DAYTON 9, OHIO

THE UNIVERSITY OF DAYTON BULLETIN

Volume LXXV  February, 1964  Number 2

Published by the University of Dayton, 300 College Park Avenue, Dayton, Ohio, 45409. Issued five times a year: twice in February, once in March, once in April, and once in June. Second class postage paid in Dayton, Ohio.

The University of Dayton Bulletin includes the admissions catalog issue, the undergraduate catalog issue, the graduate catalog issue, the evening session announcements, and the summer session announcements.

The provisions of the various issues of this Bulletin are to be considered directive in character and not as an irrevocable contract between the student and the University. The University reserves the right to make any changes that seem necessary or desirable.

The current number of any of these publications may be obtained by applying to the Dean of the University.

General Information

THE UNIVERSITY OF DAYTON

The University of Dayton is a medium-size, private, coeducational school with a growing reputation for academic achievement. Located in the heart of the midwest, it attracts its student body from the local community, the state of Ohio and other midwest and eastern states, and a number of foreign lands. With a full-time student body of more than five thousand, the University of Dayton is the second largest private institution of higher learning in the state and is ranked tenth in size among the nation's Catholic colleges. It includes four schools and colleges offering a large selection of study ranging from art and philosophy to geology and computer science.

Founded more than a century ago by the Catholic teaching order of the Society of Mary (Marianists), the University numbers among its students representatives of many faiths. All students, however, partake of the friendly, family spirit for which the campus is known.

The campus itself is located on a seventy-six acre hilltop at the southern edge of the city of Dayton where older and newer buildings are blended into a pleasant setting. A West campus, just several minutes distant from the Main campus, also is of seventy-six acres: it is used primarily for housing of freshman men.

A well-qualified faculty of priests, Brothers, Sisters, and laymen provides the student the "competent instruction, tempered discipline, and prudent counseling" which the University sees as one of its principal aims.

A placement service for students and graduates; very reasonable tuition rates and financial aid plans; varied religious, social, and cultural opportunities; a trimester-type academic calendar providing a number of different study-recess possibilities; and high-caliber intercollegiate and intra-mural athletic programs are but a few of the "features" which contribute to the character of the University of Dayton.
UNIVERSITY GOALS

Education, which has as its ultimate aim to prepare man for what he must be and what he must do here below in order to attain the sublime end for which he was created, is necessarily a lifelong process in which many agencies participate. As one of these agencies, concentrating its efforts in the area of higher education, the University of Dayton professes to provide an academic atmosphere in which Christian principles of thought and action are the essential integrating and dynamic forces impelling the student to pursue, to cherish, and to disseminate what is true, good, and beautiful.

In promoting this formation the University envisions the harmonious development of the student's natural and supernatural capacities and contributes to this objective by helping him to acquire and develop sound religious and moral convictions, broad knowledge and basic intellectual habits, physical vigor and emotional stability, keen awareness of social responsibility, specialized professional attitudes and competencies.

To assure the achievement of these objectives the University endeavors to provide for all its students competent instruction, tempered discipline, and prudent counseling, together with appropriate physical surroundings and opportunities for participation in a variety of curricular and extracurricular activities.

The University is convinced that by imparting such a well-rounded education to as many students as possible, it is preparing worthy members for both the Church and the State. Moreover, by offering to these institutions its physical and human resources for the discovery and dissemination of truth and for the rendering of those specialized educational services that fall within the area of its competence, the University seeks to fulfill as fully as possible the mission to which it is committed by its official motto—Pro Deo et Patria, For God and Country.
HISTORICAL SKETCH

The University of Dayton traces its history to the year 1850 when a modest primary school for boys, known as St. Mary's Institute, was opened in Dayton. Operating the little school was a group of Catholic missionaries who had left their native France just a year earlier to bring their educational work to America. These priests and Brothers were members of the Society of Mary, a religious order founded in 1817 by Father William Joseph Chaminade.

These pioneer Marianists (as Society of Mary men were called) were fortunate, while conducting their ministry in Dayton, to become acquainted with a certain Mr. John Stuart, scion of the royal family of Scotland. Mr. Stuart sold the Marianists his one-hundred-and-twenty-acre "Dewberry Farm" just south of the city—an ideal, hilltop property for a school. The following summer, in 1850, fourteen pupils began classes in the homestead of Dewberry Farm.

From that humble beginning St. Mary's Institute grew. Some years later, it became St. Mary's College, and then in 1920, at age seventy, the school became the University of Dayton.

Its growth and progress continued. When the school adopted its present name, enrollment was one hundred and seventy-one. In 1937, two years after coeducation was introduced, it passed the thousand mark. Following World War II, enrollment at the University of Dayton—as at most other colleges and universities around the country—expanded rapidly. In 1946, almost three thousand students registered, and in 1963, a record total enrollment of more than seven thousand was attained.

Growth in numbers does not necessarily represent progress, of course. While enrollments grew, new programs on both undergraduate and graduate levels were initiated, curriculums and methods of presenting them were streamlined. New buildings to house various departments and activities were built at a rapid pace. Professional and educational groups recognized the University's work with accreditations and approvals.
Today, in its one-hundred-and-fifteenth academic year, the University of Dayton includes the College of Arts and Sciences, Graduate School of Arts and Sciences, School of Business Administration, School of Education, School of Engineering, and Technical Institute. In all, thirty-seven departments of instruction function on the campus, awarding twenty-four different degrees on the associate, baccalaureate, and graduate levels. These degrees are:

Bachelor of Arts
Bachelor of Science
Bachelor of Fine Arts
Bachelor of Music
Bachelor of Science in Home Economics
Bachelor of Science in Medical Technology
Bachelor of Science in Nursing
Bachelor of Science in Business Administration
Associate in Business Administration
Bachelor of Science in Education
Bachelor of Science in Art Education
Bachelor of Science in Home Economics Education
Bachelor of Science in Music Education

Bachelor of Chemical Engineering
Bachelor of Civil Engineering
Bachelor of Electrical Engineering
Bachelor of Industrial Engineering
Bachelor of Mechanical Engineering
Associate in Technology
Master of Arts
Master of Business Administration
Master of Science
Master of Science in Education
Master of Science in Engineering

ACCREDITATION

The University of Dayton is officially accredited by the North Central Association of Colleges and Secondary Schools. Other official accreditations include those of the State of Ohio Department of Education, the National Council for Accreditation of Teacher Education (for preparation of elementary and secondary school teachers), the Engineers' Council for Professional Development (for civil, electrical, and mechanical engineering curricula, and for electronic, industrial, and mechanical engineering technology programs), and the Council on Social Work Education (for sociology). The University has the approval of the American Medical Association (for its pre-medical program) and of the American Chemical Society (for its programs in chemistry).

In addition to these accreditations and approvals, the University holds institutional memberships in the Association of American Colleges, the American Association of Colleges for Teacher Education, the American Council on Education, the American Society for Engineering Education, the National Catholic Educational Association, the National League for Nursing, the Ohio College Association, the International Council on Education for Teaching, the Association of Urban Universities, and the American Association of University Women.
UNIVERSITY ORGANIZATION AND PROGRAMS

The University comprises the College of Arts and Sciences, Graduate School of Arts and Sciences, School of Business Administration, School of Education, School of Engineering, and Technical Institute. In addition to the regular day session, the University also conducts evening and summer sessions and offers short-term non-credit courses, conferences, and institutes through a Special Sessions program.

College of Arts and Sciences

The College of Arts and Sciences, largest of the University's six academic units and traditionally the basic unit, includes twenty departments: Biology, Chemistry, Communication Arts, Computer Science, English, Fine Arts, Geology, History, Home Economics, Languages, Mathematics, Music, Nursing, Philosophy, Physics, Political Science, Psychology, Sociology, and Theological Studies.

Pre-professional courses are offered in dentistry, dietetics, foreign service, journalism, law, medicine, optometry, pharmacy, radio and television broadcasting, social service, and veterinary medicine. In cooperation with St. Elizabeth, Good Samaritan, and Miami Valley hospitals, courses are given in medical technology. Affiliation with the Dayton Art Institute makes it possible for students to work for the Bachelor of Fine Arts degree. Affiliation of the Dayton Junior Philharmonic Orchestra with the University provides music students an opportunity for valuable musical practice and experience.

Graduate School of Arts and Sciences

Programs leading to the degrees of Master of Arts or Master of Science are offered in biology, physics, mathematics, chemistry, history, philosophy, theological studies, and English. Programs in other fields in the arts and sciences are being prepared.

School of Business Administration

The School of Business Administration offers undergraduate majors in accounting, business management, industrial management, marketing, personnel management, and economics. On the graduate level, the School awards a Master of Business Administration degree. Also offered is a two-year course in secretarial studies leading to an associate degree.
SCHOOL OF EDUCATION

The School of Education prepares teachers for the elementary and secondary levels and for such specialized fields as art, music, speech, business, health and physical education, and home economics. It conducts retraining and post-graduate programs, and offers four graduate programs leading to the degree of Master of Science in Education. These four programs are designed to prepare school administrators, guidance counselors, school counselors, master elementary teachers, and master high school teachers.

SCHOOL OF ENGINEERING

The School of Engineering includes the departments of Chemical Engineering, Civil Engineering and Engineering Mechanics, Electrical Engineering, Industrial Engineering, and Mechanical Engineering. The School offers a graduate program leading to the degree of Master of Science in Engineering.

TECHNICAL INSTITUTE

Five-term programs leading to the Associate Degree in Technology are offered by the Technical Institute, which includes the departments of Chemical Technology, Electronic Engineering Technology, Industrial Engineering Technology, and Mechanical Engineering Technology.

SPECIAL SESSIONS

Most of the programs presented during the regular day sessions are offered also in the Evening and Summer Sessions, enabling students to work toward degrees on a part-time basis. These sessions are governed by the same policies and regulations prevailing during the Day Session.

In addition, specialized non-credit, adult education courses are offered through Special Sessions. Management development and continuing education programs are conducted for business, industry, government, schools, the professions, and the general public.
RESEARCH INSTITUTE
As an integral unit of the University, the Research Institute administers sponsored research that the University agrees to perform for commercial organizations and governmental agencies. Research projects concerned with a single discipline are normally performed by the appropriate department of instruction, whereas the larger projects that are primarily multi-disciplinary in character are performed within research laboratories under the jurisdiction of the Research Institute. A strong emphasis is placed on the integration of all research with the instructional activities of the University and a concerted effort is made to provide opportunities for undergraduate as well as graduate students to acquire experience and training in the methods of research.

MARIANIST COLLEGE
Marianist College is located five miles to the east of the Main campus. It is the house of studies for religious members of the Society of Mary, the Marianists. These students pursue their collegiate studies at Marianist College and at the University of Dayton. The freshman year is taken exclusively at Marianist College; thereafter, they attend regular classes at the University, but may continue to take some courses at Marianist College.
CALENDAR
The University of Dayton operates on a “Split Third-Term” calendar. This modern calendar, detailed on page 4, comprises a fall and a winter term, each of fifteen weeks, and a spring-summer term which is split into two seven and a half-week units. The advantages of such a calendar, for varying the vacation periods or for accelerating the study program, are many. A student may enroll for the traditional fall and winter terms and take the normal summer vacation; or he may add each summer a half term or full term in order to complete graduation requirements sooner. The student who must work to put himself through school will have additional time in the spring and summer for employment; or he may enroll for the spring-summer term and use either the fall or winter term as a vacation period when the employment market is not crowded with other college students. Each student is free, within the broad limits of the calendar, to construct his own study-vacation plan.

LOCATION
The University of Dayton Main Campus is located near Patterson Boulevard (Interstate Route 75) toward the southern city limits of Dayton. Directional signs posted throughout the area facilitate travel to the campus.

The West Campus is located on Germantown Pike (State Route 4 West) near the intersection of Gettysburg Avenue. City bus routes serve both campuses.

CAMPUS AND BUILDINGS

Principal buildings on the Main Campus, with the date of construction of each in parentheses, are as follows:

**ALBERT EMANUEL LIBRARY (1928)**

This is the University's main library, housing more than one hundred and sixty thousand books and bound journals. Branch operations of the library are located in other buildings on the campus. The building, now being enlarged by the addition of two sizable wings, was erected by the late Victor C. Emanuel, an alumnus, in memory of his father. Occupying one wing of the building is the internationally famed Marian Library, containing the largest collection of Mariana in the western hemisphere.

**UNIVERSITY FIELDHOUSE (1950)**

Home base of the Dayton Flyers, nationally prominent University basketball team, the Fieldhouse also houses the offices of the Department of Athletics and the Department of Health and Physical Education. University convocations and commencement exercises are conducted in this six-thousand-seat arena.

**FLYERS HANGAR (1962)**

A smart snack shop and cafeteria, the "Hangar" is a popular between-classes gathering place for students.

**BAUJAN FIELD (1925)**

The University football stadium, with a seating capacity of fourteen thousand, is named for Harry C. Baujan, long-time athletic director at the University.

**ST. JOSEPH HALL (1884)**

One of the oldest buildings on the campus, St. Joseph Hall has seen many uses. It now houses classrooms and laboratories, faculty offices, and the administration of the Technical Institute.
CHAPEL OF THE IMMACULATE CONCEPTION (1868)
Dedicated to the patroness of the University, the main chapel is the focal point of religious life on the campus.

ST. MARY HALL (1870)
When it was built, St. Mary Hall was the largest building in the city of Dayton. For many years, practically the entire school was centered in its five floors. Today it houses the University's principal administrative offices, the Deans of the Schools of Engineering and Business Administration, and the Psychological Services Center as well as a number of classrooms.

WOMEN'S GYMNASIUM AND MUSIC BUILDING (1874)
Headquarters of the women's physical education program (first floor) and the Department of Music (second floor), this building was originally a "Play House" and chemistry laboratory.

POST OFFICE (1903)
The University's postal service includes a federal Post Office contract station, assuring efficient service features for the campus.

CHAMINADE HALL AND ARCADE (1904)
Named for the founder of the Society of Mary, Father William Joseph Chaminade, this building provides the quarters of the School of Education. The Arcade joins Chaminade Hall to St. Mary Hall.
LIBERTY HALL (1866)
This small, two-story structure is used as a service building.

ZEHLER HALL (1865)
The oldest of the present campus buildings, Zehler Hall houses faculty offices and the University Bookstore.

POWER HOUSE (1898)
Heat and power for older campus buildings is supplied through this facility. The University laundry also operates in the Power House.

RELIGION BUILDING (1921)
The Department of Theological Studies has its offices and classrooms in this building.

JOHN F. KENNEDY MEMORIAL UNION (1964)
The "University Living Room" includes a little theater, cafeteria and snack shop, ballroom, art galleries, lounges, bowling alleys, and other "student-union"-type facilities. It is named for the late President of the United States.

SCHOOL OF BUSINESS ADMINISTRATION (1965)
Construction of this modern classroom and office building is now under way for the School of Business Administration.

SHERMAN HALL OF SCIENCE (1960)
Honoring the late John Q. Sherman, distinguished Dayton industrialist and philanthropist, Sherman Hall includes the administrative offices of the College of Arts and Sciences, classrooms and laboratories of departments of Biology, Physics, Nursing, Home Economics, Psychology, and Mathematics, and the Computation Laboratory.

WOHLLEBEN HALL (1958)
The departments of Chemistry, Chemical Engineering, and Geology, and administrative offices of the Research Institute are located in Wohlleben Hall, named for Brother William J. Wohlleben, Marianist Brother who introduced chemistry and chemical engineering studies to the campus.

ALUMNI HALL (1924)
This faculty residence for members of the Society of Mary is also the location of the University Health Center.

FOUNDERS HALL (1954)
Honoring the founders of the University, this men's residence hall is conveniently located in the center of the campus.
ROTTC Building (1952)

Regarded as the finest ROTC facility in the Army's Twentieth Corps area, which includes Ohio, Kentucky, and West Virginia, the building is the headquarters of the Department of Military Science. Among its outstanding features is a large indoor rifle range.

Mechanical Engineering Laboratory (1948)

Laboratories of several engineering departments are located in this building which was originally a drill hall at Camp Perry, Va. It was dismantled and brought to Dayton, rebuilt and bricked.

Marycrest (1962)

Newly enlarged, Marycrest is the University's first and only residence hall for women. It is home for more than nine hundred women students, and has its own cafeteria, lounge, and chapel.

Stuart Hall (1963)

This new men's residence hall provides modern accommodations for some seven hundred students. Its name honors John Stuart from whom the pioneer Marianists obtained the original University property.

West Campus, University Hall

In 1960, the University acquired through the federal government surplus program a large property in the western section of Dayton which had been a part of the vast Veterans Administration Center. The property included a large hospital building. This building was converted into University Hall and the entire property, including housing facilities, cafeteria, classrooms, and indoor and outdoor recreational areas, is known as the West Campus. Residents of this campus are primarily freshman men. Regularly scheduled busses bring students back and forth from the Main Campus throughout the day and evening hours.
RESERVE OFFICERS TRAINING CORPS (ROTC)

The Department of Military Science conducts the Reserve Officers Training Corps (ROTC) program on the campus, providing instruction in general military subjects applicable to all branches of the Army.

Objective of the program is to produce junior officers who by their education, training, and inherent qualities of leadership are suited to continued development as officers in the Army of the United States.

The ROTC program is divided into a basic and an advanced course. All male students (unless registered in the Technical Institute) who are physically qualified and have not completed the basic course or its equivalent are required to enroll in the basic course during the freshman and sophomore years. For eligible students, satisfactory completion of the basic military course is a prerequisite for graduation from the University. Students in the basic course are excused from the physical education requirement.

Admission to the advanced course, which is also a two-year program, is on an optional-selective basis, requiring approval of the President of the University and the Professor of Military Science. Once begun, the advanced course automatically becomes a prerequisite for graduation from the University.

Satisfactory completion of the advanced course qualifies the student for consideration for commission as a second lieutenant in the Army Reserve. In addition, selected outstanding students may become eligible for commission in the Regular Army.

Students enrolled in military courses are issued appropriate uniforms, insignia, books, and other equipment. Those in the advanced course receive approximately twenty-seven dollars a month; but while in attendance at summer camp, which is required of all advanced students between their junior and senior years, they receive seventy-eight dollars a month plus travel expenses from home to camp and return.

Flight training, which leads to a pilot's license, is an optional feature of the ROTC program.

Subject to deferment quota limitations which are prescribed by the Selective Service Act, selected ROTC students are deferred from induction into the Armed Forces as long as they remain in good standing in their academic and military courses.
II

Student Life and Services

RESIDENCE FACILITIES
Living together with fellow students from many parts of the world is, the University of Dayton feels, a vital part of a college education. Thus, it is the University's policy that all freshmen, men and women, live in one of several campus residence halls, unless their home is within commuting distance.

Campus residence halls are designed and maintained to provide as pleasant accommodations as possible.

There are four such residence halls for men at the University. Most freshmen live in University Hall on the West Campus; others in the new Stuart Hall on the Main Campus. Upperclassmen, for the most part, live in Founders Hall.

Women students reside in the new Marycrest Residence Hall.

Accommodations in all the residence halls are mostly semiprivate. Rooms contain twin- or double-deck beds, desks, and ample closet space for clothes. Bed linens are supplied. Students are required to furnish only their own towels and blankets and study lamps.

Each residence hall has a head resident, who gives general direction to the affairs of the hall. In addition, each floor has an upperclassman as advisor. Each hall has available the counseling and religious direction of a chaplain, whose offices are usually located adjacent to the hall's chapel.

At the University of Dayton, residents of the individual halls engage in many cooperative efforts. Some have their own small newspaper; many take part in intramural athletics as representatives of their residence halls. A spirit of cooperation is encouraged in all the halls, with students in similar fields living in nearby rooms.

Recreational areas and quiet study areas are within easy reach of all rooms.

Overall supervision of residence halls is in the hands of the Dean of Men and the Dean of Women. Requests for information concerning accommodations in the halls should be addressed to them.
DINING FACILITIES
The University's food service is operated in four principal facilities. The main cafeteria is located in the University Center and contains a dining area seating four hundred students. Adjacent to this facility in the Center is a snack bar where light lunches may be obtained.

Marycrest cafeteria is located in the women's residence hall and is a smartly decorated modern dining room.

The University Hall cafeteria, located on the West Campus, serves the students residing in this residence hall.

The Flyers Hangar serves light lunches consisting of sandwiches, salads, soups, pastries, and beverages. It is a popular meeting place for the student body during the day and the early evening hours.

All food service on both campuses is operated under the direction of a professional manager, with qualified assistants managing each of the separate facilities.

Well-rounded, appetizing meals are served attractively in quantities appropriate to the needs of still growing young men and women. Food service is of such proportions at the University that more than a million meals a year are served in the four cafeterias.
STUDENT ORGANIZATIONS

The University of Dayton campus abounds in student organizations. Any student from any part of the world, no matter what his interest, will find at least one group on the campus from which he will derive benefits and in turn benefit the group.

Included are student government units such as the student council and the central women’s organization; religious clubs such as Christian Careers Unlimited and the Sodality; social groups such as the International Club, and the many area organizations such as the Cleveland and Cincinnati and Knickerbocker and Illini clubs; co-curricular or academic organizations from the Art Club and Debate Team to the honor societies in the various colleges and schools; and there are musical, military, and athletic clubs—all designed to help the student further his educational, religious, or social well-being while at the University. Students also publish a weekly newspaper, a quarterly literary magazine, an annual pictorial review, and other special interest publications.

Each of the campus clubs elects its own officers and has a member of the faculty as adviser.

At the beginning of each academic year, students are issued a handbook in which every organization is described in detail. And during the regular orientation week early each year, new students are invited to become members of the various clubs.
RELIGIOUS LIFE
As a Catholic college, the University of Dayton places a great emphasis on the religious life of the student. All Catholic day students are required to attend a weekly chapel service on campus at which Mass is offered and opportunities for the reception of the sacraments are provided. Regular attendance, it is felt, insures the integration of thought and action, of belief and practice, which is envisioned by the University in its professed purposes. At the same time, by enabling the students to pray and worship together, a spirit of unity and solidarity is fostered among them creating a genuine Christian atmosphere on the campus.

Mass is celebrated in the Chapel of the Immaculate Conception (the main chapel) six times each morning during the week and five times on Sunday. At least one early morning Mass is offered daily in the chapels of the residence halls. Confessions are heard before, during, and after all Masses in the main chapel.

Special devotions on certain feasts are regularly offered, such as the annual Rosary Rally, and the annual May Day for Mary ceremonies. An annual one-day retreat is expected of each University student and such exercises are regularly scheduled. Two nearby Retreat Houses make it convenient for a student, if he so desires, to engage in a week-end retreat.

The chaplain of the University supervises all spiritual group activities of the student body and of all religious organizations. The many priests on the faculty, under the direction of the chaplain, are available at all times for counseling on moral, religious, or social matters.

TESTING
The University Psychological Services Center provides a complete testing program for the students of the University, and for industry and the community at large. Besides this local service, the Testing Center conducts testing programs for Catholic elementary and high school students in fifteen States and is under contract to the U. S. Government to administer the National Defense Education Act (N.D.E.A.) tests in secondary schools in thirty-eight States.
COUNSELING AND GUIDANCE

In addition to the testing services for University students which are used to help the student identify his talents and aptitudes and thus guide him into proper fields of study, the Psychological Services Center offers the student the opportunity to seek advice in personal, social, and academic problems which he may encounter.

Well-qualified psychologists direct and participate in the work of the Center—work which goes beyond the campus to provide counseling, guidance, and other psychological services to schools, business, and industry.

Specific counseling in all study areas is provided by the deans of the schools and colleges, by the departmental chairmen, and by individual faculty members who are available throughout the day, subject to their administrative and teaching schedules.

PLACEMENT

The University maintains a placement office which energetically assists students in securing part-time work to help them financially while attending school. Details of this operation are treated under “Financial Aids” below.

In addition to the efforts in behalf of students, the placement office also maintains an exceptional liaison with business and industry throughout the nation, and arranges interview sessions between recruiters and senior students, assisting the graduating student in his choice of prospective employment or association. This same service is also provided the University’s alumni without charge.

STUDENT HEALTH SERVICES

Centrally located in Alumni Hall, the University Health Service provides a well-staffed and well-equipped operation to safeguard the health of the student. The University physician, on call at all hours, is on duty during morning hours daily for advice and treatment. A staff of ten professional nurses works around the clock.

Full-time students may come to the Health Service for out-patient treatment by the staff on duty at the time, and no restriction is made on the number of visits. Ordinary medications are provided without charge when ordered by the attending physician.

Students whose permanent residence is not within commuting distance may avail
themselves of the in-patient service of the infirmary at a nominal cost. When the case warrants, students are transferred to local hospitals.

Infirmary or hospital costs are covered for the most part by the highly recommended student insurance program which is available to all full-time students. Blue Cross and Blue Shield family coverage expires when the student reaches age nineteen, and this student insurance plan continues much of this coverage at a nominal rate. (Full information on this program may be obtained by writing to the Office of Student Accounts.)

STUDENT IDENTIFICATION CARDS
At the beginning of the school year, each student secures a student identification card (I.D. card) which he carries with him at all times. Provision for obtaining the card, complete with the student's photograph, is made during registration procedures. The I.D. card is vital to the student, since it is necessary for participating in student elections or other activities for which official identification is necessary. It must be shown in order to obtain tickets to certain athletic events.
PARKING
Parking facilities are extremely limited on the Main Campus. Those that are available are restricted to commuting students who live some distance from the campus, and all such parking is by permit only. Ordinarily only full-time students may apply for permits. Students residing on the West Campus are permitted to have cars and to park them on campus.

CULTURAL ACTIVITIES
Principally through its very successful University Arts Series, but as well through various other programs throughout the year, the University of Dayton provides for the student well-planned and coordinated opportunities for association with high-level intellectual and cultural ideas and personalities.

Among renowned guests to appear on the University Arts Series have been Contralto Marian Anderson, Poets Louis Untermeyer, John Ciardi, and W. H. Auden, Philosopher Mortimer Adler, Publisher Frank Sheed, Illinois Senator Paul Douglas, the Roger Wagner Chorale, the Dayton Civic Ballet, Journalists Drew Pearson, Marquis Childs, Ralph McGill, and Harry Golden. The Dayton Philharmonic Orchestra, the University Concert Band and the University Choir appear each year.

Arts Series programs are given on the campus in mid-day, making attendance convenient for the student. Since the series, which has been extremely well-received, is supported through the student activities fee, there is no admission charge for the individual programs.

In addition to this series, many other continuing programs are offered for the student each year. Among these are the regular productions of the talented University Players; the University Lecture Series, presenting members of the faculty in an eight-week program of intellectual discussions; the Evening Religion Series, bringing to the campus outstanding theological scholars; annual lectures sponsored by the Department of History in which known historians are brought to the University; and lectures by outstanding men and women in many other fields of interest.

Many outstanding musical, dramatic, and artistic programs are given throughout the year in the Dayton community. Most offer student rates and are well advertised on the campus.
SOCIAL LIFE

Realizing that “all work and no play” will indeed dull the young student, the University of Dayton provides and encourages participation in a wide variety of social functions.

Small informal social events are given on the campus almost every week end. Bigger, more formal occasions, such as the Homecoming Dance, or the Junior Prom, are usually held off the campus. All social functions are attended by members of the faculty, acting as chaperones.

RECREATION

Both campuses of the University are equipped with recreational areas where, over and above intramural programs on an organized basis, the student may take part in recreation. Each residence hall has its own recreational areas; the Fieldhouse on the Main Campus and the gymnasium on the West Campus have facilities for individual calisthenics and similar programs. The new Kennedy Union includes bowling alleys, browsing rooms, music and art rooms. Tennis courts, outdoor and indoor basketball courts, baseball diamonds, and playfields are available on both campuses. During the winter months, skiing, tobogganing, and ice skating in nearby parks are popular with students. Downtown Dayton has a number of fine theaters and several campus organizations frequently present recent motion pictures in campus auditoriums as fund-raising ventures; these are well attended.
ATHLETICS

Participation in athletics is an integral part of the educational development that the University strives to achieve for all its students. This applies both to intercollegiate and intramural athletics.

All students are encouraged to engage in some form of athletic competition according to their ability. This is particularly emphasized for students majoring in physical education, for whom the various athletic activities have special importance in view of the career for which they are preparing.

The University feels that athletics, intercollegiate and others, cultivate a sense of unity which is one of the important factors in student morale.

Many persons throughout the country have come to know the University of Dayton through the accomplishments of its basketball team, the Dayton Flyers. Highly ranked among the nation's independents, the Flyers in 1962 won the coveted championship of the National Invitation Tournament. The University also engages in intercollegiate competition in football, baseball, tennis, golf, soccer, ice hockey, and field hockey.

There are highly competitive intramurals in all sports, in which many students take an active part.
III
Admissions

REQUIREMENTS FOR ADMISSION
For admission to a freshman class, the applicant must submit a written application, a satisfactory high school record, and results of the Scholastic Aptitude Test (mathematics and verbal) of the College Entrance Examination Board. The application must be on a form which the prospective student may obtain by writing the Director of Admissions.

A student is allowed to register only after all credentials have been received and evaluated and a registration permit has been issued.

The applicant for the freshman class must present sixteen units from a high school accredited by some regional accrediting association or by a State Department of Education, and have a total record indicating likelihood of success in college.

Certain courses of study require specific entrance units, as follows:

College of Arts and Sciences
For the Bachelor of Arts Degree:
English 3-4; Language 2; Algebra 1, Geometry 1; Laboratory Science 1.

For the Bachelor of Science Degree:
English 3-4; Language 2; Algebra 2; Geometry 1; Chemistry or Physics 1.

School of Business Administration
For the Bachelor Degree:
Algebra 1½; Geometry 1.

School of Education
English 3-4; History 2; Science 1. (Laboratory)
Additional for Elementary Education:
Algebra 1; Geometry 1; Foreign Language 2.

Additional for Secondary, Music, Art, Speech Education:
Either Algebra 1 and Geometry 1 or Foreign Language 2.

Additional for Physical and Home Economics Education:
Mathematics 1, a second science.
School of Engineering
Algebra 2; Geometry 1; Trigonometry $\frac{1}{2}$; Physics 1; Chemistry 1.

Technical Institute
Mathematics 2, at least one of which must be Algebra.

All exceptions to the above admission rules must be approved by the Academic Council.

Students who are obliged or elect to follow courses in mathematics will be assigned to courses only after submitting to a qualifying test. Placement in mathematics is on the basis of this test. This applies to both freshman and transfer students.

The University bases its acceptance of a prospective student on the satisfactory high school record; recommendation of the high school principal; and the results of the College Entrance Examination Board tests.
ADMISSIONS

ADVANCED PLACEMENT

The University accepts the advanced placement program offered to secondary schools under the auspices of the Advanced Placement Committee of the College Entrance Examination Board.

The University will give not only advanced placement but also credit to students enrolled in the program, provided that such students have taken the tests provided and scheduled by the College Entrance Examination Board and have received a favorable interpretation grade from the Educational Testing Service.

Students desirous of receiving advanced placement under this program are to arrange that test scores be sent to the University Office of Admissions, which will grant advanced standing with or without credit in the appropriate subject areas. Credit, when given, will be recorded as Em credit and will be determined by the interpretation grade:

For a score of “5”, two terms of advanced standing with credit;
For a score of “4”, one term of advanced standing with credit;
For a score of “3”, one term of advanced standing with credit;
Scores below “3” do not entitle the applicant to either credit or advanced standing.

High school students in the senior year may under certain conditions take courses at the University of Dayton for advanced standing with credit. Interested students should seek further details from the Registrar.

TRANSFER STUDENTS

The admission of transfer students is controlled by a special Committee on Admissions comprising the Dean of the University, the Director of Admissions, and the Dean of the school concerned.

In addition to the credentials required of all applicants, a transfer student must present an official transcript of credits and a statement from the school last attended confirming that he was honorably dismissed and that the school would be willing to enroll him again.
The University, through the executive officer of the Admissions Committee, will accept transfer students in the following categories:

1. students who have established credit in less than thirty-two semester hours work (or the equivalent) with a grade point average of 2.00 or higher out of a possible 4.00;

2. students who have established credit in not less than thirty-two semester hours work nor more than sixty-three semester hours work (or the equivalent) with a grade point average of 2.25 or higher out of a possible 4.00;

3. students who have established credit in sixty-four semester hours work (or the equivalent) with a grade point average of 2.50 or higher out of a possible 4.00. (Grade point averages will be calculated on the basis of all work taken and in University of Dayton equivalents.)

Transfer students who cannot meet the above requirements but who feel that, by reason of extraneous circumstances, their cases merit additional consideration, may have their applications referred to the Committee on Admissions for final decision. Such referrals must be made to the Committee no later than two weeks prior to the first day of registration for the term in which enrollment is desired.
APPLICATION AND ADMISSIONS PROCEDURES

The prospective student should write to the Director of Admissions requesting application forms. This request should be made at the beginning of the applicant's senior year in high school.

After completing the forms, the applicant must affix a check or money order in the amount of ten dollars, made payable to University of Dayton, and present the application to his high school principal.

The principal completes those portions of the forms so designated (recommendation of the applicant, and official records of high school performance) and mails them to the University.

If the applicant is in the upper half of the class his application is given immediate attention by the Committee on Admissions. If he is not within the upper half of the class, his application is held until he has completed seven semesters of high school and grades are received.

After the Committee on Admissions studies the application, the applicant is notified if he has been found "acceptable" or not. Those "acceptable" must, within thirty days of such notice, forward a twenty-five dollar deposit—the applicant's assurance to the University that he intends to register.

Prospective students who have designated on their applications that they wish to live in campus housing will receive a contract for such accommodations. This must be properly filled in, and a fifty dollar deposit made.

These two deposits are applicable to the student's bill at the first registration, except for ten dollars of the housing deposit which is retained to cover possible damage to his room during occupancy.

EDUCATION OF VETERANS

All departments of the University have been approved by the Veterans Administration for training under United States Code, Title 38, Chapters 31, 33, and 35. Credits earned during military service are accepted after an evaluation in terms of the University's standards and the course of study for which the veteran applies. An adequate counseling service is available under the direction of the Veterans' Adviser whose office is located in Room 114, St. Mary Hall.

PHYSICAL EXAMINATIONS

Physical examinations are required of all new students. These examinations are to be performed by a private physician of the student's choice and the results submitted on the special form supplied by the Office of Admissions. The form must be returned, completed, to the admissions office for transmittal to the University Health Service to fulfill admission requirements. This must be done prior to registration.
IV
Financial Information

GENERAL POLICY
The tuition and fee charges of the University are set at the minimum permissible for financially responsible operation, and in general, these charges are less than the actual costs incurred. Gifts and grants received through the generosity of industry, friends, and the alumni of the University help to bridge the difference between income and costs. When need arises, the trustees of the University reserve the right to change the regulations concerning the adjustment of tuition and fees at any time, and to make whatever changes in the curricula they may deem advisable.

All fees and tuition are payable in full at the time of registration. When required by circumstances, arrangements can be made through the Office of Student Accounts for a deferred payment program. Programs of student preference are permissible so long as they conform to University requirements. However, the student is still responsible at all times for meeting the dates of payment. Failure to do so will place the student in default; he may not register for a new term, a transcript of credits will not be issued, and the honors of graduation will not be conferred until all accounts have been satisfactorily settled with the University.

Tuition reductions are granted to some children from the same family attending classes, full-time, simultaneously, and not on scholarship, if certain conditions are fulfilled. Inquiries regarding such reductions should be made through the Office of Student Aid at the time of registration.
TUITION AND GENERAL FEES

Application fee, payable once, upon application.......................... $ 10.00
Matriculation fee, payable once, at entrance................................. 10.00
Counseling fees, payable once, at entrance.................................... 15.00
University Fee, for student services
  First and second terms, full-time student, each term....................... 25.00
  First and second terms, part-time day student, each term............... 10.00
  Split terms, each term......................................................... 10.00
Tuition, per lecture credit hour................................................ 21.00
  (The number of credit hours varies according to the program.)
Tuition, per weekly laboratory clock hour.................................... 14.00
Laboratory fee, for each laboratory............................................. 5.00-20.00
  (Variations depend upon the course.)
Laboratory breakage deposit....................................................... 5.00-10.00
  (Variations depend upon the course.)
Deposit on Uniform (refundable).................................................. 20.00
  (for military science students)
Summer surveying course for civil engineering students................... 100.00
Teacher training fee for student teachers, in addition to
tuition fees; payable upon approval for student teaching............... 36.00
Proficiency and other special examinations, average fee.................... 5.00
Graduation fee, payable in senior year only................................... 26.00
Books and stationery, at University Book Store,
depending on courses, minimum expenses approx.............................. 40.00
Room deposit to cover possible damage (refundable)........................ 10.00

Late registration:
  Any deviation from the registration schedule as outlined
  in the calendar, and not approved by the student’s
dean, will carry a clerical fee of........................................... 5.00
  Any student who has not completed his registration
during the scheduled registration period will be
  assessed a late registration fee of......................................... 15.00

FULL-TIME STUDENTS

A student with an academic schedule of twelve lecture credit hours is considered a
full-time student. With this status and upon payment of the tuition and applicable
fees he is entitled to the benefits of the various activities.
PART-TIME DAY STUDENTS
A day student with an academic schedule of six to eleven lecture credit hours is considered a part-time day student. Tuition and other fees apply to him the same as for the full-time student except for the University Fee which is pro-rated.

SPECIAL STUDENTS
Special students, non-matriculated students, and auditors are subject to the various expenses as outlined above. Such students are not subject to the University Fee unless they wish to participate in the activities which it covers.

PAYMENT OF CHARGES
All charges must be paid in advance unless arrangements for payment by some deferred payment program are made with the Office of Student Accounts prior to the completion of registration. No student will be permitted to register or receive credit for work completed until all obligations to the University have been paid in full.

All checks should be made payable to the University of Dayton.

DEFERRED PAYMENTS
Plans for deferred payments which allow for the payment of tuition and other fees on a monthly payment method are acceptable as long as they fulfill University payment requirements. These plans are flexible, offering a varied group of programs which can be spread over many months, and may include all approved expenses incurred (excluding text materials and books). The student is advised to write to the Office of Student Accounts for an estimate of costs for whichever program he may have under consideration.

CANCELLATION AND REFUNDS
Cancellation will be allowed only after the completion of the proper withdrawal forms. Students who discontinue class attendance without officially completing the withdrawal procedures during the cancellation period will be responsible for the full amount of the applicable tuition and fees. Those called to military service before the end of a given term should consult with the Dean of the University concerning possible credits and financial adjustments.

During the four-week cancellation period for the first and second terms, the tuition charges will be made according to the following schedule:

- During first week of classes ........................................ 20%
- During second week of classes .................................... 40%
- During third week of classes ...................................... 60%
- During fourth week of classes .................................... 80%
- During or after fifth week of classes ............................. 100%
During the two-week cancellation period for the first split term the tuition charges will be made according to the following schedule:

- During first week of classes: 35%
- During second week of classes: 70%
- During or after third week of classes: 100%

The special course and laboratory fees are not refundable nor is the University Fee for student activities.

RESIDENCE FACILITIES FEES

Students from outside the Dayton area, particularly freshmen, reside on the campus unless the residence halls are fully occupied. Meals are provided in the cafeteria assigned to service the particular residence hall. The student may choose either the five-day or seven-day meal service. The following rates include room rental, meal service, and bed linens.

*Double room occupancy, excluding vacations, during first and second terms:*

**WOMEN**

- *Marycrest—five-day meal service**: $330.00
- *Marycrest—seven-day meal service**: $385.00

**MEN**

- University Hall, Founders Hall, and Stuart Hall
  - five-day meal service: $310.00
  - seven-day meal service: $365.00

*Double room occupancy for each half of the split term:*

**WOMEN**

- *Marycrest—five-day meal service**: $155.00
- *Marycrest—seven-day meal service**: $180.00

**MEN**

- Founders Hall and Stuart Hall
  - five-day meal service: $145.00
  - seven-day meal service: $170.00

** three meals a day, Monday through Friday.
*** three meals a day, Monday through Saturday;
  Sunday breakfast and noon dinner.

* A limited number of rooms are available in Marycrest for single occupancy at a higher rate. Write the Dean of Women for details.
Students who cannot secure accommodations in the residence halls because of limited space may make arrangements to reside in approved housing in the vicinity of the University through the Housing Office. These students may also secure their meals in University cafeterias by purchasing meal tickets for the term (first and second terms only) as follows:

- **Five-day meal service (same as ** above)** .......................... $165.00
- **Seven-day meal service (same as *** above)** ....................... 220.00

University cafeterias are closed on Sunday evening. However, vending areas are available in the residence halls for light lunches.

During vacation periods students may continue to reside in residence halls at a nominal charge. The main University cafeteria is open during this period and students may purchase meals on a cash basis.

Requests for accommodations in the residence halls should be addressed to the Dean of Men or to the Dean of Women.

Applications for room reservations must be accompanied by a fifty-dollar deposit of which forty dollars will be credited to the student’s bill for the first session of attendance. The remaining ten dollars will be held as a deposit against any room damage which may result during the occupancy.

Students who cancel room reservations prior to July 15 (for fall term occupancy), December 1 (for second term occupancy), April 1 (for first split term occupancy), or June 1 (for second split term occupancy), will be entitled to a refund of the fifty-dollar deposit.

Those who cancel reservations after these dates forfeit the entire deposit.

All students living in residence halls are required to observe University regulations in general along with the specific requirements of each hall, and will be held responsible for any damage to their rooms during occupancy. The cost for any unnecessary damage to the various community areas (lounges, utility rooms, halls, etc.) will be pro-rated to all residents of the area of damage in cases where individual responsibility is not ascertained.

SCHOLARSHIPS AND LOANS
The University offers qualified students a large number of scholarships and financial aids. Prospective students should write the Office of Student Aid for specific information.

Some of the plans available include the following:

**University Partial Scholarships** Awards are made for one year, renewable, based on academic ability and need.
DAYTON AREA AND MARIANIST SCHOLARSHIPS  Offered to the first- and second-ranking senior of Dayton area and Marianist high schools with enrollments of one thousand or more; and to the first-ranking senior in schools of less than one thousand students. Full-tuition for eight consecutive terms is covered.

BUSINESS, INDUSTRY SCHOLARSHIPS  Various business, industries, civic, fraternal, and professional organizations, and foundations provide funds for many scholarship awards. (Many companies and organizations in a student's hometown also provide outstanding grants to children of employees and members. Students are encouraged to investigate such offers.)

NATIONAL DEFENSE EDUCATION ACT LOANS  NDEA loans are granted under conditions established by the 1958 act.

GUARANTEED BANK LOANS  The University works with several state commissions—including Ohio, New York, New Jersey, Connecticut, Massachusetts, and Indiana—in handling guaranteed bank loans.

STUDENT EMPLOYMENT
Nearly eighty per cent of today's college students hold some form of employment, part-time or full-time, to help meet educational expenses. The University provides many such opportunities on the campus, and through the Placement Office, helps the student locate such opportunities off the campus.

Last year, four hundred and forty-two students earned a total of $326,000 for part-time work with the University's Research Institute. Another two hundred and fifty students worked in campus cafeterias, libraries, and dormitories. The Placement Office helped some one thousand, three hundred students find work off the campus. Such off-campus work brings the student an average of fifteen to twenty dollars a week.
V

Academic Regulations

REQUIREMENTS FOR DEGREES
All bachelor’s degrees granted by the University of Dayton require a minimum of one hundred and twenty-four semester credit hours. These credits must be distributed over eight terms in point of time.

Requirements of the different degrees are listed under the various schools.

One year of residence or thirty semester credit hours—ordinarily the senior year—is a minimum requirement for any bachelor’s degree.

A semester credit hour represents three hours of the student’s time each week for one term. This time may be assigned to work in classroom, laboratory, or to outside preparation. The number of lecture, recitation, laboratory, or other periods required each week is to be found in the list of instruction.

All undergraduate students are limited to a term course load of seventeen semester credit hours. Only exceptional students may be given permission by the Dean to carry additional hours.

Students enrolled in the University as candidates for degrees should not take courses at other colleges or universities without first obtaining written permission from their respective deans. If the permission is granted, the dean will request “transient status” for such students at the institutions which they designate. The University reserves the right to refuse the acceptance of credits in transfer when this procedure has not been followed.

The Bachelor of Science in Education degree may be awarded to holders of non-professional degrees from the University of Dayton with the completion of a minimum of thirty semester credit hours beyond the requirements of the non-professional degree. Otherwise, for a second bachelor’s degree, a minimum of forty-eight semester hour credits in upper-level courses (plus prerequisites) is required. For a second associate degree, a minimum of twenty-four semester hour credits in the area of specialization (plus prerequisites) is required.
GENERAL CURRICULUM REQUIREMENTS

Day students following four-year programs are required to complete successfully certain prescribed courses as follows:

*Communication Arts:* SPE 101.

*English:* ENG 101, 102.

*Military:* MIL 101, 102, 201, 202. (Women, and men excused from R.O.T.C., take PHE 110, 111, 112, 113.)

*Philosophy:* PHL 103, 207, 306, 402. (Consult individual programs for approved substitutions.)

*Theological Studies:*  THL 106, 206, 306, 406. (Non-Catholic students take PHE 403, 404, and two electives.)

Students pursuing a degree in the Evening Session are expected to meet the requirements in Communication Arts, English, Philosophy, and Theological Studies, but not in Military.

Day and evening students following associate degree programs are required to complete successfully the Communication Arts, English, Philosophy, and Theological Studies courses prescribed in their approved programs.
GRADES AND SCHOLARSHIP

A progress report of every student in each of his classes is submitted to the Registrar by every instructor at the middle of each term. Final grades are submitted at the end of the term and these are made part of a student's permanent record. Copies of these reports are given to the students and deans and are sent to the parents and guardians. The final grades of freshman students are also sent to their high school principals.

The official marks with their meanings and quality point values are as follows:

A—Excellent; for each semester credit hour, four quality points are allowed.
B—Good; for each semester credit hour, three quality points are allowed.
C—Fair; for each semester credit hour, two quality points are allowed.
D—Passing; for each semester credit hour, one quality point is allowed.
F—Failed. This mark indicates poor scholastic work, or failure to report withdrawal from a course. In such cases required courses must be repeated at the next opportunity. A student who receives an F in a required course may repeat the course. He may not, however, take the course a third time unless at the time of the second failure he has a cumulative point average of 2.50 or higher. Under no circumstances will he be permitted to take a course a fourth time. Refresher or remedial courses may be repeated only once. No quality point is allowed.
I—Incomplete. This grade may be given at the discretion of the instructor to any student who, for reasons beyond his control, has not completed some portion of the work of the term, provided that the rest of the work has been of satisfactory grade. It is not to be given if the student has been delinquent in his work, that is, when work has not been completed through his own fault. A grade of I is not to be marked at mid-term. An I must be removed within thirty days from the date listed on the grade report, or it will be changed to an F on the student's permanent record card. No quality point is allowed.
W—Withdrawn. During the first three weeks of a term (or the first week and a half of a split term) a student may withdraw from a class without record. Beginning with the fourth week (or the middle of the second week in a split term) all withdrawals are recorded F, if the student withdraws because of academic difficulty. When a student finds it necessary to withdraw from a class for any reason whatsoever, it is important that he notify his Dean immediately. Financial adjustments, if allowed, will be made only from the date of notification.
K—Credit. This mark is used for work credited from other institutions by the Office of Admissions and for workshops. No quality point is allowed.
X—Audit. This mark indicates that the student has registered to audit the course. No credit hours or quality points are awarded for this mark.
Em—Examination. This mark indicates credit given to students registered in the University either on the basis of the advanced placement program of the C.E.E.B.
or of examinations taken prior to or after admission to the University. The level of achievement which must be demonstrated by the student on these examinations is determined by the department in which the course is taught. This credit, up to a maximum of twenty-four semester credit hours, shall be assigned only on authorization of the Dean of the School or College in which the student is registered. No quality point is allowed.

No grade change of any kind is permitted after thirty days from the date listed on the grade report.

The semester grade point average is the total number of quality points divided by the number of semester credit hours carried by the student. In computing the cumulative grade point average, all grades except those for sub-college work are included; in cases where courses are repeated, both the original grades and the new grades are included. Marks of W, K, X and Em are disregarded in the computation of the grade point averages, but a course for which an F or an I is received is included in the usual manner.
ACADEMIC STANDING
The following rules will be observed regarding academic standing:

1. To be in good academic standing a student must have a cumulative point average of (a) at least 1.7 at the end of his first and second terms, (b) at least 1.8 at the end of his third, (c) at least 1.9 at the end of his fourth term, and (d) at least 2.0 at the end of his fifth and succeeding terms. A cumulative point average of at least 2.0 is required for graduation.

2. Any student who has a semester point average of 1.0 or less, regardless of his cumulative point average, will be dismissed from the University.

3. A cumulative point average below those required will automatically place the student on academic probation for the next term. The Registrar's office will indicate such probation on the student's permanent record.

A student on probation must follow a restricted program as follows:

a) His course load shall be reduced to fifteen semester hours, or less in the event his available study time is reduced by remunerative employment or by other activities and responsibilities either in the University or elsewhere.

b) Although he may retain membership in extra-curricular organizations, he shall not take part as a performer, an officer, or an active participant in any extra-curricular activity or any intercollegiate meeting, conference, or athletic event.

4. To remove probation a student must earn grades sufficiently high to attain the required cumulative point average. If he fails to do so he will be dismissed from the School or College in which he is enrolled. He may remain in the University only if he is accepted by the Dean of another School or College.

5. No student will be put on probation more than once in the same School or College.

6. In general, if it appears from the record that a student is not meeting requirements, either scholastic or otherwise, he may be placed on academic probation or he may be dismissed from the University.

7. A student dismissed because of unsatisfactory academic standing may, after the lapse of one calendar year, submit a petition to the Dean of the School or College of his last registration for reinstatement, and be reinstated on probation if the Dean is convinced of his ability and desire to do satisfactory work.
HONORS AND AWARDS

Honors and awards for scholarships are announced at the Honors Convocation.

To be graduated "With Honors" a student must have a cumulative point average for seven terms at the University of 3.5 or higher, based on 4.0. A student who has the required cumulative point average but has been in attendance at the University for less than seven terms may be graduated with honors if he is so recommended by the faculty of the School or College in which he is enrolled and if the recommendation is accepted by the Academic Council.

The notation of honors is made in the commencement program, on the diplomas, on the student's permanent record, and on transcripts, as follows:

-Cum Laude—if the cumulative point average is between 3.5 and 3.69;
-Magna cum laude—if the cumulative point average is between 3.7 and 3.89;
-Summa cum laude—if the cumulative point average is between 3.9 and 4.0.

Special awards for exceptional scholastic achievement are given annually through the generosity of donors. To be eligible for any of these awards a student must have a cumulative point average of at least 3.0. The awards:

Accounting—The Warren A. Kappeler '41 and Jerome E. Westendorf '43 Award of Excellence.

Business Administration—The Alpha Kappa Psi Scholarship Key, awarded by the Delta Nu chapter to the male senior with the highest cumulative point average.

Business Management—The Charles Huston Brown, in memory of Brother William Haebe, Award of Excellence in the Senior class.

Chemical Engineering—The Victor Emanuel '15, in memory of Mrs. Albert Emanuel, Award of Excellence in the Senior class.

Civil Engineering—The Harry F. Finke '02 Award of Excellence in the Senior class.

Debating—The Miss Elizabeth Jones Award for Excellence.

Economics—The Winters National Bank and Trust Company, in honor of Dr. E. B. O'Leary, Award of Excellence.

Education—The Father Renneker Award donated by the Montgomery County chapter of the University of Dayton Alumni Association for outstanding achievement in teacher education. (Seniors only.)

Electrical Engineering—The Thomas R. Armstrong, in memory of Brother Ulrich Rappel and Mr. W. Frank Armstrong, Award of Excellence.

Electrical Engineering—The Anthony Horvath and Elmer Steger Award of Excellence in the Senior class.

Engineering—The Tau Beta Pi Award for the outstanding freshman student.

General Excellence—The C.W.O. Award in both academic and extra-curricular activities. (Senior women only.)

General Excellence—The C.W.O. "Silver Anniversary of Coeducation Scholarship" given annually to an unmarried woman student of the University who has demonstrated superior academic proficiency and who is in financial need.

History—The Dr. Samuel E. Flook Award of Excellence in the Junior class.

History—The Phi Alpha Theta Scholarship Key. (Senior members of Delta Eta Chapter only.)

Home Economics—The Upsilon Delta Chi Award for Outstanding Achievement.
Mathematics—The Mathematics Club Alumni Awards of Excellence in the Junior and Senior classes.

Mechanical Engineering—The Mrs. Louise A. and Mrs. Lucille Hollenkamp, in memory of Bernard F. Hollenkamp, Award of Excellence in the Senior class.

Mechanical Engineering—The Martin C. Kuntz '12 Award of Excellence in the Junior class.

Nursing—The Nu Epsilon Delta Award of Excellence.

Oratory—The Dr. G. S. Reilly Award of Excellence.

Philosophy—The Rev. Charles Polichek Awards of Excellence. (First and second; seniors only.)

Psychology—Award of Excellence donated by the Very Rev. Raymond A. Roesch, S.M.

Scholar-Athlete—The John L. Macbeth Memorial Award to the outstanding scholar-athlete in football and basketball. Recipient must have completed five or more terms and must have won his varsity letter.

Technical Institute—The Techn I Club Award of Excellence to the graduating full-time student with the highest cumulative point average.

Theological Studies—The William Joseph Chaminade, in memory of Mr. and Mrs. George W. Dickson, Award of Excellence.
CLASS ATTENDANCE

Students are expected to attend all classes. The instructors will check attendance and report absences on the mid-term and term grade sheets.

The University, realizing that circumstances may arise that prevent a student from attending class, will tolerate a number of absences in any one course equal to twice the number of class meetings regularly scheduled for that course in one week. (This policy does not apply to military drill.)

Even though, under this policy, a certain number of absences are tolerated, the instructor has the right to require that the student make up the class work, assignments, quizzes, tests, etc., that have been missed because of absences. No grades will be deducted for the absences themselves.

Days before and after holidays and other days designated by the Academic Council will be regarded as double-absence days. Absences on such days will be counted as two absences instead of one.

No distinction will be made between excused and unexcused absences. When a student has exceeded the number of tolerated absences for any reason or combination of reasons (including participation in extra-curricular activities), he will be asked to withdraw from the class. He will be given a W or an F, as the instructor decides. It is the student’s complete responsibility to see to it that he does not exceed the number of tolerated absences.
If a student has been on the Dean's List the previous term, i.e., if he has earned a 3.5 term average or better, the above rule will not apply in his case. He will be allowed to continue in the class even though he has exceeded the number of tolerated absences.

If a student not on the Dean’s List has exceeded the number of tolerated absences for a course, he will be sent by the instructor of that course to his Dean for an official withdrawal.

TRANSCRIPTS
A transcript of credits may be requested from the Office of the Registrar. The official transcript may be sent to the institution or organization desiring it or to the student himself. There is a fee of fifty cents for a transcript with less than twelve credit hours. The fee is one dollar for a transcript with twelve or more credit hours. For transcripts ordered in lots of two or more, the fee is one dollar for the first copy and fifty cents for each additional copy. The first copy requested after graduation is a free copy.
VI
College of Arts and Sciences

Dr. Leonard A. Mann, s.m., Dean
Dr. George J. Ruppel, s.m., Assistant Dean

The purpose of the College of Arts and Sciences is two-fold: 1) to provide the means for a broad, liberal education directed toward the cultivation of the mind of the student and the optimum development of his intellectual capacities, and 2) to prepare the student for the practical task of making a living. In conformity with the purpose of the University, the College strives to obtain these objectives within the framework of the Christian principles which stem from philosophy and theology. Since these two disciplines are the integrating forces of the University, they enjoy within the College of Arts and Sciences the same primacy which they hold in the University itself.

Various programs are offered leading toward the degrees of Bachelor of Arts and Bachelor of Science. In all these programs adequate provision is made to attain the two-fold objective of the College. Thus, students majoring in a science will take courses in literature, foreign language, and the cultural branches of knowledge, such as history and music, to round out their education. Students working toward the Bachelor of Arts are obliged to take a minimum number of hours in science or mathematics or in both to complement the type of training provided by the humanities and the cultural subjects. The programs for both degrees also offer special preparation for the various professions, such as law, medicine, music, social service, personnel administration, nursing, etc. Students who are well qualified are encouraged and prepared to continue their education on the graduate level.

DEGREE REQUIREMENTS
For the Bachelor of Arts or Bachelor of Science degree, it is necessary to complete all the courses listed in one of the programs on the following pages. This will constitute a major field and usually a minor field. The total number of credit hours will vary from one program to another; the required number can be determined from the program in which the student is enrolled.

In most of the programs some courses are listed as electives. These courses are electives, not in the sense that they may be taken or not taken, but in that the student may elect any course that is offered for which he has prerequisites. They constitute an important part of his program, and permit some latitude in achieving the goals he has set for himself. It is always advisable to select these courses in consultation with the faculty adviser.
In the programs leading to the Bachelor of Arts degree, it is required that two years of foreign language be taken. This usually refers to a single language, but special modifications are sometimes made, with permission of the chairman of the department.

The major field normally constitutes twenty-four hours of upper level courses, and the minor field, twelve. Under unusual circumstances, it is possible to modify this requirement by the substitution of courses from other departments if they serve the specific interests of the student in his pursuit of his major field. This can be done only with the permission of the chairman; however, it is not permitted to take less than eighteen hours in a major field under any circumstances.

POSSIBLE MAJORS
For the Bachelor of Arts degree the possible majors are: communication arts, economics, English, fine arts, geology, history, languages and linguistics, mathematics, music, philosophy, political science, psychology, sociology or social work, and theological studies.

For the Bachelor of Science degree the possible majors are: biology, chemistry, computer science, geology, mathematics, home economics, (the general program or the dietetics program), medical technology, nursing, and physics.

ACADEMIC STANDING
As a requirement for graduation, it is necessary that the grade point average be at least 2.00 in the major field, in the minor field, and in the total college work.

PRE-PROFESSIONAL COURSES
The schedule should be drawn up with a view to preparation for a particular profession which the student may have in mind. Hence it is imperative that the student consult the dean to receive the proper educational guidance.

Students contemplating the legal profession can generally satisfy the requirements of schools of law by following the curriculum prescribed for the degrees in liberal arts.
or in business administration. Information as to specific requirements should be secured from the particular school of law which the student desires to enter. Ordinarily ninety credit hours will admit to law school; in particular instances, a bachelor's degree is required.

For foreign service, a curriculum similar to that of pre-legal students should be followed, with special emphasis on foreign languages and political science.

Two years of college study are required for admission to the first year of philosophy in diocesan seminaries. During these years stress should be placed upon English, the classical and the modern foreign languages.

In social service and public administration, there is a great demand for trained personnel. The Bachelor of Arts degree is required for admission to a recognized school of social work. The undergraduate curriculum should include courses in biology, economics, philosophy, political science, psychology, sociology, statistics, and theological studies.

Students contemplating the medical profession should consult the pre-medical program (Program—S11: pp. 94-95). They should also keep in touch with the pre-medical adviser.

Those who intend to enter other professions such as optometry, mortuary science, pharmacy, and veterinary science, may take a program of studies designed to give them admission to these schools. However, since these requirements differ so much among the various schools, each student has his program worked out with the professional school of his choice in mind.

TEACHER EDUCATION PROGRAM
Students planning to teach in secondary schools may elect a program of studies with a major in any academic discipline within the College of Arts and Sciences, and include sufficient courses from the School of Education, including student teaching, to qualify them for certification. For details of this program, see the School of Education section of this Bulletin.

#### Junior and Senior Years

See specific programs on the following pages.

---

1. Under “Term,” 3-0-3 means 3 hrs. class, 0 hrs. laboratory, and 3 hrs. credit.
2. Women, and men not taking R.O.T.C., take Phe 110-1.
3. This course may be deferred to the Junior year.
4. Non-Catholic students take an elective.
5. Mathematics may be substituted here.

</tbody>
</table>

1. Under "Term," 3-0-3 means 3 hrs. class, 0 hrs. laboratory, and 3 hrs. credit.
2. Incoming students wishing to continue a language begun in high school and transfer students will be required to take a placement examination in that language. The general pattern of transfer in such cases would be: after 2 years in high school of the language, begin with 201; after 4 years in high school, or even 3 years and excellent grades, begin 300 courses. Such transfer does not alter the requirement of 12 hours in at least one language, nor does it affect the requirements for a major listed in the Courses of Instruction.
3. Students with a composite major arrangement may begin their second language in the fourth term, whether they continue the first language or not. A language major may minor in any other field approved in the College of Arts and Sciences, but a minor in languages is highly recommended.
4. Non-Catholic students take an elective.
5. It is recommended that students take any course, such as the history of a particular country or period, which will strengthen their grasp of the cultural background of the languages they are studying. It is possible also that in view of certain types of teaching or graduate work a student would elect special technical courses, such as psychology, statistics, etc. A good student with a background in two languages may be permitted to take as little as one term of a new language for reasons approved by the department chairman. In general, however, any additional language should be taken for at least two terms.
6. Non-Catholic students take PHL 404.

1. **Term:** 3-0-3 means 3 hrs. class, 0 hrs. laboratory, and 3 hrs. credit.
2. Women, and men not taking R.O.T.C., take Phe 110-1.
3. Students majoring in theory, violin, voice, or orchestra or band instrument will be required to use piano or organ as a minor or demonstrate ability to play the piano at a level satisfactory to the department. Applied music majors will need to take a minimum of 4 credit hours in their major during 3rd terms. Voice majors may be required to take modern languages.
4. Non-Catholic students take an elective.
5. Women, and men not taking R.O.T.C., take Phe 112-3.
6. Electives must be used toward fulfillment of major and minor requirements in music. Additional hours for remaining electives may be taken in applied music or theory courses, or Mus 303, 315, 322, 325, 326, 327, 328, 335-6, 421, 422.
7. Non-Catholic students take Phl 403.
8. Non-Catholic students take Phl 404.

---

1 The freshman and sophomore years of this program are taken at St. Joseph's College, Indiana; the junior and senior years at St. Charles Seminary, Carthagena, Ohio. For a description of these courses, consult the St. Charles Seminary catalog.

2 Under "Term," 3-0-3 means 3 hrs. class, 0 hrs. laboratory, and 3 hrs. credit.

3 May substitute Hum 27 Art: History and Appreciation.

4 May substitute Bio 3 Principles of Biology.

5 May substitute Mth 5 Algebraic Structure and Number System.

---

1 Under "Term," 3-0-3 means 3 hrs. class, 0 hrs. laboratory, and 3 hrs. credit.
2 Women, and men not taking R.O.T.C., take Phe 110-1.
3 May substitute Mth 117.
4 May substitute Mth 216.
5 Non-Catholic students take an elective.
6 May substitute Bio 220 with the permission of the department chairman. In this case, a general elective may also be taken during the term.
7 Any 300-400 course in biology. With permission of the chairman, certain mathematics, chemistry, or physics courses may be substituted.
8 Women, and men not taking R.O.T.C., take Phe 112-3.
9 Non-Catholic students take Phe 404.
10 Non-Catholic students take Phe 403.

1 Under "Term," 3-0-3 means 3 hrs. class, 0 hrs. laboratory, and 3 hrs. credit.
2 Women, and men not taking R.O.T.C., take Phe 110-1.
3 May substitute Mth 121-2 with permission of department chairman.
4 Non-Catholic students take an elective.
5 Women, and men not taking R.O.T.C., take Phe 112-3.
6 May substitute Phy 206-7-8 if Mth 217-8 is taken in sequence.
7 Choose from courses in chemistry, mathematics, physics, biology, geology, or engineering.
8 Normally taken during summer after completion of junior year.
9 Non-Catholic students take Phe 404.
HOME ECONOMICS

The department provides two special curricula:
1. Dietetics and Institutional Management;
2. General Home Economics.

Students following these curricula may pursue a career in homemaking, interior decorating, the creating and construction of clothing; in the management of cafeterias, dormitories, and tearooms; as demonstrators for commercial manufacturing concerns; at dietetics in hospitals and other institutions; in graduate work and in research projects.

The curriculum for dietetics and institutional management meets the requirements of the American Dietetics Association.

⁷ Non-Catholic students take Phl 404.
⁸ Non-Catholic students take Phl 403.
MEDICAL TECHNOLOGY

A twelve or thirteen month course in medical technology is offered by the Diagnostic Laboratories of St. Elizabeth Hospital, Good Samaritan Hospital, and Miami Valley Hospital. Affiliation with the University of Dayton permits a student to obtain the degree of Bachelor of Science in Medical Technology if the University's requirements are fulfilled. These schools are accredited by the Registry of Medical Technologists of the American Society of Clinical Pathologists through the Council on Medical Education and Hospitals of the American Medical Association, and qualify a student to take the examination given by the Registry of Medical Technologists.

The student receives practical and theoretical experience in the various branches of the clinical laboratory, after which he is qualified for positions in hospitals, clinics, research laboratories, and physicians' offices.

METHODS OF INSTRUCTION

After a preliminary concentrated introduction to medical technology, the student participates in the activities of the Diagnostic Laboratories, spending a specific time in each department. Instruction is under the supervision of the pathologist and his staff. Regular assignments in recognized textbooks and laboratory periodicals are given. Conferences and examinations are held throughout the year. Following a review period at the end of the prescribed course, a final examination, patterned after that of the Registry of Medical Technologists, is given.

ADMISSION REQUIREMENTS

In planning for the hospital experience, the student is required to arrange for an interview with the pathologist at the approved School of Medical Technology at the hospital. He should also plan to visit each hospital for the purpose of seeing the facilities of the diagnostic laboratories. His choice of school must be stated in writing to both the pathologist at the school of medical technology, and the advisor of the medical technology students at the University. This must be done no later than March 1, if he intends to begin training at the hospital in July. The University advisor will submit letters of recommendation to each school of medical technology in behalf of the student seeking the interview.

SENIOR YEAR SCHOLARSHIP

A full tuition scholarship is made available for the senior year. This includes room and board for the women students; it may not be possible to secure housing for male students. Students provide their own uniforms and textbooks.
LENGTH OF CLINICAL COURSE
The course of instruction covers a period of fifty-two to fifty-six consecutive weeks. If vacation period or leave of absence is granted, additional equivalent time must be made up in the school of medical technology. The hours of duty are from 8 a.m. to 5 p.m., five days a week. Special assignments for Sunday and holiday work are given with time off during the week. There is no night call for students.

Textbook assignments and extracurricular reading and study shall be done outside the regular hours. Written and oral examinations are held at regular intervals throughout the course.

GRADUATION AND REGISTRATION
After demonstrating a theoretical and practical proficiency in clinical laboratory procedures, the student is given a certificate by the hospital, and becomes eligible for the national examination for certification by the Registry of Medical Technology.

Students who are registered at the University of Dayton are eligible for the degree of Bachelor of Science in Medical Technology.

Examinations for Registration and the Certificate of M. T. (Medical Technologist) are given in July and November by the Registry of Medical Technologists in various cities. These are written examinations.

1 Under "Term," 3-0-3 means 3 hrs. class, 0 hrs. laboratory, and 3 hrs. credit.
2 Women, and men not taking R.O.T.C., take Phe 110-1.
3 Non-Catholic students take an elective.
4 Women, and men not taking R.O.T.C., take Phe 112-3.
5 Non-Catholic students take Phil 404.
6 Non-Catholic students take Phil 403.
7 Choose from: Hist 251-2, Eco 201, Soc 201, Pol 201, Spe 101.
8 Clinical training in hospital laboratory (Good Samaritan, St. Elizabeth, or Miami Valley). Courses not necessarily taken in terms indicated.
9 Miami Valley hospital only.
NURSING
The University of Dayton offers a program in nursing to qualified registered professional nurses leading to the Bachelor of Science in Nursing. This program is designed to enrich and strengthen the professional nurse’s background and thus enable her to realize more fully her potential as a person and as a member of the profession of nursing.

ADMISSION
In addition to fulfilling the general admission requirements of the University of Dayton the applicant to the nursing program should also submit to the Office of Admissions:
1. Transcript from an approved diploma school of nursing, including State Board achievement scores for each area of examination (not letter grades).
2. Photostatic copy of Registered Nurse licensure.
3. Any additional transcript of college work completed elsewhere.

REQUIREMENTS
All enrolling students are required to take the National League for Nursing Graduate Nurse Examination before being officially accepted as a candidate for the baccalaureate program. The examination is to be taken within the first full-term or before completion of twelve credit hours (for part-time students), whichever occurs first.

The number of semester hours of credit for advanced standing granted by the University for the basic nursing program will be determined on an individual basis. Evaluation will be based on the student’s school of nursing record, achievement in the state board examination and the results of the National League for Nursing Graduate Nurse Examination.

A minimum of one hundred and twenty-eight semester hours of credit is required for graduation. In some instances it may be necessary for a student to accumulate more than one hundred and twenty-eight semester hours of credit in order to meet the course requirements. A minimum grade of “C” is required in all courses in the major and a student must maintain at least a “C” or 2.0 grade point average in all work attempted to meet the requirements for graduation.

The program may be completed by full-time students in approximately two calendar years. Students attending school on a part-time basis should plan to attend at least one term as full-time students before graduation. In the event a program is not completed within a five year period a re-evaluation of the student’s record will be necessary to determine the extent to which she meets the requirements existing at the time of her planned graduation.

Students may enter the program at the beginning of any term or summer session. Application for admission should be completed well in advance of the semester in which the student wishes to enroll. Academic pre-registration counseling is required for all students in the nursing program. All students are required to attend a series of orientation conferences during their first term of enrollment in the Department of Nursing.

For further information regarding the program write to Chairman, Department of Nursing, University of Dayton.

⁶ Non-Catholic students take Phy 404.
⁷ Upper level courses in physics, mathematics, or other approved subjects.
⁸ Non-Catholic students take Phil 403.
PREMEDICAL AND PREDENTAL

This program meets the admission requirements of all approved medical schools as determined by the Council of Medical Education for the American Medical Association. The four year course leading to the degree, Bachelor of Science, is recommended whenever possible. In addition to basic science requirements, it should include a broad and adequate study of the humanities and social studies. A reading knowledge of German (or French, with approval) is also desired by medical schools. One year of college work in addition to high school units in the same language may be sufficient.

Recommendation of a student by his premedical school is of considerable importance for admission to medical or dental school. Recommendation is based on more than academic standing. Character, professional development, and personality qualities are also weighed. The membership of the board on premedical recommendations is as follows: Dr. Carl I. Michaelis, Chairman, Dr. Cletus C. Chudd, S.M., Dr. Sylvester L. Eveslage, Peter J. Faso, Raymond G. Hieber, Russell A. Joly, S.M., Dr. George B. Noland, Dr. Joseph A. Pappalardo, and Gertrude D. Shay.

Both the Medical College Admissions Test and the American Dental Aptitude Test are administered on this campus each year in the fall and spring semesters. Students are required by the graduate school to take this test, usually in the spring of their junior year. Applications for registration may be secured from the premedical advisor.

1 Under "Term," 3-0-3 means 3 hrs. class, 0 hrs. laboratory, and 3 hrs. credit.
2 Women, and men not taking R.O.T.C., take Phe 110-1.
3 Non-Catholic students take an elective.
4 Women, and men not taking R.O.T.C., take Phe 112-3.
5 Recommended: Bio 303, 309, 312, 325, 411. Chem 302 is strongly recommended for premedical students.
6 Non-Catholic students take Phe 404.
7 Non-Catholic students take Phe 403.
8 Recommended: Eng 222, Hst 252, Pol 201, and language, sociology, and psychology courses.
The School of Business Administration operates in accord with the educational philosophy and purposes of the University. It believes that Christian principles of thought and action are essential to the complete formation of a business man. Through instruction and related activities it aims to develop in the student a moral excellence and firmness along with a degree of professional competence. It proposes to enhance the student's awareness of his obligation to himself, his family, society, and God—an awareness that is fundamental to his total development as a business man.

The School of Business Administration particularly seeks to develop that knowledge of business policies, problems and procedures which will enable the student to take a responsible place in the business and economic environment within which he must earn a livelihood.

In order to insure the breadth of background demanded of successful business and community leaders, the student must complete work in humanities and general studies as well as in professional business courses. This preparation is included in each of the programs offered.

DEGREE REQUIREMENTS
The School of Business Administration confers the degree of Bachelor of Science in Business Administration upon satisfactory completion of the following prescribed requirements:

1. Each candidate must complete successfully the Freshman-Sophomore Business Administration program, which is designed to give the student a broad and liberal education in preparation for more specialized training in Business Administration and Economics.

2. Each candidate must earn a cumulative grade point average of at least 2.00 in:
   a) The core courses required of all students enrolled in the School of Business Administration;
   b) The major field of concentration elected by the student.

3. Each candidate must complete a minimum of forty-five credits in 300-400 level courses in the School of Business Administration consisting of the following:
   a) Twenty-seven credits in the core courses required of all students enrolled in the Upper Division in the School of Business Administration;
   b) Eighteen credits (or more) in one of the Upper Division areas of concentration offered in the School of Business Administration.
4. Each candidate must earn a grade of at least "C" in Bus 423, Business Policies and Management.

5. Each candidate must earn a minimum of one hundred and twenty-four to one hundred and thirty-two hours of credit and at least twice that number of quality points.

The responsibility of meeting the degree requirements in Business Administration rests with the student and not with the faculty and staff of the School of Business Administration. The student should be thoroughly familiar with the course requirements and should keep his own record of courses completed and credit hours applicable to degree requirements.

² Courses listed in italics may be taken in either the first or second term as directed by the program advisor.
³ Women, and men not taking R.O.T.C., take Phl 110-1.
⁴ Non-Catholics take a philosophy elective.
⁵ Choose one of these courses: Bio 115, Chm 110, Geo 110, Phy 151, Phy 105.
⁶ Women, and men not taking R.O.T.C., take Phl 112-3.
⁷ Choose one of these courses: Hst 252, Pol 201, Soc 201, Spe 201.

**UPPER DIVISION**

Specialization in the School of Business Administration occurs in the Junior and Senior years.

It is possible to major in any one of the following areas: Accounting, General Business Management, Marketing, Industrial Management, Personnel Management, or Economics.

Each curriculum is organized to include six to twelve credits of electives in the Junior and Senior years. Since the aim of the School of Business Administration is to provide breadth of education, these credits should be taken outside of the School of Business Administration. The electives may be concentrated in one area, or, if the student desires, they may be taken in more than one area.
ACCOUNTING

The profession of Accountancy concerns itself with recording, classifying, summarizing, and analyzing financial data. The professional accountant prepares the reports and statements upon which business management depends for effective control.

In addition to taking the required basic courses, the business student who majors in Accounting follows a sequence of seven advanced courses. The Accounting major desiring minimum professional preparation should earn additional credit in at least two of the Accounting elective courses.

Successful completion of the program outlined may lead to a career in public accounting, to employment in financial departments of business enterprises, or to service in one of the many agencies of the Federal, state, or local government.

¹ Sufficient electives must be taken to meet the minimum number of credit hours required for graduation. Consult program advisor. Students not eligible to take more than a 17 credit hr. load must take these electives during the split third term.

² Under "Term," 3-0-3 means 3 hrs. class, 0 hrs. laboratory, and 3 hrs. credit.

³ Courses listed in italics may be taken in either the first or second term as directed by the program advisor.

⁴ Non-Catholic students take Phl 402.

⁵ Non-Catholic students take Phl 403.

⁶ Non-Catholic students take Phl 404.
BUSINESS MANAGEMENT

The work in Business Management provides training in General Business Management, Industrial Management, or Personnel Management. General Business Management is designed to give a rounded viewpoint of business problems. The other two majors are specific and constitute a particular approach to a specialized business area.

The following outline of courses constitutes the upper level work required for a Bachelor of Science with a major in any one of the three programs.

¹ Sufficient electives must be taken to meet the minimum number of credit hours required for graduation. Consult program advisor. Students not eligible to take more than a 17 credit hr. load must take these electives during the split third term.

² Under "Term," 3-0-3 means 3 hrs. class, 0 hrs. laboratory, and 3 hrs. credit.

³ Courses listed in italics may be taken in either the first or second term as directed by the program advisor.

⁴ Non-Catholic students take PHL 402.

⁵ Non-Catholic students take PHL 403.

⁶ Non-Catholic students take PHL 404.

A minor in Psychology or Sociology is particularly recommended for those majoring in Industrial Management. Those taking a minor in Psychology may, with permission, substitute Psy 302, Elementary Statistics, for BUS 313, Business Statistics. Students taking a minor in Psychology or Sociology should consult with the Chairman of the Department of Psychology or Sociology about the requirements for a minor. The student, however, should understand that he is free to elect additional hours in any other college or department of the University for which he has the prerequisites.

1. Sufficient electives must be taken to meet the minimum number of credit hours required for graduation. Consult program advisor. Students not eligible to take more than a 17 credit hr. load must take these electives during the split third term.

2. Under "Term," 3-0-3 means 3 hrs. class, 0 hrs. laboratory, and 3 hrs. credit.

3. Courses listed in Italic may be taken in either the first or second term as directed by the program advisor.

4. Non-Catholic students take PHL 402.

5. Non-Catholic students take PHL 403.

6. Non-Catholic students take PHL 404.

---

A minor in Psychology or Sociology is particularly recommended for those majoring in Personnel Management. Those taking a minor in Psychology may substitute Psy 302, Elementary Statistics, for Bus 313, Business Statistics. Students taking a minor in Psychology or Sociology should consult with the Chairman of the Department of Psychology or Sociology about the requirements for a minor. The student, however, should understand that he is free to elect twelve hours in any other college or department of the University for which he has the prerequisites.
MARKETING
The program in Marketing is designed to develop competence in students interested in all or some part of the marketing process. Although the student often enters with interest in only one phase of marketing such as selling, advertising, pricing, product planning, physical distribution, purchasing, market research, or wholesaling and retailing, the emphasis is on the marketing management concept. Thus any specialized activity is studied as a part of a total marketing process which in turn must be integrated with the immediate objectives of a business, the functioning of the economic system, and the constraints of society.

The objective is to provide limited specialization upon a base made up of the general education required for graduation and a core of business administration courses required of all business students.

Within the marketing specialization the purpose is to:
1. Develop a student of marketing who has the tools and groundwork for continued study after graduation. To this end applications of the social sciences and communication skills are stressed. Understanding of institutions and nomenclature are emphasized.
2. Develop a practitioner of marketing with interests, attitudes, and understandings to be potentially productive at the responsible level of decision making.
3. Provide some flexibility through choice of courses for marketing majors and provide some breadth of choice of marketing courses as electives for non-marketing majors both from within and without the School of Business Administration.

1. Sufficient electives must be taken to meet the minimum number of credit hours required for graduation. Consult program advisor. Students not eligible to take more than a 17 credit hr. load must take these electives during the split third term.
2. Under "Term," 3-0-3 means 3 hrs. class, 0 hrs. laboratory, and 3 hrs. credit.
3. Courses listed in italics may be taken in either the first or second term as directed by the program advisor.
4. After consulting advisor, choose one of these courses: Mkt 310, 318, or 335.
5. May substitute Mkt 318.
6. After consulting advisor, choose three of these courses: Mkt 405, 411, 417, 420, or 421.
7. Non-Catholics take Phl 408.
8. Non-Catholics take Phl 403.
ECONOMICS

The Department of Economics offers courses in the core business curriculum and in a major concentration. Economics 201 and 202 serve as the foundation for all upper level business subjects including those taken by Economics majors. Within the core business curriculum, the Department of Economics offers Macro Economic Analysis, Economics 341; and Money, Banking, and Monetary Policy, Economics 342. In addition, Micro Economic Analysis, Economics 340, is required of all Economics majors.

The major program in economics is designed for those students seeking careers as economists in education, government, or business, or who wish to prepare for other specialized areas such as banking, finance, investment security analysis, or labor relations. To accomplish this objective, the Department of Economics emphasizes in its instruction the development and functioning of the economies of the United States and other countries. The student thus is equipped with the tools for the systematic analysis of the economic problems of the individual firm, the industry, the nation, and the world within their social, political, and legal contexts.

For admission to the major, a student must have completed Economics 201 and 202. To complete the major, fifteen hours of economics courses, in addition to Economics 340, 341, and 342, are required of the Business Administration student. After consultation with the Chairman of the Department, the major may select these fifteen hours to fit his own special needs or interests.

Candidates for the Bachelor of Arts degree who desire to major in economics will follow the program of the College of Arts and Science.

ASSOCIATE DEGREE IN BUSINESS ADMINISTRATION

The Associate Degree in the Business Administration program specializing in Secretarial Studies has been designed especially for those who plan to attend college for only two years.

University-trained secretaries with broad educational backgrounds in economics, history, philosophy, and social studies are urgently needed in business. This cultural background, combined with competency in typewriting, shorthand, accounting, business machines, and office procedures, will prepare graduates for responsible positions in commerce and industry.

Although the Associate Degree is, in essence, a terminal degree, students may elect to continue work for the Bachelor of Science in Business Administration or the Bachelor of Science in Education.

EVENING PROGRAMS IN BUSINESS ADMINISTRATION

The University of Dayton, through its Evening Division, offers an Associate Degree in Business Administration, specializing in Accounting, General Business Management, or Personnel Management. Further information about these programs can be obtained from the office of the Director of the Evening Division.
Conformable to the University's purposes, the School of Education endeavors to foster both (1) the development of those general capacities of the students which flow directly from his human nature and (2) the development of those particular capacities which enable him to become an effective practitioner in the field of professional education.

The general capacities of the student are developed through a broad and sound education of a general nature. It endeavors to acquaint the student with the major areas of knowledge, integrated through the disciplines of philosophy and theology, and provides planned opportunities for personal, social, and ethical development.

The particularized concern of the School is the professional preparation of teachers for the elementary and secondary schools. Provisions for professional competence are made: (1) through comprehensive study of specialized teaching fields, (2) through thorough study of the professional foundations which are common to all teaching, and (3) through specialized study of the principles underlying a particular type and level of teaching.

DEGREE REQUIREMENTS

Specific four-year course requirements for kindergarten-primary, elementary, secondary, and special (music, art, physical education, home economics, speech) certification are outlined in the following pages.

Toward the close of the Freshman year each student is required to file formal application for admission to the Sophomore class. At this point his work is reviewed by a faculty committee to determine the extent to which the applicant's personal traits, academic work, and the like point toward likelihood of success as a professional teacher.

As a rule the School of Education will not recommend students for graduation unless these students can also qualify for teacher certification.

The responsibility for meeting the University and State requirements rests with the student. The student is cautioned to study the course requirements and to keep accurate count of the credit hours applicable to graduation. Students planning to teach in states other than Ohio should fulfill University requirements plus those of the State in which the candidate is destined to teach. (Consult the book, Requirements for Certification by Woellner, University of Chicago Press; this book is constantly available both in the Education Office, Room C-213, and in the Curriculum Library, Room C-202.)
University requirements for graduation and for teacher certification are the following:

1. Evidence of such general scholarship, personal and moral qualities, as give promise of professional success.

2. Evidence of participation in a variety of planned field experiences essential to the development of the resourcefulness needed by teachers. (For information regarding minimum requirements in observation of teaching and other field experiences consult the Coordinator of Student Field Experiences, Room C-212, or request copy of instruction sheet from Education Office, Room C-213.)

3. Earn one hundred and thirty-two semester credit hours in approved courses.

4. Meet the following letter-grade requirements:
   a) Earn a grade-point average of 2.00 ("C" average) or better.
   b) Earn a grade-point average of 2.500 ("C+" average) or better in professional education courses and in one’s specialized teaching field.

5. Complete minimum requirements in psychology and professional education courses in accordance with the following pattern:

   Credit Hours

   1A. Nature of the Learner .................................................. 3
   B. Educational Psychology I ............................................. 3
   C. Educational Psychology II ........................................... 3
   D. The Elementary School:
       Purposes and Practices ............................................. 3
   The Secondary School:
       Purposes and Practices ........................................... 2
   2E. Special Methods ......................................................... 2
   F. Student Teaching .......................................................... 6
   G. Philosophy of Education .............................................. 3

1 Combination of Psy 204 General Psychology and Phl 207 may be substituted.
2 Students in Elementary Education follow special courses covering (a) Reading and Language Arts, (b) Arithmetic. Students in Kindergarten-Primary Education follow special courses in theory, methods, and materials on kindergarten-primary level.
The School of Education does not accept credits for professional education courses earned through correspondence.

6. Complete the Theology-Philosophy sequence as follows:
   Catholic students, twenty-four semester hours: ThL 106, 206, 306, 406; PhL 103, PhL 306, PhL 402, and Edu 419.
   Other students, twenty-one semester hours: Edu 109, PhL 103, 306, 402, 403, 404, and Edu 419.

   Students who have completed Edu 198 will be permitted to enter 300-400 philosophy courses without having taken PhL 207 Philosophical Psychology as one of the prerequisites. Students who succeed in having Edu 198 waived by reason of having had General Psychology or the equivalent should take PhL 207 instead of PhL 306.

   Students who have transferred into the School of Education from some other accredited institution will take the number of courses in Theology and/or Philosophy as equal the number of terms remaining for gaining the bachelor's degree, i.e., one course for each remaining term.

7. Pass a comprehensive examination involving the following: General Education, Professional Education, and the principal teaching field. The Teacher Education Examination Program (TEEP) will be administered. (Consult the Education Office for dates.)

COUNSELING

Each freshman education student chooses a counselor to whom he reports at least twice a term for an interview. Each upperclassman reports for proper guidance at least once every semester to his dean or to the chairman of the department in which he is majoring.

Upper-classmen are urged to visit the Education Office to examine composite ratings of personal traits as given by their instructors. The student by comparing these composite ratings against his self-rating will be enabled to identify traits which may warrant concentration of efforts for self-improvement.

OFFICE OF COORDINATOR OF FIELD EXPERIENCES

This office functions to facilitate the gaining of planned field experiences by students prior to student teaching. Referrals to the office are made by the respective instructors. The office makes appointments with the schools and other agencies, keeps records of all student field experiences, counsels students regarding proper procedures, promotes desirable balance between observation and direct participation.
STUDENT TEACHING

This consists of actual classroom teaching under competent supervision. During the semester of student teaching, the student is not permitted to carry more than six semester hours of additional course work. These additional hours are ordinarily scheduled outside the normal school day in order to keep intact the student teaching experience for the full school day. The student should arrange his financial obligations so that he need not continue with part-time employment during this semester.

In order to be admitted to student teaching, the faculty of the School of Education screens each candidate on the basis of the following factors: (1) skill in communication arts, (2) quality point average in course work, (3) physical and emotional fitness, (4) desirable personal and moral traits, (5) completion of the pre-requisite courses.

Pre-requisites for candidacy for student teaching are: (1) official enrollment in a teacher education program at the University, (2) prospective completion of minimum residence requirement of thirty semester hours inclusive of student teaching, (3) completion of required clock hours in observation of teaching (consult sheet indicating “Total Hours of Observation for Each Student Classification” issued by the Education Office), (4) submit formal application for processing by screening committee; application must be submitted a term in advance of student teaching. (Application blanks may be secured from the Education Office, Room C-213.)

The campus supervisors have direct charge of the student teaching experience. Once a week throughout the term a student teaching seminar is held.

The time allotted to student teaching is an entire term involving full-day sessions. However, if a student teacher should evidence sufficient development before the termination of the semester, the campus supervisor may dismiss the student ahead of time.

Students in Secondary Education may register up to a maximum of nine semester credit hours. Students in Elementary Education may register up to a maximum of twelve semester hours of credit; this involves a minimum of fifteen full weeks, usually in two different schools or grade levels.

Once a student has been approved and placed for student teaching, he may not withdraw from the program unless approved by the Director of Student Teaching. A student who withdraws without this approval forfeits future placement in student teaching.

Student Teaching during the summer term is restricted to candidates who have had actual teaching experience.

TEACHER PLACEMENT

Students who qualify for teacher certification in the School of Education are helped to secure teaching positions through the School's placement service located in Room C-212. This requires cooperation from the candidate in filling out the necessary papers and in submitting names for references. Interviews with prospective employers are conducted in the University Guidance Center and are announced in advance in the Weekly Calendar.
TEACHER CERTIFICATION

The School of Education is on the approved list of the State Department of Education and of the National Council for Accreditation of Teacher Education. NCATE accreditation is being used increasingly as the major basis for reciprocity between states in teacher certification. To date the following states grant regular certificates under practically all circumstances to teachers who have completed approved programs in institutions accredited by NCATE. These states are: Alabama, Arizona, Colorado, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maine, Maryland, Mississippi, Missouri, Nebraska, North Carolina, North Dakota, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Dakota, Tennessee, Texas, Utah, Vermont, Washington, West Virginia, and Wyoming.

In addition to preparing properly certified kindergarten-primary, elementary, and high school teachers, the School also enables students to qualify for special certification in Art, Physical Education, Home Economics, Music, and Speech.

A curriculum in Home Economics Education has been established through the vocational division of the State of Ohio, Department of Education. Graduates of this curriculum are certified to teach vocational home economics as well as non-vocational.

CORRECTIVE THERAPY CERTIFICATION

Through the affiliation of the Veterans Administration Center's Corrective Therapy Clinical Training Program (Brown Hospital, Dayton,) students who follow the School of Education's program in Health and Physical Education have the opportunity to qualify for national certification as Corrective Therapists by satisfactorily completing 250 clock hours of directed corrective therapy clinical training and by passing the examination of the American Medical Association. This program as designed for University of Dayton students has the certified approval of the Veterans Administration Central Office, Washington, D. C.

GRADUATE PROGRAMS

The School of Education offers four graduate programs for in-service teachers leading to the Master of Science in Education degree; they are designed to prepare master high school teachers, master elementary teachers, school counselors, and school administrators. (For details on the graduate programs request a copy of The Graduate Bulletin.)

¹ Under "Term," 3-0-3 means 3 hrs. class, 0 hrs. laboratory, and 3 hrs. credit.
² Courses listed in italics may be taken in terms other than listed. Consult program advisor.
³ Women, and men not taking R.O.T.C., take Phe 110-1.
⁴ Non-Catholic students take Edu 109.
⁵ Women, and men not taking R.O.T.C., take Phe 112-3.
⁶ May be waived on the basis of previous training.
⁷ May substitute Pol 201 or Eco 201.
⁸ Non-Catholic students take Phe 402.
⁹ Students in elementary education are encouraged to choose a modern language for their departmental minor.
¹⁰ A minimum of 6 semester credit hours in Art and 6 semester credit hours in Music for the degree. Recommended courses include: Art 101, 407 and Mus 141, and 231-2.
¹¹ May substitute Edu 352.
¹² May substitute Pol 406 or Eco 104.
¹³ Non-Catholic students take Phe 404.
¹⁴ Non-Catholic students take Phl 403.
¹⁵ These electives should be additional courses from any department other than Education.
¹⁶ May substitute Phe 414.
¹⁷ Non-Catholic students take an elective.

3 Women, and men not taking R.O.T.C., take Phy 121-2.
4 May be waived on the basis of previous training.
5 Non-Catholic students take Edu 109.
6 Non-Catholic students take Edu 110.
7 Take Mth 121-2 or 101-2.
8 Women, and men not taking R.O.T.C., take Phy 112-3.
9 Non-Catholic students take Phy 402.
10 Non-Catholic students take Phy 404.
11 Non-Catholic students take an elective.
Requirements in High School Teaching Fields

Students following the program in secondary education are required to have at least two teaching fields with a minimum of fifty-one semester credit hours between them or a single comprehensive field totaling at least fifty-one semester hours. To facilitate placement, students are advised to select fields which are related, e.g., Speech and English, or Science and Mathematics.

In order to be recommended for certification, the student must earn a quality point average of at least 2.500 in each field for which he seeks certification. Certification is valid for teaching in grades seven through twelve.

Minimum requirements in semester credit hours for certification in the various teaching fields are as follows: (For detailed course requirements in each field, secure copy of checklist for each teaching field in the Education Office, Room C-213.)

Comprehensive Fields

In lieu of two separate teaching fields, a single comprehensive field (with a minimum of fifty-one semester hours) may be chosen from the following:

Art
Business Education
English
Foreign Languages
History—Gov't
Home Economics
Mathematics
Music
Science
Social Studies
Speech

---

1. This program has been designed to lead to the degree of Bachelor of Science in Elementary Education. It is scheduled to terminate after October 1, 1966.
2. Under "Term," 3-0-3 means 3 hrs. class, 0 hrs. laboratory, and 3 hrs. credit.
3. Courses listed in italics may be taken in terms other than listed. Consult program advisor.
4. May be waived on the basis of previous training.
7. Non-Catholic students take an elective.
8. Hist 251 or 252 may be substituted.

**NB:** A provisional Cadet Certificate (good for four years) may be renewed only upon evidence of the completion of 24 semester credit hours of additional training applicable to the degree in elementary education. A second renewal may be granted under the same requirements.

1 Under "Term," 3-0-3 means 3 hrs. class, 0 hrs. laboratory, and 3 hrs. credit.
2 During the Junior and Senior Years courses are taken at the University of Dayton.
PROGRAM—E11:
For Students Who Wish to Qualify for a High School Training Certificate while working toward a B.S. or B.A. degree in the College of Arts and Sciences.

Students matriculating in the College of Arts and Sciences may enroll in the teacher education program (secondary school program) of the School of Education without needing to transfer to the School of Education. For minimum requirements in professional education courses, see p. 00 of this Catalog; for minimum requirements in teaching fields, see p. 00.

Enrollment in this program is subject to the same admission requirements, counseling, maintenance of a unified system of records, screening, and other professional provisions standard for regular students of the School of Education working toward the B.S. in Education degree. This includes the maintenance of at least a 2.500 average in each teaching field and passing the comprehensive exam (TEEP). During the first semester of their enrollment, these students are given a regular orientation period suited to their special needs.

In order to finish in four years, a student in the College of Arts and Sciences will need to process his application for admission to the teacher education program during the third semester of his matriculation. He will need to begin his professional education sequence in his fourth semester. Failure to enroll on time would necessitate his going beyond the normal four years in order to qualify for teacher certification.

When the student has completed the proper course requirements in seven semesters, he may register for student teaching in the eighth semester (provided his application for student teaching is duly processed at the beginning of the semester directly prior to student teaching and, at that time, has passed the normal screening procedure).

When the duly enrolled student has completed all the requirements for teacher certification, he should make application for the standard State Teaching Certificate through the official recommending officer of the School of Education.
PROGRAM—E12: BACHELOR OF SCIENCE IN EDUCATION

For Non-professional Degree Holders

Graduates from the University of Dayton who hold a non-professional degree* may be awarded the Bachelor of Science in Education degree as a second degree with the completion of a minimum of thirty semester hours beyond the requirements of the first degree.

The gaining of this second degree offers as one of several advantages that of enabling the certificate to qualify under and to benefit from the national accreditation which the Bachelor of Science in Education degree holds through the National Council for Accreditation of Teacher Education (NCATE).

Pre-requisite for admission to this program is a cumulative quality point average on the first degree of at least 2.500 plus the regular screening standards which the School of Education uses for transfer students.

1. For the Four-Year Provisional Elementary Certificate (valid for teaching from Grades one through eight) the candidate is required to have teacher education substantially equivalent to the curriculum as outlined in Program I.

2. For the Four-Year Provisional High School Certificate (valid for teaching from Grade seven through twelve) the candidate needs to have nineteen semester hours in professional education plus whatever additional hours may be needed in teaching fields as listed in Program II.

*It is understood that the non-professional degree referred to above means the degree conferred by the College of Arts and Sciences under the designation of Bachelor of Arts or Bachelor of Science, and not the degrees conferred by professional schools or other highly specialized curricula.

PROGRAM—E13: RETRAINING PROGRAM

For students who have completed requirements for the Provisional High School Certificate or for the Provisional Special Certificate and who desire certification valid for Elementary Teaching.

A. The holder of a Provisional High School or Special Certificate may obtain a certificate valid for elementary teaching by completing the following hours of credit:

\[
\begin{align*}
1. & \quad \text{The Elementary School} & \cdots & 3 \\
2. & \quad \text{Reading in the Elementary School} & \cdots & 3 \\
3. & \quad \text{Arithmetic in the Elementary School} & \cdots & 2 \\
4. & \quad \text{Growth and Develop, or Child Psychology} & \cdots & 3 \\
\end{align*}
\]

B. Such a certificate shall be designated as a "RETRAINING" certificate. It may be renewed upon evidence of the completion of 12 semester hours of additional credit in prescribed courses. Subsequent renewals may be gained without additional training.

* Pre-requisite for this is Mth 141-142 or equivalent.
IX
School of Engineering

MAURICE GRANEY, Dean

GENERAL STATEMENT
The School of Engineering has as its purpose the implementation of the general purposes of the University of Dayton in the development of professional attitudes and competencies within its area of academic disciplines.

The engineering curricula in each of the fields of chemical, civil, electrical, industrial, and mechanical engineering are drawn up for a four year minimum period with one summer session required in civil engineering.

No effort is spared to acquaint the student thoroughly with fundamental principles and to give him a clear insight into the analysis of engineering problems. While emphasis is laid on fundamental theory, continued attention is paid to the solution of practical problems for the purpose of illustrating scientific principles and pointing out their industrial applications.

The broader responsibilities of the engineering profession demand that the professional training of an engineer include at least an acquaintance with the humanities in order that scientific discoveries and developments by engineers may result in the real advancement of man. To help the young engineer achieve his purpose in life, the University offers, in addition to the prescribed engineering subjects, a wide selection of courses in the arts and sciences and business administration.

ENGINEERING ORIENTATION LECTURES
All entering freshmen are required to attend a series of orientation lectures one hour a week for the first semester of enrollment. These lectures are intended to acquaint the student with the School of Engineering, academic requirements, and the various fields of engineering.

ENGINEERING MATHEMATICS
Students admitted to the School of Engineering are required to take certain qualifying tests for the proper placement in the mathematics sequence.

All students who make sufficiently high scores on the proficiency test will be placed in MTH 216, Analytic Geometry and Calculus I. Those who do not will be placed in a lower mathematics course, and will require additional time to complete the requirements for graduation.
DEGREE REQUIREMENTS

The Degrees—Bachelor of Chemical, Civil, Electrical, Industrial, and Mechanical Engineering—are conferred at commencement if the following requirements have been fulfilled:

1) All prescribed courses outlined in the respective curricula must have been passed with a grade D or better;
2) The cumulative quality point average must be at least 2.0;
3) The student must have attended the School of Engineering at the University of Dayton during his senior year, and have carried at least thirty credit hours.

4 Non-Catholics take Phil 207.

CHEMICAL ENGINEERING

The objective of the curriculum in Chemical Engineering is the training of students for design, construction and operation of chemical equipment. Chemical Engineering applies the principles of the physical sciences, economics and human relations to fields that pertain to processes and process equipment in which matter is treated to effect a change in state, energy or composition.

The first part of the curriculum provides a firm foundation in mathematics, physics and chemistry. The chemistry background is stressed in Chemical Engineering. Courses include inorganic, organic, analytical and physical chemistry. The second part of the curriculum stresses chemical engineering topics such as transport phenomena, thermodynamics, kinetics, unit operations and processes, industrial instrumentation, materials of construction and design.

The Chemical Engineering department is located in Wohlleben Hall. Three stories of the north wing house the Unit Operations Laboratory. Experimental equipment includes units for the study of fluid flow, heat transfer, distillation extraction, filtration, evaporation and drying. The Industrial Instrumentation and Transport Phenomena Laboratories are located on the second floor. In addition to the instructional laboratories, the department has a wood working shop, pipe fitting shop, analytical laboratory
and dark room. The department has its own analog computer and a Burroughs 220
digital computer is available for use in the Research Institute.

The curriculum in Chemical Engineering serves as basic training for graduate
study or for positions in diverse areas of the chemical industry.

CIVIL ENGINEERING

The curriculum is designed to give a thorough education in the principles fundamental to the civil engineering profession, so that the graduate is prepared to pursue to advantage any field of civil practice or advanced study.

During the first two years, emphasis is placed on those subjects underlying all engineering—English, mathematics, chemistry, physics, drawing, surveying, mechanics. The third and fourth years are devoted principally to technical subjects relative to hydraulic, sanitary, structural, highway, and soils engineering.

Engineering projects, completed or under construction, are visited under the guidance of the instructors. The Student Chapter of the American Society of Civil Engineers is very active, and close association is maintained with the Dayton Section of the American Society of Civil Engineers.

ELECTRICAL ENGINEERING

The curriculum of Electrical Engineering is planned with the primary objective of providing a thorough knowledge of the fundamental laws of electricity and the application of these laws in Electrical Engineering.

Courses are arranged to give students of Electrical Engineering an understanding of the basic principles and practices in the fields of Electrical Power and Electrical Communications. Some degree of specialization in these fields is provided according to the abilities and interests of the individual students.

Proper attention is directed to an appreciation of the practical economic factors in the electrical world, and to the cultural and social qualities necessary for a successful career in the engineering profession.

INDUSTRIAL ENGINEERING

The Industrial Engineering profession applies creative ability in a scientific manner to the design, installation, or improvement of complex integrated systems involving physical resources such as machinery, equipment, materials, and money; so that people may be more effective in reaching their objectives.

The profession emphasizes the combination and integration of knowledge from many disciplines. It strives to utilize scientific methods to arrive at proper relationships of men, materials, machinery, and money and in design of systems. The industrial engineer is, therefore, required to call upon many other specialists for detailed knowledge of specialized components of the systems. These may involve many other branches of engineering, other scientific and non-scientific disciplines.

In emphasizing accomplishment, industrial engineering represents the engineering approach to management (the responsibility for achieving objectives through people). However, industrial engineering principles and practices are useful to all areas of human industry—where employment is purposeful and systematic; where men give attention to achievement and are diligent in their attempts to accomplish objectives, especially where land, capital, and labor meet and must be economically and efficiently related.

In accord with the objectives of the University, the industrial engineering curriculum reflects the understanding that the tasks which people perform are subordinate to the people themselves. Therefore, the industrial engineering curriculum is designed to help the student develop sound religious and moral convictions, broad knowledge and basic intellectual habits, physical vigor and emotional stability, a keen awareness of social responsibility along with his specialized professional attitudes and competencies.
MECHANICAL ENGINEERING

The curriculum of Mechanical Engineering is designed to give the student knowledge of the fundamental principles of science and the application of these principles to pertinent problems.

Basic studies in mathematics and the sciences are pursued in the first two years and departmental subjects are taken up in the last two years. The course of studies comprises lectures, recitations and discussions, laboratory practice, and inspection visits.

Every attempt is made to impress the student with the responsibilities that rest upon the Mechanical Engineer in the active field, whether engaged as designer, builder, operator, organizer, manager or executive.

⁶ Non-Catholics take PhL 404.
⁷ Non-Catholics take approved Humanistic-Social Studies electives.
The Technical Institute offers college-level programs of technical education for engineering and scientific technicians who assist professional engineers and scientists. While engineering and scientific technicians usually work directly with engineers or scientists they are often called upon to work independently or with a minimum of direct supervision.

All curricula as developed by the University of Dayton are practical in nature and are designed to meet the needs of individuals and industry. Each course is carefully organized, using suggestions of persons actually working in the industrial situation. In addition, the following definition of Engineering Technology curricula as used by the Engineers' Council for Professional Development (ECPD) in accrediting such curricula, has been the basic guide for the University of Dayton Technical Institute.

"Curricula to be considered are technological in nature and lie in the post-high school area. They differ in content and purpose from those of the vocational school on one hand and from those of the engineering college on the other. Curricula in this field are offered by a variety of institutions and cover a considerable range as to duration and content of subject matter, but have in common the following purposes and characteristics:

1. The purpose is to prepare individuals for various technical positions or lines of activity encompassed within the field of engineering, but the scope of the programs is more limited than that required to prepare a person for a career as a professional engineer.

2. Programs of instruction are essentially technological in nature, based upon principles of science and include sufficient post-secondary school mathematics to provide the tools to accomplish the technical objectives of the curricula.

3. Emphasis is placed upon the use of rational processes in the principal fundamental portions of the curricula that fulfill the stated objectives and purposes.

4. Programs of instruction are briefer and usually more completely technical in content than professional curricula, though they are concerned with the same general fields of industry and engineering. They normally lead to the appropriate Associate Degree. Graduates of such programs are commonly designated as Engineering Technicians.

5. Training for artisanship is not included within the scope of education of technical institute type."

* See Admission requirements on page 35.
PROGRAMS OF STUDY

Programs of Study are offered in chemical technology, electronic engineering technology, industrial engineering technology and mechanical engineering technology on both a day and evening basis. Courses required and descriptions are included in the following pages. Each program is composed of certain basic courses covering fundamental and non-technical subjects and courses in the major field. The fundamental subjects are mathematics, physics, chemistry, English, drawing and industrial management. Non-technical subjects include psychology, economics, speech and government. Upon satisfactory completion of the prescribed courses in a program of study, a diploma granting an Associate in Technology Degree is awarded.

GUIDANCE AND COUNSELING

The facilities of the Guidance Center are available for Technical Institute students. Staff members experienced in this type of program will be on hand before and during registration. Prospective students are encouraged to visit the campus or telephone for information regarding any of the programs offered. Part-time evening students are particularly advised to consult with the Director of the Technical Institute before attempting to register for any semester.

VETERANS

Veterans must secure approval in advance from the Veterans Administration for attendance at Technical Institute classes. This approval is apart and separate from admission to the University. All programs of study are approved by the Veterans Administration.

CREDITS

All courses in the Technical Institute are evaluated on a semester hour basis. Recitation and similar classroom work generally require outside preparation, while laboratory or practice periods are usually self-contained.
CHEMICAL TECHNOLOGY

Chemical Technology is designed to prepare students for technological services in chemical manufacturing plants and processing industries as well as for technician positions in chemical laboratories.

Emphasis is placed upon laboratory procedures for basic chemical analysis, especially quantitative analysis, certain non-technical subjects, mathematics, and physics.

ELECTRONIC ENGINEERING TECHNOLOGY

Electronic Engineering Technology is designed to prepare students for services as engineering technicians in the modern industrial world. Emphasis is placed on the fundamentals of circuit-theory, electronics, and measurements in addition to related courses in mathematics, physics, and chemistry. The graduate is thus prepared to perform research and development, serve with manufacturers of electronic equipment, and with users of modern electrical and electronic devices.

3 Non-Catholics take an elective.
INDUSTRIAL ENGINEERING TECHNOLOGY

The curriculum in Industrial Engineering Technology has as its objective the implementation of the broad purposes of the University in a college program of technical education by:

(1) Providing education to prepare students for subsequent development as responsible Christian citizens;

(2) Providing education in mathematics and basic sciences sufficient to support the specialized technical portion of the curriculum and to increase the student's awareness of fundamental scientific principles in order to facilitate his future growth in an advancing technology;

(3) Providing specialized education designed to prepare students primarily for technological services to management in such industrial engineering areas as production, operations and control. It also covers the essentials of management with which foremen, supervisors, and administrative personnel in general are concerned.

Emphasis is placed on courses in motion and time study, production control, plant layout, quality control, and cost control.
### MECHANICAL ENGINEERING TECHNOLOGY

This curriculum is designed to give the student a practical knowledge of the modern fundamental principles of Mechanical Engineering Technology as they are applied in industrial and scientific endeavor.

Emphasis is placed on courses in applied mechanics; strength of materials; mechanism; thermodynamics; fluid mechanics; electronic technology; industrial automation actuation; dies, jig and fixture design; machine design, and basic technical courses such as technical drawing, physics, mathematics and chemistry which prepare a graduate to perform successfully as an aide to scientists and professional engineers.
The non-technical courses English, speech and report writing are specially designed to teach a student how to formulate and deliver technical communications, both oral and written.

Typical Mechanical Engineering Technician assignments are research and development laboratory technician, board designer, technical report writer, erection and maintenance technician, field service and customer relations technician, plant engineering technician and industrial automation actuation technician.

Courses of Instruction

Accounting (Acc)  

Joseph F. Updyke, Chairman

Associate Professors: Updyke, Kriegbaum, Hoben  
Assistant Professors: Clark, Rodgers  
Instructors: Eley, Isip  
Part-time Instructors: Bourne, Guenther, McGohan, Michel, Rotterman, Slonaker, Vlahos, VonderBrink, Wagner, Wiggins

Acc 203. Survey of Accounting  
A consideration of the basic principles of accounting, including debits and credits, the balance sheet, the statement of profit and loss, the statement of surplus and elements of cost accounting from an interpretative viewpoint.

Acc 207-208. Principles of Accounting  
The purpose of the course is to acquaint the student with the primary function of accounting and introduce him to the entire accounting cycle in single proprietorships, partnerships, and corporations. This is a prerequisite to all other courses in accounting.

Acc 209. Principles of Automated Accounting  
A course acquainting the business student with the most current methods of processing accounting data into accounting statements and managerial reports.

Acc 303. Cost Accounting  
This is an introductory course in the theory and practice of cost accounting as used in job, process, and estimated cost systems. Emphasis is placed on cost principles, control, and procedures in relation to materials, labor, and manufacturing expenses.

Acc 304. Advanced Cost Accounting  
Analysis and control of industrial costs through utilization of budgetary procedures and standard cost systems. Study of distribution costs, profit-volume analyses, and cost reports used in managerial and administrative decisions.

Acc 305-306. Intermediate Accounting I & II  
A detailed study of the components appearing in accounting statements. An introduction to alternative procedures and terminology; analysis; theory; and current professional pronouncements.
ACC 308. Advanced Accounting
Three Credit Hours
This course introduces the student to some of the more specialized accounting subjects such as special sales procedures, insolvencies, estates and trusts, branch and home office, and consolidated statements.

ACC 310. Cost Accounting Analysis
Three Credit Hours
Elements of manufacturing costs; cost and financial statement analysis; cost systems and budgets. Course is intended for students outside School of Business Administration. Prerequisites: ACC 207-208 or ACC 203.

ACC 312. Governmental Accounting
Three Credit Hours
Accounting for institutions, municipalities, and for state and federal governments; organization; procedure, budget, accounts and records, reports.

ACC 320. Budgetary Procedures for Management Control
Three Credit Hours
Role of the budget as it relates to management functions of motivation, planning, organization, and control. A study is made of the construction, control, and interpretation of accounts for a business enterprise.

ACC 401. Auditing
Three Credit Hours
Re-examination of accounting principles as related to current accounting practice. Study of the auditor’s report; auditing standards, procedures, and ethics used by the public accountant examining business enterprises.

ACC 403. Analysis of Financial Statements
Three Credit Hours
The financial reports of business concerns are examined for content and organization. Methods are developed for statement evaluation from the viewpoints of management, stockholders, and creditors.

Three Credit Hours
An interpretation of the income tax portions of the current Revenue Act. The preparation of the individual, partnership and corporation income tax returns.

ACC 408. Federal, State, and Local Taxes
Three Credit Hours
An interpretation of the social security, estate, gift and excise tax portions of the current Revenue Act. A study of income, franchise, property, sales and payroll taxes currently typical in states (particularly Ohio) and municipalities.

ACC 413. Advanced Accounting Problems
Three Credit Hours
A comprehensive review of accounting principles with training in the techniques of applying these principles to the solution of specific problems. Designed as a guide for preparation for the C. P. A. examination.

ACC 414. Seminar in Accounting
Three Credit Hours
Course consists of a study of current topics by individual reports, student panel discussions, open class discussions, case studies, and outside professional speakers. Recommended to seniors in accounting.
Biology (Bio)  

**Associate Professors:** Faso, Joly, Noland, Schuellein, Shay  
**Assistant Professors:** Laufersweiler, MacMahon, Nunn  
**Instructor:** Ylillis  
**Part-time Instructors:** Hein, Maimon, Metcalf, Mohr  

All laboratories must be taken concurrently with the corresponding lecture courses.

**Bio 101. General Biology I**  
**THREE CREDIT HOURS**  
A study of the more important biological processes and principles through analysis and synthesis. Deals primarily with the organizational aspects of living matter.

**Bio 101L. General Biology Laboratory I**  
**ONE CREDIT HOUR**  
Course to accompany Bio 101. One three-hour laboratory per week in which the investigational and experimental approach is stressed.

**Bio 102. General Biology II**  
**THREE CREDIT HOURS**  
A continuation of Bio 101. Stresses primarily the operational aspects of living matter. **Prerequisite:** Bio 101.

**Bio 102L. General Biology Laboratory II**  
**ONE CREDIT HOUR**  
Course to accompany Bio 102. One three-hour laboratory period per week.

**Bio 113. Introduction to Biology**  
**FOUR CREDIT HOURS**  
A general survey of biological phenomena designed to acquaint the student with the principles of life and their application to living things.

**Bio 205-206. Human Anatomy and Physiology**  
**SIX CREDIT HOURS**  
Lecture-demonstrations on the various organs and systems composing the body. The functions of the human body as a living organism are integrated with the study of structure. **Prerequisites:** Bio 101-102.  

**Bio 207. Human Anatomy**  
**THREE CREDIT HOURS**  
A foundation study in the basic anatomy of the human body, consisting of lecture demonstrations on the various organs and systems composing the body. **Prerequisites:** Bio 101-102 or Bio 113.  

**Bio 207L. Human Anatomy Laboratory**  
**ONE CREDIT HOUR**  
A course to accompany Bio 207 lecture. One three-hour period per week.  

**Bio 209. Comparative Anatomy of the Vertebrates**  
**THREE CREDIT HOURS**  
A study of the similarities and the differences in the anatomy of the different organ systems of the various vertebrate groups. Embryology, histology, and morphology play an important role in this study. **Prerequisites:** Bio 101-102.

**Bio 209L. Comparative Anatomy Laboratory**  
**TWO CREDIT HOURS**  
Course to accompany Bio 209 lecture. Two three-hour periods per week.

**Bio 213. Comparative Anatomy**  
**FOUR CREDIT HOURS**  
A short course patterned after Bio 209. **Prerequisites:** Bio 101-102.  

*First Term, Each Year—Day and Evening*
Bio 220. General Botany
A consideration of the structure, physiology, reproduction and inheritance of representatives of the plant groups. The importance of plants in the life of man will be discussed. Prerequisites: Bio 101, 102.

Bio 220L. General Botany Laboratory
A course to accompany Bio 220 lecture. One two-hour laboratory period per week.

Bio 303. Physiology
A study of the mammalian systems. Sufficient anatomy is introduced to give at least an elementary knowledge of the organs and organ systems. Prerequisites: Bio 101-102, Chm 123-124. Chm 313-314 recommended.

Bio 303L. Physiology Laboratory
Course to accompany Bio 303 lecture. One three-hour period per week.

Bio 304. Histology
Fundamentals of cell structure, tissue organization and microscopic anatomy of the vertebrate animal; stress on the mammals. Kodachromes will take the place of microscopic work. Prerequisites: Bio 101-102.

Bio 309. Microtechnique
Considering the fixing, washing, dehydrating, clearing, infiltrating, imbedding, sectioning, affixing, staining and study of normal tissues; aims at recognition of organ systems of the vertebrate body. Prerequisites: Bio 101-102.

Bio 309L. Microtechnique Laboratory
Course to accompany Bio 309. One three-hour laboratory period per week.

Bio 312. General Genetics
A study of the principles of variation and heredity in plants and animals, with stress on the inheritance of human characteristics. Prerequisites: Bio 101-102 and Mth 121.

Bio 312L. General Genetics Laboratory
Course to accompany Bio 312. One two-hour period per week.

Bio 316. Plant Morphology
A lecture and laboratory course dealing with the structure, reproduction and evolution of representative plant groups. Prerequisites: Bio 101-102 and Bio 220.

Bio 316L. Plant Morphology
Course to accompany Bio 316 lecture. One two-hour period each week.

Bio 320. Evolution
The course presents the evidence of evolution and discusses the factors which initiate change in species and the agencies which guide it. Prerequisites: Bio 101-102. Bio 209 recommended, or consent of instructor.
Bio 324. **Entomology**
The biology, morphology and identification of insects with emphasis of the local forms. The influence of insects and related animals on man and his possessions. Prerequisite: One year of biology.

**Bio 324L. Entomology Laboratory**
Course to accompany Bio 324 lecture. Students will be required to prepare a properly identified collection. One two-hour period per week.

Bio 325. **Parasitology**
An introduction to the morphology, life history and significance of those organisms deriving their sustenance from the tissues of others. Prerequisite: 8 hours biology.

**Bio 325L. Parasitology Laboratory**
Course to accompany Bio 325 lecture. One three-hour period per week. Stresses the recognition of common parasites.

Bio 330. **Plant Physiology**
A study of plant metabolism including water relations, photosynthesis, mineral nutrition, growth and reproduction. Prerequisites: Bio 101, 102, 220, and one year of chemistry.

**Bio 330L. Plant Physiology Laboratory**
Course to accompany Bio 330 lecture. One two-hour laboratory per week.

Bio 361. **Invertebrate Zoology**
A course designed to give the student a general knowledge of the structure, activities, life histories and relationships of the invertebrate animals, with some emphasis on their origin and development. Prerequisites: Bio 101, 102.
Bio 361L. Invertebrate Zoology Laboratory  
Course to accompany Bio 360 lecture. Two two-hour periods per week.  

Second Term, Each Year

Bio 407. Embryology  
The course considers the early stages of animal development, paying special attention to the study of the development of the chick and the pig. Prerequisites: Bio 101, 102 and 209.

Bio 407L. Embryology Laboratory  
Course to accompany Bio 407 lecture. One four-hour period per week.

Bio 410. Radiation Biology  
An introductory course in the theory and principles of ionizing radiation. Application of radioactive tracers to biological problems will be considered. Prerequisites: Bio 303 or consent of instructor.

Bio 411. General Bacteriology  
An introductory course in bacteriology stressing the physiology, cultivation, and classification of bacteria. Their role in medicine, agriculture and industry is emphasized. Prerequisites: Bio 101-102 and Chm 123-124. Chm 313-314 recommended.

Bio 411L. General Bacteriology Laboratory  
Course to accompany Bio 411 lecture. Two two-hour periods per week.

Bio 412. Human Genetics  
A study of the genetic principles as applied to families, pedigrees and to large populations. Aspects of genetic counseling and medicolegal problems are summarily discussed. Prerequisites: 312 and Mth 121.

Bio 416. Pathogenic Bacteriology  
A brief survey of the bacteria which cause disease in man. Host-parasite relationships in resistance and infection are stressed. Prerequisite: Bio 411.

Bio 416L. Pathogenic Bacteriology  
A course to accompany Bio 416 lecture. One two-hour period per week.
Bio 420. **Seminar**  
One Credit Hour  
Practice in development, presentation, and discussion of papers dealing with biological problems. Prerequisite: Jr. and Sr. standing.

Bio 421. **Biological Problems**  
One or two credit hours  
(laboratory work)

Bio 422. **Biological Problems**  
One or two credit hours  
(library work)

Bio 454. **Neuroanatomy**  
Three Credit Hours  
Study of neurological structure and function and its influence on sensation, perception, learning, and adjustment. Prerequisite: Bio 207. Accredited also in Psychology.

**Business Management (Bus)**  
Barth J. Snyder, *Chairman*

*Professors:* McGovern, Snyder  
*Assistant Professors:* Fuszara, George, Schneider, Will  
*Part-time Instructors:* Hamilton, Hellwig, Hoefling, Mervar, Meyer, Nolting, Ondercin, Pryor, Quinn, Stephenson, Waterhouse, Yaross

**Bus 101. Introduction to Business**  
Three Credit Hours  
A survey of the fields of business and their inter-relationship. The objectives are to emphasize business concepts and to prepare the students for specialized courses.

**Bus 301. Corporation Finance**  
Three Credit Hours  
Principles of financial organizations. A study of corporate securities; financial structures; financing of new and established corporations; management of corporate funds; corporate expansions, mergers and reorganizations.

**Bus 303. Business Law I: Contracts**  
Three Credit Hours  
The basic course in business law treating the nature and classification of law, the courts and court procedure and considering in some detail the law of contracts and agency.

**Bus 304. Business Law II: Sales and Negotiable Instruments**  
Three Credit Hours  
A consideration of the law of sales and negotiable instruments. Prerequisite: Bus 303.

**Bus 313. Business Statistics**  
Three Credit Hours  
A survey of statistical methods including sampling, tabulations, graphics, averages, dispersions, index numbers, time series, trends, and simple correlations.

**Bus 314. Personnel Management**  
Three Credit Hours  
A study of managerial principles and practices as they pertain to the total work force. Including selection, training, compensation, employee services and industrial relations.
BUS 315. **Principles of Management**
A basic course in the managerial functions of planning, organizing, assembling resources and directing operations for a business.

BUS 316. **Production Management**
Place of management, factors underlying management decisions; product designs, physical facilities, location, layout; job evaluation, classification; plant operation, output; control of purchases and inventories. Prerequisite: Bus 315.

BUS 320-321. **Motion and Time Study**
See ine 403-403L and ine 404-404L.

BUS 322. **Wage and Salary Administration**
A discussion of role of wages and salaries for individual, firm and society. Problems in determination of wage levels, structures, methods of compensation, fringe benefits, and general aspects of compensation. Prerequisite: Bus 314 or permission of instructor.

BUS 324. **Labor Legislation**
A study of the National Labor Relations Act as amended.

BUS 327. **Elements of Supervision**
A consideration of the responsibilities of the shop or department head within the field of operative management; emphasis on training, motivation, grievances and maintenance of morale.

BUS 340. **Introduction to Data Processing**
A study of the basic principles of record keeping as they relate to data processing.

BUS 341. **Principles of Systems and Procedures**
The object of the course is to introduce the student to the basic principles underlying systems work in business where machines data processing is employed. Prerequisite: Bus 340.

BUS 401. **Investments**
A study of the basic features and principles underlying sound investments. Short term as well as long term investments, the bond and stock markets are considered.

BUS 403. **Business Law III: The Law of Business Organization and Property**
A treatment of the law of partnerships and corporations and the law of property. Prerequisite Bus 303.

BUS 409. **Business Communication and Report Writing**
The principles of letter writing and report writing are studied and applied in conformity with the best current practices in business.

BUS 414. **Industrial Purchasing**
Principles, policies, and practices of industrial procurement. Organization and functions; purchasing procedure; quality and quantity control, supply sources; price policies, forward buying, legal aspects of purchasing procedure.
Bus 415. Production Methods and Control
Principles and techniques used in production; current practices in production planning, routing, scheduling and dispatching; study of production standards, labor efficiency and costs; quantity and quality control. Prerequisite: Bus 316 or permission of instructor.

Bus 419. Collective Bargaining, Mediation and Arbitration
Meaning, practices, principles and organization of collective bargaining; techniques of mediation and agencies for effecting mediation; major economic problems involved in the adjustment of labor disputes.

Bus 422. Counseling Techniques
Functions of counselors in employee adjustment in personnel and in industrial relations; establishing counseling services, organizing and administering a program; evaluation and remedial action.

Bus 423. Business Policies and Management
Coordination and integration of knowledge and techniques acquired in previous courses in Business Administration. The case method is used.

Bus 450. Business Management Honors Seminar
A course in research upon a subject within the student's major. The course is open only to those who have attained a cumulative grade point average of 3.20 or above in their Sophomore and Junior years.

Bus 455. Business Ethics
Application of philosophy in the area of employee discipline with emphasis on rights, duties, and the purpose of discipline. Examination of arbitration cases in discipline.
Chemical Engineering (CME)  

Dr. Michael A. Bobal, Chairman

Associate Professor: Bobal
Assistant Professor: Willis
Part-time Instructors: Bauer, Keith

CME 202.  Chemical Engineering Fundamentals I  
three credit hours
An introduction to chemical engineering with lectures and problems on material and energy balances as applied to industrial processes. Prerequisites: Chm 124, Mth 216.  
First Term, Each Year

CME 303.  Chemical Engineering Fundamentals II  
three credit hours
Development of the fundamental principles of thermodynamics, particularly with respect to chemical engineering processes. Prerequisites: Cme 202, Mth 218.  
Second Term, Each Year

CME 304.  Chemical Engineering Fundamentals III  
three credit hours
Kinetics and catalysis of the chemical reactions utilized in industrial processes. Prerequisite: Cme 303.

CME 321.  Chemical Engineering Operations I  
three credit hours
A fundamental course in momentum, heat and mass transfer; differential and macroscopic conservation equations. Applications in fluid mechanics, fluidization, filtration. Prerequisites: Cme 202, Mth 301.  
First Term, Each Year

CME 322.  Chemical Engineering Operations II  
three credit hours
Continuation of the study of transport phenomena. Heat transfer in turbulent flow, analog and digital solutions of heat transfer problems. Simultaneous heat, mass and momentum transfer. Prerequisite: Cme 321.  
Second Term, Each Year

CME 323L.  Transport Phenomena Laboratory  
one credit hour
Measurement of transport properties and application of fundamentals covered in Cme 321 and Cme 322. Prerequisite: Cme 321; Corequisite: Cme 322.  
Second Term, Each Year

CME 411.  Unit Operations  
three credit hours
A study of the unit operations not covered in Chemical Engineering Operations I and II. Topics include extraction, leaching, distillation of binary and multicomponent systems, size reduction and handling of solids.  
First Term, Each Year

CME 413L.  Unit Operations Laboratory  
two credit hours
This course is designed to acquaint the students with Unit Operations equipment and its utilization. Prerequisite: Cme 321.  
First Term, Each Year

CME 414L.  Unit Operations Laboratory  
two credit hours
Continuation of Cme 413L. Prerequisite: Cme 322.  
Second Term, Each Year

CME 421.  Seminar  
one credit hour
Presentation of subjects relative to industrial practice. Attendance required by all Chemical Engineering Junior and Senior students, with only Seniors registering for credit.
CME 430. CHEMICAL ENGINEERING DESIGN
Three credit hours
Study of the principles of process development, plant design and economics. Prerequisite: Cme 411. Second Term, Each Year

CME 451. INDUSTRIAL INSTRUMENTATION
Two credit hours
A study of industrial instruments and systems for indicating, recording and controlling process variables. Prerequisite: Mth 301. First Term, Each Year

CME 452L. INDUSTRIAL INSTRUMENTATION LAB.
Two credit hours
A laboratory course based on the principles discussed in Cme 451. The analog computer in conjunction with laboratory experiments is employed to demonstrate the fundamentals of process control. Prerequisites: Cme 451, Ele 322. Second Term, Each Year

CME 481. ENGINEERING CALCULATIONS
Three credit hours

Chemical Engineering Electives

CME 461. ELEMENTS OF NUCLEAR ENGINEERING
Two credit hours
Introduction to the application of engineering principles to the field of nuclear science.

CME 499. SPECIAL PROBLEMS IN CHEMICAL ENGINEERING
Two to six credit hours
Particular assignments to be arranged and approved by Chairman of the Department. Credit hours to be determined.

CME 501. ADVANCED THERMODYNAMICS
Two credit hours
Advanced topics of thermodynamics with applications. Prerequisite: Cme 303 or equivalent.

CME 502. FLUID FLOW
Two credit hours
Vectors, tensors and the basic equations of fluid flow. Applications to incompressible, Newtonian and Non-Newtonian fluids. Prerequisite: Cme 321.

CME 503. ADVANCED UNIT OPERATIONS
Two credit hours
This course covers diffusional topics, including extraction and multi-component absorption. Prerequisites: Cme 321, Cme 322, Cme 411.

CME 504. HEAT TRANSMISSION
Two credit hours
A study of the basic concepts of the flow of heat by conduction, convection and radiation. Prerequisites: Cme 321, Cme 322.
Chemistry (CHM)

Dr. Cletus Chudd, S.M., Chairman

Professors: Chudd, Lucier, Michaelis
Associate Professors: Eveslage, Pappalardo, Wottle
Assistant Professors: Karl, O’Brien, Steed, Vance
Instructor: Walsh
Part-time Instructors: Becker, DeSando, Katchman, B. O’Brien, March, Semmelman

CHM 110. General Chemistry
Three credit hours
Fundamental principles of chemistry including a brief treatment of organic chemistry. Three class periods each week.

CHM 110L. General Chemistry Laboratory
One credit hour
Course to accompany Chm 110 lecture. One two-hour laboratory period per week.

CHM 123-124. General Chemistry
Six credit hours
A comprehensive treatment of the fundamentals of general chemistry. Three class periods per week.

CHM 123L-124L. General Chemistry Laboratory
Two credit hours
Course to accompany Chm 123-124 lecture. The second semester laboratory work is devoted to semimicro qualitative analysis. One three-hour laboratory period per week.

CHM 200. Organic Chemistry
Three credit hours
A brief course in the fundamentals of Organic Chemistry. Three class periods each week. Prerequisite: Chm 110 or Chm 123.

CHM 200L. Organic Chemistry Laboratory
One credit hour
Course to accompany Chm 200 lecture. One two-hour period per week.

CHM 215. Quantitative Analysis
Two credit hours
A course for chemistry majors and chemical engineers. The fundamental theory and techniques of gravimetric and volumetric analysis is treated. Two class periods per week. Prerequisite: Chm 124, one semester of college mathematics.

CHM 215L. Quantitative Analysis Laboratory
Two credit hours
Course to accompany Chm 215 lecture. Two three-hour laboratory periods per week.

CHM 217L. Quantitative Analysis Laboratory
One credit hour
A short course for chemical engineers. To accompany Chm 215 lecture. One three-hour laboratory period per week.

CHM 301. Quantitative Analysis
Two credit hours
A short course intended for premedical, predental, and medical technology students. Two class periods per week. Prerequisite: Chm 124.

CHM 301L. Quantitative Analysis Laboratory
Two credit hours
Course to accompany Chm 301 lecture. One four-hour laboratory period per week.

---

Note: The course codes, titles, and descriptions are based on the provided text. The credit hours and terms are indicated as provided in the text.
CHM 405. **Qualitative Organic Analysis**  
A systematic study of the reactions of functional groups and of the physical properties which lead to the identification of organic compounds. One class period per week. Prerequisite: Chm 315-316, or Chm 313-314.  
*Second Term, Each Year*

CHM 405L. **Qualitative Organic Analysis Chemistry Lab.**  
Two credit hours  
Course to accompany Chm 405 lecture. Two three-hour laboratory periods per week.  
*Second Term, Each Year*

CHM 412. **Intermediate Organic Chemistry**  
This course provides an understanding of the modern theory of organic chemistry with emphasis on reaction mechanisms. Prerequisite: Chm 315-316.  
*First Term, Each Year*

CHM 415. **Analytical Chemistry**  
Methods of analysis based on modern instrumentation. Prerequisite: Chm 215, 215L, 304.  
*First Term, Each Year*

CHM 415L. **Analytical Chemistry Laboratory**  
Two credit hours  
This course accompanies Chm 415. Two three-hour laboratory sessions each week.  
*First Term, Each Year*

CHM 416. **Experimental Inorganic Chemistry**  
The preparation, separation, and characterization of inorganic compounds; special emphasis on modern techniques of coordination chemistry. One lecture hour each week. Prerequisite: Chm 415.  
*Second Term, Each Year*

CHM 416L. **Inorganic Synthesis Laboratory**  
Two credit hours  
The laboratory course which accompanies Chm 416. One four-hour lab each week.  
*Second Term, Each Year*

CHM 417. **Inorganic Chemistry**  
Electron distribution in atoms, nature of the chemical bond, periodicity, nucleus and its reactions, coordination compounds. Prerequisite: Chm 314 or Chm 316.  
*Second Term, Each Year*

CHM 420. **Biochemistry**  
A course dealing with the fundamentals of biochemistry and designed for chemistry and biology majors, pre-dental and pre-medical students. Prerequisite: Chm 314 or 316.  
*Second Term, Each Year*

CHM 497. **Seminar**  
Required of all chemistry majors. One meeting each week.  
*First Term, Each Year*

CHM 499. **Research**  
An elective for Chemistry majors. Permission of Chairman of Department required. Prerequisite: Senior standing.  
*Three Credit Hours*
Civil Engineering and Engineering Mechanics

Seymour J. Ryckman, Chairman

Professors: Chamberlain, Ryckman
Associate Professors: Driscoll, Stith, Thomson
Assistant Professors: DuBosar, Payne
Part-time Instructors: Curtis, Pao, Straus

Civil Engineering (CIE)

CIE 205L. Surveying Field Practice
THREE CREDIT HOURS
Field work and computation in topography, highway surveying, triangulation, level net, celestial observations, evaluation of errors, and preparation of plans. Five eight-hour days a week for three weeks. Prerequisite: Cie 208.

CIE 207. Surveying I
FOUR CREDIT HOURS
Theory of Measurements, computation and instrumentation. Boundary and construction surveys, celestial observations, triangulation and level net adjustments, elementary geodesy, and state coordinate systems. Corequisite: Mth 216. First Term, Each Year

CIE 208. Surveying II
THREE CREDIT HOURS
Study of photogrammetry, circular and spiral curves, vertical curves, grade lines, earthwork and mass diagram, slope and grade stakes, contour grading, and use of aerial photographs. Prerequisite: Cie 207. Second Term, Each Year

CIE 213L. Plane Table Surveying Laboratory
ONE CREDIT HOUR
Field and laboratory work in application of principles of Cie 213. Corequisite: Cie 213. Second Term, 1965-1966

CIE 306. Theory of Structures
FIVE CREDIT HOURS
The analytical and graphical methods of stress determination in statically determinate structures, together with a study of influence lines. Prerequisite: Egm 303. Second Term, Each Year

CIE 307. Hydraulics
FOUR CREDIT HOURS
Principles of liquid statics and fluid flow including similitude, measuring devices, channel and pipe flow, turbines and pumps. Corequisites: Cie 307L, Egm 301. First Term, Each Year

CIE 307L. Hydraulics Laboratory
ONE CREDIT HOUR
Laboratory experiments and problems associated with Cie 307. Corequisite: Cie 307. First Term, Each Year
Cie 310L. Civil Engineering Laboratory

Experiments and studies relating the engineering properties of certain materials to their fundamental nature and composition. Corequisite: Egm 303. *Second Term, Each Year*

Cie 312. Soil Mechanics

Principles of soil structures, classification, capillarity, permeability, flow nets, shear strength, consolidation, stress analysis, slope stability, lateral pressure, bearing capacity, and piles. Corequisites: Cie 312L, Egm 304. *Second Term, Each Year*

Cie 312L. Soil Mechanics Laboratory

Laboratory test to evaluate and identify soil properties for engineering purposes. Design problems are included. Corequisite: Cie 312. *Second Term, Each Year*

Cie 401. Structural Design I

Concentrated loads on slabs, beams; composite construction, rigid frames, flat slabs as rigid frames, plastic design of rectangular and tee beams. Prerequisites: Cie 407, Cie 415; Corequisite: Cie 402L. *Second Term, Each Year*

Cie 402. Structural Design II

Concentrated loads on slabs, beams; composite construction, rigid frames, flat slabs as rigid frames, plastic design of rectangular and tee beams. Prerequisites: Cie 407, Cie 415; Corequisite: Cie 402L. *Second Term, Each Year*

Cie 402L. Structural Design Laboratory II

Assigned problems illustrating and affording practice in the design covered in Cie 402. Corequisite: Cie 402. *Second Term, Each Year*

Cie 405. Highway Engineering

Fundamentals of highway design, construction maintenance, and economics with illustrative practical problems. Prerequisites: Cie 208, Cie 310L. *First Term, Each Year*

Cie 406. Indeterminate Structures

The determination of stresses and deflections of statically indeterminate frames and trusses by the classic and modern methods, including Castigliano's Theorem, least work, moment and shear distribution. Prerequisite: Cie 407. *Second Term, Each Year*

Cie 407. Reinforced Concrete

The first course in the theory and design of reinforced concrete structures; the study of earth pressure; design of retaining walls and footings. Prerequisite: Cie 306. *First Term, Each Year*

Cie 408. Seminar

Practice in the presentation and discussion of papers; lectures by staff and prominent engineers. Attendance required by all Civil Engineering Sophomore, Junior, and Senior students with only Seniors registering for credit. *One Credit Hour*

Cie 409. Soil Mechanics

A study of the physical properties of soil as an engineering material and an introduction to basic foundation engineering problems. Corequisites: Cie 409L, Egm 304. *Second Term, Each Year*

Cie 409L. Soil Mechanics Laboratory

Specific gravity, Atterberg limits, grading, permeability, consolidation, triaxial, direct shear, optimum moisture content and field sampling. Corequisite: Cie 409. *First Term, Each Year*
A study of rolled beams, plate girders, columns and steel trusses with emphasis on typical connections and splices both riveted and welded, together with assigned problems. Prerequisite: Cie 306; Corequisite: Egm 304.

First Term, Each Year

Cie 433. Sanitary Engineering I
An integrated study of the principles of water sanitation, water supply, stream pollution abatement and waste water disposal systems. Prerequisites: Cie 307, Cie 307L.

First Term, Each Year

Cie 434. Sanitary Engineering II
A continuation of Cie 433 and with brief considerations of municipal and rural sanitation. Prerequisite: Cie 433.

Second Term, Each Year

Civil Engineering Electives

Cie 421. Construction Engineering
Organization, planning and control of construction projects. Includes: a study of the use of machinery, economics of equipment, methods, materials, estimates, cost controls, and fundamentals of Cpm and Pert.

Cie 422. Materials of Construction
A comprehensive study of the properties of timber, stone, clay products, wrought iron, steel, cast iron, non-ferrous alloy and plastics. Prerequisite: Cie 310L.

Cie 499. Special Problems in Civil Engineering
Particular assignments to be arranged and approved by Chairman of the Department. Credit hours to be determined.

Cie 502. Prestressed Concrete
Discussion of the properties of concrete and prestressing steel. Theory and design of prestressed concrete beams, slab, circular tanks and rigid frames. Prerequisite: Cie 407.

Cie 504. Limit Design in Steel
A review of the physical properties of metal, the theory and application of limit design to simple and redundant members, trusses and columns. A brief study of connection details. Corequisite: Cie 406.

Cie 506. Ultimate Design of Reinforced Concrete
The theory and application of ultimate design in reinforced concrete as applied to beams, columns and members, subject to both bending and direct stress. Latest report of the A.S.C.E.-A.C.I. Joint Committee is reviewed. Prerequisite: Cie 407.

Cie 524. Foundation Design
Earth pressure and stability of natural slopes; frost action, perma-frost. Design of spread foundations, pile foundations, caissons, cofferdams, anchored bulkheads, bridge piers and abutments. Prerequisite: Cie 409; Corequisite: Cie 407.
CIE 542. Highway Design I
Design and construction of pavements, including concrete, asphalt, aggregate and soil cement surfaces. Designs of base courses. Maintenance. Prerequisite: Cie 405.

CIE 544. Traffic Engineering
Characteristics of traffic, including the road user, the vehicle, origin and destination surveys, traffic regulation, control devices and administration, and the principles underlying geometric design. Prerequisite: Cie 405.

Engineering Mechanics (EGM)

EGM 202. Statics
The principles of mechanics; force systems, resultants and equilibrium; centroids and centers of gravity; application to trusses, frames, and beams; friction; virtual work; moments of inertia. Prerequisite: Phy 206; Corequisite: Mth 218.

EGM 301. Dynamics
Kinematics, including translation, rotation, plane motion, and relative motion; kinetics of particles and bodies by the methods of force-mass-acceleration, work-energy, and impulse-momentum. Prerequisite: Egm 202.

EGM 303. Strength of Materials
The study of stresses and strains in tension, compression, shear, flexure and torsion; riveted and welded joints; shear and moment diagrams; stresses and deflections of beams and analysis of columns. Prerequisite: Egm 202.

EGM 304. Advanced Strength of Materials
Stresses and strains at a point; shear center; unsymmetrical bending; curved beams; approximate analysis of flat plates; torsion of non-circular bars; thick-walled cylinders. Prerequisite: Egm 303.

EGM 305L. Materials Testing
A course to acquaint the student with A.S.T.M. standards and procedures in the physical tests of metals, timber and concrete. Tests include those of tension, compression, flexure, torsion, hardness and impact. Corequisite: Egm 303.
Communication Arts

Associate Professor: Biersack
Assistant Professors: Baxter, Geyer, Gilvary, Mullins
Instructors: Henderson, Sokolowski
Part-time Instructors: Law, Vlahos, Moore

The course requirement for Communication Arts majors is 24 upper level credit hours distributed as follows:

FOR GENERAL MAJOR IN COMMUNICATION ARTS:

(1) Speech 101 and 200 (Introduction to Mass Communications)
(2) At least one upper level course in each of the following: Speech, Theatre, Broadcasting, Journalism, and Allied Areas, and electives in the field selected through consultation with the Department Chairman.
(3) Seminar in Communication Arts.

FOR CONCENTRATED MAJOR IN COMMUNICATION ARTS:

(1) Speech 101 and appropriate 200 level course.
(2) 21 credit hours of upper level courses with a minimum of 15 hours in Speech, Theatre, or Broadcasting-Journalism.
(3) Seminar in Communication Arts.

Minors in Communication Arts must have Spe 101 plus 12 hours of upper level courses selected through consultation with the department counselors.

The department sponsors three co-curricular activities, the University Players, the University Debators, and the Flyer News.

SPEECH

Spe 101. FUNDAMENTALS OF EFFECTIVE SPEAKING  THREE CREDIT HOURS
Introductory course in fundamental skills of speaking. Self-confidence is developed through speaking opportunities, with special attention given to poise, vocal variety, physical animation, and the communication of ideas.

Spe 201. SPEAKING TECHNIQUES  THREE CREDIT HOURS
Covers area of oral communication in professional situations. Adapts principles of effective speaking to specific audiences and occasions. Student prepares and delivers informational, problem-solving, good-will, and special occasion speeches.
SPE 300. Voice and Diction
Course treating the four phases of speech production: proper breathing, phonation, resonance, and articulation. Projection, quality, and clarity of speech are emphasized. Student's voice is analyzed through tape recordings.  
Second Term, Each Year

SPE 301. Speech Composition
Study of speech structure and composition. Critical analysis of model speeches, in conjunction with the preparation and presentation of original speeches on current public questions.  
Second Term, 1965-1966

SPE 302. Fundamentals of Debate
Application of the principles of argument through extensive practice in several forms of debate. Consideration of analysis, evidence, reasoning, inference and fallacy.  
First Term, Each Year

SPE 307. Conference and Discussion
The guiding principles used by participants and leaders in the preparation and conducting of conferences and discussions. Exploratory, problem-solving, and policy-making conferences are staged.  
Second Term, 1965-1966

SPE 310. Interpretative Reading I
Oral interpretation of poetry and prose. Combines a study of vocal modulations, pitch, inflection, and tone color with intellectual and emotional analysis of selections to develop a deeper appreciation of literature.  
First Term, Each Year

SPE 312. Persuasion
Analysis of the motivations which lead to belief and action of individuals and audiences. Study in the techniques of achieving persuasive purposes. Delivery of speeches in the application of the theory.  
First Term, Each Year
COURSES OF INSTRUCTION

**SPE 320. INTERPRETATIVE READING II**
A continuation of Spe 310, with a deeper penetration into the field of oral interpretation. Individual problems are given more particular attention. Impromptu reading. Prerequisite: Spe 310.  
Three credit hours  
*Second Term, 1965-1966*

**SPE 400. SPEECH CORRECTION**
Investigates the theory of speech and hearing handicaps in elementary and secondary school pupils. Examples of such defects are explored clinically and methods of correction applied. Includes demonstrations with children.  
Three credit hours  
*Second Term, 1965-1966*

**SPE 401. PUBLIC SPEAKING II**
A more intensive development of the goals sought in Spe 301. Students are required to demonstrate facility in holding audience attention through longer speeches. Prerequisite: Spe 201 or permission.  
Three credit hours  

**SPE 402. FORENSICS**
A course designed to employ the values inherent in competitive speaking, and to relate those values in an alert, aggressive citizenship. Classroom experience in the various forms of debate, discussion, original oratory.  
First Term, 1964-1965

**SPE 420. SPEECH METHODS IN THE SCHOOLS**
A course to prepare beginning teachers for speech work on the high school level. Demonstrates how to arrange syllabi and prepare and administer assignments that will enrich speech training classes.  
Second Term, 1964-1965

**SPE 430. SEMINAR IN THE SPEECH ARTS**
Individual research and report on a problem in the field of speech, theater, or broadcasting. Student will do research in the area of his interest. Communication Arts majors or minors only, with permission.  
Second Term, Each Year

**THEATER**

All Communication Arts majors with an emphasis in Drama are encouraged to participate in U.D. Players productions.

**SPE 204. INTRODUCTION TO THE THEATER**
Analyzes the nature of theater, its origin and development, from the standpoint of the play, the physical theater, and its place on our culture.  
Second Term, Each Year

**SPE 313. ACTING I**
Affords study and practice in the fundamentals of acting, with stress upon the physical, mental, and emotional background of characterization. Prerequisite: 204 or permission.  
First Term, Each Year

**SPE 323. ACTING II**
A further development and practice of fundamental principles set down in the elementary course in acting, Spe 313. Emphasis is placed on more specialized character portrayal. Prerequisite: Spe 313, or with permission.  
Second Term, 1965-1966
SPE 414. STAGECRAFT AND LIGHTING  
Three credit hours  
Presents fundamentals of designing, constructing, and painting stage scenery. Explores basic applications of stage lighting. Includes construction of scenery and plotting of lighting charts for specific plays. Prerequisite: Spe 204.  
First Term, 1965-1966

SPE 415. HISTORY OF THE THEATER I  
Three credit hours  
A survey of the history of theater from Aeschylus to Miller, with emphasis on plays, playwrights, and play productions that lead up to the representational theater of today. Prerequisite: Spe 204 or permission.  
First Term, 1964-1965

SPE 424. PLAY DIRECTING  
Three credit hours  
Treats the basic functions of a Director in the production of a play; blocking of scenes, timing, characterization, and continuity. Includes all aspects of production and direction of a one-act play.  
Second Term, 1965-1966

SPE 425. HISTORY OF THE THEATER II  
Three credit hours  
Plays, players, and movements in recent and current theater, including realistic and non-realistic styles. Function of community theater and commercial and professional theater. Prerequisite: Spe 204 or permission.  
Second Term, 1964-1965

BROADCASTING

SPE 306. RADIO FUNDAMENTALS  
Three credit hours  
A workshop course in microphonic technique as applied to straight announcing commercials, and newscasting. Development of articulation and tone for broadcasting purposes is emphasized. Station organization is discussed.  
First Term, Each Year

SPE 309. FUNDAMENTALS OF TELEVISION  
Three credit hours  
Principles and practices of television broadcasting, studio layout, equipment, personnel, organization of channels, and networks, educational and closed circuit television. Students participate in various programming projects.  
Second Term, Each Year

SPE 316. RADIO WORKSHOP  
Three credit hours  
Designed to develop voice, articulation, and reading skills. Exercises in microphone techniques. Development of radio stations' staff requirements and responsibilities. Project shows are taped for analysis.  
Second Term, 1964-1965

SPE 409. TELEVISION PRODUCTION  
Three credit hours  
Intensive practice in preparation and production of TV programs. Camera technique, floor set-ups, and direction of crews and talent demonstrated through actual participation in TV shows. Prerequisite: Spe 309, or with permission.  
First Term, Each Year

JOURNALISM

Majors in Journalism must take Jrn 200 plus 15 semester hours in Jrn 300-400 courses, plus 9 semester hours from 300-400 offerings in the Department of English, selected in consultation with the Chairman of the Department of English. Minors in Journalism must take Jrn 200 plus 12 semester hours from Jrn 300-400 courses.
JRN 200. **Introduction to Mass Communications Media**  THREE CREDIT HOURS
Covers nature and purpose of mass communicative field. Emphasis on newspapers, television and radio, occupational opportunities, organizational structure of modern newspaper and news facets of television and radio.  
*Second Term, Each Year*

JRN 300. **Reporting and Writing for News Media**  THREE CREDIT HOURS
Determining news values. Structure of a news story. Techniques of gathering news for all media and how this material is applied to newspapers, television and radio. Prerequisite: Jrn 200.

*First Term, 1964-1965*

JRN 301. **Advanced News Story Writing**  THREE CREDIT HOURS
Advanced reporting and news writing. Analysis of feature story techniques and structure in all areas, especially columns and specialized reporting. Prerequisites: Jrn 200 and 300.

JRN 302. **The Law and News Media**  THREE CREDIT HOURS

JRN 400. **Editing and Copyreading**  THREE CREDIT HOURS
The copy desk on large and small newspapers, Editing, headline writing, page make-up, use of pictures and type. Prerequisite: Jrn 300 or permission of instructor.  
*First Term, 1964-1965*

JRN 401. **Editorial Writing**  THREE CREDIT HOURS
Study of the methods used in preparing and writing newspaper editorials—editorial conferences to discuss topics, research necessary.  
*Second Term, 1965-1966*

JRN 404. **Newspaper Management Problems**  THREE CREDIT HOURS
Non-editorial operations—problems of business, circulation, advertising and printing departments as they affect operations of the news department. Special emphasis on small dailies and weeklies.
JRN 430. **History of Journalism**  
Critical study of development of the English language press. Emphasis on the American press and its role in political and economic progress of this country. The outstanding editors and their newspapers.

**ALLIED AREAS**

**Com 301. Production of Audio-Visual Aids**  
Two credit hours  
Production of various types of audio-visual aids used in communications. Designing and producing audio-visual aids will be required.  
*First Term, 1965-1966*

**Com 302. Uses of Audio-Visual Aids**  
Two credit hours  
Investigates areas of communication where audio-visual aids are used to great advantage. Deals primarily with developing techniques and skills in using audio-visual aids.  
*Second Term, 1965-1966*

**Com 303. Free-Lance Writing**  
Three credit hours  
*First Term, 1964-1965*

**Com 304. Advertising**  
Three credit hours  
Nature and functions of advertising; preparation of layouts, writing of copy; selection and evaluation of media. Coordination of advertising with other marketing efforts. Social implications of advertising. (See Bus 307.)

**Com 305. Propaganda Analysis**  
Three credit hours  
Use and abuse of propaganda. Editorial persuasion. Propaganda devices and techniques. An application of the principles of Aristotelian logic to the field of mass communication.  
*Second Term, 1965-1966*
COM 306. REPORT WRITING
The principles of letter writing and report writing are studied and applied in conformity with the best current practices in business. (See Bus 409.)

COM 307. TECHNICAL WRITING

COM 401. PUBLICITY AND PUBLIC RELATIONS
For students (business, education, personnel management, etc.) who expect to direct publicity campaigns or write news releases in their future work. Explains nature, organization, and problems of newspaper publishing. First Term, 1965-1966

Economics (Eco)

Professors: Fecher, Whalen
Associate Professor: Leese
Assistant Professor: O'Brien
Instructor: Hilaski
Part-time Instructors: Busch, Cleland, Dickison, Hamberg, Hayes, Laufersweiler, McClellan, O'Connell, Suttmann, Taylor, Vitton

Eco 201-202 are prerequisites for all advanced courses in Economics.

Eco 201. PRINCIPLES OF ECONOMICS I
Basic economic principles. Analyzes American economy—business organization, industrial relations, the economic role of government, money and banking in the productive process, determination of aggregate level of national income and employment.

Eco 202. PRINCIPLES OF ECONOMICS II
Examines pricing of production factors under conditions of perfect and imperfect competition. Considers distribution of income, principles of international trade, problems of economic development, and alternative economic systems.

Eco 330. HISTORY OF ECONOMIC THOUGHT
Surveys early philosophers. Examines various schools and systems of economic thought (Mercantilists, Physiocrats, Classicals, Historicals, Marginalists, Neo-classicals, Keynesians) and current economic theories with emphasis upon American developments.

Eco 340. MICRO ECONOMIC ANALYSIS
Analyzes theory of consumer behavior; production theory; equilibrium of the firm; market structures; monopoly, monopolistic competition, and oligopoly; allocation of resources; distribution of income.

Eco 341. MACRO ECONOMIC ANALYSIS
National income and determination of level of income and employment. Keynesian vs. classical systems. Role of government in economy; foreign trade and price levels; theory of economic growth; Keynesian and post-Keynesian theory.
Eco 342. Money, Banking, and Monetary Policy
Three credit hours
Considers principles of money and monetary systems; commercial banking and role of the Federal Reserve System; monetary theory and policy; the mechanism of international payments.

Eco 343. Principles of Public Finance and Taxation
Three credit hours
Studies major types of taxation and expenditure problems of local, state, and especially federal government. Emphasizes shifting, incidence, equity, and policy of different types of taxes together with fiscal administration and public debt.

Eco 360. Principles of International Trade
Three credit hours
Studies international trade theory, issues, and problems. Examines national income and trade, foreign exchange, balance of payments, trade barriers, international economic organizations, and recent movements toward free trade.

Eco 370. Labor and Industrial Relations
Three credit hours
Considers labor problems of modern industrial society. Examines the history, structure, and functions of trade unions and employer organizations. Analyzes law of trade unionism; collective bargaining; and industrial conflict.

Eco 371. Labor Economics
Three credit hours
Considers wage theory, determinants of wage rates and employment. Examines union policy, economic stability and growth. Also analyzes the economics of private governmental welfare and security programs.

Eco 372. Economics of Social Security
Three credit hours
Nature and causes of economic insecurity and social adjustment to it. Analyzes economic effects of unemployment, disability, substandard working conditions, old age and death, and the evolution of institutional approaches to these problems.

Eco 440. Business Cycles and Forecasting
Three credit hours

Eco 441. Advanced Banking and Monetary Analysis
Three credit hours
Emphasizes nature and role of the central bank in modern economy. Reviews monetary system of the United States and examines the monetary mechanism as a device for stabilizing the economy. Analyzes international monetary problems.

Eco 450. Comparative Economic Systems
Three credit hours
Analyzes principal types of economic systems in the world today. Stresses their development in the United Kingdom, the Soviet Union, China, and India. Contrasts foreign systems with American capitalism.

Eco 451. The Soviet Economy
Two credit hours
Analyzes Soviet methods of resource allocation and characteristics of its pricing system. Surveys Soviet economic institutions, determinants and measurement of output, distribution of income, and international relations.
Eco 460. Principles of Economic Development and Growth  
Three Credit Hours
Inquires into the nature of economic growth in both pre-industrial and industrial societies within their individual institutional framework. Analyzes theories of growth, domestic and international policy issues.

Eco 461. Current European Economic Problems  
Two Credit Hours
Offered in cooperation with Miami University. Two credits granted economics majors on submission and approval of a written term paper embodying independent research undertaken while touring Europe as a part of the Miami Abroad program.

Eco 470. Comparative Labor Movements  
Three Credit Hours
Inquires into the development of trade unionism in the United Kingdom, Western Germany, Sweden, France, and Italy, as compared with the development of trade unionism in the United States.

Eco 480. Current Economic Problems  
Two Credit Hours
Analyzes current economic issues including the problems of agriculture, employment and economic growth, inflation, budgetary policy, public debt, international balance of payments, and underdeveloped economies.

Eco 499. Special Problems in Economics  
Two to Six Credit Hours
Particular assignments to be arranged and approved by chairman of the department. Credit hours to be determined.

Eco 499W. Special Problems in Economics-Workshop  
Two to Six Credit Hours
Special workshop assignments to be arranged and approved by chairman of the department. Credit hours to be determined.

Education (Edu)

Foundations of Education  
Dr. Joseph J. Panzer, S.M., Chairman

Professors: Barrett, Campanelle, Elbert, Panzer
Assistant Professors: Anderson, Bourgeois, Emling, Riley
Part-time Instructors: Rogus, VandeVander

Edu 100. Orientation  
One Credit Hour
Deals with the total problem of adjustment to the college campus. Second half of course deals with orientation to the teaching profession.  
First Term, Each Year

Edu 109. Moral and Spiritual Values  
Three Credit Hours
A study of the basic religious and moral values inherent in the American tradition. Stresses the importance of such values for the teacher and emphasizes their role as integrating factor in the educative process.
**EDU 198. Nature of the Learner**

Three Credit Hours

General psychology emphasizing concepts from the standpoint of both science and philosophy. Focuses attention on fundamental equipment of man as a learner. (A combination of Psy 204 and Phl 207 may substitute.)

**EDU 207. Educational Psychology I: Growth & Development**

Three Credit Hours

Designed to study growth and development in childhood and adolescence. The knowledge gained will be made relevant for successful classroom practice. Prerequisite: Edu 198 or equivalent.

**EDU 208. Educational Psychology II: The Learning Process**

Three Credit Hours

The aim of this course is two-fold: (1) to treat the learning process; and (2) to treat topics dealing with factors which vitally affect the learning process. Prerequisites: Edu 198, Edu 207 or equivalents.

**EDU 419. Philosophy of Education**

Three Credit Hours

By interrelating the principal concepts pertaining to man, society, and the school, the student should develop a constructive philosophy of education. Accredited in Philosophy. Prerequisite: Edu 198 or equivalents.

**EDU 423. Philosophy of Education: Catholic**

Three Credit Hours

The educand, the aims and agencies of education, the philosophy of the curriculum are studied in the light of Catholic theology and philosophy. The course may be taken in lieu of Edu 419. Prerequisite: Edu 198 or equivalent.

**EDU 431. Visual and Other Sensory Aids in Education**

Two Credit Hours

Studies the aims and psychological bases of the use of visual and other sensory aids in the classroom. Includes demonstration lessons applying sensory methods to the subjects of the curriculum. Involves laboratory experience. *Second Term, 1964-1965*

**EDU 440. Honors Seminar**

Two Credit Hours

Concerns itself with the great issues and problems of education. Offered as an elective for junior and senior members of the Education Honor Society. *Second Term, Each Year*

**EDU 448. Psychodynamics of Behavior**

Three Credit Hours

Treatment of core concepts from Mental Hygiene, Personality Theory, and Abnormal Psychology. It is a prerequisite for admission to the graduate program in school counseling. Prerequisite: Edu 207, 208 or equivalents. *First Term and Summer, 1964-1965*

**EDU 460W. Science in the Elementary School**

Three Credit Hours

Understanding the challenge of the newer developments of science for the elementary school program. Study of the objectives of elementary science and of the selection and grade placement of subject matter. *Summer*
Elementary Education

Professor: Chavez
Assistant Professors: Mathews, Sorohan, Waters
Instructors: Ruhmschussel, Vincze
Part-time Instructors: Guinan, Jenkins, McPherson, Schnelle, Traen

EDU 219. Kindergarten Instruction THREE CREDIT HOURS
Deals both with the theory and the necessary practical skills to meet the needs of children in the Kindergarten. Observation in Kindergarten is included. Required for Kindergarten-Primary certification.
First Term, Each Year

EDU 303. Reading in the Elementary School THREE CREDIT HOURS
Treats: reading-readiness, experience reading, methods of meeting individual differences, functional reading, diagnosis in reading, and remedial measures. Observation of teaching. Prerequisite: Edu 207 or Psy 306.
Evening

EDU 320. Reading and Language Arts in Elementary School FIVE CREDIT HOURS
An integrated language arts course with reading as its core subject. Acquisition of a certificate in handwriting required. Includes field experiences, particularly observation of teaching. Prerequisite: Edu 207 or Psy 306.

EDU 324. Language in the Elementary School TWO CREDIT HOURS
Stresses the expressional phase of elementary school language, including oral and written expression, spelling and handwriting. Also treats instructional methods. Acquisition of certificate in handwriting is required. Prerequisite: Edu 303.
Evening and Summer

EDU 325. Social Studies in the Elementary School THREE CREDIT HOURS
Function of the social studies in the elementary school; appraisal of teaching procedures in the field; formulation of definite principles; testing the results of instruction. Prerequisite: Edu 208.
Evening and Summer

EDU 330. Religion in CCD (Elementary) TWO CREDIT HOURS
Principles and techniques for the effective teaching of religion. Prepares the student to teach Catholic pupils on released time from the public elementary schools. Prerequisite: Four semester hours of Theology.
First Term, 1964-1965

EDU 333W. Religious Instruction in CCD Program TWO CREDIT HOURS
Designed to prepare the student to teach Catholic pupils on released time from the public elementary and high schools. Prerequisite: Eight semester hours of Theology.
Summer, 1965

EDU 350. The Elementary School: Purposes and Practices THREE CREDIT HOURS
Deals with objectives, organization, curricula, community relationships, and the practical aspects of teaching in the elementary schools. Visitation of schools for observation. Prerequisites: Edu 207, Edu 208 or equivalents.
EDU 352. THE ELEMENTARY SCHOOL: PAROCHIAL
THREE CREDIT HOURS

EDU 400. RELIGION IN THE ELEMENTARY SCHOOL
TWO CREDIT HOURS
Methods and materials of instruction; employment of the principles of adaptation to the practical needs of elementary school children in the Catholic schools. Observation of teaching. Prerequisites: Edu 207, Edu 208.

EDU 403. ARITHMETIC IN THE ELEMENTARY SCHOOL
TWO CREDIT HOURS
Deals with distribution of content according to grade levels; methods of presentation; diagnosis of number difficulties; remedial instruction; testing. Directed observation of teaching. Prerequisite: Mth 141-142.

EDU 414. STUDENT TEACHING
SIX-TWELVE CREDIT HOURS
Consists of teaching in actual classroom situations for full semester under close supervision. A seminar is held once a week. Prerequisite: Formal admission to student teaching a full semester in advance.

EDU 480. THE PSYCHOLOGY OF SLOW LEARNING CHILDREN
TWO CREDIT HOURS

EDU 484. LANGUAGE ARTS FOR SLOW LEARNING CHILDREN
TWO CREDIT HOURS
Practical measures for taking care of the language and reading needs of mentally retarded children in special classes. Diagnosis of unique problems combined with practice and program development. Prerequisite: Edu 480.

EDU 485. SOCIAL STUDIES FOR SLOW LEARNING CHILDREN
TWO CREDIT HOURS
Curriculum planning and program development for the integration of social studies in the education of mentally retarded children in special classes. Prerequisite: Edu 480.

EDU 486. ARITHMETIC FOR SLOW LEARNING CHILDREN
TWO CREDIT HOURS
Deals with the special adjustments and techniques required in developing basic arithmetic skills in mentally retarded children in special classes. Prerequisite: Edu 480.

EDU 487. OCCUPATIONAL ORIENTATION AND JOB TRAINING
TWO CREDIT HOURS
Designed to acquaint teachers with the problems and challenges involved in a program positively attuned to the limited occupational opportunities for mentally retarded children. Prerequisite: Edu 480.
Secondary Education

Professors: Faerber, Leary, Seebold
Associate Professors: Darby, Jansen, Powers
Assistant Professor: White
Part-time Instructors: Cronin, Painter, Markus, Reston, Stuck, Weidner, Yura

EDU 327. BUSINESS EDUCATION IN THE SECONDARY SCHOOL  TWO CREDIT HOURS
Principles and techniques of teaching business education subjects in high school, including both the social business and secretarial subjects. Prerequisite: Edu 208.

First Term, Each Year

EDU 331. RELIGION IN CCD (HIGH SCHOOL)  TWO CREDIT HOURS
Concentrates on principles and techniques of religious instruction for high school students and follows the program of the Confraternity of Christian Doctrine. Prerequisite: Eight semester hours of Theology. Second Term, 1964-1965

EDU 351. THE SECONDARY SCHOOL: PURPOSES AND PRACTICES  TWO CREDIT HOURS
Purposes, organization, curricula, community relationships, and the practical aspects of teaching in Junior and Senior High Schools. Visitation of high schools for observation. Prerequisites: Edu 207, Edu 208 or equivalents.

EDU 353. THE SECONDARY SCHOOL: MARIANIST  TWO CREDIT HOURS
Covers the basic course content of Edu 351 treated in terms of the Marianist traditions and concepts of teaching as revealed through Marianist educational literature. May be taken in lieu of Edu 351. Prerequisites: Edu 207, Edu 208. Summer

EDU 405. ENGLISH AND SPEECH IN SECONDARY SCHOOL  TWO CREDIT HOURS
Ways and means whereby the teacher can make his teaching more functional in the lives of students. Observation of teaching. Prerequisite: Edu 351 or Edu 353.

Second Term, Each Year

EDU 406. SOCIAL STUDIES IN SECONDARY SCHOOL  TWO CREDIT HOURS
Aims and values of social studies in high school. General method and special techniques in the social studies field. Observation of teaching. Prerequisite: Edu 351 or Edu 353.

Second Term, Each Year

EDU 408. MODERN LANGUAGE IN THE SECONDARY SCHOOL  TWO CREDIT HOURS
Considers the functions and values of language study; courses of study; organization of materials; conventional and progressive methods. Observation of teaching on high school level. Prerequisite: Edu 351 or Edu 353.

Second Term, Evening

EDU 409. MATHEMATICS IN THE SECONDARY SCHOOL  TWO CREDIT HOURS
The objectives of high school mathematics; sequence and correlation of subject matter; methods of teaching. Directed observation of teaching. Prerequisite: Edu 351 or Edu 353.

Second Term, 1964-1965
Edu 410. Religion in the Secondary School
Two Credit Hours
Presents the teacher of religion with modern methods of instruction with view to the practical needs of adolescents. Prerequisite: Edu 351 or Edu 353. Summer, 1965

Edu 411. Science in the Secondary School
Two Credit Hours
Deals with instructional methods and materials in the modern science program. Includes the selection of objectives on the basis of reliable criteria, and the development of an integral science program. Prerequisite: Edu 351 or Edu 353.
Second Term, 1964-1965

Edu 412. Student Teaching
Six Credit Hours
Supervised teaching in actual classroom situations during the summer period. A seminar on campus twice a week. Restricted to students who have had full-time teaching experience. Prerequisite: Methods course.

Edu 416. The Teaching Internship
Nine Credit Hours
For beginning Marianist teachers in Marianist secondary schools. Supervised experiences under an administrator and a master teacher. Prerequisite: Edu 351.
First and Second Term, Each Year

School Administration and Counseling
Dr. Ellis Joseph, Acting Chairman

Professors: Campanelle, Faerber, Leary
Assistant Professors: Anderson, Joseph
Part-time Instructors: Crim, Edgington, Sigmund, Wogoman, Working, Wright

Courses are listed in the Graduate Catalog Issue of the Bulletin.
Electrical Engineering (ELE)  Bro. Louis H. Rose, S.M., Chairman

Professor: Rose
Associate Professors: Borden, Morgan, Schmidt, Yakura
Instructor: Kubach
Part-time Instructors: Farren, Hoversten, Snyder

ELE 201. ELEMENTS OF ELECTRICAL ENGINEERING  THREE CREDIT HOURS
Physical and electrical concepts, electrical circuit analysis, power and energy, conductors and insulators, magnetic circuits, electrodynamics, electrostatics. Corequisites: Phy 207, Mth 217.

ELE 205. ALTERNATING CURRENT CIRCUITS  THREE CREDIT HOURS

ELE 307. ELECTRICAL MEASUREMENTS  THREE CREDIT HOURS
A basic course covering both DC and AC measurements; errors of measurements; deflection and null methods; bridge analysis; wave forms and AC meters; square law movements. Corequisite: Ele 205.

ELE 307L. ELECTRICAL MEASUREMENTS LABORATORY  ONE CREDIT HOUR

ELE 310. CIRCUIT ANALYSIS  THREE CREDIT HOURS
Fourier Series and Fourier Integral, steady state analysis; Network theorems; Coupled Circuits; Resonance and Foster's Reactance theorem; Iterative networks. Prerequisite: Ele 312.

ELE 310L. CIRCUIT ANALYSIS LABORATORY  ONE CREDIT HOUR

ELE 312. ENGINEERING ELECTRONICS I  THREE CREDIT HOURS
A basic course with emphasis on terminal behavior of vacuum tubes and transistors.

ELE 312L. ENGINEERING ELECTRONICS LABORATORY I  ONE CREDIT HOUR
Receiving tube and transistor characteristics, electronic instruments, basic amplifier circuits, power supplies, waveshaping circuits. Corequisite: Ele 312.

ELE 313. ENGINEERING ELECTRONICS II  THREE CREDIT HOURS
A course in linear electronic circuits; network theorems; single and multistage amplifiers; transient response of electronic circuits and feedback amplifiers. Prerequisite: Mth 341; Corequisite: Ele 310.

ELE 313L. ENGINEERING ELECTRONICS LABORATORY II  ONE CREDIT HOUR
Single and multistage amplifiers, DC amplifiers, transistor amplifier configurations, feedback amplifiers, electronic timing and switching circuits. Corequisite: Ele 313.
ELE 318. Machinery I  
Three credit hours
The theory, construction and characteristics of series, shunt and compound generators and motors; the theory of commutation and armature reaction; transformers. Prerequisite: Ele 205.

ELE 321. Basic Electric Theory  
Three credit hours
For Chemical, Civil, Mechanical and Industrial Engineering students. Fundamental methods of analysis in DC and AC circuits. Prerequisites: Phy 207, Mth 218.

ELE 322. Fundamental Engineering Electronics  
Two credit hours

ELE 322L. Fundamental Engineering Electronics Lab.  
One credit hour
Experiments, tests and measurements paralleling lectures in Ele 322. Basic receiving tube and transistor characteristics, electronic instruments, basic amplifier circuits, power supplies, wave-shaping circuits. Corequisite: Ele 322.

ELE 403. Machinery II  
Three credit hours
Parallel and polyphase transformer connections; theory, construction and characteristics of polyphase induction motors, synchronous generators and motors, single phase motors and rotary converters. Prerequisite: Ele 318.

ELE 403L. Machinery Laboratory  
One credit hour

ELE 408. Electrical Transients  
Three credit hours

ELE 410. Seminar  
One credit hour
Presentation of papers by the students and lectures by engineers in active practice.

ELE 411. Electric and Magnetic Field Theory  
Three credit hours
Mathematical theory of classical electricity and magnetism with an introduction to electromagnetism and Maxwell’s equations. Prerequisite: Mth 341.

Second Term, Each Year

ELE 413. Communication Engineering  
Three credit hours
Wave filters; transmission lines; impedance matching; application of “Smith Chart”; equalization; linear amplifiers; modulation. Prerequisites: Ele 310, Ele 310L.

ELE 413L. Communication Engineering Laboratory  
One credit hour
The experiments will be closely correlated with the lecture materials. Corequisite: Ele 413.
Ele 414. Advanced Electronics
Electron ballistics; theory of metals and semiconductors; electron emission, space charge flow, fundamental gas processes; modern electron devices. Prerequisite: Mth 301 or Mth 341.

Second Term, Each Year

Ele 415. Microwave Theory and Practice
Maxwell's equations; transmission lines, wave guides, cavity resonators; transmission, reflection, and absorption in media; microwave generators; applications of microwaves. Prerequisite: Ele 411.

Ele 417. Thesis
Independent project in a field selected by the student and approved by the faculty. Open to seniors in the second semester.

Ele 419. Servomechanisms
Closed-loop control systems; Routh’s and Nyquist stability criterion; attenuation-frequency methods. The root-locus approach; relationship between steady-state and transient performance. Prerequisite: Ele 408.

Ele 499. Special Problems in Electrical Engineering
Particular assignments to be arranged and approved by Chairman of the Department.

Ele 502. Advanced Circuit Analysis

Ele 503. Analog Computers

Ele 504. Digital Computers
Circuit components and binary numbers. The simplification of Boolean functions. The arithmetic unit. Error-free computer operation. The control unit. Completing computer design. Prerequisite: Ele 313.

Ele 511. Advanced Theory and Design of Rotating Machinery I
Basic Principles and applied theory in practical design of induction machinery, commercial, aircraft and missile types. Prerequisite: Ele 403.

Ele 512. Advanced Theory and Design of Rotating Machinery II
Detailed theory and design of Direct Current and Synchronous machines. Permanent magnet and flux switch machines. Heat transfer phenomena; the general temperature field. Prerequisite: Ele 511.
English (ENG)  

Professor: Boll  
Associate Professors: Bedard, Kohles, McCarthy, O'Donnell, Whetro  
Assistant Professors: Cochran, Donnelly, Fisher, Labadie, Lees, Means, Murphy, Petitpas, Rougier, Ruff, Shank, Stockum, Sturm, Tiernan  
Instructors: Bihl, Geis, Kenny, Kinneavy, Macklin, Miller, Panakal, Westhead  
Part-time Instructors: Armstrong, Collins, Hellwig, Palumbo, Riley  

Eng 101 and Eng 102 are prerequisites for all courses listed as 200 or above. In addition to prerequisites Eng 101, 102, 221, 222 majors must take 316, 318, or 428; 405 or 431; 490; a semester of Shakespeare; a period survey each from sequence 412 to 435 and 438 to 442; a semester of American literature from the sequence 450 to 456; and one additional elective from 300-400 level offerings. In addition to Freshman and Sophomore courses minors must take one course from the 300 level and three from the 400 level. Majors and minors should consult the departmental chairman regarding their program of study.

The Department sponsors one co-curricular activity, The Exponent, the literary magazine of the University.

**Eng 101. English Composition I**  
Three credit hours  
Extensive practice in composition is integrated with analysis of selected readings. Frequent themes are assigned.

**Eng 102. English Composition II**  
Three credit hours  
Continuation of Eng 101. Practice is continued in various types of theme writing. Prerequisite: Eng 101. Required of every student.

**Eng 103. Advanced Placement English Composition**  
Three credit hours  
This course, designed for the freshman whose ability in written communication is superior, includes a study of various techniques of writing. Prerequisites: Superior score in entrance exams.  
*First Term, Each Year*

**Eng 220. Introduction to Literature**  
Three credit hours  
Representative works are studied as a means of acquainting the student with the literary principles involved in poetry, drama, fiction, and essays. Prerequisite: Eng 102 or 103. Required of Sophomores in Business Administration.

**Eng 221. English Literature**  
Three credit hours  
A survey of English literature from its beginning to the present day; includes a study of the background as well as the works of the authors of each period. Prerequisite: Eng 102 or 103.

**Eng 222. American Literature**  
Three credit hours  
A survey of American literature from the Colonial Period to the present day; presents a study of the background as well as representative works of the different periods. Prerequisite: Eng 102 or 103.
Eng 315. Development of Grammar
Studies in grammatical structure of modern English in the light of historical development. Traditional and modern linguistic points of view considered.  
First Term, Each Year

Eng 316. Advanced Composition
Offers intensive practice in the standard forms of theme writing, with emphasis on the formal, rhythmic, and thought patterns of the sentence, the paragraph, and the total composition. Prerequisites: Eng 101-102.

Eng 318. Creative Writing
The principles for writing the short story, the informal and formal essay, and the biographical sketch. Prerequisite: Eng 316 or permission.  
Second Term, Each Year

Eng 322. World Literature
A survey of the literature of continental Europe and of Asia, from its beginning up to the twentieth century.  
First Term, Each Year

Eng 323. Dante
A comprehensive study of the three Canticles of the Divine Comedy: Inferno, Purgatorio, and Paradiso.  
Second Term, Each Year

Eng 329. Short Story
A study of the techniques employed in the writing of the short story. Various models of the short story will be analyzed.

Eng 330. Development of Drama
A study of the historical development of the drama from its beginnings in the Classic Age to the nineteenth century. Selected plays from each significant period are read and analyzed. (former Eng 422)
Eng 332. Modern Drama
A selected number of dramas, representing the best of world theater by the foremost playwrights of the modern period. (former Eng 426)

Eng 352. Topics in Modern Literature
A study of selected Continental, English, and American writers with a background of discussion of the significant forces shaping the literature of the twentieth century.

Eng 360. Children's Literature
Treats the various fields of children's literature, including: history of children's literature, poetry for different age levels, folk tales, story telling. Required of and limited to students in Elementary Education.

Eng 362. Shakespeare
A study of selected plays of Shakespeare. Some of these are discussed intensively in class; others are assigned for outside reading.

The primary objective of this course is to cultivate a consciousness of the "philosophical habit of the mind," as set forth by Cardinal Newman in the Discourses on the Idea of a University. (former Eng 419)

Eng 370. Francis Thompson
A study of his poems toward the discernment of their manifold spiritual and autobiographical implications. (former Eng 414)

Eng 403. History of the English Language
Stages in the development of the English language and influences shaping its development are studied to show what happened to the English language from the beginning to the present time. (former Eng 430)

Eng 405. Chaucer
A study of the life, the times, and the language of Chaucer. The main concentration is on The Canterbury Tales as rendered in Middle English. Prerequisite: Eng 221, 222. (former Eng 429)

Eng 412. Early Renaissance Literature
A survey of the non-dramatic literature of the sixteenth century from Thomas More to Sidney and Spenser. Prerequisite: Eng 221, 222.

Eng 413. Later Renaissance Literature
A survey of the non-dramatic literature of the early seventeenth century from Bacon, Jonson, and Donne, to Marvell, exclusive of Milton. Prerequisite: Eng 221, 222.

Eng 420. Renaissance Drama
A study of the drama of the Elizabethan, Jacobean, and Caroline periods, exclusive of Shakespeare. Prerequisite: Eng 221, 222.

Eng 423. Tragedies of Shakespeare
All of the tragedies of Shakespeare are read; some are taken through in detail in the lecture periods and the rest assigned for out of class reading. Prerequisite: Eng 221, 222.
Eng 424. Comedies of Shakespeare
Three credit hours
The same procedure as followed for Eng 423. Some of the Comedies may be omitted at the discretion of the professor. Prerequisite: Eng 221, 222.

Eng 425. Histories of Shakespeare
Three credit hours
The same procedure as followed for Eng 423. All of the Histories are taken. Prerequisite: Eng 221, 222.

Eng 428. Literary Criticism
Three credit hours
A study of the history and development of literary criticism. It includes a study of fundamental principles of literary structure and style, together with the various theories advanced. Prerequisite: 221 or 222.

Eng 431. Milton
Three credit hours
A study of the major and minor poems and of selected prose of Milton. Prerequisite: Eng 221, 222. (former Eng 415)

Eng 434. Age of Wit and Satire
Three credit hours
A study of the neo-classical literature from the Restoration to the middle of the eighteenth century. The concern of the course is with the literature from Dryden to Pope, Addison, and Steele. Prerequisite: Eng 221, 222.

Eng 435. English Literature of the Eighteenth Century
Three credit hours
A study of the most representative works in prose and poetry from Swift to Johnson. Prerequisite: Eng 221, 222. (former Eng 340)

Eng 437. The English Novel
Three credit hours
A study of the development of the English novel from its beginning in the middle of the eighteenth century to the end of the nineteenth century. Prerequisite: Eng 221, 222.

Eng 438. The Age of Romanticism
Three credit hours
A study of the major poets and critics of the Romantic Age. Prerequisite: Eng 221, 222.

Eng 441. The Victorian Age I
Three credit hours
A study of the major English poets from Tennyson to Housman. Prerequisite: Eng 221, 222. (former Eng 335)

Eng 442. The Victorian Age II
Three credit hours
English prose writers from Carlyle to Pater. Eng 441 is not a prerequisite. Prerequisite: Eng 221, 222. (former Eng 336)

Eng 445. Modern British Fiction
Three credit hours
A consideration of significant developments in the novel and short fiction from Joyce to the present day.

Eng 446. Modern English Poetry
Three credit hours
A study of tradition and innovation in English poetry from Yeats to the present day.
Eng 450. Nineteenth Century American Poetry and Prose
Three credit hours
A survey of the significant developments in American literature, exclusive of fiction, from Bryant and Poe to Whitman and Henry Adams.

Eng 452. American Fiction of the Nineteenth Century
Three credit hours
A study of developments in the novel and short fiction from Washington Irving to Mark Twain and Stephen Crane. Prerequisite: Eng 221, 222.

Eng 454. Modern American Fiction
Three credit hours
A treatment of significant movements in the novel and in the theory of fiction in twentieth century American literature. Prerequisite: Eng 221, 222.

Eng 456. Modern American Poetry
Three credit hours
A study of the technique of modern poetry in America from Robinson, Jeffers, and Frost to the present. Prerequisite: Eng 221, 222.

Eng 490. Seminar
Three credit hours
Concentration on one literary figure, genre, or period for purposes of research and analysis. Reports are read at sessions. Required of all majors in English. With permission. Prerequisite: Eng 221, 222. (Former Eng 440) Second Term, Each Year

Fine Arts (Art)
Edward R. Burroughs, Chairman

Associate Professor: Burroughs
Instructor: Weber
Part-time Instructors: Carmichael, Martino

Art 101. Drawing
Two credit hours
A study of the elements of drawing, including perspective, drawing from still life, light and shade and sketching. Two class periods a week. First Term, Each Year

Art 103. Introductory Painting I
Two credit hours
Painting in oil and water color from still life, landscape and floral subjects. Emphasis is placed on composition and application of art theories. First Term, Each Year

Art 104. Introductory Painting II
Two credit hours
A further study of painting problems with reference to technique and methods of procedure in building a painting. Prerequisite: Art 103 or its equivalent. First Term, Each Year

Art 201. Principles of Design I
Two credit hours
A study of the underlying elements and principles of design as they are applied to surface pattern. Color theories and their use in creative design are a part of this course. Second Term, Each Year

Art 202. Principles of Design II
Two credit hours
Advanced studies in creative design and their application to modern materials and to industry. Prerequisite: Art 201 or its equivalent. Second Term, Each Year
ART 204. LETTERING AND CALLIGRAPHY  
TWO CREDIT HOURS
The same rules governing other aspects of art apply also to lettering. Application of the drawn letter and the designed letter to poster, books, inscriptions, and manuscripts through class assignments and projects will be required.

ART 205. GRAPHIC ARTS  
THREE CREDIT HOURS
The principal processes of the graphic arts are studied as they pertain to contemporary expression in the fine arts and advertising. Offered only at Marianist College.

Second Term, Each Year

ART 207. COMMERCIAL ART AND LETTERING  
THREE CREDIT HOURS
Basic principles of advertising design, layout and lettering (designed, and drawn letter) and the relation of these subjects to current problems and methods. Offered only at Marianist College.

First Term, Each Year

ART 221. PRACTICAL ARTS IN THE KINDERGARTEN AND PRIMARY GRADES  
TWO CREDIT HOURS
Creative expression in the use of such materials as papers, textiles, ceramics, and plastics. A study of handwork as an integral part of activities in the schools. Accredited in Education.

Second Term, Each Year

ART 222. PRACTICAL ARTS IN THE INTERMEDIATE GRADES  
TWO CREDIT HOURS
Same as Art 221, adjusted to the maturity of children in the intermediate grades. Accredited in Education.

Second Term, Each Year

ART 301. CHRISTIAN ART  
TWO CREDIT HOURS
A study of the best examples of sacred art as representative expositions of Christian theology and religious tradition; correlations with Church history, theology, music, literature. Offered only at Regina Heights.

ART 407. ART IN THE SCHOOLS  
TWO CREDIT HOURS
Use of art elements and principles as the basis for creative approach; organization of units of work, including drawing, painting, design, color, modeling, block printing, lettering, and the mural. Accredited in Education.

ART 408. THE GREAT MASTERS  
TWO CREDIT HOURS
A study of the masters of art and the influences upon their works, beginning with the late Gothic period and continuing through the Baroque movement.

First Term, Each Year

ART 409. THE GREAT MASTERS  
TWO CREDIT HOURS
A continuation of Art 408, beginning with the styles in the art of the masters of the Rococo period through Impressionism to contemporary movements in art.

Second Term, Each Year

ART 410. THE GREAT MASTERS III  
TWO CREDIT HOURS
Art forms in the New World are invested with idealisms similar to their contemporary European styles. The Art of the Americas answers special needs arising from the character of the people of the continents of the Western Hemisphere.
ART 417W.  ELEMENTARY SCHOOL ART  
A workshop designed to give the regular classroom teacher on the elementary level new and practical ideas on the employment of art materials and techniques in relation to seasonal interest of pupils and to holiday observances.  

Summer Session

ART 477W.  ART IN THE SCHOOLS
Intended primarily for the teacher on the elementary level; creative art expression, use of materials, study of handwork and organization of units of work. May substitute for Art 407.  

Summer Session

Geology (Geo)

George H. Springer, Chairman

Professors: Coryell, Springer  
Assistant Professor: Gray  
Instructors: Horvath, Sardi  
Part-time Instructor: Herron

GEO 103.  PRINCIPLES OF GEOGRAPHY  
An analysis of the physical factors of the earth's environment; weather, climate, rocks, land forms, oceans.  

GEO 115.  PHYSICAL GEOLOGY  
An introductory course in geologic principles; the composition and structure of the earth, its land forms, and the agencies active in their production.  

First Term, Each Year

GEO 115L.  PHYSICAL GEOLOGY LABORATORY
Course to accompany Geo 115. Two hours per week.  

First Term, Each Year

GEO 116.  HISTORICAL GEOLOGY  
A comprehensive study of earth history as interpreted from the rocks of the crust.  

Second Term, Each Year

GEO 116L.  HISTORICAL GEOLOGY LABORATORY
Course to accompany Geo. 116. Two hours per week.  

Second Term, Each Year

GEO 201.  MINERALOGY  
An introduction to the study of minerals; their chemical and physical properties; their associations and occurrences.  

First Term, Each Year

GEO 201L.  MINERALOGY LABORATORY
Course to accompany Geo 201. Three hours per week.  

First Term, Each Year

GEO 204.  OPTICAL MINERALOGY  
Mineral determination through the use of the petrographic microscope employing crushed grains and thin sections. Prerequisite: Geo 201.  

Second Term, Each Year

GEO 204L.  OPTICAL MINERALOGY LABORATORY
Course to accompany Geo 204. Four hours per week.  

Second Term, Each Year

GEO 218.  ENGINEERING GEOLOGY  
A comprehensive study of geologic principles applicable to civil engineering practices.  

Second Term, Each Year
**COURSES OF INSTRUCTION**

**Geo 301. Structural Geology**
The origin and development of structural features of the earth's crust; folding, faulting, volcanism, mountain building, and metamorphism. Prerequisites: Geo 115, 116, 201, 204.

**Geo 301L. Structural Geology Laboratory**
Course to accompany Geo 301. Two hours per week.

**Geo 302. Glacial Geology**
The origin of mountain and continental glaciers; their depositional features and erosive activity; history of glaciation in geologic past with special emphasis upon North American Pleistocene ice advances. Prerequisites: Geo 115, 116.

**Geo 302L. Glacial Geology Laboratory**
Course to accompany Geo 302. Two hours per week.

**Geo 303. Field Geology**
Six weeks summer study of structural and age relationship problems in areas containing abundant crystalline and sedimentary exposures. Prerequisites: Geo 115, 116, and 301.

**Geo 307. Geomorphology**
A detailed study of landforms and the erosional processes that develop them. Prerequisites: Geo 115, 116, and 301.

**Geo 307L. Geomorphology Laboratory**
Course to accompany Geo 307. Two hours per week.

**Geo 309. Petrography**
A study of the composition of igneous, sedimentary, and metamorphic rocks through the use of thin sections and hand specimens. Prerequisite: Geo 204.

**Geo 309L. Petrography Laboratory**
Course to accompany Geo 309. Four hours per week.

**Geo 310. Stratigraphy**
The interpretation of specific lithotypes and the synthesis of the stratigraphic record. Prerequisites: Geo 116, 301.

**Geo 310L. Stratigraphy Laboratory**
Course to accompany Geo 310. Two hours per week.

**Geo 401. Paleontology**
A study of animal life of the geologic past as shown by the fossil record.

**Geo 401L. Paleontology Laboratory**
Course to accompany Geo 401. Two hours per week.
Geo 403. Sedimentation
Detailed study of sediment; their sources, environments of deposition, and methods of consolidation. Sedimentary rock classifications and analyses. Prerequisites: Geo 201, 204, 301.

Geo 403L. Sedimentation Laboratory
Course to accompany Geo 403. Two hours per week.

Geo 404. Problems in Geology
A consideration of special problems involving advanced work in the laboratory and library; arranged to meet the needs of individual students.
Geo 411. Igneous Petrology
A study of the formation of igneous rocks. Prerequisites: Geo 201, 204, 309.
Second Term, 1964-1965

Geo 411L. Igneous Petrology Laboratory
Course to accompany Geo 411. Two hours per week.
Second Term, 1964-1965

Geo 415-416. Micropaleontology
A study of microfossils with special attention given to index fossils characteristic of various geologic horizons. Prerequisites: Geo 310, 403. Full Year Course, 1964-1965

Geo 415L-416L. Micropaleontology Laboratory
Course to accompany Geo 415-416. Two hours per week. Full Year Course, 1964-1965

History (Hst)

Professor: Steiner
Associate Professors: Beauregard, Maras, Ruppel
Assistant Professors: Donatelli, King, Mathias, Sha
Instructors: Bannan, Eid, Kutolowski
Part-time Instructor: Lowe

Hst 101, 102, 251, 252 are prerequisite courses and may not be applied toward a major or a minor.

The course requirement for History majors is 26 credit hours, distributed as follows:

(1) Four courses from Groups I, II, III, with at least one course in each group—a total of 12 credit hours;
(2) Two courses from Group IV and two from Group V—a total of 12 credit hours;
(3) History 401—2 credit hours.

The course requirement for History minors is 12 credit hours. Two courses must be taken from Groups I, II, and III, and two courses from Groups IV and V.

GROUP I GROUP II GROUP III GROUP IV GROUP V
301 303 310 356 351
302 304 318 357 370
305 306 409 364 375
309 319 421 380 451
345 340 424 385 461
346 403 429 458 462
411 435 459 481

Hst 101. History of Civilization
A survey of mankind from earliest times to 1660 A.D. The course stresses the social and cultural aspects of the prehistoric, ancient, medieval, and early modern eras. History 101 and 102 serve as prerequisites for advanced courses in History.

<td>A survey of ancient civilizations between 5000 B.C. and 313 A.D., including Egyptian, Mesopotamian, Anatolian, Syro-Palestinian, Persian, Aegean, Hellenic, Hellenistic, and Roman.</td>
<td>CREDIT</td>
</tr>
</tbody>
</table>
Hst 310. military history since 1789  three credit hours
This course touches upon the evolving concept and philosophy of war, the development and inter-relationships of weapons, tactics and strategy, and the role of military affairs in politics.

First Term, 1964-1965

Hst 313. christian antiquity  three credit hours
This course investigates origin and cultural setting of early Christianity, the conflict with the pagan Roman Empire and emergence of Christianity under Constantine. Offered only at Carthagena.

First Term, Each Year

Hst 318. french revolution and napoleonic era  three credit hours
Concentration on the ideological, economic, social and political background of the Revolution; an analysis of the Revolutionary governments; the resulting international wars; the rise and fall of Napoleon.

Second Term, 1964-1965

Hst 319. france since 1815  three credit hours
A study of French history from the Bourbon Restoration to the establishment of the 20th century Fourth Republic, with special emphasis on the intellectual, social, economic, political, and diplomatic trends.

Second Term, 1964-1965

Hst 336. church history i  three credit hours
Christianity in the Roman Empire; the Trinitarian and Christological controversies; conversion of the barbarians and lay domination; the Church and medieval society. Offered only at Regina Heights.

Hst 337. church history ii  three credit hours
The Protestant revolt and the Catholic reformation; the Church and the absolute state; secularism, liberalism, and modernism; the Church in the twentieth century. Offered only at Regina Heights.

Hst 340. the revolutionary era, 1789-1918  three credit hours
A historical analysis of the European nations and peoples emphasizing the themes of War and Revolution. The course covers the revolutions of the period as well as ideological, scientific, and technological developments.

First Term, 1964-1965

Hst 345. history of world religions i  three credit hours
A historical survey of the origins, literature, beliefs, and practices of significant eastern Mediterranean religions including Christianity, Judaism, Gnosticism, Islam and others.

Second Term, 1965-1966

Hst 346. history of world religions ii  three credit hours
A historical survey of the origins, literature, beliefs and practices of important Far Eastern religions including Hinduism, Buddhism, Confucianism, Shinto and others.

First Term, 1964-1965

Hst 351. american colonial history  three credit hours
A study of the foundations of American Nationality: European background of America, development of the colonial system, transplanting of ideas and institutions from the Old World, growth of democratic tendencies.

Second Term, 1965-1966
HST 356. **Latin America: The Colonial Period**
Three credit hours
The Indian civilizations, the Spanish and Portuguese conquest, the colonial period and the movements for independence are covered. Special emphasis is placed on the blending of Iberian, Indian, and African cultures. *First Term, 1964-1965*

HST 357. **Latin America: The National Period**
Three credit hours
Survey of the social, political, and economic histories of the Republics of Hispanic America from the beginning of the national periods to the present. *Second Term, 1964-1965*

HST 364. **History of Ohio**
Three credit hours
Political, economic, and cultural history of the state will be explained in relation to the parallel growth of the United States. Recommended for elementary and secondary school teachers. *First Term, 1965-1966*

HST 370. **The Age of Jefferson and Jackson**
Three credit hours
Emphasizes the whole range of historical, cultural, social and political trends that are traditionally associated with the presidencies of Jefferson and Jackson. The period covered extends from the 1790's to the 1850's. *First Term, 1965-1966*

HST 375. **The Progressive Period (1890-1920)**
Three credit hours
A study in depth of the major historical trends that dominated these years which saw the universal acceptance of America's claim to world power. Due attention will be placed on cultural as well as political developments. *Second Term, 1964-1965*

HST 380. **Diplomatic History of the United States**
Three credit hours
Beginning with an explanation of the foundations of American foreign policy this course continues with the diplomacy of continental expansion through the 19th century. Emphasis is placed on diplomatic problems since 1898. *Second Term, 1964-1965*

HST 385. **American Economic History**
Three credit hours
A survey of the development of Economic Institutions and Thought against the background of Technology and Politics. *Second Term, 1964-1965*

HST 401. **Pro-Seminar in History**
Two credit hours
An introduction to historiography and the study of research and writing in History. A term paper is required. Prerequisite: 6 credit hours of upper level history. *Second Term, 1964-1965*

HST 403. **History of Modern Communism**
Three credit hours
A historical treatment of modern communism and the growth of Communist parties after 1917. Marxism, Leninism, Stalinism, and Maoism will be considered in their historical settings and in the light of Christian principles. *First Term, 1965-1966*

HST 409. **Europe Since 1918**
Three credit hours
Topics included; causes and outcome of World War I; internal policies of nations between the two World Wars; diplomatic actions leading to World War II; and the impact of World War II. *First Term, 1965-1966*

HST 411. **History of the Far East**
Three credit hours
Brief review of the early historical development of the Far East, and a study of China and Japan in the 19th and 20th centuries. Emphasis on political, religious, cultural, and economic growth of China and Japan. *Second Term, 1965-1966*
COURSES OF INSTRUCTION

Hst 421. History of England Since 1688
A study of England and Great Britain from the Restoration to the present time. The aim of the course is to study the economic, political, and cultural developments of the Hanoverian, Victorian and modern periods. Second Term, 1965-1966

Hst 424. Africa, 19th and 20th Centuries
This course seeks to develop two themes—foreigners winning domination of Africa and the resulting native attempts to obtain freedom. Second Term, 1964-1965

Hst 429. Modern Germany
Analysis of the development of the German state from 1848 through the period of unification, Second Empire, Weimar Republic, Third Reich, the post World War II Germanies. Second Term, 1964-1965

Hst 431. Modern Church History

Hst 435. The Middle East, 19th and 20th Centuries
A survey of the Ottoman Empire, Iran, Egypt, and the modern states of the Middle East, emphasizing the development of nationalism and the place of the Middle East in international politics. First Term, 1964-1965

Hst 451. Civil War and Reconstruction
Remote and immediate causes of the Civil War, especially from 1850 to 1861: problems of the North and South during the war; consequences of the war; the efforts to create a new Union, 1865 to 1877; problems created by those efforts. Second Term, 1965-1966

Hst 458. Intellectual and Cultural History of the U.S.
An attempt to trace the evolution of a distinctive American civilization through a study of American thought and its expression in the fine and utilitarian arts. There will be parallel treatment of fine arts and technological developments. First Term, 1965-1966

Hst 459. U.S. Constitutional History

Hst 461. The History of Mexico
Study of Mexican history since 1820. Origins of revolution of 1910 and its development to the present emphasize Mexico's struggle for democracy. Diplomatic and cultural relations between Mexico and the U.S. are considered. First Term, 1965-1966

Hst 462. The A-B-C Powers
The historical role of Argentina, Brazil, and Chile. Internal problems are considered in a detailed study of national histories. 20th century developments are stressed. The place of these powers in international politics is analyzed. Second Term, 1965-1966
HST 470. The Catholic Church in the U.S. THREE CREDIT HOURS
This course begins with the establishment of the first Catholic missions in the U.S. The influence of the Church on the cultural, political, economic and religious customs of the American people is explained. Prerequisites: Hst 251, 252. First Term, 1964-1965

HST 481. Recent American History THREE CREDIT HOURS
A study of the immediate background of contemporary political, social and economic problems. Topics discussed: "Normalcy," Depression and New Deal, impact of World War II on the United States, and World Communism. First Term, 1964-1965

HST 490. The Westward Movement THREE CREDIT HOURS
A history of the expansion of settlement in the U.S. since 1783. Topics include explorations, Indian relations, land policy, transportation, types of frontier settlements, and Western influence on American ideals and institutions. First Term, 1964-1965

Home Economics (HEC) Elizabeth L. Payne, Chairman

Associate Professor: Payne

Assistant Professors: Bernhard, Ittelson, Metzger, Smallwood

HEC 101. Clothing I TWO CREDIT HOURS
A study of clothing selection and construction of simple garments using commercial patterns. Emphasis is on short-cut methods of construction, fitting, dressmaking, details and finishing procedures. Two lecture periods per week. Second Term, Each Year

HEC 101L. Clothing I Laboratory ONE CREDIT HOUR
A course to accompany Hec 101 lecture. One three-hour period per week. Second Term, Each Year

HEC 102. Foods I TWO CREDIT HOURS
Basic principles and practices in food planning, preparation, preservation and serving. Two lecture periods per week. First Term, Each Year

HEC 102L. Foods I Laboratory ONE CREDIT HOUR
A course to accompany Hec 102 lecture. One two-hour period per week. First Term, Each Year

HEC 105. Introduction to Related Art THREE CREDIT HOURS
A study of the fundamentals of design and color and their application in selection and arrangement. Three lecture periods per week. First Term, Each Year

HEC 201. Foods II TWO CREDIT HOURS
Continuation of Foods I. Two class periods per week. Prerequisite: Hec 102 or equivalent. Second Term, Each Year

HEC 201L. Foods II Laboratory ONE CREDIT HOUR
Course to accompany Hec 201 lecture. One three-hour laboratory period per week. Second Term, Each Year

HEC 211. Clothing II ONE CREDIT HOUR
Detailed emphasis on principles of fitting and creative construction. One lecture period per week. Prerequisite: Hec 101 or equivalent. Second Term, Each Year

HEC 328. Home Furnishings and Housing
Three credit hours
A study of housing and selection of furnishings for the home, including arrangements, period styles and decorative details. Three lecture periods per week. Prerequisite: Hec 105.
Second Term, Each Year

HEC 329. Child Development II
Three credit hours
An evaluation of the growth of children; case study and nursery school participation arranged. Three lecture periods per week. Prerequisite: Hec 225.

HEC 401. Advanced Nutrition
Three credit hours
Aims to extend the student's knowledge of the science of nutrition, stressing the metabolism of food constituents and the recent advances in the field of nutrition. Three class periods per week. Prerequisite: Hec 303.
Second Term, Each Year

HEC 402. Diet in Disease
Three credit hours
Adaptation of diet to disease. Three class periods per week. Prerequisite: Hec 303.
Second Term, 1965-1966

HEC 405. Teaching of Home Economics in Schools
Three credit hours
A study of Home Economics philosophies and Vocational Home Economics methods. Planning, preparing and presenting units and lessons for different grade levels. Three class periods per week.

HEC 406. Home Management II
One credit hour
Planning experience in maintaining a home on a minimum budget. One lecture period per week. Prerequisite: Hec 221.

HEC 406L. Home Management II Laboratory
Two credit hours
Course to accompany Hec 406 lecture.

HEC 407. Institutional Organization and Management
Three credit hours
Principles and problems of feeding institutional groups, including personnel management, organization and administration. Three class periods per week.
Second Term, 1964-1965

HEC 415. Tailoring
One credit hour
Tailoring construction as applied in the making of coats and suits. One lecture period per week. Prerequisites: Hec 105, 211 or equivalent.
Second Term, Each Year

HEC 415L. Tailoring Laboratory
Two credit hours
Course to accompany Hec 415 lecture. Two two-hour periods per week.
Second Term, Each Year

HEC 430. Problems in Home Furnishings
Two credit hours
Problems of making slip covers and draperies; individual problems of refinishing furniture and upholstering. Two class periods per week. Prerequisite: Hec 105.
First Term, Each Year
Hec 430L. Home Furnishings Laboratory  
Two credit hours  
Course to accompany Hec 430 lecture. One three-hour period per week.  
*First Term, Each Year*

Hec 436. Special Problems  
Two credit hours  
Problems chosen for individual study in various areas of the field of Home Economics. Two periods per week.

Hec 436L. Special Problems Laboratory  
One credit hour  
Course to accompany Hec 436 lecture. One two-hour laboratory.

Hec 437. Meal Management  
Two credit hours  
To develop the ability to plan, prepare and serve palatable, nutritious and attractive meals at various economic levels. Gourmet and foreign cookery is also included. Two lecture periods per week. Prerequisite: Hec 201.  
*As Needed*

Hec 437L. Meal Management Laboratory  
One credit hour  
Course to accompany Hec 437 lecture. One two-hour period per week.  
*As Needed*
Industrial Engineering (INE)  

Robert I. Mitchell, Chairman  

Professor: Schmid  
Associate Professor: Mitchell  
Assistant Professor: Horwedel  
Part-time Instructor: Eilerman  

INE 201. Industrial Engineering Fundamentals  
THREE CREDIT HOURS  
A study of the development of industrial engineering, the scope of its function, its relationship to other professions, organizing for industrial engineering, and methods for utilizing industrial engineering techniques.  

INE 301. Personnel Administration  
THREE CREDIT HOURS  
A study of the contributions of the behavioral sciences to the design of complex management systems which require effective integration of human resources.  

First Term, Each Year  

INE 303. Wage Administration  
THREE CREDIT HOURS  
A study of financial remuneration, theory, philosophy, and practice. An interdisciplinary approach involving economics, psychology, sociology, engineering and management as they are related to the design of management systems. Second Term, Each Year  

INE 310-311. Engineering Systems Design I and II  
SIX CREDIT HOURS  
Emphasizing the total systems concept for solving engineering design problems reasoning from general principles or laws to their application to achieve specific objectives.  

INE 313. Engineering Law  
TWO CREDIT HOURS  
Legal principles applied to engineering.  

INE 320-321. Management Systems Design I and II  
SIX CREDIT HOURS  
The application of design concepts to the development of simple systems which involve purposeful human industry with special attention to the integration of scientific and engineering methods with those of the applied psychologists or social scientists.  

INE 332. Statistical Control and Systems Design  
THREE CREDIT HOURS  
Sampling theory, tests of hypotheses, analysis of variance, regression and correlation, experimental design, and factor analysis with examples from quality control and process design, analysis and control. Prerequisite: Mth 331. First Term, Each Year  

INE 401. Engineering Economy  
TWO CREDIT HOURS  
Emphasizes rational, scientific methods of economic analysis for engineering and management decision-making.  

INE 403. Time and Motion Study I  
TWO CREDIT HOURS  
A study of the job analysis techniques including process charts, right and left hand charts, the laws of motion economy, man-machine charts and a survey of micromotion techniques.  

INE 403L. Time and Motion Study Laboratory I  
ONE CREDIT HOUR  
A series of laboratory problems based on the above. Corequisite: Ine 403.
INB 404. **Time and Motion Study II**
Two credit hours
A study of advanced problems in establishing standard time data, progressive operations, application of statistics, micromotion study with practical problems. Prerequisite: Ine 403.

**Second Term, Each Year**

INB 404L. **Time and Motion Study Laboratory II**
One credit hour
A series of laboratory problems based on the above. Corequisite: Ine 404.

**Second Term, Each Year**

INB 405. **Production Planning**
Three credit hours
A study of the practices in production scheduling, routing, dispatching and inventory control; including an analysis of mechanized systems and current practices.

**Second Term, Each Year**

INB 406. **Plant Layout and Material Handling**
Two credit hours
The design of a plant for a specified product. Includes: structure; power requirements; heat; light; sound; and ventilation; transportation facilities, material handling requirements and equipment. Prerequisites: Ine 405, Mee 206L.

**First Term, Each Year**

INB 406L. **Plant Layout Laboratory**
One credit hour
The complete design of a light manufacturing plant including choice of site, building, equipment and organizational structure. Corequisite: Ine 406.

INB 408. **Administration and Organization**
Three credit hours
Social relationships, achievements, goals, objectives of organizations. Processes, functions, techniques, and tasks of management. Theories and practices utilized in the dispersion and concentration of authority and responsibility.

INB 409. **Seminar**
One credit hour
Required of all senior industrial engineering students. The preparation and presentation of a paper on current industrial engineering practices and topics.

INB 421. **Reliability Theory**
Three credit hours

**Second Term, Each Year**

INB 422. **Reliability Application**
Three credit hours
The application of reliability theories to the design of complex, integrated systems. Prerequisite: Ine 421.

**First Term, Each Year**

INB 410. **Special Problems in Industrial Engineering**
Two to six credit hours
Particular assignments to be arranged and approved by Chairman of the Department.
Languages

Professors: Ferrigno, Perz
Associate Professors: Reyst, Sullivan
Assistant Professors: Bartholomew, Darby, Larrea, McKenzie, MacLemore, Rus, Shatlock, Sory
Instructors: Hager, Pohorille
Part-time Instructors: Anduze, Millonig, Polony, Seeman, Steensen, Zieba

A language major may arrange his courses, with the approval of the department chairman, in one of these two forms of concentration: (A) Major in a single language, requiring 24 hours in upper level courses (300-400); (B) Composite major, requiring a minimum of 18 hours in each of two languages (any level).

It is recommended that students of either category elect a minor in languages as well. For a language minor, students in category A are required to do 12 hours of upper level work not in their major language, and students in category B are required to add 18 hours (any level) preferably in a language or languages other than those of their composite major; other students need 18 hours (any level) in one language.

Note: All the courses in Greek are offered only at Marianist College, and are restricted to student members of the Society of Mary.

French (FRN)

FRN 101. Elementary French
Elements of French, including pronunciation, reading, translation, grammar, dictation and conversation.

FRN 102. Elementary French II
Continuation of Elementary French 101. Prerequisite: FRN 101.

FRN 201. Intermediate French
Grammar review, selected readings from modern authors, exercises in composition and conversation. Prerequisite: FRN 102.

FRN 202. Intermediate French II
Continuation of Intermediate French 201. Prerequisite: FRN 201.

FRN 307. Advanced French Composition and Conversation
Practice in composition based on area material. Intensive drill in the aural and oral use of the language. First Term, Each Year

FRN 308. Advanced French Composition and Conversation
Continuation of Advanced French Composition and Conversation FRN 307. Second Term, Each Year
FRN 309. Rapid Reading in French
A course designed to improve and accelerate reading ability and to develop understanding and appreciation of the great works of French literature. Readings, reports and discussions.  
First Term, 1964-1965

FRN 310. Rapid Reading in French
Continuation of Rapid Reading in French 309.  
Second Term, 1964-1965

FRN 311. French Literature to 1700
A survey of French literature from the earliest beginnings to the eighteenth century, with special emphasis on the principle authors and works of the seventeenth century. Lectures, discussions and reports on area material.  
First Term, 1965-1966

FRN 312. French Literature to 1700
Continuation of French Literature to 1700, Frn 311.  
Second Term, 1965-1966

FRN 405. French Literature of the Twentieth Century
A survey of the literary movements, outstanding authors and works of the present century. Lectures, discussions and reports on assigned readings.  
First Term, 1965-1966

FRN 406. French Literature of the Twentieth Century
Continuation of French Literature of the Twentieth Century, Frn 405.  
Second Term, 1965-1966

FRN 407. French Literature of the Eighteenth and Nineteenth Centuries
A survey covering the literary movements, outstanding authors and works of this period. Lectures, discussions and reports on assigned readings.  
First Term, 1964-1965

FRN 408. French Literature of the Eighteenth and Nineteenth Centuries
Continuation of French Literature of the Eighteenth and Nineteenth Centuries, Frn 407.  
Second Term, 1964-1965

German (Ger)

GER 101. Elementary German
Elements of German, including pronunciation, reading, translation, grammar, dictation and conversation.  
Three credit hours

GER 102. Elementary German II
Continuation of Elementary German 101. Prerequisite: Ger. 101.  
Three credit hours

GER 201. Intermediate German
Grammar review, selected readings from modern authors, exercises in composition and conversation. Prerequisite: Ger 102.  
Three credit hours

GER 202. Intermediate German
Continuation of Intermediate German 201. Prerequisite: Ger 201.  
Three credit hours
GER 301. **German Literature till 1800**
A survey of German Literature from the earliest times to the period of Romanticism. A study of literary movements, outstanding authors and works: Lectures, discussions and reports on assigned readings.  
*First Term, 1965-1966*

GER 302. **German Literature till 1800**
Continuation of German Literature till 1800, Ger 301.  
*Second Term, 1965-1966*

GER 306. **Scientific German**
A reading course intended to familiarize students with the technical vocabulary used in scientific fields.  
*Second Term, Each Year*

GER 307. **Chemical German**
A course intended to train students to acquire a reading knowledge of German chemical literature. Required of students majoring in Chemistry.  
*First Term, Each Year*

GER 308. **Advanced German Conversation and Composition**
Intensive drill in the oral and aural use of the language, based on area material. Practice in composition.  
*First Term, 1964-1965*

GER 309. **German Civilization**
A survey of the German people, its geographical, historical and political background. German art and folklore.  
*Second Term, 1964-1965.*

GER 407. **German Literature of the Twentieth Century**
A survey of the outstanding authors and works of the present century. Lectures, discussions and reports on assigned readings.  
*First Term, 1964-1965.*

GER 408. **The Classical Period**
A study of the principal authors and works of this period. Lectures, discussions and reports on assigned readings.  
*Second Term, 1964-1965.*

GER 409. **German Literature of the Nineteenth Century**
A survey of nineteenth century German literature, including a study of literary movements, outstanding authors and works. Lectures, discussions and reports on assigned readings.  
*First Term, 1965-1966*

GER 410. **German Literature of the Nineteenth Century**
A continuation of German Literature of the Nineteenth Century, Ger 409.  
*Second Term, 1965-1966*

**Greek (GRK)**

GRK 101. **Elementary Greek**
A study of the essentials of Greek grammar with exercises and readings.
GRK 102. Elementary Greek
Continuation of Elementary Greek 102. Prerequisite: Grk 101.

GRK 201. Intermediate Greek
Continuation of the study of grammar. Readings from New Testament. Prerequisite: Grk 102.

GRK 303. Plato
The Apologia is read and selections from the rest of Plato’s works. Plato’s contribution to the history of ideas as emphasized and illustrated through extensive supplementary reading in Jowett.

GRK 304. Homer
Readings from the Iliad and the Odyssey.

GRK 305. The Septuagint
Extensive readings. Comparison with the Vulgate. Excursions into the field of Biblical science.

GRK 306. The New Testament
Similar to Grk 305. Comparison of the Greek and Latin texts with modern renditions.

GRK 403. Greek Drama
Readings of Sophocles’ Oedipus Rex and Antigone with a study of the origin and development of Greek drama.

Hebrew (Heb)

Heb 101. Elementary Hebrew
Brief history of the language. Basic grammar: nouns and adjectives with their pronominal suffixes; regular verbs in the seven ordinary conjugations; prepositions and their suffixes. Reading, translation, writing, and conversation. First Term, Each Year

Heb 102. Introduction to Classical Hebrew

Second Term, Each Year

Italian (Ita)

Ita 101. Elementary Italian
Elements of Italian, including pronunciation, reading, translation, grammar, dictation and conversation.

Ita 102. Elementary Italian
Continuation of Elementary Italian 101. Prerequisite: Ita 101.
Ita 201. **Intermediate Italian**
Grammar review, selected readings from modern authors, exercises in composition and conversation. Prerequisite: Ita 102.

Ita 202. **Intermediate Italian**
Continuation of Intermediate Italian 201. Prerequisite: Ita 201.

## Latin (Lat)

**Lat 101. Elementary Latin**
A college course in Latin fundamentals.

**Lat 102. Elementary Latin**
A continuation of Elementary Latin 101. Prerequisite: Lat 101.

**Lat 201. Intermediate Latin**
Second year course in Latin. Readings from classical authors of the pre-Christian periods. Prerequisite: Lat 102.

**Lat 202. Intermediate Latin**
A continuation of Intermediate Latin 201. Prerequisite: Lat 201.

**Lat 301. Latin Composition and Conversation**
This course aims to give an intensive review of inflections and syntax with emphasis on original style and fluency of expression. *Second Term, Each Year*

**Lat 304. Vergil**
A survey of the work of Vergil, with special attention to the literary art of the *Aeneid* and the nature and development of the Roman epic. *Second Term, Each Year*

**Lat 305. Medieval Latin**
An outline of the main course of Latin literature from 400 A.D. to 1500 A.D., with special attention being given to the classical heritage of the Middle Ages.

**Lat 306. Horace**
Readings of selected Odes and Epodes, and the *Ars Poetica* of Horace; a study of his lyric quality, workmanship, and meters. *First Term, Each Year*

**Lat 307. Readings in Latin Literature**
This course embraces the reading of excerpts from a wide range of Latin authors. *First Term, Each Year*

**Lat 309. Cicero**
A study of *De Amicitia* and *De Senectute* or other works of Cicero. *Second Term, Each Year*

**Lat 310. Selected Letters Of Pliny**
A study of the Latin letter as a literary form. The men and the world of the times of Pliny are revealed by his letters.
LAT 313. OVID  
Three credit hours
Intensive readings in the *Metamorphoses* with emphasis on the influence of the mythological epic on some of the modern literatures.

LAT 314. LIVY  
Three credit hours
This course comprises readings from Books I, XXI, and XXII of Livy's History and an examination of his historical method and literary form.

LAT 401. ADVANCED LATIN COMPOSITION  
Three credit hours
An intensive course in Latin composition, with special attention to the classical type of Cicero.

LAT 403. SENECa  
Three credit hours
A study of Seneca's philosophical style and the ethical teachings of Stoicism as revealed in his *Moral Epistles* and *Essays*.

LAT 405-406-407. PHILOSOPHICAL LATIN  
Nine credit hours
Summer

LAT 412. ECCLESIASTICAL LATIN  
Three credit hours
The object of this course is to acquaint students for the priesthood with the Latin of theologians.  
Summer

LAT 413. THE CONFESSIONS OF ST. AUGUSTINE  
Three credit hours
Excerpts are taken from the first Nine Books.  
First Term, Each Year

LAT 414. PATRISTIC LATIN  
Three credit hours
Selections from St. Augustine, Tertullian, St. Cyprian, Lactantius, St. Ambrose, St. Jerome, and other Fathers.

Russian (Rus)

RUS 101. ELEMENTARY RUSSIAN  
Three credit hours
Designed to familiarize the beginner with the essentials of the spoken and written language. Vocabulary practice, simple sentence structure, conversational drills, and reading, stress on pronunciation and handwriting.

RUS 102. ELEMENTARY RUSSIAN II  
Three credit hours
Continuation of Russian 201. Prerequisite: Rus 101.
RUS 201. INTERMEDIATE RUSSIAN
Review of the essentials of grammar, intensive conversational and comprehension exercises, reading of graded modern and contemporary prose and poetry. Prerequisite: Rus 101-102, or equivalent.

RUS 202. INTERMEDIATE RUSSIAN II
Continuation of Russian 201. Prerequisite: Rus 201.

RUS 203. SCIENTIFIC RUSSIAN
This course is given only at Wright-Patterson Air Force Base. Prerequisite: Rus 101-102, or equivalent.

RUS 204. SCIENTIFIC RUSSIAN
Continuation of Scientific Russian Rus 203.

RUS 301. RUSSIAN READING AND CONVERSATION
For students who possess a general knowledge of Russian, but lack practical experience of the spoken language. Conversation is based on more advanced reading material. Prerequisite: Rus 201-202, or equivalent. First Term, Each Year

RUS 302. RUSSIAN READING AND CONVERSATION
Continuation of Rus 301. Second Term, Each Year

RUS 303. ADVANCED RUSSIAN GRAMMAR AND COMPOSITION
Phonology and Morphology. A thorough treatment, entirely in Russian, of pronunciation and the parts of speech including a basic treatment of the verb. Recommended for future teachers or graduate students. First Term, Each Year

RUS 304. ADVANCED RUSSIAN GRAMMAR AND COMPOSITION
Specialized Morphology. Syntax. A treatment, like that of Rus 303, of verb aspects, word structure and sentence structure. Entirely in Russian. May be taken independently of Rus 303. Second Term, Each Year

RUS 403. EARLY RUSSIAN LITERATURE
Short review of the beginnings of Russian literature, the early forms of literature, the post-Peter I period, and the outstanding authors. Introduction to techniques of translation. Conducted in Russian. First Term, 1965-1966

RUS 404. LATER RUSSIAN LITERATURE
The literature of the late 18th Century. Reading of outstanding works. Literature of 19th and 20th Centuries (outstanding works and authors). Scientific translation. Course conducted in Russian. Second Term, 1965-1966

RUS 405. PUSHKIN
Survey of Pushkin’s life, work and influence. Extensive readings in his works and readings in selected authors, contemporary or later, who show his influence. Course conducted in Russian. First Term, 1964-1965
Rus 406. L. N. Tolstoy
Survey of Tolstoy’s life, work and influence. Extensive readings in his works and readings in selected authors, contemporary or later, who show his influence. Course conducted in Russian.  

Second Term, 1964-1965

Spanish (Spn)

Spn 101. Elementary Spanish
Elements of Spanish, including pronunciation, reading, translation, grammar, dictation and conversation.  

Three Credit Hours

Spn 102. Elementary Spanish II
Continuation of Spanish 101. Prerequisite: Spn 101.  

Three Credit Hours

Spn 201. Intermediate Spanish
Grammar review, selected readings from modern authors, exercises in composition and conversation. Prerequisite: Spn 102.  

Three Credit Hours

Spn 202. Intermediate Spanish
Continuation of Intermediate Spanish 201. Prerequisite: Spn 201.  

Three Credit Hours

Spn 301. Spanish Literature
A survey of Spanish Literature, with special emphasis on the Golden Age and the modern period. Lectures, discussions and reports on assigned readings.  

First Term, 1964-1965

Spn 302. Spanish Literature
A continuation of Spanish Literature Spn 301.  

Second Term, 1964-1965

Spn 303. Spanish-American Literature
A study of the principal authors and works of the colonial, revolutionary and modern periods. Lectures, discussions and reports on assigned readings. First Term, 1965-1966

Three Credit Hours

Spn 304. Spanish-American Literature

Three Credit Hours

Spn 307. Advanced Spanish Composition and Conversation
Practice in composition based on area material. Intensive drill in aural and oral use of the language.  

First Term, Each Year

Three Credit Hours

Spn 308. Advanced Spanish Composition and Conversation II
Continuation of Spn 307.  

Second Term, Each Year

Three Credit Hours
SPN 403. MODERN SPANISH DRAMATISTS  
A study of the important dramatists from 1830 to the present time. Lectures, discussions and reports on assigned readings.  
First Term, 1965-1966

SPN 404. DRAMA OF THE GOLDEN AGE  
A study of the significance and principal works of the great dramatists of the sixteenth and seventeenth centuries. Lectures, discussions and reports on assigned readings.  
Second Term, 1965-1966

SPN 405. SPANISH LITERATURE OF THE TWENTIETH CENTURY  
A study of the principal Spanish and Spanish-American authors and works of the present century. Lectures, discussions, and reports on assigned readings.  
First Term, 1964-1965

SPN 406. SPANISH NOVELISTS OF THE NINETEENTH CENTURY  
A study of the more important works of the principal novelists of this period. Lectures, discussions and reports on assigned readings.  
Second Term, 1964-1965

Marketing (Mkt)  
Associate Professors: Comer, Murphy  
Assistant Professor: Pearson

Mkt 305. PRINCIPLES OF MARKETING  
The general principles and practices underlying the processes of marketing. An analysis of the problems of the manufacturer, wholesaler, retailer and other marketing agencies. Principles, trends, methods and policies with relation to marketing efficiency.  
THREE CREDIT HOURS

Mkt 310. SALESMANSHIP  
A study of the basic principles underlying all selling and their practical application to specific cases.  
THREE CREDIT HOURS

Mkt 315. RETAIL MERCHANDISING  
Surveys basic merchandising principles and problems of large and small retail stores. Includes organizations, location, buying and selling, cost reductions, current practices and trends. Prerequisite: Mkt 305.  
THREE CREDIT HOURS

Mkt 316. RETAIL ORGANIZATION AND OPERATION  
Principles of store management, store location, buildings, and equipment, store organization, expense center accounting, receiving and marking, store protection, and coordination of retail store activities are studied. Prerequisite: Mkt 305.  
THREE CREDIT HOURS

Mkt 318. RETAIL ADVERTISING AND SALES PROMOTION  
Principles and practices of retail advertising and other sales promotion activities; where, when, and what to promote; budgeting and planning of sales promotions, special events and activities; emphasis upon coordination. Prerequisites: Mkt 315 or Mkt 316.  
THREE CREDIT HOURS

Mkt 335. ADVANCED MARKETING  
The marketing policies of manufacturers and wholesalers; the technique of marketing research; analysis of current problems and literature relating to marketing efficiency. Prerequisite: Mkt 305.  
THREE CREDIT HOURS
Mkt 405. Consumer Behavior three credit hours
The consumer-firm relationship studied in terms of concepts drawn from contemporary social sciences as related to present and prospective business activities.

Mkt 411. Sales Management three credit hours
The structure of the sales organization, determination of sales policies, the selection, training, and motivation of salesmen, the establishing of sales territories and quotas. Prerequisites: Mkt 305 and Bus 313 or Psy 302.

Mkt 417. Retail Buying and Merchandising Mathematics three credit hours
Determining what to buy, how much, market resources, and model stocks, as well as the mathematical principles involved in purchase planning, planning initial markup, terms and dating, stockturn, inventory methods. Prerequisites: Mkt 315 or Mkt 316.

Mkt 420. Marketing Communications three credit hours
Problems of marketing considered as problems of effective communication in such functional areas as advertising, personal selling, packaging, research, display and pricing.

Mkt 421. Advertising three credit hours
Nature and functions of advertising; the preparation of layouts; the writing of copy; selection and evaluation of media. The coordination of advertising with other marketing efforts. Social implications of advertising are discussed. Prerequisite: Mkt 305.

Mkt 425. Credit and Collections three credit hours
Nature and functions of credit. Principles and practices in retail and mercantile credit administration. Sources and analysis of credit information.

Mkt 430. Marketing Research three credit hours
A study of the application of some of the limitations of the scientific method to the definition and solution of marketing problems. Examines the range of activities and the problems faced in market research. Prerequisites: Mkt 305 and Bus 313 or Psy 302.

Mkt 499. Problems in Marketing three credit hours
A study of one or more specific aspects of the marketing process with emphasis on individual student reading and research. Subject matter to be determined by the instructor on the basis of interest and need of the student. Enrollment limited.
Mathematics (MTH) Dr. Kenneth C. Schraut, Chairman

Professors: Bellmer, Schraut
Associate Professors: Boshart, Esser, Kreider, Prather
Assistant Professors: Back, Cada, Dwyer, Peterson, Speck, Stander
Instructors: Baker, Friel, Schoen, Smith, Wagner, Wilson
Part-time Instructors: Alexander, Berens, Fr. Breitfelder, Brunswick, Campbell, Donovan, Fluke, Grabner, Harris, Hudson, Janning, Kuntz, Sakalas, Wells, Zonaris

MTH 111. MATHEMATICS AND ITS CULTURAL ASPECTS THREE CREDIT HOURS
Historical development of mathematics, the axiomatic approach, various mathematical systems, applications. Three class periods a week. Prerequisite: One and one-half years of high school algebra and a year of high school geometry.

MTH 117. COLLEGE ALGEBRA AND TRIGONOMETRY FIVE CREDIT HOURS
For students proficient in traditional high school mathematics but who do not qualify for Mth 216. Prerequisite: One and one-half years of high school algebra and a year of high school geometry.

MTH 121. COLLEGE ALGEBRA THREE CREDIT HOURS
Systems of equations, progressions, logarithms, binomial theorem, complex numbers, determinants, theory of equations, and probability. Prerequisites: one and one-half years of high school algebra and one year of high school geometry.

MTH 122. PLANE TRIGONOMETRY THREE CREDIT HOURS
The usual topics in plane trigonometry with applications. Prerequisite: Mth 121 or registration therein.

MTH 123. ANALYTIC GEOMETRY FOUR CREDIT HOURS
The traditional topics covered in plane and solid analytic geometry. Prerequisites: Mth 121 or Mth 117.

MTH 125. INTRODUCTION TO STATISTICS AND FINANCE THREE CREDIT HOURS
This course is designed exclusively for students in business administration and covers topics in elementary statistics and in the mathematics of finance. Prerequisite: Mth 121.

MTH 141. MATHEMATICAL CONCEPTS I THREE CREDIT HOURS
Concepts necessary for an understanding of the structure of arithmetic and its algorithms. Prerequisite: one year high school algebra and one year high school geometry.

MTH 142. MATHEMATICAL CONCEPTS II THREE CREDIT HOURS
Concepts necessary for an understanding of operations and structure of algebra and geometry. Prerequisite: Mth 141.

MTH 151. STRUCTURE OF THE REAL NUMBER SYSTEM I THREE CREDIT HOURS
Equivalent to Mth 141. Currently offered only under special auspices.
MTH 152. Structure of the Real Number System II
Continuation of Mth 141. Mathematical Concepts related to the fundamental operations with real and complex numbers. Currently offered only under special auspices. Prerequisite: Mth 151.

MTH 155. Elements of Algebra
For those preparing to teach in the elementary schools. Follows the School Mathematics Study Group, Volume III. Currently offered only under special auspices. Prerequisite: One year of high school algebra and one year of high school geometry.

MTH 160. Elements of Geometry
For those preparing to teach in the elementary schools. Follows the School Mathematics Study Group, Volume V. Currently offered only under special auspices. Prerequisite: One year of high school algebra and one year of high school geometry.

MTH 201. Differential and Integral Calculus I
Continuation of Mth 201. Integration of algebraic and transcendental functions. Approximate integration; indeterminate forms, infinite series, multiple integrals; partial differentiation. Prerequisite: Mth 201.

MTH 202. Differential and Integral Calculus II
Continuation of Mth 201. Integration of algebraic and transcendental functions. Approximate integration; indeterminate forms, infinite series, multiple integrals; partial differentiation. Prerequisite: Mth 201.

MTH 210-211. Introductory Mathematical Analysis
Sets, systems of numbers, functions and the mapping process, sequences, limits, continuous functions, derivative function, exponential and logarithmic functions, definite integral, applications to life sciences and behavior sciences. Prerequisite: Mth 121.

MTH 216. Analytic Geometry and Calculus I
Fundamentals of Analytic Geometry, differentiation of Algebraic Functions with applications to geometry and physics, indefinite and definite integrals with applications to geometry and physics. Prerequisite: Mth 117 or Mth 121 and 122.

MTH 217. Analytic Geometry and Calculus II
Conic Sections, differentiation of transcendental functions, polar coordinates, formal integration, further applications of the definite integral. Prerequisite: Mth 216.

MTH 218. Analytic Geometry and Calculus III
Improper integrals, infinite series, expansions of functions, solid analytic geometry, partial differentiation, multiple integrals. Prerequisite: Mth 217.

MTH 301. Differential Equations
Equations of the first order and first degree, linear equations of higher order with constant coefficients, method of Frobenius, Euler’s equations and other special equations. Prerequisite: Mth 202 or Mth 218.

First Term, Each Year
Mth 331. Statistics for Engineers
Measure of central tendency, frequency distributions, skewness and kurtosis, sampling and the determination of significant differences, correlation. Prerequisite: Mth 202 or Mth 218.

First Term, Each Year

Mth 332. Industrial & Engineering Applications of Statistics
Application of statistics to quality control, job evaluation, merit rating and wage determination, personnel selection and testing, time study, design of experiments, and economic and market analysis. Prerequisite: Mth 331.

Second Term, Each Year

Mth 341. Advanced Engineering Mathematics I
Equivalent to Mth 301. Prerequisite: Mth 202 or Mth 218.

Mth 342. Advanced Engineering Mathematics II
Fourier series, linear partial differential equations with solutions by classical and operational methods, introductions to vector analysis, applications to engineering. Prerequisite: Mth 341.

Mth 343. Advanced Engineering Mathematics III
Infinite series and applications, special functions of mathematical physics, matrices, complex variables. Applications to engineering. Prerequisite: Mth 341.

Mth 361. Introduction to Abstract Algebra
Introductory treatment of the various number systems of elementary algebra; fundamental concepts of groups, rings, integral domains and fields. Prerequisite: Mth 202 or Mth 218.

Second Term, 1964-1965

Mth 362. Introduction to Linear Algebra and Matrices
Fundamental concepts of vector spaces, systems of linear equations, determinants, linear transformations and matrices. Prerequisite: Mth 202 or Mth 218.

First Term, 1964-1965

Mth 411. Probability and Statistics I
Mathematical probability, stochastic variables, joint distributions, Bayes' theorem, moments, Chebyshev's inequality, limit theorems including the laws of large numbers and central limits. Prerequisite: Mth 202 or Mth 218.

First Term, Each Year

Mth 412. Probability and Statistics II
Random sampling, estimation of parameters including maximum likelihood, methods of moments, and Bayes' estimate, confidence intervals, tests of hypotheses, regression, sampling from a normal population. Prerequisite: Mth 411.

First Term, Each Year

Mth 413. Probability and Statistics III
Statistical decision theory, partitioning of sums of squares, analysis of variance, regression on several independent variables, multiple regression approach to analysis of variance, design of experiments. Prerequisite: Mth 412.

First Term, Each Year
MTH 421. **ADVANCED CALCULUS I**
The number system, sequences and series, functions of a real variable, functions of several variables. Prerequisite: Mth 202 or 218.

**THREE CREDIT HOURS**

*First Term, Each Year*

MTH 422. **ADVANCED CALCULUS II**
The definite integral, improper integrals, line integrals, multiple integrals, and uniform convergence. Prerequisite: Mth 421.

**THREE CREDIT HOURS**

*Second Term, Each Year*

MTH 432. **FOURIER SERIES AND BOUNDARY VALUE PROBLEMS**
Partial differential equations of physics, orthogonal sets of functions, fundamental properties of Fourier series, Bessel functions, and Fourier-Bessel expansion. Prerequisite: Mth 421 or registration therein.

**THREE CREDIT HOURS**

*First Term, Each Year*

MTH 431. **INTRODUCTION TO THE THEORY OF FUNCTIONS OF A COMPLEX VARIABLE**
Fundamental concepts, Cauchy integral theorem, analytic functions, analytic continuation, conformal transformations, the calculus of residues, applications to physics and engineering. Prerequisite: Mth 218.

**THREE CREDIT HOURS**

*First Term, Each Year*

MTH 461. **MODERN OPERATIONAL MATHEMATICS**
The Laplace transformation and applications, partial differential equations, the inversion integral, applications to heat conduction, mechanical vibrations, and other problems. Prerequisite: Mth 202 or 218.

**THREE CREDIT HOURS**

MTH 471. **TOPOLOGY**

**THREE CREDIT HOURS**

*Second Term, Each Year*
Computer Science (Cps)

Computer Science Program Director: Dr. Thomas A. Dwyer, S.M.

**Cps 231. Scientific Programming in ALGOL**
TWO CREDIT HOURS
General coding techniques; grammar and syntax of the ALGOL compiler; programming scientific and mathematical problems in ALGOL. One hour lecture and two hours problem session per week. Prerequisite: Mth 117, 121, or equivalent.

**Cps 251. Common Business Oriented Languages (COBOL)**
THREE CREDIT HOURS
COBOL language; magnetic tape systems; applications on NCR 304 requiring use of peripheral equipment. Two hours lecture and two hours problem session per week. Prerequisite: Mth 117, 121, or equivalent. May be counted toward Cps minor.

**Cps 252. Programming Languages**
THREE CREDIT HOURS
Programming in machine language and with assembler; external programs of ALGOL compiler; procedures; ALGOL 60 report; construction of compilers. Two hours lecture and two hours problem session per week. Prerequisite: Cps 231. May be counted toward Cps minor.

**Cps 311. Mathematical Methods for Digital Computers I**
THREE CREDIT HOURS
Difference and summation calculus; evaluation of series; polynomial and trigonometric approximation. Emphasis in Cps 311, 312, 313 is on construction and analysis of algorithms for digital computers. Prerequisite: Mth 301 or 341 and Cps 231.

*Second Term, Each Year*

**Cps 312. Mathematical Methods for Digital Computers II**
THREE CREDIT HOURS
Numerical integration; roots of nonlinear equations; Chebyshev and rational approximation. Prerequisite: Cps 311.

*First Term, Each Year*

**Cps 313. Mathematical Methods for Digital Computers III**
THREE CREDIT HOURS
Linear systems, matrix methods; linear programming and applications; numerical solution of boundary value problems of partial differential equations. Prerequisite: Mth 362 and Cps 231.

*Second Term, Each Year*

**Cps 314. Electronics for Scientists**
THREE CREDIT HOURS
Terminal behavior of vacuum tube and semi-conductor devices; application to basic rectifier, amplifier, oscillator and control circuits, incorporation of these circuits in measuring and control devices. Prerequisites: Phy 207, Mth 301, or 341. Corequisite: Cps 314L.

**Cps 314L. Electronics for Scientists Laboratory**
ONE CREDIT HOUR
Laboratory construction and testing of the basic vacuum tube and solid-state electronic circuits. Corequisite: Cps 314.
Cps 365. Applied Boolean Algebra
Boolean algebra as an axiomatic mathematical system, applications to set theory, logic, switching circuits, and logical design. Prerequisite: Consent of Computer Science Program director. Three hours lecture per week.  
First Term, Each Year

Cps 399. Special Problems in Computer Science
Symbolic logic, tree searches, nerve nets, perceptrons; current state of the art; research areas in computer science; critical evaluation. Prerequisite: Consent of instructor.  
First Term, Each Year

Cps 414. Advanced Electronics for Scientists
Continuation of Cps 314. High frequency techniques, modulation and detection, pulse generators, special circuits; application to counters, computer circuits, and experimental instrumentation and control problems. Prerequisite: Cps 314. Corequisite: Cps 414L.

Cps 414L. Advanced Electronics for Scientists Laboratory
Individual student projects in the electronic instrumentation of problems in the physical, biological, and computer sciences. Corequisite: Cps 414.

Cps 441. Advanced Programming I
Automatic programming languages, symbol manipulation, compiler compilers. Prerequisite: Cps 252.
First Term, Each Year

Cps 442. Advanced Programming II
Programming techniques discussed in the current literature; advanced computer applications in both mathematical and non-numeric areas. Prerequisite: Cps 441.  
Second Term, Each Year

Cps 481. Mathematical Logic
Fundamental concepts, propositional and predicate calculus, formalized number theory, primitive and general recursive functions, Goedel's theorem. Prerequisite: Cps 365 or Cps 399. Three hours lecture per week.  
First Term, Each Year

Cps 482. Introduction to Automata Theory
Recursive functions, Turing machines, computability, introduction to the theory of automata, metalinguistics. Prerequisite: Cps 481. Three hours lecture per week.  
Second Term, Each Year

Cps 499. Special Problems in Systems Design
Includes topics in systems design, applied logic design, probabilistic and self-organizing systems, pattern recognition, man-machine communication, artificial intelligence. Prerequisite: Cps 365. Three hours lecture per week.  
Second Term, Each Year
Mechanical Engineering (MEE)

Dr. C. Richard Horwedel, Interim Chairman

Associate Professors: Csaky, Nielsen, Wilder
Assistant Professors: Knight, Smith, Thorne
Part-time Instructors: Andrews, Ault, Bickert, Burger, Demarey, Dennis, DrRoze, Forbes, Harich, Keating, Lyder, Meyette, Minardi, Nash, Roth, Schwartz, Turrentine, Vergamini, Zara

MEE 202. MECHANISMS
Kinematics of machinery; linkwork; cams; gearing; flexible connectors; intermittent motion mechanisms; trains of mechanisms. Prerequisites: Mth 217, Phy 206, Mee 206L; Corequisite: Mee 202L.

MEE 202L. MECHANISMS LABORATORY
Laboratory exercises based on the foregoing principles. Corequisite: Mee 202.

MEE 206L. ENGINEERING GRAPHICS I
Fundamentals of engineering graphics and the part that graphical communication plays in engineering.

MEE 207L. ENGINEERING GRAPHICS II
Training in the analysis and graphical solution of fundamental problems involving three dimensions and the application of these solutions to engineering problems. Prerequisite: Mee 206L.

MEE 211. MATERIALS AND PROCESSES
Atomic structure, crystalline nature of solids, bonding and imperfections in crystals. Wear in metal cutting and tool life, economics of machining. Cold working processes. Prerequisites: Chm 124, Mee 206L, Phy 206; Corequisite: Mee 211L.

MEE 211L. MATERIALS AND PROCESSES LABORATORY
Study of machining processes and machine tools; shaping and planing, drilling, turning, milling, broaching and grinding. Basic experiments in metal cutting. Experiments in workshop metrology. Corequisite: Mee 211.

MEE 301-302. THERMODYNAMICS I AND II
The general laws of thermodynamics; properties and processes of gases, vapor, and gas-vapor mixtures; cycles; and the flow of fluids. The application of thermodynamics to machines such as engines, turbines and compressors. Prerequisites: Mth 218, Phy 208.

MEE 303. METALLURGY
Atomic structure, crystal structure and crystal imperfections (applied to metallic materials). Phase diagrams, physical properties, steel and its heat treatment, casting, mechanical working, joining, powder metallurgy. Prerequisite: Mee 211; Corequisite: Egm 303.
MEE 303L. Metallurgy Laboratory  
One credit hour
Heat treatment, hardness testing, preparation of specimens for metallurgical examinations, use of the metallograph, examination of metallic structures, thermal analysis. Corequisite: Mee 303.

MEE 304. Heat Power  
Three credit hours
A general course on the equipment of steam and gas power plants, including history of development and study of modern plant facilities. Fuels, combustion processes, and complete heat balances. Prerequisite: Mee 301.

MEE 304L. Heat Power Laboratory  
One credit hour
Heating value of fuels; analysis of combustion products; determination of selected physical qualities of oils and lubricants; measurement of fluid flow. Corequisite: Mee 304.

MEE 305L. Mechanical Engineering Laboratory I  
One credit hour
Basic experiments designed to teach theory, techniques of application and calibration of instruments for the measurement of pressure, temperature, volume, fluid flow and power. Corequisite: Phy 208.

MEE 307. Dynamics of Machinery  
Two credit hours
Analysis of displacement, velocity and acceleration. Static and dynamic force analysis; work, energy and impulse. Study of balancing, gyroscopic effects, flywheels and governors. Prerequisites: Egm 301, Mee 202; Corequisites: Mee 301, Mee 307L.

MEE 307L. Dynamics of Machinery Laboratory  
One credit hour
Laboratory exercises based on the foregoing principles. Corequisite: Mee 307.

MEE 308. Fluid Mechanics  
Three credit hours
Laws and theory relative to compressible and incompressible fluids; momentum relations for steady flow; resistance of immersed bodies; dynamic lift and propulsion; lubrication; pumps; turbines; fluid couplings; fluid power and control systems. Corequisite: Mee 301.

MEE 310. Thermal Engineering I  
Three credit hours
Steam and gas power plants, including history of development and study of modern plant facilities. Fuels, combustion processes, energy balances and an introduction to nuclear engineering. Prerequisites: Chm 124, Mee 301; Corequisite: Mee 308.

MEE 311. Theory of Machines  
Three credit hours
Linkages, cam design, spur gears, helical, bevel and worm gears. Differentials, computing mechanisms, introductions to synthesis, kinematics of machinery, static and dynamic forces, balancing. Prerequisite: Egm 301; Corequisite: Mee 301, Mee 311L.

MEE 311L. Theory of Machines Laboratory  
Two credit hours
Laboratory exercises based on the foregoing principles. Corequisite: Mee 311.
MEE 401. INTERNAL COMBUSTION ENGINES  
A study of the Otto and Diesel cycles including fuels, combustion, detonation, knock testing, performance factors, performance testing, exhaust gases, and engine vibration. Prerequisite: Mee 302; Corequisite: Mee 304L.

MEE 403. HEATING AND AIR CONDITIONING  
Heat losses and gains through building walls; heating and cooling loads of buildings; warm air, steam, and hot water heating, with discussion of the various units used in such systems. Prerequisite: Mee 302.

MEE 404. REFRIGERATION  
Refrigeration methods, refrigerants and compressors; the thermodynamics of compression and absorption system of refrigeration; the economics and efficiency of cooling by liquid or gaseous refrigerants. Prerequisite: Mee 302.

MEE 406L. MECHANICAL ENGINEERING LABORATORY II  
Tests of a boiler and steam turbine installation, steam engines, internal combustion engines and pumps and heat transfer devices. Prerequisite: Mee 401; Corequisite: Mee 417.

MEE 407-408. MACHINE DESIGN I AND II  
Analysis and design of machine members and mechanical systems. Development of creative ability and engineering judgment. Prerequisites: Egm 303, Mee 307; Co-requisites: Egm 304, Mee 303, Mee 407L-408L.

MEE 407L-408L. MACHINE DESIGN LABORATORY I AND II  
Design problems based on foregoing principles. Corequisites: Mee 407-408.

MEE 409. HEAT TRANSMISSION  
Laws of conduction, radiation and convection; heat transfer to boiling liquids or condensing vapors; over-all heat transfer steady state or variable flow. Prerequisite: Mee 301; Corequisite: Mee 308.

MEE 410. HEAT TRANSFER  
Laws of conduction, radiation and convection; heat transfer to boiling liquids and condensing vapors; steady state or variable flow; heat transfer. Prerequisites: Mee 301, Mee 308, Mth 341.

MEE 412L. FUELS AND LUBRICANTS ANALYSIS LABORATORY  
Heating value of fuels; analysis of combustion products; determination of selected physical qualities of oils and lubricants; measurement of fluid flow. Corequisite: Mee 302.

MEE 414. SEMINAR  
Attendance required by all Mechanical Engineering Junior and Senior students with only Seniors registering for credit.

MEE 417. THERMAL ENGINEERING II  
A study of spark and compression ignition engines, reaction engines, gas turbine power plants and fuel requirements for each. Processes of combustion and energy release. Prerequisites: Mee 302, Mee 310; Corequisite: Mee 412L.
COURSES OF INSTRUCTION

MEE 418. ADVANCED FLUID MECHANICS  THREE CREDIT HOURS
Dynamics of fluid flow. Compressible fluids. Theorems of conservation of mass and momentum. Laws of thermodynamics as applied to fluid flow. One dimensional isentropic flow; normal shock; friction; heat transfer. Prerequisites: Mee 301, Mee 308, Mth 341.

MEE 419. MECHANICAL ENGINEERING ANALYSIS  TWO CREDIT HOURS
The application of mathematics to the solution of engineering problems. Prerequisites: Egm 303, Mee 307; Corequisites: Mee 410, Mee 418.

MEE 423. HEATING, AIR CONDITIONING AND REFRIGERATION  THREE CREDIT HOURS
Determination of heating and cooling loads; warm air, steam and hot water heating systems. A study of measurement and control of temperature, humidity and purity of air. A study of refrigeration methods, processes and cycles. Prerequisite: Mee 302.

Mechanical Engineering Electives

MEE 416. MECHANICAL VIBRATIONS  TWO CREDIT HOURS
Vibrations without damping; damped vibrations; vibration of systems with several degrees of freedom; vibration isolation and absorption; theory of balancing; mechanical and electrical models of vibration systems. Prerequisites: Mee 307, Mth 341.

MEE 416L. MECHANICAL VIBRATIONS LABORATORY  ONE CREDIT HOUR
Laboratory exercises based on the foregoing principles. Corequisite: Mee 416.

MEE 421. TURBO-MACHINERY  THREE CREDIT HOURS
Theory applicable to turbines, compressors and pumps. Dimensional analysis concepts; energy transfer in centrifugal and axial flow turbines, compressors and pumps. Thermodynamic relationships in turbomachinery processes. Prerequisites: Mee 302, Mee 308.

MEE 431. ADVANCED DYNAMICS OF MACHINERY  THREE CREDIT HOURS
Application of vector analysis to kinematics and dynamics. Advanced problems in mechanisms and dynamics of mechanical systems. Vibrations analysis. Prerequisites: Egm 303, Mee 307.

MEE 499. SPECIAL PROBLEMS IN MECHANICAL ENGINEERING  TWO TO SIX CREDIT HOURS
Particular assignments to be arranged and approved by Chairman of the Department.

Medical Technology (MET)

Dr. Abramson, Chairman (St. Elizabeth Hospital)
Dr. McMillan, Chairman (Good Samaritan Hospital)
Dr. Oosting, Chairman (Miami Valley Hospital)

The work of the senior year in Medical Technology is done at Miami Valley Hospital, St. Elizabeth Hospital or Good Samaritan Hospital. The courses are conducted by the respective hospital faculties.
MET 481. INTRODUCTION TO MEDICAL TECHNOLOGY  
A study of basic hospital and laboratory routine, Medical Terminology, Laboratory Ethics, Laboratory Mathematics.

MET 482. URINALYSIS AND RENAL FUNCTION  
Instruction in various methods of performing these tests with correlation based on anatomical and physiological functions of the organs.

MET 483. HEMATOLOGY  
Instruction in the morphology of the blood and blood-forming tissues and practice in the associated studies. Correlation of findings based on anatomical and physiological functions of the cellular components of the blood.

MET 484. BACTERIOLOGY, PARASITOLOGY, MYCOLOGY  
Instruction in various methods of microbiological examination of the body tissues, fluids, secretions, and excretions; tests for reaction of the body to specific diseases; tests for and study of various parasites found as pathologic organisms in the human body.

MET 485. CHEMISTRY AND GASTRIC ANALYSIS  
Instruction in biochemical analysis and the chemical changes in the body due to disease; procedures for analyzing gastric fluid.

MET 486. HISTOLOGY AND CYTOLOGY  
Instruction in various methods of preparation for sectioning and staining of tissues in preparation for microscopic examination.

MET 487. SEROLOGY AND SPINAL FLUID  
Instruction in antigen-antibody reaction in vitro and the performance of the associated tests; procedures for analyzing cerebrospinal fluid.

MET 488. BLOOD BANKING  
Instruction in blood typing and crossmatching of blood for administration of transfusions. Techniques in withdrawing blood from donors is included.

MET 489. LABORATORY MANAGEMENT  
The student familiarizes himself with the ordering of supplies, office procedures, and with basal metabolism techniques.

MET 490. NORMAL AND PATHOLOGIC PHYSIOLOGY  
A series of lectures stressing the correlation of theory and practical laboratory testing as it relates to disease states.
Military Science (Mil)

Professor: Showalter
Assistant Professors: Anderson, Bowden, Gainok, Carberry, Ennis, Gaier, Geiger, Maguire, Ragains, Rizzo, Sampson
Part-time Instructors: Bennett, Martinez, Mendenhall, Nichols, Olson, Perry, Robertson, Thomas, Thompson, Whitby, Wolfe

Mil 101-102. First Year Basic Course
Training provided in those subjects common to all branches of the Army, such as U.S. Army and National Security; individual weapons and marksmanship; organization of Army and R.O.T.C.; counterinsurgency; leadership laboratory.

Mil 201-202. Second Year Basic Course
Continuation of above course. Subjects include: American military history; map and aerial photograph reading; basic tactics; counterinsurgency; leadership laboratory. Prerequisite: Mil 101-102.

Mil 301-302. First Year Advanced Course
Subjects: Military teaching principles; service branches; tactics-communications; precamp orientation; counterinsurgency; leadership; summer camp. Prerequisites: Mil 101, 102, 201, 202, pass physical, selection.

Mil 401-402. Second Year Advanced Course
Continuation of above. Subjects: Logistics; Army Administration: Military Justice; Operations; Service Orientation; U.S. in World Affairs; Counterinsurgency; Leadership. Prerequisite: Mil 301-302 and Summer Camp.

Music (Mus)

Professor: Reichard
Associate Professors: Tagg, Thomas, Zech
Assistant Professor: Weaver
Instructor: Wiggenhorn
Part-time Instructors: Blagg, Christopher, Enoch, Heisey, Katz, Kline, Minton, Reger

Mus 102. Music Literature and Appreciation
A study of the masterpieces of music, with special reference to the listener; includes compositions of value to the classroom teacher. For students in elementary education. Not open to students who have credit for Mus 105. Second Term, Each Year

Mus 105. Music Appreciation
A study of the masterpieces of music aimed at developing a broad understanding and an intelligent discrimination of music. For music majors and students in Music Education. Not open to students who have credit for Mus 102. Second Term, Each Year
MUS 141. INTRODUCTION TO MUSIC
TWO CREDIT HOURS
For the student with no previous experience with the theory of music. Notation of music, key signatures, fundamental harmonic progression, and an introduction to the piano keyboard. Elementary ear training and dictation. First Term, Each Year

MUS 151-152. FIRST YEAR THEORY
EIGHT CREDIT HOURS
Formation of scales and intervals; progression of triads and seventh chords; simple modulation; basic technique of dictation, sight singing, and rhythmic reading. Prerequisite: Knowledge of the fundamentals of music.

MUS 183. TEACHING MUSIC IN PAROCHIAL SCHOOLS—PRIMARY GRADES
THREE CREDIT HOURS
Reading and notation of music is developed along with key signatures, sight singing in major and minor modes, ear training and dictation. Materials for grades 1, 2, 3, and their presentation.

MUS 231. TEACHING MUSIC IN GRADES 1, 2, AND 3
TWO CREDIT HOURS
Materials to be used in music for the first three grades and their presentation; problems and possibilities of the primary school music program. Prerequisite: Knowledge of the fundamentals of music equivalent to Mus 141.

MUS 232. TEACHING MUSIC IN GRADES 4, 5, AND 6
TWO CREDIT HOURS
Materials to be used in music for the intermediate grades and their presentation; problems and possibilities of the elementary school music program. Prerequisite: Equivalent of Mus 141.

MUS 235-236. VOICE CLASS
FOUR CREDIT HOURS
Principles of good singing; development of the voice; vocal literature. May be repeated to a total of eight credit hours. Minimum of four students required for class. Prerequisite: Permission of the instructor.

MUS 245-246. GREGORIAN CHANT
FOUR CREDIT HOURS
An introduction to Gregorian Chant. Principles of free rhythm; modal characteristics; fundamentals of choronomy. Offered only at Marianist College and at Regina Heights.

MUS 251. SECOND YEAR THEORY
FOUR CREDIT HOURS
Continuation of Mus 151-152; more advanced sight-singing and dictation; analysis and writing of advanced seventh chords, modulation. Non-harmonic tones, and altered chords. Prerequisite: Mus 152. First Term, Each Year

MUS 262. MUSICAL FORM
TWO CREDIT HOURS
A study of the structural designs used in musical composition; a study of all polyphonic, homophonic, and the larger forms. Prerequisite: Mus 251. Second Term, Each Year

MUS 272. KEYBOARD HARMONY
TWO CREDIT HOURS
A study of diatonic chord progressions, including simple modulations, at the keyboard; their use in accompaniment of melodies; improvisation; modern chord terminology. Prerequisite: Mus 251; four credit hours in Piano. Second Term, Each Year
Mus 283. Teaching Music in Parochial Schools—Intermediate Grades

Continued note reading, modulation to dominant and subdominant, introduction to Gregorian Chant and to the piano keyboard, two and three-part singing. Materials for grades 4, 5, 6, and their presentation.

Mus 301. History of Music I

Development of music, instruments, forms, sacred and secular, from the earliest records through the Classical period. The relationship of music to the other arts and to broad movements in society and civilization. 

First Term, Each Year

Mus 302. History of Music II

Music of the nineteenth century; Romanticism; impressionism; nationalism; beginnings of the modern period. Relationship of music to social and cultural trends in Europe and America during the last one hundred and fifty years. 

Second Term, Each Year

Mus 303. Modern Music

A survey of contemporary music; its relationship to modernism in the other arts and to present-day society; American music. 

Second Term, 1964-1965

Mus 311-312. Eighteenth Century Counterpoint

A study of the contrapuntal technique of the eighteenth century particularly as used in the instrumental works of Johann Sebastian Bach. Original compositions in the forms of the Invention and the Fugue. Prerequisite: Mus 251-252.

Mus 315. The Opera

A survey of operas written in classical, romantic, and modern periods; particular attention is given to works currently performed by major opera companies. 

Evening

Mus 322. Instrumentation and Orchestration

Scoring for instruments in small combinations and full orchestra and symphonic band; emphasis on the needs of school music organizations. Prerequisite: Junior standing in music and permission of the instructor. 

Second Term, Each Year

Mus 325. Stringed Instruments

Class instruction in stringed instruments; teaching of stringed instruments in the schools. 

First Term, Each Year

Mus 326. Reed and Woodwind Instruments

Class instruction in reed and woodwind instruments; teaching of reeds and woodwinds in the schools. 

First Term, 1964-1965

Mus 327. Brass Instruments

Class instruction in brass instruments; teaching brass instruments in the schools. 

Second Term, 1964-1965

Mus 328. Percussion Instruments

Class instruction in percussion instruments; teaching of percussion instruments in schools.
MUS 331. Vocal Music in the High School  
TWO CREDIT HOURS
Materials used in the general music class and their presentation; glee club, choir, voice class, vocal ensembles. Prerequisite: Junior standing in Music Education.  
Second Term, Each Year

MUS 332. The School Band and Orchestra  
TWO CREDIT HOURS
A general course in the organization and teaching of instrumental music in the schools; materials; survey of equipment and facilities necessary for the instrumental music program. Prerequisite: Junior standing in Music Education.  
First Term, Each Year

MUS 335. Music in the Elementary Grades  
THREE CREDIT HOURS
The music education program in the elementary grades; materials and their presentation; problems and responsibilities of the music teacher. Prerequisite: Sophomore standing in music education.  
Second Term, Each Year

MUS 341. Conducting  
THREE CREDIT HOURS
Methods of controlling tempo and the dynamic elements of musical performance groups; practical experience in experimental campus organizations. Prerequisite: Junior standing in Music; permission of the instructor.  
Second Term, Each Year

MUS 345. Gregorian Chant Principles  
TWO CREDIT HOURS
A study of Gregorian notation, free rhythm and fundamentals of chironomy; the eight Church modes; the principal Masses of the Kyriale; for the student with little or no previous knowledge of the music of the Catholic Church.  
Second Term—Evening

MUS 383. Teaching Music in Parochial Schools—Junior High School  
THREE CREDIT HOURS
Repertoire in three and four parts which exploits the musical skills developed in the first six grades. Procedure for handling the problem of the boy’s changing voice.

MUS 411-412. Musical Composition  
FOUR CREDIT HOURS
Prerequisites: Mus 251-252, Mus 311-312 or Mus 417-418; other prerequisites to be determined in consideration of the aims and objectives of the student; permission of the instructor.

MUS 415-416. 19th and 20th Century Styles  
FOUR CREDIT HOURS
Analysis of the harmonic and contrapuntal devices used after Bach with special emphasis on contemporary music and composers. Prerequisite: Junior standing in music; permission of the instructor.

MUS 417-418. Sixteenth Century Counterpoint  
FOUR CREDIT HOURS
A study of the medieval modes and the vocal polyphony of the motet and the Mass, up to and including five-part writing; original student compositions. Prerequisite: Permission of the instructor.

MUS 421-422. Laboratory in Orchestration  
FOUR CREDIT HOURS
Advanced work in orchestration; special problems in scoring for full orchestra, symphonic band or dance orchestra; transcription of orchestral works for band. Prerequisite: Mus 322, permission of instructor.
Mus 425-426. Problems in Instrumental Music

Practical problems and experience in instrumental music in teaching or other professional situations approved by the Department of Music. Prerequisite: Senior standing in Music or in Music Education.

Mus 429. Marching Band Techniques

Materials and methods of organization and instruction for the Marching Band.

Second Term—Evening

Mus 431-432. Problems in Vocal Music

Practical problems and experience in vocal music in teaching or other professional situations approved by the Department of Music. Prerequisite: Senior standing in Music or in Music Education.

Mus 441-442. Laboratory in Composition

Advanced work in musical composition; writing multi-movement forms of both vocal and instrumental music. Prerequisite: Mus 411 and 412; permission of the instructor.

Mus 470W. Music in the Primary Grades

The workshop treats phases of the child's music needs and considers appropriate materials and methods for the regular classroom teacher. Opportunities given for participation in music activities. For primary teachers.

Summer

Applied Music

Credit for private instruction in piano, organ, violin, voice, stringed or wind instruments is allowed at the rate of two credit hours per lesson a week.

In order to register for credit toward a major in Applied Music, students must have studied sufficient preparatory material. In piano, this should include ability to play major and minor scales in a moderate tempo in parallel motion, ability to play major and minor triads in arpeggio form in all keys. The student should have studied Hanon, Vol. I; Pischna; Czerny, Op. 299, or their equivalent; some of the Mozart and Haydn sonatas; Mendelssohn "Songs Without Words"; "Little Preludes and Fugues" or Two-and Three-part Inventions by Bach; "Lyric Pieces" by Greig, or their equivalent. To study organ, the student should have previous study in piano amounting to the Two and Three-part Inventions by Bach; Sonata No. 1 in f Minor, Op. 2, by Beethoven; Nocturne in f Minor, Op. 55, by Chopin or their equivalent.

Applied Music Fees:

*Piano, semester fee ........................................ $20.00
*Organ, semester fee ......................................... 20.00
*Voice, semester fee .......................................... 20.00
**Violin, Cello, Bass, term fee .............................. 40.00 to 64.00
**Reed, Woodwind, Brass Instruments, term fee ........... 40.00

*“Laboratory fees” ($20.00) for instruction in piano, voice or organ apply to students in music or music education who are studying with full-time members of the Department of Music staff.

**Fees for instruction in instruments of the Band or Orchestra are based on the private instruction fee of the individual instructor. With permission of the Chairman of the Department of Music, these fees may be paid directly to the instructor and not included in the amounts paid to the University treasurer at time of registration.
ENSEMBLES

*Orchestra* (Dayton Philharmonic Training Orchestra)

*Band* (Marching Band, Concert Band)

*Choir* (Mixed Chorus)

*Glee Clubs* (Men's Glee Club, Women's Glee Club)

*Ensembles* (Brass Choir, String, Woodwind Ensembles)

Credit may be earned in Orchestra, Band, Choir, and Glee Club by students enrolled in music courses. Credit will be allowed at the rate of one-half credit per semester in each organization, and is required of students majoring in Music or qualifying for degrees of Bachelor of Music or Bachelor of Science in Music Education. Students do not register for credit in musical ensembles and no grades are given. Granting of such credit, however, will entail attendance at rehearsals and performances in conformity with policies applying to regular academic courses. The amount of credit required is to be determined by the needs and experience of the student, and/or State requirements in music education. Maximum: Toward Music major in B.A. degree, or as elective in other degrees: four credit hours; toward B.M. or B.S. in Music Education degrees, six credit hours. Prerequisite: permission of the Director.

Nursing (Nsg)

*Associate Professors*: Franklin, Horrigan

*Part-time Instructors*: Heagler, Sandman, Sills

All courses in nursing are restricted to registered professional nurses whose professional qualifications have been approved by the University of Dayton and the Department of Nursing.

Nsg 317. **Current Trends in American Nursing**

Three credit hours

The goals and trends in nursing in relation to its historical and philosophical background. Correlation is made with social and cultural movements in order that the student may appreciate the interaction of nursing and other social forces.

Nsg 340. **Principles of Teaching in Nursing**

Three credit hours

Communication skills and principles underlying learning and teaching are presented. Concepts of health guidance, individual group teaching methods are developed through individual projects, group projects, discussion and role-playing.

Nsg 350. **Comprehensive Medical-Surgical Nursing**

Three credit hours

Principles of medical-surgical nursing; special emphasis on total patient care. Student develops nursing plans which include measures for meeting socio-psychologic, emotional, spiritual and physical needs of the patient.

Second Term, Each Year
Nsg 350L. Comprehensive Medical-Surgical Nursing Laboratory

One Credit Hour
Clinical nursing practice and observation in correlation with Nsg 350. Four hours a week.
Second Term, Each Year

Nsg 360. Comprehensive Maternal-Child Nursing

Three Credit Hours
Through a family centered approach this course is designed to aid the student in developing a deeper knowledge and appreciation of the total aspects of maternal-child health.
First Term, Each Year

Nsg 360L. Comprehensive Maternal-Child Nursing Laboratory

One Credit Hour
Clinical nursing practice and observation in correlation with Nsg 360. Four hours a week.
First Term, Each Year

Nsg 370. Comprehensive Psychiatric Nursing

Three Credit Hours
Consideration is given to the causes, management and rehabilitation of psychiatric conditions with particular emphasis on mental hygiene, the preventive aspects and their application to all fields of nursing.
First Term, Each Year

Nsg 370L. Comprehensive Psychiatric Nursing Laboratory

One Credit Hour
Clinical nursing practice and observation in correlation with Nsg 370. Four hours a week.
First Term, Each Year

Nsg 420. Principles of Administration

Three Credit Hours
This course presents basic principles in nursing organization, administration and supervision. Through class discussion and projects the application of these principles is made to specific areas of nursing.

Nsg 491. Public Health Science and Administration

Three Credit Hours
This course includes epidemiology, preventive medicine, biostatistics and aspects of the administration of public health services.
Second Term, Each Year

Nsg 492. Public Health Nursing Principles

Three Credit Hours
This course includes the historical development, organization and administration of public health nursing, with special consideration to the functions and responsibilities of the nurse in family health services.
Second Term, Each Year

Nsg 493. Public Health Nursing Field Work

Four Credit Hours
Observation and practice is provided to assist the nurse to gain increasing responsibility for health guidance with selected families in the community and to apply concepts of management and the team approach in a practice area.
To be Announced

Nsg 498. Senior Seminar

Three Credit Hours
Through senior conferences consideration is given to special projects and/or problems in the student's major area of interest.
Second Term, Each Year
Philosophy (PHL)  
Rev. Edmund L. Rhodes, S.M., Chairman

Professors: Baker, Elbert
Associate Professors: Dieska, Harkenrider, Rhodes
Assistant Professors: Bedard, Bloemer, Chrisman, Dombro, Farians, Hickey
Instructors: Baltazar, Psihas
Part-time Instructors: Danaher, Wening

Courses required for a minor: Phl 103, 207, 303, 306, 402, 403, 404 (Non-Cath.).
Students should consult the chairman concerning electives.
Logic and philosophical psychology are prerequisites for all 300 and 400 courses.

Phl 103. LOGIC  
Three Credit Hours
Correct methods of defining and dividing concepts; analysis of propositions and their immediate implications; applications of the rules for valid syllogistic inference; induction; fallacies. Required of all freshmen.

Phl 207. PHILOSOPHICAL PSYCHOLOGY  
Three Credit Hours
Nature of life in general; plant soul; brute animal soul; knowledge and appetite in man; human intellect and will; intellectual and moral habits; nature, origin and immortality of the human soul. Required of all sophomores. Prerequisite: Phl 103.

Phl 303. COSMOLOGY  
Three Credit Hours
The nature and properties of mobile being; the hylomorphic theory of bodies; nature of quantity; the analysis of physical motion; qualities of bodies; space and time; origin and destiny of the universe. Prerequisite: Phl 207.

Phl 306. EPISTEMOLOGY  
Three Credit Hours
A critical examination of the validity of sensory and intellectual knowledge; the problem of the trustworthiness of the senses; the problem of the universal; skepticism, idealism and subjectivism. Prerequisite: Phl 207.

Phl 402. GENERAL METAPHYSICS  
Three Credit Hours
An analysis of real being; analogy of being; transcendentals; application of act and potency to essence and existence, substance and accident, the one and the many, causality; special classes of being. Prerequisite: Phl 306.

Phl 403. NATURAL THEOLOGY  
Three Credit Hours
The existence and nature of God as discoverable by natural reason; the divine causality; the relation of the universe to God; the problem of evil; criticism of the arguments advanced by the atheist and the agnostic. Prerequisite: Phl 402.

Phl 404. ETHICS  
Three Credit Hours
Happiness and ultimate end of man; human act; norms and determinants of morality; eternal and natural law; conscience; moral virtues; rights and duties. Required of all non-Catholics. Prerequisite: 402.
Pnl 406. HISTORY OF GREEK PHILOSOPHY  
A survey of the beginnings and later development of philosophical speculation by the Greek philosophers from Thales to Plotinus. Prerequisite: Phl 402.  

PHL 407. HISTORY OF MEDIEVAL PHILOSOPHY  
A survey of the course of philosophical thought from the Patristic Period to the end of the Scholastic era in the 14th century. Prerequisite: Phl 402.  

PHL 408. HISTORY OF MODERN PHILOSOPHY  
A consideration of the rise and development of modern philosophic thought from the Renaissance of the 20th century. Prerequisite: Phl 402.  

PHL 410. HISTORY OF POLITICAL PHILOSOPHY  
A study of the principal political opinions of the Western philosophers; Plato, Aristotle, and the leading Roman, Medieval, and modern political philosophers. Prerequisite: Phl 402. Required of all political science majors.  

PHL 414. PHILOSOPHY OF LAW  
Nature of law; natural and positive law; implications and juridical origin and effect of law; justice; genetic origin of law. Prerequisite: Phl 402.  

PHL 430. PHILOSOPHY OF PLATO  
The purpose of the course is to give an insight into the philosophy of Plato by reading, analyzing and commenting on four of Plato’s dialogues: Phaedo, Symposium, Protagoras and the Republic. Prerequisite: Phl 402.  

PHL 432. PHILOSOPHY OF ARISTOTLE  
Readings and classroom discussion of selections from the basic works of Aristotle, including the Physics, Metaphysics, Ethics and Politics. Prerequisite: Phl 402.  

PHL 434. ST. THOMAS AQUINAS  
This course offers St. Thomas' teachings on God, Creation, Man, Law, Grace, Habit, Virtue and kindred subjects, derived from the Summa Theologica and the Summa Contra Gentiles. Prerequisite: Phl 402.  

PHL 450. PROBLEMS IN PHILOSOPHY  
The objective of this seminar is to gain insight into the perennial and contemporary problems of philosophy. Permission to take this course must be obtained from the instructor. Prerequisite: Phl 402.  

PHL 460. BUSINESS ETHICS  
Application of philosophy in the area of employee discipline with emphasis on rights, duties, and the purpose of discipline. Examination of arbitration cases in discipline.
Health and Physical Education (PHE)  
James B. LaVanche, Acting Chairman

Health and Physical Education: Men  
Associate Professor: Baujan  
Assistant Professors: Blackburn, Ferrazza, LaVanche, Morgan  
Instructor: Schleppi  
Part-time Instructor: Douglass

Health and Physical Education: Women  
Assistant Professor: Drees  
Instructors: Hager, Middlebrook, Sokolowski  
Part-time Instructor: Sharp

PHE 107-108. Physical Education Activities (Women)  
One credit per term  
Fundamentals of physical education activities. Development of skills necessary to good teaching in archery, badminton, basketball, bowling, fencing, golf, hockey, softball, swimming, tennis, and volleyball. Four activity periods a week.

PHE 107-108. Physical Education Activities (Men)  
One-half credit per term  
Fundamentals of physical education activities. Screening will be given for Physical Education majors and those having teaching fields. Prerequisite for Phe 200. Two activity periods a week.

PHE 110. Health and Physical Education (Men)  
One credit hour  
The teaching of soccer, touch football, volleyball, basketball. The health lectures will consist of knowledge and attitudes pertaining to healthful living. One lecture and two activity periods.  
First Term, Each Year

PHE 111. Health and Physical Education (Men)  
One credit hour  
The teaching of skills: handball, gymnastics, wrestling, and track and field. The health lectures will consist of knowledge and attitudes pertaining to healthful living. One lecture and two activity periods.  
Second Term, Each Year

PHE 112. Health and Physical Education (Men)  
One credit hour  
The teaching of skills in tennis, archery, and badminton. The health lectures will consist of knowledge and attitudes pertaining to healthful living. One lecture and two activity periods.  
First Term, Each Year

PHE 113. Health and Physical Education (Men)  
One credit hour  
The teaching of skills in bowling, (aquatics or dance), and golf. The health lectures will consist of knowledge and attitudes pertaining to healthful living. One lecture and two activity periods.  
Second Term, Each Year

PHE 110. Health and Physical Education (Women)  
One credit hour  
Orientation to physical education and health consisting of the purposes, basic principles of physical education and health. The teaching of the fundamental skills and knowledge. One health lecture and two physical activity periods.  
First Term, Each Year

PHE 111. Health and Physical Education (Women)  
One credit hour  
The teaching of fundamental skills and knowledge of indoor team and individual
sports. The health lectures will consist of knowledge and attitudes pertaining to healthful living.

**Second Term, Each Year**

**PHE 112. Health and Physical Education (Women)**

One credit hour

The teaching of skills and knowledge of outdoor individual sports. The health lectures will consist of knowledge and attitudes pertaining to healthful living. One health lecture and two physical activity periods.

**First Term, Each Year**

**PHE 113. Health and Physical Education (Women)**

One credit hour

The teaching of skills and knowledge of dance and recreational activities. The health lectures will consist of knowledge and attitudes pertaining to healthful living. One health lecture and two physical activity periods.

**Second Term, Each Year**

**PHE 115. Health**

Course aims to establish and promote individual health and proper health habits through a study of the fundamentals of physical well-being. Required of all men and women pursuing a teaching field or major in physical education. One lecture period.

**First Term, Each Year**

**PHE 119. Theory and Techniques of Officiating (Men)**

One-half credit hour

A development of knowledge of rules of football, basketball, baseball, and track, and the application of the knowledge to actual game situations. Students are required to officiate intramural sports. Two lab periods a week.

**First Term, Each Year**

**PHE 120. Theory and Techniques of Officiating (Men)**

One-half credit hour

Continuation of Phe 119. Two lab periods a week.

**Second Term, Each Year**

**PHE 200. Methods in Team & Individual Sports for Men**

Two credit hours

Skills and methods needed to teach soccer, speedball, volleyball, touch football, archery, golf, badminton, bowling, handball, swimming, etc. Four periods a week. Prerequisite for Phe 433 M.

**PHE 205-206. Human Anatomy and Physiology**

Six credit hours

(See Bio 205-206)

**PHE 207-208. Techniques of Officiating (Women)**

Two credit hours

Rules and techniques of officiating hockey, volleyball, basketball, tennis, and softball. Two lab periods a week.

**PHE 212. Coaching Baseball and Track**

Two credit hours

One-half the time will be spent on the theory and practice of each sport. Form and not athletic achievement will be stressed considering the abilities to be acquired. Two lecture periods a week.

**Second Term, Each Year**

**PHE 213. Principles of Physical Education**

Two credit hours

A study of the aims, scope, and biological aspects of physical education with special treatment of its place in education. Two lecture periods a week. **First Term, Each Year**
PHE 217. **Team Sports (women)**  
Skills and methods needed to teach hockey, soccer, speedball, volleyball, softball, and basketball. Two lecture and two activity periods a week.  
*First Term, Each Year*

PHE 219. **Community Hygiene**  
Health and prevention of disease in the family, school, and community; relation of community health to disease control; important communicable diseases and their control. Two lecture periods a week.  
*First Term, Each Year*

PHE 245. **Modern Dance (women)**  
Techniques involved in modern dance with emphasis on composition. The study of dance as an art. Offered every other year. One lecture and two activity periods a week.  
*Second Term, 1964-1965*

PHE 250. **Principles and Administration of Health Education**  
Problems related to the organization and administration of the School Health education including the setting up of a school health council and the school community relationships. Two lecture periods a week.  
*Second Term, Each Year*

PHE 308. **Teaching of Health**  
Application of principles of methodology to health education in elementary and secondary schools. Develops standards and techniques for selecting suitable source material. Observation of teaching in area schools required. Three lecture periods a week.  
*First Term, Each Year*

PHE 311. **Coaching Football and Basketball**  
Study of theory, strategy, generalship, styles of offense and defense, methods of organizing practice and handling men. Demonstration and practice in fundamentals for all positions. Two lecture periods a week.  
*First Term, Each Year*

PHE 326. **Games and Fundamental Rhythms**  
Learning game activities; relating needs and abilities of children and youth to the games program. Teaching of rhythms and folk dancing in elementary and secondary schools. Two lecture and two activity periods a week.  
*Second Term, Each Year*

PHE 334. **Individual Sports (women)**  
Skills and methods needed to teach archery, bowling, badminton, tennis, golf, and fencing. Two lecture and two activity periods a week.  
*First Term, Each Year*

PHE 335. **Care and Prevention of Injuries**  
Diagnosis, interpretation, and treatment of injuries. First aid for injuries in home, school, and community. Qualifying for Red Cross First Aid Instructor's Certificate is a requirement. Three lecture periods a week.  
*Second Term, Each Year*

PHE 347. **Camping and Playgrounds**  
Study of facilities, programs and leadership of summer camps and playgrounds. Camp standards, program making and cabin counseling will be studied. Two lecture periods a week.  
*Second Term, Each Year*
PHE 350. KINESIOLOGY  
TWO CREDIT HOURS
The study of human movement. Body mechanics, posture, motor efficiency, sports, and the influence of growth and development upon motor performances are studied. Two lecture periods a week.

First Term, Each Year

PHE 402. ORGANIZATION AND ADMINISTRATION OF PHYSICAL EDUCATION (MEN)  
TWO CREDIT HOURS
Problems of organization and administration of physical education with added emphasis on the supervision of required and elective courses, intramural athletics and interschool athletics. Two lecture periods a week.

First Term, Each Year

PHE 402. ORGANIZATION AND ADMINISTRATION OF PHYSICAL EDUCATION (WOMEN)  
TWO CREDIT HOURS

First Term, Each Year

PHE 405. TESTS AND MEASUREMENTS IN PHYSICAL EDUCATION  
TWO CREDIT HOURS
Critical analysis of existing testing methods in physical education. Study of current tests from the practical and theoretical viewpoint. The use of tests in the physical education program. Two lecture periods a week.

First Term, Each Year

PHE 407. MODERN PROBLEMS IN PUBLIC HEALTH  
TWO CREDIT HOURS
Study of current health problems; special emphasis on preventive medicine, epidemiology, and organization for health. Introduction to seminar study. Two lecture periods a week.

Second Term, Each Year

PHE 408. PHYSIOLOGY OF EXERCISE  
TWO CREDIT HOURS
Detailed study of the effects of exercise on the respiratory, circulatory, and muscular systems. Specific consideration will be given to the physiology of fatigue, staleness, training, and conditioning. Two lecture period a week.

First Term, Each Year

PHE 409. CORRECTIVE PHYSICAL EDUCATION  
TWO CREDIT HOURS
This course deals with the corrective or remedial measures to be used in providing proper exercises and procedures in handling individuals with handicapped conditions. Two class periods a week. Prerequisite: Phe 408.

Second Term, Each Year

PHE 413. HEALTH IN ELEMENTARY SCHOOL  
THREE CREDIT HOURS
Study of physical and social environment essential for maintaining and promoting the growth and well-being of the elementary school student. The standard first aid course offered.

PHE 414. PHYSICAL EDUCATION IN ELEMENTARY SCHOOL  
THREE CREDIT HOURS
Designed to equip the classroom teacher with methods and activities for conducting a physical education program.

PHE 433. GYMNASTICS FOR MEN  
TWO CREDIT HOURS
Methods in conditioning, tumbling, horses, bucks, low and high bar, pyramid building, wrestling, trampoline, stunts with and without equipment. One lecture and two activity periods a week.
PHE 433. GYMNASTICS FOR WOMEN  
Methods and skills needed to teach stunts, tumbling, trampoline, calisthenics, balancing, free exercise, rope stunts and other self-testing activities. One lecture and two activity periods a week.  
First Term, Each Year

PHE ——. CORRECTIVE THERAPY CLINICAL TRAINING  
Corrective therapy clinical training program is offered students who major in health and physical education. Involves 250 clock hours of directed clinical training at the Veterans Administration Center, Dayton.

Physics (PHY)  
Dr. Joseph J. Kepes, Chairman

Professors: Bueche, Mann, Rambauske  
Associate Professors: Kepes, Martin, Schick  
Assistant Professors: Crivello, Hieber, Kendziorski  
Part-time Instructors: Swartzbaugh, Yaney

A major in physics consists of 24 credit hours, exclusive of Phy 206-207-208-209. A student intending to specialize in this field should consult with the chairman of the department to arrange his courses.

PHY 105. THE PHYSICAL SCIENCES  
Applies fundamental principles of physics to physics, chemistry, astronomy, meteorology. Gives the student a broad understanding of man's physical environment. Four class periods per week.

PHY 151. GENERAL PHYSICS  
Designed to give (non-science) student an appreciation of physics, and approaches mechanics and heat from a point of view with a minimum of mathematics. Three class periods per week. Prerequisite: Elementary algebra.  
First Term, Each Year

PHY 152. GENERAL PHYSICS  
This course is a continuation of Phy 151 and includes electricity, light and sound with some discussion of the most recent developments of physics. Three class periods per week. Prerequisite: Phy 151.  
Second Term, Each Year

PHY 201. GENERAL PHYSICS  
This course, especially adapted to the needs of pre-medical and pre-dental students, covers the field of mechanics and heat. Three class periods per week.  
First Term, Each Year

PHY 201L. GENERAL PHYSICS LABORATORY  
Accompanying laboratory course to Phy 201. Designed to verify and apply theory, and to teach scientific techniques. One two-hour period per week.  
First Term, Each Year
PHY 202. **General Physics**

A continuation of Phy 201, covering the fields of magnetism, electricity, sound and light. Three class periods per week. Prerequisite: Phy 201. *Second Term, Each Year*

PHY 202L. **General Physics Laboratory**

A continuation of Phy 201L, with experiments in magnetism, electricity, sound and light. One two-hour period per week. Prerequisite: Phy 201L. *Second Term, Each Year*

PHY 206, 207, 208. **General Physics**

This is a three-semester course in the fundamentals of physics intended for students preparing to major in chemistry, engineering, mathematics or physics. Three periods per week. Co-requisite: Mth 216 or 201.

PHY 206L, 207L, 208L. **General Physics Laboratory**

These courses are required concurrently with the lecture courses Phy 206, 207, 208. One two-hour period per week.

PHY 209. **Modern Physics**

Basic elements of modern physics. Serves as an introduction to advanced atomic topics or as a terminal course for science, engineering, or other interested students. Pre-requisites: Phy 206, 207; Corequisite: Phy 208. *Second Term, Each Year*

PHY 301. **Thermodynamics**

The general laws of the thermodynamics; entropy, isothermal and adiabatic processes, the cycles; flow of fluids. Three class periods per week. Prerequisites: Mth 218; Phy 208. *First Term, Each Year*
PHY 303. Intermediate Mechanics I
The fundamental concepts of mechanics. The topics covered include virtual work, kinematics, and particle dynamics. Three class periods per week. Prerequisites: Phy 206, 207, 208, Mth 218. 
First Term, Each Year

PHY 304. Intermediate Mechanics II
A continuation of Phy 303. Topics include dynamics of systems of particles, rigid bodies, central forces, accelerating systems, and the mechanics of continua. Three class periods per week. Prerequisite: Phy 303. 
Second Term, Each Year

PHY 311. Atomic Physics
The electron, photoelectric and thermionic emission of electrons, atomic and molecular structure and spectra, X-rays, introduction to wave mechanics. Three class periods per week. Prerequisite: Phy 209 or consent of instructor. 
First Term, Each Year

PHY 314. Electronics for Scientists
Terminal behavior of vacuum tube and semi-conductor devices; application to basic rectifier, amplifier, oscillator and control circuits. Prerequisites: Phy 208, Mth 301 or 341; Corequisite: Phy 314L. 

PHY 314L. Electronics for Scientists Laboratory
Laboratory construction and testing of the basic vacuum tube and solid-state electronic circuits. 

PHY 321. Nuclear Physics
Radioactivity, particle accelerators, the interaction of nuclear radiation with matter, particle detection, fission, and cosmic rays. Three class periods a week. Prerequisites: Phy 311 or consent of instructor. 
Second Term, Each Year

PHY 351. Introduction to Astronomy
History of astronomy, apparent motions of celestial bodies, planetary systems, spectral classifications, multiple systems, variable stars, structure of the Universe. Prerequisites: Mth 202 or Mth 218, Phy 208. 
First Term, 1964-1965

PHY 361. Principles of Reactor Physics
Chain reactors. Slowing down theory, diffusion equations, space distribution, criticality, group theories. Laboratory experiments accompany the lecture. Prerequisites: Phy 208, Mth 201 or consent of instructor. 
Offered as needed

PHY 402. Wave Theory
Theory of wave motion, applications to mechanical, thermal, acoustical, electrical, optical systems, foundations of wave mechanics. Three class periods per week. Prerequisites: Mth 301, Phy 206, 207, 208. 
Offered as needed

PHY 404. Physical Optics
This course discusses the wave theory of light, interference, diffraction, dispersion, polarization, velocity of light and electromagnetic theory of light. Three class periods per week. Prerequisites: Mth 218, Phy 206, 207, 208. 
First Term, Each Year
Phy 408. Advanced Electricity and Magnetism I three credit hours
Electrostatics, Coulomb's and Gauss' laws and the Laplace and Poisson equations, dielectrics, electrostatic energy methods, scalar and vector potential. Three class periods per week. Prerequisites: Phy 206, 207, 208.
First Term, Each Year

Phy 409. Advanced Electricity and Magnetism II three credit hours
Second Term, Each Year

Phy 411. Theoretical Physics three credit hours
Laplace's equation, coordinate systems, vectors, Lagrange's equations. Hamilton's equation, heat flow, Schrodinger's equation and the hydrogen atom. Three class periods per week. Prerequisites: Phy 206, 207, 208, 303, Mth 301.
Second Term, 1964-1965

Phy 414. Advanced Electronics for Scientists three credit hours
Continuation of Phy 314. High frequency techniques, modulation and detection, pulse generators, special circuits; application to counters, computer circuits, and experimental instrumentation and control problems. Prerequisites: Phy 314; Corequisite: Phy 414L.

Phy 414L. Advanced Electronics for Scientists one credit hour
Individual student projects in the electronic instrumentation of problems in the physical, biological, and computer sciences. Corequisite: Phy 414.

Phy 420. Introduction to Solid State three credit hours
Classification of solids, definition of crystals and crystal structures, survey of lattice properties. Free electron theory, band theory of solids, semi-conductors and crystal imperfections. Prerequisite: Phy 209.
First Term, 1964-1965

Phy 431. Advanced Laboratory I two credit hours
A laboratory course in which the student performs advanced experiments in optics, mechanics, electricity and magnetism, and modern physics. One four-hour period per week. Corequisite: an advanced course in physics.
First Term, Each Year

Phy 432. Advanced Laboratory II two credit hours
A continuation of Phy 431 but may be taken without having had Phy 431. One four-hour period per week. Corequisite: an advanced course in physics.
Second Term, Each Year

Phy 433. Advanced Laboratory III two credit hours
A continuation of Phy 431, 432, but may be taken without having had either. One four-hour period per week. Corequisite: an advanced course in physics.

Phy 440. X-Rays three credit hours
Second Term, 1964-1965
PHY 450. **Advanced Astronomy**

Orbits, celestial mechanics, spectroscopic theory and analysis, ionization theory, radiation transfer, nuclear reactions, atmospheres, star models. Three class periods per week.

Prerequisites: Mth 301, Phy 301, 303, 311, 351.

**Second Term, 1964-1965**

PHY 460. **Seminar**

Weekly meetings of students and members of the staff for the presentation of papers by students and lectures by invited physicists. One class period per week for Junior and Senior years.

PHY 499. **Special Problems**

Laboratory or library work in various topics of physics. Given with the permission of the chairman of the department.

PHY 505. **Modern Physics for Engineers**

Topics include special relativity, atomic and molecular structure and spectra introduction to the solid state, the atomic nucleus and radioactivity, elements of plasma physics.

**Offered as needed**

**Political Science (Pol)**

Bro. Albert H. Rose, S.M., **Chairman**

Professor: Rose
Associate Professor: Liebler
Instructors: Brockman, Patyk
Part-time Instructors: Pivarnik, Wilson

Required courses for a major in Political Science are: Pol 201, 302, 314, 412, 417, 421. Political Science 201 is a prerequisite and may not be applied toward a major or minor. Twenty-seven credit hours are required for a major in Political Science, distributed through the following areas: Local Government (Pol 302); National Government (Pol 201, Pol 412); International Relations (Pol 314); Political Philosophy (Pol 417); Seminar (Pol 421). Electives in Pol 300-400 courses must total at least nine credit hours. A minor in Political Science requires prerequisite Pol 201, plus twelve credit hours from Pol 300-400 courses.

**Pol 201. American Government—National**

A functional study of the origin, organization, and operations of the national government with a rapid survey of the American system of state and local governments.

**Pol 301. Introduction to Law**

Brings the student into personal relationship with the profession of Law. Guest lecturers from the Bar Association, the Courts, and Schools of Law. Visits to the Courts.

**Second Term, Each Year**
Pol 302. Ohio Government—State and Local
Three credit hours
An examination of the state, and local governments of Ohio with special reference to
Montgomery County and the City of Dayton.

Pol 304. Comparative Government
Three credit hours
A comparison of the governments of the United Kingdom, France, Germany, USSR,
and others. Operation of legislative, administrative and judicial institutions.

Second Term, Each Year

Pol 306. International Law
An analysis of the development of international law, its theory and application to the
various phases of international relations.

First Term, Each Year

Pol 310. Political Parties
Three credit hours
A descriptive analysis of the nature and interaction of parties, pressure groups, and the
functioning of public opinion on the national and state level.

First Term, 1964-1965

Pol 312. National Legislative Process
Three credit hours
A detailed treatment of the organization, powers, functions, procedures of, and in-
fluences on Congress in federal legislation.

Second Term, Each Year

Pol 314. International Relations
Three credit hours
An exposition of the dynamic forces influencing nations in their conduct of world affairs.

Pol 316. International Organizations
Three credit hours
A study of origins and evolution of organized international collaboration with an em-
phasis on the United Nations.

Second Term, Each Year

Pol 331. Basic English and American Documents
Three credit hours
An analysis and appreciation of the great political documents. Prerequisite: Hst 251
and 252.

First Term, 1965-1966

Pol 401. The American Presidency
Three credit hours
An expository approach to the United States Presidency, as the most powerful elective
political office in the world today.

First Term, 1965-1966

Pol 405. World Problems of the United States
Three credit hours
A critical examination of the Communist world challenge and response and their
geographic patterns.

Pol 406. Geography in International Relations
Three credit hours
This program proposes to include the geopolitical aspects of land, sea, outer space,
communications, transportation, military strategy and the contributions of geography
to international problems.

Pol 408. American Foreign Policy
Three credit hours
An analytic study of policies and methods followed by the State Department in its
relations with other countries, in its conducting of United States relations.

First Term, Each Year
POL 410. **Public Administration**
A study of the operations of local and national departments and bureaus of the Public Administrative service.

**First Term, Each Year**

POL 412. **Constitutional Law**
An exposition of the fundamental principles inherent in the Constitution, Common Law, delegated powers of government, and other areas, with application to contemporary situations.

**Second Term, Each Year**

POL 414. **Philosophy of Law**
Nature of law; natural and positive law; implications and juridical origin and effect of law; justice; genetic origin of law. Prerequisite: Phil 402.

**Second Term, Each Year**

POL 415. **Pan American Relations**
An examination of the social, cultural, and political relations among the American states with special consideration of recent developments.

**Second Term, Each Year**

POL 417. **History of Political Philosophy**
Principal political opinions of the Western philosophers drawn from original sources. Political doctrines of Plato and Aristotle, leading Roman and Medieval thinkers, and modern political philosophies. Accredited in Philosophy.

**First Term, Each Year**

POL 421. **Government Seminar**
Research and conferences in (a) International Affairs or (b) National Government Areas. Prerequisite: Permission of Chairman.

POL 422. **Readings and Problems in National Government**
This is essentially a course to supplement the other courses in the national field. Prerequisite: Pol 201.

**First Term, 1964-1965**

POL 435. **Legal Research**
Open to Pre-Law students only. A direct preparation for admission to law school. Students are assigned to local law offices and to judicial chambers to learn procedures and to do research. Prerequisite: Permission of chairman.

**Three Credit Hours**
Psychology (Psy)

Professors: Debons, Scheidler
Associate Professors: Noland, Rancurello
Assistant Professor: Hunt
Instructor: Palumbo
Part-time Instructors: Christensen, Davis, Gallico, Riley, Working

Psychology majors must complete 29 semester hours, including the required courses as follows: Psy 204 or 201, Psy 302, 305, 308, 309, and 484. In addition, the student must elect, in consultation with his advisor, a minimum of nine additional credits in Psychology. Majors will be assigned to individual advisors; they should contact the department chairman for assignment as soon as possible.

PSY 201. INTRODUCTORY PSYCHOLOGY
Studies man as an integrated personality including development, motivation, emotion, adjustment, learning, perception, thinking, and the general application of psychological principles to personal, social, and industrial problems.

PSY 204. GENERAL PSYCHOLOGY
Covers major fields in psychology. Emphasizes sensation, sense organs, learning, etc. Recommended for P.P. majors, engineers, pre-med, nurses.

PSY 205. APPLIED PSYCHOLOGY
Emphasizes practical applications of psychology in mental hygiene, society and industry. Intended primarily for students working toward associate degrees in technology or business. It is not equivalent to Psy 201 or 204.

PSY 302. ELEMENTARY STATISTICS
Measures of central tendency, deviation, correlation, other basic statistical concepts. Presumes usual high school training in mathematics. Required of all students majoring in psychology. Prerequisite: Psy 204 or 201.

PSY 304. ADOLESCENT PSYCHOLOGY
Treats interrelated physical, social, emotional development of adolescents. Child Psychology is recommended as a prerequisite though not required.

PSY 305. MENTAL HYGIENE
Explains the adjustment process through the study of basic needs, emotional maladjustment, psychological mechanisms and psychoneurotic responses. Establishes normal and neurotic criteria of mental health.

PSY 306. CHILD PSYCHOLOGY
A longitudinal study of childhood development explaining genetic sequences in life of child, e.g. prenatal growth trends, motor development, sociability, language, intelligence, and imaginative life.
Deals with an understanding, psychologically, of those children who are handicapped either physically, mentally, socially or emotionally. Prerequisite: Psy 306.

_Psy 308-309. Experimental Psychology I-II_

Deals with the study of scientific methodology generally, and with the methods of experimentation in particular. Prerequisites: Psy 302.

_Psy 308L-309L. Experimental Psychology I-II Lab._

Course to accompany Psy 308-309. One two-hour laboratory period each week.

_Psy 312. Abnormal Psychology_

Treats mental aberrations whether functional or organic. Describes syndromes, etiology and treatment. Prerequisite: Psy 305 and 201 or 204.

_Psy 315. Personality_

Critical evaluation of theories of personality. Emphasis is on both clinical and experimental findings. Prerequisite: Psy 305 and 201 or 204.

_Psy 400. Learning_

Covers the empirical foundations of the learning process. Simple classical, instrumental, and variants of both types of conditioning are considered prior to investigations of more complex learning. Prerequisites: Psy 302 and 308.

_Psy 401. Advanced Statistics_

A seminar-type course presenting some concepts of advanced psychological statistics, including analysis of variance, multiple correlations, partial correlation, factor analysis, regression and prediction. Prerequisite: Psy 302.

_Psy 402. Psychological Tests and Measurements_

Historical background of testing and the ethics involved. Concentrates on the requirements of acceptable tests in general. Reviews principal tests of intelligence, personality, aptitude, etc. Prerequisite Psy 302, 204 or 201.

_Psy 408. Social Psychology_

Presents systematic treatment of social forces affecting human behavior. Emphasizes methods of social psychology. Prerequisite: Psy 204 or 201.

_Psy 409. History of Psychology_

Considers modern psychology from the vantage point of its origins in philosophy and science. Emphasizes an evaluation of systems and schools in the history of psychology. For seniors only.

_Psy 412. Interviewing and Counseling Procedure_

Theories and techniques of interviewing and counseling are discussed and evaluated. Practice provided by role playing and by case study. Permission of the instructor or chairman is required. For seniors only.
Psy 420. **Industrial Psychology**

Introduces modern efforts to improve human performance in industrial organization and society. Studies selection and placement of employees, morale training, incentive, etc. Prerequisite: Psy 302, 204 or 201.

*First Term, Each Year*

Psy 454. **Physiological Psychology**

Study of neurological structure and function emphasizing role of nervous and glandular systems in the study of behavior. Prerequisite: Bio 207.

*Second Term, Each Year*

Psy 484. **Advanced General Psychology**

Designed as a final synthesizing course covering entire field of psychology wherein student may organize the facts and principles of relatively disparate area. Updating of textbook material through journals. For seniors only.

*First Term, Each Year*

Psy 490. **Special Problems in Psychology**

Research problems of special interest to the student are investigated under direction of psychology staff members. Permission of department chairman is required. May be taken more than one time.

Psy 491-492. **Readings in Psychology**

Directed readings in some specific phase of Psychology are done under the supervision of a staff member. A written or oral report will be required. Permission of instructor or department chairman is required.

Secretarial Studies (Sec)

*Associate Professors:* Civille, Miller

*Instructor:* Hewitt

During registration week, the department of Secretarial Studies offers tests in both shorthand and typewriting to assist in proper placement of students desiring to continue work in either or both fields. These tests are required of all students who have had prior work in shorthand or typewriting and expect to continue in these fields, whether for teaching purposes, professional reasons, or personal use.

Sec 101. **Elementary Shorthand**

Gregg Shorthand is the system employed in this course. Using the simplified functional method, the entire theory is covered during the first semester. Transcription is introduced. Five class periods a week.

*Three Credit Hours*

Sec 102. **Intermediate Shorthand**

Gregg theory is reviewed. Reading practice continues but transcription is emphasized. Five class periods a week.

*Three Credit Hours*
Sec 103. Elementary Typewriting
The keyboard is memorized. Drill is given in the function and care of the machine. The ability to produce straight copy work is the aim of this course. Five class periods a week. For use of typewriter, $5.00 per semester.

Sec 104. Intermediate Typewriting
The aim is to develop further skill in the use of the typewriter and to provide experience in letter arrangement and simple tabulations. Five class periods a week. For use of typewriter, $5.00 per term.

Sec 105. Secretarial Accounting
A short course in accounting especially designed for private secretaries; covers the fundamental principles of accounting as applied to mercantile and personal service enterprises operated by sole proprietors. Three class periods a week.

Sec 106. Secretarial Accounting
This course develops further the accrual basis of accounting for mercantile enterprises, with emphasis on partnership transactions, but with an introduction to corporation accounting. Three class periods a week.

Sec 107. Personal Typewriting
Students are taught typing for personal use—this includes knowledge of the typewriter, preparing outlines, manuscript writing, business letters, fill-in forms, rough drafts, etc. Three class periods a week. For use of typewriter, $3 per term.

Sec 110. Secretarial Mathematics
Review and practice of essential mathematical computations common to business offices; development of proficiency in these functions.

Sec 201. Dictation and Transcription
Gregg principles are reviewed. Rapid reading is emphasized. Sustained writing periods are increased. Practical office dictation speeds are employed. Five class periods a week.

Sec 202. Advanced Dictation and Transcription
Phraseology of a technical nature is taken up. Industrial and civil service testing programs are studied. Rapid dictation and transcription. Five class periods a week.

Sec 203. Advanced Typewriting
Advanced practice in various office skills. Survey of all letter forms, tabulation, manuscripts, and rough drafts. Five class periods a week. For use of typewriter, $5.00 per semester.

Sec 204. Production Typewriting
Designed to develop practice in business forms, more complicated tabulations, legal typing, etc., with emphasis upon office production standards; speed work. Five class periods a week. For use of typewriter, $5.00 per term.

Sec 205. Secretarial Practice
A study of the duplicating processes, including ditto and mimeograph. Practice in the use of dictaphone, ediphone, and telefunken machines. Four class periods a week. Prerequisite: Intermediate Typewriting.
SEC 206. **Advanced Secretarial Practice**

Three credit hours
Advanced training in duplication processes, dictating machines, filing techniques, and communications. Four class periods a week.

SEC 207. **Business Machines**

Three credit hours
The student is given the opportunity to become acquainted with and to use correctly the principal types of adding machines, calculators, accounting machines, and key punch. Three class periods a week.

**Sociology (Soc)**

Dr. Edward A. Huth, *Chairman*

*Professor:* E. Huth  
*Associate Professor:* M. Huth  
*Assistant Professor:* Weir  
*Part-time Instructors:* Hair, Lenarduzzi, Wood

**Major or Minor in Sociology**

Majors and Minors in Sociology should consult the Chairman of the Department in planning their course programs. They must complete, during their Freshman and Sophomore years, the general requirements for the B.A. degree. Sociology 201 and 202 are prerequisites for advanced courses in sociology. Electives are selected from the 300 and 400 courses. Majors must complete 30 semester hours, including: Soc 201, 202, 401, 403, and 414. Minors are required to complete 15 hours in sociology, including: Soc 201 and Soc 202.

**Major in Social Work**

The Department of Sociology is a Constituent Member of the Council on Social Work Education, an international accrediting agency for schools of social work in the United States and Canada. The Epsilon Chapter of Phi Alpha National Social Work Honorary Society is under the jurisdiction of the Department of Sociology.

Majors in Social Work should consult the Chairman of the Department of Sociology in planning their course programs. They must complete, during their Freshman and Sophomore years, the general requirements for the B.A. degree. Sociology 201 and 202 are prerequisites for advanced courses in sociology and social work. Electives are selected from the 300 and 400 courses. Majors must complete 30 semester hours, including: Soc 201, 202, 305, 319, 401, and 418.

**Soc 201. General Sociology**

Three credit hours
The basic course in the principles of sociology; an introduction to the fundamental concepts of sociology. A prerequisite for specialized courses in sociology.

**Soc 202. Social Problems**

Three credit hours
A study of the causes, extent, treatment, mitigation, and prevention of abnormal conditions affecting society. Required for advanced courses in sociology.
Soc 301. Marriage and the Family
The Christian concept of marriage and the family. Mate selection, family finances, husband-wife relationships, parenthood, role of children, family disorganization and improvement.

Soc 303. Population
A study of the growth, distribution, composition, and perspectives of population with special reference to the United States.

Soc 305. Introduction to Social Work
Comprehensive survey of social work including social casework, social group work, community organization, social research, social action and social administration. Required of Majors in Social Work.

Soc 307. Criminology and Penology
Problems of crimes and criminals; etiology, extent, treatment and prevention of crimes; theories and practices of punishment; prisons and prison reform; probation and parole; objectives of penology.

Soc 308. Anthropology
An introduction to cultural and physical anthropology; the social, economic, political, religious, and artistic life of primitive people in relation to contemporary civilization; culture processes; law and ethics.

Soc 313. Juvenile Delinquency
Analyses of causes, extent, treatment, and prevention of juvenile delinquency. The relation of the home, school, church, state, and police to delinquency. Child guidance clinics; detention homes; disposition of cases.

Soc 315. Industrial Sociology
Analyses of problems concerning industrial relations. Characteristics of industrial society; occupational roles and relationships; technological progress and its repercussions.

Soc 319. Social Welfare
History, philosophy, policies, programs, and administration of social welfare services under public and private auspices. Social, economic and political problems involved. Required of Majors in Social Work.

Soc 401. Social Research and Social Statistics
The problems and methods of research and statistics in sociology and in social work. Methods of observation, collection, recording, classifying social data. Required of Majors in Sociology and in Social Work.

Soc 403. History of Social Thought
Theoretical sociology, the historical unfolding of man's attempts to theorize about his social, political, and economic life. Examination of social theory in terms of its logical and empirical validity. Required of Majors in Sociology.
Soc 409. Social Control
Means of social control in primitive and advanced societies. Modification of individual and group behavior by such methods as: praise, ridicule, rewards, punishment, slogans, and propaganda.

Third Term, Each Year

Soc 412. School and Society
Discussion of topics as: teachers, groups in the school, ecology and educational processes, deviant behavior in schools, education for social responsibility.

Second & Third Term, Each Year

Soc 414. Seminar in Sociology
Individual and group projects developed around such areas as: Marriage and Family Problems, Juvenile Delinquency, Rural Problems, Urban Renewal, and Deviant Behavior. Required of Majors in Sociology.

Second Term, Each Year

Soc 418. Community Organization
The adjustment of community resources to meet community needs; methods for developing, maintaining, extending, and coordinating social welfare agencies. Required of Majors in Social Work.

Third Term, Each Year

Soc 433. Urban-Rural Sociology
Physical and social characteristics of urban-rural areas; urban and rural ecology; major problems of urban and rural life; slums and blighted areas; urban planning and urban renewal.

First & Third Term, Each Year

Theological Studies (Thl)
Rev. Matthew F. Kohmescher, S.M., Chairman

Professors: Leimkuhler, Stanley
Associate Professors: Hoelle, Monheim, Kohmescher, Wagner
Assistant Professors: Burns, Kelley, Neubauer, Weber
Instructors: Bradley, Brady

The Department of Theological Studies, while not neglecting the scientific requirements of the intellectual discipline known as theology, purposes to meet actual needs of Christian students preparing for life in the 20th century. Hence, the Department strives in its curriculum of courses to offer the student that “broad knowledge” and to foster those “basic intellectual habits” in Theology which are relative to, and fundamental for, a Christian intellectual life.

The required courses for all Catholic students taking 4 year programs are: Thl 106, 206, 306, 406. These courses are to be taken in the order listed, unless there is a special permission of the chairman of the Department to the contrary.

Thl 106. Dogmatic Theology
The nature of theology; the true religion; the Church of Christ; the sources of revelation; the existence and nature of God: the blessed Trinity; creation; angels; the governance of the world.

</tbody>
</table>
THL 366. The Christian Concept of Marriage  three credit hours
Detailed study of the encyclical by Pius XI "On Christian Marriage." Marriage as a
divine institution; its blessings and benefits; vices opposed; remedies; preparation for
marriage.  
First Term, Each Year

THL 368. Pius XII: Mystical Body of Christ  three credit hours
Detailed study of the encyclical by Pius XII on "The Mystical Body of Christ." The
Church as the foundation of society; scope and norm of society; basis of authority;
impact on secularist mind.  
First Term, Each Year

THL 386. Theology of the Lay Apostolate  three credit hours
Covers the meaning, structure, spirituality and apostolate of the lay Catholic living in
the world; survey of Catholic social principles and the relation of Religion and Science,
Politics, History and Industry.  
Second Term, Each Year

THL 390. Mission of the Society of Mary  three credit hours
Family of Mary as conceived by Father Chaminade, her role in mission of the Church.
Filial Piety, dogmatic background and apostolic implications, apostolic method of the
Society, consecration to Mary. Offered at Marianist College.  
First Term, Each Year

THL 406. Christology and the Sacraments  three credit hours
A study of Christ (Incarnation and Redemption); the Sacraments (in general and in
particular); the judgment.  
First Term, Each Year

THL 407. Christology  three credit hours
An intensive study of Christ (Incarnation and Redemption). Offered only at Marianist
College and Regina Heights.  
First Term, Each Year

THL 408. The Sacraments  three credit hours
The Sacraments (in general and in particular); the judgment, heaven, hell. Offered
only at Marianist College and Regina Heights.  
Second Term, Each Year

THL 444. Survey of Mariology II  three credit hours
Mary's privileges; freedom from inherited sin (Immaculate Conception); freedom
from personal sin; fullness of grace; perpetual virginity in its various aspects; Our
Lady's knowledge; Assumption and question of death of Mary. Mary and the Church.  
Second Term, Each Year

THL 450. New Testament Problems  three credit hours
Detailed study of the Books of the New Testament with special emphasis on the
Gospels and on the Epistles of St. Paul; treatment of the critical problems involved.
Prerequisite: Thl 250.  
Second Term, Each Year

THL 462. Mystical Theology  three credit hours
An analysis of the three ways of perfection with the latter part of the course devoted
to the gifts of the Holy Spirit. Offered at Regina Heights.  
Second Term, Each Year

THL 467. Theology of Liturgy  three credit hours
Nature and sources of the liturgy; rites; worship life of the church (sacrifice and
sacraments); prayer life of the church; development of the liturgy.  
Second Term, Each Year
THL 471. Christianity and Social Progress
A study of the socio-economic changes since 1891 in the light of Christian social principles and the application of those principles to the Christian social order on the international level.

THL 473. Social Justice and Communism
A refutation of the error of the dialectic and historical materialism of atheistic Communism with emphasis on the Christian remedial programs of spirituality and action.

THL 480. Modern Catholic Thought
Reading and discussion of representative modern Catholic writers in the field of theology. Required of all majors. Seniors only. Permission of department chairman required.

THL 490. Techniques of the Marianist Sodality
The Sodality, apostolic instrument of the Society of Mary; relation of the school to the Sodality; structure of the Sodality; formation of sodalists; apostolate of the Sodality; methods and techniques. Offered at Marianist College.
Technical Institute

*Acting Director:* James L. McGraw

**CHEMICAL TECHNOLOGY (Cti)**

*Assistant Professor:* Loughran

*Part-time Instructors:* Montello, Recher

**Cti 101. Inorganic Chemistry**
Three credit hours
A comprehensive treatment of the fundamentals of general chemistry, with emphasis on their application to the essential groups of elements in the periodic table. Laboratory work is devoted to semi-micro qualitative analysis. Prerequisite: Sti 121 or 122.

**Cti 101L. Inorganic Chemistry Laboratory**
One credit hour
To accompany Cti 101. Three hours of laboratory a week.

**Cti 202. Quantitative Analysis**
Three credit hours
The fundamental principles and techniques involved in exact analysis. Gravimetric, volumetric, and colorimetric analyses are stressed along with the techniques that accompany these operations such as weighings and separations. Prerequisite: Cti 101.

**Cti 202L. Quantitative Analysis Laboratory**
Two credit hours
To accompany Cti 202. Six hours of laboratory a week.

**Cti 203. Physical Chemistry**
Three credit hours
A short course for chemical technicians. Application of the properties of matter in its different states. Covers chemical equilibrium; thermochemistry; electrochemistry; reaction kinetics; phase rule. Prerequisites: Cti 202, Sti 104 or Sti 106.

**Cti 203L. Physical Chemistry Laboratory**
One credit hour
To accompany Cti 203. Three hours of laboratory a week.

**Cti 204. Organic Chemistry**
Three credit hours
A systematic study of the organic compounds containing carbon with special emphasis on the aliphatic and aromatic classes. Special emphasis will be placed on the role of organic chemistry in industry. Prerequisite: Cti 101.

**Cti 204L. Organic Chemistry Laboratory**
One credit hour
To accompany Cti 204. Three hours of laboratory a week.

**Cti 206. Instrumentation**
Three credit hours
Study of various specialized instruments used in industry for analysis. Prerequisite: Cti 202.

**Cti 207. Applied Chemistry**
Two credit hours
Practical applications of chemistry in various industries. Emphasis will be placed on plastics, powdered metallurgy, paper and other units as required. Prerequisite: Cti 206.
Cti 207L. Applied Chemistry Laboratory  
Practical applications of chemistry in various industries. Emphasis will be placed on plastics, powdered metallurgy, paper and other units as required. Three hours practice a week.

Cti 208. Organic Chemistry I  
A systematic study of the aliphatic classes of organic compounds. Prerequisite: Cti 101.

Cti 208L. Organic Chemistry I Laboratory  
To accompany Cti 208. Three hours of laboratory a week.

Cti 209. Organic Chemistry II  
A systematic study of the aromatic classes of organic compounds. Prerequisite: Cti 208.

Cti 209L. Organic Chemistry II Laboratory  
To accompany Cti 209. Three hours of laboratory a week.

ELECTRONIC ENGINEERING TECHNOLOGY (Eti)  
Richard R. Hazen, Chairman  
Assistant Professors: Hanneman, Hazen, Peterson  
Part-time Instructors: Burns, Clark, Feist, Frank, Mueller, Shumaker

Eti 101L. Electrical Circuits Laboratory  
Fundamental D.C. and A.C. circuit experiments. Three hours of laboratory a week. To accompany Eti 103.

Eti 102. Elements of Electrical Technology I  
Practical concepts of D.C. Circuits; resistance, resistivity, power and magnetism. Circuit calculations using basic formulas. Corequisite: Sti 103 or Sti 105.

Eti 103. Elements of Electrical Technology II  
Practical concepts of A.C. Circuits; inductance, capacitance, reactance, impedance, phase, power and power factor. Circuit calculations utilizing vectors and complex quantities. Prerequisite: Eti 102. Corequisite: Sti 104 or Sti 106.

Eti 107. Electrical Code  
A study of the National Electrical Code to provide safe practices in the installations of electrical equipment in buildings.

Eti 201. Fundamentals of Electronic Technology  

Eti 202. Electronics  
Principles of operation of the more common types of vacuum and gas tubes, thytratrons, photoelectric cells and simple circuits used with them. Prerequisite: Eti 103; Co-requisite: Sti 205.

Eti 202L. Electronics Laboratory  
To accompany Eti 202. Three hours of laboratory a week.

Eti 223. Semi-Conductor Fundamentals

Eti 223L. Semi-Conductor Fundamentals Laboratory
To accompany Eti 223. Three hours of laboratory a week.

Eti 224. Digital Computer Fundamentals
Fundamental theory and techniques of electronic data-processing to include binary arithmetic, switching theory (Boolean algebra) and basic circuitry (gates, adders, registers and memory). Prerequisite: Eti 202.

Eti 224L. Digital Computer Laboratory
To accompany Eti 224. Three hours of laboratory a week.

Eti 226. Introduction to Analog Computers and Servomechanisms
Fundamentals and design of synchros and related error detectors, rate generators, magnetic amplifiers and friction dampers. Prerequisite: Eti 202.

Eti 226L. Analog Computer and Servomechanism Laboratory
To accompany Eti 226. Three hours of laboratory a week.

Eti 227. Pulse Circuits
Selected topics relating to radar, television, and computer circuits including integrators, differentiators, blocking oscillators, multivibrators and time-base generators. Prerequisite: Eti 202.

Eti 229L. Electronic Circuit Diagrams
An introduction to drawing with emphasis upon standards and symbols used on electronic circuit diagrams. Six hours of laboratory a week. Prerequisite: Eti 202.

Eti 230. Special Electrical Projects
Laboratory work and outside reading associated with a phase of electricity selected by the student and approved by Chairman of the Department. Prerequisite: Eti 202.

INDUSTRIAL ENGINEERING TECHNOLOGY (Itt)
James L. McGraw, Chairman
Assistant Professors: McGraw, Puckett
Part-time Instructors: Cocca, Emrick, Hazell, Schuster, See

Itt 101. Industrial Organization and Production
A survey of the operational, financial, marketing and accounting activities of industrial organization. Also included is a detailed survey of the duties of management as related to the production function of planning, control, personnel and human factors.

Itt 104. Industrial Materials and Processes
A study of modern industrial materials with emphasis on their chemical and physical properties, and methods by which they may be processed.
ITI 108. Production Methods and Control
Principles and the techniques used in production; current practices in production planning, routing, scheduling and dispatching; study of production standards, labor efficiency and costs; quantity and quality control. Prerequisites: ITI 101 and ITI 104.

ITI 203. Elements of Supervision
A study of the supervisor's relation to his men and his place in developing an effective production team. Prerequisites: ITI 101 and STI 141.

ITI 204. Motion and Time Study
Fundamentals of work simplification and motion economy using the techniques of motion and time study for the development of effective methods of production. Prerequisites: ITI 101 and STI 103.

ITI 204L. Motion and Time Study Laboratory
To accompany ITI 204. Three hours of laboratory a week.

ITI 205. Labor and Wage Administration
Brief history of labor unionism and labor legislation. Survey of collective bargaining contracts, grievances and arbitration. Wage administration including job evaluation, wage structures, wage incentives and employee evaluation. Prerequisite: ITI 101.

ITI 215. Elements of Cost Control
A survey of the methods of breakdown and cost analysis of labor, material and overhead. All related to modern industrial practices. Prerequisite: ITI 101.

ITI 216. Quantitative Methods in I.E.T.
An introduction to the application of mathematics to decision-making in industry. Prerequisite: STI 106.

ITI 217. Industrial Economic Analysis
An introduction to the economics of tools, equipment and machinery, including an elementary study of compound interest and depreciation. Prerequisite: STI 106.

ITI 218. Statistical Quality Control
An introduction to the techniques of industrial process control using statistical methods. Prerequisite: STI 103 or 105.

ITI 230. Motion and Time Study I
Fundamentals of work simplification and motion economy using the techniques of motion and time study for the development of effective methods of production. Prerequisites: ITI 101 and STI 103 or STI 105.

ITI 230L. Motion and Time Study I Laboratory
To accompany ITI 230. Three hours of laboratory a week.

ITI 231. Motion and Time Study II
A study of the techniques used in work measurement and in setting time standards; including stop watch time study, and work sampling. An introduction to predetermined time systems and to standard data. Prerequisite: ITI 230.
UNIVERSITY OF DAYTON

ITI 231L. MOTION AND TIME STUDY LABORATORY
one credit hour
To accompany ITI 231. Three hours of laboratory a week.

ITI 232. PLANT LAYOUT
two credit hours
A study of the economical arrangement of stocks, machines and layout of aisles for efficient material handling and production. Prerequisites: ITI 108 and Mti 101 or Mti 103L.

ITI 232L. PLANT LAYOUT LABORATORY
one credit hour
To accompany ITI 232. Three hours of laboratory a week.

MECHANICAL ENGINEERING TECHNOLOGY (MTI)

L. Duke Golden, Chairman
Associate Professor: Golden
Assistant Professor: Morgana
Instructors: Kretzler, Wolff
Part-time Instructors: Demarey, Hoffman, Kachel, Thompson, Trissel

MTI 103L. TECHNICAL DRAWING
two credit hours
An introduction to technical drawing with emphasis on orthographic projection and conventional industrial practices in producing technical sketches and completed detail drawings. Six hours of laboratory a week.

MTI 104L. GRAPHICAL COMPUTATIONS
two credit hours
Principles of descriptive geometry. Intersections and developments of planes and solids; layout of objects in space and clearance. Six hours of laboratory per week. Prerequisites: MTI 101 or MTI 103, STI 103 or STI 105.

MTI 105L. MACHINE TOOLS LABORATORY
one credit hour
A study of uses and capabilities of standard machine tools, measuring instruments and testing equipment. Three hours of laboratory a week. Corequisite: ITI 104.

MTI 106L. TESTING AND MEASUREMENTS
one credit hour
The use of measuring instruments and standard mechanical testing equipment. Three hours of laboratory a week. Corequisite: ITI 104, STI 114 or STI 111.

MTI 107L. MACHINE TOOL OPERATION
one credit hour
The use of hand tools and standard production machine tools. Three hours of laboratory a week. Prerequisites: MTI 103L or MTI 101, STI 105; Corequisites: MTI 106L, STI 104.

MTI 203. MACHINE AND TOOL DRAWING
one and one-half credit hours
Preparation of complete working drawings from layouts for interchangeable manufacture, computation of fits, limit dimensions and tolerances. Prerequisites: ITI 104 and MTI 102.

MTI 203L. MACHINE AND TOOL DRAWING LABORATORY
one credit hour
To accompany MTI 203. Three hours of laboratory a week.
Mtt 205. DIE DESIGN
Fundamental principles of the design and construction of piercing, blanking, forming, drawing, progressive and compound dies. One hour of class and five hours of laboratory a week. Prerequisite: Mtt 203. Evening classes only.

Mtt 206. JIG AND FIXTURE DESIGN
Fundamental principles of the design and construction of drill and combination jigs, and milling, reaming and tapping fixtures. One and one-half hours of class and three hours of laboratory a week. Prerequisite: Mtt 203. Evening classes only.

Mtt 206L. JIG AND FIXTURE DESIGN LABORATORY
To accompany Mtt 206. Three hours of laboratory a week. Evening classes only.

Mtt 213. INDUSTRIAL MECHANISMS
Applications and mechanical advantages of gears, cams, pulleys, linkages and levers as used in industrial work simplification devices. For industrial engineering technology. Prerequisite: Sti 114.

Mtt 220. MECHANICS: STATICS & DYNAMICS
Principles of applied engineering mechanics. Two hours of class and four hours practicum per week. Prerequisites: Sti 106 and Sti 114.

Mtt 221. STRENGTH OF MATERIALS
Principles of applied strength of materials primarily with reference to mechanical design. Two hours class, two hours practicum per week. Prerequisites: Mtt 220 or Mtt 224.

Mtt 224. STATICS
Force systems, resultants and equilibrium, centroids of areas and centers of gravity of bodies, trusses, frames, beams, friction and moments of inertia of areas and bodies. One hour of class and three hours practicum a week. Prerequisite: Sti 114.

Mtt 225. DYNAMICS
Principles of applied engineering dynamics. One hour class, three hours practicum per week. Corequisite: Mtt 224.

Mtt 226L. MECHANISM
Motions, displacements, velocities, friction wheels, flexible connectors, cams, linkages and gears. Six hours of laboratory a week. Prerequisite: Mtt 102 or Mtt 104L; Corequisite: Mtt 220 or Mtt 224.

Mtt 227L. INDUSTRIAL AUTOMATION ACTUATION
Application hydraulic, pneumatic and electric actuators in the design of industrial automation for production systems. Six hours laboratory per week. Prerequisites: Mtt 225, Mtt 226L, Mtt 107L, Mtt 231 and Sti 213.

Mtt 230. THERMODYNAMICS
General laws of thermodynamics, properties and processes of gases, vapor and gas-vapor mixtures; cycles; and the flow of fluids, application of thermodynamics to machines such as engines. Corequisites: Sti 206 and Sti 214.
MTI 231. Fluid Mechanics \[\text{TWO CREDIT HOURS}\]
Properties of fluids, buoyant forces, uniform and non-uniform flow, forces developed by fluids in motion and hydraulic machinery. Prerequisite: MTI 230.

MTI 321L. Dies, Jigs and Fixtures \[\text{THREE CREDIT HOURS}\]
Design calculation and sketching, of dies, jigs and fixtures used in industrial production. Six hours of laboratory a week. Prerequisite: MTI 221.

MTI 322L. Machine Design \[\text{TWO CREDIT HOURS}\]
Principles of engineering knowledge and mathematics applied to analysis and design of machine members and mechanical systems. Six hours laboratory per week. Prerequisite: MTI 221.

SERVICE COURSES

Associate Professor: Averdick
Assistant Professors: Fehlmann, Staub
Instructors: Patrick, Strange

Ori 100. Technical Institute Survey \[\text{NO CREDIT HOURS}\]
A general view of the engineering technician and his place on the engineering team. Also includes such subjects as “How to Study,” use of the slide rule and general University orientation. One hour of class a week.

STI 101. Industrial Mathematics I \[\text{THREE CREDIT HOURS}\]
A review of the fundamentals of arithmetic and a study of selected topics from geometry and algebra with application to industrial problems.

STI 104. Advanced Technical Institute Mathematics \[\text{THREE CREDIT HOURS}\]
A brief introduction to selected topics of trigonometry, analytic geometry and calculus as applied to industrial problems. Prerequisite: STI 103.

STI 105. Technical Institute Mathematics \[\text{THREE CREDIT HOURS}\]
Fundamental processes of algebra to include factoring, fractions, exponents and radicals, linear and quadratic equations, determinants, and logarithms. Introduction to trigonometry to include angular measure, interpolation, identities, and graphs.

STI 106. Advanced Technical Institute Mathematics \[\text{THREE CREDIT HOURS}\]
Additional topics in trigonometry to include: solution of right triangles, solution of oblique triangles, and functions of composite angles. Selected topics in analytic geometry and differential calculus. Prerequisite: STI 105.

STI 114. Physics: Mechanics \[\text{TWO CREDIT HOURS}\]
A study of the laws of simple machines, forces, linear and angular motion, conditions of equilibrium and fluids. Corequisite: STI 104 or STI 106.

STI 114L. Physics: Mechanics Laboratory \[\text{ONE-HALF CREDIT HOUR}\]
To accompany STI 114. Two hours of laboratory a week.
COURSES OF INSTRUCTION

**Sti 121. Introduction to Industrial Chemistry**

**ONE AND ONE-HALF CREDIT HOURS**

A survey of the general principles of chemistry including elements and their simpler compounds. Special emphasis on topics of importance in industrial activities. Prerequisite: Sti 103 or Sti 105.

**Sti 121L. Introduction to Industrial Chemistry Laboratory**

**ONE CREDIT HOUR**

To accompany Sti 121. Three hours of laboratory a week.

**Sti 122. Industrial Chemistry**

**THREE CREDIT HOURS**

A survey of the general principles of chemistry including elements and their simpler compounds. Special emphasis on topics of importance in industrial activities. Prerequisite: Sti 103 or Sti 105.

**Sti 122L. Industrial Chemistry Laboratory**

**ONE CREDIT HOUR**

To accompany Sti 122. Three hours of laboratory a week.

**Sti 130. English Composition**

**THREE CREDIT HOURS**

An intensive review of basic principles of grammar, spelling, punctuation and sentence structure, with special emphasis on composition.

**Sti 132. English Composition II**

**ONE AND ONE-HALF CREDIT HOURS**

Continuation of Sti 131. Prerequisite: Sti 131.

**Sti 133. Effective Speaking**

**ONE AND ONE-HALF CREDIT HOURS**

Organization and presentation of spoken materials with special emphasis on voice and physical delivery and audience reaction.

**Sti 134. Effective Speaking**

**TWO CREDIT HOURS**

Organization and presentation of spoken materials with special emphasis on voice and physical delivery and audience reaction.

**Sti 141. Practical Psychology**

**THREE CREDIT HOURS**

Fundamentals of psychology as applied to normal behavior and personal adjustment, with special emphasis on possible uses in industrial application.

**Sti 205. Mathematics for Electrical Technology**

**THREE CREDIT HOURS**

Practical applications of selected topics of calculus and differential equations to Electrical Technology. Prerequisite: Sti 104 or Sti 106.

**Sti 206. Mathematics for Mechanical Engineering Technology**

**THREE CREDIT HOURS**

Practical applications of selected topics in differential and integral calculus to Mechanical Technology. Prerequisite: Sti 104 or Sti 106.

**Sti 213. Physics: Electricity**

**TWO CREDIT HOURS**

The basic principles of electricity and their application in industry. Prerequisite: Sti 111 or Sti 114.
Sti 213L.  Physics: Electricity Laboratory  
To accompany Sti 213. Two hours of laboratory a week.

Sti 214.  Physics: Heat, Light and Sound  
The elementary principles of heat, light and sound with particular emphasis on industrial application. Prerequisite: Sti 111 or Sti 114.

Sti 214L.  Physics: Heat, Light and Sound  
To accompany Sti 214. Two hours of laboratory a week.

Sti 233.  Report Writing  
The preparation and presentation of industrial reports. Prerequisite: Sti 130 or Sti 132.

Sti 234.  Report Writing  
The preparation and presentation of industrial reports. Prerequisite: Sti 130 or Sti 132.

Sti 251.  Economics of Industry  
Basic economic principles as applied to major industrial problems.

Sti 252.  American Political Ideas and Practices  
Fundamentals of democratic processes in government and the practices in which they function.
Directories

GOVERNING AND ADVISORY BODIES

Board of Trustees

Associate Board of Lay Trustees

Administrative Council

Academic Council

Student Welfare Council

Finance and Services Council

Public Relations and Development Council

Research Council

OFFICERS OF ADMINISTRATION

President .................. Very Rev. Raymond A. Roesch, S.M.
Vice-President ............... Rev. George B. Barrett, S.M.
Dean of the University ......... Rev. Thomas A. Stanley, S.M.
Business Manager .............. Bro. Francis J. Perko, S.M.
Assistant to the President .... Bro. Elmer C. Lackner, S.M.
Chairman, Academic Council ...... Rev. Thomas A. Stanley, S.M.
Assistant Dean of the University .. Bro. Austin J. Holian, S.M.
Dean, Graduate School of Arts and Sciences .......... Very Rev. John A. Elbert, S.M.
Dean, College of Arts and Sciences .... Bro. Leonard A. Mann, S.M.
Assistant Dean ................ Bro. George J. Ruppel, S.M.
Pre-Medical Counselor .......... Dr. Carl I. Michaelis
Dean, School of Business Administration ........ William J. Hohen
Dean, School of Education ....... Bro. Louis J. Faerber, S.M.
Associate Dean ................ Bro. Thomas J. Powers, S.M.
Assistant Dean ................ Joseph E. White
Director of Student Teaching ...... Dr. Daniel L. Leary
Dean, School of Engineering .......... Dr. Maurice R. Graney
Assistant to the Dean and Director,
Technical Institute ............. James L. McGraw
Assistant to Director, Technical Institute ....... Albert E. Staub
Director, Special Sessions ...................... John B. Steinbruegge
Assistant Director, Evening and
Summer Programs ......................... Robert E. Donovan
Assistant Director, Continuing Education .... Nora D. Duffy
Registrar .......................... Bro. John J. Drerup, S.M.
Director of Admissions .................. Bro. Joseph J. Mervar, S.M.
Assistant to Director .................. Mary M. Tuite
Assistant Director .................. Charles J. Bensman
Assistant to Director for Student Promotion .... Joseph A. Tache
Director of the University Libraries . Bro. Raymond H. Nartker, S.M.
Director, Marian Library .......... Rev. Philip C. Hoelle, S.M.
Director, Educational Television .... George C. Biersack

STUDENT
Chairman, Student Welfare Council . Rev. George B. Barrett, S.M.
Chaplain .................................. Rev. Paul J. Wagner, S.M.
Dean of Students ........................... Rev. Charles L. Collins, S.M.
Dean of Men ............................... Bro. Stephen I. Sheehy, S.M.
Supervisor, University Hall ......... Bro. Andrew J. Hawke, S.M.
Dean of Women .............................. R. Kathleen Whetro
Assistant to Dean .................. Freda S. Hussong
Assistant to Dean .................. Carmen A. Bauer
Supervisor, Marycrest ............... Mother Mary Ann, F.M.I.
Moderator, Student Council .......... Rev. George B. Barrett, S.M.
Advisor for Foreign Students ....... Rev. Charles L. Collins, S.M.
Counselor for Foreign Students .... Dr. Edward W. Harkenrider
Administrative Director, Psychological
Services Center ........................... Rev. Andrew L. Seebold, S.M.
Director, Psychological Services .... Rev. Charles H. Scheidler
Robert L. Noland
Director, Student and Graduate Placement . Catherine C. Tyler
Director, Testing Services ........ Lloyd A. Rensel
Director, Veterans’ Guidance ......... John E. Riley
Administrative Director, Health Center . Bro. William A. Bruggeman, S.M.
Medical Director .................. Dr. Richard C. Schneble
Supervisor .......................... Catherine E. Kirk
Administrative Director of Athletics .... Rev. Charles L. Collins, S.M.
Athletic Director ........................... Harry C. Baujan

BUSINESS
Chairman, Management Council ...... Bro. Francis J. Perko, S.M.
Assistant to Business Manager .... Bro. William A. Bruggeman, S.M.
Comptroller .......................... Gerald W. VonderBrink
Assistant to Comptroller ............. Robert V. Roterman, Jr.
Treasurer .......................... Bro. William D. Busch, S.M.
Assistant to Treasurer ............... Joseph P. McHale
Purchasing Agent .................. Bro. James H. Kline, S.M.
Supervisor of Clerical Personnel........................Sara E. Keyes
Supervisor of Major Construction...Bro. Joseph H. Mohrhaus, S.M.
Supervisor of Buildings...............................James A. Weikert
Supervisor of Grounds...............................Paul E. Gordon
Security Patrol........................................Captain Elwood Andrews
Supervisor of Utilities and Repairs...........Benjamin F. Shears
Manager, University Bookstore............Bro. George N. Mukits, S.M.
Postmaster...........................................Bro. Arnold A. Klung, S.M.
Manager of Food Services.........................Raymond G. Clemens
Chaminade Cafeteria..............................Bro. Edmund R. Schmidt, S.M.
Flyers Hanger.....................................Eugene A. Fox
Marycrest Cafeteria...............................Donald E. Schockley
University Hall Cafeteria.......................Onolce M. Schock
Manager, Laundry and Dry Cleaning........Kenneth R. Miller
Manager, University Press......................Henry A. DeMarey

Public Relations and Development
Chairman, Public Relations and Development....Bro. Elmer C. Lackner, S.M.
Director of Development........................Elwood E. Zimmer
Assistant to Director..............................Robert J. Wagner
Director of Publicity............................Richard F. Beach
Alumni Secretary.................................Mary M. Shay

Research
Chairman, Research Council.....................Bro. Austin J. Holian, S.M.
Director, Research Institute..................John R. Westerheide
Associate Director.............................Robert R. Luthman
Assistant to Director.............................John C. Bramlage
Assistant to Director.............................James M. Miller
Assistant to Director.............................Gerald E. Busch

Departmental Chairmen
Accounting......................................Joseph F. Updyke
Biology..........................................George B. Noland
Business Management........................Barth J. Snyder
Chemical Engineering........................Dr. Michael A. Bobal
Chemical Technology........................James L. McGraw*
Chemistry........................................Bro. Cletus C. Chudd, S.M.
Civil Engineering and Engineering Mechanics..Seymour J. Ryckman
Communication Arts..............................George C. Biersack
Economics........................................Charles W. Walen, Jr.
Electrical Engineering.........................Bro. Louis H. Rose, S.M.
Electrical Engineering Technology..........Richard R. Hazen
Elementary Education..........................Dr. Simon J. Chavez
English............................................Dr. Bernard J. Bedard
Fine Arts.........................................Edward R. Burroughs
Foundation of Education........................Dr. Joseph J. Panzer, S.M.
Geology...........................................George H. Springer
Health and Physical Education...............James B. LaVanche
History...........................................Dr. Wilfred J. Steiner
Home Economics..................................Elizabeth L. Payne

Belz, S.M., Charles John, Civil Engineering, Professor—B.S. University of Dayton, 1912; B.C.E., University of Dayton, 1928; M.C.E., Catholic University of America, 1934; Reg. Prof. Eng.
Borden, Perry A., Electrical Engineering, Associate Professor—B.Sc., Queen’s University, 1911; Fel. A.I.E.E.; Reg. Prof. Eng.
Geisler, S.M., J. George, Chemistry, Professor—B.S., University of Dayton, 1921; Lic. Sc., University of Fribourg, 1924.
Hagenhoff, Sister Mary Pelagia, M.S.C., Education, Associate Professor—A.B., Villanova University, 1927; M.A., Villanova University, 1935; Ph.D., Catholic University of America, 1946.
Hauenstein, Oskar, Engineering Mechanics, Associate Professor—B.S., Austrian Military Engineering Academy, 1901; M.S., War College and Higher Military Technical Institute, 1908.
Nagel, S.M., George W., Business Administration, Associate Professor—B.S., University of Dayton, 1922; M.A., Western Reserve University, 1941.
Price, S.M., Thomas J., English, Professor—A.B., University of Dayton, 1911; M.A., Catholic University of America, 1935.
Ruhlman, S.M., Francis, Library, Associate Professor—B.A., University of Dayton, 1924; M.A., Our Lady of the Lake, 1936.
Schad, S.M., Bernard T., Civil Engineering, Professor—B.S., University of Dayton, 1924; M.S.E., University of Michigan, 1927; D.Sc., University of Michigan, 1935; Ph.D., University of Fribourg.
Wohlleben, S.M., William J., Chemical Engineering, Professor—B.S., University of Dayton, 1904; M.S., University of Fribourg, 1906; Ph.D., University of Fribourg, 1908.

RANKED FACULTY
Anderson, Allen O. (1962), Military Science, Assistant Professor—B.S., University of Arizona, 1941.
Anderson, Gladys M. (1960), Education, Assistant Professor—B.S., Ball State Teachers College, 1945; M.A., Indiana University, 1946.
Averdick, Joseph E. (1954), Technical Institute, Associate Professor—B.S., University of Dayton, 1924.
Back, Stanley J. (1959), Mathematics, Assistant Professor—B.S., University of Dayton, 1957; M.S., Purdue University, 1959.
Baker, Richard R. (1947), Philosophy, Professor—A.B., University of Notre Dame, 1931; M.A., University of Notre Dame, 1934; Ph.D., University of Notre Dame, 1941.
Bartholomew, S.M., Rev. James W. (1942), Languages, Assistant Professor—A.B., University of Dayton, 1929; M.A., Catholic University of America, 1942.
Baujan, Harry C. (1922), Health and Physical Education, Associate Professor—Ph.B. of C., University of Notre Dame, 1917.

Beauregard, Erving E. (1947), *History*, Associate Professor—A.B., University of Chicago, 1942; M.A., University of Massachusetts, 1944.

Bernhard, Martha V. (1956), *Home Economics*, Assistant Professor—B.S., University of Arizona, 1927; M.A., Columbia Teachers College, 1932.

Bobal, Michael A. (1962), *Chemical Engineering*, Associate Professor—B.S., University of Dayton, 1934; M.S., Ohio State University, 1945; Ph.D., Ohio State University, 1947; Prof. Reg. Eng.

Boll, S.M., Lawrence L. (1919), *English*, Professor—A.B., University of Dayton, 1912; M.A., Catholic University of America, 1925; Ph.D., Catholic University of America, 1929.

Bueche, Frederick J. (1961), *Physics*, Professor—B.S., University of Michigan, 1944; Ph.D. Cornell University, 1948.

Burroughs, Edward R. (1938), *Fine Arts*, Associate Professor—Graduate, Maryland Institute of Fine and Applied Art, 1926.

Campanelle, Thomas C. (1962), Education, Professor—A.B., St. Bonaventure University, 1933; M.A., St. Bonaventure University, 1936; Ph.D., Fordham University, 1952.

Carberry, James A. (1963), Military Science, Assistant Professor—B.S., A. & M. College of Texas, 1959.

Chamberlain, Jr., Joseph J. (1937), Civil Engineering, Professor—C.E., Cornell University, 1911; M.C.E., Harvard University, 1912; Reg. Prof. Eng.

Chudd, S.M., Cletus C. (1947), Chemistry, Professor—B.S., University of Dayton, 1935; M.S., Western Reserve University, 1948; Ph.D., Western Reserve University, 1952.

Civil, Mary C. (1947), Secretarial Studies, Associate Professor—B.S., Ohio University, 1934; M.Ed., University of Cincinnati, 1952.

Clark, Jr., Willard C. (1963), Accounting, Assistant Professor—B.S., University of Dayton, 1959; MBA, Miami University, 1960.

Collins, S.M., Rev. Charles L. (1941), Psychology, Professor—A.B., University of Dayton, 1925; Ph.D., Fordham University, 1941.

Comer, Orville L. (1950), Business Management, Associate Professor—B.S., Washington University, 1948; M.S., Washington University, 1949.

Cornelisse, Lois G. (1962), Librarian, Instructor—A.B., in L.S., University of Michigan, 1930.

Coryell, Horace N. (1954), Geology, Professor—A.B., Indiana University, 1914; M.A., Indiana University, 1915; Ph.D., University of Chicago, 1919.

Crivello, Mariano P. (1956), Physics, Assistant Professor—Laurea, University of Palermo, 1945.

Darby, Lillian L. (1962), Languages, Instructor—M.Ph., University of Latvia, 1944.

Deibel, S.M., Francis A. (1954), *Circulation and Departmental Librarian*, Assistant Professor—A.B., University of Dayton, 1929; B.S., in L.S., Western Reserve University, 1943.

Dieska, Joseph (1960), *Philosophy*, Associate Professor—B.A., State Gymnasium, 1931; M.A., Slovak University, 1939; Ph.D., Slovak University, 1940.

Donatelli, Rocco M. (1954), *History*, Assistant Professor—B.S., St. John's University, 1949; M.A., Rutgers University, 1952.

Driarup, S.M., John J. (1960), *Registrar*, Assistant Professor—A.B., University of Dayton, 1935; M.S., Western Reserve University, 1943.

Driscoll, George F. (1958), *Civil Engineering*, Associate Professor—B.S.C.E., University of Notre Dame, 1925; C.E., University of Notre Dame, 1929; Reg. Prof. Eng.

Dwyer, S.M., Thomas A. (1960), *Mathematics*, Assistant Professor—B.S., University of Dayton, 1944; M.S., Case Institute of Technology, 1951; Ph.D., Case Institute of Technology, 1960.

Emling, S.M., John F. (1958), *Education*, Assistant Professor—B.S., University of Dayton, 1940; M.A., Western Reserve University, 1944; Ed.D., Western Reserve University, 1949.

Eveslage, Sylvester L. (1948), *Chemistry*, Associate Professor—B.S., University of Notre Dame, 1944; M.S., University of Notre Dame, 1945; Ph.D., University of Notre Dame, 1953.

Frians, Elizabeth Jane (1963), Philosophy, Assistant Professor—B.S., University of Cincinnati, 1943; M.S., University of Cincinnati, 1952; Ph.D., Saint Mary's College, 1958.

Faso, Peter J. (1946), Biology, Associate Professor—B.S., Villanova College, 1936; M.S., Villanova College, 1941.

Fe cher, Con J. (1932), Economics, Professor (On leave)—A.B., Miami University, 1924; M.A., Catholic University of America, 1925; Ph.D., Catholic University of America, 1927.

Fehlmann, Jr., Alfred B. (1956), Technical Institute, Assistant Professor—B.A., Cedarville College, 1946; M.A., Ohio State University, 1948.

Ferrazza, Henry L. (1950), Health and Physical Education, Assistant Professor—B.S., University of Dayton, 1949; M.A., Western Reserve University, 1950.

Ferrigno, James M. (1963), Languages, Professor—A.B., Boston University, 1932; M.A., Boston University, 1934; Ph.D., Boston University, 1951.

Franklin, Ann (1958), Nursing, Associate Professor—R.N., Buffalo General Hospital School of Nursing, 1940; B.S., Washington University, 1949; M.S., St. Louis University, 1952.

Fus zar a, Lester T. (1961), Business Management, Assistant Professor—B.S., Alfred University, 1948.

Gaier, Raymond H. (1962), Military Science, Assistant Professor—B.S., University of Dayton, 1950.

Gainok, Elmer J. (1962), Military Science, Assistant Professor—B.G.E., University of Omaha, 1960.

Geiger, Arthur H. (1963), Military Science, Assistant Professor—B.S., St. Peter's College, 1956.

George, Norman (1962), Business Management, Assistant Professor—B.A., Ohio State University, 1950; M.B.A., University of Pittsburgh, 1954.

Geyer, James L. (1956), Communications Arts, Assistant Professor—B.S., University of Dayton, 1956; M.A., Miami University, 1962.

Gilvary, Patrick S. (1955), Communications Arts, Assistant Professor—B.S., University of Dayton, 1950; M.A., Xavier University, 1963.

Golden, L. Duke (1956), Mechanical Technology, Associate Professor—B.S.M.E., Texas University, 1926; Reg. Prof. Eng.

Grandy, S.M., Michael B. (1926), Physics, Professor (On leave)—B.S., University of Dayton, 1916; M.S., University of Fribourg, 1924; Ph.D., University of Fribourg, 1926.

Graney, Maurice R. (1956), Engineering, Professor—B.S.I.E., Purdue University, 1935; M.S., Purdue University, 1937; Ph.D., Purdue University, 1942; Reg. Prof. Eng.

Gray, Kathryn H. (1953), Geology, Assistant Professor—A.B., Wooster College, 1947.

Harkenrider, Edward W. (1952), Philosophy, Associate Professor—A.B., Catholic University of America, 1944; M.A., Catholic University of America, 1945; Ph.D., Catholic University of America, 1952.

Henderson, Harvey C. (1963), *Communications Arts*, Instructor—B.S., Fordham University, 1958; M.S., Fordham University, 1959.

Hieber, Raymond G. (1924), *Physics*, Assistant Professor—B.S., University of Dayton, 1922; M.S., Ohio State University, 1924.

Hoelle, S.M., Rev. Philip C. (1953), *Theological Studies*, Associate Professor—A.B., University of Dayton, 1933; S.T.L., Catholic University of America, 1943; M.A., Ohio State University, 1947; Ph.D., Ohio State University, 1953.

Holian, S.M., Austin J. (1944), *Electrical Engineering*, Associate Professor—B.S., University of Dayton, 1931; B.S.E.E., Case Institute of Technology, 1942; M.S.E.E., Case Institute of Technology, 1944.

Horrigan, Mary E. (1940), *Nursing*, Associate Professor—B.S., University of Dayton, 1935; M.A., University of Dayton, 1941.

Horwedel, C. Richard (1962), *Industrial Engineering*, Assistant Professor—B.Ch.E., University of Dayton, 1924; M.S., University of Alabama, 1925; Ph.D., Ohio State University, 1929; Met.E., Ohio State University, 1935.

Hunt, Darwin P. (1962), *Psychology*, Assistant Professor—A.B., Miami University, 1950; Ph.D., Ohio State University, 1960.

Huth, Edward A. (1939), *Sociology*, Professor—A.B., Heidelberg College, 1921; M.A., University of Notre Dame, 1928; Ph.D., Western Reserve University, 1943.

Joly, S.M., Russell A. (1941), *Biology*, Associate Professor—B.S., University of Dayton, 1930; M.S., Institutum Divi Thomae, 1940.

Karl, David J. (1961), *Chemistry*, Assistant Professor—B.S., Providence College, 1956; Ph.D., Michigan State University, 1960.

Kendzierski, Francis R. (1963), *Physics*, Assistant Professor—B.S., University of Detroit, 1953; Ph.D., Cornell University, 1961.

Kreider, Morris J. (1947), *Mathematics*, Associate Professor—B.S., Miami University, 1933; M.A., Miami University, 1941.

Lackner, S.M., Elmer C. (1940), *History*, Associate Professor—A.B., University of Dayton, 1927; M.A., Western Reserve University, 1941.

Laufersweiler, Joseph D. (1963), *Biology*, Assistant Professor—B.S., University of Notre Dame, 1952; M.Sc., Ohio State University, 1954; Ph.D., Ohio State University, 1960.

LaVanche, James B. (1957), *Health and Physical Education*, Assistant Professor (On leave)—B.A., Emory and Henry College, 1948; M.S., West Virginia University, 1952.

Leary, Daniel L. (1937), *Education*, Professor—A.B., Creighton University, 1917; M.A., Peabody College, 1928; Ph.D., Colorado State University, 1934.

Leese, Charles (1960), *Economics*, Associate Professor—A.B., Gettysburg College, 1924; M.A., University of Pennsylvania, 1925; Ph.D., University of Pennsylvania, 1929.

Leimkuhler, S.M., Rev. Edwin M. (1934), *Theological Studies*, Professor—A.B., Catholic University of America, 1927; M.A., Catholic University of America, 1940.

Lucier, S.M., John J. (1945), *Chemistry*, Professor—B.S., University of Dayton, 1937; M.S., Western Reserve University, 1950; Ph.D., Western Reserve University, 1951.

McKenzie, S.M., George J. (1959), *Languages*, Assistant Professor—B.A., University of Dayton, 1933; M.A., Ohio State University, 1948; Ph.D., Western Reserve University, 1961.

Maras, Raymond J. (1959), *History*, Associate Professor—B.A., University of California, 1946; M.A., Catholic University of America, 1948; Ph.D., University of California, 1955.

Martin, Beckham (1961), *Physics*, Associate Professor—A.B., Oakland City College, 1926; A.M., Indiana University, 1933; Ph.D., Purdue University, 1951.

Mathews, S.N.D., Sister Julia Agnes (1960), *Education*, Assistant Professor—Ph.B., Xavier University, 1938; B.S. in Ed., University of Cincinnati, 1941; M.Ed., University of Cincinnati, 1943.

Mervar, S.M., Joseph J. (1951), *Admissions Director*, Associate Professor—B.S., University of Dayton, 1934; M.A., Catholic University of America, 1944.
Univiversity of Dayton

Metz, Donald C. (1951), Technical Institute, Professor (On leave)—B.S.E.E., Purdue University, 1930; M.S.E.E., Purdue University, 1949; Reg. Prof. Eng.

Metzger, Pauline E. (1958), Home Economics, Assistant Professor—A.B., Wittenberg College, 1937; M.A., Ohio State University, 1953.

Miller, Velma M. (1940), Secretarial Studies, Associate Professor—B.C.S., Ohio Northern University, 1930; M.Ed., University of Cincinnati, 1937.

Mitchell, Robert I. (1949), Industrial Engineering, Associate Professor—B.S., University of Cincinnati, 1942; M.S., Ball State Teachers College, 1951; Reg. Prof. Eng.

Monheim, S.M., Rev. Lawrence W. (1937), Theological Studies, Associate Professor—B.A., University of Dayton, 1925; M.A., Catholic University of America, 1941.

Morgan, Adrian J. (1948), Electrical Engineering, Associate Professor—B.S.E.E., Purdue University, 1948; M.S., University of Cincinnati, 1958; Reg. Prof. Eng.

Morgana, S.M., Emil J. (1953), Technical Institute, Assistant Professor—B.S. in M.E., University of Michigan, 1927.

Mullins, Raymond J. (1960), Communications Arts, Assistant Professor—B.S. in Ed., University of Dayton, 1958; M.A., Ohio State University, 1959.

Murphy, Harry C. (1950), Business Management, Associate Professor—B.B.A., University of Minnesota, 1948; B.S., University of Minnesota, 1949; M.A., University of Minnesota, 1951.

Murphy, Lorraine M. (1953), English, Assistant Professor—B.A., Augustana College, 1946; M.A., Miami University, 1962.

Neubauer, S.M. (1947), Theological Studies, Assistant Professor—B.A., University of Dayton, 1935; M.A., Fordham University, 1953.

Nielsen, Harold (1946), Mechanical Engineering, Associate Professor—B.S., U.S. Naval Academy, 1929; Reg. Prof. Eng.

Noland, George B. (1955), Biology, Associate Professor—B.S., University of Detroit, 1950; M.S., University of Detroit, 1952; Ph.D., Michigan State University, 1955.

Noland, Robert L. (1953), Psychology, Associate Professor—Ph.B., University of Detroit, 1952; M.A., University of Detroit, 1954.

Nunn, Dorothy M. (1962), Biology, Assistant Professor—B.S., University of Cincinnati, 1955; Ph.D., University of Cincinnati, 1962.
O’Brien, Daniel H. (1960), Chemistry, Assistant Professor—B.S., University of Virginia, 1954; Ph.D., University of Virginia, 1961.

O’Donnell, Robert B. (1951), English, Associate Professor—A.B., St. Mary’s College, 1927; M.A., Fordham University, 1930.

O’Leary, Edmund B. (1924), Economics, Graduate Professor—B.S., Ohio State University, 1924; M.A., University of Chicago, 1928; Ph.D., Ohio State, 1939.

Panakal, Elsie E. (1963), English, Instructor—B.A., Madras University, India, 1953; M.A., Marquette University, 1959; Ph.D., Loyola University, 1963.

Panzer, S.M., Joseph J. (1938), Education, Professor—B.S., University of Dayton, 1931; M.A., Catholic University, 1938; Ph.D., Fordham University, 1954.

Pappalardo, Joseph A. (1955), Chemistry, Associate Professor—B.A., University of Colorado, 1943; M.S., University of Notre Dame, 1947; Ph.D., University of Notre Dame, 1949.

Patyk, Jozef (1963), Political Science, Instructor—L.L.M., Jagiellonski University, Poland, 1945.

Payne, Elizabeth (1950), Home Economics, Associate Professor—B.S., Mount St. Joseph-on-the-Ohio, 1942; M.S., Ohio State University, 1958.

Payne, Elmer H. (1961), Civil Engineering, Assistant Professor—B.S.C.E., Washington University, 1958; M.S., Washington University, 1961; Reg. Prof. Eng.

Pearson, Susan E. (1963), Marketing, Assistant Professor—B.S., Oregon State University, 1957; M.S., New York University, 1959.

Perz, S.M., John R. (1926), Languages, Professor—A.B., University of Dayton, 1921; M.A., Catholic University of America, 1929; Ph.D., Catholic University of America, 1934.

Peterson, Albert E. (1957), Electrical Technology, Assistant Professor—B.S., University of Minnesota, 1919; Reg. Prof. Eng.

Peterson, Richard E. (1957), Mathematics, Assistant Professor—B.A., Hiram College, 1955; M.S., Purdue University, 1957.

Petitpas, Harold M. (1960), English, Assistant Professor—B.A., University of Western Ontario, 1949; M.Ed., Montreal University, 1953; M.S., Ottawa University, 1954; Ph.D., Ottawa University, 1958.

Powers, S.M., Thomas J. (1958), Education, Associate Professor—B.S., University of Dayton, 1925; M.A., Catholic University of America, 1940.

Prather, Alberta G. (1946), Mathematics, Associate Professor—A.B., Miami University, 1925; B.S., Miami University, 1926; M.A., Miami University, 1937.

Psihas, Nicholas P. (1963), Philosophy, Instructor—B.A., Wayne State University, 1954; B.Ph., Laval University, 1957; M.A., Laval University, 1958; Ph.L., Laval University, 1959.

Ragains, Robert L. (1961), Military Science, Assistant Professor—B.S., Purdue University, 1953.
Rambauske, Werner R. (1955), Physics, Professor—B.S., Humanistic Koenig Wilhelms Gymnasium, 1931; M.S., University of Berlin, 1938; Dr. rer. nat., University of Berlin, 1940.

Rancurello, Antos C. (1954), Psychology, Associate Professor—A.B., St. Michael College, 1942; Ph.D., Pontificio Ateneo Salesiano, 1946.

Reichard, Maurice R. (1929), Music, Professor—A.B., University of Dayton, 1935; M.A., Ohio State University, 1945.

Reyst, Klara (1947), Languages, Associate Professor—A.B., University of Geneva, 1908; M.Ed., University of Pittsburgh, 1934; Ph.D., University of Pittsburgh, 1940.

Rhodes, S.M., Rev. Edmund L. (1947), Philosophy, Associate Professor—A.B., University of Dayton, 1934; S.T.L., Catholic University of America, 1942.

Rice, Bernard J. (1960), Mathematics, Instructor (On leave)—B.S., St. Louis University, 1955; M.S., Ohio State University, 1961.

Rizzo, Paul J. (1961), Military Science, Assistant Professor—B.A., City College of New York, 1952.

Rodgers, Edward W. (1963), Accounting, Assistant Professor—B.B.A., Northwestern University, 1945.

Rose, S.M., Albert H. (1945), Political Science, Professor—B.S., University of Dayton, 1927; M.A., Western Reserve University, 1942.

Rose, S.M., Louis H. (1933), Electrical Engineering, Professor—B.S., University of Dayton, 1923; M.S., University of Fribourg, 1933; B.E.E., University of Dayton, 1935; Reg. Prof. Eng.

Rougier, Harry J. (1939), English, Assistant Professor—B.S., University of Minnesota, 1933; M.A., University of Minnesota, 1939.

Ruff, Lawrence A. (1960), English, Assistant Professor (On leave)—B.S., University of Dayton, 1958; M.A., Catholic University of America, 1959.

Ruppel, George J. (1956), History, Associate Professor—B.A., University of Dayton, 1934; M.A., Catholic University of America, 1947; Ph.D., University of Pittsburgh, 1955.

Rus, S.M., Rev. Gabriel (1962), Languages, Assistant Professor—A.B., University of Dayton, 1931; M.A., Western Reserve, 1952.

Ryckman, Seymour J. (1959), Civil Engineer, Professor—B.S., Michigan State University, 1939; M.S., University of Missouri, 1942; Reg. Prof. Eng.

Sardi, Otto (1963), Geology, Instructor—Dipl., University of Budapest, 1956; M.S., Miami University, 1962.

Scheidler, Charles H. (1953), Psychology, Professor—A.B., Washington University, 1949; Ph.D., Washington University, 1953.
Schick, S.M., Thomas P. (1957), *Physics*, Associate Professor—B.S., University of Dayton, 1933; M.S., Catholic University of America, 1949; M.Ed., Duquesne University, 1956.

Schmidt, Bernhard M. (1948), *Electrical Engineering*, Associate Professor—B.E.E., University of Dayton, 1942; M.Sc., Ohio State University, 1957; Ph.D., Ohio State University, 1963; Reg. Prof. Eng.

Schraut, Kenneth C. (1940), *Mathematics*, Professor—A.B., University of Illinois, 1936; M.A., University of Cincinnati, 1938; Ph.D., University of Cincinnati, 1940.

Schuellein, S.M., Robert J. (1953), *Biology*, Associate Professor—B.S., University of Dayton, 1943; M.S., University of Pittsburgh, 1948; Ph.D., University of Pittsburgh, 1956.

Seebold, S.M., Rev. Andrew L. (1953), *Sociology*, Professor—A.B., University of Dayton, 1924; M.A., Catholic University of America, 1943; Ph.D., Catholic University of America, 1947.

Shay, Gertrude D. (1949), *Biology*, Associate Professor—B.S., Mary Manse College, 1945; M.S., University of Detroit, 1948.

Smallwood, Miriam E. (1956), *Home Economics*, Assistant Professor—B.S., Indiana University, 1932; M.S., Indiana University, 1942.

Smith, Howard E. (1957), *Mechanical Engineering*, Assistant Professor (On leave) —B.M.E., University of Dayton, 1951; M.S., University of Cincinnati, 1961; Reg. Prof. Eng.

Snyder, Barth J. (1935), *Business Management*, Professor—A.B., University of Dayton, 1931; J.D., University of Dayton, 1934; M.A., Ohio State University, 1942.

Sory, Walter (1956), *Languages*, Assistant Professor—B.A., Classical Gymnasium, Poland, 1926; B.S. in Ed., State Teachers Seminary, Poland, 1928; M.A., State Teachers Institute in Cracov, 1929; LLM., Catholic University of Lublin, Poland, 1935.

Steed, James G. (1957), *Chemistry*, Assistant Professor—B.S., Ohio University, 1920; M.S., Ohio University, 1921; Ph.D., Ohio State University, 1933.

Steiner, Wilfred J. (1946), *History*, Professor—A.B., Loras College, 1936; M.A., Harvard University, 1938; Ph.D., Ohio State University, 1957.

Stith, Raymond J. (1954), *Civil Engineering*, Associate Professor (On leave)—B.C.E., University of Dayton, 1952; M.S.C.E., University of Notre Dame, 1954; Reg. Prof. Eng.

Sturm, S.M., Norbert (1959), *English*, Assistant Professor—B.S., University of Dayton, 1940; M.A., Ohio State University, 1951; M.A., Western Reserve University, 1955; Ph.D., Western Reserve University, 1961.

Sullivan, S.M., Gerald J. (1946), *Languages*, Associate Professor—B.A., University of Dayton, 1931; M.A., Catholic University of America, 1933; Ph.D., University of Cincinnati, 1950.

Tagg, Lawrence E. (1953), *Music*, Associate Professor—B.Mus., University of Nebraska, 1947; M.Mus., University of Nebraska, 1948.

Thomas, Betty J. (1942), *Music*, Associate Professor—B.Mus., University of Dayton, 1944; M.Mus., Eastman School of Music, 1950; Ph.D., Eastman School of Music, 1963.

Thorne, Joseph R. (1961), *Mechanical Engineering*, Assistant Professor—B.S., Ohio University, 1938; M.S., Purdue University, 1950.

Updyke, Joseph F. (1947), Accounting, Associate Professor—B.S., University of Dayton, 1947.

Vance, Marguerite F. (1956), Chemistry, Assistant Professor—B.S., University of Kentucky, 1943; M.A., University of Kentucky, 1958.

Verder, S.M., John F. (1946), Librarian, Assistant Professor—A.B., University of Dayton, 1929; B.S.L., Western Reserve University, 1946.

Vigle, John B. (1959), Librarian, Assistant Professor—A.B., University of Kentucky, 1949; M.S. in L.S., University of Kentucky, 1956.

Vincze, Mary (1962), Librarian, Instructor B.S., Hungarian Royal Academy, 1933.

Weaver, Burton R. (1959), Music, Assistant Professor—B.S., State College, 1958; M.Mus., Eastman School of Music, University of Rochester, 1959.

Whetro, R. Kathleen (1947), English, Associate Professor—A.B., University of Dayton, 1943; M.A., University of Michigan, 1950.

Wilder, Jesse H. (1953), Mechanical Engineering, Associate Professor—B.S.M.E., Duke University, 1947; M.S., State University of Iowa, 1949; Reg. Prof. Eng.

Will, John F. (1957), Business Management, Assistant Professor (On leave)—B.S., University of Dayton, 1929; M.B.A., Miami University, 1958.

Willis, Gerald L. (1962), Biology, Instructor—B.S., University of Dayton, 1959; M.S.T., Miami University, 1963.

Willis, Max S. (1962), Chemical Engineering, Assistant Professor—B.S., Pennsylvania State University, 1953; M.S., Iowa State University, 1959; Ph.D., Iowa State University, 1962.

Wilson, Gary A. (1962), Mathematics, Instructor—B.S., Ohio State University, 1960; M.S., Ohio State University, 1962.

Wottle, S.M., Vincent J. (1938), Chemistry, Associate Professor—B.S., University of Dayton, 1936; M.S., Catholic University of America, 1938; Ph.D., Ohio State University, 1951.
Yakura, James N. (1955), Electrical Engineering, Associate Professor—B.S., Carnegie Institute of Technology, 1935; M.S., University of Pittsburgh, 1948; Reg. Prof. Eng.

Zimmerman, Sarah A. (1958), English, Assistant Professor (On leave—A.B., Western College, 1925; M.A., Ohio State, 1934.

PART-TIME INSTRUCTORS

Alexander, John R., B.S., Department of Mathematics.
Andrews, Charles R., B.M.E., Department of Mechanical Engineering.
Anduze, Richard A., B.S., Department of Languages.
Armstrong, William, M.Ed., Department of Education.
Arnold, Robert P., B.S., Department of Business Management.
Ault, Robert, B.M.E., Department of Mechanical Engineering.
Bauer, Jerome, M.S.Ch.E., Department of Chemical Engineering.
Becker, William J., Ph.D., Department of Chemistry.
Bennett, Neil, Department of Military Science.
Benson, Robert R., M.A., Department of Education.
Berens, Alan P., Ph.D., Department of Mathematics.
Berus, Francis R., B.S., Department of Accounting.

Bickert, Edward L., Department of Mechanical Engineering.
Blagg, Paul, M.Mus., Department of Music.
Bourne, Richard A., B.S., Department of Accounting.
Bowen, Donald W., B.S., Technical Institute.
Breitfelder, Rev. Gervin, OFM., A.B., Department of Mathematics.
Brown, William J., B.S., Department of Electronic Engineering Technology.
Brunswick, Arthur R., B.S., Department of Mathematics.
Burger, Jerome, M.S.M.E., Department of Mechanical Engineering.
Burns, Jerry, B.E.E., Department of Electronic Engineering Technology.
Busch, Gerald E., M.B.A., Department of Economics.
Campbell, Conrad E., M.A., Department of Mathematics.
Carmichael, Richard, M.S., Department of Art.
Christensen, Julian M., Ph.D., Department of Psychology.
Christopher, Sr. M. Eunice, C.P.P.S., M.Ed., Department of Music.
Cleland, David I., M.B.A., Department of Economics.
Collins, Robert B., B.A., Department of English.
Confer, Robert J., B.A., Department of Accounting.
Crim, Kenneth, Ph.D., Department of Education.
Curtis, Lamont W., B.S., Department of Civil Engineering and Engineering Mechanics.
Danaher, Timothy J., M.A., Department of Philosophy.
Davis, John, Ph.D., Department of Psychology.
DeMarey, Henry A., Department of Mechanical Engineering Technology.
DeRoze, Donald G., M.S., Department of Mechanical Engineering.
DeSando, Richard J., Ph.D., Department of Chemistry.
Desch, James B., B.A., Department of English.
Dickison, William E., Ph.D., Department of Economics.
Sister Dominica, M.H.S.H., M.S. in Ed., Department of Education.
Douglass, James B., B.A., Department of Physical Education.
Drcher, John, B.S., Department of Civil Engineering.
Edgington, Orman R., M.S., Department of Education.
Eilerman, Robert J., LL.B., Department of Industrial Engineering.
Emrick, J. T., M.S., Industrial Engineering Technology.
Engler, Nicholas A., M.S., Department of Music.

Enoch, Albert E., Department of Economics.
Ewald, Elbert E., M.S., Department of Economics.
Farren, Joseph M., Department of Electrical Engineering.
Feist, Robert K., B.S., (Reg. Prof. Eng.), Department of Electronic Engineering Technology.
Fluke, Carl S., M.S., Department of Mathematics.
Forbes, Fred W., B.S., Department of Mechanical Engineering.
Frank, Daniel L., B.E.E., Department of Electronic Engineering Technology.
Galin, Robert, M.S., Department of Mechanical Engineering.
Gammeter, Charles J., LL.B., Department of Economics.
Geiger, Sr. M. Claudia, B.S., Department of Elementary Education.
Grabner, Clem, M.S., Department of Mathematics.
Grady, Walter T., B.S., Department of Mechanical Engineering.
Guenther, Ernest H., B.S., Department of Accounting.
Haegler, Lois, M.S., Department of Nursing.
Hair, Richard L., Department of Sociology.
Hamberg, Ralph P., B.S., Department of Economics.
Hamilton, Donald E., M.A., Department of Business Management.
Harich, Elroy P., B.S., Department of Mechanical Engineering.
Harris, Shirley A., M.A., Department of Mathematics.
Hayes, Alvin C., B.S., Department of Economics.
Hazell, Albert H., Department of Business Management.
Hein, Robert, M.S., Department of Biology.
Heisey, John M., M.Ed., Department of Music.
Hellwig, Norris, M.S., Department of Business Management.
Herron, John R., A.B., Department of Geology.
Hoefling, Raymond, B.S., Department of Business Management.
Hoffman, Albert M., M.A., Department of Mechanical Engineering Technology.
Hoverston, Estil V., Ph.D., Department of Electrical Engineering.
Hudson, James, M.S., Department of Mathematics.
Janning, Edward A., B.S., Department of Mathematics.
Kachel, Werner A., B.S., Department of Mechanical Engineering Technology.
Katchman, Bernard, Ph.D., Department of Chemistry.
Katz, Paul, M.M., Department of Music.
Keating, Donald, B.S., Department of Mechanical Engineering.
Keith, Roger H., B.Ch.E., Department of Chemical Engineering.
Kessler, Leo J., Jr., B.A., Department of Accounting.
Kline, Marjorie, B.S., Department of Music.
Kretzler, Carl D., B.S., Department of Mechanical Engineering.
Kuntz, Roy, B.S., Department of Mathematics.
Laufersweiler, Thomas L., B.S., Department of Economics.
Law, Paul C., B.Jrn., Department of Communications Arts.

Lawson, Maurice, B.S., Department of Mechanical Engineering.
Lenarduzzi, Paul, M.S., Department of Sociology.
Lubbers, Bartlett C., M.A., Department of Education.
Maimon, Henry N., B.S., Department of Biology.
March, Jacqueline, M.A., Department of Chemistry.
Marcus, Helen, M.A., Department of English.
Martino, Armand A., B.S., Department of Art.
Martinez, Vincente, Department of Military Science.
May, Chester, B.E.S., Department of Mechanical Engineering.
McClellan, Val. J., M.A., Department of Economics.
Mendenhall, R.W., Department of Military Science.
Mervar, Raymond B., B.S., Department of Business Management.
Metcalf, Zubie, M.S., Department of Biology.
McGohan, Hobert L., B.S., Department of Accounting.
Michel, Paul C., M.B.A., Department of Accounting.
Minton, Constance, B.A., Department of Music.
Milloneg, Rose H., B.A., Department of Languages.
Minardi, John, M.S.M.E., Department of Mechanical Engineering.
Misenko, Albert E., M.A., Department of History.
Montello, Ralph V., B.E., Department of Chemical Technology.
Moore, Eugene B., A.B., Department of Communications Arts.
Mohr, George, M.Ph., Department of Biology.
Mueller, Robert C., B.A., Department of Electronic Engineering Technology.
Nichols, P. L., Department of Military Science.
Nikulai, Paul J., M.S., Department of Mathematics.
Nolting, John L., B.S., Department of Business Management.
O'Brien, Barbara, Ph.D., Department of Chemistry.
O'Connell, Gerald F., M.S., Department of Economics.
Olson, Christopher, Department of Military Science.
Ondercin, John C., M.B.A., Department of Business Management.
Owen, F., Bennett, M.A., Department of Education.
Palumbo, Suzanne, B.A., Department of English.
Pao, Channing, M.S., Department of Mechanical Engineering.
Perry, Virgil, Department of Military Science.
Phleger, Frederick L., D.Ed., Department of Education.
Pivarnik, Michael, M.A., Department of Political Science.
Poli, Corrado, M.S., Department of Civil Engineering.
Polony, John, M.A., Department of Languages.
Pryor, Richard E., LL.B., Department of Business Management.
Quinn, Stephen R., LL.B., Department of Business Management.
Reger, John, B.S., Department of Music.
Regulinski, Thedeus L., M.S., Department of Electrical Engineering.
Reston, Neil B., M.A., Department of Education.
Riley, John E., M.A., Department of Psychology.
Riley, Glenn D., M.S., Department of English.
Robertson, E. W., Department of Military Science.
Rogus, Joseph F., M.Ed., Department of Education.
Roth, George J., B.M.E., Department of Mechanical Engineering.
Rotterman, Robert V., B.S., Department of Accounting.
Sakalas, Marcella, B.S., Department of Mathematics.
Sammon, Mark J., B.S., Department of Accounting.
Sanderson, Mary L., B.S., Department of Biology.
Sandman, James, M.S., Department of Nursing.
Schnelle, Barbara, M.S., Department of Education.
Schwartz, Robert B., M.S., Department of Mechanical Engineering.
See, Robert E., B.B.S., Department of Industrial Engineering Technology.
Seeman, Victor, M.S., Department of Languages.
Semmelman, Jack, Ph.D., Department of Chemistry.
Shumaker, Loren L., B.S., Department of Electronic Engineering Technology.
Sills, Grayce, B.S., Department of Nursing.
Simopoulos, Nicholis, Department of Electrical Engineering.
Slonaker, William G., B.S. (C.P.A.), Department of Accounting.
Smith, Carl T., B.S., Department of English.
Smith, Edgar A., Ph.D., Department of Psychology.
Smith, Eugene T., M.A., Department of Communications Arts.
Snyder, John, B.S., Department of Electrical Engineering.
Staley, Jack E., LL.B., Department of Political Science.
Stear, B. Edwin, Ph.D., Department of Mathematics.
Stephenson, Hugh M., M.B.A., Department of Business Management.
Steensen, John H., M.A., Department of Languages.
Straus, Leo, B.S., Department of Civil Engineering.
Suttman, James J., M.S., Department of Economics.
Swartzbaugh, Joseph T., M.S., Department of Physics.
Taylor, John N., Jr., M.B.A., Department of Economics.
Thomas, R. W., Department of Military Science.
Thompson, R. A., Department of Military Science.
Thompson, Richard E., B.S., Department of Mechanical Engineering Technology.
Traen, Leo P., M.A., Department of Education.
Trissel, Paul, A.E., Department of Mechanical Engineering Technology.
Turner, Nell B., M.A., Department of Education.
Turrentine, Donald, B.S., Department of Mechanical Engineering.
Ullman, Frank G., Ph.D., Department of Physics.
Van Kuren, James, B.S., Department of Mechanical Engineering and Mathematics.
Vandevander, Robert H., M.S., Department of Education.
Vergamini, Paul, B.S., Department of Mechanical Engineering.
Viton, John J., B.E., Department of Economics.
Vlahos, John K., A.B., Department of Accounting.
Vlahos, Lester L., M.S., Department of English.
VonderBrink, Gerald W., B.S., Department of Accounting.
Wagner, John E., B.S., Department of Accounting.
Ward, Logan, B.S., Department of Mechanical Engineering.
Waterhouse, George E., M.B.A., Department of Business Management.
Weidman, John M., Ph.D., Department of History.
Weidner, Richard, M.S., Department of Education.
Wells, John M., M.A., Department of Mathematics.
Wening, Gerald B.S., Department of Philosophy.
White, Clotho, M.A., Department of Health and Physical Education.
Whitby, R.E., Department of Military Science.
Wiggins, James R., Jr., B.S. (C.P.A.), Department of Accounting.
Williams, H. H., M.D., Department of Biology.
Wilson, Eugene, B.S., Department of Political Science.
Wogoman, Maurice A., Ph.D., Department of Education.
Wolfe, Franklin E., Department of Military Science.
Wolfe, Raymond N., Ph.D., Department of Psychology.
Working, Kenneth, Ed.D., Department of Psychology.
Wood, Robert E., M.A., Department of Sociology.
Wurst, John C., B.M.E., Department of Mechanical Engineering.
Yaney, Perry P., Ph.D., Department of Physics.
Yarross, Alan D., M.B.A., Department of Business Management.
Zara, Eugene A., B.S., Department of Mechanical Engineering.
Zieba, Marisa, Department of Languages.
Zonars, Demetrius C., M.S., Department of Mathematics.
ST. CHARLES SEMINARY, CARTHAGENA, OHIO

Hunnefeld, C.PP.S., Rev. Frederick J., Theology, Assistant Professor—S.T.L., Gregorian University, 1953; S.T.D., Gregorian University, 1955; A.B., University of Dayton, 1956.

Lechner, C.PP.S., Rev. Robert F., Philosophy, Associate Professor—A.B., St. Joseph’s College, 1942; Ph.D., Fribourg University, 1950.

OUR LADY OF CAREY SEMINARY- COLLEGE, CAREY, OHIO

LaFleur, O.F.M. Conv., Rev. Angelus, Vice-Rector, Biology and Education, Professor—M.S., Marquette University, 1943; Ph.D., Fordham University, 1953.

Cahallan, M.D., Dr. Robert, Director of Sandusky Valley Guidance Center, Mental Health, Visiting Lecturer.
Grilliot, C.P.P.S., Sister
Gast, C.P.P.S., Sister
Esser, C.P.P.S., Sister
Agnew, C.P.P.S., Sister
REGINA
Welsh, C.P.P.S., Rev.
Prendergast, C.P.P.S., Rev.
Pollard, C.P.P.S., Sister
Morris, C.P.P.S., Sister
Marthaler, C.P.P.S., Rev.
Jankowski, O.F.M. Conv., Rev.
Heckman, O.F.M. Conv., Rev.
Downs, O.F.M. Conv., Rev.
Chesher, 292

Instructor-A.B., Dayton, 1940.

M.A., Xavier University, 1952.

M.S., The Catholic University of America, 1954.

Ph.D., Institutum Divi Thomae, 1948.

RESEARCH STAFF

Bauer, Jr., Jerome L. (1963), Assistant Research Engineer—B.Ch.E., University of Dayton 1960; M.S.Ch.E., Pennsylvania State University, 1963.

Bowen, Donald W. (1960), Assistant Research Mathematician—B.S., Millikin University, 1960.

Busch, Gerald E. (1952), Assistant to the Director, Research Institute—B.S., University of Dayton, 1952; M.B.A., Xavier University, 1960.

Conner, Robert L. (1960), Associate Research Engineer—B.S.M.E., University of New Mexico, 1950.

Edmonds, Paul (1963), Assistant Research Bacteriologist—B.S., Kentucky State, 1955; B.S., Miami University, 1963.

Engler, Nicholas A. (1952), Senior Research Physicist—B.S., University of Dayton, 1947; M.S., University of Cincinnati, 1949.

Hecht, Norman L. (1963), Assistant Research Engineer—B.S.Cer.E., Alfred University, 1960.

Helminiak, Thaddeus E. (1963), Associate Research Chemist—B.S., John Carroll University, 1957; Ph.D., Akron University, 1962.

Hovey, William J. (1959), Associate Research Engineer—B.E.E., University of Dayton, 1952; Professional Engineer.
James, Jerry L. (1962), Assistant Research Mathematician—B.A., Miami University, 1958.
Kahle, Donald A. (1955), Associate Research Engineer—B.E.E., University of Dayton, 1951; Professional Engineer.
Keith, Roger H. (1958), Associate Research Engineer—B.Ch.E., University of Dayton, 1954; Professional Engineer.
Kittredge, George D. (1963), Associate Research Engineer—B.S.M.E., Indiana Institute of Technology, 1947; M.S., Oklahoma State University, 1955; Professional Engineer.
Kokoropoulos, Panos (1963), Assistant Research Chemist—B.S., University of Thessaloniki, 1955.
Mahieu, William (1962), Assistant Research Engineer—B.S.M.E., Kansas State University, 1960.
Miller, James M. (1961), Assistant to the Director, Research Institute—B.S., University of Dayton, 1959.
Robinson, Kenneth (1960), Supervisor, Tabulating Section—B.S., University of Dayton, 1960.
Roth, George J. (1954), Associate Research Engineer—B.M.E., University of Dayton, 1954.
Scheffler, Frederic L. (1961), Assistant Research Engineer—B.S., Purdue University, 1957; M.S., University of Michigan, 1959.
Taylor, Paul B. (1960), Senior Research Engineer—A.B., University of California, 1913; M.A., University of California, 1920; Ph.D., University of Pennsylvania, 1927.
Whitford, Dale (1952), Senior Research Engineer—A.E., University of Cincinnati, 1951; Professional Engineer.
Wurst, John C. (1957), Associate Research Engineer—B.M.E., University of Dayton, 1957.
Yaney, Perry P. (1963), Associate Research Physicist—B.S.E.E., University of Cincinnati, 1954; M.S., University of Cincinnati, 1957; Ph.D., University of Cincinnati, 1963.
SUPPORTING RESEARCH STAFF
Virgil C. Adams, Senior Technician; Ralph A. Balster, Senior Technician; Allen C. Barnaby, Lead Technician; James A. Bauman, Senior Technician; Charles E. Bell, Senior Technician; Charles Bellanca, Senior Technician; Charles W. Bond, Senior Technician; Wayne A. Bostick, Senior Technician; Joseph E. Brandelik, Assistant Technician; Ethan V. Brittingham, Senior Technician; Sigmund W. Brzezicki, Senior Technician; Jerald L. Burkett, Senior Technician; Eugene P. Campbell, Senior Technician; Russell K. Candler, Lead Technician; D. Charles Carter, Assistant Technician; Phillip W. Centers, Senior Technician; Kenneth R. Chidester, Senior Technician; William L. Cindric, Senior Technician; Ronald D. Cornwell, Assistant Technician; Richard J. Crossley, Assistant Technician; Henry A. DeMarey, Chief Draftsman; David V. Dempsey, Assistant Technician; Roland W. Ditmer, Assistant Technician; David L. Dragoo, Senior Technician; John J. Drerup, Lead Technician; Richard N. Ely, Lead Technician; Robert F. Fessler, Assistant Technician; Howard S. Frazer, Senior Technician; John R. Gabriel, Lead Technician; Donald L. Gehle; Senior Technician; Marvin H. Gehret, Assistant Technician; Thomas S. Geis, Assistant Technician; John Gerhardstein, Senior Technician; E. Dwight Goens, Senior Technician; Mark Goldschmidt, Assistant Technician; D. Brian Goode, Senior Technician; Robert E. Gooding, Senior Machinist; Benjamin F. Goosey, Senior Technician; Charles Gordon, Assistant Technician; Philip A. Graf, Chief Technician; Donald C. Greene, Senior Technician; David A. Hahn, Assistant Technician; Stephen J. Hanchak, Senior Technician; Elroy P. Harich, Lead Technician; Jerome A. Hausfeld, Senior Draftsman; Robert L. Hentrich, Jr., Assistant Technician; James C. Holverstott, Lead Technician; William Horningford, Senior Technician; Charles J. Hurley, Senior Technician; Charles D. Hutchins, Lead Technician; Don K. Jackson, Senior Technician; Mike D. Kelly, Assistant Technician; Siegfried Knemeyer, Assistant Technician; Russell D. Larson, Senior Technician; Robert E. Leasure, Assistant Technician; Robert E. Leese, Assistant Technician; William B. Luehrs, Assistant Technician; Robert R. Luthman, Jr., Assistant Technician; Nancy Magoon, Assistant Technician; Donald E. Marquardt, Senior Technician; Luis A. Martin, Assistant Technician; David C. Maxwell, Senior Technician; Bruce L. McAdams, Senior Technician; James C. McKiernan, Lead Technician; Herbert F. Mildrum, Chief Technician; Raymond J. Miller, Senior Technician; John E. Moreau, Senior Photographer; Norbert W. Mott, Assistant Technician; James W. Naughton, Lead Technician; James D. Nickell, Assistant Technician; Robert E. O'Neal, Assistant Technician; Frederick J. Pestian, Lead Machinist; Andrew J. Pickutowski, Senior Machinist; Patrick R. Powers, Senior Technician; Robert L. Roth, Senior Technician; Wayne A. Rubey, Senior Technician; Hans J. Sauer, Lead Technician; Raymond H. Schenkkel, Senior Technician; James A. Schmid, Senior Technician; William H. Sheldon, Assistant Technician; Allan A. Smith, Senior Technician; Clyde E. Smith, Lead Technician; Harry C. Sommers, Lead Technician; James B. Speck, Assistant Technician; Thomas E. Stanley, Assistant Technician; Lamont C. Stewart, Senior Technician; Frank Tittl, Jr., Assistant Technician; Joseph F. Umina, Lead Technician; John P. Webb, Assistant Technician; Frank J. Weinrich, Sr., Senior Machinist; Michael S. West, Assistant Technician; Douglas G. Whitaker, Lead Technician; Thomas H. Wical, Senior Technician; Guy S. Williams, Lead Technician; Lawrence A. Wogoman, Lead Technician; Hiram Woods, Lead Technician; Paul F. Woods, Lead Technician; Richard R. Zeh, Senior Technician; Robert J. Zuehlke, Senior Technician.

PSYCHOLOGICAL SERVICES CENTER STAFF
Mary Lou Bensman, Psychometrist; Elaine Carey, Psychometrist; Mary Ellen Donohue, Psychometrist; Thomas Gabriele, Psychometrist; Mary Krueger, Supervisor Test Processing; Ann McNulty, Psychometrist; Eileen Myers, Psychometrist; John E. Riley, Veterans Administration Counselor.
ATHLETIC STAFF
Harry C. Baujan, Athletic Director; L. Thomas Blackburn; Head Basketball Coach; Donald Donoher, Freshman Basketball Coach; Pete Ankney, Head Football Coach; James Hoover, Assistant, Mike Hall, Assistant; Bruce Schmidt, Assistant; William Smith, Freshman Football Coach; Ed Kwest, Team Trainer; Dr. George Rau, Team Physician; Charles Bensman, Baseball Coach; Henry Ferrazza, Golf Coach; John Wiesler, Soccer Coach; Shaw Emmons, Tennis Coach; Joseph McGlaunlin, Athletic Publicity Director; Jack R. Brown, Finance Director of Athletics; Tom Dowling, Assistant Finance Director of Athletics; Charles Swope, Equipment Manager.

CLERICAL STAFF
Mrs. Mary Ann Krapf, Secretary to the President
Miss Katherine Angst, Secretary to the Vice-President
Mrs. Roberta Huxtable, Secretary to the Dean of the University
Mrs. Zetta Huart, Secretary to the Business Manager
Miss Dolores McAnespie, Secretary to the Assistant to the President
