Holy Angels Fieldtrip

Bethany Renner

We have reached the conclusion of our six weeks at Holy Angels. Last Thursday, March 11th the group spent the day at Miami Conservancy District, Five Rivers Outdoors, and RiverScape. The groups experienced each location and presented their cumulative projects from the five weeks of lessons. Although it rained, there were no complaints after learning all about water's importance and presence in our area. The field trip was a great way to conclude the in-class lessons and get the students on the river and exposed to the community.

Thank you to the community partners for taking the time to meet with the students!

This project with Holy Angels has allowed the Stewards and Rivers Institute to reach out and fulfill our mission. Thanks to all who participated and to Tracey Horan for all her work on developing the curriculum. Without Tracey, the project would not have existed.
