FOR RELEASE -- April 26, 1968

DAYTON, Ohio --- Three University of Dayton faculty members were honored with Alumni Awards last evening at the President's Recognition Dinner. The First Prize award of $500 went to Dr. George J. Ruppel, S.M., Professor of History. Professor Roger H. Keith, Department of Chemical Engineering, received the Second Prize of $300 and the Third Prize recipient of $200 was Dr. George B. Noland, Chairman of the Department of Biology.

University President, the Very Reverend Raymond A. Roesch, S.M., presided at the Recognition Dinner in the Kennedy Ballroom. In addition to the Alumni Awards, the program included the announcement of faculty promotions, grant recipients and special appointments.

The Alumni Awards were presented by Brother Elmer C. Lackner, Vice President for Public Relations and Development, and Mr. Jerome Westendorf, President of the National Chapter of University of Dayton Alumni, to these three men who have distinguished themselves and brought recognition to the University.

Dr. Ruppel, whose name appears in Who's Who in the Midwest, has contributed works to the Dictionary of International Biography, The New Catholic Encyclopedia; The Ohio State Archaeological and Historical Quarterly; The Historian--A Journal of History; and The Catholic Historical Review. In the area of research, the U.S. Air Force has contracted with him to write "The Story of the 6570th Aerospace Medical Research Laboratories," and the Battelle Memorial Institute has requested his services in a study "How to Recognize a Potential Insurgent." In addition to his teaching, Dr. Ruppel is the campus representative for Woodrow Wilson Fellows, the Danforth Foundation, Rhodes Scholarship, and the Fulbright Program. He is also a member of the American Historical Association.

Professor Roger H. Keith has a reputation as an "expert on equipment design, instrumentation and process control." His publications include special chapters in two books dealing with instrumentation and spectrophotography and he has had articles published in the British Journal of Scientific Instrumentation; Society of American Measurement, Control and Instrumentation Division Magazine; Applied Optics; Instrument...
News; University of Dayton Engineer. He has also lectured on instrumentation and general engineering areas at UCLA, Oklahoma State University, University of Arizona and the University of Chicago.

The third Alumni Award winner, Dr. George B. Noland, is leading his department to U.D.'s first Ph.D. program. He has distinguished himself as an author in the field of science as co-author of a textbook in General Biology with an accompanying laboratory manual, co-author of a General Biology text, African and Asian Edition, and as a consultant for two publishing companies. He is a committee member for the Academic Evaluation of Cedarville College and is a panel member for the Western Ohio Education Association.

Thirty-two faculty members were awarded promotions including three from associate professor to professor, twelve from assistant to associate professor and seventeen were raised from the rank of instructor to assistant professor.
