What is human trafficking?

**The Act** - the recruitment, transportation, transfer, harboring or receipt of persons, **The Means** - by means of the threat or use of force to achieve the consent of a person having control over another person, **The Purpose** - for the purpose of exploitation.

Types of human trafficking

*Sex Trafficking* - Victims tend to be women and children brought across state and international lines, and sold for vast amounts of money.

*Labor Trafficking* - Victims usually come from developing countries, looking for work over seas, are promised a good life, then coerced into forced labor.

*Organ Trafficking* - criminals have delved into this business due to the large need for organ transfers among patients, and those who are desperate often turn to the black market for these organs of other victims.

Preventative Measures Against Human Trafficking

*Protocol to Prevent, Suppress and Punish Trafficking In Persons, Especially Women and Children*

The "3P" Paradigm: Prevention, Protection, and Prosecution
