DAYTON, Ohio, December 3, 1969 -- "Administrative Data Processing and Activities in Computer-Assisted Instruction at the University of Dayton" will be the subject of a meeting, Saturday, December 6, in Room 120, Miriam Hall, for Dayton area school district administrators.

The agenda for the day will include the presentation of currently available programs and future plans in the area of Computer-Assisted Instruction as well as a presentation of currently available administrative programs.

Dr. William Busch, Director of Research at RCA Instructional Systems, Palo Alto, California, will speak on "Computer-Assisted Instruction: Available Hardware and Software" at 10:15 a.m. He will be followed at 11:00 a.m. by Mr. Neal Sellick, Director, Regional Computer Center, Ingham Intermediate School District, Ingham, Michigan, who will speak on "Recent Advancements in Administrative Data Processing."

Ending the morning session will be Dr. Martell Gee, Manager, Scientific Systems Group, Office for Computing Activities, University of Dayton, Dayton, Ohio, speaking on "Laboratory Techniques and Simulation in Science."

Following a luncheon in Kennedy Union, there will be demonstrations of the Singer Math Package for grades two through six, Harcourt, Brace & World's programs for English Drill and Practice and Remedial Reading. Programs for problem solving and the simulation of a linear accelerator will also be presented.
