HONORARY DEGREES

THE DEGREE — DOCTOR OF HUMANITIES

WILLIAM S. ANDERSON

Statement from the Citation for Mr. William S. Anderson:

"Great communities have great leaders. The executive officers of an area's major industries are largely responsible for its spirit, vision, and sense of responsibility for its own destiny. Dayton has been blessed with such leaders. William S. Anderson, the sixth man to serve as chairman of NCR Corporation, continued his company's legacy of leadership and service, and in so doing earned the lasting respect and gratitude of his company, his community, and the University of Dayton."

THE DEGREE — DOCTOR OF EDUCATION

ROBERT J. KEGERREIS

Statement from the Citation for Dr. Robert J. Kegerreis:

"President Kegerreis was instrumental in the development of the Miami Valley Research Foundation with the University of Dayton and others, exemplifying his skill in uniting different interests for the betterment of the community and its citizens. His background in business management and keen appreciation for the essential ties between education and business were essential to this dramatic partnership for Dayton's future advanced technology development."

THE DEGREE — DOCTOR OF EDUCATION

CHARLES E. TAYLOR

Statement from the Citation for Dr. Charles E. Taylor:

"Perhaps the most significant role of a university president is to be a model for the students, faculty, and staff. Charles E. Taylor, Ph.D., used his eight years as president of Wilberforce University to lead by example. He was the respected leader of one of this nation's oldest and finest predominantly black universities, and he was a friend and colleague to its students and staff."

ANNIVERSARIES

This year marks anniversaries of two special events in the history of the University of Dayton.

50 YEARS

Coeducation began at the University of Dayton in 1935 when the Sisters of Notre Dame received permission from the Society of Mary to use the campus facilities to establish a College for Women. At first the classes and activities for women were separate, but it took only a year before the male students invited the students of the College of Women to join their campus organizations. One year later all classes were open to women, and the University became one of the nation’s first coeducational Catholic universities. In that first class of 26 women was the first UD woman premedical student. She later received her medical degree from Western Reserve. In 1937, when all courses were open to women, the first woman entered the School of Engineering, graduating with a degree in mechanical engineering.

Since 1935, the University has granted one or more degrees to 17,648 women, 3,534 of whom are married to UD graduates. UD women are in all 50 states and 35 foreign countries — raising their families, serving in religious orders, volunteering in their communities, and pursuing widely diverse careers. The University is proud to recognize their 50 years of achievement.

100 YEARS

On July 1, 1885 the first diploma of graduation was awarded by St. Mary’s Institute, now the University of Dayton, to Charles Scherer of Dayton. He attended St. Mary’s from 1881 until 1885.

Including today, the University of Dayton has awarded more than 57,000 diplomas in the years since 1885. There are more than 46,000 living alumni of UD in 50 states and 48 foreign countries.

ACADEMIC COSTUME

Academic costumes are as old as the Universities themselves. Practically all of them derive from some form of clerical or priestly garb worn by the students and faculty in the Middle Ages. In Europe, each institution seems to have its own variant of costume, but in America academic costume follows a uniform code drawn up by a special commission in 1895. The code has three main parts: that is, it deals with caps, gowns and hoods.

The Oxford type cap or mortar-board seems to have evolved from the square biretta of Renaissance churchmen. It is always black and may be of any appropriate material except that velvet is reserved for doctors. The tassel worn with the cap has three variations. First, it may be black for any degree. Second, it may be the color of the faculty in which the degree was granted. Third, a tassel made of gold metallic thread is reserved to doctors and governing officials of institutions. At the moment the degree is awarded, the tassel is switched from the right to the left side of the cap.

Gowns, which according to the code are all black, are of three kinds. The bachelor’s gown is a relatively simple kind falling in straight lines from a fairly elaborate yoke. Its distinguishing characteristic is the long pointed sleeves. Master’s gowns are set apart by a peculiar arrangement of the long sleeves whereby the arms emerge from the sleeves through slits at the elbow. The rest of the sleeve dangles and terminates around the knee of the wearer in a square end into which a semi-circle is cut. In 1960, however, the gown was modified. In place of the elbow slit, an opening was made at the wrist and the gown was made to close. The doctor’s gown is an elaborate costume marked by velvet panels down the front and around the neck as well as by three bars of the same material on the bell shaped sleeves. It is cut much fuller than the other gowns and unlike them may be ornamented in color. Both the paneling and the sleeve bars may show the faculty in which the degree was awarded.

The hood alone clearly shows the level of the degree, the faculty in which it was given, and the institution which awarded it. The level of the degree is shown by the size of the hood, the width of the velvet trimming, and in the case of the doctor, by the shape. The bachelor’s, the master’s and doctor’s hoods are three feet, three and one-half feet, and four feet long respectively. The velvet trimming in the same order is two, three and five inches. This extends all around the hood on the exposed edge. To make a more comfortable fit, it is allowed to narrow to the neck band. This same trimming identifies the faculty in which the degree was awarded. For each faculty there is a corresponding color to a glance at the trimming is all that is needed to identify the faculty. The institution which awarded the degree is indicated by the colored lining. Dayton hoods are lined with cardinal red silk crossed by a Columbia blue chevron.

The color of the faculty referred to above indicates the field in which the degree was taken. The colors seen most often in a Dayton procession, with the fields they represent are:

ANTHEM

On mountain high and hillside,
O'er meadow and through dell
In busy mart and hamlet,
Where hearts their story tell,
A clarion voice is ringing,
It rises, now it falls
Arouse, all ye of Dayton,
Your Alma Mater calls.

U.D., we hear you calling,
Fidelity's the test,
Your sons and daughters answer from
North, South, East and West,
With measured tread advancing,
Our emblem full in view,
We sound your praise and pledge
Our loyalty to the Red and Blue.
