  Serves only economically disadvantaged students. The school is open to students of various faiths and cultures.
Is family centered and plays an active role in the local community.
  Shall prepare all of its students to enter and graduate from college.
Requires participation by all students in the work-study program. All students must be 14 years by September 1st.
  Integrates the learning present in its work program, classroom and extracurricular experiences for the fullest benefit of its student workers.
Has an effective administrative and board structure as well as complies with all applicable state and federal laws.
  Is financially sound and at full enrollment the school is primarily dependent on revenue from the work-study program to meet operating expenses. In addition, the school maintains a comprehensive advancement program to ensure financial stability.
