

Overfishing: Don't Get Reeled Into the Lies

Reine-Marie Hammonds

Dr. Anthony Talbott

Future Initiatives

Quotas and
Policies

Biodegradable
Tools

- 75% of the world's fish species is depleted/exploited
- 1 in 5 people rely on protein from fish
- Biodiversity threatened
- Border issues and resource extraction take precedence

Introduction

Current
Policies

Self-Evaluations, UN's Law of the Sea,
Unregulated Policies

Economic Situation

- Depletion of resources=desperation
- "Out-sourcing" in further waters
- False advertising
