DAYTON, Ohio, January 10, 1968 --- The University of Dayton has received a $1,000 grant from the Cities Service Foundation in New York, Rev. Raymond A. Roesch, S.M., revealed today. The grant, first from the Foundation to the University, will be applied to the construction costs of the proposed engineering/research building.

According to Father Roesch, bids were advertised for the engineering/research building January 2 and will be opened February 7. The University expects to let contracts soon after February 7 and have groundbreaking in late February or early March.

The proposed $7,000,000 structure is designed to strengthen the undergraduate and master's programs in engineering, to create favorable conditions for a doctoral program in engineering and to supply more adequate facilities for the University's research programs.
