. After the student receives a grade of C or higher in the course, the student may continue in their regular program of study. The student may be allowed to take one EDT course simultaneously while re-taking the course, provided the student has an overall GPA of 2.5 and has passed all three sections of PRAXIS I.

5. It is the policy of the Department of Teacher Education that independent study is not available for regularly scheduled undergraduate courses.

STUDENT TEACHING

Student teaching, which consists of actual classroom teaching under competent supervision, involves full-day sessions for approximately one semester. During the semester of student teaching, the student is not ordinarily permitted to carry more than three semester hours of additional course work. These additional semester hours are scheduled outside the normal school day in order to keep the student-teaching experience intact for the full school day. Students should make financial arrangements so that they need not continue with part-time employment during this semester. The faculty of the SOEAP screen each candidate who applies for
student teaching on the basis of the following factors: (1) skill in oral and written communication, (2) an overall grade-point average in course work of at least 2.5, (3) physical and emotional fitness, (4) desirable personal and moral traits, (5) completion of the prerequisite courses and field and clinical experiences, and (6) completion of required standardized testing.

Prerequisites for candidacy for student teaching are (1) official enrollment in a teacher education program at the university, (2) prospective completion of the minimum residence requirement of thirty semester hours inclusive of student teaching, (3) formal application to the screening committee, forms submitted a term in advance of student teaching. (Application forms may be secured from the department offices.)

A student teaching seminar may be held on campus weekly throughout the term. Once students have been approved and placed for student teaching, they may not withdraw from the program except with the approval of the department chairperson. A student who withdraws without this approval forfeits future placement in student teaching.

TEACHER PLACEMENT

Students who qualify for teacher licensure through the SOEAP are aided in securing teaching positions by the SOEAP's Office of Education Placement Services. Placement requires cooperation from the candidate in filling out the necessary paperwork and in obtaining letters of recommendations. Dates for interviews with prospective employers arranged by the Office of Educational Placement Services are announced in advance.

TEACHER LICENSURE

The SOEAP programs are approved by Ohio's State Department of Education and accredited by the National Council for Accreditation of Teacher Education. Ordinarily, Ohio licenses are recognized by other states. Students are encouraged to check licensure requirements for states in which they are seeking positions.

In addition to preparing properly licensed early childhood, middle childhood, and adolescent to young adult and intervention specialist teachers, the SOEAP also enables students to qualify for special licensures in art, foreign language, physical education, and music education.

BACCALAUREATE PROGRAMS

The SOEAP offers the following programs leading to the baccalaureate degree. (These programs are outlined later in this chapter under code designations—for example, EDT = Teacher Education, HSS = Health and Sports Science, VAR = Visual Arts.) The programs are as follows:

PROGRAM E1N: EARLY CHILDHOOD EDUCATION
PROGRAM E2N: MIDDLE CHILDHOOD EDUCATION
PROGRAM E3: PHYSICAL EDUCATION PRE K-12
   See HSS.
PROGRAM E6: SPECIAL, grades K-12
School of Education

E6A: VISUAL ART
   See EDT. See also VAR, Chapter VI.

E6B: FOREIGN LANGUAGE

PROGRAM E7N: ADOLESCENCE TO YOUNG ADULT

PROGRAM E8: EXERCISE SCIENCE AND FITNESS MANAGEMENT, OPTION 1
   See HSS.

E8A: EXERCISE SCIENCE AND FITNESS MANAGEMENT, OPTION 2
   See HSS.

E8B: EXERCISE SCIENCE AND PRE-PHYSICAL THERAPY.
   See HSS.

PROGRAM E9: SPORT MANAGEMENT
   See HSS.

PROGRAM E10N: INTERVENTION SPECIALIST (SPECIAL EDUCATION)

PROGRAM E11A: TEACHER LICENSURE for students in the College of Arts and Sciences
   See EDT and Chapter VI.

PROGRAM E12: FOOD AND NUTRITION, Option 1—Didactic Program in Dietetics

   E12A: NUTRITION AND FITNESS, Option 2—Nutrition

NOTE: All licensure programs and teaching fields described in this chapter have been approved by the Ohio Department of Education under the licensure standards effective July 1, 1998.

GRADUATE PROGRAMS

The SOEAP offers graduate programs leading to the degree Master of Science in Education and Allied Professions. These programs are designed to prepare teachers of adolescents and young adults, middle childhood and early childhood teachers, intervention specialists, school counselors, school psychologists, school social workers, social agency counselors, college student personnel professionals and school administrators. The degrees Educational Specialist and Doctor of Philosophy in Educational Leadership are also offered. For nonprofessional degree holders who are interested in becoming licensed teachers, the Department of Teacher Education offers graduate programs leading to various licensures. For in-service teachers who wish to retrain for licensure in other areas, the Department of Teacher Education offers a variety of programs. (For details on the graduate programs, request a copy of the Graduate Issue of the University of Dayton Bulletin.)
HEALTH AND SPORT SCIENCE (HSS)

The mission of the Department of Health and Sport Science is to prepare students to be proficient and professional in the health, sport science, and dietetics/nutrition disciplines.

The department also believes its mission is to provide educational programs and instruction for the health fitness needs of all members of the University community.

The department prepares physical educators to meet the needs of the public and private schools. It also prepares health information specialists for careers in health agencies. The Exercise Science and Fitness Management Program is designed to prepare students for professional opportunities in areas of corporate health, "wellness" programs and health maintenance in a variety of settings. The Sport Management Program is designed to prepare students for professional opportunities in private sports clubs, health clubs, sports organizations/federations, newspapers, television, sporting goods, and the multitudinous areas of recreation. The Pre-Physical Therapy Program will prepare students for graduate school in Physical Therapy. The Nutrition and Dietetics Programs prepare students for post-baccalaureate dietetic internships or preprofessional practice programs. A 2.5 G.P.A. is required to enter any program within the department.

In all the department's activities there is a constant search for excellence. The long-range goals and strategies relate to this search in teaching, research, inquiry, programs/recruitment of quality students, and service. Commitment to the use of technology in teaching and research is highly valued in the Department of Health and Sport Science.

FOOD AND NUTRITION

The Food and Nutrition Program offers two majors: Didactic Program in Dietetics (EHA) and Nutrition and Fitness (EHN). The curriculum of both programs is an integration of the humanities and arts, social sciences, and the physical and life sciences. The study of food and nutrition includes the science of food and the role of nutrients in the body to promote and maintain health. The Didactic Program in Dietetics (EHA) curriculum includes additional courses in food management and medical nutrition therapy for specific pathology. The Nutrition and Fitness (EHN) curriculum provides sufficient hours to obtain a minor to compliment nutrition career planning. Both programs challenge the learner to strive for excellence.

The Didactic Program in Dietetics is currently granted approval by the Commission of Accreditation for Dietetics Education of the American Dietetic Association, 216 W. Jackson Blvd., Chicago, IL 60606-6995, 312/899-4876.

PROGRAM E12: FOOD AND NUTRITION (EHA)
OPTION 1—DIDACTIC PROGRAM IN DIETETICS

This program leads to a Bachelor of Science in preparation for a required post-baccalaureate experience. Upon successful completion of the post-baccalaureate experience, graduates are eligible to become active members of The American Dietetic Association and to sit for the registration examination to become registered dietitians.

Acceptance into a post-baccalaureate program is very competitive. Post-baccalaureate programs maintain increasingly high admission standards. Acceptance is based on the grades of major and support courses, recommendation letters, work experience, extra-curricular activities, motivation, and knowledge of the profession. A grade point average above 3.0 in both the major and support courses is recommended. At the end of the second year the Advisory Committee evaluates all students enrolled in The American Dietetic Association Didactic Program in Dietetics. Any student whose cumulative average for two years of study is below 2.8 will be advised to draft a program for success or consider changing his or her major.

Most students make formal application in the second semester of their senior year to post-baccalaureate programs. Selection of the post-baccalaureate program is made through computer matching.

Students enrolled in The American Dietetic Association Didactic Program in Dietetics do not practice as student dietitians in any observation experience. There is, therefore, no professional liability insurance required.

Additional undergraduate costs may include a laboratory coat and public transportation fares to an observation site. Students are encouraged to join The American Dietetic Association as Affiliate members, currently at $40.00 per membership year (June 1 to May 31).

FACULTY

Lloyd L. Laubach, Chairperson
Professors Emeriti: Drees, LaVanche, Leonard, Morefield, Roberts, Schleppi, Siciliano
Associate Professors: Baer, Laubach, Titlebaum
Assistant Professors: DeMarco, Dolan, Doprano, Linderman

COURSES OF INSTRUCTION

HEALTH AND SPORT SCIENCE

HSS 100. LIFEGUARDING AND FIRST AID/CPR SKILLS: The primary purpose of this course is to provide students with Lifeguard, First Aid/CPR skills and knowledge necessary to keep the patrons of aquatic and recreation safe in and around the water. The course will teach students to recognize and respond quickly and effectively to all emergency situations including Lifeguarding Rescue Skill; First Aid Skill; CPR for Professional Workers; Responsibilities of a Professional Lifeguard; Interaction with the Public; Dealing with Uncooperative and Violent Behavior; and Injury Prevention. 2 sem. hrs.

HSS 101. INTRODUCTION TO THE UNIVERSITY: Examination of the values that foster academic progress in the College, discussion of strategies for taking full advantage of academic opportunities, and integrating formal and experiential learning. 1 sem. hr.

HSS 109. PERSONAL AND PROFESSIONAL DEVELOPMENT OF THE TEACHER: A course to help the student define professional goals and assess personal strengths and weaknesses in the light of competencies deemed essential for a physical and/or health education teacher. 2 sem. hrs.

HSS 111. INTRODUCTION TO SPORT MANAGEMENT: A course to help the student define professional goals and assess personal strengths and weaknesses in the light of competencies deemed essential for a sport management career. 2 sem. hrs.

HSS 112. INTRODUCTION TO EXERCISE SCIENCE AND FITNESS MANAGEMENT: A course to help the student define professional goals and assess personal strengths and weaknesses in the light of competencies deemed essential for an exercise science and fitness management career. 2 sem. hrs.
HSS 113. INTRODUCTION TO DIETETICS AND NUTRITION: To acquaint the students interested in a career in dietetics or nutrition with the professions, roles, responsibilities, and opportunities afforded them. Examples of practice for each area will be explored. Required by all entering first-year students and open to students interested in food and nutrition careers. 2 sem. hrs.

HSS 114. INTRODUCTION TO PHYSICAL THERAPY: An introductory seminar discussing the history, present and future, of physical therapy. A successful undergraduate preparation for entrance into this highly selective graduate program will be this field's secondary focus. 2 sem. hrs.

HSS 117. PERSONAL AND COMMUNITY HEALTH: Survey of health science and principles of preventive medicine as introduction to other courses in health and sport science. 3 sem. hrs.

HSS 130. PHYSICAL EDUCATION ACTIVITIES: Selected courses offered to Health and Sport Science majors only. 1 sem. hr.

HSS 182. AEROBIC CONDITIONING: Aerobic conditioning techniques developed primarily through running programs. Required for EES and EDP majors. 2 sem. hrs.

HSS 184. CONDITIONING: A course designed for Exercise Science and Pre-Physical Therapy majors to introduce them to concepts and techniques of aerobic conditioning using exercise devices such as treadmills, bicycle ergometers, stairmasters, rowing machines, etc. 1 sem. hr.

HSS 185. RHYTHM, DANCE, GAMES & GYMNASTICS: Theory and practice of Educational Games, Educational Dance, and Educational Gymnastics. 2 sem. hrs.

HSS 187. TEAM SPORTS: Content and pedagogical content knowledge of selected team sports will be presented. Overview of history, rules, officiating, strategy, and skill practice shall be provided. Students will also gain competence in the instruction, adaptation, modification, and administration of the selected team sports. 2 sem. hrs.

HSS 200. MOTOR DEVELOPMENT/LEARNING: Investigation of fundamental principles of human movement. Physical and psychological variables essential to motor learning are considered. Prerequisite for HSS 300. 2 sem. hrs.

HSS 210. INTRODUCTORY FOODS: Study of scientific principles applied to the processing and preparation of food to maintain nutritional quality and aesthetic value. Corequisite: HSS 210L. 2 sem. hrs.

HSS 210L. INTRODUCTORY FOODS LABORATORY: Course to accompany HSS 210 lecture. Two 2-hour periods each week. Corequisite: HSS 210. 2 sem. hrs.

HSS 220. ADAPTED PHYSICAL EDUCATION: A course to prepare prospective teachers to adapt a physical education program so all children and youth can successfully participate in activity programs. Study of the atypical child in order to organize and administer a program which will meet individual needs. 3 sem. hrs.

HSS 223. BASIC MOVEMENT EDUCATION: The child-centered approach to learning in physical education designed to help children develop greater understanding of themselves as movers, the space in which to move and the factors affecting efficient movement. Developmentally appropriate motor skills, movement concepts and activities (games, dance and gymnastics) are presented as the curriculum model K-12. Prerequisite for HSS 324. 3 sem. hrs.
HSS 226. COMPUTER APPLICATIONS IN SPORT SCIENCE: The course focuses on understanding the practical uses of computers as a tool in exercise science and sport management activities. Emphasis is placed on demonstrated proficiency in word processing, spreadsheets, graphics, Power Point, and databases and the evaluation and use of specific exercise science and sport management packages. Emphasis will be on use of IBM compatible computers.

HSS 230. BASIC ATHLETIC TRAINING: Application of principles and methods involved in prevention, care, and treatment of athletic injuries. Prerequisite: HSS 305.

HSS 251. SCHOOL HEALTH SERVICES & ENVIRONMENT: The organization and administration of a school health program with emphasis on health services and healthful school living.

HSS 255. SPORT MANAGEMENT PRACTICUM/SEMINAR: The sport management practicum and seminar is designed for students to gain insight into a wide array of field experiences within this discipline. Students are given choices of field work within a variety of sport and recreation settings. In addition, a weekly seminar is required as part of the practicum experience.

HSS 275. HISTORY OF PHYSICAL EDUCATION AND SPORT: Study of the historical development of physical education and sport as it relates to significant events in the history of Western civilization.

HSS 295. NUTRITION AND HEALTH: Study of the nutrient needs of humans and of their choices as modified by socioeconomic, cultural, and life cycle factors.

HSS 300. METHODS OF TEACHING SECONDARY PHYSICAL EDUCATION: Study of the methods and skills essential for effective teaching in physical education. Prerequisite: HSS 200.

HSS 302. CULTURAL & GLOBAL ASPECTS OF FOOD: Study of the relationship among consumers, the food; the historical evolution of food; socioeconomic influences on food.

HSS 304. INSTITUTIONAL QUANTITY FOOD PRODUCTION AND BUYING: To study quantity food production in foodservice system through application of principles for determining needs and procuring, producing and storing foods in quantity, along with institutional equipment selection, maintenance, and layout. Prerequisites: HSS 210 and HSS 210L, a Multipurpose Computer Account (AKA Dial-in/PPP/Flyernet account), and basic IBM compatible computer skills.

HSS 305. HUMAN ANATOMY: Study of the human body with emphasis on the interdependent relationships of structure and function.

HSS 305L. HUMAN ANATOMY LABORATORY: Hands-on study of the human body with emphasis on the interdependent relationships of structure and function through the use of interactive anatomy.

HSS 306. HUMAN PHYSIOLOGY: Study of the functions of body systems. Cell physiology, structural contributions or limitations, concepts of biochemistry, control of functions, physiological limits of function, and examples of pathologic developments.
HSS 307. HUMAN PHYSIOLOGY: A survey of the functions of body systems with respect to general cell physiology and specialization into tissues, structural contributions to tissue/organ physiology, pertinent concepts of biochemical physiology, tissue metabolism and energy/food requirements during stress and exercise, recent research into control and regulation of functions of major systems, physiologic limitations outside environmental ranges, and selected examples of pathophysiology. Prerequisites: CHM 123, CHM 124, HSS 305. 3 sem. hrs.

HSS 309: METHODS OF TEACHING HEALTH: Study of the instructional phase of the school health program with emphasis on the methods of teaching health. 3 sem. hrs.

HSS 310. COACHING BASKETBALL: The theory, skills, strategies, and methods of coaching basketball. First term, each year. Elective. 2 sem. hrs.

HSS 312. COACHING FOOTBALL: The theory, skills, strategies, and methods of coaching football. Second term, each year. Elective. 2 sem. hrs.

HSS 314. COACHING BASEBALL: The theory, skills, strategies, and methods of coaching baseball. Elective. 2 sem. hrs.

HSS 316. COACHING SOCCER: The theory, skills, strategies, and methods of coaching soccer. Elective. 1 sem. hr.

HSS 317. COACHING TRACK AND FIELD: The theory, skills, strategies, and methods of coaching track and field. Elective. 1 sem. hr.

HSS 318. TEACHING AND COACHING GOLF: The theory, skills, strategies, and methods of teaching and/or coaching golf. 1 sem. hr.

HSS 320. ESSENTIALS OF MUSCULAR STRENGTH CONDITIONING: A course designed to prepare students for the certified strength and conditioning specialist (NSCA) exam. Topics included will pertain to muscular strength and endurance conditioning, physiology of strength conditioning, muscular strength testing and evaluation, and organization/administration of strength training programs. Prerequisite: HSS 305. 3 sem. hrs.

HSS 324. METHODS OF TEACHING ELEMENTARY PHYSICAL EDUCATION: Basic theory, techniques, and methods for conducting a program for elementary students. Prerequisite: HSS 223, Junior Status. 3 sem. hrs.

HSS 333. HEALTH, NUTRITION, AND SAFETY FOR THE YOUNG CHILD: This class is designed to emphasize the physical, nutritional, emotional, social, environmental health, and safety of the young child. The class emphasizes the teacher's role in the health/nutritional maintenance of young children. Class will focus on nutrition, safety, and wellness of the young child by creating a healthful school environment. 3 sem. hrs.

HSS 334. BASIC TECHNIQUES FOR CARDIOPULMONARY RESUSCITATION FOR CHILDREN: Students register for this course in conjunction with HSS 333. No credit

HSS 335. INTRODUCTION TO THERAPEUTIC MASSAGE: Introduction to bodywork and issues of health and wellness. Laboratory sessions will provide an opportunity to integrate and apply massage knowledge and skill drawn from a variety of healing systems; Swedish Massage, Acupressure, Reflexology and Hydrotherapy. Designed for students in Exercise Science, Athletic Training, and Health Care. Required that students have had Human Anatomy, Human Physiology. 1 sem. hr.
HSS 344. OUTDOOR EDUCATION: Action seminar to familiarize teachers and recreation leaders with the curricula, teaching techniques, and skills for good outdoor education programs. 2 sem. hrs.

HSS 349. FINANCING SPORT OPERATIONS: The financial concepts and theories and their application in the professional intercollegiate, recreational and commercial sport industries. Topics include revenues and expenses of professional, intercollegiate, and private sport industries; issues affecting these revenues and expenses; fundraising at the intercollegiate level; ownership in sport; and public and private funding for non-profit sports programs. 3 sem. hrs.

HSS 350. PRINCIPLES OF SPORT MANAGEMENT: Examination of the nature of management from theoretical and practical perspectives in a variety of sport settings. Focus on managerial functions and skills. 3 sem. hrs.

HSS 351. FACILITY MANAGEMENT: The processes of planning, constructing, equipping, and maintaining sport facilities are investigated in this course. In addition, the multi-faceted nature of event management is examined in a variety of sport settings. 3 sem hrs.

HSS 352. EVENT MANAGEMENT: The purposes, types, organization, administration and evaluation of events as they relate to sport, facility and community environments. 2 sem. hrs.

HSS 353. SPORTS MEDIA: This is the study and the appraisal of the media and the role that it plays in contemporary sports. Attention is also given to preparation and evaluation of media sports presentations. 3 sem. hrs.

HSS 361. HEALTH CONSUMERISM: Sorting fad from fact in using health products and services from the present market—includes fad diets, nutrition nonsense, survey of medical hoaxes, misleading advertising and protection that is available to all health consumers. Research into current fads and frauds and exposure of health myths and misconceptions is included. 2 sem. hrs.

HSS 367. COMMUNITY HEALTH PROGRAMS: Development of those skills necessary to perform as a community health educator in a variety of settings. 2 sem. hrs.

HSS 371. PRINCIPLES OF FOOD SANITATION & SAFETY: An in-depth study of the principles of food sanitation and safety, including food microbiology, foodborne illnesses, and gastroenteric outbreaks. Emphasis will be on the correct sanitary practices and techniques to ensure quality, food procurement, storage, preparation, service and disposal. 2 sem. hrs.

HSS 373. STRESS MANAGEMENT: Examination of life's stressors, utilization of reduction techniques, and assisting others with the management of stress. Special attention to controlling stress in the school setting. 2 sem. hrs.

HSS 385. SPORT MANAGEMENT FIELD EXPERIENCE: This experience is done after completion of HSS 255. 150 clock hours need to be completed for the 3 semester hour experience. 3 sem. hrs.

HSS 400. PHYSICAL EDUCATION WORKSHOPS: Various workshops will be conducted depending upon the needs of the clientele. 1-3 sem. hrs.

HSS 401. ADVANCED NUTRITION: Extension of the student's knowledge of the science of nutrition, stressing the metabolism of food constituents and recent advances in the field of nutrition. Prerequisites: HSS 295, BIO 403 or HSS 307, CHM 314. 3 sem. hrs.
HSS 402. NUTRITION FOR THE AGING ADULT: The study of the process of aging through adulthood. This will focus on the changes in nutritional needs during the aging process. Attention will be paid to the community resources available to help provide optimum nutrition to healthy people as they age. 2 sem. hrs.

HSS 404. COACHING INTERNSHIP: Practical coaching experience working in local schools with interscholastic teams. Elective. 1-3 sem. hrs.

HSS 405. TESTS AND MEASUREMENTS IN SPORT SCIENCE: A direct relationship of tests and measurements to the field of sport science. 3 sem. hrs.

HSS 406. NUTRITION FOR MOTHER/CHILD: Physiologic and biochemical principles and results of current research are used to build a foundation for exploration of nutrition from the stages of growth and development, to maturation, and aging. These serve as the basis for consideration of the social, economic, physiologic, and lifestyle factors that influence nutrition status, food choices, and specific life state concerns. Particular attention is paid to using the principles of nutrition in planning and implementing recommendations for dietary change. Prerequisites: HSS 307, 295. 2 sem. hrs.

HSS 408. PHYSIOLOGY OF EXERCISE: Detailed study of the effects of exercise on human functions, as a basis for the study of physical fitness, motor skills, and athletic training. Prerequisites: HSS 305, 306 or 307. 2 sem. hrs.

HSS 408L. PHYSIOLOGY OF EXERCISE LABORATORY: Course to accompany HSS 408. Weekly two-hour laboratory stressing practical applications of exercise physiology. Prerequisites: HSS 305, 306 or 307. 1 sem. hr.

HSS 409. KINESIOLOGY: Investigation and analysis of human motion based on anatomical, physiological, and mechanical principles. Prerequisites: HSS 305, 306 or 307. 2 sem. hrs.

HSS 409L. KINESIOLOGY LABORATORY: Course to accompany HSS 409. Weekly two-hour laboratory stressing the practical application of kinesiology. 1 sem. hr.

HSS 412. COMMUNITY HEALTH RESOURCES: The functions and services of various local health agencies. Course members select agencies to visit and/or invite to campus. 3 sem. hrs.

HSS 415. HEALTH AGENCY INTERNSHIP: Student works with agency of his or her choice. Prerequisite: Junior standing. 1-6 sem. hrs.

HSS 417. STUDENT TEACHING (Pre-K-12 TEACHING FIELD PHYS. ED): Teaching under close supervision in the specialized subject area in both elementary and high school grades for a minimum of twelve weeks. A seminar is held once a week. Prerequisite: Formal admission a full semester in advance. 12 sem. hrs.

HSS 419. STUDENT TEACHING (Pre-K-12 HEALTH): Teaching under close supervision in the specialized subject area in elementary, junior high, and high school grades for a minimum of twelve weeks. A seminar is held once a week. Prerequisite: Formal admission a full semester in advance. 12 sem. hrs.

HSS 422. EXERCISE FOR SPECIAL POPULATIONS: A course designed to prepare prospective exercise specialists to adapt physical education and exercise so that all individuals can successfully participate in activity programs. A study of various disabilities and conditions in order to organize and administer a program which will meet individual needs. 3 sem. hrs.
HSS 428. HEALTH RESEARCH AND EVALUATION: An introduction to statistical analysis and research methodology. Emphasis will be on the use of these in determining health statistics, designing and evaluating health studies, accessing data banks; collection, analysis and interpretation of health statistics. 3 sem. hrs.

HSS 430. PRINCIPLES AND ADMINISTRATION OF HEALTH PROGRAMS: Establishment of the need for health education, historical development, survey of various philosophies, and discussion of specific professional standards, all aimed toward conceptualization of a personal philosophy by the health educator. 3 sem. hrs.

HSS 431. NUTRITION FOR EXERCISE AND SPORT: Investigation of current research in the nutritional assessment of the athlete. Topics include dietary needs, fluid replenishment, pre-game meals, and "fad" diets for the athlete. Prerequisite: HSS 295. 3 sem. hrs.

HSS 435. EXERCISE ECG: Evaluation of exercise electrocardiograms from healthy persons. Prerequisites: HSS 307, 408, 408L. 3 sem. hrs.

HSS 448. SAFETY AND THE LAW IN PHYSICAL EDUCATION AND SPORTS: Study of the legal aspects of physical education and athletics. Analysis of specific court cases. Formulation of safety policies. 2 sem. hrs.

HSS 455. SELECTED STUDIES IN EXERCISE SCIENCE: Investigating, analyzing, and reporting on a problem in exercise science. Elective. Prerequisite: Permission of chairperson. 1-4 sem. hrs.

HSS 465. PHYSICAL THERAPY SEMINAR: Addresses current issues facing prospective and present physical therapists in a reforming healthcare industry. 3 sem. hrs.

HSS 470. CURRICULUM DEVELOPMENT IN PHYSICAL EDUCATION: Principles and procedures for curriculum construction and revision. Study of philosophies (institutional, professional, and personal) and their relationship to curriculum development. 3 sem. hrs.

HSS 485. SPORT MANAGEMENT INTERNSHIP: Work experience carried out under the auspices and supervision of the sports management staff. Application and permission of director of Sports Management program required. 3 sem. hrs.

HSS 490. EXERCISE SCIENCE INTERNSHIP—ON CAMPUS: Work experience carried out under the auspices and supervision of the University of Dayton Wellness Program staff. Application and permission of director of Exercise Science and Fitness Management program required. 1-2 sem. hrs.

HSS 491. EXERCISE SCIENCE INTERNSHIP—OFF CAMPUS: Work experience carried out under the auspices of an industrial, commercial, educational, government or health agency-related wellness program. Application and permission of director of Exercise Science and Fitness Management program required. 1-6 sem. hrs.

HSS 495. MEDICAL NUTRITION THERAPY: Includes the study of professional development assessment, nutrition care planning and the appropriate medical nutrition physiology in humans. Designed for those planning to become a registered dietitian. Prerequisites: CHM 314, HSS 401; HSS 307 or BIO 403. 4 sem. hrs.

EDI 498-499. HONORS THESIS: Selection, design, investigation, and completion of an independent, original research thesis under the guidance of a faculty research director. Restricted to students in the University Honors Program with permission of the program director. 6 sem. hrs.
The mission of the Department of Teacher Education is the development of competent and humane teachers. It provides students and faculty the opportunity to serve and learn in prekindergarten through secondary schools. It dedicates itself to the discovery and transmission of the knowledge, skills, attitudes, and values that enable teachers to be professional leaders.

To assure the competency of its students, the Department has established a selection and retention policy that requires students to demonstrate before student teaching at least a 2.5 grade-point average overall, in professional education courses, and in teaching fields; ability to pass Praxis I; competency in computers and related technologies; and competency in achieving selected objectives in clinical and field-based experiences. At the completion of their programs to receive a provisional license, all students are required to pass the Praxis II exit examination(s) mandated by the State Board of Education, verify they are of “good moral character,” and be fingerprinted.

http://soeap.udayton.edu/academic/edt

EARLY CHILDHOOD EDUCATION (ECE)

The Department of Teacher Education administers the program in Early Childhood Education (E1-N), which leads to the Bachelor of Science in Education and provisional licensure to teach prekindergarten through grade 3.

A student in the Early Childhood Education program is required to investigate an area of focus for coursework outside the School of Education and Allied Professions.

Successful completion of EDT field experience and a 2.5 cumulative grade point average is required overall and in professional education courses to continue in the program, student teaching, and be licensed. PRAXIS I, the Pre-Professional Skill Test (PPST), is required or waived, by the end of the first year. To be recommended for the provisional licensure, the early childhood education major must also pass the Praxis II exit examination, verify they are of “good moral character” and be fingerprinted.

Checksheets for each licensure area are available in the Department of Teacher Education.

PROGRAM E1-N: EARLY CHILDHOOD EDUCATION (ECE)

(Leading to Ohio Provisional Early Childhood License: prekindergarten-grade 3)

MIDDLE CHILDHOOD EDUCATION (EMS)

The Department of Teacher Education administers the program in Middle Childhood Education (E2-N), which leads to the Bachelor of Science in Education and a provisional license to teach grades 4-9.

A student in the Middle Childhood Education program is required to have two concentrations of 24 or more semester hours in two of the following: mathematics, sciences, social studies and reading/language arts.

Successful completion of EDT field experience and a 2.5 cumulative grade point average is required overall and in professional education courses to continue in the program, student teaching, and be licensed. PRAXIS I, the Pre-Professional Skill Test (PPST), is required or waived, by the end of the first year. To be recommended for the provisional licensure, the middle childhood education major must also pass the Praxis II exit examination in professional knowledge and the two concentration areas and verify they are of "good moral character" and be fingerprinted.

Checksheets for each licensure area are available in the Department of Teacher Education.

1 Field experiences are arranged by the University. Register also for EDT 100.

2 Fewer concentration hours may be required depending upon chosen concentrations.

3 Designates cohort courses to be taken together in the same semester.

4 Designates cohort courses to be taken together in the same semester.
ADOLESCENCE TO YOUNG ADULT EDUCATION (EYA)

The Department of Teacher Education administers the program in adolescence to young adult (E-7N), which leads to the Bachelor of Science in Education and a provisional license to teach learners ages twelve through twenty-one and grades seven through twelve.

A student in the Adolescence to Young Adult Education Program is required to have a single comprehensive teaching field totaling a minimum of 39 semester hours and a maximum of 96 hours. Number of semester hours to complete teaching field requirements is dependent upon the chosen teaching field and the concentration within the teaching field. Some semester hours may need to be taken during the summer. Successful completion of EDT field experience and a 2.5 cumulative grade point average is required overall, for the teaching field in which provisional licensure is sought, and in professional education courses to continue in the program, student teaching, and be licensed. PRAXIS I, the Pre-Professional Skill Test (PPST), is required or waived, by the end of the first year. Students must verify "good moral character," be fingerprinted, and pass the state mandated Praxis II exit exams in Professional Knowledge and the Content area.

Adolescence to young adult education teaching fields include the following:

<table>
<thead>
<tr>
<th>Field</th>
<th>Students are encouraged to consult with their advisor regarding their individual concentration needs.</th>

### INTERVENTION SPECIALIST (EMM)

The Department of Teacher Education administers the program for Intervention Specialist (E-10N), which leads to licensure to teach learners ages five through twenty-one, kindergarten through grade twelve with mild to moderate educational needs. Students in this program also have an emphasis in the middle childhood studies.

Successful completion of EDT field experience and a 2.5 cumulative grade point average is required overall and in professional education courses to continue in the program, student teaching, and be licensed. PRAXIS I, the Pre-Professional Skill Test (PPST), is required or waived, by the end of the first year.

At the completion of the program, to receive a provisional license, all students are required to pass Praxis II exit examinations mandated by the State Board of Education, to verify they are of "good moral character," and to be fingerprinted.

A checksheet for this licensure area is available in the Department of Teacher Education.

### Notes

1. Field experiences are arranged by the University. Register also for EDT 100.
2. Students should take a lab with either SCI 210 or SCI 230.
3. See General Education Requirements, Chapter V. Some humanities base and thematic clusters' requirements are specified in the program; others are to be chosen from the listing of approved courses. Consult advisor and checksheets.
4. Must be taken concurrently. Field experience is required.

---

352
MUSIC EDUCATION

The Department of Teacher Education cooperates with the Department of Music to offer provisional licensure P-12 through the E11A Program. See MUS, Chapter VI.

SPECIAL PROGRAMS P-12

The Department of Teacher Education administers the program for special licensure (E6) to teach grades P-12, which leads to the Bachelor of Science in Education.

A student in the Special P-12 Program is required to have one teaching field totaling a minimum of 45 semester hours. In order to do student teaching and be recommended for licensure, the student must have a cumulative grade point average of at least 2.5 as well as a minimum of a 2.5 in both, professional education courses and in teaching field(s), and pass Praxis I. At the end of the program, in order to receive a provisional license the student must pass an exit exam, Praxis II, verify "good moral character," and be fingerprinted.

Special teaching fields include the following:
Visual Art (EAR), with four concentrations available:
- Visual Communication
- Photography
- Studio Art
- Art History
Foreign Language (ELA), with three concentrations available:
- French
- German
- Spanish
Music Education (P-12) is also available through the E11A Program.
Checksheets for each field are available in the Department of Teacher Education.
The suggested four-year schedule of courses is similar to that shown for the Secondary Education Program, E2.

LICENSURE FOR STUDENTS IN ARTS AND SCIENCES

PROGRAM E11A: B.A. or B.S. WITH TEACHER LICENSURE (refer to page 243).

Students in the College of Arts and Sciences may enroll in the Department of Teacher Education's Adolescence to Young Adult Education Program without transferring to the School of Education and Allied Professions. For requirements in professional education courses and in teaching fields consult the Dean's office.
Enrollment, continuations and completions in this program (E11A for students matriculating in the College of Arts and Sciences) is subject to the same admission requirements, counseling, maintenance of a unified system of records, screening, and other professional provisions standard for regular students of the School of Education and Allied Professions working toward the B.S. in Education. These include passing Praxis I; maintaining an overall average of 2.5; completing field-clinical and student teaching hours and taking the comprehensive Praxis II exams.
In order to finish in four years, a student in the College of Arts and Sciences will need to process an application for admission to the Adolescence to Young Adult Education Program no later than the third semester and begin the professional education sequence. Failure to enroll on time may necessitate going beyond the normal four years in order to qualify for teacher licensure and graduation. The requirements for the College of Arts and Sciences (Chapter VI) and those of the School of Education and Allied Professions must be completed before any degree is granted.
When the proper course requirements have been completed, the student may register for student teaching, upon approval of the application for student teaching that is processed the semester prior to the one during which student teaching will take place.

When all the requirements for teacher licensure are completed, the student should make application for the standard State Teaching Provisional License through the recommending officer of the School of Education and Allied Professions, in the Dean's office.

FACULTY

Patricia Hart, Chairperson
Professors Emeriti: Anderson, Frye, Fuchs, Gay, Grob, Joseph, Klosterman
Professors: Geiger, Hart, Hunt, Lasley, Losito, Rowley, Sudzina, Watras
Associate Professors: Adams, Biddle, Hunn, Kinnucan-Welsch, Richards,
   Talbert-Johnson, Tillman, Weaver
Assistant Professors: Bowman, Grogan, Herrelko, Rogers, Seery

Bombeck Family Learning Center Director: Sutton
Other Faculty: Brink, DeMarco, Zahner

COURSES OF INSTRUCTION

EDT 100. FIELD-BASED EXPERIENCES: Planned, supervised, and evaluated activities in various school settings. Students register for this course in conjunction with appropriate courses in the professional education sequence. No credit

EDT 101. FIELD-BASED EXPERIENCES: This practicum course is a year-long field experience linked to EDT 211 and EDT 212. Only students who have been accepted to the Early Childhood Program are eligible. During registration, students should sign-up for a weekly time slot at the Bombeck Family Learning Center. Current medical forms with negative TB test and background check are required. Forms are available at the Bombeck Family Learning Center. No credit

EDT 109. PERSONAL ASPECTS OF TEACHING: General introduction to education and the university. Identification of students’ personal values, goals, motives, and strengths in light of the qualities and requirements of effective teaching. Introduction to technology, the professional portfolio and educational issues are discussed. Field experience: 10 hrs. 1 sem. hr.

EDT 110. THE PROFESSION OF TEACHING: Study of the principal teacher behaviors that facilitate learning. Educational issues, developing a community of learners, cooperative learning, service learning, the Pathwise/Praxis III framework, professional standards, the portfolio, and teaching according to the Marianist traditions are other topics of the course. Clinical and field experiences: 24 and 20 hrs. 2 sem. hrs.
EDT 207. CHILD AND ADOLESCENT IN EDUCATION: Study of the empirical principles of intellectual, moral, physical, personality, and social development as related to performance in the classroom. Interpretations for appropriate generic teaching behaviors and developmental causes of behavior problems, are discussed. Clinical experience: 20 hrs.; field experience: 25 hrs. Prerequisite: EDT 110 or permission. 3 sem. hrs.

EDT 208. TEACHING AND LEARNING: Study of the empirical principles of learning such as reinforcement, discovery, motivation, and transfer. Interpretations for generic teaching behaviors especially in diagnosis, prescription, and evaluation are presented. Clinical and field experience: 10 and 20 hrs. Prerequisite: EDT 207 or 222. 3 sem. hrs.

EDT 211. CHILD DEVELOPMENT BIRTH TO AGE 8: This course focuses on the study of typical and atypical physical, social, emotional, linguistic, cognitive, aesthetic and moral development of young children ages preconception through eight. Students will use this knowledge to reflect on and make decisions about practices that serve the needs of young children and their families. This course includes 20 clinical hours to be completed in class and 40 field hours to be completed at the Bombeck Family Learning Center. Prerequisite: EDT 110. 3 sem. hrs.

EDT 212. EARLY CHILDHOOD THEORY AND PRACTICE: This course is an introduction to the theory base that drives developmentally appropriate practice for working with young children birth through age eight. It extends knowledge of how children develop and learn, to provide opportunities that support the physical, social, emotional, language, cognitive, and aesthetic development of all young children from birth through age eight. Students will learn the principles of planning and implementing developmentally appropriate curriculum and instruction based on knowledge of individual children, families and the community. Field experience: 40 hours at the Bombeck Family Learning Center. Prerequisite: EDT 110. 3 sem. hrs.

EDT 222. DEVELOPMENT IN MC AND AYA: Study of the physical, social, emotional, intellectual, and moral characteristics of the developmental period of early adolescence to young adulthood within a framework of human growth and development. Study of the changes in family setting, social/community contexts, threats to health and safety, and risk behaviors are covered. Clinical and field experience: 5 and 25 hrs. Prerequisite: EDT 110. 3 sem. hrs.

EDT 303. SCHOOL, SELF, AND SOCIETY: A study of the relationships among institutional reform, personality development, and social change in rural, urban, and suburban schools in order to see if the differences found in the different schools derive from differences in the cultures of the communities they serve. An effort will also be made to see how local districts respond to national laws and policies affecting students. A 34-hour field experience is required. 3 sem. hrs.

EDT 305. HISTORY AND PHILOSOPHY OF AMERICAN EDUCATION. Study of American education as it evolved from the colonial era to recent times. In the historical overview, attention is given to issues pertinent to educational philosophy. The study of Catholic and Marianist educational perspectives provides an important component of the course. Prerequisite: EDT 110. 3 sem. hrs.

EDT 313. DEVELOPMENTALLY APPROPRIATE PRACTICE FOR THE THREE TO FIVE YEAR OLD: This course will expand the knowledge of how young children, age
three through five, learn and develop and how to provide opportunities that support the physical, social, emotional, language, cognitive and aesthetic development of this age of children from three through age five. Extensive focus on the content areas of art, music, science, social studies and math as well as guiding behavior and family culture will occur. 30 hrs. field experience with Miami Valley Child Development Center/Headstart. Corequisite: EDT 110, 212.

EDT 321. CLASSROOM ENVIRONMENT FOR MIDDLE CHILDHOOD: Study of the middle childhood student within the classroom environment. Theories of learning and practical applications, motivation, classroom management and discipline, lesson and unit planning, teaching methodologies and assessment are evaluated, studied and practiced through clinical and field experiences. (5 hrs. and 60 hrs.) Prerequisite: EDT 110, 222. Corequisites: EDT 340 , 425.

EDT 331. TEACHING RELIGION: Planning, diagnosis, instructional methods, materials, and evaluation techniques for teaching religion to students with varied needs and abilities. Prerequisites: REL courses, junior standing.

EDT 340. EDUCATING DIVERSE STUDENT POPULATIONS IN INCLUSIVE SETTINGS: Study of the characteristics, legal aspects, and educational needs of students with learning problems. The role of the general educator in making curricular modifications and accommodations, adapting instruction and collaborating with other educators to facilitate learning in the regular classroom for these students is examined. Clinical experience: 10 hrs.; field hrs. vary by Program. Prerequisite: EDT 110.

EDT 343. INTRODUCTION TO EDUCATION OF LEARNERS WITH MILD/MODERATE LEARNING PROBLEMS: Study of the role and function of the special educator. Issues in definition, identification and placement procedures are presented. Knowledge of major researchers and historians, variations in beliefs, traditions and values across cultures, and current practices in the field are included. Field experience: 20 hrs.

EDT 344. COLLABORATING WITH FAMILIES, PROFESSIONALS AND AGENCIES: Theories and techniques to assist teachers in working with colleagues, parents, and agency personnel to provide an appropriate educational program, to improve home-school relationships and to develop parent-professional partnerships. Historical and legal perspective of parental influence on special education service delivery are examined. Clinical experiences. Prerequisite: EDT 343.

EDT 350. TEACHING READING THROUGH LITERATURE: This course will explore the important role children's literature has in literacy development. It will address selection of books for specific needs, interests, and reading abilities in eight genres as well
as techniques for use in classroom and home settings for children birth through adolescent/young adult. No field hours. Corequisites (EMS, EMM): EDT 352, 450.

3 sem. hrs.

EDT 352. READING/LANGUAGE ARTS METHODS FOR MIDDLE CHILDHOOD: An integrated language arts course focusing on the knowledge base underpinning the teaching of reading and related language arts processes within the language arts and across the curriculum to students of various needs, and abilities. Topics include planning, instructional methods, materials, assessment and evaluation techniques. Field experience: 60 hrs. Corequisites: (EMS, EMM): EDT 350, 450.

3 sem. hrs.

EDT 400. INDEPENDENT STUDY: Study of selected topics in teaching. The student develops an individual learning plan that includes objectives, schedule of activities, products, and methods of evaluation. Prerequisite: Permission of chairperson.

1-3 sem. hrs.

EDT 401. ADVANCED COMPUTERS/TECHNOLOGY IN EDUCATION: Integration of computers and related technology into teaching in all subject areas; including the criteria for effective software and hardware; creation of teaching, evaluation, and management instruments.

3 sem. hrs.

EDT 402. METHODS—COMPUTERS/TECHNOLOGY IN EDUCATION: Planning, diagnosis, instructional methods, materials, and evaluation techniques for teaching computer science; PK-12 curriculum in computer/technology literacy; the educational technology resource person; establishing and maintaining technology facilities in schools are all explored. Field and clinical experience required. Prerequisite: EDT 401.

3 sem. hrs.

EDT 404. CURRENT INNOVATIONS IN EDUCATION: Presentation, examination, and evaluation of recent trends in curriculum and instructional strategies in PK-12 schools.

3 sem. hrs.

EDT 406. SPECIAL TOPICS IN TEACHING. Study of specialized areas in teaching not normally investigated fully in professional education sequence. Topic are announced.

1-3 sem. hrs.

EDT 412. DEVELOPMENTALLY APPROPRIATE PRACTICE FOR THE SIX THROUGH EIGHT YEAR OLD: This course will extend the students' knowledge of how children ages six through eight years develop and learn in order to provide opportunities that support the physical, social, emotional, language, cognitive, and aesthetic development of all young children. Students will learn to use knowledge of how young children ages six through eight differ in their development and approaches to learning in order to provide individually appropriate opportunities for learning. The course will emphasize teaching in the content areas to include: Science, Social Studies, Language Arts, Foreign Languages and Mathematics and will focus on the Ohio Curriculum Models. Field experience: 60 hours, This begins the senior year experience and culminates in Student Teaching. Prerequisites: successful completion of field experience; EDT 110, 212, 313.

5 sem. hrs.

EDT 413. WORKING WITH LEARNERS WITH MILD TO MODERATE EDUCATIONAL NEEDS: This course reviews issues of special education definition, identification and IDEA-97. Students will learn to adapt instruction using an inclusive model. Prerequisites: EDT 340, 211 and 212. Corequisite: EDT 412

2 sem. hrs.
EDT 425. THE MIDDLE SCHOOL PRINCIPLES AND PRACTICES: This course is primarily a study of the organization (school structure), philosophy and curriculum of middle level education (9-14 year olds), grades four through nine. It is designed to present the theoretical knowledge base about middle childhood education. Issues and concerns, current trends and the essential elements relating to middle level education will be discussed throughout the semester of study. Clinical experience: 5 hrs. Prerequisite: EDT 222. Corequisites: EDT 321, 340. 3 sem. hrs.

EDT 426. READING/LANGUAGE ARTS FOR MIDDLE CHILDHOOD: Study of the implications of recent research and methodology on teaching reading, writing, spelling, and grammar in the middle school classroom. The Ohio Model Competency-Based Language Arts Program will be incorporated. Clinical experience: 5 hrs. Prerequisites: EDT 321, 425. Corequisites: EDT 474, and EDT Methods. 3 sem. hrs.

EDT 427. MATH FOR MIDDLE CHILDHOOD: Planning, diagnosis, instructional methods, materials, assessment, and evaluation techniques for teaching mathematics to students in the middle schools with varied needs and abilities. Topics include: understanding and use of the Ohio Model Curriculum for grades 4-9, applications and instructional techniques that address the Ohio proficiency testing, various resources, technologies, manipulatives, and other visuals, interdisciplinary connections, various grouping techniques, current research. Prerequisites: EDT 321, 425. Corequisites: EDT 474 and EDT Methods. 3 sem. hrs.

EDT 428. SCIENCE FOR MIDDLE CHILDHOOD: This course will explore resources and techniques available to provide all middle childhood students with a holistic, interdisciplinary understanding of science. Students will design lessons, activities and assessments which link the national standards, state model, and international goals to contemporary events and student's daily lives. Pre-service teachers will learn how to provide developmentally appropriate experiences and will practice processes, inquiry, and problem-solving skills. Current research findings on adolescent learning will be addressed along with major concerns of safety, ethical treatment of living organisms, classroom management, science, society, and technology issues, as well as professional and legal obligations of science teaching. Clinical experience: 5 hrs. Prerequisites: EDT 321, 425. Corequisites: EDT 474, and EDT Methods. 3 sem. hrs.

EDT 429. SOCIAL STUDIES FOR MIDDLE CHILDHOOD: This course is designed to familiarize the pre-service teacher with a variety of techniques used to teach social studies/citizenship education in the middle level classroom. A variety of objectives from the Ohio Model curriculum will be modeled, instructional activities will be demonstrated and critical reflection will be expected. Clinical experience: 5 hrs. Prerequisites: EDT 321, 425. Corequisites: EDT 474, and EDT Methods. 3 sem. hrs.

EDT 431. INTEGRATED LANGUAGE ARTS METHODS AYA: Planning, diagnosis, instructional methods, materials, and evaluation techniques for teaching English and communication to students with varied needs and abilities in grades 7-12. Field and clinical experience required. First term. Prerequisite: EDT 208. 4 sem. hrs.

EDT 432. MATH METHODS FOR AYA: Planning, diagnosis, instructional methods, materials, assessment, and evaluation techniques for teaching all levels of mathematics
EDT to students in grades 7-12 with varied needs and abilities. Topics include: understanding and use of the Ohio Model Curriculum for grades 7-12, applications and instructional techniques that address the Ohio proficiency testing, various resources, technologies, manipulatives, and other visuals, interdisciplinary connections, various grouping techniques, current research. Field and clinical experience required. First term. Prerequisite: EDT 208.

EDT 433. FOREIGN LANGUAGE METHODS: Planning, diagnosis, instructional methods, materials, and evaluation techniques for teaching modern foreign languages in PK-12 schools to students with varied needs and abilities. Field and clinical experience required. First term. Prerequisite: EDT 208. 4 sem. hrs.

EDT 434. SCIENCE METHODS FOR AYA: Planning, diagnosis, instructional methods, materials, and evaluation techniques for teaching the biological and physical sciences to students with varied needs and abilities in grades 7-12. Field and clinical experience required. First term. Prerequisite: EDT 208. 4 sem. hrs.

EDT 435. INTEGRATED SOCIAL STUDIES METHOD FOR AYA: Planning, diagnosis, instructional methods, materials, and evaluation techniques for teaching history, sociology, political science, psychology, and other social studies to students with varied needs and abilities in grades 7-12. Field and clinical experience required. First term. Prerequisite: EDT 208. 4 sem. hrs.

EDT 443. CURRICULUM: MILD/MODERATE: Curriculum for development of motor, cognitive, academic, social, language, affective, functional, life skills and individual programming for students with mild/moderate disabilities. Field/clinical experience. Prerequisite: EDT 343. Corequisites: EDT 442, 444. 2 sem. hrs.

EDT 444. INSTRUCTIONAL STRATEGIES: MILD/MODERATE: Strategies, materials, and evaluation techniques for teaching students with mild/moderate learning problems. Field experience. Prerequisite: EDT 442, 443. 3 sem. hrs.

EDT 445. APPLICATION OF COMPUTERS/TECHNOLOGY IN SPECIAL EDUCATION: Basic computer application to special education, including instructional programs, software evaluation, telecommunications, multimedia and hypermedia in special education, assistive technology, augmentative devices, resources, and legal/ethical issues. Clinical experiences. Prerequisites: EDT 209, 341, 343. 2 sem. hrs.

EDT 446. CAREER EDUCATION/SPECIAL EDUCATION: Theory and techniques of job classification, assessment, selection, placement, and activities related to work experience from pre-school to adult. Clinical Experiences. Prerequisite: EDT 343. 2 sem. hrs.

EDT 447. INSTRUCTIONAL STRATEGIES: MODERATE: Strategies for teaching and managing behaviors of students with moderate disabilities. 2 sem. hrs.

EDT 450. PHONICS, SPELLING, AND VOCABULARY: This course provides the background knowledge necessary for effectively teaching and assessing the role of phonics in
the reading process. Emphasis is on developing phonemic awareness, phonics, spelling, and word recognition/word meaning embedded in the context of a total reading/language arts program focused on meaning construction. No field hours. Corequisites (EMS, EMM): EDT 350, 352; (ECE): EDT 451.

EDT 451. READING/LANGUAGE ARTS METHODS (K-PRIMARY): This course will explore developmentally appropriate ways to teach reading/language arts to young children while recognizing diverse learning styles and special learning needs. Topics include: planning, instructional methods, materials, assessment and evaluation techniques. Students will also learn how to construct environments that support and value child-activated literacy experiences. Field Experience: with 412. Prerequisite (ECE): EDT 350. Corequisite (ECE): EDT 450.

3 sem. hrs.

EDT 452. CRITICAL READING IN THE CONTENT AREAS: Exploration of strategies and techniques in the development of prior knowledge skills, study skills, vocabulary, technology, and assessment as they relate to critical reading and writing abilities in a variety of curriculum areas. Field experience: (24 hrs). Prerequisites (EMS, EMM): EDT 350, 352, 450; (ECE): EDT 450, 451.

3 sem. hrs.

EDT 465. DISCIPLINE SKILLS IN THE CLASSROOM: Study of selected theories and strategies to improve student behavior for academic success. Weekly seminar. 2-3 sem. hrs.

EDT 471. STUDENT TEACHING—LANGUAGES PK-12: Full-time supervised and evaluated teaching of foreign languages in PK-12 classes. Student is to demonstrate the knowledge, skills, attitudes, and values required of a beginning foreign language teacher after completion of a 65-hr. on-site clinical experience. Weekly seminar. Prerequisites: formal admission to student teaching a full semester in advance; EDT 433. 12 sem. hrs.

EDT 472. STUDENT TEACHING KINDERGARTEN: Full time supervised student teaching in a Kindergarten classroom. The students will demonstrate the ECE program competencies established by NAEC, ODE and NCATE. Prerequisite: formal admission to student teaching.

7 sem. hrs.

EDT 473. STUDENT TEACHING IN THE PRIMARY GRADES: The student teaching experience is a full-time, evaluated experience in an primary setting. Prerequisite: formal admission to student teaching.

7 sem. hrs.

EDT 474. STUDENT TEACHING—MIDDLE CHILDHOOD: Full-time student teaching of at least 10 weeks with the semester in grades 4-9 in at least one of the two concentration subjects. This field experience will be supervised and evaluated by a qualified teacher and a university supervisor. Prerequisites: Formal admission to student teaching a full semester in advance; methods courses.

11 sem. hrs.

EDT 475. STUDENT TEACHING AYA: Full-time supervised and evaluated teaching in the content area in a junior or senior high school classroom. Student is to demonstrate the knowledge, skills, attitudes, and values required of a beginning secondary teacher after completion of a 65-hr. on-site clinical experience. Weekly seminar. Prerequisites: formal admission to student teaching a full semester in advance; methods course.

12 sem. hrs.

EDT 476. STUDENT TEACHING:MILD/MODERATE: Full-time supervised and evaluated teaching with students demonstrating mild/moderate learning problems. Prerequisites: EDT 343, 342, 344, 442, 443, 445, 446.

12 sem. hrs.

EDT 477. STUDENT TEACHING—ART PK-12: Full-time supervised and evaluated teaching in art classes in elementary schools (P-12). Student is to demonstrate the knowledge, skills, attitudes, and values required of a beginning teacher after completion
of a 65-hr. on-site clinical experience. Weekly seminars. Prerequisites: formal admission to student teaching a full semester in advance; methods course.  

12 sem. hrs.

EDT 479. STUDENT TEACHING—MUSIC PK-12: Full-time supervised and evaluated teaching in music classes in schools (P-12). Student is to demonstrate the knowledge, skills, attitudes, and values required of a beginning music teacher after completion of a 65-hr. on-site clinical experience. Weekly seminar. Prerequisites: formal admission to student teaching a full semester in advance; methods courses.

12 sem. hrs.

EDI 498. HONORS THESIS: Selection design, investigation, and completion of an independent, original research thesis under guidance of a faculty research director. Restricted to students in the University Honors Program with permission of the program director.

3 sem. hrs.

*General Education course. See Chapter V.
The School of Engineering has as its purpose the preparation of men and women for professional careers in engineering and in technology so that they may assume responsible positions of a technical nature in business, industry, education, and government. Of primary concern is the development of professional competencies and philosophies within the various engineering and technology disciplines, as well as providing a broad view of the technical and social problems that confront society. Additionally, all school of Engineering programs provide excellent background for other career areas.

As an educational unit of a private university, the School of Engineering strongly emphasizes the advising of students so that they may achieve their educational objectives within the engineering program. Each student is assigned a faculty advisor. Academic advising begins before the students begin their formal course work and continues as they progress toward their objectives.

The broader responsibilities of the engineering profession demand that the professional education of an engineer include a significant component of humanities, ethics, and social science studies so that the student will become aware of the urgent problems of society and develop a deeper appreciation of the cultural achievements of humanity. Additionally, such studies provide the proper framework to insure that scientific discoveries and developments by engineers may result in the true advancement of the human race. The engineering programs are described beginning on page 369, and the engineering technology programs are described beginning on pages 394.

OPTIONAL COOPERATIVE EDUCATION

Cooperative education offers the student the opportunity to put classroom work into practical use while still in school, resulting in early career identification and greater motivation as well as providing a source of funds. All students majoring in engineering and engineering technology may participate in the cooperative education program. To be eligible, they must have completed three semesters and have a cumulative grade-point average of not less than 2.3. Those applying for the program will be accepted on the basis of grade-point average, motivation, and attitude. The number of students placed depends on the availability of jobs. See also Chapter X.

UNDERGRADUATE ENGINEERING PROGRAMS

The engineering program in each of the fields of chemical, civil, computer, electrical, and mechanical engineering is designed to lead to a bachelor’s degree in a four-year period. While students pursue curricula they themselves have chosen according to their fields of interest, they all take certain core courses in mathematics, chemistry, physics, English, and engineering fundamentals. All of the programs
permit additional specialization (as an overload) in 16 minors and in two concentrations in areas such as aerospace engineering, computer engineering, engineering mechanics, computer systems, structures, and industrial engineering in the School of Engineering and in other areas such as music, languages, and political science in other units of the University. Although emphasis is on fundamental theories, continued attention is paid to the solution of practical problems which the student will encounter in the practice of engineering.

The programs in chemical engineering, civil engineering, electrical engineering, and mechanical engineering are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology.

The programs in electronic, industrial, manufacturing, and mechanical engineering technology are accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology.

TRANSFER STUDENTS

The engineering programs welcome transfer students from both community and senior colleges and work closely with many schools to facilitate transfers from pre-engineering programs. Students may complete the first two years of study in other accredited institutions and transfer to the University of Dayton with little or no loss of credit provided that they have followed programs similar to those prescribed by the University of Dayton School of Engineering.

The School of Engineering has dual degree arrangements with Wilberforce University and the College of Mount St. Joseph (Ohio) as well as curriculum agreements with Sinclair Community College and Edison State Community College.

MINORS IN ENGINEERING

The student majoring in chemical, civil, computer, electrical, or mechanical engineering may choose a minor area of technical study. The minors program in the School of Engineering provides an opportunity to specialize in a particular technical sub-area while still pursuing a major program of study in one of the traditional and well recognized engineering disciplines. The minors program was designed in response to the needs of industry and government and to the educational needs and career objectives of students. Election of the minor is optional; it may require additional courses for completion.

The minor is defined as at least 12 semester hours of work. It can be composed of any number of 1- to 4-semester-hour courses selected from the approved list of minor areas of study, which currently include the following:

- Aerospace Engineering
- Bio-Engineering
- Chemical Processing
- Computer Systems
- Design and Manufacturing Engineering
- Dynamic Analysis of Mechanical Systems
- Energy Conversion
- Engineering Management
- Engineering Mechanics
- Environmental Engineering
- Materials Engineering
- Mechanics of Engineering Systems
- Signals and Systems
- Structures
- Thermal Engineering
- Water Resources Engineering

1Although the absence of a bio-engineering supporting department or departmental specialty curriculum prevents the offering of a bio-engineering minor, the courses constitute a preparation for bio-engineering graduate work. "Bio-Engineering preparation" will appear on the student’s transcript.
A 12-semester-hour concentration in computer engineering is available to electrical engineering undergraduates. An 18-semester-hour concentration in aerospace engineering is also available to mechanical engineering students. Additional minors from outside the School of Engineering are available in many subject areas.

Students, in consultation with their faculty advisors, normally select the minor or concentration in the second semester of their sophomore year. The minor or concentration is designated on the student’s transcript.

ENGINEERING FIRST-YEAR REQUIREMENTS

Students who are recent high school graduates or who have earned fewer than 15 semester hours of collegiate credit are classified as first-year students and must meet the common engineering program requirements as detailed below. Such credit requirements may be met in a number of ways, including (1) advanced college-level course work at the University of Dayton or other collegiate institutions, (2) advanced placement examinations, (3) departmental examinations during the first term, or (4) taking the prescribed courses as part of the first year.

Total first-year requirements 31-35

¹Chemical, mechanical, and civil engineering students are not required to take any programming course in the first-year. Computer engineering students must take CPS 150 in the second semester; electrical engineering students must take CPS 130 in the second semester; mechanical engineering students take MEE 104L in the second semester of the first year.

²Chemical engineering students must take CHM 124 and CHM 124L in the second semester and postpone one of the three Humanities Base courses until the third semester.

³Computer engineering students postpone this requirement until the third semester.

⁴Chemical, civil, and mechanical engineering students must take CHM 123L; Computer Engineering students postpone this requirement until the third semester and take PHY 210L; and electrical engineering students may take either CHM 123L or PHY 210L.

⁵Chemical and civil engineering majors take CMM the second semester. Electrical, computer and mechanical engineering majors postpone this requirement.

365
DEGREE REQUIREMENTS

A student enrolls in the curriculum prescribed for the academic year in which he or she is registered as a first-year student at the University of Dayton or elsewhere. If for any reason it is necessary or desirable to change to a subsequently established curriculum, the student must meet all of the requirements of the new curriculum.

The degrees Bachelor of Chemical, Civil, Electrical, or Mechanical Engineering, Bachelor of Science in Computer Engineering, and Bachelor of Science in Engineering Technology are conferred at commencement if the general requirements of Chapter V have been fulfilled as well as those listed below:

1. All prescribed courses outlined in the respective curricula must have been passed with grades of D or better and the student must obtain a minimum grade point average of 2.000 for the prescribed courses. Although courses may be scheduled in terms other than as listed, all prerequisites and corequisites must be met.

2. All students in the School of Engineering must register under Grade Option 1 for all courses in engineering, mathematics, and science except those offered only under Grade Option 2.

3. The cumulative grade-point average in all courses which have an engineering prefix must be at least 2.0 (C average).

4. The student must have attended the School of Engineering at the University of Dayton during their senior year, carrying at least 30 semester hours.

The semester hours of credit required for graduation in each engineering curriculum administered by the School of Engineering are as follows:

Bachelor of Chemical Engineering .................................................. 136
Bachelor of Civil Engineering ..................................................... 138
Bachelor of Electrical Engineering .............................................. 133
Bachelor of Mechanical Engineering ........................................... 131
Bachelor of Science in Computer Engineering .............................. 130

The semester hours of credit required for graduation in each engineering technology curriculum administered by the School of Engineering are as follows:

Bachelor of Science in Engineering Technology
  Computer Engineering Technology Major .................................. 130
  Electronic Engineering Technology Major ................................ 129
  Industrial Engineering Technology Major ................................. 129
  Manufacturing Engineering Technology Major .......................... 129
  Mechanical Engineering Technology Major .............................. 129
The School of Engineering offers a combined 5-year program leading to both a bachelor’s degree in a departmental major (chemical, civil, computer, electrical, or mechanical engineering) and a master’s degree. Physics majors (College of Arts and Sciences) may also participate. The program is designed for the qualified student who wishes to pursue either greater specialization in a major area or to complement the undergraduate program with a related graduate-level concentration. Most students who select the program have received some advanced placement upon entry to engineering at the first-year level or take occasional summer courses.

The formal request for entrance into this program is made before the first semester of the student’s junior year. Admission requirements include a minimum cumulative grade point average of 3.00 and permission from the chairperson of the department corresponding to the student’s undergraduate major. Selection of the graduate (master’s) program area is indicated below:

The department chairperson and the graduate program director serve as an advisory committee to the student in establishing the 5-year combined program requirements. The first-year, sophomore, and junior years follow the curriculum of the student’s selected bachelor’s program. The guideline curriculum requirements for the 4th and 5th years are given below.
A student who elects the 5-year combined program must satisfy both undergraduate and graduate degree requirements as to required cumulative grade point average for graduation. The graduate of the combined program will receive a bachelor’s degree in the undergraduate major (e.g., Bachelor of Mechanical Engineering) and a master’s degree in the graduate area (e.g., Master of Science in Materials Engineering). A student in the 5-year combined program who chooses not to complete the program must complete all the undergraduate major program requirements to receive the bachelor’s degree.

CHEMICAL ENGINEERING (CME)

Chemical engineering applies the principles of the physical sciences, economics, and human relations to research, design, build, and supervise facilities that convert raw materials into useful products and services.

The majority of chemical engineers are involved in the chemical process industries that produce many of the materials and items needed in everyday life. These include medicine, food, fertilizers, plastics, synthetic fibers, petroleum, petrochemicals, ceramics, and pulp and paper products. A chemical engineer may pursue a professional career in many other fields, such as energy conversion, pollution control, medical research, and materials development in aerospace and electronic industries. Chemical engineers are employed in research, development, design, production, sales, consulting, and management positions. They are also found in government and education. Many use a chemical engineering education as a stepping stone to law, medicine, or corporate management.

The curriculum in chemical engineering serves as basic training for positions in these diverse areas of the manufacturing industry or for graduate study leading to advanced degrees. The first part of the chemical engineering curriculum provides a firm foundation in mathematics, physics, and chemistry. The chemistry background is stressed. The second part of the curriculum offers a balance between classroom and laboratory experience in stressing chemical engineering topics such as transport phenomena, thermodynamics, kinetics and reactor design, separation processes, fluid flow and heat transfer operations, process control, and process design. The development of design tools, communication, and interpersonal skills is integrated throughout the curriculum. The curriculum allows concentrations in emerging technologies such as environmental engineering and materials engineering. Those interested in pursuing careers in medicine or biochemical engineering should consult the department chairperson.

\(^1\) Courses are subject to change. Consult the department chairperson for current course offerings.

\(^2\) Hours indicated are for a 3-credit course.

\(^3\) Sophomore Year courses are offered in both terms.

\(^4\) General Education requirements include courses in English Composition, Communications, History, and Humanities.

\(^5\) Physical Chemistry Elective is required for students pursuing a career in environmental engineering.

\(^6\) Technical Elective is required for students pursuing a career in materials engineering.
CME 406 Chemical Reaction Kinetics and Engineering 3-0-3
CME 408 Chemical Engineering Seminar 1-0-0 1-0-0
CME 465 Flow and Heat Transfer Processes 3-0-3
CME 466L Chemical Engineering Operations Laboratory 0-5-2
CME 430-431 Chemical Engineering Design I, II 3-0-3 3-0-3
CME 452 Process Control 3-0-3
CME 453L Process Control Laboratory 0-5-2
— — Chemical Engineering Elective 3-0-3
— — Technical Elective 3-0-3
— — General Education requirements 3-0-3 6-0-6

All engineering, mathematics and science courses must be taken for grading option 1.
For example: 3-0-3 means 3 class hrs., 0 lab. hrs., 3 sem. hrs. credit.
Select from list of approved engineering courses.
See General Education Requirements, Chapter V. Some General Education requirements are specified in the program; others are to be chosen from the listing of approved courses. Consult advisor.
Select from CHM 303 and 303L or CHM 304 and 304L.
Select courses from list approved by the Department of Chemical and Materials Engineering.

FACULTY

Tony E. Saliba, Chairperson, Department of Chemical and Materials Engineering
Professors Emeriti: Lu, Snidle
Professors: Eylon, Flach, Lee, Myers, T. Saliba, Sandhu
Associate Professor: Ciric
Assistant Professor: Wilkens

COURSES OF INSTRUCTION

CME 101. INTRODUCTION TO CHEMICAL ENGINEERING: Introduction to the chemical engineering faculty, facilities, and curriculum; survey of career opportunities in chemical engineering. Introduction to the University first-year experience. 1 sem. hr.

CME 203. MATERIAL AND ENERGY BALANCES: Introductory course on the application of mass and energy conservation laws to solve problems typically encountered in chemical process industries. Prerequisites: CHM 123, MTH 168. 3 sem. hrs.

CME 204. EXPERIMENTAL METHODS IN CHEMICAL ENGINEERING: Introduction to experimental methods, instrumentation, digital data acquisition, data analysis, and report writing. Use of digital computer is emphasized. Prerequisites: CME 203; CHM 124L, EGR 101. 3 sem. hrs.

CME 311. CHEMICAL ENGINEERING THERMODYNAMICS: Development of the fundamental principles of thermodynamics, particularly with respect to chemical engineering processes. Prerequisites: CME 203, MTH 218. 4 sem. hrs.

CME 324. TRANSPORT PHENOMENA I: Viscosity, shell momentum balances, isothermal equations of change, thermal conductivity, shell energy balances, non-isothermal equations of change, diffusivity, concentration profiles. Prerequisites: CME 203; MTH 219. Corequisite: CME 381. 3 sem. hrs.
CME 325. TRANSPORT PHENOMENA II: Multidimensional transport, dimensionless parameters, turbulence, and numerical solution methods. Prerequisites: CME 324, 381. 3 sem. hrs.

CME 326L. TRANSPORT PHENOMENA LABORATORY: Viscosity, conductivity, diffusion coefficient measurements, velocity, temperature, concentration profiles, engineering instrumentation, and experimental error analysis. Prerequisite: CME 324. Corequisite: CME 325. 1 sem. hr.

CME 365. SEPARATION TECHNIQUES: Distillation, evaporation, extraction, adsorption, drying, and filtration. Prerequisites: CME 311, 324. 3 sem. hrs.

CME 381. ADVANCED MATHEMATICS FOR CHEMICAL ENGINEERS: Study of analytical and numerical techniques to support upper-level chemical engineering classes. Vector analysis, matrices, differential equations, numerical integration and differentiation, root finding, and curve fitting. Prerequisites: MTH 219, CME 204. 3 sem. hrs.

CME 406. CHEMICAL REACTION KINETICS AND ENGINEERING: Chemical kinetics, ideal reactor analysis and design, and heterogeneous catalysis. First term, each year. Prerequisite: CME 311. 3 sem. hrs.

CME 408. SEMINAR: Presentation of lectures on contemporary chemical engineering subjects by students, faculty, and engineers in active practice. Registration required of senior students only. 0-1 sem. hrs.

CME 409. INTRODUCTION TO POLYMER ENGINEERING: Introduction to the chemistry, structure, and properties of polymers; polymer synthesis and processing. Prerequisites: CME 311, CHM 314. 3 sem. hrs.

CME 430. CHEMICAL ENGINEERING DESIGN I: Study of the principles of process development, plant design, and economics. First term, each year. Prerequisite: CME 203. 3 sem. hrs.

CME 431. CHEMICAL ENGINEERING DESIGN II: Application of the principles of process development, plant design, and economics. Second term, each year. Prerequisites: CME 430, 406, 465, 365. 3 sem. hrs.

CME 452. PROCESS CONTROL: Mathematical models, Laplace transform techniques, and process dynamics. Feedback control systems, hardware, and instrumentation. Introduction to frequency response, advanced techniques, and digital control systems. First term, each year. Prerequisite: CME 381. 3 sem. hrs.

CME 453L. PROCESS CONTROL LABORATORY: Project-oriented study of process dynamics and control using computer-based data acquisition and control systems. Second term, each year. Prerequisites: CME 466L, 452. 2 sem. hrs.

CME 465. FLUID FLOW AND HEAT TRANSFER PROCESSES: Fluid mechanics, transportation and metering of fluids, agitation and mixing, heat transfer and its applications. First term, each year. Prerequisites: CME 311, 324. 3 sem. hrs.

CME 490. INTRODUCTION TO BIOENGINEERING I: Overview of Biomedical Engineering, Transport Phenomena in Physiological Systems, Kinetic and Reactor Modeling for Physiological Systems. Overview of Biochemical Engineering, Bioreactors, Bioseparation Processes. First term, each year. Prerequisites: CHM 420 or 451, CME 325 and 365. Corequisite: CME 406 or consent of instructor. 3 sem. hrs.

CME 499. SPECIAL PROBLEMS IN CHEMICAL ENGINEERING: Particular assignments to be arranged and approved by chairperson of the department. 1-6 sem. hrs.
The Department of Civil and Environmental Engineering and Engineering Mechanics offers a Bachelor of Civil Engineering with sufficient elective courses to obtain a concentration in construction, environmental engineering, structures, water resources, or other related areas such as geotechnical and transportation. The mission is to graduate broadly educated, technically competent individuals prepared for professional careers or for advanced studies.

Civil engineering is the profession in which a knowledge of the mathematical and physical sciences gained by study, experience, and practice is applied with judgment to develop ways to utilize the materials and forces of nature economically in improving and protecting the environment and providing structures and facilities for community, industry, and transportation for the progressive well-being of humanity.

Civil engineers, leading users of high technology in wide-ranging applications in both the public and the private sectors, are essential to the continued improvement of society. Civil engineers can enter traditional fields such as construction, bridge and building design and analysis, highway design and traffic control, water treatment and distribution, environmental engineering, hydraulics, and geotechnics. Their broad education however, also prepares them for materials engineering, engineering management, and the aerospace and automotive industries. Civil engineering has applications in conceptual and detail design, field operations, computers, and consulting.

The educational objectives of the Civil Engineering Program are:

- Provide an educational experience that offers graduates a high level of professional competence
- Provide an environment conducive to scholarship and critical thinking
- Provide opportunities for the development of leadership and team-building skills
- Develop problem-solving and decision making competence
- Promote contemporary and practice-oriented methods for solving engineering problems
- Integrate opportunities to develop communication and interpersonal skills throughout the curriculum
- Provide integration of experimental analysis and design as related to civil engineering
- Promote multidisciplinary and interdisciplinary concepts
- Promote awareness of professional ethics, social impacts and contemporary practice issues
- Promote a commitment to service and life-long learning.

Before enrolling in any engineering course required by the Civil Engineering Program, a grade of C or better must be earned in all of the prerequisites courses for students majoring in civil engineering. Also, courses designated CEE or EGM may be repeated only once by students majoring in civil engineering.

Members of the student chapters of the American Society of Civil Engineers, Chi Epsilon, Institute of Transportation Engineers, and National Society of Professional Engineers have the opportunity to meet regularly with practicing engineers in the Dayton community.

1For example, 3-0-3 means 3 class hrs., 0 lab. hrs., 3 sem. hrs. credit.
2See General Education Requirements, Chapter V. Some General Education requirements are specified in the program (e.g., GEO 218); others are to be chosen from the listing of approved courses. Consult advisor.
3Select from list approved by the Department of Civil and Environmental Engineering and Mechanics.
4May be used to concentrate studies in the areas of Environmental, Construction, Structures, Soils, Transportation, and Water Resources Engineering.
5Admittance into CEE 450 requires successful completion of all required engineering courses with an average academic unit GPA of no less than 2.0, or the approval of the chair.
School of Engineering

FACULTY

Joseph E. Saliba, Chairperson
Professors Emeriti: Payne, Thomson
Distinguished Service Professor: Ryckman
Professors: Bogner, Phillips, J. Saliba, Whitney
Associate Professors: Safferman, Zoghi
Assistant Professors: Farhey, Chowdhury
Lecturers: Al-Akkad, Chase
Adjunct Assistant Professors: Donaldson, McCrate, Sack

COURSES OF INSTRUCTION

CEE 101. INTRODUCTION TO CIVIL ENGINEERING: Introduction to the civil engineering faculty, facilities, and curriculum; to the career opportunities offered by the civil engineering profession; and to the areas of specialization within civil engineering.

CEE 214. HIGHWAY GEOMETRICS: Study of circular and spiral curves, vertical curves, grade lines, earthwork and mass diagram, slope and grade stakes, and contour grading. Second term, each year. Prerequisite: CEE 213.

CEE 215L. SURVEYING FIELD PRACTICE: Field work and computation in topography, highway surveying, triangulation, level net, celestial observations, evaluation of errors, and preparation of plans. Five eight-hour days a week for three weeks. Summer, each year. Prerequisite: CEE 214.

CEE 221L. CIVIL COMPUTATION LABORATORY: Introduction to commonly-used software in the civil engineering profession. Emphasis on the use of spreadsheets to solve civil engineering problems. Introduction to computer aided drawing and design and the use of popular CADD packages in the civil engineering profession. Corequisite: EGM 201.

CEE 304. ADVANCED STRENGTH OF MATERIALS: Stresses and strains at a point; shear center, unsymmetrical bending; curved beams; flat plates; torsion of noncircular bars; beams on elastic support; buckling; introduction to mechanics of composite materials. First and second terms each year. Prerequisite: EGM 303.

CEE 310L. CIVIL ENGINEERING LABORATORY: Experiments and studies relating the engineering properties of certain building materials to their fundamental nature and composition. Second term, each year. Prerequisite: EGM 303.

CEE 312. SOIL MECHANICS: Principles of soil structures, classification, capillarity, permeability, flow nets, shear strength, consolidation, stress analysis, slope stability, lateral pressure, bearing capacity, and piles. Second term, each year. Prerequisites: CEE 313, EGM 303, GEO 218. Corequisite: CEE 312L.
CEE 312L. SOIL MECHANICS LABORATORY: Laboratory tests to evaluate and identify soil properties for engineering purposes. Design problems are also included. Second term, each year. Corequisite: CEE 312. 1 sem. hr.

CEE 313L. HYDRAULICS LABORATORY: Laboratory experiments and problems associated with CEE 313. First term, each year. Corequisite: CEE 313. 1 sem. hr.

CEE 318. ANALYSIS OF STRUCTURES: Modern and traditional methods for analyzing truss, beam, and frame structures. Modern matrix and computer methods emphasized to prepare students to solve comprehensive civil engineering structures. Topics include: element stiffness matrices and load vectors, assembly of global stiffness and load, construction of structural models, interpretation of computer results. Traditional hand-solution methods emphasized also to provide students with reliable methods for verifying the accuracy of computer model predictions. Topics include: shear and bending moment diagrams, influence lines, virtual work, slope deflection, moment distribution. First term each year. Prerequisite: EGM 303. 3 sem. hrs.

CEE 320. CIVIL ENGINEERING ANALYSIS: Mathematical modeling and numerical solution of civil engineering problems: basic concepts of probability and statistics with emphasis on applications to structures, transportation, and hydraulics problems; application of numerical computational methods in civil engineering problems. First term, each year. Prerequisites: EGM 202, 303; MTH 219. 3 sem. hrs.

CEE 320L. CIVIL ENGINEERING ANALYSIS LAB: Development and use of customized software applications that utilize numerical concepts presented in CEE 320 to solve civil engineering problems in environmental, geotechnical, structures, transportation, and water resources. Emphasis on the use of popular application development environments. Corequisite: CEE 320. 1 sem. hr.

CEE 333. WATER RESOURCES ENGINEERING: Integrated study of the principles of water movement and management. Focus areas include hydrology, water distribution, waste water collection and storm water management. Second term, each year. Prerequisites: CEE 313, 313L. 3 sem. hrs.

CEE 390. ENVIRONMENTAL POLLUTION CONTROL: Study of environmental pollution problems relating to air, water, and land resources. Causes and effects of pollution; technologies for solving problems. Legal and political considerations. For juniors and seniors other than civil engineering students. Credit may not be applied toward civil engineering degree. Prerequisite: Some knowledge of chemistry. 3 sem. hrs.

CEE 403. TRANSPORTATION ENGINEERING: Fundamentals of transportation engineering, including design, construction, maintenance, and economics of transportation facilities. Design of pavement structures and drainage systems. Prerequisites: CEE 310L, 313. Corequisite: CEE 420. 3 sem. hrs.

CEE 408. SEMINAR: Practice in the presentation and discussion of papers; lectures by staff and prominent engineers. Attendance required of all civil engineering sophomores, juniors, and seniors. No credit.
CEE 411. DESIGN OF STEEL STRUCTURES: Design and behavior of structural steel connections, columns, beams, and beams subjected to tension, compression, bending, shear, torsion, and composite action. Prerequisites: CEE 310L, 318. 

CEE 412. DESIGN OF CONCRETE STRUCTURES: Design and behavior of reinforced concrete slabs, beams, columns, walls, and footings subjected to tension, compression, bending, shear, and torsion. Prerequisites: CEE 310L, 318.

CEE 420. ENGINEERING ECONOMICS: Basic principles and techniques of economic analysis of engineering projects. Prerequisite: MTH 169.

CEE 421. CONSTRUCTION ENGINEERING: Organization, planning, and control of construction projects, including a study of the use of machinery, economics of equipment, methods, materials, estimates, cost controls, and fundamentals of CPM and PERT contracts and bonds and legal aspects of contracting. Departmental elective. Corequisite: CEE 403.

CEE 422. DESIGN AND CONSTRUCTION PROJECT MANAGEMENT: Fundamentals of project management as they relate to the design and construction professional, and the application of project management techniques to the design and construction of major projects. Prerequisite: CEE 421.

CEE 434. WATER & WASTEWATER ENGINEERING: Problems of water pollution; development and design of public water supply and waste water disposal systems; legal, political, ethical, and moral considerations. First term, each year. Prerequisite: CHM 124.

CEE 434L. WATER & WASTEWATER ENGINEERING LABORATORY: Laboratory exercises, demonstrations, and design problems associated with water and wastewater engineering. Corequisite: CEE 434.

CEE 441. INTRODUCTION TO HYDROLOGY: Detailed study of the hydrologic cycle including precipitation, precipitation losses, and rainfall/runoff processes. Concepts relating to streamflow, urban drainage, river and reservoir routing, hydrologic measurement, subsurface flow, and water quality are also addressed. Unit hydrograph theory, watershed modeling, and analysis and design of drainage structures. Prerequisites: CEE 312, 313.

CEE 450. CIVIL ENGINEERING DESIGN: Group design of complete projects, drawing on the knowledge acquired in a spectrum of civil engineering subjects.

CEE 463. HAZARDOUS WASTE ENGINEERING: The fundamental principles of the design and operation of hazardous waste remediation processes. Characterizing contaminated sites and conducting treatability studies for the selection of the most appropriate remediation strategy.

CEE 470. CIE COMPUTER APPLICATIONS: Innovative solutions to common civil engineering problems in structures and water resources through the use of personal computer applications. Prerequisite: CEE 320.

CEE 499. SPECIAL PROBLEMS IN CIVIL ENGINEERING: Particular assignments to be arranged and approved by chairperson of the department. Departmental elective.

1-6 sem. hrs.
ECE/ELE, CPE

ELECTRICAL & COMPUTER ENGINEERING (ECE)

The Department of Electrical and Computer Engineering offers two undergraduate programs leading to Bachelor of Electrical Engineering and Bachelor of Science in Computer Engineering. The Bachelor of Electrical Engineering degree program also allows the opportunity to take sufficient elective courses to obtain a concentration in computer engineering or enhanced knowledge in several specific areas. The department offers master’s and doctoral degrees in electrical engineering and is closely coupled to the graduate program in electro-optics where both master’s and doctoral degrees are offered.

Electrical engineering is an exciting field within the engineering discipline. It offers the opportunity to enter some of the most rewarding and challenging careers available. The explosion of capabilities in the computer, communication, automotive, and aerospace industries has resulted from advances in the electronics field. Electrical engineers are equipped to enter this dynamic arena as well as equally challenging and rewarding careers in the fields of electro-optics, computer engineering, signal processing, biomedicine and many more. Electrical engineers work in all phases of technological programs. They are involved from the conception of the basic ideas through design, fabrication, verification, manufacturing, and marketing of the final product.

Computer engineering represents perhaps the most sought-after professional component of an engineering team which develops the technological possibilities inherent in the design, construction, and operation of computer systems. The computer engineer performs a wide variety of tasks involving hardware, software, peripherals, computer-controlled systems, and hardware-software integration.

Both electrical engineering and computer engineering are broad-based engineering disciplines that provide for a wide range of career choices within the engineering field as well as providing an excellent basis for careers in such diverse areas as business, law, and medicine.

The electrical engineering curriculum is designed to provide an understanding of basic electrical engineering principles with emphasis on the development of problem solving skills. An extensive laboratory experience is integrated with the classroom work to assure that the student develops a working knowledge of the fundamentals. Upper level courses integrate the knowledge base with current technology and computational tools resulting in a graduate capable of making a contribution to the engineering profession by either entering the work force or pursuing a graduate education.

3 Select from list approved by the Department of Electrical and Computer Engineering.

The computer engineering curriculum is designed to provide an understanding of basic computer engineering principles with emphasis on the development of problem solving skills. The software aspects of computer engineering are introduced in the first year, while hardware and hardware-software integration topics are emphasized starting in the sophomore year. An extensive hands-on laboratory experience is integrated with the classroom work to assure that the student develops a working knowledge of the fundamentals.

FACULTY

Partha P. Banerjee, Chairperson
Distinguished Service Professor: Schmidt
Professors Emeriti: Evers, Kee, Rogers, Thiele, Williamson
Professors: Chatterjee, Duncan, Moon, Pasala, Scarpino, Weber
Associate Professors: Hardie, Loomis, Penno, Smari, Subramanyam, Westerkamp
Assistant Professors: Daniels, Ordonez,
Adjunct Professors: Barnard, Berrera, El-Ali, Gauder, Mayhan, Pierson, Riechers, Repperger

COURSES OF INSTRUCTION

ECE 101. INTRODUCTION TO ELECTRICAL AND COMPUTER ENGINEERING: Introduction to electrical and computer engineering faculty, facilities, and curriculum. Career opportunities in electrical and computer engineering and areas of specialization are discussed. 1 sem. hr.

ECE 201L. CIRCUIT ANALYSIS LABORATORY: Laboratory course stressing experimental techniques, laboratory reporting, safety, and instrumentation. Experimental investigation of basic steady-state and transient circuits. Corequisite: ECE 201. 1 sem. hr.

ECE 202. SIGNALS AND SYSTEMS: Mathematical framework associated with the analysis of linear systems including signal representation by orthogonal functions, convolution, Fourier and Laplace analysis, and frequency response of circuits and systems. Prerequisites: ECE 201, MTH 218. Corequisite: ECE 202L. 4 sem. hrs.

ECE 202L. SIGNALS AND SYSTEMS LABORATORY: Laboratory investigation of signals and systems including signal decomposition, system impulse response, convolution, frequency analysis of systems, and filter design and realization. Prerequisite: ECE 201L. Corequisite: ECE 202. 1 sem. hr.

ECE 211. PROBABILITY: Study of axiomatic probability, set theory, derived probability relationships, conditional probability, statistical independence, total probability and Bayes' Theorem, and counting techniques. Prerequisite: MTH 168. 1 sem. hr.

ECE 215. INTRODUCTION TO DIGITAL SYSTEMS: Introduction to binary systems, logic circuits, Boolean algebra, simplification methods, combinational circuits and networks, programmable logic devices, flip flops, registers, counters, memory elements, and analysis and design of sequential circuits. Prerequisite: ECE 201. 3 sem. hrs.

ECE 301. ELECTRONIC DEVICES: Study of the terminal characteristics of electronic devices and basic single stage amplifier configurations using bipolar junction transistors and field-effect transistors. Analysis of the devices includes a qualitative physical description, volt-ampere curves, and the development of small- and large-signal equivalent circuit models. Prerequisites: ECE 201. Corequisite: ECE 301L. 3 sem. hrs.

ECE 301L. ELECTRONIC DEVICES LABORATORY: Laboratory investigation of electronic devices: diodes, bipolar junction transistors, field-effect transistors and operational amplifiers. Corequisite: ECE 301. 1 sem. hr.

ECE 302. ELECTRONIC SYSTEMS: Study of cascaded amplifiers, feedback amplifiers, linear integrated circuits, and oscillators including steady state analysis and analysis of frequency response. Prerequisite: ECE 202, 301. Corequisite: ECE 302L. 3 sem. hrs.

ECE 302L. ELECTRONIC SYSTEMS LABORATORY: Design, construction and verification of multistage feedback amplifiers, passive and active filters, and oscillators. Prerequisite: ECE 301L. Corequisite: ECE 302. 1 sem. hr.

ECE 314. FUNDAMENTALS OF COMPUTER ARCHITECTURE: Study of computer systems organization, representation of data and instructions, instruction set architecture, processor unit and control unit, high- to low-level language mapping, system simulation and implementation, applications and practical problems. Prerequisite: ECE 215 and either CPS 130 or 150. 3 sem. hrs.

ECE 315. RANDOM VARIABLES: Common random variables and their distribution functions, transformations of random variables, moments, computer generation of random variables, bivariate random variables, conditional distribution functions, statis-
tically independent random variables, averages of functions of two random variables, transformation of pairs of random variables, the Central Limit Theorem, and the Weak Law of Large Numbers. Prerequisites: ECE 211, MTH 218.

1 sem. hr.

ECE 316. RANDOM PROCESSES: Statistical descriptions of random processes, autocorrelation function properties, power spectral density, cross correlation and covariance, random processes through linear and nonlinear systems, white noise, linear regression, and engineering decision strategies. Prerequisites: ECE 202, 315.

1 sem. hr.

ECE 323. BASIC ELECTRONIC CIRCUITS: Analysis and design of passive and active electrical and electronic circuits using time-domain and frequency-domain methods. Includes amplifiers, switches, and other types of electronic circuits. Lectures will be reinforced with practical and computer exercises. For chemical, civil, environmental and mechanical engineering students. Prerequisites: MTH 218, PHY 207.

4 sem. hrs.

ECE 332. ELECTROMAGNETICS: Study of vector calculus, electro- and magnetostatics, Maxwell's equations, and electromagnetic plane waves and their reflection and transmission from discontinuities. Prerequisites: PHY 207, MTH 219, ECE 201.

3 sem. hrs.

ECE 333. APPLIED ELECTROMAGNETICS: Electromagnetic theory applied to problems in the areas of waveguides, radiation, electro-optics and electromagnetic interference and electromagnetic compatibility. Prerequisite: ECE 332.

3 sem. hrs.

ECE 334. DISCRETE SIGNALS AND SYSTEMS: Introduction to discrete signals and systems including sampling and reconstruction of continuous signals, digital filters, frequency analysis, the Z-transform, and the discrete Fourier transform. Prerequisites: ECE 202.

3 sem. hrs.

ECE 401. COMMUNICATION SYSTEMS: Study of amplitude, angle, pulse, and digital communication systems including generation, detection, and analysis of modulated signals and power, bandwidth, and noise considerations. Prerequisites: ECE 316, 302. Corequisite: ECE 401L.

3 sem. hrs.

ECE 401L. COMMUNICATION SYSTEMS LABORATORY: Design, fabrication, and laboratory investigation of modulators, detectors, filters, and associated communication components and systems. Prerequisite: ECE 302L. Corequisite: ECE 401. 3 sem. hrs.

ECE 414. ELECTRO-MECHANICAL DEVICES: Properties and theory of electro-mechanical devices: nonlinear electromagnetic actuators; rotating machine analysis; field and circuit concepts; rotating fields; direct current, synchronous, and induction machines; special-purpose machines; and fractional horsepower machines. Prerequisites: ECE 202, 332.

3 sem. hrs.

ECE 415. CONTROL SYSTEMS: Study of mathematical models for feedback control systems. Performance and stability analysis. Design topics include pole-placement, root locus, and frequency domain design techniques. Prerequisite: ECE 202.

3 sem. hrs.

ECE 440. PHYSICAL ELECTRONICS: Introduction to wave mechanics, electron ballistics, theory of metals and semiconductors, electron emission, space charge flow, and modern electron devices. Prerequisites: MTH 219, PHY 203.

3 sem. hrs.

ECE 441. INTEGRATED CIRCUIT ELECTRONICS: Integrated circuit design, construction and verification including the study of biasing, multistage differential and analog power amplification, and computer assisted design tools for "on-chip" design and layout. Prerequisite: ECE 302.

3 sem. hrs.
ECE 442. ENGINEERING ELECTROMAGNETICS: Processing Maxwell's equations and applying the predictions to the analysis and design of engineering systems that make use of electromagnetic energy from ELF through optical frequencies. Topics include propagation, radiation, interactions with matter, guided waves, and antenna fundamentals. Prerequisite: ECE 333.  
3 sem. hrs.

ECE 443. INTRODUCTION TO ELECTRO-OPTICS: Introductory overview of electrooptics starting with Maxwell's equations and leading to lasers, holography, and other timely applications. Prerequisite: ECE 332.  
3 sem. hrs.

ECE 444. ADVANCED DIGITAL DESIGN: Systems approach to digital design including: structured top-down development process using simple and complex logic modules from various logic families; practical aspects of the design, construction, and verification of digital subsystems; application of microcomputer and/or controller as a flexible logic device; real-time embedded systems design; and the use of HDL tools and simulation. Prerequisite: ECE 314.  
3 sem. hrs.

ECE 445. SIGNAL PROCESSING: Study of signal conditioning, digital signal processing, and data processing. Topics include transducers, high gain amplifier design, digital filtering, and spectrum estimation. Specialized application determined by instructor. Prerequisite: ECE 334.  
3 sem. hrs.

ECE 446. MICROELECTRONIC SYSTEMS DESIGN: Basic integrated circuit design concepts, system layout, application of design methodology, the fabrication process, manufacturing limitations of the design process, and CAD/CAE utilization to realize the design process. Prerequisite: ECE 302.  
3 sem. hrs.

ECE 447. DIGITAL CONTROL SYSTEMS: Analysis and synthesis of feedback control systems including digital compensators. Topics include performance and stability analysis, regulator and servomechanism design using time and frequency domain methods, and digital implementation case studies. Prerequisites: ECE 415, and 334 or equivalent.  
3 sem. hrs.

ECE 448. FIBER OPTIC COMMUNICATIONS: General light guidance principles; ray optics; dispersion; single mode, multimode, and graded index fibers; basic laser and LED source principles; photodetectors; error probability in digital optical systems; rise time analysis; loss budget analysis; local area networks and long haul communication links. Prerequisite: ECE 333. Corequisite: ECE 401.  
3 sem. hrs.

ECE 449. COMPUTER SYSTEMS ENGINEERING: An introduction to advanced computer architecture and computer systems design. Topics include: exploration of principle architecture features of modern computers, pipelining, memory hierarchy, I/O devices, interconnection networks, introduction to parallel and multiprocessor systems, and the use of hardware description languages (HDLs) in system implementation. Prerequisites: ECE 314 and CPS 346, or permission of instructor.  
3 sem. hrs.

ECE 450L. PROJECTS LABORATORY: Project-oriented laboratory applying engineering skills in the design, development, and demonstration of electrical and electronic systems. Prerequisite: permission of the project advisor.  
1-3 sem. hrs.

ECE 499. SPECIAL PROBLEMS IN ELECTRICAL AND COMPUTER ENGINEERING: Particular assignments to be arranged and approved by the department chairperson.  
1-6 sem. hrs.
MECHANICAL ENGINEERING (MEE)

Mechanical engineers apply the principles of the physical sciences, mathematics, economics, and human relations to conceive, design, and analyze a wide variety of products and systems. They may also direct their manufacture, distribution, and operation. Mechanical engineers can be employed in governmental organizations and a diversity of industries including automotive, aerospace, biomedical, textiles, raw materials production, and energy conversion. Job functions range from research, development, design, analysis, production, sales, consulting, and management. Many find that a mechanical engineering education is an excellent preparation for careers in law and medicine.

The curriculum in mechanical engineering serves as a broad-based education for positions in these diverse fields or for graduate study leading to advanced degrees. The first part of the mechanical engineering curriculum provides a firm foundation in mathematics, physics, chemistry, computer-aided drawing and conceptual design, and the humanities. The second part of the curriculum provides the engineering science fundamentals and laboratory experiences necessary for testing, design, as well as continued learning in the humanities, arts and social sciences. The final part of the curriculum emphasizes synthesis of knowledge through major design projects sponsored by regional industries. The curriculum includes sufficient elective courses to permit a concentration in aerospace or minors in several other areas, including digital systems and controls, design, thermal systems, and manufacturing. As well, open electives can be used to take courses in any field including language, business, and the sciences.

The overall educational experience has been designed to develop graduates who have the skills, knowledge, and ethical background to learn, lead, and serve within their profession and society. Specifically, this means that graduates will: have the ability to apply knowledge of mathematics, science, and engineering fundamentals; will have the ability to use techniques, skills and modern engineering tools necessary for engineering practice; will have the ability to design and conduct experiments, and analyze and interpret data; will have the ability to design components, systems and/or processes; will be able to independently identify, formulate and solve engineering problems; will have the ability to function effectively on engineering teams; will be able to communicate their ideas/solutions effectively to both technical and non-technical people; will have the broad education necessary to understand the social, environmental and economic impact of engineering solutions in a global context; will exhibit a commitment to ethical behavior, leadership and service within their profession; will have knowledge of and be able to think critically about contemporary issues; and will continue their personal and professional development by engaging in lifelong learning.

For example: 3-0-3 means 3 class hrs., 0 lab. hrs., 3 sem. hrs. credit.

See General Education requirements, Chapter V. Some General Education requirements are specified in the program (e.g., PHY 208); others are to be chosen from the listing of approved courses. Consult advisor.

Students opting to receive a Bachelor of Mechanical Engineering degree with an Aerospace Concentration must take MEE 401, Aerodynamics, MEE 418, Gas Dynamics, MEE 408, Aerospace Performance and Controls, MEE 413, Propulsion, and MEE 409, Aerospace Structures in place of MEE 344, the two Mechanical engineering electives, and the two open electives. Also, MEE 460 may be replaced with an approved Feedback Control course.

**FACULTY**

Kevin P. Hallinan, Chairperson

Professors Emeriti: Boehman, Chuang, Eastep, Minardi, Wurst

Professors: Ballal, Brockman, Doepker, Doyle, Eimermacher, Hallinan, Jain, Sargent, Schauer

Associate Professors: Brar, Endres, Ervin, Kashani, Kissock, Petrykowski, Zabarnick

Assistant Professors: Murray, Turner

Visiting Assistant Professor: Pinnell
Adjunct Professor: Shine
Adjunct Associate Professor: Ostdiek
Adjunct Assistant Professors: Benintendi, Cambreros, Coalson, Pratt, Price, Sanders

COURSES OF INSTRUCTION

MEE 101. INTRODUCTION TO MECHANICAL ENGINEERING: Weekly meeting of first-semester, first-year mechanical engineering students. Orientation and selected topics.

1 sem. hr.

MEE 104L. COMPUTER GRAPHICS I: Fundamentals of engineering graphics and the part that graphical communication plays in engineering. Introduction to computer aided design (CAD).

1 sem. hr.

MEE 227L. COMPUTER GRAPHICS II: Advanced engineering graphics and graphical communication in engineering; introduction to project design. Prerequisite: MEE 104L.

1 sem. hr.

3 sem. hrs.

MEE 302. THERMODYNAMICS II: Gas and two-phase heating, cooling, power cycles. Gas mixtures and air conditioning. First and second law analysis of reacting systems. Chemical equilibrium. High velocity nozzle and diffuser flow. Prerequisite: MEE 301.

3 sem. hrs.

MEE 308. FLUID MECHANICS: An introductory course in fluid mechanics. Fundamental concepts including continuity, momentum, and energy relations. Control volume analysis and differential formulations. Internal and external flows in laminar and turbulent regimes. One-dimensional compressible flows. Prerequisites: MEE 301, MTH 219.

3 sem. hrs.

4 sem. hrs.

MEE 313. ENGINEERING MATERIALS II: Ceramic, polymeric and composite materials. Electrical, magnetic, optical, and thermal properties of materials. Corrosion. Prerequisite: MEE 312.

3 sem. hrs.

3 sem. hrs.

MEE 319. MECHANICAL VIBRATIONS: Undamped and damped, free and forced vibrations of single degree of freedom translational and rotational systems; vibration

MEE 321. THEORY OF MACHINES: Applications and design of mechanisms; use of graphical and analytical techniques for the kinematic and dynamic analysis and synthesis of machines. Analysis and design of cams, gears and gear trains. Balancing of rotating masses. Prerequisite: EGM 220.

MEE 341. ENGINEERING EXPERIMENTATION: Basic sensors and instrumentation, design of experiments, data acquisition and processing, and uncertainty and statistical analysis of data. Measurement of strain, motion, pressure, temperature, flow and sound. Measurement applications to engineering phenomena or systems. Course will utilize a mix of lecture, laboratory experiments and demonstrations. Also a term project to provide design for experiment experience. Corequisites: EGM 330, MEE 308, ECE 323. 3 sem. hrs.

MEE 344. MANUFACTURING PROCESSES: Casting processes including casting defects and design of castings; metal working processes such as extrusion, forging, rolling and wire drawing; sheet metal forming; welding processes; powder metallurgy and design principles for P/M parts, metal removal processes; forming and shaping plastics and composite materials; rapid prototyping. Design principles for manufacturability. Includes laboratory. Prerequisite: MEE 312. 3 sem. hrs.

MEE 401. AERODYNAMICS: Fundamentals of steady incompressible, inviscid aero-dynamic flows over wings. Emphasis on force and moment determination for air foil and finite wings. Prerequisite: MEE 308. 3 sem. hrs.

MEE 408. AIRCRAFT PERFORMANCE AND CONTROL: Elementary development of aircraft equations of motion; performance in level flight; climbing and descending performance; turning performance, takeoff and landing performance; static and dynamic stability and control in all three axes. Prerequisites: MEE 401, EGM 220. 3 sem. hrs.

MEE 410. HEAT TRANSFER: Fundamentals of conduction, convection, and thermal radiation energy transfer. Conduction of heat in steady and unsteady state. Principles of boundary layer theory applicable to free and forced convection heat transfer for internal and external flows. Radiation analysis with and without convection and conduction. Prerequisite: MEE 308. 3 sem. hrs.

MEE 413. PROPULSION: Principles of propulsive devices, aerothermodynamics, diffuser and nozzle flow; energy transfer in turbo-machinery; turbojet, turbo-fan, prop-fan engines; turbo-prop and turboshaft engines. RAM and SCRAM jet analysis and a brief introduction to related materials and air frame-propulsion interaction. 3 sem. hrs.

MEE 414A. SEMINAR: Presentations on contemporary mechanical engineering subjects by students, faculty, and engineers in active practice; student involvement in professional and service activities. Registration required of all students in their last term prior to graduation. 1 sem. hr.
MEE 414B. SEMINAR: Presentations on contemporary mechanical engineering subjects by students, faculty, and engineers in active practice; student involvement in professional and service activities. Registration required of all junior and senior students not registered in MEE 414A.

MEE 417. INTERNAL COMBUSTION ENGINES: Combustion and energy release processes. Applications to spark and compression ignition, thermal jet, rocket, and gas turbine engines. Emphasis on air pollution problems caused by internal combustion engines. Idealized and actual cycles studied in preparation for laboratory testing of I.C. engines. Prerequisite: MEE 301 or permission of instructor.

MEE 418. GAS DYNAMICS: Application of the basic thermodynamic and fluid motion laws to the solution of engineering problems in fluid mechanics. Use of differential and integral equations for internal and external flow of compressible fluids with friction and heat transfer. Isentropic flow; adiabatic flow; normal and oblique shocks; Prandtl-Meyer flow; Fanno and Rayleigh line flow. Prerequisite: MEE 308.

MEE 420. HEATING AND AIR CONDITIONING: Theory and methods of maintaining comfortable industrial and residential environments. Psychrometrics; effects of solar radiation; heat transmission through solid boundaries and transparent materials; heating and cooling load calculations; sizing of equipment; energy conservation and management concepts. Corequisite: MEE 410 or permission of instructor.

MEE 423L. MECHANICAL ENGINEERING LABORATORY: Three-hour laboratory session and three-hour out-of-class group session each week. Analysis, modeling, testing, and oral and written presentation of studies in power generation, heat transfer, and fluid dynamic systems. Prerequisite: MEE 341.

MEE 424L. AEROSPACE ENGINEERING LABORATORY: Analysis, modeling, testing, and oral and written presentation of studies in aerodynamics; propulsion, heat transfer, and controls. Three-hour laboratory session and three-hour out-of-class group session each week. Prerequisite: MEE 341.

MEE 425. AEROSPACE DESIGN: Design project in which teams of students synthesize an engineering solution to a complex aerospace related problem through the integration of mechanical and aerospace engineering principles. Prerequisites: MEE 408, 409, 413 or permission of instructor.

MEE 427. MECHANICAL DESIGN I: Three hours lecture and three hours lab per week. Stress and deflection analysis of machine components; theories of failure; fatigue failure of metals. Design and analysis of mechanical components such as gears, shafts, bearings and springs. Design projects and problems applying principles covered in lecture. Solution of complex problems with emphasis on synthesis and design of mechanical systems. Prerequisites: EGM 330; MEE 321.

MEE 428. MECHANICAL DESIGN II: Advanced topics in stress and deflection analysis; analysis and design of mechanical elements such as gears, journal and ball bearings, belts, brakes, and clutches; principles of fracture mechanics; failure analysis; machinery construction principles. Contemporary design methods and issues associated with the product development cycle. Prerequisite: MEE 427.

MEE 432. ENGINEERING SYSTEMS DESIGN: Two hours lecture and six hours of lab per week. Focus of the lab and lecture on a design project. Detailed evaluation of the Product Realization Process (PRP), including specifications, conceptual designs, and detailed designs. Study of project management including project tracking methods.
cost estimating, overhead, direct labor, time value of money and depreciation. Analysis of design criteria for safety, environmental and sociological impact. Culminates in a comprehensive written report and oral presentation. Prerequisite: MEE 427.

MEE 434. MECHATRONICS: Emphasis on the integration of sensors, micro-controllers, electromechanical actuators, and control theory in a 'smart' system for a semester long design project. Topics include: sensor signal processing, electromechanical actuator fundamentals, interfacing of sensors and actuators to micro-controllers, digital logic, and programming of micro-controllers, programmable logic controllers and programmable logic devices. Equal mix of lecture and laboratory. Prerequisite: ECE 323.

MEE 435. FEEDBACK CONTROL SYSTEMS: Analyses of automatic feedback control systems using time domain solutions, Laplace transforms, block diagrams, transfer functions, characteristic equations, stability criteria, and control actions. System performance based on Nyquist, Bode and root-locus with system compensation. Prerequisites: MTH 219, EGM 220.

MEE 436. VEHICLE PERFORMANCE ANALYSIS: Ground, air, water, space vehicles. Development of force, moment, and kinematic equations. Advanced applications including stability, control, performance evaluations. Vehicle simulation. Analog computation. Prerequisite: MEE 308 or permission of instructor.

MEE 438. ROBOTICS AND FLEXIBLE MANUFACTURING: Overview of industrial robots; physical configuration, operation, and programming of robots; actuators, drive mechanisms, sensors, vision systems, controls, and control methods for robots; economic considerations; and automated factory concept. Prerequisite: MEE 321.

MEE 439. DYNAMIC SYSTEMS AND CONTROLS: Dynamic systems modeling with special emphasis on mechanical systems (one and two degrees of freedom). Covers both transfer function and state space modeling techniques. Analogues drawn between mechanical, electrical, fluid, and thermal physical domains. System nonlinearities and model linearization methods are discussed. Analytical solutions of linear ordinary differential equations using Laplace transformation and state space theory. Feedback control theory, including root locus and frequency response techniques. Prerequisites: MTH 219, EGM 220.

MEE 460. ENGINEERING ANALYSIS: Case study approach to engineering problem solving. Emphasis on breaking down problems to tractable parts, modeling physical systems and selection of solution techniques. Problems related to thermal, fluid, structural, and dynamic systems. Problems typically involve solution of ordinary and partial differential equations, Fourier analysis of periodic behavior, simulation, optimization and/or statistical analysis. Analytical and numerical solution techniques, with an emphasis on selecting the most appropriate technique and understanding the limitations of the analysis. Prerequisites: ECE 323, MEE 312, MEE 410.

MEE 471. DESIGN OF THERMAL SYSTEMS: This course integrates thermodynamics, heat transfer, engineering economics, and simulation and optimization techniques in a design framework. Topics include design methodology, exergy analysis, heat exchanger networks, thermal-system simulation and optimization techniques.

MEE 472. DESIGN FOR ENVIRONMENT: Emphasis on design for environment over the life cycle of a product or process, including consideration of the mining, processing, manufacturing, use, and post-life stages. Course provides knowledge and experience in invention for the purpose of clean design, life cycle assessment strategies to estimate the
environmental impact of products and processes, and cleaner manufacturing practices. Course includes major design project.

MEE 473. RENEWABLE ENERGY SYSTEMS: Introduction to the impact of energy on the economy and environment. Engineering models of solar thermal and photovoltaic systems. Introduction to wind power. Fuel cells and renewable sources of hydrogen. 3 sem. hrs.

MEE 499. SPECIAL PROBLEMS IN MECHANICAL AND AEROSPACE ENGINEERING: Particular assignments to be arranged and approved by department chairperson. 1-6 sem. hrs.

In addition to the courses listed above, students may select as undergraduate electives mechanical or aerospace engineering (MEE or AEE) courses from the 500 series listed in the Graduate Issue of the Bulletin.
SERVICE (EGR, EGM, ISE) AND INTERDISCIPLINARY (ENI) COURSES FOR ENGINEERING

COURSES OF INSTRUCTION—EGR

EGR 100. ENRICHMENT WORKSHOP: A workshop structured to provide collaborative learning of engineering calculus facilitated with upper-class engineering students. Required course both semesters for first-year engineering students. No credit

EGR 101. INTRODUCTION TO ENGINEERING DESIGN: A team taught integrated introduction to engineering design. Emphasizes problem-solving skills, teamwork, multi-disciplinary approaches to engineering projects and problems, experiential hands-on experience, and structural programming. 2 sem. hrs.

EGR 102. SEMINAR FOR UNDECLARED STUDENTS: A seminar to acquaint the student with the University and the departments of the School of Engineering. Academic policies, academic planning, registration procedures, counseling and career placement services, and assistance in selecting a major. 0 sem. hrs.

EGR 320. SYSTEMS DESIGN—HONORS: Interdisciplinary systems-design experience to emphasize the basic problem-solving approach and philosophy of engineering for students of varied backgrounds. By permission only. 3 sem. hrs.

EGR 498. HONORS THESIS: Selection, design, investigation, and completion of an independent, original research study resulting in a document prepared for submission as a potential publication and a completed undergraduate thesis. Restricted to students in University Honors Program. 3-6 sem. hrs.

COURSES OF INSTRUCTION—EGM

Engineering mechanics (EGM) courses are taught and administered by the Department of Civil and Environmental Engineering and Engineering Mechanics.

EGM 201. MECHANICS I: An integrated presentation of the principles of statics and strength of materials. Force/moment systems, free body diagrams, equilibrium of particles and rigid bodies; axial stress, strain and deformation; stress/strain diagrams, isotropic and orthotropic materials properties, generalized Hooke's law; centroid, center of gravity, center of mass; second moments of areas; distributed loads, fluid pressure; analysis of trusses, frames and machines; friction. Corequisite: MTH 169. 3 sem. hrs.

EGM 202. DYNAMICS: Kinematics, including translation, rotation, plane motion, and relative motion; kinetics of particles and bodies by the methods of force-mass-acceleration, work-energy, and impulse-momentum. Prerequisite: EGM 201. 3 sem. hrs.
EGM, ISE  

EGM 213. STATICS AND MECHANICS OF MATERIALS: The principles of mechanics, force systems, resultants and equilibrium, centroids and center of gravity and moment of inertia, application to mechanics and frames. Also the study of stresses, strains, and deflections under different loading conditions for beams and columns. Not for CEE and MEE majors.  
4 sem. hrs.

EGM 303. MECHANICS II: An integrated presentation of the principles of statics and strength of materials. Torsion, power transmission; shear force and bending moment diagrams; normal and shear stresses in beams; beam deflections; analysis of stress and strain, Mohr’s circle, determination of stresses with strain gage rosettes; thin walled pressure vessels; stresses from combined axial, torsional, flexural loads, buckling of columns; asymmetric beam bending. Prerequisites: EGM 202, MTH 169.  
3 sem. hrs.

EGM 304. ADVANCED STRENGTH OF MATERIALS: Stresses and strains at a point; shear center; unsymmetrical bending; curved beams; flat plates; torsion of noncircular bars; beams on elastic support; buckling; introduction to mechanics of composite materials. First and second terms each year. Prerequisite: EGM 303.  
3 sem. hrs.

EGM 445. FINITE ELEMENT APPLICATIONS: Introduction to the fundamentals of the finite element method; modeling of engineering systems and elements using computer-aided engineering. Prerequisites: EGM 303, MTH 219.  
3 sem. hrs.

EGM 499. SPECIAL PROBLEMS IN ENGINEERING MECHANICS: Particular assignments to be arranged and approved by chairperson of the department.  
1-6 sem. hrs.

COURSES OF INSTRUCTION—ISE

Industrial and systems engineering (ISE) courses are taught and administered by the Department of Engineering Management and Systems.

ISE 313. ENGINEERING LAW: Legal principles applied to engineering. Special emphasis is given to the area of Contract Law due to the important and pervasive interaction that it has with engineering project work. Legal Method and the court system are introduced. Product liability and business relationships are discussed.  
3 sem. hrs.

ISE 369. PROBABILITY AND STATISTICS FOR ENGINEERS: Conceptual and hands-on development of probability and statistics with software exercises. Probability problems, random variables, moments, distributions, data description and analysis, estimation (bootstrap), hypothesis testing, regression, analysis of variance, and non-parametricals. Prerequisite: MTH 218.  
3 sem. hrs.

ISE 401. ECONOMIC DECISION ANALYSIS FOR ENGINEERS: Introduction to the models and methods of engineering economic decision analysis. Fundamental economic concepts, cost estimates, time value of money, comparison of alternatives, before- and after-tax analysis, decision making under risk and uncertainty, break-even analysis, and linear programming models. Prerequisite: MTH 218.  
1-3 sem. hrs.

ISE 421. RELIABILITY AND MAINTAINABILITY: Application of probability and statistical theory to engineering reliability design and analysis; reliability of components and assemblies; design of systems for reliability and maintainability. Prerequisites: MTH 368 or ISE 369; CPS 132.  
3 sem. hrs.

ISE 423. QUALITY ASSURANCE: Principles of statistical quality control. Application of attributes and variable acceptance sampling plans; control charts; design of quality control systems and procedures. Prerequisites: MTH 368 or ISE 369; CPS 132.  
3 sem. hrs.
ISE 428. DESIGN AND ANALYSIS OF ENGINEERING EXPERIMENTS: Application of statistical methods to engineering experimentation; analysis of experimental response through statistical methods. Prerequisites: MTH 368 or ISE 369; CPS 132. 3 sem. hrs.

ISE 451. PRODUCTION AND INVENTORY PLANNING AND CONTROL: Analysis and design of systems of personnel and machines for production processes. Forecasting, scheduling, production and inventory control. Prerequisites: MTH 368 or ISE 369; CPS 132. 3 sem. hrs.

ISE 452. DETERMINISTIC OPERATIONS RESEARCH: Introductory course covers deterministic methods for optimization, with a focus on mathematical programming (linear, nonlinear, and integer programming) and network methods. Prerequisites: MTH 368 or ISE 369; CPS 132. 3 sem. hrs.

ISE 453. PROBABILISTIC OPERATIONS RESEARCH: This is an introductory course covering probabilistic methods for modeling and analyzing the performance of complex systems. Topics include Markov chains, queuing, forecasting, discrete event simulation, and inventory modeling. Prerequisites: MTH 368 or ISE 369; CPS 132. 3 sem. hrs.

ISE 455. PRINCIPLES OF SYSTEMS: Basic concepts of structure in dynamic systems; starting point for systems approach to dynamic systems in multidisciplinary courses in urban, ecological, corporate, or other social systems. Prerequisites: MTH 368 or ISE 369; CPS 132. 3 sem. hrs.

ISE 499. SPECIAL PROBLEMS IN SYSTEMS: Particular assignments to be arranged and approved. 1-6 sem. hrs.

COURSES OF INSTRUCTION—ENI

Information on engineering interdisciplinary (ENI) courses is available in the Office of the Dean of the School of Engineering.

ENI 299. SPECIAL PROBLEMS: Special problems courses at an introductory level relative to engineering problems and activities. To be arranged and approved by the dean. 1-6 sem. hrs.

ENI 451. INTRODUCTION TO PUBLIC POLICY PLANNING: Introduction to public policy and program planning, the role of engineering in public policy formulation, systems approaches to complex decision making, introduction to interpretive structural modeling and its policy-oriented uses. 3 sem. hrs.

ENI 455. SYSTEMS MODELING I: Introduction to the modeling of social systems, emphasizing feedback loops and their behavior; development of methods for understanding mechanisms underlying growth, stagnation, and cyclical fluctuations; formulation of models for industrial, economic, social, and ecological systems; laboratory digital simulation. Prerequisites: MTH 368 or ISE 369; CPS 132. 3 sem. hrs.

ENI 456. SYSTEMS MODELING II: An individual or group project in guided research with emphasis on modeling of economic, industrial, urban, ecological, and world systems. Prerequisite: ENI 455. 3 sem. hrs.
ENGINEERING TECHNOLOGY

The School of Engineering also offers a Bachelor of Science in Engineering Technology. The programs in which the degree is offered are computer engineering technology, electronic engineering technology, industrial engineering technology, manufacturing engineering technology and mechanical engineering technology. The engineering technologist is usually involved in the design, performance evaluation, service and sales of products, equipment, and manufacturing systems or the management of these activities. The management of process operations and plant facilities are also important career paths.

The engineering technology programs provide: (1) specialized technical courses that emphasize rational thinking and the application of engineering and scientific principles to the practical solution of technological problems; (2) courses in applied mathematics and science sufficient to support the technical courses and to prepare the student for future growth; and (3) education to prepare students to communicate intelligently and to take places in society as responsible, humane, complete professionals.

TRANSFER STUDENTS

The engineering technology programs welcome transfer students from associate degree programs in engineering technology who wish to pursue the Bachelor of Science in Engineering Technology. Graduates of two-year associate degree programs in engineering technology should normally expect to undertake at least two additional years of work for the bachelor's degree.

MINORS IN ENGINEERING TECHNOLOGY

Students majoring in any engineering technology program may earn a minor in another engineering technology program by completing 12 approved semester hours of work in the second discipline. Courses already required in the student’s program may not be counted in the minor. The director of the program in which the minor is to be earned is responsible for approving the list of courses for the minor. Non-engineering technology majors may earn a minor in an engineering technology discipline.

ENGINEERING TECHNOLOGY FIRST-YEAR REQUIREMENTS

Students selecting any of the five engineering technology majors should take the courses prescribed for the first year as listed in the individual curricula later in this section of the Bulletin. Undeclared engineering technology students should follow the first-year schedule listed below.

ECT/EET, CET

ELECTRONIC AND COMPUTER ENGINEERING TECHNOLOGY (ECT)

The Electronic (EET) and Computer (CET) Engineering Technology Programs prepare students for careers in the electronics and computer fields respectively. The EET curriculum, while including a strong emphasis on computers, centers on applied engineering topics in circuit analysis, electronic design, communications, digital circuits, microprocessors and instrumentation. The CET curriculum targets the field of electronics towards computer hardware with a strong emphasis on the integration of hardware and software. The graduate of both programs is prepared to work in industry at a variety of tasks including analog and digital design, microprocessor hardware and software applications, electronic controls, automation, engineering sales and support, product design and development, and electronic communications. The curricula provide the strong foundation in the basic principles necessary to support any future career studies or development as dictated by changing technology or career roles.

FACULTY

Scott Segalewitz, Chairperson of Department of Engineering Technology
Scott Segalewitz, Program Coordinator
Professors Emeriti: Hanneman, Hazen, Rooney
Associate Professors: Ismail, Segalewitz
Assistant Professor: Globig

COURSES OF INSTRUCTION

ECT 110. ELECTRICAL CIRCUITS I: Practical concepts of DC and AC circuits: current, voltage, resistance, power, series and parallel circuits, capacitance, magnetic circuits, and inductance.

ECT 120. ELECTRICAL CIRCUITS II: Practical concepts of DC and AC circuits: reactance, impedance, phase, circuit analysis, power factor, resonance, filters, transformers, and polyphase circuits. Circuit calculations using vectors and complex algebra. Prerequisite: ECT 110.

ECT 120L. ELECTRICAL CIRCUITS LABORATORY: Experiments in basic DC and AC circuits to accompany ECT 120. Three laboratory hours a week. Prerequisite: ECT 110.

1 sem. hr.
ECT 206. ELECTRON DEVICES I: Fundamentals of semiconductor diodes, transistors (bipolar and field effect), amplifiers, biasing and small signal analysis. Prerequisite: ECT 120.

ECT 206L. ELECTRON DEVICES I LABORATORY: To accompany ECT 206. Three hours of laboratory a week.

ECT 224. DIGITAL COMPUTER FUNDAMENTALS: Fundamental theory and techniques of electronic data processing to include binary arithmetic, switching theory (Boolean algebra), and basic circuitry (gates, adders, registers, and memory). Prerequisite: ECT 110.

ECT 224L. DIGITAL COMPUTER FUNDAMENTALS LABORATORY: To accompany ECT 224. Three hours of laboratory a week.

ECT 306L. ELECTRON DEVICES II LABORATORY: To accompany ECT 306. Three hours of laboratory a week.

ECT 328. ELECTRONIC COMMUNICATIONS: Principles of operation of filters, modulators, demodulators, and converters. Prerequisite: ECT 306.

ECT 328L. ELECTRONIC COMMUNICATIONS LABORATORY: To accompany ECT 328. Three hours of laboratory a week.

ECT 357. MICROPROCESSORS I: Study of microprocessor architecture, hardware, software, and application. Prerequisite: ECT 224. Corequisite: ECT 357L.

ECT 357L. MICROPROCESSORS I LABORATORY: To accompany ECT 357. Emphasis on memory design, I/O design, and software development. Three hours of laboratory a week.

ECT 358. MICROPROCESSORS II: Study of microprocessor architecture, hardware, software, and application. Prerequisite: ECT 357. Corequisite: ECT 358L.

ECT 358L. MICROPROCESSORS II LABORATORY: To accompany ECT 358. Emphasis on microcomputer programming. Three hours of laboratory a week.

ECT 361. PROGRAMMING STRUCTURES: The study of programming language concepts. Emphasis on the C language and its application to microcomputer hardware and software development. Prerequisite: SET 153L.

ECT 362. CONCEPTS AND APPLICATIONS OF COMPUTER OPERATING SYSTEMS: Introduction to the fundamentals and applications of computer operating systems and the interaction of hardware and software. Operating systems for large-scale, mini-, and microcomputers introduced through case studies. Prerequisite: ECT 357, 361.
ECT 400. SELECTED TOPICS: Investigation and discussion of current technical topics in electronic and computer engineering technology. May be taken more than once. Prerequisite: Permission of department chairperson. 1-4 sem. hrs.

ECT 408. DATA ACQUISITION AND MEASUREMENTS: Measurement and evaluation of the characteristics of engineering materials, structural mechanics, electromechanical systems, and physical systems. Emphasis on data acquisition, signal conditioning and manipulation, and virtual instrumentation. Prerequisite ENG 102, ECT 120L; MCT 221 or ECT 361. 2 sem. hrs.

ECT 427. PULSE AND DIGITAL CIRCUITS: Design and analysis of circuits relating to computers and digital control. Topics include integrators, differentiators, multivibrators, flip-flops, time-base generators, and programmable logic devices (PLD's). Laplace transform analysis is utilized. Prerequisites: ECT 206, 224. 3 sem. hrs.

ECT 450. MICROELECTRONICS: Study of the principles, design techniques, and fabrication processes utilized in the construction of thick film, thin film, and integrated circuits. Prerequisite: ECT 206. 3 sem. hrs.

ECT 451. ADVANCED INSTRUMENTATION: Unstructured laboratory study of modern instrumentation. Independent projects including CRT system, integrating DVM, acoustical equipment, and advanced standards. Prerequisite: ECT 208. 3 sem. hrs.

ECT 453. ANTENNAS: Study of basic antenna types and their application to arrays and other systems. Prerequisite: ECT 328. 3 sem. hrs.

ECT 454. ENVIRONMENTAL NOISE CONTROL: Study of noise, noise measurement, physiological effects of noise, federal regulations, and design criteria for noise reduction. Prerequisite: Junior status. 3 sem. hrs.

ECT 459. MICROPROCESSOR SYSTEMS DESIGN: Introduction to industrial design procedures for microprocessor-based control systems. Emphasis on the integration of microcomputer hardware and software. Prerequisite: ECT 357, 358. 3 sem. hrs.

ECT 460. ADVANCED MICROPROCESSOR SYSTEMS: Study of advanced microprocessor families and their applications to systems, including single and multi-processor design. Prerequisite: ECT 357. 3 sem. hrs.

ECT 461. POWER DISTRIBUTION AND CONTROL: Study of power distribution systems including components, basic operation, and characteristics. Emphasis on the generation of electric power, its transmission and control. Prerequisite: ECT 120. 3 sem. hrs.

ECT 462. TELECOMMUNICATIONS TECHNOLOGY: Study of the theoretical and practical electronic structures involved in the telecommunications industry. Applications to data transmission, satellite communications, telephony, and television. Prerequisites: ECT 357. 3 sem. hrs.

ECT 463. ELECTRONIC CAD: Methods and techniques utilizing computer-aided design in electronic design, layout, and evaluation. Prerequisites: ECT 206, 223L. Corequisite: ECT 463L. 2 sem. hrs.
ECT 463L. ELECTRONIC CAD LABORATORY: To accompany ECT 463. Three laboratory hours a week.

ECT 464. PROGRAMMABLE LOGIC CONTROLLERS: Study of Programmable Logic Controllers (PLC's) and their applications in manufacturing. Topics include PLC architecture, programming, program documentation, system monitoring, automated manufacturing systems, and man-machine-interfacing software. Prerequisite: MFG 431.

ECT 465. DIGITAL DATA COMMUNICATIONS: Study of the techniques for transmission of messages between digital electronic devices separated by short and long distances. Various data formats used along with hardware, codes, and I/O devices. Prerequisite: ECT 357 or equivalent.

ECT 466. MICROCOMPUTER ARCHITECTURE: To develop an understanding of the basic hardware and software architecture of an industry standard microcomputer such as the IBM-PC series. To become familiar with the various terms and concepts used in the PC industry. To research current and future developments in PC hardware and software. Prerequisite: ECT 357 or equivalent.

ECT 490. SENIOR PROJECT: The design, construction and presentation of an original project. The project may be individual or part of an interdisciplinary engineering technology team project. Prerequisite: Senior status.
INDUSTRIAL ENGINEERING TECHNOLOGY (IET)

The Industrial Engineering Technology Program has as its objective providing specialized education to prepare students for management and technical staff positions in manufacturing, and service organizations such as health care, banking, transportation, food service, and government. Graduates may be involved in the economic selection and location of equipment, the planning of work methods and expected output, and scheduling and controlling the flow of materials. The curriculum emphasizes courses in time and motion study, production planning and control, facilities layout, economic analysis, statistical process control, labor and wage administration, and mathematical decision making.

1 For example, 3-0-3 means 3 class hrs., 0 lab. hrs., and 3 sem. hrs. of credit.  
2 See General Education requirements, Chapter V. Some General Education courses are specified in the program (e.g., PHY 201); others are to be chosen from the listing of approved courses.

FACULTY

Scott Segalewitz, Chairperson of the Department of Engineering Technology  
Charlie P. Edmonson, Program Coordinator  
Professors Emeriti: Courtright, McGraw  
Professors: Summers, Untener  
Associate Professor: Edmonson  
Assistant Professors: Blust, Globig

COURSES OF INSTRUCTION

3 sem. hrs.

IET 230L. WORK MEASUREMENT LABORATORY: The application of real-world time-and-motion-study techniques such as flow process, man-machine, and operation process charts. Calculations for time standards, production efficiency, line balance, cost reduction, manpower, and equipment. A written and oral report on a team project. Three hours of laboratory each week. Prerequisite: MTH 137. Corequisites: IET 230, SET 153L.  
1 sem. hr.

IET 308. PRODUCTION MANAGEMENT METHODS: Study of the principles and current practices of optimizing production using Lean Manufacturing concepts. Just-in-time, Kaizen, set-up reduction, small lot production, pull systems, focused factories, standard operations, total productive maintenance, and defect-free manufacturing.  
3 sem. hrs.
IET 316. QUANTITATIVE METHODS IN INDUSTRIAL ENGINEERING TECHNOLOGY: Introduction of the mathematical techniques used to support decision making and managerial analysis. Probability theory, decision theory, linear programming, and queuing theory. Prerequisites: MTH 207, SET 153L.

3 sem. hrs.

IET 317. INDUSTRIAL ECONOMIC ANALYSIS: Comparison of manufacturing or service industry projects and investments based on their economic value. Quantification of costs and benefits; analysis using present worth, annual worth, and rate of return methods. Study of simple and compound interest. Prerequisites: MTH 132, SET 153L.

3 sem. hrs.

IET 318. STATISTICAL PROCESS CONTROL: Statistics and probability theory applied to produce control charts (x-bar, R, s, p, u, and c) to monitor processes. Interpretation and application of these charts. Sample size selection, reliability, pareto analysis, and modern quality management techniques. Prerequisites: MTH 207, SET 153L.

3 sem. hrs.

IET 319. QUALITY IMPROVEMENT METHODS: Study of problem-solving methodologies and techniques. Team development. Students will learn to use Pareto diagrams, force field analysis, cause and effect diagrams, process mapping, and other problem-solving tools. Quality costs, product liability, and ethics are also covered. Prerequisites: IET 318, SET 153L.

3 sem. hrs.

IET 320. QUALITY ASSURANCE TECHNIQUES: Students will be exposed to a variety of current quality assurance topics that companies use to improve quality, increase productivity, and reduce costs. Topics include: total preventive maintenance, quality function deployment, reliability engineering, design of experiments, and Taguchi methods. Prerequisites: IET 318, MTH 207, SET 153L.

3 sem. hrs.

IET 321. QUALITY MANAGEMENT: Provides students with an understanding of managing a total quality environment to improve quality, increase productivity, and reduce costs. An introduction to Deming, Juran, and others. Total Quality Management implementation strategies, requirements of ISO 9000, QS 9000, and the Malcolm Baldrige award will be covered. Prerequisites: IET 318, MTH 207, SET 153L.

3 sem. hrs.

IET 322. HUMAN FACTORS: Methods of improving the interface of humans with their physical work environment. Study of human characteristics to determine the best designs for tasks, products, work stations, and other environmental features. Written and oral projects. Prerequisite: Junior or senior status.

3 sem. hrs.

IET 323. PROJECT MANAGEMENT: Study of the structure, techniques, and application of project management including mathematical models, decision making, styles of management, and communications. Analysis of and oral reports on project management problems. Semester team project with written and oral presentations. Prerequisite: SET 153L.

3 sem. hrs.

IET 332. FACILITIES LAYOUT: Design of facilities for the most efficient flow of raw materials, work-in-process, and completed stock through a work place. Facilities layout, material handling, and warehousing in relation to trends toward reduced inventory, smaller lot sizes, and just-in-time. Prerequisites: IET 230, 230L.

3 sem. hrs.
IET 400. SELECTED TOPICS: A self-paced research course. Preparation of a documented written research project on an engineering technology subject. May not be taken more than once. Prerequisites: Junior or senior status; permission of program director. 

3 sem. hrs.

IET 415. MANAGEMENT OF TECHNICAL ORGANIZATIONS: Study of the structure of industrial and service organizations; study of the duties and responsibilities of a manager or supervisor in a technical organization in developing an effective project or production team. Study of labor administration; labor legislation and current labor practices.

3 sem. hrs.

IET 418. COST ESTIMATING: Study of the fundamentals of cost estimating of labor, material, and overhead for products, projects, operations, and systems. The concepts of types of costs, ethics, budgets, and profit. Semester team and individual projects, written and oral. Prerequisites: MTH 137, 207; SET 153L.

3 sem. hrs.

IET 420. INDUSTRIAL AND ENVIRONMENTAL SAFETY: Application of safety techniques and principles to identify and correct unsafe situations and practices. Study of system safety, failure modes and effects analysis, fault tree analysis, preliminary hazard analysis, hazardous materials and practices, OSHA, health and personal protection.

3 sem. hrs.

IET 423. THE IET IN SERVICE ORGANIZATIONS: Case studies, articles, guest speakers, and projects to provide insight into how industrial engineering technology skills and training can be applied to service industries including hospitals, banks, and eating and retailing establishments. Prerequisite: IET junior status.

3 sem. hrs.

IET 425. ELEMENTS OF COST CONTROL: Survey of the methods of breakdown and cost analysis of labor, material, and overhead used in manufacturing and service organizations. Basic financial and cost accounting including balance sheets, income statements, change of financial condition, ratio analysis, and Activity-Based Costing. Prerequisites: SET 153L, MTH 137.

3 sem. hrs.

IET 490. SENIOR PROJECT: Application of IET principles to a real world project using student teams for analysis and productivity improvement. Students will manage a project, applying planning, scheduling, monitoring, and control techniques. Oral and written project proposals, status updates, and final reports presented by teams and students to the management of the sponsoring organizations. Prerequisite: senior status.

2 sem. hrs.
MFG

MANUFACTURING ENGINEERING TECHNOLOGY (MFG)

The Manufacturing Engineering Technology program prepares graduates for professional careers in technical and management positions in a broad range of industries such as those producing automobiles or consumer goods; the metals, paper, or food process industries; the plastics, metal and wood parts fabricating industries; and those which produce manufacturing machinery. Career opportunities in manufacturing engineering include: facilities, manufacturing automation, and tooling design; plant, quality, and process capability engineering; manufacturing supervision, and technical sales.

The curriculum is highly interdisciplinary since the manufacturing professional must possess extensive technical skills and excellent humanistic skills in communications, computers, teamwork, information technology, globalism and multiculturalism. The technical courses emphasize engineering materials and manufacturing processes; mechanical and fluid power automation; electronic controls; computer integrated manufacturing; manufacturing planning and control; extensive laboratory experiences; the technical sciences and applied mathematics from college algebra, probability, statistics, calculus, and linear programming. The curriculum contains strong components from the humanities, social sciences, and communications. The technical electives allow the student versatility in developing technical breadth or depth. The program is designed to prepare the graduates for challenging careers in manufacturing and a base for a variety of continued study.

### FACULTY

Scott Segalewitz, Chairperson of the Department of Engineering Technology
Robert L. Wolff, Program Coordinator
Professor Emeritus: Simon
Professors: Summers, Wolff, Untener
Assistant Professors: Blust, Dorner
Adjunct Professor: Wendeln
COURSES OF INSTRUCTION

MFG 108L. MANUFACTURING PROCESSES LABORATORY: Application of metal-cutting theory using single- and multiple-point cutting tools, basic metal removal process of toolroom and production machines. Experience on conventional milling machines, shapers, lathes, surface grinders, and drill presses. Three hours of laboratory a week.
1 sem. hr.

MFG 204. MATERIALS AND PROCESSES: Chemical and physical properties of metals, ceramics, and polymers; casting processes; powdered metallurgy; metal forming; plastics processes. Oral and written presentation of a team case study. Prerequisite: SET 153L. Corequisite: MFG 204L.
3 sem. hrs.

MFG 204L. MATERIALS AND PROCESSES LABORATORY: Tensile and compressive testing of metals and non-metals using modern universal testing instrument; impact testing-Charpy and Izod; hardness testing-Rockwell, Brinell, Shore durometer; heat treating-annealing, hardening, tempering; hardenability curves determination; plastics materials processing; cold forming; visits to local industries. Three hours of laboratory a week. Prerequisite: SET 153L. Corequisite: MFG 204.
1 sem. hr.

MFG 206L. DIMENSIONAL METROLOGY: Theory and practice of precision measurement including the surface plate, angle and sine plates; surface texture and roundness; optical microscope and profile projector; mechanical and electronic gages; coordinate measuring machine; length standards and height gages; fixed and functional gages; sources of measurement error; introduction to Geometric Dimensioning and Tolerancing. Three hours of laboratory a week. Prerequisites: MTH 137, MCT 110L.
1 sem. hr.

MFG 240. MANUFACTURING DESIGN: Manufacturing planning; advanced Geometric Dimensioning and Tolerancing using ANSI 14.5m-1994; paper gaging; process planning; advanced cutting tools; workholders; power presses-blanking, forming, drawing, fine blanking; group technology, gage, jig and fixture design. Prerequisites: MFG 108L, 204, 206L; MCT 110L.
3 sem. hrs.

MFG 400. SELECTED MANUFACTURING TOPICS: Investigation and discussion of current topics in manufacturing engineering technology. May be taken more than once. Prerequisite: Permission of the program coordinator.
1-4 sem. hrs.

MFG 424. ROBOTICS: Study of robotics including history, robot geometry, cost justification, end-effector (types, use, and design), sensors, and programming. Application of robots in industries. Robot programming and operation projects and end-effector design projects. Prerequisites: SET 153L; MCT 220, 313.
3 sem. hrs.

MFG 426. AUTOMATED MANUFACTURING SYSTEMS AND CIM: CIM systems and interrelationships; group technology, computer-aided process planning, expert systems, local area networks, automated flow lines, data collection, and material handling. Team project to plan, design, and make an oral presentation of a proposal for a complete manufacturing cell. Prerequisites: ECT 110, SET 153L.
3 sem. hrs.

MFG 431. CONTROLS FOR INDUSTRIAL AUTOMATION: Topics include: fundamentals of digital logic, pneumatic power, electromechanical sensors and actuators, pneumatic and electrical control circuit analysis and design, industry safety and design standards, concepts of mechatronics, programmable logic controllers, and networking communications. Includes lab experiences. Prerequisites: ECT 120, SET 153L.
3 sem. hrs.
MFG 432. MATERIALS AND PROCESSES-PLASTICS AND COMPOSITES: Introduction to the more common plastics and composite engineering materials and their properties. Study of processes including extrusion, injection molding, blow molding, compression and transfer molding, and forming. Topics on part and tooling design. Prerequisites: MFG 204, CHM 123. 3 sem. hrs.

MFG 434. COMPUTER NUMERICAL CONTROL: CNC programming of turning center and machining center; application of CAM software to design CNC programs, edit programs, and display tool paths. Parametric part programming concepts to produce complex surfaces. Machine set-up and operation. Design, programming, and production of products in extensive CNC lab facility. Prerequisites: MTH 137, SET 153L, MFG 108L, MCT 110L. 3 sem. hrs.

MFG 435. ADVANCED NUMERICAL CONTROL: Instruction in the programming of complex, multi-axis CNC machines. Extended parametric programming. Programming language techniques. Prerequisite: MFG 434. 3 sem. hrs.

MFG 490. SENIOR PROJECT: Study and research in a specific area that integrates major elements from previous design and manufacturing process courses, culminating in individual and/or group projects, technical reports, and presentations. Prerequisite: MFG senior status. 2 sem. hrs.
MECHANICAL ENGINEERING TECHNOLOGY (MCT)

The Mechanical Engineering Technology Program emphasizes the practical application of the principles of the mechanical field. Career opportunities are in mechanical design, computer-aided design, product evaluation and development, manufacturing engineering, computer-aided manufacturing, plant engineering, technical sales, technical service, fluid power, automation, and supervision. A significant portion of the graduates are in technical management. The curriculum includes a core of technical sciences; applied courses in design, thermodynamics, fluid mechanics, and manufacturing; extensive laboratory experiences; and mathematics from college algebra through probability, statistics, calculus, and differential equations. Courses are required in oral and written communication, with components in the humanities and social sciences to provide insight into the impact of technology on society. Concepts from basic education are stressed in technical courses. The curriculum is broad to prepare graduates for employment and provide a foundation on which to base continued study of changing technology.

*Associate Professors*: Edmonson, Myszk4

*Assistant Professors*: Blust, Penrod

---

**COURSES OF INSTRUCTION**

**MCT 110L. TECHNICAL DRAWING AND CAD:** Interpretation of technical drawings. Shape description, orthographic projection theory, multi-view drawings, necessary views, sectional views, working and shop drawings, dimensioning practices, tolerancing, thread and fastener representation and nomenclature, assembly and detail drawings, electrical symbols, wiring and logic diagrams, printed circuit boards. Six hours of laboratory a week using conventional drafting instruments and commercial computer-aided design (CAD) software.

*2 sem. hrs.*
MCT 111L. INTRODUCTION TO DESIGN: Advanced topics of Computer Aided Design using three-dimensional, parametric, solid modeling software. Laboratory assignments involving the CAD software are completed through a series of individual and team design projects. Introduction to design requirements, conceptualization, and design decisions. Computer drafting topics such as ANSI Y14.5M-1994 geometric dimensioning and tolerancing standards, weld symbols, machining and surface finish symbols. Blueprint reading. Prerequisite: MCT 110L. 2 sem. hrs.

MCT 220. STATICS AND DYNAMICS: Study of forces on bodies at rest and in motion using Newton’s three laws of motion. Vectors, force systems, components, reactions, resultants, free body diagrams, equilibrium, centroids, moment of inertia, kinetics, and kinematics. Prerequisite: SET 153L. Corequisite: MTH 137. 3 sem. hrs.

MCT 221. STRENGTH OF MATERIALS: Analysis and design of load-carrying members, considering stress, strain, and deflection. Study of direct tension, compression, and shear; torsion; shear and moment diagrams; bending; combined stress; analysis of columns; pressure vessels. Prerequisites: MFG 204, 204L; MCT 220; SET 153L; MTH 137. 3 sem. hrs.

MCT 231. FLUID MECHANICS: Fluid properties, fluid statics including manometry, submerged surfaces, buoyancy and stability of floating bodies. The principles of fluid flow including Bernoulli’s and energy equations, energy losses, and pump power. Analysis and design of pipe line systems and open channels; pump selection. Prerequisites: SET 153L, MTH 137. 3 sem. hrs.

MCT 313. INDUSTRIAL MECHANISMS: Design and analysis of linkages and cams. Graphical solutions to kinematics problems including the concept of relative motion. Development and analysis of motion diagrams. Study of geometric features of gears and gear transmission systems. Prerequisites: MCT 110L, 220, SET 153L, MTH 137. 3 sem. hrs.

MCT 317. MACHINE DYNAMICS: Principles of applied engineering mechanics as they relate to machines; static force analysis in both 2 and 3 dimensional systems, kinetics of machine components by the methods of force-mass-acceleration, work-energy, and impulse-momentum; machine balancing; introduction to mechanical vibrations. Prerequisite: MCT 313, MTH 138. 3 sem. hrs.

MCT 330. DESIGN OF MACHINE ELEMENTS: Analytical design techniques used to evaluate machine elements; stress analysis, working stress, failure theories, fatigue failure; design methods for spur gears, shafts, keys and couplings, roller and journal bearings, and springs. Original design project. Prerequisites: MCT 110L, 221, SET 153L.

MCT 336. FLUID POWER: Study of hydraulic and pneumatic fluid power components and systems used in industrial, mobile, and aerospace applications; standard symbols in circuit design; circuit analysis; specification for pumps, valves, cylinders, and circuits; hydraulic fluids; filtration; electric motors; system efficiencies; proportional control and electrohydraulic servo control systems; seals; fluid conductors; pneumatic components and systems. Library research project. Prerequisites: MCT 221. Corequisite: MCT 336L. 3 sem. hrs.

MCT 336L. FLUID POWER LABORATORY: To accompany MCT 336. Evaluation of fluid power components: pressure, flow, RPM, sound level, current, voltage, power, torque, and time. Graphical design, computational analysis, assembly, and testing of
School of Engineering

MCT

typical circuits and systems. Testing of hydraulic fluids for viscosity, pour point, flash and fire point, specific gravity. Three hours of laboratory a week.

MCT 400. SELECTED MECHANICAL TOPICS: Investigations and discussion of current technical topics in mechanical engineering technology. Research report. May be taken more than once. Prerequisite: Permission of the department chairperson.

MCT 423. PRODUCT DEVELOPMENT: Synthesis of mechanical devices and systems. Emphasis on the integration of various machine elements into a single unit. Activities include design, scheduling, budgeting, purchasing, fabrication, assembly and performance testing of an original team project. Prerequisite: MCT 330.

MCT 430. DESIGN OF FLUID POWER SYSTEMS: Energy efficiency; pressure drop determinations, variable volume pressure-compensated pumps, accumulators, proportional and electrohydraulic valves, cylinder design, hydraulic motor selection; circuit design, open and closed loop systems, power unit design; sizing of electric motors; use of industrial data and National Fluid Power Assn.-JIC design standards. Individual design project. Prerequisite: MCT 336.

MCT 432. HEAT POWER: Applications of the principles of thermodynamic cycles. Analysis of energy transfer systems such as internal combustion and gas turbine engines. Power generation through steam cycles including reheat and regenerative cycles. Reversed heat engine cycles and vapor compression cycles used in heating and cooling. Prerequisites: MCT 342, SET 153L.

MCT 438. HEAT TRANSFER: The principles of conduction, convection, and thermal radiation energy transfer. Conduction through series and parallel walls, pipes, and containers. Forced and free convection through films, thermal radiation of energy between surfaces, and the overall transfer of heat. Prerequisites: MCT 231, 342, SET 153L.

MCT 440. APPLIED VIBRATIONS: Free and forced vibration of single degree of freedom systems with and without damping. Industrial applications including reciprocating and rotating machinery, balancing, isolation, and noise reduction. Demonstrations of vibration sensors and instrumentation. Prerequisites: MCT 317, SET 153L.

MCT 446. APPLIED FINITE ELEMENT MODELING: Introduction to the fundamentals of structural finite element modeling. Geometry creation, element types, material specification, problem solution and results postprocessing. A focus is placed on modeling techniques using commercially available software. Prerequisites: SET 153L, MCT 221.  
3 sem. hrs.

MCT 490. MECHANICAL ENGINEERING TECHNOLOGY SENIOR PROJECT: Bringing together analytical and graphical techniques from previous courses to accomplish the design of a complete mechanism, machine, or mechanical system. Conceptual, preliminary, and final design; design criteria; decision analysis; scheduling; electric motor selection, fastening, and joining. Written and oral reports. Prerequisites: MCT 317, 330.  
2 sem. hrs.
FACULTY

Scott Segalowitz, Chairperson of Department of Engineering Technology

COURSES OF INSTRUCTION

SET 100. ENGINEERING TECHNOLOGY FIRST YEAR SEMINAR: A seminar for all engineering technology majors. Introduction to the University of Dayton, the School of Engineering, Engineering Technology, engineering technology programs and careers. Academic policies, academic planning, registration procedures, counseling and career placement services. 1 sem. hr.

SET 101. ENRICHMENT WORKSHOP: A workshop structured to provide collaborative learning for first year Engineering Technology students. Work will focus on math, chemistry and other first year courses. Taken both semesters first year. No credit

SET 400. SPECIAL TOPICS IN ENGINEERING TECHNOLOGY: Investigation and discussion of current topics in engineering technology. May be taken more than once. Prerequisite: Permission of instructor. 1-4 sem. hrs.

SET 499. SEMINAR: Career planning for engineering technology majors. The job search process, résumé preparation, the job interview, professional development. Required of all engineering technology majors in the junior or senior year. 1 sem. hr.
X Interdisciplinary, Experimental, and Special Areas

AFFIRMATIVE ACTION OFFICE

As an integral part of the Office of Human Resources, the Office of Compliance and Affirmative Action, in St. Mary's Hall, Room 122, provides services to all employees, including student employees. The assistant director of human resources for compliance and affirmative action is the University's compliance officer for Affirmative Action/Equal Employment Opportunity (AA/EEO), Title IX of the Education Amendment of 1972, Sections 503 and 504 of the Rehabilitation Act of 1973, Section 402 of the Vietnam Era Veterans Readjustment Assistance Act of 1974, and the Age Discrimination Act of 1975.

AIR FORCE RESERVE OFFICERS TRAINING CORPS (AFROTC)

The Air Force Reserve Officers Training Corps (AFROTC) program is offered through the Department of Aerospace Studies at Wright State University. Students may enroll in Air Force ROTC courses through the consortium cross-registration procedures (contact the Registrar's Office to obtain a list of course numbers, scheduled class times and locations). For more information contact the Air Force ROTC Detachment located in Room 232 of the Frederick A. White Health Center at Wright State University or phone 775-2730.

CENTER FOR INTERNATIONAL PROGRAMS

The Center for International Programs provides leadership, coordination and administrative support for the development of international understanding among faculty, staff and students. This is accomplished through organizing international conferences and workshops, hosting visiting scholars, organizing study abroad programs, maintaining relationships with foreign universities and supporting the Model United Nations. The Center for International Programs is also committed to outreach programming that builds links between the University of Dayton, Dayton's business, cultural and humanitarian groups, and the international community. The Center for International Programs seeks to promote the University of Dayton's involvement in international peace building, human rights and cooperation.

The Center for International Programs includes the Office of Study Abroad, which coordinates the International Summer Study Abroad Program (ISSAP) and provides international education and travel counseling. The Center for International Programs also includes the Office of International Services, which coordinates international recruitment, admission, advising, orientation, credential evaluation, immigration and other issues or services for international students and faculty.
CENTER FOR LEADERSHIP IN COMMUNITY

The Center for Leadership in Community provides an interdisciplinary minor in family development within the College of Arts and Sciences. It also conducts research on a broad range of contemporary family and community issues and offers opportunities for the development of social science research skills through tutorials and participation in its ongoing research projects. It serves as a resource to local governmental, health, religious, educational, and social service agencies in developing solutions to the problems of families and the communities in which they live. The center is committed to an integrated perspective on families that draws on both the humanities and the social sciences. See also FDV, Chapter VI.

INFORMATION TECHNOLOGY FACILITIES AND SERVICES

As one of the nation's premier institutions for technology-enhanced learning, information technology plays a central role in both the living and learning experiences of students at the University of Dayton. Beginning in August 1999, all first-year students are required to purchase a personal computer as part of their entrance to the University. This requirement is coupled with campus-wide software that supports learning, communication and collaboration within and beyond the classroom. Microsoft Office and Lotus Notes are the two key application suites that provide the connectivity and productivity for learners across campus. In addition to an array of 22 on-campus computer-equipped classrooms, the University of Dayton has one of the most unique "wired neighborhoods" in the nation—25 city blocks of UD owned houses fully wired with high speed data connections for every student. The University also supports wireless coverage in selected areas on and off campus.

Information technology across campus is supported by UDit, a newly formed, campus-wide team of IT professionals. The infrastructure at UD includes a gigabit network backbone with over 50 servers. In addition to a very robust network, UDit also houses the Help Desk, Call Center, IT training and E-learning support operations. Across the entire campus, there are over 150 IT professionals supporting learning and collaboration.

Students at the University of Dayton are encouraged to become highly proficient in using the tools of the information age as they prepare for their chosen careers.

ADULT DEGREE ADVANCEMENT PROGRAM (ADAP)

Specifically designed for students 24 years of age and older who wish to attend college part-time, the University of Dayton Adult Degree Advancement Program, ADAP, allows you to complete your bachelor's degree at a pace that fits nicely with your lifestyle. Day and evening classes are available. Tuition for the ADAP students is very affordable, with cost per credit hour comparable to other adult degree programs.

ADAP students can select from one of four bachelor degree programs: Communication Management, Psychology, Engineering Technology, and General Studies.

Information regarding Communication Management, Psychology, and General Studies can be obtained from Julie Mitchell in the College of Arts and Sciences, 229-
Special Areas

2605. Information regarding the Engineering Technology program can be obtained from Scott Segalewitz in the Department of Engineering Technology, 229-4216.

COOPERATIVE EDUCATION (COP)

Cooperative education is an optional plan of full-time, on-campus study alternating with terms of full-time, off-campus paid work experience in industry, business or government. Among the expected benefits to the student are on-the-job experience, career identification, financial assistance, and professional development. The work terms average seventeen weeks. Three full work terms are considered minimum for the program. Students are encouraged to begin their first co-op work experience after their third or fourth semester of academic study.

Qualifications for entering and remaining in cooperative education are (1) to be admitted to the University as a full-time undergraduate student with the intention of graduating; (2) to have a declared major in one of the academic departments participating in the co-op program; (3) to maintain good academic standing as specified by the particular academic department; (4) to engage in full-time study and make progress toward the degree during each study term following each full-time work training term. Placement in a job is not guaranteed since it depends on the student's qualifications and on the availability of jobs.

Cooperative education is currently available as an option to full-time undergraduate majors in the following:

COLLEGE OF ARTS AND SCIENCES: Chemistry (CHM), Computer Science (CPS), Computer Information Systems (CIS), Mathematics (MTH), Biology (BIO), Physics (PHY), Physics-Computer Science (PCS), Psychology (PSY), Environmental Biology (EVB), Communication (CMM), English (ENG), and Visual Communication Design (VCD).

SCHOOL OF BUSINESS ADMINISTRATION: All majors are eligible to apply.

SCHOOL OF ENGINEERING: All engineering and engineering technology majors are eligible to apply.

If the cooperative education option becomes available in other majors, notice will be released through the admission counseling staff of the University.

Incoming first-year students or transfer students interested in cooperative education should attend the Career Services Center presentation during the new student orientation week in August and informational meeting in April for 1st yr. students. Incoming sophomore, junior level or transfer students interested in cooperative education should attend one of the seminars held in September and January of each year. After each Co-op New Student Seminar, such students may begin the process of entering the program, which includes registering through Web Walkup and having an initial interview with one of the Assistant Directors. Those who start as first-year students at the University are eligible for placement after completing three terms of full-time study on campus. Transfer students, whether from two-year or four-year institutions, spend one full-time study term on campus after transferring before becoming eligible for the first work-training term.

Further information on the cooperative education program may be obtained by writing or calling the Career Services Center, University of Dayton, Dayton, Ohio 45469-1110; telephone (937) 229-3914.
CORE

The CORE Program offers an innovative, interdisciplinary curriculum that fulfills the Humanities Base requirements and most of the university’s General Education requirements. These courses address a common theme, “Human Values in a Pluralistic Culture,” and are carefully coordinated with one another so that students experience the integrated character of the liberal arts.

Annually, CORE accepts approximately 150 students with a variety of academic profiles; it is not an accelerated or honors program. All entering first-year students are invited to apply; students in some majors in the College of Arts and Sciences are enrolled automatically.

DEVELOPMENTAL SKILLS (DEV)

Developmental courses are offered by the Office of Learning Assistance. (See Chapter IV). Their purpose is to assist students who need additional work in reading, writing, or mathematics. Although credit is attached to these courses, this credit is not applicable toward graduation in any academic program. It is counted, however, in determining class status and eligibility for financial aid.

COURSES OF INSTRUCTION

DEV 050. CRITICAL READING AND STUDY SKILLS: Instruction and practice in critical reading and thinking skills necessary to analyze, synthesize and evaluate college-level material; also study skills such as time management, note taking, test taking and textbook reading. 3 sem. hrs.

DEV 060. DEVELOPMENTAL MATHEMATICS: Mastery review of the skills of arithmetic and basic algebra; math confidence-building, communication of problem-solving principles, and study skills. 3 sem. hrs.

DEV 070. DEVELOPMENTAL WRITING: Develops student mastery of the reading and writing skills necessary to succeed in ENG 101. Students will engage in all stages of the reading-writing process, demonstrating appropriate strategies for editing and revising their writing, and developing their critical thinking skills. 3 sem. hrs.

GENERAL STUDIES (GEN)

Students who find the traditional programs with departmental majors unsuitable to their purposes, needs, or interests may follow patterns of their own design in choosing courses under the General Studies Program, which leads to the degree of Bachelor of General Studies. See GEN, Chapter VI.

GRADUATE GUIDANCE CENTER

The mission of the Graduate Guidance Center is to assist undergraduate students in determining their needs with respect to graduate schools. The Center has an up-to-date library of graduate school bulletins as well as information on scholarships and fellowships. In addition, it offers help in filing applications and seeking nationally recognized fellowships and scholarships. It can inform students whether they may be eligible for any of these awards and assist them in preparing applica-
tions. Any UD undergraduate interested in pursuing graduate studies is encouraged to visit the Center and take advantage of its services.

HOME-STUDY COURSES

Students who wish to accrue academic credit during the summer but find it inconvenient to be on campus for classroom courses during either session of the third term should see the official third-term composite of courses and consult with their advisors for information about the home-study courses that several departments offer. These are conducted by mail on a tutorial or semitutorial basis for students who have proven their ability and their motivation to work alone.

THE INSTITUTE FOR PASTORAL INITIATIVES

The Institute for Pastoral Initiatives mobilizes the resources of the University of Dayton for partnership with the church that create and implement innovative pastoral initiatives designed to meet the needs of the church and to articulate faith within the context of contemporary culture. The Institute is engaged in education, consultative services, networking, applied pastoral research and multimedia religious education production and publication. The Institute is currently focusing on research and teaching in the following areas: 1) The Virtual Learning Community for Faith Formation (Internet) 2) Catholic Inclusive Education, 3) Media, Culture & Faith Formation, 4) New Paradigms for Adult Religious Formation, 5) Religion & Film, 6) Pastoral Communication and Ministry, 7) Forum for Young Catechetical Leaders, 8) Pastoral Leadership Formation.

INTERDISCIPLINARY STUDIES

All interdisciplinary and experimental studies at the University of Dayton must involve University students and faculty, must be commensurate with University resources or resources accessible to the University, and must further the recognized goals and purposes of the University. When these studies involve disciplines within the College of Arts and Sciences or one of the Schools, they are administered by or through the offices of the respective deans. When they are University-wide, i.e., inter-school, they are usually administered by the Office of the Provost. See also Interdisciplinary Studies in Chapters VI (ASI), VII (BAI), IX (ENI).

UNIVERSITY INTERDISCIPLINARY STUDIES (UDI)

Courses considered suitable for the UDI designation are submitted for approval to the Committee on Minicourses (COMC), which is accountable to the Provost. UDI courses are administered through the College of Arts and Sciences.

The following courses have been offered at least once from the first term of 2000-2001 through the second term 2001-2002.
COURSES OF INSTRUCTION

UDI 158M. INTRODUCTION TO CAREER DEVELOPMENT: Survey of career development theories and the world of work. Determining career interests, decision making, and developing a personal plan of action. Some field experience required.

UDI 178M. THE DINOSAURS: An introduction to the extinct group of reptiles that dominated the Earth from 230 to 65 million years ago. Covers the major dinosaur groups, what we know about their behavior, and their ultimate extinction.

UDI 215M. SEARCHING OUT LIFE/FAITH PATTERNS: This course is designed to help students explore their spiritual life within the context of their entire life. Through class presentations and discussion, daily journal keeping, and weekly meetings with a mentor, the students will have the opportunity to reflect upon their spiritual and life journeys and be exposed to practical means to continue to grow spiritually.

UDI 232M. RESPONSIBILITY IN A HUNGRY WORLD: This course explores the social and personal responsibility for solving the problem of world hunger. Students will identify and analyze hunger problems globally and locally and propose systematic solutions to these problems.

UDI 243M. SEXUAL DIVERSITY AND HUMAN DEVELOPMENT: This course explores the lives and development of lesbian, gay, and bisexual people in contemporary American society with particular attention to individual, relationship and community issues and their intersections. Students will be encouraged to examine fears and prejudices as a way of discovering that sexual minority individuals are both unlike and just like everyone else. In this way all students—straight or gay—can learn to be more sensitive to differences in sexuality that exist in the world around them.

UDI 279M. DEMOCRACY AT RISK: BACKDROP OF THE 2000 ELECTION AND BEYOND: This course tackles issues and problems that form a backdrop for the 2000 election and examines the health of democracy in the United States. Documentary videos and televised debates by presidential candidates will comprise the course's content.

UDI 321M. BEYOND SERVICE: In this course, theories of critical thinking and church social documents are used as a basis for reflection on service and for the development of methods of social analysis. Students will move beyond "Learn, Lead and Serve" to understand the "critic of society" concept.

UDI 350M. HISTORY AND EVALUATIONS OF WORLD WINES: This course provides a study of world wines from several perspectives (history, organoleptics, geography, and economics) to develop in the student a deeper understanding and appreciation of wine both personally and socially.

UDI 351M. HISTOLOGY: This course will combine lecture, discussions and slide presentations on basic tissue types including blood, connective tissue, epithelial tissue, muscles and nervous tissues.

UDI 362M. BUSINESS, MARKETING, AND MUSIC. This course first takes students through the constantly changing marketing process in the music industry. It then explores the use of music as a marketing tool, and how it influences consumer behavior. The course will utilize lecture, case presentation, videos, and exploration of the internet.

UDI 380M. PETER GOMES: An introduction to the life and career of the Rev'd Peter Gomes, guided study of his two major books, and critical reflection on Gomes' Distinguished Speakers Series presentation.
THE MARIAN LIBRARY/INTERNATIONAL MARIAN RESEARCH INSTITUTE

The Marian Library/International Marian Research Institute is recognized as the world's largest and most comprehensive collection of printed materials on Mary and as one of the world's leading centers for Marian studies.

The Marian Library aims to further study and research and to promote well-founded devotion to Mary. The library comprises a Marian collection—theological treatises, books on shrines, sermon collections, anthologies of Marian poetry—and a complementary reference collection in scripture, patristics, systematic and spiritual theology, history, religious art and general bibliography.

Established in 1943 by the Marianists at the University of Dayton, the Marian Library now holds over 100,000 books and pamphlets in some 50 languages, as well as extensive collections of clippings from newspapers and magazines, postcards, holy cards and Christmas cards. The non-print media collections include video and audio cassettes, statues, nativity sets, Marian art slides, postage stamps, recordings of Marian music and medals.

One of the principal missions of the Marian Library is to be an international center of research and study in Marian theology and on the role of Mary in Christian life. Founded in 1975 at the University of Dayton in affiliation with the Pontifical Theological Faculty Marianum in Rome, the academic program offers the doctorate (S.T.D.) and licentiate (S.T.L.) in sacred theology; and the master's degree in religious studies with a Marian concentration (in conjunction with the Religious Studies Department), a certificate in Marian studies, and a guided studies program. The academic program is organized in a three-year cycle, with courses taught in three sessions: summer, fall and spring. It serves a diverse, international student population: laity, religious and clergy, both men and women. While most students seek advanced degrees in theology with specialization in mariology, others simply wish to satisfy a personal interest in Marian studies.

The Marian Library provides guided tours for groups, a video loan program, circulation of some books, interlibrary loan, reference services, conferences, workshops, and art exhibits. Four publications originate at the Marian Library: Marian Library Studies, a scholarly annual of original research; Marian Studies, the journal of the Mariological Society of America; The Marian Library Newsletter, a newsletter reporting on Marian topics of current interest, the center's activities and book reviews; and Art and Spirituality, a series of brief monographs with the purpose of promoting personal meditation through religious art.

Taking advantage of electronic communications, The Marian Library has developed the Mary Page Internet website with news, extensive resources on Mary and related topics, and seasonal meditations.

OFFICE OF EDUCATIONAL SERVICES

The Office of Educational Services provides assistance to Catholic schools and public school districts to enable school personnel to reach policy decisions based on relevant knowledge and value commitments. "Relevant knowledge" includes financial studies, needs assessments, attitude surveys, enrollment projections, and other information necessary for making intelligent decisions about specific policies. "Value commitments" include consideration of educational aims and ethical questions inherent in policy decisions. One of the priorities of the Office is service to Catholic schools. Another is its effort to act as a network linking those who share
value concerns as they relate to educational policy-making. The Office is located in, draws support from, and uses the resources of the School of Education.

PRELAW

The Prelaw Program, designed to serve students from all areas of the University, provides those interested in law school with the opportunities to acquire the knowledge and skills necessary for a successful legal career. While students interested in careers in law should choose their undergraduate majors in accord with their interests and abilities, they should also contact the Prelaw Program as early in their undergraduate careers as possible so they can receive effective prelaw advice.

The Prelaw Program, with its six prelaw advisors, provides students with suggestions for courses that help develop skills needed for legal education, with information about the law school admission process, and with aid in taking the Law School Admission Test (LSAT) including simulated tests and prep courses. In addition, the Program sponsors a prelaw internship where students work at legal duties in an attorney's office, a mock trial program where students compete locally, regionally, and nationally, and personalized advising based on the individual student's talents, interests, and goals.

For further information concerning the Prelaw Program at the University of Dayton, students should contact the Prelaw Program secretary in Alumni Hall.

RESEARCH INSTITUTE (UDRI)

The University includes research as one of its stated purposes. In addition to faculty members in academic departments, a large staff of research scientists, engineers, and technicians conduct basic and applied research. Most of these activities are externally funded and are conducted in the laboratories of the University of Dayton Research Institute.

Several hundred students are employed in research programs in accord with the University's emphasis on integration of research and instruction. In addition to financial benefits, this research participation provides students with valuable experience and an exposure to issues at the forefront of contemporary science and engineering.

RESERVE OFFICERS TRAINING CORPS (ROTC)

The Department of Military Science offers the Army ROTC training program on campus, leading to a commission as a second lieutenant in the U.S. Army at the time of graduation. See MIL, Chapter VI.

STUDY ABROAD

AUGSBURG EXCHANGE PROGRAM

Students in the School of Business Administration are eligible to participate in an exchange program with the University of Augsburg in Germany. About thirty business students spend eleven weeks each summer in Augsburg taking courses from both University of Dayton and University of Augsburg faculty. Classes are
taught in English, although students are required to take an elementary German course before going to Augsburg. Students may reside in dormitories or apartment units or with host German families. Augsburg and Dayton are sister cities, and the sister city organizations facilitate cultural exchanges while students are in Augsburg. Students are given the opportunity to visit and have discussions with executives of German firms. In addition, several Augsburg students attend the University of Dayton during the regular semesters in the graduate program in business and assist with the exchange program.

INTERDEPARTMENTAL SUMMER STUDY ABROAD PROGRAM

The Interdepartmental Summer Study Abroad Program (ISSAP) was established in 1972 to give students from all majors the opportunity to study and experience one or more foreign cultures. The program is open to anyone attending or eligible to attend the University of Dayton. The program sites vary from year to year. Students spend one month at a site with University of Dayton professors and may choose to attend one or two other sites. Various courses are offered at each site, and a variety of disciplines are represented each year. A two-site participant can complete a full semester of course work abroad.

In the past, ISSAP students have studied in Athens, Australia, Dublin, Florence, Fribourg, London, Madrid, Morocco, Munich, Paris, Rome, and Vienna, where they have taken courses in art history, business, communication, foreign languages, history, literature, music, philosophy, photography, political science, religious studies, science, sociology, and teacher education. For more information, contact the Office of Study Abroad.

SUMMER STUDY IN MARBURG, GERMANY

The Summer Study Program in Marburg, Germany provides a month-long experience of living and studying in a German setting. Students take two classes, one with German professors at a Language School in Marburg and another with the accompanying University of Dayton professor. Program participants live either in a dormitory or with families. One full-day excursion is planned for the group. Because students are expected to use German exclusively, completion of intermediate German or the equivalent is required.

SUMMER STUDY IN MEXICO

The Summer Study in Mexico Program provides an intensive, thirty-day program of immersion in Cuernavaca, where program participants live with Mexican families. Students take two courses with the accompanying University of Dayton professor and Spanish professors at the Cemanahuanac Comunidad Educativa. Excursions outside Cuernavaca include a visit to Tepoztlán, Taxco, Xochicalco, Teotihuacán and Mexico City. This program is available to students who have completed elementary Spanish II or the equivalent.

SUMMER STUDY IN QUEBEC

Summer Study in Quebec offers a five-week program of total immersion in
Chicoutimi, situated in the beautiful Saguenay-Lac St. Jean region of Quebec. Program participants live with Francophone families. The academic program features intensive language courses at all levels that put emphasis on oral communication, as well as classes in Quebec culture; courses are taught by faculty from the Université du Québec à Chicoutimi. In addition, students participate in workshops with qualified instructors that allow them to practice their linguistic skills while engaging in social, cultural, and sports activities. This program is available to students who have completed elementary French II or the equivalent.

SUMMER STUDY IN SEGOVIA, SPAIN

The Summer Study in Segovia Program is a thirty-day program of total immersion in a Spanish environment. The academic program includes intensive language study as well as courses in culture and literature. To complement their course work, students visit museums, theaters, palaces, and castles in and near Segovia and take tours to such historical sites as Madrid, Toledo, and El Escorial. This program, in which participants are required to use Spanish at all times, is available only to students who have completed intermediate Spanish II or the equivalent.

UNIVERSITY HONORS PROGRAM

The University Honors Program provides unique opportunities for academically gifted undergraduate students to develop their skills and talents in a supportive educational environment. Each year a limited number of entering first-year students from the four undergraduate divisions—Arts and Sciences, Business Administration, Education, and Engineering—are selected from the pool of applicants. Participation in the program entitles these students to numerous benefits and privileges, including eligibility for honors scholarships.

The honors curriculum consists of a sequence of six honors seminars and a thesis. In most instances the seminars fulfill University requirements and fit well into each student’s regular course of study. The honors thesis is a major research project selected by the student in their junior year and completed before graduation. Honors research grants are available to cover housing expenses, travel, and supplies. All honors students are expected to maintain a 3.0 grade-point average.

UNIVERSITY SCHOLARS PROGRAM

The University Scholars Program provides curricular offerings, programming, and benefits to undergraduates who have superior academic records. Students earn the designation "University Scholar" in one of two ways. Entering first-year students with outstanding credentials are automatically accepted into the Scholars Program. (They are also eligible to apply for admission to the Honors Program.) Matriculated students who have achieved a 3.5 grade-point average at the end of their first, second, or third years are also designated University Scholars. All Scholars are expected to maintain at least a 3.0 grade-point average.

University Scholars are offered a wide selection of courses each term, ranging from special sections of General Education courses to senior-level seminars. While
enrollment in Scholars courses is not mandatory in most instances, first-year University Scholars will usually be placed in English 114. In addition, the program sponsors numerous speakers, cultural events, and at least one symposium each year. Special housing is available for a limited number of Scholars. Upperclass students who have completed at least two Scholars courses are eligible to apply for grants to support their professional and academic development.

University Scholars completing at least sixty semester credit hours are eligible to apply to the Cordell W. Hull International Fellows Fund for University Scholars. Established in 1997-98, this fund awards substantial grants to support undergraduate international learning, leadership, and service projects.

George, Norman (1962), Law—Ohio State University, 1950; M.B.A., University of Pittsburgh, 1954; Ph.D., Ohio State University, 1962; J.D., Salmon Chase College, 1967.

Lucier, John J., S.M. (1951), Religious Studies — A.B., University of Dayton, 1937; M.S., Western Reserve University, 1950; Ph.D., 1951.

Noland, George B. (1955), Biology — B.S., University of Detroit, 1950; M.S., 1952; Ph.D., Michigan State University, 1955.

Schraut, Kenneth C. (1940), Mathematics — A.B., University of Illinois, 1936; M.A., University of Cincinnati, 1938; Ph.D., 1940.

Springer, George H. (1946), Geology — A.B., Brown University, 1938; ScM., 1940.

DISTINGUISHED TEACHING PROFESSOR

RANKED FACULTY AND INSTRUCTIONAL STAFF

Aaron, Philip T., S.M. (1979), Campus Ministry, Administrative — B.S., University of Dayton, 1954; M.S., St. Louis University, 1964; Ph.D., Case Western Reserve University, 1973.

Abueida, Atif A. (2000), Mathematics, Assistant Professor — B.S., United Arab Emirates University, 1987; M.S., East Tennessee State University, 1995; Ph.D., Auburn University, 2000.

Ahern, David W. (1977), Political Science, Professor — B.A., Southern Connecticut State
Faculty

Ahouija, Mohamed (2001), Physics, Assistant Professor—B.A., Kenyon College, 1990; M.S., University of Cincinnati, 1993; Ph.D., 1996.

Altman, Aaron (2002), Mechanical and Aerospace Engineering, Assistant Professor—B.S.E., Tulane University, 1990; M.S.E., University of Texas at Austin, 1994; Ph.D., Cranfield University, 2001.

Barnes, Michael H. (1968), *Religious Studies*, Professor—A.B., St. Louis University, 1961; Ph.L., 1962; Ph.D., Marquette University, 1976.

Blust, Rebecca P. (1998), *Engineering Technology*, Assistant Professor—B.S., University of
Faculty

Bower, Samuel M. (1965), Psychology, Associate Professor—B.A., Mexico City College, 1957; Ph.D., Vanderbilt University, 1963.

Bowers, Jeanne (1993), English Language and Multicultural Institute, Administrative — B.A., California State University, Sacramento, 1974; M.S., 1977.

Brady, Thomas J. (1981), Accounting, Associate Professor—B.S., New York University, 1966; M.B.A., Adelphi University, 1968; Ph.D., St. Louis University, 1981.

Braithwaite, C. Jayne (2000), Health & Sport Science, Assistant Professor—B.S., Montana State University, 1980; M.S., Washington State University, 1993; Ph.D., 1998.

Brar, Nahhattar S. (1986), Mechanical and Aerospace Engineering, Associate Professor—B.S., University of the Punjab, 1962; M.S., 1965; M.S., Trent University, 1971; Ph.D., University of Western Ontario, 1979.

Brecha, Robert J. (1993), Physics, Associate Professor—B.S., Wright State University, 1983; Ph.D., University of Texas at Austin, 1990.

Breitwisch, Randall J. (1988), Biology, Associate Professor—B.S., University of Miami, 1973; M.S., 1977; M.S., University of Michigan, 1982; Ph.D., University of Miami, 1987.

Browning, Charles E. (1976), Materials Engineering, Adjunct Professor—B.S., West Virginia University, 1966; M.S., Wright State University, 1970; Ph.D., University of Dayton, 1976.

Bueche, Frederick J. (1961), *Physics*, Distinguished Professor at Large—B.S., University of Michigan, 1944; Ph.D., Cornell University, 1948.

Chase, Donald V. (1993), *Civil and Environmental Engineering and Engineering Mechanics*,
Faculty

Chen, Rong-chin Carl (1977), Economics and Finance, Professor, William J. Hoben Research Scholar in International Business—B.A., National Taiwan University, 1969; M.S., Auburn University, 1973; Ph.D., University of Georgia, 1977.

Chowdhury, Mashrur A. (2000), Civil and Environmental Engineering and Engineering Mechanics, Assistant Professor—B.S., Bangladesh Institute of Technology, 1988; M.S., Morgan State University, 1991; Ph.D., University of Virginia, 1995.

Chuck, Leon (1989), Mechanical and Aerospace Engineering, Assistant Professor—B.S., University of Maryland, 1978; M.S., 1984.

Church, Kevin M. (1990), Chemistry, Associate Professor—B.S., University of Nebraska, 1982; M.S., University of Nebraska Medical Center, 1985; Ph.D., 1988.

Conniff, Brian P. (1990), English, Associate Professor—B.A., Rutgers University, 1978; M.A., University of Scranton, 1980; Ph.D., University of Notre Dame, 1984.

Cook, Rebecca Ann (2002), Counseling Center, Administrative—B.S., Purdue University, 1976; M.S., Indiana University, 1990; (cand.) Ph.D., University of Memphis, 2002.

Cox, Donna M. (1990), Music, Professor—B.A., Virginia Union University, 1979; M.M.,
Washington University, 1982; Ph.D., 1986.
Craver, Bruce A. (1978), Physics, Associate Professor—B.S., Purdue University, 1969; M.S., 1971; Ph.D., 1976.
Cusella, Louis P. (1985), Communication, Professor—B.A., Kent State University, 1971; M.A., Ohio State University, 1974; Ph.D., Purdue University, 1978.
Darrow, David (1996), History, Assistant Professor—B.A., University of Northern Iowa, 1986; M.A., University of Iowa, 1988; Ph.D., 1996.
Dartey, Doris (2001), Communication, Assistant Professor—B.A., Cape Coast University, Ghana, 1976; M.A., Ohio University, 1992; Ph.D., 1997.
Faculty

Davis-Berman, Jennifer L. (1986), Sociology, Anthropology, and Social Work, Professor—B.S., Denison University, 1979; M.S.W., Ohio State University, 1982; Ph.D., 1985.

Delgado, Clara S. (1993), Director, English Language and Multicultural Institute, Administrative — B.A., Murray State University, 1974; M.A., Wright State University, 1984.

DeLuca, Barbara M. (1975), Educational Leadership, Associate Professor—B.S., University of Dayton, 1971; M.Ed., Miami University, 1975; Ph.D., Ohio State University, 1984.

Dirckx, John H. (1967), Medical Director, Health Center, Administrative — B.S., University of Dayton, 1959; M.D., Marquette University School of Medicine, 1963.

Donaldson, Steven L. (1998), Civil and Environmental Engineering and Engineering Mechanics, Adjunct Assistant Professor—B.S., Purdue University, 1981; M.S., University of Dayton, 1987; Ph.D., Stanford University, 1993.

Elvers, Greg C. (1990), Psychology, Associate Professor—B.S., Purdue University, 1984; B.A., 1985; M.S., 1987; Ph.D., 1989.

Faculty

Fratini, Albert V. (1967), *Chemistry*, Professor—B.S., University of Rhode Island, 1960; Ph.D., Yale University, 1966.

Friese, Carl F. (1992), *Biology*, Associate Professor—B.S., University of Connecticut, 1982; M.S., University of Rhode Island, 1984; Ph.D., Utah State University, 1991.

Geary, K. Michael (1976), Accounting, Associate Professor—B.S., Indiana University, 1969; M.B.A., Miami University, 1974; Ph.D., University of Cincinnati, 1982; C.P.A., Illinois, 1975; Ohio, 1976.

Geiger, Donald R., S.M. (1964), Biology, Professor—B.S., University of Dayton, 1955; M.S., Ohio State University, 1960; Ph.D., 1963.

Goldmann, Eyal (2001), Physics, Lecturer—B.S., University of California, Los Angeles, 1992; M.S., University of California, San Diego, 1994; Ph.D., 1999.

Greenlee, Janet S. (1999), *Accounting*, Associate Professor—B.S., The Ohio State University, 1967; M.S.W., West Virginia University, 1973; M.B.A., University of California, Los Angeles, 1978; Ph.D., University of Kentucky, 1993.

Greer, Melinda L. (1997), *Chemistry*, Assistant Professor—B.S., Western Kentucky University, 1991; Ph.D., Vanderbilt University, 1997.

Griffin, Jeffrey L. (1990), *Communication*, Associate Professor—A.B., University of North Carolina, 1979; M.A., University of Texas, 1983; Ph.D., University of North Carolina, 1990.

Faculty

Harwood, Philip J. (1966), Communication, Associate Professor—B.S., Butler University, 1960; M.S., 1961; Ph.D., Ohio University, 1972.

Heitmann, John A. (1984), History, Professor—B.S., Davidson College, 1970; M.A., Clemson University, 1974; Ph.D., Johns Hopkins University, 1983.

Hiller, James M. (2001), Music, Lecturer—B.M., Capital University, 1982; M.M.T., Temple University, 1994; MT-BC.

Hofmann, Marie-Claude (1995), Biology, Associate Professor — M.S., University of Lausanne, Switzerland, 1977; Ph.D., 1988.

Hovey, Peter W. (2001), Mathematics, Assistant Professor—B.S., University of Dayton, 1975; M.S., University of Kentucky, 1977; Ph.D., 1980.

Hunley, Sawyer (1999), Counselor Education and Human Services, Assistant Professor—B.S., Miami University, Ohio, 1976; M.S., 1986; Ed.S., 1990; Ph.D., University of Cincinnati, 1998.

Hunn, Diana M. (1992), Teacher Education, Associate Professor—B.S., Miami University, 1972; M.Ed., 1973; Ph.D., Indiana University, 1986.

Inglis, John A. (1993), Philosophy, Associate Professor — B.A., University of St. Thomas, 1977; M.Div., University of Toronto, 1982; M.A., University of Houston, 1989; Ph.D., University of Kentucky, 1993.

Inscho, Frederick R. (1976), Political Science, Associate Professor—A.B., University of Detroit, 1968; M.A., State University of New York at Buffalo, 1972; Ph.D., 1976.

Islam, Muhammad (1985), Mathematics, Professor—B.S., University of Dhaka, Bangladesh, 1972; M.S., Carleton University, Ottawa, 1980; Ph.D., Southern Illinois University, 1985.
Faculty

Faculty

Korte, John R. (1973), Psychology, Associate Professor—A.B., University of California, 1967; M.S., Purdue University, 1970; Ph.D., 1973.

Koziol, Andrea M. (1993), Geology, Associate Professor — B.A., Boston University, 1983; Ph.D., University of Chicago, 1988.

Krane, Carissa M. (2001), Biology, Assistant Professor — B.S., Marquette University, 1990; Ph.D., Washington University, 1996.

Krugh, Janis L. (1987), Languages, Associate Professor—B.A., Ohio Northern University, 1974; M.A., University of Toledo, 1979; Ph.D., University of Pittsburgh, 1986.

Kumar, Binod (1980), Electro-Optics, Associate Professor — B.S., Banaras Hindu University, 1967; M.S., Pennsylvania State University, 1973; Ph.D., 1976.

Lain, Laurence B. (1976), Communication, Professor—B.S., Indiana State University, 1969; M.A.E., Ball State University, 1973; Ph.D., Ohio State University, 1984.

Lee, C. William (1982), *Chemical and Materials Engineering*, Professor—B.S., National Taiwan University, 1976; M.S., University of Akron, 1979; Ph.D., Ohio State University, 1982.

Faculty

Moraes, Beatriz B. de (2001), Law, Visiting Assistant Professor—B.A., Cedarville University, 1989; J.D., University of Dayton, 1998.

Mosser, Kurt (1992), Philosophy, Associate Professor—B.A., Southern Methodist University, 1979; M.A., University of Chicago, 1982; Ph.D., 1990.

Moulin, Eugene K. (1968), Counselor Education and Human Services, Professor—B.A., Mount Union College, 1956; M.E., Kent State University, 1959; Ph.D., University of Toledo, 1968.

Murray, Andrew P. (1996), Mechanical and Aerospace Engineering, Assistant Professor — B.S., Rose-Hulman Institute of Technology, 1989; M.S., University of California, Irvine, 1993; Ph.D., 1996.

Nelson, Peter B. (1979), *Political Science*, Assistant Professor—B.S., Florida State University, 1969; B.S., Florida International University, 1973; M.S.M., 1975; Ph.D., University of Mississippi, 1982.

Ostdiek, Francis R. (1996), *Mechanical and Aerospace Engineering*, Adjunct Associate Professor—B.S., University of Nebraska, 1957; M.S., 1959; Ph.D., Ohio State University, 1975.

Pair, Donald L. (1991), *Geology*, Associate Professor—B.S., St. Lawrence University, 1983; M.Sc., University of Waterloo, 1986; Ph.D., Syracuse University, 1991.

Faculty

Pierce, Jason L. (2002), *Political Science*, Assistant Professor—B.A., Southwestern University, 1994; (cand.) Ph.D., University of Texas at Austin, 2002.

Price, Byron E. (2002), *Political Science*, Assistant Professor—B.S., Texas Southern University, 1988; M.B.A., Oklahoma City University, 1991; M.B.A., Texas Southern University, 1993; (cand.) Ph.D., Mississippi State University, 2002.

Rodgers, Adrian (2001), Teacher Education, Assistant Professor — B.A., B.Ed., M.A., Memorial University, Canada; 1986; M.A., Ohio State University, 1997; Ph.D., 1999.

Rowe, John J. (1977), Biology, Professor—B.S., Colorado State University, 1968; M.S., Arizona State University, 1971; Ph.D., University of Kansas Medical Center, 1975.

Rowley, James B. (1989), Teacher Education, Professor—B.S., University of Dayton, 1969; M.S., Miami University, 1974; Ph.D., Ohio State University, 1989.

Ruh, Robert (1998), Materials Engineering, Adjunct Professor — B.S., Rutgers University, 1952; M.S., 1953; Ph.D., 1960.

Faculty

Sandy, Michael Reginald (1987), Geology, Professor—B.Sc., Queen Mary College, University of London, 1980; Ph.D., 1984.

Santamarina, Juan C. (1997), History, Assistant Professor—B.A., University of Wisconsin-Madison, 1989; Ph.D., Rutgers University, 1995.

Sathish, Samachary (1999), Materials Engineering, Adjunct Associate Professor—B.Sc., University of Mysore, 1974; M.Sc., 1976; Ph.D., 1986.

Scantlin, Ronda J. (2002), Communication, Assistant Professor—B.A., Bethany College, 1992; M.A., University of Kansas, 1995; Ph.D., University of Texas at Austin, 1999.

Schaller, Molly A. (1989), Counselor Education and Human Services, Assistant Professor—B.A., Ohio State University, 1987; M.S., Miami University, 1989.

Schauer, John J. (1968), Mechanical and Aerospace Engineering, Professor—B.M.E., University of Dayton, 1958; M.S., Carnegie Institute of Technology, 1959; Ph.D., Stanford University, 1964.

Schellhammer, Ulrike B. (2001), Languages, Visiting Assistant Professor—M.A., Rice University, 1989; Ph.D., 1993.

Seitzer, Jennifer (1998), Computer Science, Assistant Professor—B.M., West Chester State College, 1982; B.S., Arizona State University, 1985; M.S., University of Cincinnati, 1993; Ph.D., 1997.

Shaughnessy, Gerald J. (1967), Mathematics, Associate Professor—B.S., University of Dayton, 1963; M.S., Florida State University, 1964.

Faculty

Sheng, Qin (2001), *Mathematics*, Associate Professor—B.S., Nanjin University, 1982; M.S., 1984; Ph.D., University of Cambridge, 1990.

Faculty

Thompson, Teresa L. (1985), Communication, Professor — B.A., University of Wisconsin, 1975; M.A., Purdue University, 1976; Ph.D., Temple University, 1980.

Tibbetts, Paul E., Jr. (1969), Philosophy, Professor — B.A., Clark University, 1964; M.A., Boston University, 1965; Ph.D., Purdue University, 1973; Ph.D., University of Illinois, 1985.

Tillman, Beverly A. (1990), Teacher Education, Associate Professor — B.S., Miami University, 1974; M.A., University of Michigan, 1975; Ph.D., Ohio State University, 1992.

Titlebaum, Peter J., (1996), Health and Sport Science, Associate Professor — B.S., State University of New York at Brockport, 1982; M.S., Ohio State University, 1985; Ph.D., Temple University, 1993.

Faculty

Wendeln, Donald E. (1965), Engineering Technology, Adjunct Professor—B.M.E., University of Dayton, 1950.

Williams, P. Kelly (1973), Biology, Professor—B.A., University of Texas, 1966; M.S., University of Minnesota, 1969; Ph.D., Indiana University, 1973.

Wright, Shirley Jane (1993), *Biology*, Associate Professor—B.S., Loyola University, Chicago, 1981; M.S., 1983; Ph.D., University of Iowa, 1981.

Yoder, Donald D. (1989), *Communication*, Associate Professor—B.S., Iowa State University, 1973; M.A., University of Nebraska-Lincoln, 1975; Ph.D., Ohio State University, 1982.

Zhan, Qiwen (2002), *Electro-Optics*, Assistant Professor—B.S., University of Science and
Faculty

Technology of China, 1996; M.S.E.E., University of Minnesota, 2000; (cand.) Ph.D., 2002.

RESEARCH INSTITUTE STAFF

Abfalter, Garry H. (1988), Senior Research Engineer—B.M.E., University of Detroit, 1968; M.S., Oklahoma State University, 1972.

Ashbaugh, Noel E. (1982), Distinguished Research Engineer—B.S., Purdue University, 1962; M.S., 1963; Ph.D., University of California, 1971.

Blosser, Jami M. (1996), Part-Time Associate Research Environmental Specialist—B.S., Wright State University, 1996.

Bohun, Michael H. (1999), Research Engineer—B.S., Purdue University, 1977; M.S., Air Force Institute of Technology, 1981.

Brar, Nachhatter S. (1986), Senior Research Physicist — B.S., Panjab University, 1962; M.S., Punjabi University, 1966; M.S., Trent University, 1972; Ph.D., University of Western Ontario, 1979.

Chen, Chenggang (2000), Research Scientist — B.S., Hangzhou University, 1987; M.S., Zhejiang University, 1989; Ph.D., Case Western Reserve University, 1999.

Click, William E. (1965), Associate Materials Scientist.

DeWitt, Matthew J. (2001), Associate Research Engineer — B.S., Ohio State University, 1994; Ph.D., Northwestern University, 1999.

Gibson, Thao T. (1999), *Associate Research Engineer*—B.S., Virginia Polytechnic Institute and State University, 1997.

482

Henderson, Robert E. (2001), Senior Research Engineer—B.S., University of Missouri, 1961; M.S., Ohio State University, 1969.

Holthaus, Dennis F. (1979), Associate Safety Coordinator/Facilities Coordinator.

Johnson, Jay M. (2000), Part-Time Senior Research Chemist—B.S., Miami University, 1971; M.S., Wright State University, 1976; Ph.D., University of Cincinnati, 1981.

Research Institute

Rice, Brian Patrick (1986), Senior Research Engineer—B.S., Ohio State University, 1986; M.S., University of Dayton, 1990.

Sathish, Shamachary (1996), Senior Research Engineer — B.S., Yuvaraja College, 1974; M.S., University of Mysore, 1976; Ph.D., 1984.

Stubbs, David A. (1990), Senior Research Engineer—B.S., Miami University, 1980; M.S., 1981.

Sturgill, Jeffrey A. (1993), Research Engineer—B.S., University of Toledo, 1986; B.S., Wright State University, 1993.

Swierenga, Sarah J. (2002), Senior Human Factors Psychologist—B.S., Colvin College, 1982; M.S., University of South Dakota, 1984; Ph.D., 1986.

Thomas, Ronald L. (1999), Senior Internet/Programmer Analyst.

Toth, Douglas K. (1990), Research Lubricants Engineer—B.S., Southern Methodist University, 1987; M.S., Case Western Reserve University, 1989.

Wang, Chyi-Shan (1985), Distinguished Research Engineer—B.S., Tatung Institute of Technology, 1975; M.S., National Tsing Hua University, 1977; Ph.D., University of Cincinnati, 1983.
