DAYTON, Ohio, September 9, 1970 --- Dr. Seshadri Srinivasan, Department of Chemical Engineering, University of Dayton, will present a paper entitled "Reverse Osmosis in a Curved Tubular Membrane Duct" in the Third International Symposium on Fresh Water from the Sea. The Symposium is organized by the European Federation of Chemical Engineering and will be held in Dubrovnik, Yugoslavia, 13-17 September 1970.

The Symposium brings together professional men who are engaged in scientific research and technical development concerning production of fresh water from sea and brackish water, an extremely important problem of the seventies.

Dr. Srinivasan's trip is sponsored by the Research Council, University of Dayton and the Tait Manufacturing Company. Dr. Srinivasan was associated with the Research Department, the Tait Manufacturing Company, in the summer of 1970.
