

VIII School of Education

Ellis A. Joseph, Dean

Joseph Rogus, Associate Dean

Donald Frericks, Assistant Dean

In conformity with the University's purposes, the School of Education endeavors to foster both the development of those general capacities of the students which flow directly from their human nature and the development of those particular capacities which enable them to become effective practitioners in the field of professional education.

The general capacities of the students are developed through a broad and sound general education. It acquaints them with the major areas of knowledge and provides planned opportunities for personal, social, and ethical development.

The particular concern of the School is the professional preparation of teachers for the elementary and secondary schools. Provisions for professional competence are made through (1) comprehensive study of specialized teaching fields, (2) thorough study of the professional foundations common to all teaching, (3) specialized study of the principles underlying a particular type and level of teaching, and (4) appropriate field-based experiences.

Students in the School of Education should appraise their commitment to teaching according to their development in specific knowledge, skills, attitudes, and values:

Knowledge: Students will demonstrate their knowledge of the teaching and learning process; of human nature and of human development, particularly in educational settings; of the means and ends of education; of the subjects they wish to teach; and of the special needs of the handicapped and students of minority groups.

Skills: Students will be able to assess pupil needs, interests, and level of understanding; to formulate learning objectives; to select appropriate learning content, materials, and activities; to facilitate learning activities and provide effective learning environments; to evaluate pupil progress and provide for self-evaluation by pupils; to assess their own teaching competencies and the effect these have on pupil learning; to foster tolerance and fairness in human relations; and to apply theory to practice in planned and supervised field experiences. Demonstrated competencies are essential in meeting the special needs of handicapped and minority-group pupils.

Attitudes: Students will seek self-development; accept others; trust, be open to and help others; and be enthusiastic for inquiry, experimentation, and discovery.

Values: Students will be committed to education for the betterment of others and society; to the Judeo-Christian principles that refer to a shared common humanity, the dignity of the person, the use of reason, and cooperation in seeking the common good and social justice; to the democratic principles; to a humanistic approach to learning; and to the Marianist tradition in education.

DEGREE REQUIREMENTS

In this chapter are described specific four-year course requirements for certification in kindergarten-primary, elementary, and secondary teaching, education of the handicapped, and special (art, foreign language, physical education, health education) teaching. All of these programs lead to the same degree—Bachelor of Science in Education (B.S. in Ed.). Several endorsements and validations may also be obtained.

The departments have an extensive screening process for students in the first two years of the program. At the end of their sophomore year, all students are required to apply for formal admission to the certification program. At this point their work is reviewed by a faculty committee to determine the extent to which their personal traits, academic work, etc. point toward the likelihood of their success as professional teachers.

The responsibility for meeting the University and State requirements rests with the student. The student is cautioned to study the course requirements and to keep accurate count of the semester hours applicable to graduation. Students planning to teach in states other than Ohio should fulfill University requirements as well as those of the state in which they desire to teach.

Requirements for graduation and teacher certification are the following:

1. Evidence of such general scholarship and personal and moral qualities as give promise of professional success. All students enrolled in programs leading to State of Ohio certification must verify that they are of "good moral character." Pursuant to School of Education policy, these students must complete the appropriate forms provided by the Office of the Dean. All students will be notified regarding this necessary procedure.
2. Evidence of participation in a variety of planned clinical and field experiences essential to the development of the resourcefulness needed by teachers.
3. Successful completion of a minimum of 124 semester hours in approved courses; some programs may require more than 124 semester hours.
4. An overall cumulative point average of at least 2.0 (C) and a cumulative point average of at least 2.5 for the professional education courses and for each teaching field in which certification is sought. Courses in professional education and in the teaching fields must be taken under grading option 1.
5. Successful completion of the following professional education sequence:

	<i>Semester Hours</i>
A. Personal and Professional Development of the Teacher	3
B. Child and Adolescent in Education	3
C. Teaching and Learning	3
D. Teaching in the Elementary School or School, Self, and Society	3
E. Special Methods ¹	varies
F. Philosophy of Education	3
G. Student Teaching	10

¹Each program has one or more methods courses; see specific programs.

With the possible exception of A, B, and C, all courses in the above sequence must be taken at the University of Dayton. Transfer credits from other institutions normally are not accepted in substitution for courses D through F, and never accepted for student teaching.

School of Education

6. Completion of University requirements in general education and basic skills. Students should see Chapter V and consult with their advisors.
7. A passing score on the Preprofessional Skills Test (PPST), which must be taken no later than the second term of the sophomore year.
8. A passing score on an exit examination mandated by the State Board of Education. Students should consult the Education Office (C-104) for dates on which the examination will be administered.

ADVISING AND SCHEDULING

All first-year education students are assigned faculty advisors from the departments in which they are enrolled. All students meet with these advisors at least twice a year. Scheduling for classes is completed through the departmental offices.

UNIVERSITY POLICIES

Students are reminded to refer to pertinent sections of this *Bulletin* and the *Student Handbook* for all policies to which they are subject.

STUDENT TEACHING

Student teaching, which consists of actual classroom teaching under competent supervision, involves full-day sessions for approximately one semester. During the semester of student teaching, the student is not ordinarily permitted to carry more than three semester hours of additional course work. These additional semester hours are scheduled outside the normal school day in order to keep the student-teaching experience intact for the full school day. Students should make financial arrangements such that they need not continue with part-time employment during this semester.

The faculty of the School of Education screen each candidate who applies for student teaching on the basis of the following factors: (1) skill in oral and written communication, (2) quality-point average in course work (at least 2.5 for professional education courses and for each teaching field), (3) physical and emotional fitness, (4) desirable personal and moral traits, (5) completion of the prerequisite courses and field and clinical experiences.

Prerequisites for candidacy for student teaching are (1) official enrollment in a teacher education program at the University, (2) prospective completion of the minimum residence requirement of thirty semester hours inclusive of student teaching, (3) formal application for processing by the screening committee to whom application must be submitted a term in advance of student teaching. (Application blanks may be secured from the department offices, C205 and FH4.)

The campus supervisors have direct charge of the student teaching experience.

Once a week throughout the term a student teaching seminar is held on campus.

Once students have been approved and placed for student teaching, they may not withdraw from the program except with the approval of the department chairperson. A student who withdraws without this approval forfeits future placement in student teaching.

TEACHER PLACEMENT

Students who qualify for teacher certification through the School of Education are aided in securing teaching positions by the School's placement service

in Chaminade Hall, Room C-219. Placement requires cooperation from the candidate in filling out the necessary papers and in submitting recommendations. Dates for interviews with prospective employers arranged by the Office of Educational Placement Services are announced in advance.

TEACHER CERTIFICATION

The School of Education programs are approved by the State Department of Education and accredited by the National Council for Accreditation of Teacher Education.

Ordinarily, Ohio certificates are recognized by other states. Students are encouraged to check certification requirements for states in which they are seeking positions.

In addition to preparing properly certified elementary and secondary teachers, the School also enables students to qualify for kindergarten-primary certification and for special certification in art, foreign language, physical education, health education, music, and the teaching of the handicapped in three fields: specific learning disabled, developmentally handicapped, and multihandicapped. Endorsements and validations are available for adapted physical education, driver education, pre-kindergarten, reading, and typing/keyboarding.

ATHLETIC TRAINING CERTIFICATION

The Department of Physical and Health Education offers two programs in athletic training. The University of Dayton Certificate curriculum is open to any student in the School of Education. This program consists of 26 semester hours of classroom work and 100 supervised internship hours. Students complete 50 hours of on-campus and 50 hours of off-campus internship, all of which are supervised by N.A.T.A.-Certified Athletic Trainers. The State Certification curriculum enables a student to meet the State of Ohio certification requirements upon graduation. This program is designed to give the student a variety of clinical experiences with team physicians, physical therapists, hospitals, and high school athletic programs. See EDP (also EDD, EDH).

INTERSCHOLASTIC COACHING CERTIFICATION

The Certification of Interscholastic Coaches program may be pursued by any student in the School of Education. See EDP (also EDD).

BACCALAUREATE PROGRAMS

The School of Education offers and administers nine basic programs leading to the baccalaureate degree. (Six of these are outlined and their requirements and options discussed in detail later in this chapter under code designations of course subject matter—for example, EDT signifies Teacher Education.) These are as follows:

PROGRAM—E1: ELEMENTARY EDUCATION, grades 1-8

PROGRAM—E2: SECONDARY EDUCATION, grades 7-12

PROGRAM—E3: PHYSICAL EDUCATION K-12

E3a: PHYSICAL EDUCATION 7-12

See EDP (also EDD, EDH).

School of Education

- PROGRAM—E4: HEALTH EDUCATION
E4a: HEALTH INFORMATION SPECIALIST
See EDH (also EDD, EDP).
- PROGRAM—E6: SPECIAL, grades K-12
E6a: Visual Art (EAR)
See EDT. See also ART, Chapter VI.
E6b: Foreign Language (ELA)
- PROGRAM—E7: KINDERGARTEN-PRIMARY, grades K-3
(This program is available separately and in combination with Program E1, Elementary Education. Combined programs may require more than four years to complete.)
- PROGRAM—E8: EXERCISE SCIENCE AND FITNESS MANAGEMENT
See EDP (also EDD, EDH).
- PROGRAM—E9: SPORTS MANAGEMENT
See EDP (also EDD, EDH).
- PROGRAM—E10: EDUCATION OF THE HANDICAPPED, grades K-12
(This program is available separately and in combination with Program E1, Elementary Education. Combined programs will require more than four years to complete.)
E10a: Specific Learning Disabled
E10b: Developmentally Handicapped
E10c: Multihandicapped
- PROGRAM—E11A: TEACHER CERTIFICATION for students in the College of Arts and Sciences
E11B: TEACHER CERTIFICATION for students in the School of Business Administration
See EDT. See also EDT, Chapters VI and VII.

NOTE: All certification programs and teaching fields described in this chapter are subject to approval by the Ohio Department of Education under the certification standards effective July 1, 1987.

GRADUATE PROGRAMS

For in-service teachers, the School of Education offers six graduate programs leading to the Master of Science in Education; these are designed to prepare master secondary teachers, master elementary teachers, school counselors, school psychologists, school social workers, social agency counselors, college student personnel professionals, school administrators, and educational research specialists. For nonprofessional degree holders who are interested in becoming certified teachers, the Department of Teacher Education offers graduate programs leading to various certifications. For in-service teachers who wish to retrain for certification in other areas, the Department of Teacher Education offers a variety of programs. (For details on the graduate programs request a copy of the Graduate Issue of the University of Dayton Bulletin.)

COURSES OF INSTRUCTION

EDI 424. CURRICULUM ENRICHMENT—STUDIES ABROAD: Study of educational philosophies, policies, and programs of other countries in comparison with those of the U.S. *3 sem. hrs.*

EDI 498. HONORS SEMINAR I: Honors student develops honors project. Prerequisite: Permission of director of Honors Program. *3 sem. hrs.*

EDI 499. HONORS SEMINAR II: Honors student completes honors project. Prerequisite: Permission of director of Honors Program. *3 sem. hrs.*

PHYSICAL AND HEALTH EDUCATION (EDP, EDH)

The mission of the Department of Physical and Health Education is to prepare qualified students to be proficient and professional in a vocation encompassing the health, recreational, and physical fitness needs of both youths and adults. The department prepares health and physical education teachers, coaches, athletic trainers, and driver education teachers to meet the needs of the public and private schools. It also prepares exercise science and fitness management specialists for careers in corporation, industrial, hospital, and university wellness programs. A health specialist program is offered for students interested in working with health agencies. An interdisciplinary sports management program prepares students for professional opportunities in private sports clubs, health clubs, sports organizations and federations, and various other aspects of sports and recreation. This program is available in Option I, with a general business core, and Option II, with a business marketing core. Under either option, the student also chooses a specified minor in broadcasting, coaching, journalism, or recreation.

UD CERTIFICATION PROGRAM IN ATHLETIC TRAINING

The certificate in Athletic Training may be pursued by any student in the School of Education. It consists of 26 semester hours of classroom work with 100 clock hours of supervised internship: 50 hours on campus and 50 hours with a high school trainer.

TEACHER EDUCATION (EDT)

The Teacher Education Department's mission is the development of competent and humane teachers. It provides students and faculty the opportunity to serve and learn in elementary and secondary schools. It dedicates itself to the discovery and transmission of the knowledge, skills, attitudes, and values that enable teachers to be professional leaders.

To assure the competency of its students, the Department has established a selection and retention policy which requires students to demonstrate before student teaching at least a 2.5 grade-point average in professional education courses and the subject areas for which they are being certified; ability to pass the Pre-Professional Skills Test; competency in the use of audio-visual equipment and materials; and competency in achieving selected objectives in 300 hours of clinical and field-based experiences. At the completion of their programs, all students are required to pass the exit examination mandated by the State Board of Education.

ELEMENTARY EDUCATION (EDE)

The Department of Teacher Education administers the program in elementary education (E-1), which leads to the Bachelor of Science in Education and certification to teach grades 1-8.

A student in the Elementary Education Program is required to have a concentration of 20 or more semester hours in mathematics, natural sciences, social sciences, or humanities. See advisor for available concentrations.

Endorsement (E) and validation (V) programs are available in the following:

Typing/Keyboarding (E)

Pre-Kindergarten (V)

Reading (E)

In order to do student teaching and be recommended for certification, the elementary education major must earn a quality point average of at least 2.5 in professional education courses and in any additional endorsement or validation area.

Checksheets for each certification area are available in the Department of Teacher Education, C-205, and the School of Education, C-104.

EDUCATION OF THE HANDICAPPED (EHD)

The Department of Teacher Education administers the program in Education of the Handicapped (E10), which leads to certification to teach grades K-12 and to the Bachelor of Science in Education.

A student in the Education of the Handicapped Program is required to have one specialization totalling a minimum of 20 sem. hrs. In order to do student teaching and be recommended for certification, the student must earn a quality point average of at least 2.5 in the specialization, 2.5 in professional education courses, and 2.5 in any additional endorsement or validation area.

Specializations are the following:

Specific Learning Disabled

Developmentally Handicapped

Multihandicapped

Endorsement (E) and validation (V) programs are available in the following:

Reading (E)

Typing/Keyboarding (E)

Pre-Kindergarten (V)

Checksheets for each specialization are available in the Department of Teacher Education, C-205, and the School of Education, C-104.

KINDERGARTEN-PRIMARY (EKP)

The Department of Teacher Education administers the program for kindergarten-primary education (E7) to teach grades K-3, which leads to the Bachelor of Science in Education.

In order to do student teaching and be recommended for certification, the student must earn a quality point average of at least 2.5 in professional education courses and in any additional endorsement or validation area.

Endorsement of a standard Kindergarten-Primary Certificate is available for Reading and Typing/Keyboarding; validation is available for Pre-Kindergarten.

Checksheets of course requirements are available in the Department of Teacher Education, C-205, and the School of Education, C-104. The suggested four-year schedule of courses is similar to that shown for the Elementary Education Program, E1.

SECONDARY EDUCATION (EDS)

The Department of Teacher Education administers the program in secondary education (E-2), which leads to the Bachelor of Science in Education and high school certification (grades 7-12).

A student in the Secondary Education Program is required to have either (1) two teaching fields, usually with a minimum of 33 semester hours in the principal teaching field and a minimum of 30 semester hours in the second teaching field; or (2) a single comprehensive field totaling a minimum of 60 semester hours. In order to do student teaching and be recommended for certification, the student must earn a quality point average of at least 2.5 in each teaching field and 2.5 in professional education courses.

Secondary education teaching fields include the following:

Art	Journalism
Biological Science	Mathematics
Bookkeeping and Basic Business	Physical Education
Chemistry	Physics
Computer Science	Political Science
Drama/Theater	Psychology/Sociology
Earth Science	Religious Studies ¹
Economics	Sales
English	Speech/Communication

⁵Students will have seminar on campus once a week.

MUSIC EDUCATION

The Department of Teacher Education cooperates with the Music Division of the Department of Performing and Visual Arts to offer certification K-12, through the E-11A Program. See MUS, Chapter VI.

SPECIAL K-12

The Department of Teacher Education administers the program for special education (E6) to teach grades K-12, which leads to the Bachelor of Science in Education.

A student in the Special K-12 Program is required to have one teaching field totalling a minimum of 45 semester hours. In order to do student teaching and be recommended for certification, the student must earn a quality point average of at least 2.5 in the teaching field and 2.5 in professional education courses.

Special teaching fields include the following:

Visual Art (EAR), with three concentrations available:

Commercial Design Photography Studio Art

Foreign Language (ELA), with three concentrations available:

French German Spanish

Music Education (K-12) is also available through the E-11A Program.

Endorsement of a standard Special Certificate is available for Reading and Typing/Keyboarding.

Checksheets for each field are available in the Department of Teacher Education, C-205, and the School of Education, C-104. The suggested four-year schedule of courses is similar to that shown for the Secondary Education Program, E2.

ENDORSEMENTS AND VALIDATIONS

Following are requirements for endorsements and validations. For each, the student must meet all the requirements in addition to satisfying the requirements for a standard teaching certificate.

READING (ENDORSEMENT): Valid for grades specified in standard certificate.

EDT 320	Reading and Language Arts (including field experience at appropriate level)	4

**CERTIFICATION FOR STUDENTS IN ARTS AND SCIENCES AND
BUSINESS ADMINISTRATION****PROGRAM—E11A: B.A. or B.S. WITH TEACHER CERTIFICATION****PROGRAM—E11B: B.S. in BUSINESS ADMINISTRATION WITH
TEACHER CERTIFICATION**

Students in the College of Arts and Sciences or in the School of Business Administration may enroll in the Department of Teacher Education's Secondary Education Program without transferring to the School of Education. For requirements in professional education courses and in teaching fields consult the assistant chairperson, undergraduate, of the Department of Teacher Education.

Enrollment in these programs (E11A for students matriculating in the College of Arts and Sciences; E11B for students matriculating in the School of Business Administration) is subject to the same admission requirements, counseling, maintenance of a unified system of records, screening, and other professional provisions standard for regular students of the School of Education working toward the B.S. in Education. These include passing the Preprofessional Skills Test; maintaining a 2.5 average in each teaching field and 2.5 in professional education courses; completing field-clinical and student teaching hours (300 each); taking the comprehensive National Teacher Examinations (NTE); and being in good academic standing at the University.

In order to finish in four years, a student in the College of Arts and Sciences or the School of Business Administration will need to process an application for admission to the Secondary Education Program no later than the third semester and begin the professional education sequence. Failure to enroll on time may necessitate going beyond the normal four years in order to qualify for teacher certification and graduation. The requirements for the College of Arts and Sciences (Chapter VI) or the School of Business Administration (Chapter VII) and those of the School of Education must be completed before any degree is granted.

When the proper course requirements have been completed, the student may register for student teaching, provided that the application for student teaching is duly processed at the beginning of the semester directly prior to the one during which student teaching will take place and that the student has passed the normal screening procedure.

When all the requirements for teacher certification are completed, the student should make application for the standard State Teaching Certificate through the official recommending officer of the School of Education (C-104).
