## History of the Marian Library

---

The Marian Library was founded by the Marianists of the University of Dayton in 1943 to make the Blessed Virgin Mary better known, loved, and served. It is a special library whose presence on campus is a significant expression of the university's Catholic and Marianist identity. Its collections are developed and maintained to preserve and provide access to materials that support its mission of fostering Marian scholarship and sound Marian devotion.

The Marian Library is recognized both nationally and internationally as a center for scholarship on the Blessed Virgin Mary. It serves the research needs of faculty and students of the International Marian Research Institute, the broader University of Dayton community, and of visitors throughout the world. It also documents the diverse expressions of Marian devotion, and it provides public outreach through exhibits, tours, and reference services.

For more information on the Marian Library, please see the website of the International Marian Research Institute.

## Scope and Contents

---

This collection contains bulletins and newsletters published by Catholic organizations with a Marian dimension. The collection also contains some information about Marian organizations or movements including promotional, historical, or ephemeral material. This collection is international in scope with a focus on Marian organizations and movements in the United States. Documents are from circa 1950 through the present day.

Materials in this collection represent a variety of Catholic spiritualities and objectives. For example, some organizations were formed to promote a specific Marian devotion or apparition, publish messages related to an apparition, or publish news about a particular Catholic community. In contrast to organizations, Marian movements are typically an informal or short-lived group, usually promoting a specific devotion or apparition.
