Two members of the University of Dayton Student Chapter of the National Society of Professional Engineers were elected as officers of the Student Council of the Ohio Society of Professional Engineers, in Columbus.

Donald Lemoi, West Warwick, Rhode Island, a junior in mechanical engineering was elected President for the 1966-67 year and Neil Gambow, Cleveland, Ohio, a junior mechanical engineering student was elected Secretary-Treasurer.

Lemoi is the President of the University of Dayton Student Chapter. Factors contributing to his election to head the State organization were the excellent record of the local chapter and the enthusiasm of his campaign managers.

Major Donald Woods, Wright-Patterson Air Force Institute of Technology announced the arrangements were complete for the participation of students from all Ohio engineering schools in the State Convention which will be held in Dayton, March 17-19. Student activities will include a dance Friday night, an essay contest for a top prize of $75.00, a panel discussion and a visit to the Air Force Museum. The panel discussion will feature NSPE President Neil Thompson, Dr. William H. Lehman, WPAFIT, and Professor Roger Keith, University of Dayton.
