Why should we *care* about web archiving?

“It is far easier to find an example of a film from 1924 than a website from 1994.”

M.S. Ankerson, 2011.

Archive.org's Wayback Machine is legit legal evidence, US appeals court judges rule

Big thumbs up to Internet Archive for now

By Kieren McCarthy in San Francisco 4 Sep 2018 at 19:38 61  SHARE ▼

Analysis The Wayback Machine's archive of webpages is legitimate evidence that may be used in litigation, a US appeals court has decided.

Trump says Google snubbed his State of the Union speeches while promoting Obama's, but it turns out that's wrong

- Google says that it did promote President Donald Trump's State of the Union address in 2018, countering a video that the President tweeted out on Wednesday.
- Trump's video appeared to show that Google promoted Barack Obama's State of the Union speeches on its homepage, but didn't not promote his in the same way.
- The video is a doubling-down on his accusations of Google's anti-conservative bias.

The screenshot displays the Archive-It website. At the top, there is a navigation bar with the Archive-It logo, links for HOME, EXPLORE, LEARN MORE, and CONTACT US, and a Login button. A tagline reads: "The leading web archiving service for collecting and accessing cultural heritage on the web. Built at the Internet Archive." Below this is an orange banner with a welcome message and upcoming webinar dates: Oct 11 2018, 11:00 AM PDT and Oct 25 2018, 11:00 AM PDT. A search bar is present with the text "Explore Collections" and "Find a Collection by Name".

The main content area features three featured collections:

- IT History Society**: By IT History Society. Description: "The IT History Society has created this comprehensive archive of IT websites which is a valuable resource for historians, archivists and the general public."
- International Whistleblower Archive**: By International Whistleblower Archive. Description: "The purpose of this collection is to provide documented information about whistleblowers and the act of whistleblowing in the United States and internationally, over time."
- Columbia University Human Rights Web Archive**: By Columbia University Libraries. Description: "This collection is dedicated to preserving web-based information of importance to the global community of human rights researchers, students, policymakers and advocates."

Below the collections is a search bar for "Explore Collecting Organizations" with the text "Find an Organization by Name". The bottom section features three featured organizations:

- Philadelphia-region Election Media Ecosystem Project**: The Internet Archive is presenting searchable online libraries of the Philadelphia-region's
- U.S. Department of Education**: ED's mission is to promote student achievement and preparation for global competitiveness by fostering educational excellence and ensuring
- Whisconier Middle School**: K-12 Web Archiving Partner

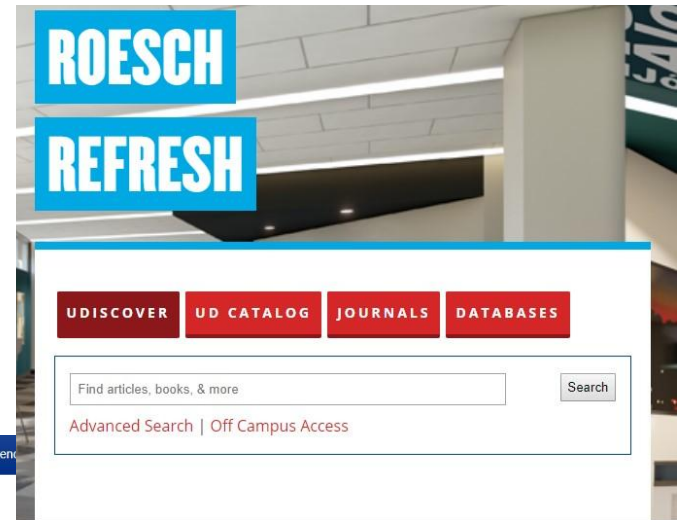

What Is Archive-It?

“The leading web archiving service for collecting and accessing cultural heritage on the web”

‘Great Scott!’: Go ‘Back to the Future’ with Archive-It

By Stephanie Shreffler

Have you ever used the Wayback Machine on the Internet? The Wayback Machine allows you to view webpages from years past — for example, you can see what Yahoo looked like in 1998, or you can see what UD's website looked like in 2002.

The Wayback Machine was created by the Internet Archive, which works to preserve websites and webpages for posterity. The Internet is prone to enormous amounts of data loss as links change and websites shut down. Losing the content of these websites represents an incredible loss to cultural memory and heritage.

To help in its goal to preserve the Internet, the Internet Archive created a software tool called **Archive-It**, which allows institutions to create curated collections of archived webpages. Archive-It users can select websites to crawl;¹ set up automatic times for crawls to repeat; and save these websites to the Internet Archive. This creates historical interactive snapshots of webpages at specific moments in time. An institution can also create direct links to these archived pages from its Archive-It site, allowing researchers to browse content more easily.

WEB ARCHIVING PROGRAM: GUIDELINES

Overview **Guidelines** University Archives Marian Library US Catholic

GUIDELINES LINK

Mission & Vision

The University of Dayton Web Archiving Program works in accordance with the University Libraries' mission to provide excellent research and scholarly collections for our users. Visit individual repository tabs above to learn more about their collecting practices.

Notification, take-down, and opting-out

The University of Dayton Libraries attempts to notify all organizations and/or individuals (external to the university) whose websites are selected for archiving. We refrain from archiving websites that do not wish to be included in this project and will remove harvested content from the archive upon request by website owner(s).

Ownership

The University of Dayton does not claim ownership rights for any external websites collected through its Web Archiving Program. All ownership rights remain with the websites' original creators and/or owners. The University of Dayton is not responsible for the content of any external websites, or for the accuracy or legality of said content.

Resource Constraints

The UD web archiving program uses a subscription based service called Archive-It. There are two main limitations on collecting procedures, cost associated with storage and the amount of storage. Due to these limitations harvesting of web sites must be fully
