DAYTON, OHIO 45409 AREA CODE 513 461-5500 EXT. 500

DAYTON, Ohio, March 14, 1969 --- Twenty four local high school physics honor students and their teachers from 12 secondary schools will be the guests of honor at a banquet Thursday, March 20, in the University of Dayton's John F. Kennedy Memorial Union, at 6 P.M. The student guests will be awarded Department of Physics certificates for outstanding accomplishment in their high school physics courses.

Dr. Joseph Feldmeier, Vice President of the world famous Franklin Institute in Philadelphia and director of its research laboratories, will be the speaker at the dinner which is co-sponsored by Sigma Pi Sigma, UD's Physics Honor Society, and the Society of Physics Students, a national organization, in the Ballroom.

Dr. Feldmeier, whose topic will be "The Need for Making Physics More Relevant," has been director of the Franklin research laboratories since 1964. As a research person, Dr. Feldmeier played a principle part in the development of the nuclear design of the Skate class of Submarine Reactor (SFR). He also participated in the designing of the Nautilus reactor and during World War II was a part of the radar research programs conducted at the Massachusetts Institute of Technology. He is a member of several national and international physics organizations.

A special guest for the evening will be Dr. Cecil Shugart, National Director of the Society of Physics Students from the State University of New York at Stony Brook.
