DAYTON, Ohio, September 13, 1985 -- The University of Dayton Department of Civil Engineering will sponsor a three day short course, September 23 through the 25, entitled "Managing Your Pavements: The Future Today."

The course is designed to provide practical instruction on the fundamentals of modern pavement maintenance, repair and management techniques. It has been specially designed to assist engineers to better utilize maintenance and repair dollars. The course is of special interest to municipal, county and state engineers, as well as contractors and others involved in pavement management.

The presenters of the course are Thomas J. Anessi, Ph.D, Assistant Professor of Civil Engineering and Engineering Mechanics at UD; and Edward L. Miller, Assistant Professor in Pavements Engineering at the Air Force Institute of Technology. Several local government officials will also be guest speakers.

Registration for the course is limited and will be handled on a first-come, first-served basis. For more information regarding times and fees contact Wanda Schoen at the UD School of Engineering at 229-2736.
