Undergraduate Ceremony

UNIVERSITY OF DAYTON ARENA
The University of Dayton regards its Commencement Exercises as among the most important ceremonial occasions of the academic year. These exercises are filled with symbols and traditions designed to remind us all of the thousands of years that universities have existed and their noble purposes.

The academic costumes of various colors and types are part of the symbolism. They are described on page 80 of this program. The bright blue gowns with red trim are worn by those serving as University Marshals for today’s ceremony (see page four of this program). The Marshals wear these distinctive gowns as identification of their official capacity to direct the processions of administrators, faculty, and students who wear the more conventional ceremonial garb and mortarboard.

The chief University Marshal carries the University mace and the President wears the President’s medallion. On stage are the United States and papal flags. So, too, the music that is played and the words that are spoken have special significance. For example, the deans who have been responsible for the education of the students “present” the students as worthy of graduation to the President. In turn, the President confers the degrees on behalf of the University.

At our Commencement ceremonies, which differ from many universities, each student’s name is read and the President then congratulates that student. The University believes that this is an important part of the graduation ceremony. The University also has a tradition of faculty coming from their seats behind the stage to congratulate the graduating students. These traditions symbolize the caring and person-oriented spirit of the University.

The University hopes you will both enjoy and respect this Commencement. You can do both by standing for the invocation, and the National Anthem; by listening during the awarding of the degrees, and by standing to sing the University of Dayton Anthem (see page 81). We are the University of Dayton community, a community which respects and cares for each other. This 161st Commencement marks another beginning. Let us rejoice together.

PROGRAM NOTE
Last minute additions or deletions must often be made after the program has been printed. The information in this graduation program does not reflect students’ final transcripts. Official diplomas and appropriate honors will be awarded upon completion of all degree requirements and fulfillment of financial obligations. May 7, 2011 is the official date when all Spring degrees are being conferred. The official list of the names of graduates is recorded in the Office of the Registrar.

Only representatives of the press, authorized by the University Marshal, are permitted to take photographs on the floor.

Guests and visitors may take photographs from the stands, only. Please remain seated during the Processional.

THE MARIAN LIBRARY/INTERNATIONAL MARIAN RESEARCH INSTITUTE (IMRI)

Founded by the Marianists of the University of Dayton, the Marian Library/International Marian Research Institute has the universal mission to make the Virgin Mary, Mother of Jesus Christ, better known, loved and served. This global, scholarly and pastoral privilege is fulfilled above all through the operation of the Marian Library, founded in 1943 and today recognized as the world’s largest and most comprehensive collection of printed materials on the Blessed Virgin Mary, as well as through the International Marian Research Institute (IMRI).

The International Marian Research Institute was established in 1975 at the University of Dayton in affiliation with the Pontifical Theological Faculty Marianum in Rome. IMRI offers a graduate program from the Marianum leading to a Licentiate of Sacred Theology (S.T.L.) and a Doctorate of Sacred Theology (S.T.D.). The program is accredited by the Marianum and approved by the Congregation for Catholic Education at the Vatican. Presently there are only two places in the world, Rome and Dayton, where students can earn the Licentiate of Sacred Theology (S.T.L.) and the Doctorate of Sacred Theology (S.T.D.) with specialization in Mariology.

DOCTOR OF HUMAN LETTERS, HONORIS CAUSA
His Excellency Archbishop Dr. Elias Chacour,
Arch-eparchy of Akko, Haifa, Nazareth and Galilee

Today the University of Dayton confers an honorary degree on His Excellency Archbishop Dr. Elias Chacour for his selfless spirit of service, dedication to the common good, and commitment to peace and reconciliation through education.

Archbishop Chacour was born in 1939 in Upper Galilee to a Palestinian Christian family belonging to the Melkite Catholic Church, an Eastern Byzantine Church in communion with Rome. An Israeli citizen, Archbishop Chacour graduated from St. Sulpice Seminary and the Sorbonne in France before ordination in 1965. He holds a master’s degree in Bible and Talmudic Studies from Hebrew University (1968) and a doctorate in Ecumenical Theology from the University of Geneva (1971). In 2006, he was consecrated as the Archbishop of the Melkite Catholic Church of Haifa, Akka, Nazareth and Galilee in northern Israel.

Spanning four decades, Archbishop Chacour’s ministry focuses on educating children and youth from disparate backgrounds. He fosters new educational opportunities for thousands of students in Galilee through Mar Elias Educational Institutions (MEEI), which under his leadership has expanded steadily to include a kindergarten, high school, technical college, teacher training center, and school for gifted students. MEEI enrolls more than 4,000 students and employs 290 faculty from Christian, Muslim, Druze, and Jewish traditions. In 2003, Archbishop Chacour founded Mar Elias University, the first university in Israel open to all ethnic groups.

Archbishop Chacour is the author of two books, Blood Brothers (1984) and We Belong to the Land (1990). His accolades include the World Methodist Peace Award, the Niwano Peace Award, France’s Legion of Honor, the Marcel Rudloff Peace and Tolerance Award, and three Nobel Peace Prize nominations.

The University honors Archbishop Chacour’s life’s work and celebrates the many ways his educational ministry helps people live and work together by drawing attention to humanity’s interconnectedness. Archbishop Chacour is a man who chose to take to heart the words of the Man of Galilee. He chose to be a man of peace and reconciliation.

He realized that the future of all of God’s children in the Holy Land would depend on the education of the young in the ways of peace, reconciliation, respect and justice. His inspiring life and dedication to peace continue to be powerful beacons of hope in the Holy Land and across the globe.

As with the University of Dayton, MEEI and Mar Elias University educate the whole person, while cultivating respect for differences and thirst for commonalities. As the Archbishop recently remarked, “[MEEI and Mar Elias University] teach the spirituality of the Sermon on the Mount to all students, and they all live and work together. My only wish is that they sit together around desks and write the future of their children. It cannot be an isolated future for them…. [T]hey were all born in the image and likeness of God.”

University of Dayton Ceremonial Mace

The Ceremonial Mace is an ornamented staff of wood, carried before a high official in civic ceremonies by a mace-bearer, intended to represent the official’s authority. The mace as used in our time derives from the original mace used as a weapon to defend a sovereign during public appearances. Today the mace is used in processions, as on parliamentary or formal academic occasions.

This University of Dayton Mace was designed to replace an earlier version which needed repair and was retired from use after the 2008 December graduation ceremony. The new Mace was designed by Charles P. Wanda, SM ’59 and executed by Mr. William Wiehe of Artisan Wood Ltd. The Mace is made of walnut and is topped with the official seal of the University. Below the seal on the staff is a ring of multiple notches that represents the various components of the University, its colleges and all other organizations on campus that fulfill the mission to learn, lead and serve. Below it are two rings one Blue and one Red to represent the school colors. Near the bottom of the staff is a gold ring representing the wealth of knowledge and experiences passed on to generations of graduates.

At the bottom of the staff is a four sided triangular piece with each side bearing the Marianist Cross, a symbol to represent the original four Marianists, Bro. Zehler, Bro. Schultz, Fr. Meyer and Bro. Edel who founded the university in 1850. The entire staff was designed to be a symbol of the torch of knowledge.

The University Mace is only present during official ceremonies when the President of the University is in attendance.
In the summer of 1849, Father Leo Meyer and Brother Charles Schultz, the first Marianist missionaries to America, journeyed from France to Cincinnati, Ohio, where they intended to establish a house for the order in this country. They arrived, however, during a cholera epidemic, so Bishop John Purcell of Cincinnati soon sent Father Meyer to Dayton to minister to the sick of Emmanuel Parish. On March 19, 1850, the feast of St. Joseph, Father Meyer purchased Dewberry Farm from John Stuart and renamed it Nazareth. Mr. Stuart accepted a medal of St. Joseph and a promise of $12,000 at 6% interest in return for 125 acres, including vineyards, orchards, a mansion, and various farm buildings. Meanwhile, more Marianists arrived, and Nazareth became the first permanent foundation of the Society of Mary in the Western Hemisphere.

The University of Dayton had its earliest beginnings on July 1, 1850, when St. Mary's School for Boys, a frame building that was a shift to a largely residential mansion, and various farm buildings. Meanwhile, more Marianists arrived, and Nazareth became the first permanent foundation of the Society of Mary in the Western Hemisphere.

Enrollment passed a thousand when World War II broke out. By 1950, with the return of the veterans, it reached more than 3,500. The 1960s saw significant increases in female and minority students. In the 1970s, there was a shift to a largely residential student body, and at the same time many more "nontraditional" (older) students matriculated. By the mid-1970s, total enrollment steadied at more than 10,000, with current enrollment of approximately 6,800 full-time undergraduates.

A long-range environmental design has helped integrate new buildings and old, and made the campus more livable by increasing its beauty as well as its efficiency. As the University of Dayton enters the 21st century, it is building modern student facilities, including ArtStreet and Marianist Hall (2004) and RecPlex (2006). Academically, the University has continued to expand and enrich its offerings and support services, especially since mid-century. Graduate studies, abandoned during World War II, resumed in 1960, with the School of Education leading the way. In 1969, the Department of Biology inaugurated the first doctoral program since 1928. The School of Engineering introduced two doctoral programs in 1973, and in 1992, the first doctoral degrees in educational leadership were awarded. In 1997, the Board of Trustees approved a doctoral program in theology with a focus on the Catholic experience in the United States. It was the first such doctoral program in a Catholic campus nationally.

The University has always maintained a tradition of innovation. In 1874, St. Mary's Institute's new Play House gymnasium was the only one of its kind in Ohio, and it is probable that the first organized basketball game in the state took place there. In 1924, the University was the first school to be granted a charter by the National Aeronautical Association. It was one of the first in the nation to offer a course in biophysics (1935). In 1952, it invited persons over 60 to attend its evening classes as guests. Its graduate program in laser optics was one of the earliest in the country. It was one of the first educational institutions to adopt electronic data-processing equipment and offer degrees in computer science. In 1999, the University of Dayton was the first in the nation to offer an undergraduate degree program in human rights. In 2004, the University of Dayton partnered with Nanjing University, one of the top universities in China, to establish the University of Dayton-Nanjing University Suzhou Executive Training Center. The University will be the first American university in China's Suzhou Industrial Park (SIP) to provide graduate education to employees of American corporations and other international companies.

More than just a breeding ground for academic excellence, the University also responds to the needs of society and the region. Sponsored research at the University began in 1949 with a few faculty members and student assistants doing part-time research for industry and government agencies. In 1956, the University of Dayton Research Institute (UDRI) was formed to consolidate the administration of the growing research activities. Annual research volume has increased from $3,821 in 1949, to more than $60 million today. A center for discovery, development and technology commercialization, UDRI is the largest nonmedical research facility on a Catholic university campus.

The Dayton Early College Academy, a charter school that emerged from a partnership between the University of Dayton and Dayton Public Schools, has already attracted notice from the Bill and Melinda Gates Foundation as one of the five most innovative "small scale" high schools in the country. Students take college coursework while earning their high school diplomas. Many of the DECA graduates matriculate at the University of Dayton or at other regional higher education institutions.

The University of Dayton's R.I.S.E. (Redefining Investment Strategy Education) Forum has grown into the world's largest student investment forum. Some of the most influential and respected financial leaders travel to Dayton to interact with students and faculty from around the globe. The United Nations Global Compact joined UD as a co-sponsor for the forum in 2007. Additionally, strategic partners include some of the most well-respected names in international finance, including The New York Stock Exchange, NASDAQ, TIAA-CREF, The Wall Street Journal, CNBC Shanghai Stock Exchange, Amman Stock Exchange (Jordan), Palestine Securities Exchange, Colombo Stock Exchange (Sri Lanka), Bovespa Stock Exchange (Brazil), and Deutsche Asset Management, to name a few.

From its humble roots as a private boarding school for boys, the University of Dayton today ranks among the best Catholic universities in the country. It is the largest independent university in Ohio and draws students from around the country and the world.

ACADEMIC COSTUMES

Academic costumes are as old as universities. They originated from clerical or priestly garb worn in the Middle Ages. American academic costumes follow an 1895 code covering three main parts: caps, gowns and hoods.

The Oxford, or mortar-board, cap evolved from the square biretta of Renaissance churchmen. It is always black and may be of any material except velvet, which is reserved for doctors. The tassel has three variations. It may be black for any degree, the color in which the degree was granted or gold metallic for doctors and governing officials. At the moment the degree is awarded, the tassel is switched from the right to the left side of the cap.

Gowns are all black, and there are three kinds. Bachelor's gowns fall in straight lines from a fairly elaborate yoke. Master's gowns are set apart by long sleeves that terminate around the knee in a square end into which a semi-circle is cut. The doctor's gown has velvet panels down the front, around the neck and three bars on the bell-shaped sleeves. It may be ornamented in color. Both the paneling and the sleeve bars may show the faculty in which the degree was awarded.

The hood shows the level of the degree, the faculty in which it was given and the institution which awarded it. The level of the degree is shown by the size of the hood, the width of the velvet trimming and, for the doctor, by the shape. The bachelor's, master's and doctor's hoods are three, three and one-half, and four feet long. The velvet trimming is two, three and five inches. This same trimming identifies the faculty in which the degree was awarded. The institution which awarded the degree is indicated by the colored lining. Dayton hoods are lined with cardinal red silk crossed by a Columbia blue chevron.

THE UNIVERSITY OF DAYTON ANTHEM

On mountain high and hillside,
O'er meadow and through dell
In busy mart and hamlet,
Where hearts their story tell,
A clarion voice is ringing,
It rises, now it falls
Arouse, all ye of Dayton,
Your Alma Mater calls.

UD, we hear you calling,
Fidelity's the test,
Your sons and daughters answer from
North, South, East and West,
With measured tread advancing,
Our emblem full in view,
We sound your praise and pledge
Our loyalty to the Red and Blue.
Graduation Medal

This year, as we celebrate the birth of the founder of the Society of Mary, we begin a new tradition that grounds us in our mission and demonstrates the University of Dayton’s commitment to act boldly and imaginatively in community. We give to graduates a medal bearing the image of Blessed William Joseph Chaminade on one side and the seal of the University on the other. It will be an enduring tradition begun this Chaminade Year.

Blessed William Joseph Chaminade

With the entire Marianist Family throughout the world, the University of Dayton is celebrating this year the 250th anniversary of the birth of Blessed William Joseph Chaminade, the founder of the Society of Mary (Marianists). In 1850, four members of the Society of Mary founded a school which has become the University of Dayton; the Society continues its sponsorship of the University today. We celebrate this special birthday anniversary because Blessed Chaminade’s life and vision inspire us as a community of faith and encourage us to become a community of transformation — to learn, lead and serve. Blessed Chaminade saw that in the midst of social change, which can be radical and disruptive, institutions can remain vibrant and grow. New times he believed called for new methods. That philosophy guides us every day as we live out the Marianist mission on campus. As a community, we read the signs of the times and act boldly and imaginatively.

Chaminade and his Marianist legacy created faith communities and educational institutions that have made the Gospel come alive in every age. We honor the founder of the Society of Mary because Chaminade’s vision of faith communities inspires the University to be a living community, a community that today demonstrates the Gospel being lived out with passion and vitality, with creativity and a collaborative spirit, and with deep faith and openness to go where the Spirit calls us to be.

University seal

The University seal communicates through images and words. The flaming torch in the center symbolizes the light and guidance of faith, a commitment of our University to educate for formation in faith. The open book represents the arts and sciences and their humanizing influence on the professional schools of the University. The wheel/gear conveys the idea of engineering and technology and the other professional studies, avenues through which service to God and to country (Pro Deo et Patria) can be rendered. The letter “M” which appears over the flame of the torch proclaims Mary, the Seat of Wisdom and the Mother of Jesus; it represents the influence of the Society of Mary (Marianists), the religious order of men that founded and sponsors the University. The “M” likewise recalls the original name of the University, Saint Mary’s Institute.

Pro Deo et Patria (“For God and Country”) is the motto of the University — a motto that expresses the twofold duty all have to serve both God and humanity (Patria, translated, means “country” or “native land,” but is interpreted today as embracing the whole world.) The figure “1850” in the outer rim of the seal is the foundation date of the school. The name, UNIVERSITY OF DAYTON, was adopted in 1920. The idea of completeness of education (religious, moral, intellectual, aesthetic, social and physical) is revealed in the circular shape of the seal itself.
UNIVERSITY of DAYTON

YOU WILL ALWAYS BE UD

Four years was just the start. You are a part of a community that continues to make a difference in the world one person at a time.

We wish each of you a lifetime of faith, love, learning and success. Thank you for making our front porch your own. You'll always be welcomed home.

You are UD!
