

The Hookup Culture And How It Affects Men At The University Of Dayton

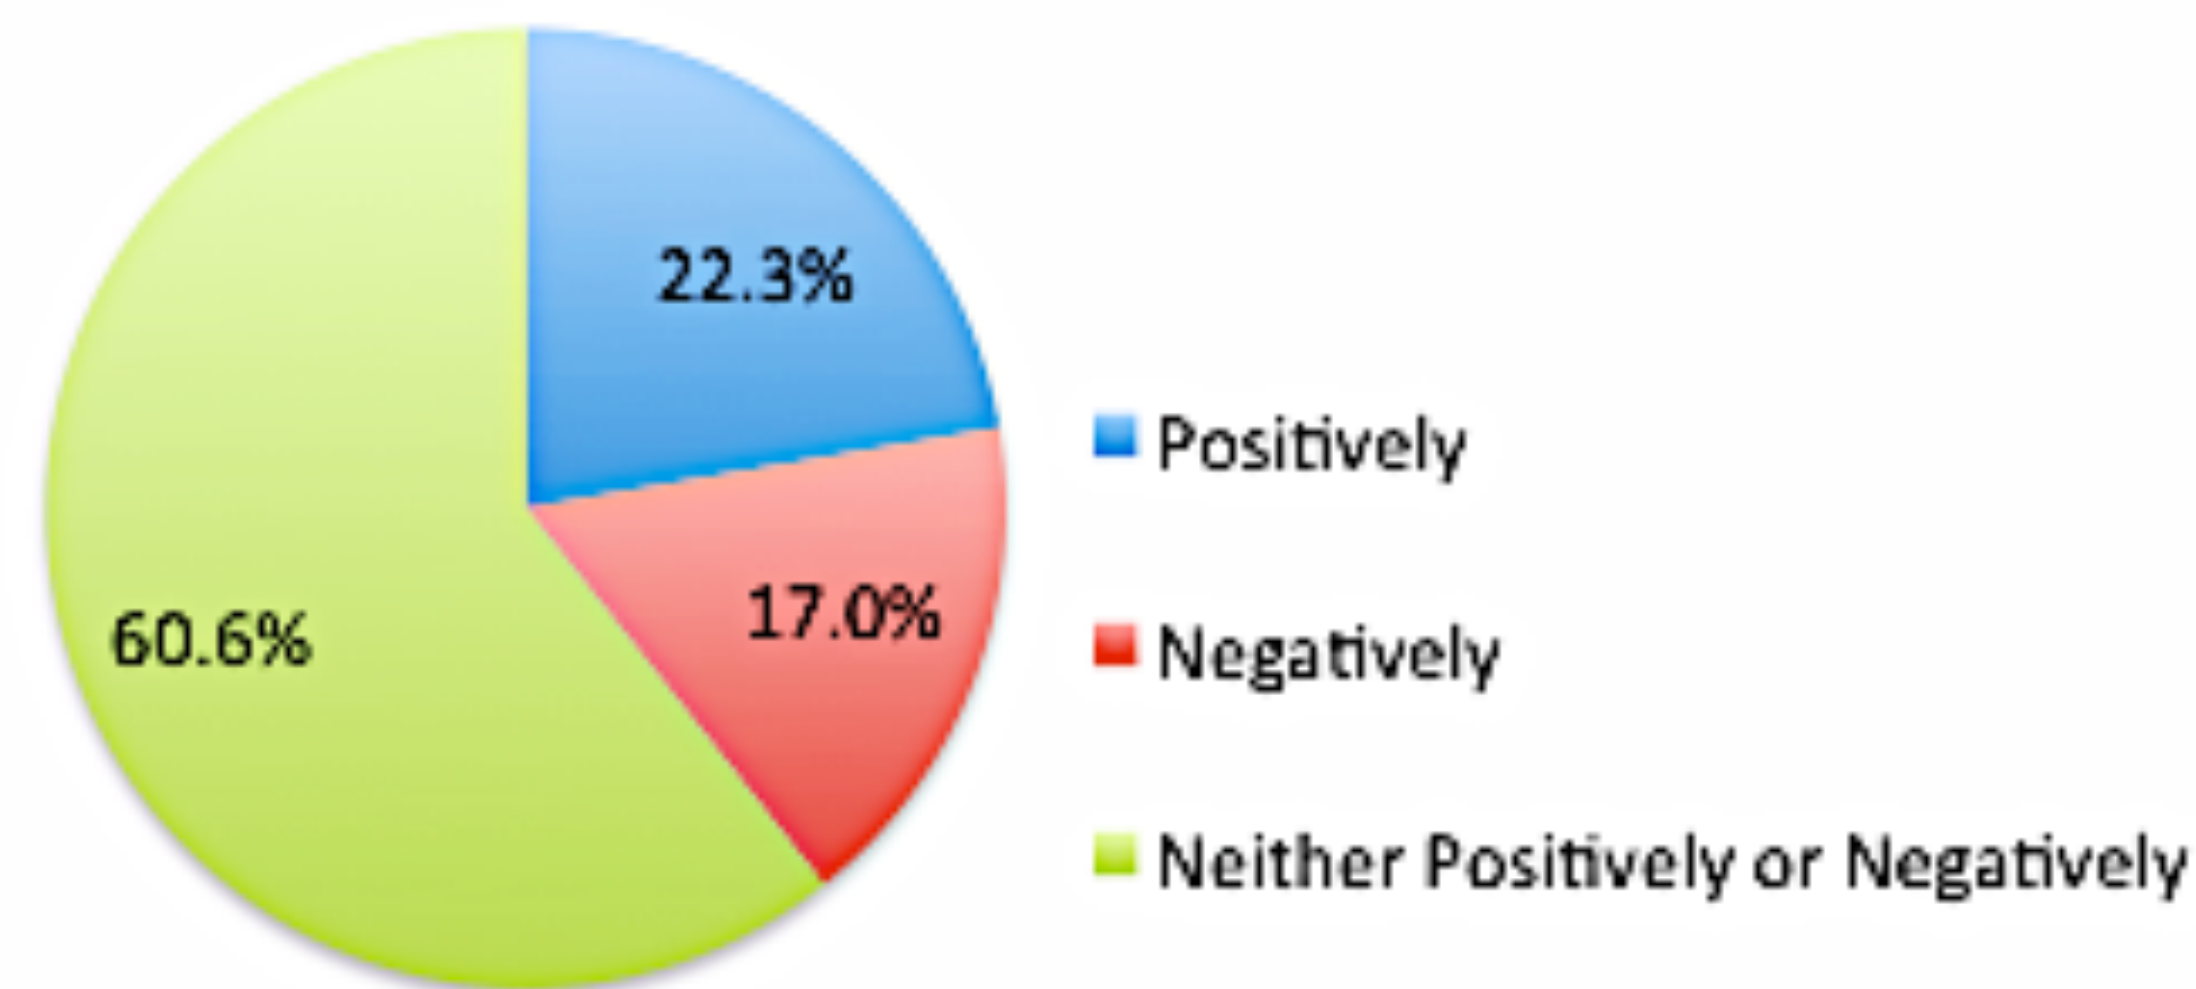

Jacklyn Bertsch

Advisor: Dr. Thompson-Miller

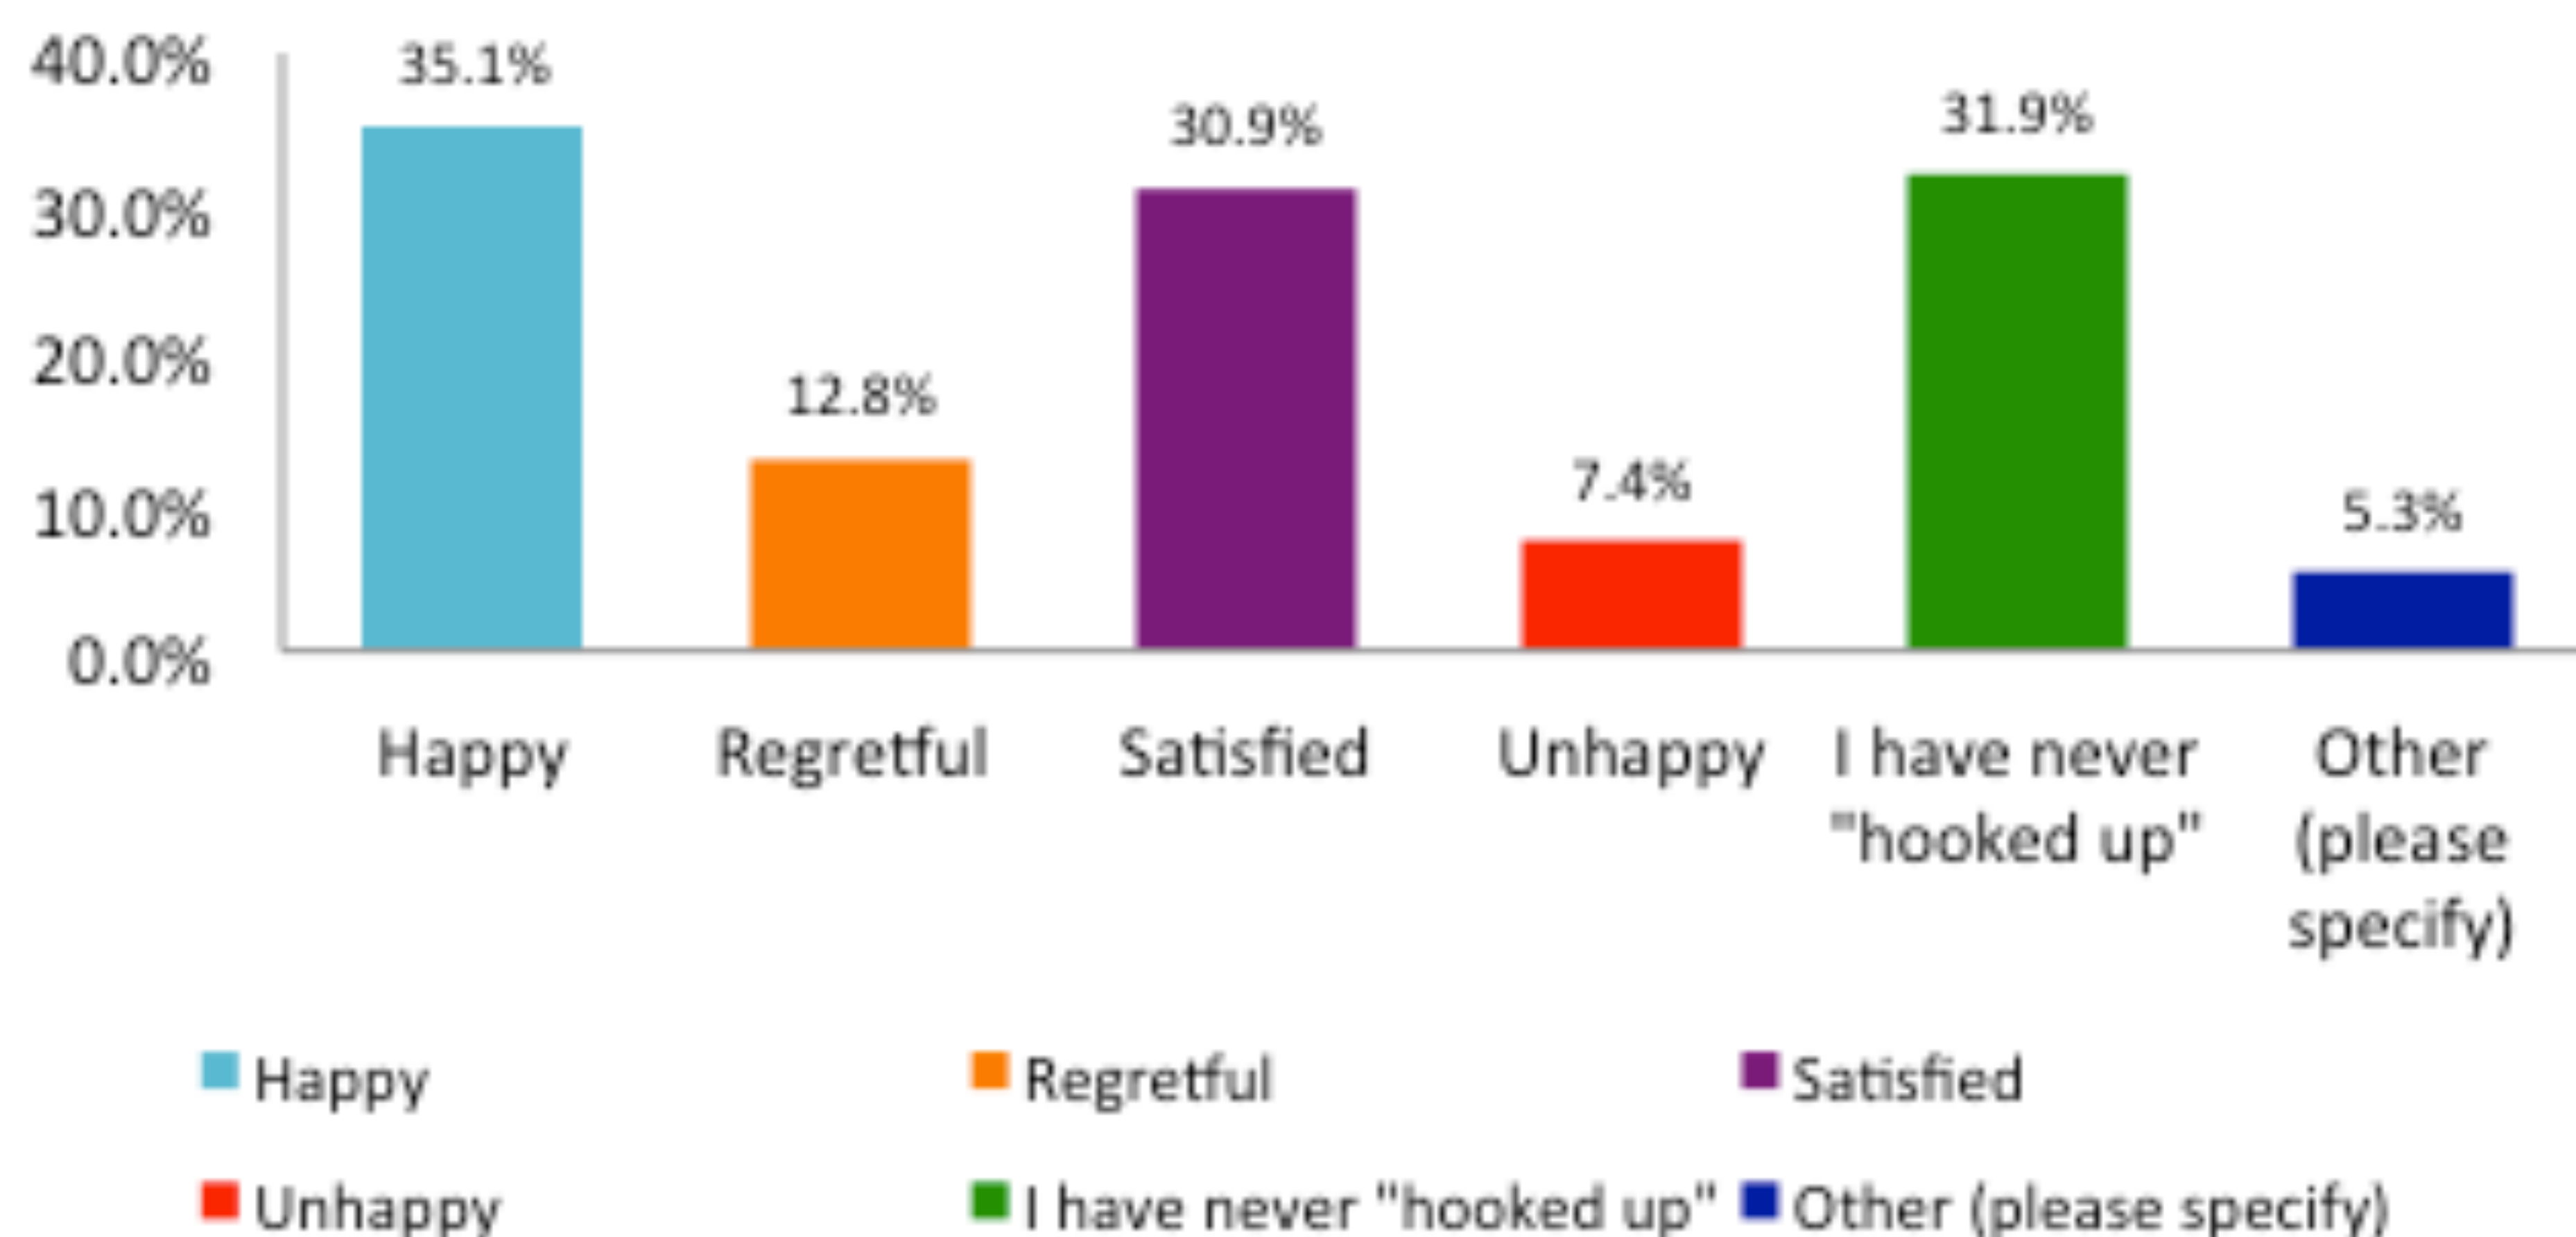

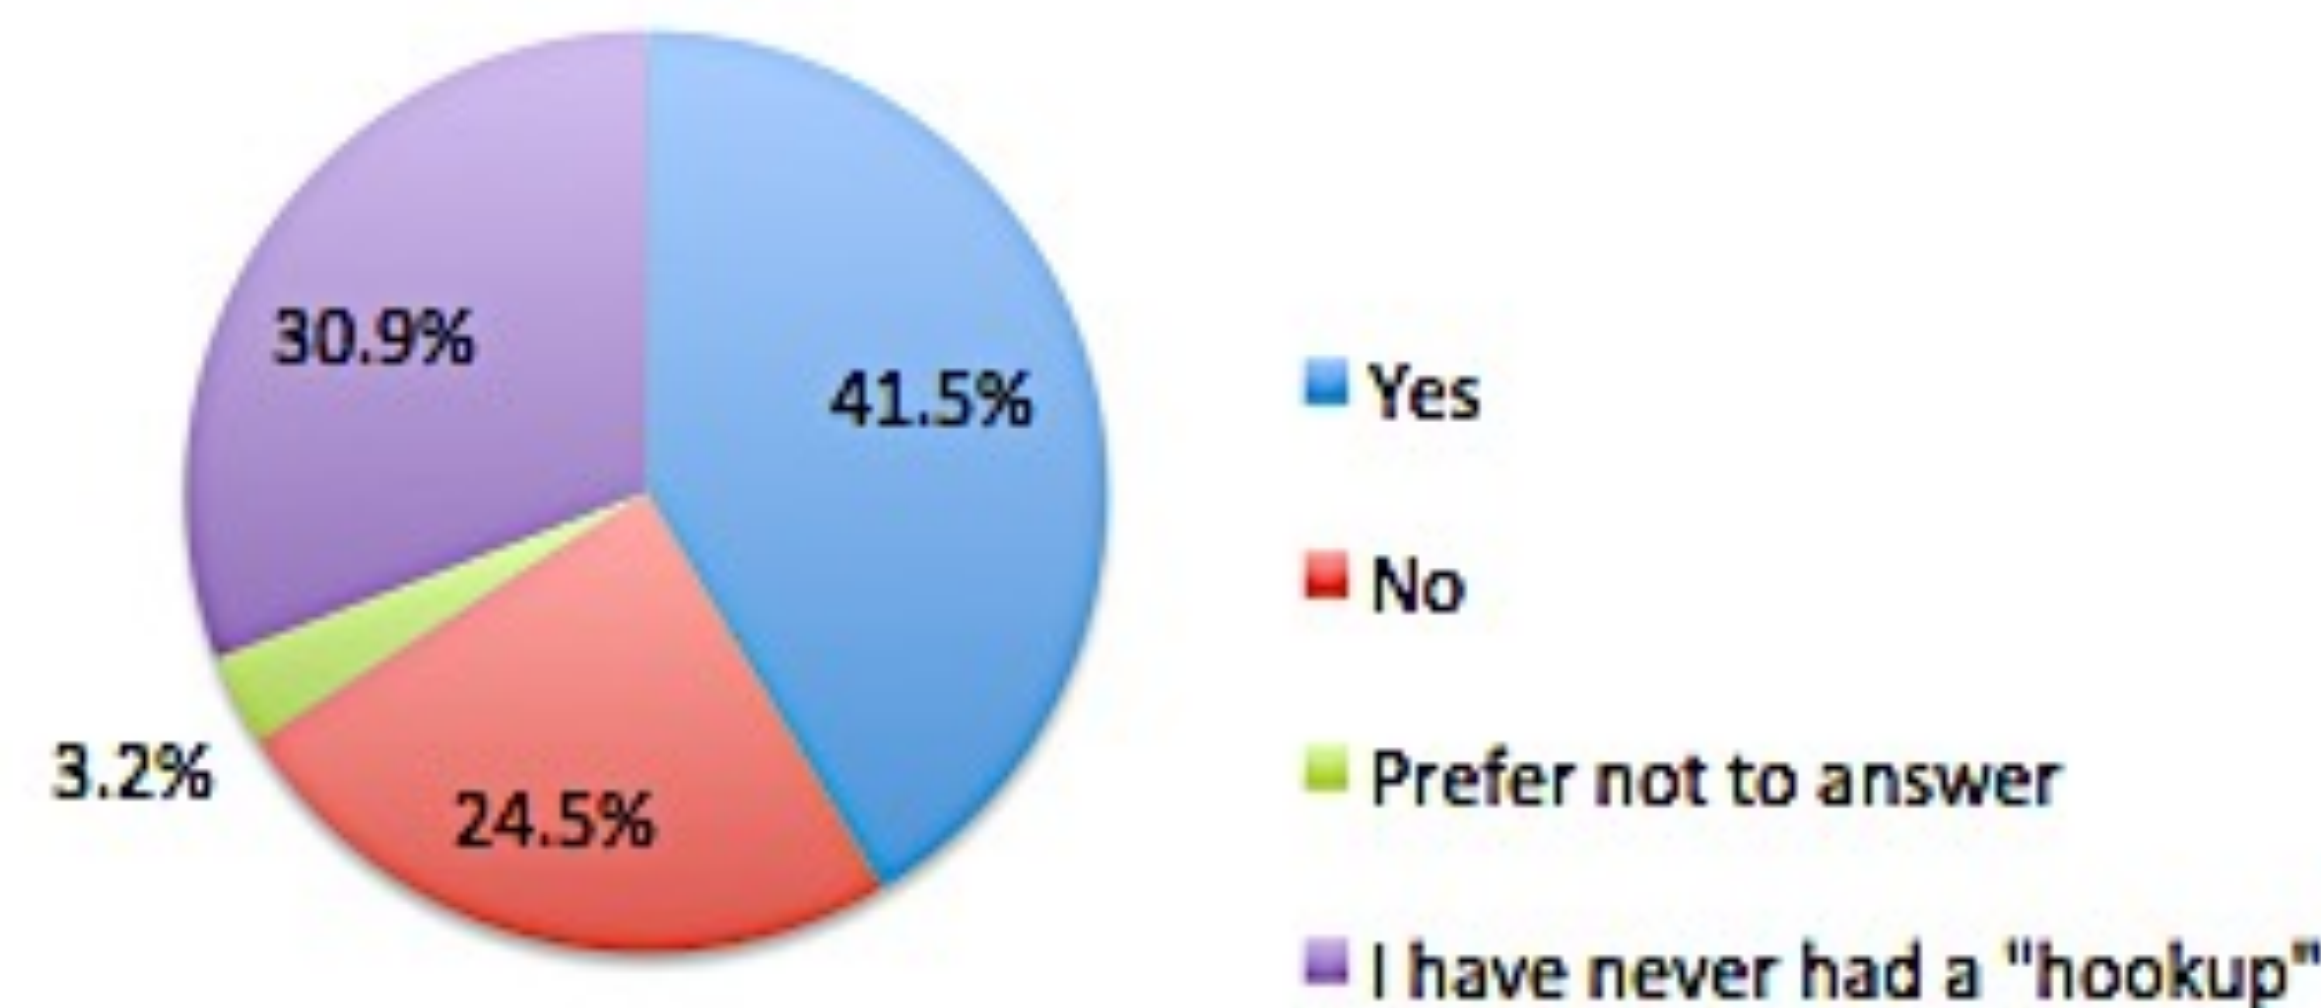

Have you ever engaged in a "hook up?"

How do you view other men who hookup often?

Have you ever had a "hookup" that you regret?

Abstract

This research project explores the hook up culture at UD.

Methods

Participants completes 26 questions on SurveyMonkey

Participants

- 207 participants started the survey with only 94 males- average age 20.3 completing the survey.
- 90.43% Caucasian, 2.13% Asian or Pacific Islander, 1.06% African American, and 3.19% Hispanic.
- 96.81% identified themselves as heterosexual, 1.06% as homosexual, and 2.13% as other.

Results

- 57 out of 94 the respondents did not see other men who hookup often positively or negatively
- 68% of respondents had engaged in a hookup
- 36.17% of respondents hooked up more than 6 times
- 41.49% of respondents said they have regretted a hookup
