Basic Improvement Grant Awarded to the University of Dayton
DAYTON, Ohio, July 21, 1967 --- The University of Dayton College of Arts and Sciences has been granted a Basic Improvement Grant under the Allied Health Profession Educational Improvement Program. The grant, awarded by the Department of Health, Education and Welfare, Public Health Service, will be applied to improving the curriculums in Medical Technology and Dietetics.

The initial grant of $15,850 for the period of April 1967-April 1968 will be followed by more funds to be made available over the three year duration.

Improvement of the microbiology curriculum, expansion of facilities, and the addition of courses to the curriculum are the goals of the Medical Technology program. Dr. Rene C. Lachapelle, Associate Professor of Biology at U.D., has been appointed to act as director and co-ordinator of this phase of the program.

Mrs. Lois K. Ittelson, Assistant Professor of Home Economics at the University, will direct the improvement of the Dietetics curriculum. Under this program, physical space now available will be expanded and equipment will be added to allow more experimental work.

Program Director for the project is Miss Ann Franklin, Assistant to the Dean of the College of Arts and Sciences.
