To you, gallant thirty-one University of Dayton
men who under the banner of Mary Immaculate have
made the supreme sacrifice on the altar of liberty in
this present conflict, and to you, 1709 U.D. men and
women whose lives are dedicated to the perpetuation
of that cause for which your classmates gave their lives,
this pictorial is dedicated. Because that unquenchable
flame that burned in the hearts of our forefathers flares
to a new brilliance in your hearts and is symbolized
by our mariner's lamp, because those familiar words
"Pro Deo et Patria", embodying your deep sense of
love and spirituality, reflect in your every action, be-
cause your patriotic spirit took you from your class-
rooms, your desks, your laboratories, that this and
ensuing generations may help to achieve a free world,
we salute you, valiant daughters and courageous sons
of our Alma Mater!
SERVING his first year as president of the University of Dayton, Very Rev. George J. Renneker, S.M., M.A., Ed. D., was named in late summer to succeed Very Rev. John A. Elbert, S.M., M.A., Ph. D., as new head of the Marianist educational institution. Father Renneker's appointment came at the culmination of a quarter of a century of service to the University of Dayton and followed upon the observance of his sacerdotal silver jubilee in the Society of Mary on August 3, 1944.

The year 1919 was the beginning of his period of professional and graduate studies at the University of Fribourg in Switzerland where he was ordained to the priesthood in the Society of Mary on August 3, 1919. The same year he returned to U. of D., becoming instructor in history and the classical languages for four years.

In 1924 Father Renneker became vice-president. The next year he was appointed registrar, an appointment which placed upon him the burden of work and responsibility in the registrar's office wherein he established procedures and policies contributing to the accrediting of the school by the North Central Association of Colleges.

For his services which have been distinguished and valuable Father Renneker was honored by the University of Dayton with an honorary Doctor of Education degree at the April commencement in 1943. Our beloved president, who steadily rose to a position of high approval among his fellow Religious, is a fearless and aggressive champion of the principles for which the University of Dayton will always stand.

Francis J. Molz, S.M., Ph. D., head of the biology department, is associate dean of the division of science. He obtained his doctorate at the University of Fribourg in Switzerland in 1924. He is adviser of the Sigma Delta Pi, premedical honor society.

Daniel L. Leary, Ph. D., associate dean and professor of education, has been associated with schools in an administrative capacity for many years. He came to Dayton in 1937 from Quincy college.

Dr. Leary was awarded a B. A. degree from Creighton university, a master's degree from Peabody college, and a Ph. D. at Colorado State university.
COMING to the English department in 1938, Sister Agnes Immaculata, S.N.D., M.A. is serving her third year as dean of women. A Xavier university graduate, Sister Agnes Immaculata received her master of arts degree from the University of Notre Dame. She has pursued graduate work at the Catholic University of America.

Rev. Henry J. Kobe, S.M., is dean of the College of Arts and Sciences, director of evening classes and summer sessions, and head of the department of history. After completing his studies in Europe, Father Kobe became a member of the U. of D. history department in 1933. His appointment as instructional coordinator of the Army Specialized Training Program came in 1943.

Recently appointed to the post of head of the division of business administration, G. W. Nagel, S.M., M.A. came to U. of D. in 1941. In addition to his duties as assistant professor of history Brother Nagel is director of the University of Dayton Bureau of Selective Service.

He holds a bachelor's degree from the University of Dayton and a master of arts degree from Western Reserve university.

Austin J. Holian, S.M., M.S.E.E., is the newly appointed assistant dean of the College of Engineering. A graduate of U. of D., Brother Holian later studied at the Case School of Applied Science and received his bachelor's and master's degrees in electrical engineering from that institution.

He was a member of the Army Specialized Training Program.

UNDER the faculty changes made last August Rev. Charles L. Collins, S.M., B.A., Ph. D. was appointed vice-president, dean and registrar of the University of Dayton to which he was assigned as instructor in psychology in 1941. A year ago Father Collins took over his duties as assistant dean of the College of Arts and Sciences.

Having studied four years in Switzerland, Father Collins is closely associated with the University of Fribourg. It was there that he had obtained not only his master of arts degree but also had been ordained as a Marianist priest in 1936. Returning from Europe, Father Collins pursued further graduate studies in New York City at Fordham university where in 1941 he had received his Ph. D. degree.

As dean Father Collins measures all campus problems by the general welfare of the University of Dayton and never hesitates to condemn those which do not measure up. His broad view of all student problems does much for the students and wins for him a place in their hearts.

Recently, he attended a special 4-weeks' course at City College, New York, designed to prepare educational leaders to handle the problems of rehabilitation and readjustment of returning veterans. For the purpose of giving the best guidance to these men, an elaborate testing program has been set up at the University which will act as a volunteer college guidance center.
