The following STATEMENT of NFCCS President Diarmuid F. O'Scannlain was broadcast over RADIO FREE EUROPE November 2, 1956:

"On behalf of 200,000 students at 190 Catholic colleges and universities in the United States of America, we are profoundly shocked at brutal Soviet repression of Hungarian students expressing legitimate desires for basic spiritual and intellectual freedoms. In compliance with the Christ the King message of His Holiness, Pope Pius XII, we pledge our prayers for a peaceful settlement with justice for the students and citizens of Hungary."
