DAYTON, Ohio, January 11, 1968 --- The University of Dayton Department of Continuing Education under the direction of Miss Nora Duffy, announces seven courses beginning in January and February.

"Developing Your Personality" is a ten session course beginning on January 22 and continuing for ten Monday evenings. Dr. Thomas Campanelle, Professor of Education at the University, is the instructor for this course which will cover the topics of popular theories of personality, personalizing a theory, influencing people and achieving peace of mind.

Dr. Charles Scheidler, Professor of Psychology at UD, Dr. Thomas J. Hailstones, Dean of the School of Business Administration at Xavier University, Mr. Ralph Vines, a Dayton advertising agent, and Mr. Ralph Bolton, Manager-Special Accounts, Carborundum Company, are some of the scheduled speakers for the second annual seminar on "Effective Purchasing Management." The Purchasing Agents Association of Dayton is co-sponsor for this lecture series starting on February 1 for six Thursday evening sessions.

Topics will include Motivation and Causation of Behavior, Creative Thinking, Systems Contracting, and Economic Forecasting.

"Human Relations," a short course taught by James A. Buckenmyer, Assistant Professor of Business Management at the University, is primarily intended for the first-line supervisor. The course will be covered in eight 2½ hour sessions, beginning on Tuesday evening, February 20. Basic understanding of man, development of the concept of leadership, problem solving, and communications and human relations are the subjects which will help the participants in solving human relations problems.

February 20 is also the opening date for "Titanium Technology," a metals engineering institute course which is co-sponsored by the Dayton Chapter of the American Society for Metals. This 17 week course is an introductory and review course for the technician through the graduate engineer and will be taught by Dr. Harold Gegel of the Materials Lab at Wright-Patterson AFB. The certificate of the Metals Engineering Institute will be awarded for successful completion of the course.

An eight session course titled "Management to Objectives" begins on Monday evening, February 26. This course is designed for present and potential supervisors and managers who need an understanding of the fundamentals of management. Instructor of the course is Mr. William F. Flanagan of Career Development at WPAFB.

"Psychology for Women" will once again be taught by Dr. Charles Scheidler, UD Psychology professor. This popular course begins on February 27 and includes eight sessions. It will cover topics of personal development, learning to live with others, the care and feeding of husbands and "Four Wallitis."

"Management Orientation to Computer Data Processing" is a seven session lecture-workshop beginning on Wednesday, February 28. The course is designed for management personnel who wish to increase their understanding of computer systems and it will be taught by Mr. John H. Moots, of Data Processing at WPAFB.

Further information on these courses can be obtained from the Office of Continuing Education at the University of Dayton, 461-5500, Ext. 346.
