Abstract:
The aims of this research is to see how individualized learning plans can help the development of well-rounded students in secondary education programs. We specifically looked into alternative ways of scheduling and instruction that could benefit high school students. The focus is on giving students more control over their experience to make learning more of a personalized process.

Integration of Art Education
- Implementation of STEAM in classrooms
- Importance of cross curricular learning
- Arts as an equal in education
- Art Education and the ‘No Child Left Behind Act’
- Collaborative Creativity vs. Individual Creativity

Benefits of Self-Paced and Flipped Classrooms
- Increase in student motivation
- Promotes a classroom community
- Students are responsible for their own learning
- Reduces stress and anxiety
- Students work at their own pace without feeling restrictions
