This Book is brought to you for free and open access by the Stander Symposium at eCommons. It has been accepted for inclusion in Stander Symposium Posters by an authorized administrator of eCommons. For more information, please contact frice1@udayton.edu, mschlangen1@udayton.edu.

Overfishing: Don't Get Reeled Into the Lies

Reine-Marie Hammonds

Dr. Anthony Talbott

Future Initiatives

Quotas and Policies

Biodegradable Tools

- 75% of the world's fish species is depleted/exploited
- 1 in 5 people rely on protein from fish
- Biodiversity threatened
- Border issues and resource extraction take precedence

Introduction

Current Policies

Self-Evaluations, UN's Law of the Sea, Unregulated Policies

Economic Situation

- Depletion of resources=desperation
- "Out-sourcing" in further waters
- False advertising
