Overfishing: Don’t Get Reeled Into the Lies
Reine-Marie Hammonds
Dr. Anthony Talbott

• 75% of the world’s fish species is depleted/exploited
• 1 in 5 people rely on protein from fish
• Biodiversity threatened
• Border issues and resource extraction take precedence

Introduction

Future Initiatives

Quotas and Policies

Biodegradable Tools

Self-Evaluations, UN’s Law of the Sea, Unregulated Policies

Current Policies

Economic Situation

• Depletion of resources=desperation
• “Out-sourcing” in further waters
• False advertising
