NOTE: The information which follows, concerning the University of Dayton School of Law, is not as exhaustive as that which will be found in a separate Bulletin, published annually by the School. Moreover, certain topics, treated here, are not treated in the same depth as in that publication, and may be subject to periodic changes. Consequently, persons interested in the study of law should obtain a copy of the School of Law's Bulletin, in order to have the most recent and accurate information concerning its program. The information which follows was accurate for the most recent academic year, but is "representative" of the law program in general.

PROGRAMS AND COURSES OF STUDY

FULL-TIME PROGRAM

Juris Doctor Degree

In order to be eligible for the first degree in law, the Juris Doctor, a student must meet the following requirements:

1. Satisfactory completion of all required courses and sufficient elective courses for a minimum of 84 credit hours of law school work, or approved equivalent;
2. A minimum cumulative grade-point-average of 2.0 for all courses taken under the A to F grading system;
3. Six semesters, or their equivalent, in residence as a full-time law student, as prescribed by the American Bar Association and this School's policy;
4. Evidence of sound moral character.

The Juris Doctor degree program is structured in such a way that the entire first year and certain of the second and third year courses are required. The second and third years of legal study at Dayton provide considerable latitude in selection of elective courses. The structure of the program is designed to insure that the student has confronted all subject areas which are essential to the effective practice of law. Simultaneously, flexibility is provided for the selection of courses in particular areas of interest to each student.

Joint Degree Programs

1. The Juris Doctor / Master of Business Administration

The Juris Doctor / Master of Business Administration Joint Degree Program is an integrated program of study which results in the student receiving both degrees at graduation. This joint degree program was created in response to a growing need for professionals trained in both fields. While specific program structure is set for each student following individual consultation, its basic design is applicable to all students. The first year of the program is pursued in the School of Law. It entails the same course of study prescribed for all first year law students. Course work in the second and third years is distributed between law and business courses, and sequenced in such a way as to achieve integrated progression in the two fields. The fourth year of study consists chiefly of law courses required to complete the JD degree. The designation of selected courses in both the law and business programs as common electives results in the completion of the joint degree program in one term less than would be required if each degree were pursued independently.

The total number of hours required for the MBA degree will depend upon each student's need for prerequisite courses. Those students who obtained undergraduate degrees in fields other than business administration will normally require additional hours. Upon completion of the full program, both degrees are conferred.

Students applying for admission into this, and other joint degree programs, must meet the admission requirements of both departments of the University. Application for admission should be submitted to each school separately, along with other materials, as required.

Graduation from a joint degree program may be accelerated by attending summer terms. Both schools offer summer courses. The residency requirements of both schools' programs must be met however. An applicant interested in this program should indicate this fact in his or her application form, and should contact the Dean of each school, once admitted, in order to plan his or her joint program.

2. The Juris Doctor / Master of Science in Educational Administration

The School of Law in cooperation with the School of Education offers a joint degree program leading to both the Juris Doctor and the Master of Science in Educational Administration. The design of each such program is tailored to meet each student registrant's needs, and provides sufficient flexibility to accommodate individual objectives. The format and requirements of this joint degree program are roughly similar to those described above for the JD / MBA program. Applicants interested in this joint program should consult both the School of Law and the School of Education.

3. The Juris Doctor / Master of Arts

A joint degree program leading to the degrees of Juris Doctor and Master of Arts in Philosophy is offered in conjunction with the College of Arts and Sciences. As with other joint degree programs, students interested in this combined degree program must make a separate application for admission to each school. The design of this joint program is tailored to the individual student's needs, consistent with the requirements of both degree programs. For more information, the interested applicant should contact the School of Law and the College separately.

PART-TIME PROGRAM

From its earliest planning, it has been the University's intention to offer a Part-time program of study leading to the Juris Doctor degree for those students lacking time and / or resources to pursue that degree on a full-time basis. It is the intention of the School of Law to initiate a part-time course of study as soon as practicable.

COURSES COMPLETED IN OTHER GRADUATE DEPARTMENTS FOR CREDIT TOWARD JURIS DOCTOR DEGREE REQUIREMENTS

The School of Law allows its students to apply a maximum of six credit hours of coursework, taken in other of the University's graduate departments, toward the fulfillment of the requirements for the Juris Doctor degree. Pursuant to such allowance, the courses selected must be approved by the Dean of the School of Law, in writing and in advance. The School of Law encourages such interdisciplinary study in areas related to the student's long-range career objectives.

Credit hours received under this provision are recorded on the law student's transcript as K, and do not enter into the student's grade-point average.
