156th Commencement

Spring Exercises • May 7, 2006 • 10:00 a.m. – UD Arena
The University of Dayton regards its Commencement Exercises as among the most important ceremonial occasions of the academic year. These exercises are filled with symbols and traditions designed to remind us all of the thousands of years that universities have existed and their noble purposes.

The academic costumes of various colors and types are part of the symbolism. They are described on page 59 of this program. The bright blue gowns with black trim are worn by those faculty who are serving as University Marshals for today's ceremony (see page seven of this program). The Marshals wear these distinctive gowns as identification of their official capacity to direct the processionals of administrators, faculty, and students who wear the more conventional ceremonial garb and mortarboard.

The chief University Marshal carries the University mace and the President wears the President's medallion. On stage are the United States and papal flags. So, too, the music that is played and the words that are spoken have special significance. For example, the deans who have been responsible for the education of the students “present” the students as worthy of graduation to the President. In turn, the President confers the degrees on behalf of the University.

At our Commencement ceremonies, which differ from many universities, each student’s name is read and the President then congratulates that student. The University believes that this is an important part of the graduation ceremony. The University also has a tradition of faculty coming from their seats behind the stage to congratulate the graduating students. These traditions symbolize the caring and person-oriented spirit of the University.

The University hopes you will both enjoy and respect this Commencement. You can do both by standing for the processional, the invocation, and the National Anthem; by listening during the awarding of the degrees, and by standing to sing the University of Dayton Anthem (see the back cover) and for the recessional. We are the University of Dayton community, a community which respects and cares for each other. This 156th Commencement marks another beginning. Let us rejoice together.

The University of Dayton entered its earliest beginnings on July 1, 1850, when St. Mary's School for Boys, a frame building that not long before had housed farm hands, opened its door to fourteen primary students from Dayton. As the University of Dayton enters the 21st century, it is building modern student facilities, including ArtStreet and Marianist Hall (2004) and RecPlex (2006). Academically, the University has continued to expand and enrich support services, especially since mid-century. Graduate studies, abandoned during World War II, resumed in 1960, with the School of Business Administration. In 1956, the University of Dayton Research Institute (UDRI) was formed to consolidate the administration of sponsored research at the University and government agencies. In 1997, the University of Dayton partnered with Nanjing University, one of the top universities in China, to establish the University of Dayton-Nanjing University Suzhou Executive Training Center. In 2004, the University of Dayton entered into a historic agreement with the National Aeronautical Association. The University of Dayton was one of the earliest in the country to offer an undergraduate degree program in physical education. It was one of the first in the nation to offer an undergraduate degree program in finance. The University of Dayton's annual RISE (Redefining Investment Strategy Education) symposium has grown into the largest symposium for investment professionals. The Dayton Early College Academy, a partnership between the University of Dayton and Dayton Public Schools, is just finishing its fifth year in operation. More than just a breeding ground for academic excellence, the University also responds to the needs of society and the region. The University of Dayton has always maintained a tradition of innovation. In 1874, St. Mary's Institute’s new Play House gymnasium was the only one of its kind in Ohio, and it probably that the first organized basketball game in the state took place there. In 1922, the College of Law opened, also with evening classes. Other graduate programs followed to augment the professional degree programs which distinguished the University from many of Ohio’s other independent institutions of higher learning. In 1923, the first summer session was held. Its classes, like those of the law college, were open to women as well as men. In 1937, the University became the first coeducational Catholic university in the nation.

Enrollment passed a thousand when World War II broke out. By 1950, with the return of the veterans, it reached more than 3,500. The 1960s saw significant increases in female and minority students. In the 1970s, there was a shift to a largely residential student body, and at the same time many more "nontraditional" (older) students matriculated. By the mid-1970s, total enrollment steadied at more than 10,000, with current enrollment of approximately 5,500 full-time undergraduates.

A long-range environmental design has helped integrate new buildings and old, and made the campus more livable by increasing its beauty as well as its efficiency. As the University of Dayton enters the 21st century, it is building modern student facilities, including ArtStreet and Marianist Hall (2004) and RecPlex (2006). Academically, the University has continued to expand and enrich its offerings and support services, especially since mid-century. Graduate studies, abandoned during World War II, resumed in 1960, with the School of Education leading the way. In 1969, the Department of Biology inaugurated the first doctorial program since 1928. The School of Engineering introduced two doctoral programs in 1973, and in 1992, the first doctoral degrees in educational leadership were awarded. In 1997, the Board of Trustees approved a doctoral program in theology with a focus on the Catholic experience in the United States. It was the first such doctoral program on a Catholic campus nationally.

The University of Dayton had its beginnings in Cincinnati, Ohio, where they intended to establish a base for the order in this country. They arrived, however, during a cholera epidemic, so Bishop John Purcel of Cincinnati soon sent Father Meyer to Dayton to minister to the sick of Emmanuel Parish. On March 19, 1850, the feast of St. Joseph, Father Meyer purchased Dewberry Farm from John Stuart and renamed it Nazareth. Mr. Stuart accepted a medal of St. Joseph and a promise of $12,000 at 6% interest in return for 125 acres, including vineyards, orchards, a mansion, and various farm buildings. Meanwhile, more Maristians arrived, and Nazareth became the first permanent foundation of the Society of Mary in the Western Hemisphere.

The University of Dayton had its beginnings in Cincinnati, Ohio, where they intended to establish a base for the order in this country. They arrived, however, during a cholera epidemic, so Bishop John Purcel of Cincinnati soon sent Father Meyer to Dayton to minister to the sick of Emmanuel Parish. On March 19, 1850, the feast of St. Joseph, Father Meyer purchased Dewberry Farm from John Stuart and renamed it Nazareth. Mr. Stuart accepted a medal of St. Joseph and a promise of $12,000 at 6% interest in return for 125 acres, including vineyards, orchards, a mansion, and various farm buildings. Meanwhile, more Maristians arrived, and Nazareth became the first permanent foundation of the Society of Mary in the Western Hemisphere.

Academic costumes are as old as the universities themselves. Practically all of them derive from some form of clerical or priestly garb worn by the students and faculty in the Middle Ages. In Europe, each institution seems to have its own variant of costume, but in America academic costume follows a uniform code drawn up by a special commission in 1895. The code has three main parts: that is, it deals with caps, gowns, and hoods.

The Oxford type cap or mortar-board seems to have evolved from the square biretta of Renaissance churchmen. It is always black and may be of any appropriate material except that velvet is reserved for doctors. The tassel worn with the cap has three variations. First, it may be black for any degree. Second, it may be the color of the faculty in which the degree was granted. Third, a tassel made of gold metallic thread is reserved to doctors and governing officials of institutions. At the moment the degree is awarded, the tassel is turned to the right side of the left side of the cap.

Gowns, which according to the code are all black, are of three kinds. The bachelor's gown is a relatively simple kind falling in straight lines from a fairly elaborate yoke. Its distinguishing characteristic is the long pointed sleeves. Master's gowns are set apart by a peculiar arrangement of long sleeves whereby the arms emerge from the sleeves through slits at the elbow. The rest of the sleeve dangles and terminates around the knee of the wearer in a square end into which a semi-circle is cut. In 1960, however, the gown was modified. In place of the elbow slit, an opening was made at the wrist and the gown was made to close. The doctor's gown is an elaborate costume marked by velvet panels down the front and around the neck as well as by three bars of the same material on the belt shaped sleeves. It is cut much fuller than the other gowns and unlike them may be ornamented in color. Both the paneling and the sleeve bars may show the faculty in which the degree was awarded.

The hood alone clearly shows the level of the degree, the faculty in which it was given, and the institution which awarded it. The level of the degree is shown by the size of the hood, the width of the velvet trimming, and in the case of the doctor, by the shape. The bachelor's, the master's, and doctor's hoods are three feet, three and one-half feet, and four feet long respectively. The velvet trimming in the same order is two, three, and five inches. This extends all around the hood on the exposed edge. To make a more comfortable fit, it is allowed to narrow to the neck band. This same trimming identifies the faculty in which the degree was awarded. For each faculty there is a corresponding color so a glance at the trimming is all that is needed to identify the faculty. The institution which awarded the degree is indicated by the colored lining. Dayton hoods are lined with cardinal red silk crossed by a Columbia blue chevron.

The color of the faculty referred to above indicates the field in which the degree was taken. The colors seen most often in a Dayton procession, with the fields they represent are:
The University of Dayton
Anthem

On mountain high and hillside,
O'er meadow and through dell
In busy mart and hamlet,
Where hearts their story tell,
A clarion voice is ringing,
It rises, now it falls
Arouse, all ye of Dayton,
Your Alma Mater calls.

UD, we hear you calling,
Fidelity's the test,
Your sons and daughters answer from
North, South, East and West,
With measured tread advancing,
Our emblem full in view,
We sound your praise and pledge
Our loyalty to the Red and Blue.
